
Infectious Diseases – Chronic 352B

Category.....**ALL**

Risk Level.....**HIGH**

Risk Description

A participant who has been diagnosed with an infectious disease by a health care provider. Includes but is not limited to:

◆ Hepatitis B, C or D	◆ HIV (Human Immunodeficiency Virus)
◆ AIDS (Acquired Immunodeficiency Syndrome)	

At risk if:	Health care provider diagnosed a chronic infectious disease
NOT at risk if:	Infectious disease has NOT been diagnosed by a health care provider

There may be other conditions that qualify for this risk. For any condition not on the list, check with a health professional or WIC nutritionist before assigning the risk.

Reason for Risk

Infectious diseases can affect nutrition status.

How is Risk Assigned?

- ◆ CPA-selected.
- ◆ Select this risk from the “Select Risks/Sub Risks” pop-up during the Health History or on the “Risk Factors” screen.

Additional Documentation

Document the specific type of infectious disease in the “Progress Notes.”

Education/Referrals

- ◆ This is a **HIGH** risk level – a referral to the WIC nutritionist is required.
- ◆ See *More Information about Medical Conditions* to learn more about infectious diseases.

Example

Tynana is a 2 year old foster child who is at WIC for her recertification. Tynana was diagnosed with HIV when she was a baby. She is assigned Risk 352B.
