

October 31, 2017

## **MEDICAL MARIJUANA INFORMATION BULLETIN 2017-10**

**Subject:     Reminder of SB 1057 Decision and Tracking Requirement**

---

The deadline to respond to the Oregon Medical Marijuana Program (OMMP) with your decision of whether to continue your registration with OMMP or to apply with the OLCC is December 1, 2017.

### **Who is required to respond?**

Everyone registered with the OMMP as a grower, processor, or dispensary.

### **What decision is to be made?**

Registrants are required to provide notice on a [form](#) prescribed by OMMP of their decision to:

- Remain registered with OMMP, use the Cannabis Tracking System (CTS) and pay an additional fee of approximately \$480 (additional info on CTS will be available in early 2018, fee is not due at this time); **or**
- Apply for a license with the OLCC. A complete application must be submitted to OLCC before January 1, 2018; **or**
- Indicate they are a patient growing for themselves **and** there are no more than 12 mature plants and 24 immature plants at their grow site. A grow site where a patient is growing for themselves and where there are not more than 12 mature and 24 immature plants at their grow site is exempt from CTS tracking.

### **Who will be required to track using CTS?**

All growers (except as outlined below), processors, and dispensaries.

### **Are there exemptions to CTS tracking?**

Yes, only for a patient growing for themselves **and** growing at a grow site where there are no more than 12 mature plants and 24 immature plants is exempt from tracking in CTS.

### **What happens if I don't respond or do not follow through with my selection response?**

If a registrant does not notify OMMP of their decision by December 1, 2017, the registration will not be renewed.

If the registrant notifies OMMP with their decision to apply to be licensed with OLCC but does not submit a complete application with OLCC by January 1, 2018, the registration will not be renewed.

**Additional Grower Info**

All growers at a grow site must collectively make the decision to remain registered with OMMP or move to OLCC and submit only one form to OMMP. Submitting more than one form for a grow site may result in the grow site not being renewed.

Growers that are not required to use CTS will still be required to report transfers monthly into the OMMP online system as outlined on the [reporting webpage](#).

For more information or to obtain the response form visit: [healthoregon.org/ommpcts](http://healthoregon.org/ommpcts)
