From: Health Licensing Office

Subject: Rulemaking for the Sex Offender
Treatment Board

Dear community stakeholders:

The Health Licensing Office (HLO) is preparing to engage in rulemaking for the Sex Offender Treatment Board. 2017 House Bill 2633 changed the statutes the Board operates under and created another licensed treatment provider.

The purpose of a Rules Advisory Committee (RAC) is to seek feedback related to the rules and their potential fiscal impact from external content experts and those who are likely to be affected by the rules.

The RAC will meet from **9 a.m. to noon on Sept. 20, 2017**, at HLO, 1430 Tandem Ave., Suite 180, Salem, 97301-2192. Interest forms must be received by **4 p.m. Sept. 12**.

The RAC slated for Aug. 29 was rescheduled; we did not have enough interest forms for that date.

RAC meetings are public meetings and may include time for public comment, however, only members of the committee may fully participate in the RAC meetings.

HLO will provide information about alternate attendance options, including remote attendance through teleconferencing and information related to special accommodations when RAC membership is final. Proposed rule text and other materials will be provided at least one week prior to the first meeting.

Those with questions or are interested in becoming RAC members should contact Anne Thompson at anne.p.thompson@state.or.us or 503-373-1904. HLO will attempt to maximize the representation of diverse social, cultural and geographical communities.
