DEFINITIONS

Annual Income Guidelines: USDA updates the federal poverty income levels annually. Local programs will implement the new guidelines according to State instructions. The statewide WIC income eligibility standard is 185% of the federal poverty income guidelines.

Household Size: A person or group of people, related or not, who usually (though not necessarily) live together, and whose income and consumption of goods or services are related and who are not residents of an institution. The key consideration in determining when individuals or groups are a household (or economic unit) is whether they generate the income which sustains them, i.e., room, board and medical care. When determining a household size, count all pregnant women/people as two, or more, for expected multiple births, unless a woman/person specifically waives the increase in number.

Income: Gross income, including overtime, before deductions for income taxes, employees' social security taxes, insurance premiums, bonds, etc. The determination of the amount of a household's gross income shall not be considered reduced for any reason (e.g.; financial hardships, medical bills, child support). Farmers and self-employed use net income. Net income is determined by subtracting the operating expenses from the gross income.

PROCEDURE

- 1.0 WIC staff will use the current income guidelines provided by the state WIC program when determining income eligibility.
 - 1.1. The data system automatically calculates income using the current income guidelines. When unsure if printed sources are current, use the income guidelines posted on the WIC web page.
 - 1.2. Income guidelines are generally updated once a year, usually in April or May. When new guidelines are provided all printed materials, local web pages, or outreach materials must be updated or replaced with new versions.
 - 1.3. Local agencies will be notified when updates occur or if the annual updates are being delayed for any reason.
- 2.0 WIC income guidelines are public information. Local programs must give information about current WIC income guidelines to the public upon request.
 - 2.1. The WIC income guidelines are also posted on the WIC web page. Direct the public to:
