Appendix D: List Sampling Frame Coverage Study	23

INTRODUCTION

The Annual Synar Report (ASR) format provides the means for States to comply with the reporting provisions of the Public Health Service Act (42 U.S.C. 300x-26) and the Tobacco Regulation for the SAPT Block Grant (45 C.F.R. 96.130 (e)).

Public reporting burden for the collection of information is estimated to average 15 hours for Section I and 3 hours for Section II, including the time for reviewing instructions, completing and reviewing the collection of information, searching existing data sources, and gathering and maintaining the data needed. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to SAMHSA Reports Clearance Officer; Paperwork Reduction Project; 1 Choke Cherry Road, 7th Floor Rockville, Maryland 20857.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0222 with an expiration date of 05-31-2013.

How the Synar report helps the Center for Substance Abuse Prevention

In accordance with the tobacco regulations, States are required to provide detailed information on progress made in enforcing youth tobacco access laws (FFY 2011 Compliance Progress) and future plans to ensure compliance with the Synar requirements to reduce youth tobacco access rates (FFY 2012 Intended Use Plan). These data are required by 42 U.S.C. 300x-26 and will be used by the Secretary to evaluate State compliance with the statute. Part of the mission of the Center for Substance Abuse Prevention (CSAP) is to assist States¹ by supporting Synar activities and providing technical assistance helpful in determining the type of enforcement measures and control strategies that are most effective. This information is helpful to CSAP in improving technical assistance resources and expertise on enforcement efforts and tobacco control program support activities, including State Synar Program support services, through an enhanced technical assistance program involving conferences and workshops, development of training materials and guidance documents, and onsite technical assistance consultation.

How the Synar report can help States

The information gathered for the Synar report can help States describe and analyze substate needs for program enhancements. These data can also be used to report to the State legislature and other State and local organizations on progress made to date in enforcing youth tobacco access laws when aggregated statistical data from State Synar reports can demonstrate to the Secretary the national progress in reducing youth tobacco access problems. This information will also provide Congress with a better understanding of State progress in implementing Synar, including State difficulties and successes in enforcing retailer compliance with youth tobacco access laws.

¹The term "State" is used to refer to all the States and territories required to comply with Synar as part of the Substance Abuse Prevention and Treatment Block Grant Program requirements (42 U.S.C. 300x-64 and 45 C.F.R. 96.121).

Getting assistance in completing the Synar report

If you have questions about programmatic issues, you may call CSAP's Division of State Programs at (240) 276-2413 and ask for your respective State Project Officer, or contact your State Project Officer directly by telephone or email using the directory provided in the FY 2012 Uniform Application, Appendix A. If you have questions about fiscal or grants management issues, you may call the Grants Management Officer, Office of Program Services, Division of Grants Management, at (240) 276-1422.

Where and when to submit the Synar report

The Annual Synar Report (ASR) must be received by SAMHSA no later than December 31, 2012. The ASR must be submitted in the **approved OMB report format**. Use of the approved format will avoid delays in the review and approval process. The chief executive officer (or an authorized designee) of the applicant organization must sign page 1 of the ASR certifying that the State has complied with all reporting requirements.

The State must upload one copy of the ASR using the online WebBGAS (Block Grant Application System). In addition, the following items must be uploaded to WebBGAS:

- FFY 2012 Synar Survey Results: States that use the Synar Survey Estimation System (SSES) must upload one copy of SSES Tables 1–5 (in Excel) to WebBGAS. States that do not use SSES must upload one copy of ASR Forms 1, 4, and 5, and Forms 2 and 3, if applicable, (in Excel) to WebBGAS.
- Synar Inspection Form: States must upload one blank copy of the inspection form used to record the result of each Synar inspection.
- Synar Inspection Protocol: States must upload a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections.

Each State SSA Director has been emailed a login ID and password to log onto the Synar section of the WebBGAS site.

Additionally, the State must submit one signed original of the report (including the signed Funding Agreements/Certifications), as well as one additional copy of the signed Funding Agreements/Certifications, to the Grants Management Officer at the address below:

Grants Management Officer
Office of Program Services
Division of Grants Management
Substance Abuse and Mental Health Services Administration

Regular Mail:

1 Choke Cherry Road, Rm.7-1091
Rockville, Maryland 20857

Overnight Mail:

1 Choke Cherry Road, Rm.7-1091
Rockville, Maryland 20850

FFY 2012: FUNDING AGREEMENTS/CERTIFICATIONS

The following form must be signed by the Chief Executive Officer or an authorized designee and submitted with this application. Documentation authorizing a designee must be attached to the application.

PUBLIC HEALTH SERVICES ACT AND SYNAR AMENDMENT	
42 U.S.C. 300x-26 requires each State to submit an annual report of its progress in meeting the requirements of the Synar Amendment and its implementing regulation (45 C.F.R. 96.130) to the Secretary of the Department of Health and Human Services. By signing below, the chief executive officer (or an authorized designee) of the applicant organization certifies that the State has complied with these reporting requirements and the certifications as set forth below.	
SYNAR SURVEY SAMPLING METHODOLOGY	
The State certifies that the Synar survey sampling methodology on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2012 is up-to-date and approved by the Center for Substance Abuse Prevention.	
SYNAR SURVEY INSPECTION PROTOCOL	
The State certifies that the Synar Survey Inspection Protocol on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2012 is up-to-date and approved by the Center for Substance Abuse Prevention.	
State: Oregon	
Name of Chief Executive Officer or Designee: Linda Hammond	
Signature of CEO or Designee:	
Title: Interim Director	Date Signed: 12-20-12
If signed by a designee, a copy of the designation must be attached.	

SECTION I: FFY 2011 (Compliance Progress)

YOUTH ACCESS LAWS, ACTIVITIES, AND ENFORCEMENT

42 U.S.C. 300x-26 requires the States to report information regarding the sale/distribution of tobacco products to individuals under age 18.

1. Please indicate any changes or additions to the State tobacco statute(s) relating to youth access since the last reporting year. If any changes were made to the State law(s) since the last reporting year, please attach a photocopy of the law to the hard copy of the ASR and also upload a copy of the State law to WebBGAS. (see 42 U.S.C. 300x-26).

a. Has there been a change in the *minimum sale age* for tobacco products?

Yes No

If Yes, current minimum age: 19 20 21

b. Have there been any changes in State law that impact the State's *protocol for conducting Synar inspections*? Yes No

If Yes, indicate change. (Check all that apply.)

Changed to require that law enforcement conduct inspections of tobacco outlets

Changed to make it illegal for youth to possess, purchase or receive tobacco

Changed to require ID to purchase tobacco

Other change(s) (Please describe.) _____

c. Have there been any changes in the law concerning *vending machines*?

Yes No

If Yes, indicate change. (Check all that apply.)

Total ban enacted

Banned from location(s) accessible to youth

Locking device or supervision required

Other change(s) (Please describe.) _____

d. Have there been any changes in State law that impact the following?

Licensing of tobacco vendors Yes No

Penalties for sales to minors Yes No

2. Describe how the Annual Synar Report (see 45 C.F.R. 96.130(e)) and the State Plan (see 42 U.S.C. 300x-51) were made public within the State prior to submission of the ASR. (Check all that apply.)

Placed on file for public review

Posted on a State agency Web site (Please provide exact Web address.)

<http://www.oregon.gov/OHA/AMH/data/2012/2012asr-report.pdf>

- Notice published in a newspaper or newsletter
- Public hearing
- Announced in a news release, a press conference, or discussed in a media interview
- Distributed for review as part of the SAPT Block Grant application process
- Distributed through the public library system
- Published in an annual register
- Other *(Please describe.)* The report has been sent via email to all prevention coordinators and tobacco prevention coordinators in the state for their review and comment.

3. Identify the following agency or agencies (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).

- a. The State agency(ies) designated by the Governor for oversight of the Synar requirements:**

Oregon Health Authority - Addictions and Mental Health Division (AMH)

Has this changed since last year's Annual Synar Report? Yes No

- b. The State agency(ies) responsible for conducting random, unannounced Synar inspections:**

Oregon Health Authority - Addictions and Mental Health Division (AMH)

Has this changed since last year's Annual Synar Report? Yes No

- c. The State agency(ies) responsible for enforcing youth tobacco access law(s):**

Oregon State Police, County and Local Law Enforce youth tobacco access laws

Has this changed since last year's Annual Synar Report? Yes No

4. Identify the State agency responsible for tobacco prevention activities (the agency that receives the Centers for Disease Control and Prevention's National Tobacco Control Program funding).

Oregon Health Authority - Public Health Division

Has the responsible agency changed since last year's Annual Synar Report?

Yes No

- a. Describe the coordination and collaboration that occur between the agency responsible for tobacco prevention and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies**

Are the same

Have a formal written memorandum of agreement

Have an informal partnership

Conduct joint planning activities

Combine resources

Have other collaborative arrangement(s) *(Please describe.)* The Addictions &

Mental Health Division (AMH) continues to work together with the Public Health Division (PH) on the issue of tobacco licensure and a potential FDA enforcement contract. In addition, both agencies have members who attend the Tobacco Free Coalition of Oregon (TOFCO) monthly meetings to share information and strategize on tobacco control issues in the state. Public Health has previously provided AMH funding from the state's Tobacco Use Reduction Account to do a limited number of tobacco retailer enforcement inspections, which are now being conducted by the Oregon State Police, utilizing retired Troopers.

5. Please answer the following questions regarding the State's activities to enforce the youth access to tobacco law(s) in FFY 2011 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130(e)).

a. Which one of the following describes the enforcement of youth access to tobacco laws carried out in your State? (Check one category only.)

- Enforcement is conducted exclusively by local law enforcement agencies.
- Enforcement is conducted exclusively by State agency(ies).
- Enforcement is conducted by both local and State agencies.

b. The following items concern penalties imposed for violations of youth access to tobacco laws by LOCAL AND/OR STATE LAW ENFORCEMENT AGENCIES. Please fill in the number requested. If State law does not allow for an item, please mark "NA" (not applicable). If a response for an item is unknown, please mark "UNK." The chart must be filled in completely.

PENALTY	OWNERS	CLERKS	TOTAL
Number of citations issued	UNK	UNK	57
Number of fines assessed	UNK	UNK	57
Number of permits/licenses suspended	0		0
Number of permits/licenses revoked	0		0
Other (Please describe.)	0	0	0

c. Which one of the following best describes the level of enforcement of youth access to tobacco laws carried out in your State? (Check one category only.)

- Enforcement is conducted only at those outlets randomly selected for the Synar survey.
- Enforcement is conducted only at a subset of outlets not randomly selected for the Synar survey.
- Enforcement is conducted at a combination of outlets randomly selected for the Synar survey and outlets not randomly selected for the Synar survey.

d. Did every tobacco outlet in the State receive at least one enforcement compliance check in the last year?

- Yes
- No

e. What additional activities are conducted in your State to support enforcement and compliance with State tobacco access law(s)? (Check all that apply.)

- Merchant education and/or training
- Incentives for merchants who are in compliance (e.g., nonenforcement compliance checks in which compliant retailers are given positive reinforcement and noncompliant retailers are warned about youth access laws)
- Community education regarding youth access laws
- Media use to publicize compliance inspection results
- Community mobilization to increase support for retailer compliance with youth access laws
- Other activities (Please list.) _____

Briefly describe all checked activities:

Merchant education materials continue to be provided to all retailers across the state through the AMH website, and through local tobacco prevention and education coalitions/coordinators. In addition, the State Synar Coordinator provided two merchant education trainings that were requested by local prevention coordinators.

Local prevention coordinators and tobacco prevention coalitions provide Reward and Reminder Visits to local tobacco outlets to assess retailer compliance with laws related to the sale of tobacco to minors. During these visits, if a clerk appears to be willing to sell tobacco to the underage buyer, they are given a "reminder" of the laws regarding sales to minors. If they successfully refuse to sell, they are provided a "reward" for correctly not selling to the minor.

Many local tobacco prevention coordinators provide merchant education for retailers as requested. The state Synar Coordinator has also provided retailer education materials for these local educational visits.

Results of Synar compliance inspections are shared in statewide press releases to all major media outlets. In addition, a number of local tobacco prevention coordinators have requested their local compliance check results for use in local press releases. Enforcement related inspection data will also be publicized through statewide and local media outlets as is appropriate.

f. Are citations or warnings issued to retailers or clerks who sell tobacco to minors for inspections that are part of the Synar survey? Yes No

If "Yes" to 5f, please describe the State's procedure for minimizing risk of bias to the survey results from retailers alerting each other to the presence of the survey teams:

g. Please describe the relationship between the State's Synar program and the Food and Drug Administration-funded enforcement program:

Oregon does not currently have a Food and Drug Administration contract to conduct Enforcement or Marketing/Advertising Inspections. It is anticipated that the Addictions & Mental Health Division and the Public Health Division will jointly submit an application to FDA during 2013 to conduct both compliance inspections and marketing and advertising inspections. Included in any proposal will be an assurance that FDA inspections and the State Synar program are coordinated and that data is shared as appropriate.

SYNAR SURVEY METHODS AND RESULTS

The following questions pertain to the survey methodology and results of the Synar survey used by the State to meet the requirements of the Synar Regulation in FFY 2011 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).

6. Has the sampling methodology changed from the previous year? Yes No

The State is required to have an approved up-to-date description of the Synar sampling methodology on file with CSAP. Please submit a copy of your Synar Survey Sampling Methodology (Appendix B). If the sampling methodology changed from the previous reporting year, these changes must be reflected in the methodology submitted.

7. Please answer the following questions regarding the State’s annual random, unannounced inspections of tobacco outlets (see 45 C.F.R. 96.130(d)(2)).

- a. Did the State use the optional Synar Survey Estimation System (SSES) to analyze the Synar survey data? Yes No

If Yes, attach SSES summary tables 1, 2, 3, and 4 to the hard copy of the ASR and upload a copy of SSES tables 1–5 (in Excel) to WebBGAS. Then go to Question 8. If No, continue to Question 7b.

- b. Report the weighted and unweighted Retailer Violation Rate (RVR) estimates, the standard error, accuracy rate (number of eligible outlets divided by the total number of sampled outlets), and completion rate (number of eligible outlets inspected divided by the total number of eligible outlets).

Unweighted RVR _____

Weighted RVR _____

Standard error (s.e.) of the (weighted) RVR _____

Fill in the blanks to calculate the right limit of the right-sided 95% confidence interval.

$$\frac{\text{RVR Estimate}}{\text{plus}} + \frac{(1.645 \text{ times Standard Error})}{(1.645 \text{ times Standard Error})} = \text{Right Limit}$$

Accuracy rate _____

Completion rate _____

c. Fill out Form 1 in Appendix A (Forms 1–5). *(Required regardless of the sample design.)*

d. How were the (weighted) RVR estimate and its standard error obtained? *(Check the one that applies.)*

- Form 2 (Optional) in Appendix A (Forms 1–5) *(Attach completed Form 2.)*
- Other *(Please specify. Provide formulas and calculations or attach and explain the program code and output with description of all variable names.)*

e. If stratification was used, did any strata in the sample contain only one outlet or cluster this year? Yes No No stratification

If Yes, explain how this situation was dealt with in variance estimation.

f. Was a cluster sample design used? Yes No

If Yes, fill out and attach Form 3 in Appendix A (Forms 1–5), and answer the following question.

If No, go to Question 7g.

Were any certainty primary sampling units selected this year? Yes No

If Yes, explain how the certainty clusters were dealt with in variance estimation.

g. Report the following outlet sample sizes for the Synar survey.

	Sample Size
Effective sample size (sample size needed to meet the SAMHSA precision requirement assuming simple random sampling)	
Target sample size (the product of the effective sample size and the design effect)	
Original sample size (inflated sample size of the target sample to counter the sample attrition due to ineligibility and noncompletion)	
Eligible sample size (number of outlets found to be eligible in the sample)	
Final sample size (number of eligible outlets in the sample for which an inspection was completed)	

h. Fill out Form 4 in Appendix A (Forms 1–5).

8. Did the State’s Synar survey use a list frame? Yes No

If Yes, answer the following questions about its coverage.

a. The calendar year of the latest frame coverage study: 2011

b. Percent coverage from the latest frame coverage study: 74.90%

c. Was a new study conducted in this reporting period? Yes No

If Yes, please complete Appendix D (List Sampling Frame Coverage Study) and submit it with the Annual Synar Report.

d. The calendar year of the next coverage study planned: 2012 (in process) - The current coverage study will be finalized in early 2013, and the results will be forwarded to SAMHSA/CSAP at that time.

9. Has the Synar survey inspection protocol changed from the previous year?

Yes No

The State is required to have an approved up-to-date description of the Synar inspection protocol on file with CSAP. Please submit a copy of your Synar Survey Inspection Protocol (Appendix C). If the inspection protocol changed from the previous year, these changes must be reflected in the protocol submitted.

a. Provide the inspection period: From 06/01/12 to 08/31/12
MM/DD/YY MM/DD/YY

b. Provide the number of youth inspectors used in the current inspection year:

4

NOTE: If the State uses SSES, please ensure that the number reported in 9b matches that reported in SSES Table 4, or explain any difference.

No difference

SECTION II: FFY 2012 (Intended Use):

Public law 42 U.S.C. 300x-26 of the Public Health Service Act and 45 C.F.R. 96.130 (e) (4, 5) require that the States provide information on future plans to ensure compliance with the Synar requirements to reduce youth tobacco access.

1. In the upcoming year, does the State anticipate any changes in:

- Synar sampling methodology Yes No
Synar inspection protocol Yes No

If changes are made in either the Synar sampling methodology or the Synar inspection protocol, the State is required to obtain approval from CSAP prior to implementation of the change and file an updated Synar Survey Sampling Methodology (Appendix B) or an updated Synar Survey Inspection Protocol (Appendix C), as appropriate.

2. Please describe the State's plans to maintain and/or reduce the target rate for Synar inspections to be completed in FFY 2012. Include a brief description of plans for law enforcement efforts to enforce youth tobacco access laws, activities that support law enforcement efforts to enforce youth tobacco access laws, and any anticipated changes in youth tobacco access legislation or regulation in the State.

AMH plans to update and reprint all merchant education materials and have them sent to all known tobacco retailers in the state during FFY 2013. In addition, the Synar Coordinator will work with local tobacco coordinators to provide retailer training on tobacco access and sales to minors, as requested. Initial conversations have been held with the prevention staff and Synar Coordinator in the state of Washington, whose RVR is also higher than normal this year. It is hoped that a variety of strategies will help bring down the RVR in both states. Included in the possibilities is an online merchant education course that could be offered to retailers at any time. The Synar Coordinator has had initial discussions with the State Coordinator from Kentucky regarding their online system. Oregon is considering all options to lower the RVR, and this could be another tool to help lower non-compliance rates.

The Synar List Frame will continue to be updated in a number of ways. These include sharing retailer lists with the Department of Revenue and the Attorney General's Office and obtaining updated tobacco retailer lists from local jurisdictions with tobacco retailer licensing. In addition, the current coverage study will be finalized and will further refine our list of tobacco retailers in the state. In addition, new retail locations are being included in Oregon's list frame as they are identified through enforcement inspections, and through the use of local tobacco coordinators. Over the winter months, county-level lists of retail tobacco outlets will be sent to local tobacco prevention coordinators, who will be asked to verify the list of known retailers. This will help to increase the accuracy of the list frame.

The 2012 Oregon Legislature passed a piece of legislation which requires the Oregon State Police (OSP) to "establish and administer a program employing retired state police officers who are active reserve officers for the purpose of enforcing laws designed to discourage the use of tobacco products by persons under 18 years of age. That program, which includes citing clerks who sell tobacco to minors, is now in full swing and is being funded with state tobacco tax dollars. The legislation also allows the OSP to accept future funding for tobacco related enforcement from state and federal sources.

3. Describe any challenges the State faces in complying with the Synar regulation.

(Check all that apply.)

- Limited resources for law enforcement of youth access laws
- Limited resources for activities to support enforcement and compliance with youth tobacco access laws
- Limitations in the State youth tobacco access laws
- Limited public support for enforcement of youth tobacco access laws
- Limitations on completeness/accuracy of list of tobacco outlets
- Limited expertise in survey methodology
- Laws/regulations limiting the use of minors in tobacco inspections
- Difficulties recruiting youth inspectors
- Geographic, demographic, and logistical considerations in conducting inspections
- Cultural factors (e.g., language barriers, young people purchasing for their elders)
- Issues regarding sources of tobacco under tribal jurisdiction
- Other challenges *(Please list.)* _____

Briefly describe all checked challenges and propose a plan for each, or indicate the State's need for technical assistance related to each relevant challenge.

Limited resources for law enforcement of youth access laws: While the SAPT Block Grant allows states to utilize funding to complete the requirements of the Synar Survey, the state has limited funding to provide additional enforcement of tobacco access laws on a statewide level. In addition, many of the jurisdictions that have local tobacco licensure ordinances have faced severe budget cuts and do not have the funding needed to fully enforce those ordinances. AMH has previously received funding from the Public Health Division to provide a limited number of retailer inspections. That program is currently under way (see above) and is providing much needed enforcement inspections across the state.

Limitations on completeness/accuracy of list of tobacco outlets: Oregon does not require a tobacco retailer license to sell tobacco, and therefore a comprehensive list of tobacco retailers is not available. AMH works with the Department of Revenue and the Department of Justice to update and maintain its master list frame of tobacco retailers as accurately as possible. Accuracy and completeness of the list frame is validated in some parts of the state through county prevention staff, local tobacco prevention coalitions, records obtained through the Attorney General's Office, and by Synar Inspection Staff as they conduct retailer inspections. In addition, AMH is currently finalizing the 2012 coverage study assess the accuracy of the list frame. After the coverage study has been completed, updated county lists will be sent to all county prevention coordinators for additional verification and correction. In addition, Oregon is looking into the possibility of hiring a college intern from Oregon State University to develop additional protocols for improving the state's list frame.

Difficulty recruiting youth inspectors: Recruiting minority youth in selected, particularly non-urban, areas of the state continues to be difficult due to the limited number of minority youth in these communities. The Synar Coordinator will continue to work with county and tribal prevention coordinators, as well as county tobacco prevention coordinators, to recruit additional minority youth inspectors. Eastern

Oregon is a very Frontier/Rural part of the state, and these areas continue to present difficulty for inspectors. Driving times between towns and inspections can be long, which adds to the length of time per inspected outlet and ultimately the cost of inspection. This continues to be an issue for the state. The Synar Coordinator will work with our existing adult inspectors to recruit additional inspectors across the state who can provide more localized inspections and lessen the need for as many long travel distances for each inspector.

APPENDIXES B & C: FORMS

Instructions

Appendix B (Sampling Design) and Appendix C (Inspection Protocol) are to reflect the State's CSAP-approved sampling design and inspection protocol. These appendixes, therefore, should generally describe the design and protocol and, with the exception of Question #10 of Appendix B, are not to be modified with year-specific information. Please note that any changes to either appendix must receive CSAP's advance, written approval. To facilitate the State's completion of this section, simply cut and paste the previously approved sampling design (Appendix B) and inspection protocol (Appendix C).

APPENDIX B: SYNAR SURVEY SAMPLING METHODOLOGY

State: Oregon
 FFY: 2013

1. What type of sampling frame is used?

- List frame (Go to Question 2.)
- Area frame (Go to Question 3.)
- List-assisted area frame (Go to Question 2.)

2. List all sources of the list frame. Indicate the type of source from the list below. Provide a brief description of the frame source. Explain how the lists are updated (method), including how new outlets are identified and added to the frame. In addition, explain how often the lists are updated (cycle). (After completing this question, go to Question 4.)

Use the corresponding number to indicate Type of Source in the table below.

- | | |
|---|--|
| 1 – Statewide commercial business list | 4 – Statewide retail license/permit list |
| 2 – Local commercial business list | 5 – Statewide liquor license/permit list |
| 3 – Statewide tobacco license/permit list | 6 – Other |

Name of Frame Source	Type of Source	Description	Updating Method and Cycle
Oregon Dept of Revenue	6	The Department of Revenue develops and maintains a list of tobacco retailers for collecting tobacco excise taxes. AMH removes outlets inaccessible to youth.	The list is updated and validated for accuracy and completeness by working with county prevention staff and local tobacco prevention coalitions.

3. If an area frame is used, describe how area sampling units are defined and formed.

Not applicable

- a. Is any area left out in the formation of the area frame? Yes No

If Yes, what percentage of the State's population is not covered by the area frame?
 _____%

4. Federal regulation requires that vending machines be inspected as part of the Synar survey. Are vending machines included in the Synar survey? Yes No

If No, please indicate the reason they are not included in the Synar survey.

- State law bans vending machines.
- State law bans vending machines from locations accessible to youth.

- State has SAMHSA approval to exempt vending machines from the survey.
- Other (Please describe.) _____

5. Which category below best describes the sample design? (Check only one.)

- Census** (STOP HERE: Appendix B is complete.)

Unstratified statewide sample:

- Simple random sample (Go to Question 9.)
- Systematic random sample (Go to Question 6.)
- Single-stage cluster sample (Go to Question 8.)
- Multistage cluster sample (Go to Question 8.)

Stratified sample:

- Simple random sample (Go to Question 7.)
- Systematic random sample (Go to Question 6.)
- Single-stage cluster sample (Go to Question 7.)
- Multistage cluster sample (Go to Question 7.)
- Other** (Please describe and go to Question 9.) _____

6. Describe the systematic sampling methods. (After completing Question 6, go to Question 7 if stratification is used. Otherwise go to Question 9.)

7. Provide the following information about stratification.

- a. Provide a full description of the strata that are created.**

- b. Is clustering used within the stratified sample?**

- Yes** (Go to Question 8.)
- No** (Go to Question 9.)

8. Provide the following information about clustering.

- a. Provide a full description of how clusters are formed. (If multistage clusters are used, give definitions of clusters at each stage.)**

- b. Specify the sampling method (simple random, systematic, or probability proportional to size sampling) for each stage of sampling and describe how the method(s) is (are) implemented.**

9. Provide the formulas for determining the effective, target, and original outlet sample sizes.

Oregon employs statewide simple random sampling (SRS). The effective sample size (n) is determined using the following formula:

$$n_e = 1/((se)^2 / \hat{p}\hat{q}) + 1/N$$

Where n_e is the effective sample size, se is the standard error, \hat{p} is the non-compliance rate, and N is the population of outlets. This formula permits for FPC factor and the se is determined to meet the margin of error requirement (3%) for the one-sided 95% confidence interval, that is $se = 0.0182$.

The target sample size is the same as the effective sample size since the design effect for SRS is one ($n_t = n_e$). The original sample size (n_o) is determined by,

$$n_o = (1 + r_s) \left(\frac{n_t}{r_c r_e} \right)$$

where r_s = the safety margin (50%) used to counter sample attrition effects, and r_c and r_e are the completion and eligibility rates respectively, estimated from the previous year's survey. The violation rate from the previous year's survey will be used in determining the sample size.

10. Provide the following information about sample size calculations for the current FFY Synar survey.

- a. If the State uses the sample size formulas embedded in the Synar Survey Estimation System (SSES) Sample Size Calculator, please provide the following information:

Inputs for Effective Sample Size:

RVR: 20%

Frame Size: 3304

Input for Target Sample Size:

Design Effect: 1.0

Inputs for Original Sample Size:

Safety Margin: 50%

Accuracy (Eligibility) Rate: 80.60%

Completion Rate: 100%

- b. If the State does not use the sample size formulas embedded in the SSES Sample Size Calculator, please provide all inputs required to calculate the effective, target, and original sample sizes as indicated in Question 9.

Not applicable

APPENDIX C: SYNAR SURVEY INSPECTION PROTOCOL

State: Oregon

FFY: 2013

Note: Upload to WebBGAS a copy of the Synar inspection form under the heading "Synar Inspection Form" and a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections under the heading "Synar Inspection Protocol."

1. How does the State Synar survey protocol address the following?

a. Consummated buy attempts?

- Required Not permitted
 Permitted under specified circumstances Not specified in protocol

b. Youth inspectors to carry ID?

- Required Not permitted
 Permitted under specified circumstances Not specified in protocol

c. Adult inspectors to enter the outlet?

- Required Not permitted
 Permitted under specified circumstances Not specified in protocol

d. Youth inspectors to be compensated?

- Required Not permitted
 Permitted under specified circumstances Not specified in protocol

2. Identify the agency(ies) or entity(ies) that actually conduct the random, unannounced Synar inspections of tobacco outlets. (Check all that apply.)

- Law enforcement agency(ies)
 State or local government agency(ies) other than law enforcement
 Private contractor(s)
 Other

List the agency name(s): Oregon Health Authority, Addiction and Mental Health Division.

3. Are Synar inspections combined with law enforcement efforts (i.e., do law enforcement representatives issue warnings or citations to retailers found in violation of the law at the time of the inspection)?

- Always Usually Sometimes Rarely Never

4. Describe the methods used to recruit, select, and train youth inspectors and adult supervisors.

OHA-AMH recruits and trains adult inspectors who, in turn, recruit and train youth inspectors. The attached Synar Protocols details the training for both adult supervisors and youth inspectors..

5. Are there specific legal or procedural requirements instituted by the State to address the issue of youth inspectors' immunity when conducting inspections?

- a. Legal Yes No (If Yes, please describe.)

Oregon Revised Statute (ORS) 167.401(4) provides exceptions to the prohibition of tobacco possession by minors. This section reads, "A minor acting under the supervision of an adult may purchase, attempt to purchase or acquire tobacco products for the purpose of testing compliance with federal law, state statute, local law or retailer management policy limiting or regulating the delivery of tobacco products to minors."

- b. Procedural Yes No (If Yes, please describe.)

6. Are there specific legal or procedural requirements instituted by the State to address the issue of the safety of youth inspectors during all aspects of the Synar inspection process?

- a. Legal Yes No (If Yes, please describe.)

- b. Procedural Yes No (If Yes, please describe.)

The state Synar inspection protocol clearly states that youth safety is of top priority. Training emphasizes that both youth and adult inspectors take precautionary measures to ensure youth safety. Adult inspectors assess each tobacco retailer to make sure that there are no circumstances which could compromise youth safety. Inspections are suspended if youth safety is of concern.

7. Are there any other legal or procedural requirements the State has regarding how inspections are to be conducted (e.g., age of youth inspector, time of inspections, training that must occur)?

- a. Legal Yes No (If Yes, please describe.)

Both Oregon Revised Statutes (ORS) and Oregon Administrative Rules (OAR) require that inspections be conducted "at times when minors are likely to purchase tobacco products."

- b. Procedural Yes No (If Yes, please describe.)

APPENDIX D: LIST SAMPLING FRAME COVERAGE STUDY

(LIST FRAME ONLY)

State: Oregon
FFY: 2013

1. Calendar year of the coverage study: 2012 – Will be finalized in early 2013.
2. a. Unweighted percent coverage found: _____ %
b. Weighted percent coverage found: _____ %
c. Number of outlets found through canvassing: _____
d. Number of outlets matched on the list frame: _____

3. a. Describe how areas were defined. (e.g., census tracts, counties, etc.)

- b. Were any areas of the State excluded from sampling? Yes No

If Yes, please explain.

4. Please answer the following questions about the selection of canvassing areas.

- a. Which category below best describes the sample design? (Check only one.)

Census (Go to Question 6.)

Unstratified Statewide sample:

Simple random sample (Respond to Part b.)

Systematic random sample (Respond to Part b.)

Single-stage cluster sample (Respond to Parts b and d.)

Multistage cluster sample (Respond to Parts b and d.)

Stratified sample:

Simple random sample (Respond to Parts b and c.)

Systematic random sample (Respond to Parts b and c.)

Single-stage cluster sample (Respond to Parts b, c, and d.)

Multistage cluster sample (Respond to Parts b, c, and d.)

Other (Please describe and respond to Part b.) _____

- b. Describe the sampling methods.

c. Provide a full description of the strata that were created.

d. Provide a full description of how clusters were formed.

5. Were borders of the selected areas clearly identified at the time of canvassing?

Yes No

6. Were all sampled areas visited by canvassing teams?

Yes (Go to Question 7.) No (Respond to Parts a and b.)

a. Was the subset of areas randomly chosen?

Yes No

b. Describe how the subsample of visited areas was drawn. Include the number of areas sampled and the number of areas canvassed.

7. Were field observers provided with a detailed map of the canvassing areas?

Yes No

If No, describe the canvassing instructions given to the field observers.

8. Were field observers instructed to find all outlets in the assigned area?

Yes No

If No, respond to Question 9.

If Yes, describe any instructions given to the field observers to ensure the entire area was canvassed, then go to Question 10.

9. If a full canvassing was not conducted:

a. How many predetermined outlets were to be observed in each area? _____

b. What were the starting points for each area? _____

c. Were these starting points randomly chosen? Yes No

d. Describe the selection of the starting points.

- e. Please describe the canvassing instructions given to the field observers, including predetermined routes.

10. Describe the process field observers used to determine if an outlet sold tobacco.

11. Please provide the State's definition of "matches" or "mismatches" to the Synar sampling frame? (i.e., address, business name, business license number, etc).

12. Provide the calculation of the weighted percent coverage (if applicable).
