

OHA APAC Validations

July 29, 2014

File(s)	Validation
Control File	The Payer (CFCT1) length in CONTROL_FILE exceeds the limit defined in the data layout
Control File	The Payer (CFCT1) field in CONTROL_FILE does not match the format type in the data layout
Control File	The Payer (CFCT1) field in CONTROL_FILE cannot be blank
Control File	The Payer (CFCT1) value in the CONTROL_FILE is not in the list of valid values
Control File	The File (CFCT2) length in CONTROL_FILE exceeds the limit defined in the data layout
Control File	The File (CFCT2) field in CONTROL_FILE does not match the format type in the data layout
Control File	The File (CFCT2) field in CONTROL_FILE cannot be blank
Control File	The File (CFCT2) value in the CONTROL_FILE is not in the list of valid values
Control File	The Data_Rows (CFCT3) length in CONTROL_FILE exceeds the limit defined in the data layout
Control File	The Data_Rows (CFCT3) field in CONTROL_FILE does not match the format type in the data layout
Control File	The Data_Rows (CFCT3) field in CONTROL_FILE cannot be blank
Control File	The Amt_Billed (CFCT4) length in CONTROL_FILE exceeds the limit defined in the data layout
Control File	The Amt_Billed (CFCT4) field in CONTROL_FILE does not match the format type in the data layout
Control File	The Amt_Paid (CFCT5) length in CONTROL_FILE exceeds the limit defined in the data layout
Control File	The Amt_Paid (CFCT5) field in CONTROL_FILE does not match the format type in the data layout
Control Membership	The Payer (MMCT1) length in CONTROL_MEMBERSHIP exceeds the limit defined in the data layout
Control Membership	The Payer (MMCT1) field in CONTROL_MEMBERSHIP does not match the format type in the data layout
Control Membership	The Payer (MMCT1) field in CONTROL_MEMBERSHIP cannot be blank
Control Membership	The Payer (MMCT1) value in the CONTROL_MEMBERSHIP is not in the list of valid values
Control Membership	The Method (MMCT2) length in CONTROL_MEMBERSHIP exceeds the limit defined in the data layout
Control Membership	The Method (MMCT2) field in CONTROL_MEMBERSHIP does not match the format type in the data layout
Control Membership	The Month (MMCT3) length in CONTROL_MEMBERSHIP exceeds the limit defined in the data layout
Control Membership	The Month (MMCT3) field in CONTROL_MEMBERSHIP does not match the format type in the data layout
Control Membership	The Month (MMCT3) field in CONTROL_MEMBERSHIP cannot be blank
Control Membership	The Medical_Members (MMCT4) length in CONTROL_MEMBERSHIP exceeds the limit defined in the data layout
Control Membership	The Medical_Members (MMCT4) field in CONTROL_MEMBERSHIP does not match the format type in the data layout
Control Membership	The Pharmacy_Members (MMCT5) length in CONTROL_MEMBERSHIP exceeds the limit defined in the data layout
Control Membership	The Pharmacy_Members (MMCT5) field in CONTROL_MEMBERSHIP does not match the format type in the data layout
Medical Claim	The Payer type length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Payer type field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Payer type field in MEDICAL_CLAIM cannot be blank

Medical Claim	The Payer type value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Product code length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Product code field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Product code field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Product code value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Claim ID length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Claim ID field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Claim ID field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Service Line counter length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Service Line counter field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Service Line counter field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Member ID length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Member ID field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Member ID field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Payment date length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Payment date field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Admission date length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Admission date field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Discharge status length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Discharge status field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Discharge status value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Rendering Provider ID length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Rendering Provider ID field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Rendering Provider ID field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Type of bill length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Type of bill field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Type of bill value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Place of service length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Place of service field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Place of service value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Claim status length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Claim status field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Claim status field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Claim status value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The COB status length in MEDICAL_CLAIM exceeds the limit defined in the data layout

Medical Claim	The COB status field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The COB status value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Principal diagnosis length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Principal diagnosis field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Principal diagnosis field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Principal diagnosis value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 1 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 1 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 1 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 2 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 2 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 2 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 2 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 2 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 2 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 3 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 3 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 3 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 3 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 3 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 3 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 4 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 4 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 4 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 4 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 4 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 4 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 5 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 5 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 5 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 5 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 5 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 5 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 6 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 6 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 6 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 6 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 6 field in MEDICAL_CLAIM does not match the format type in the data layout

Medical Claim	The POA flag 6 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 7 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 7 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 7 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 7 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 7 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 7 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 8 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 8 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 8 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 8 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 8 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 8 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 9 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 9 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 9 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 9 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 9 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 9 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 10 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 10 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 10 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 10 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 10 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 10 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 11 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 11 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 11 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 11 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 11 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 11 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 12 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 12 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Diagnosis 12 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 12 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 12 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 12 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Diagnosis 13 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Diagnosis 13 field in MEDICAL_CLAIM does not match the format type in the data layout

Medical Claim	The Diagnosis 13 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The POA flag 13 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The POA flag 13 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The POA flag 13 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Revenue code length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Revenue code field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Revenue code value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The CPT/CPT II/HCPCS Procedure code length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The CPT/CPT II/HCPCS Procedure code field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Procedure modifier 1 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Procedure modifier 1 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Procedure modifier 2 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Procedure modifier 2 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Procedure modifier 3 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Procedure modifier 3 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Procedure modifier 4 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Procedure modifier 4 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Principal inpatient procedure code length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Principal inpatient procedure code field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Principal inpatient procedure code value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 2 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 2 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 2 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 3 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 3 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 3 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 4 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 4 field in MEDICAL_CLAIM does not match the format type in the data layout

Medical Claim	The Inpatient procedure code 4 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 5 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 5 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 5 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 6 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 6 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 6 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 7 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 7 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 7 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 8 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 8 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 8 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 9 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 9 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 9 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 10 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 10 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 10 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 11 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 11 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 11 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 12 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 12 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 12 value in the MEDICAL_CLAIM is not in the list of valid values
Medical Claim	The Inpatient procedure code 13 length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Inpatient procedure code 13 field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Inpatient procedure code 13 value in the MEDICAL_CLAIM is not in the list of valid values

Medical Claim	The Date of service – From length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Date of service – From field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Date of service – From field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Date of service – Thru length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Date of service – Thru field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Quantity length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Quantity field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Quantity field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Charges length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Charges field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Charges field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Allowed amount length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Allowed amount field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Payment length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Payment field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Prepaid amount length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Prepaid amount field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Co-payment length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Co-payment field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Co-payment field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Co-insurance length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Co-insurance field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Deductible length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Deductible field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Patient pay amount length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Patient pay amount field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Discharge date length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Discharge date field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Billing provider ID length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Billing provider ID field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Billing provider ID field in MEDICAL_CLAIM cannot be blank
Medical Claim	The Prior version claim number length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Prior version claim number field in MEDICAL_CLAIM does not match the format type in the data layout

Medical Claim	The Claim received date length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Claim received date field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The DRG length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The DRG field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The DRG type length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The DRG type field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The LOINC code length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The LOINC code field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Lab result length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Lab result field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Micro/macro albumin result length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Micro/macro albumin result field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The COB allowed amount length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The COB allowed amount field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The Risk withhold amount length in MEDICAL_CLAIM exceeds the limit defined in the data layout
Medical Claim	The Risk withhold amount field in MEDICAL_CLAIM does not match the format type in the data layout
Medical Claim	The ID values for this row are used multiple times within the same file. The MEDICAL_CLAIM data file has duplicates. Check the values for Claim ID, Service Line counter, Member ID, Claim status, Payment date
Medical Claim	The Admission date (MC018) value in the MEDICAL_CLAIM data file should be the same day or before the Date of service - From date (MC059)
Medical Claim	The Admission date (MC018) value in the MEDICAL_CLAIM data file can not be a day in the future
Medical Claim	The Payment date (MC017) value in the MEDICAL_CLAIM data file should be the same day or after the Date of service - From date (MC059)
Medical Claim	The Payment date (MC017) value in the MEDICAL_CLAIM data file should be the same day or after the Admission date (MC018)
Medical Claim	The Payment date (MC017) value in the MEDICAL_CLAIM data file can not be a day in the future
Medical Claim	The Payment date (MC017) value in the MEDICAL_CLAIM data file can only be blank for denied claims
Medical Claim	The Date of service - Thru (MC060) value in the MEDICAL_CLAIM data file should be the same day or after the Date of service - From (MC059)
Medical Claim	The Discharge date (MC070) value in the MEDICAL_CLAIM data file should be the same day or after the Admission date (MC018)
Medical Claim	The Discharge date (MC070) value in the MEDICAL_CLAIM data file can not be a day in the future. If the MEDICAL_CLAIM record is open ended, please use 99991231 instead
Medical Claim	The Claim received date (QC06) value in the MEDICAL_CLAIM data file should be the same day or after the Date of service - From (MC059)
Medical Claim	The Allowed amount field in MEDICAL_CLAIM cannot be blank for paid claims

Medical Claim	The Payment field in the MEDICAL_CLAIM cannot be blank for paid claims
Medical Claim and Medical Eligibility	The Member ID value in the MEDICAL_CLAIM data file does not match to any value in Member ID in the MEDICAL_ELIGIBILITY data file
Medical Claim and Medical Provider	The Rendering Provider ID value in the MEDICAL_CLAIM data file does not match to any value in Provider ID in the MEDICAL_PROVIDER data file
Medical Claim and Medical Provider	The Billing provider ID value in the MEDICAL_CLAIM data file does not match to any value in Provider ID in the MEDICAL_PROVIDER data file
Medical Eligibility	The Payer type length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Payer type field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Payer type field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Payer type value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Product code length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Product code field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Product code field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Product code value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Eligibility date length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Eligibility date field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Eligibility date field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Termination date length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Termination date field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Termination date field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Subscriber ID length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Subscriber ID field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Subscriber ID field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Plan specific contract number length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Plan specific contract number field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Plan specific contract number field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The PEBB flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The PEBB flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The PEBB flag field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The PEBB flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The OEGB flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The OEGB flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The OEGB flag field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The OEGB flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values

Medical Eligibility	The Medical home flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Medical home flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Medical home flag field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Medical home flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Member ID length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member ID field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member ID field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Relationship code length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Relationship code field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Relationship code field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Relationship code value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Member gender length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member gender field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member gender field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member gender value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Member date of birth length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member date of birth field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member date of birth field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member's street address length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member's street address field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member's street address field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member city length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member city field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member city field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member state length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member state field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member state field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member ZIP length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member ZIP field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member ZIP field in MEDICAL_ELIGIBILITY cannot be blank

Medical Eligibility	The Medical coverage flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Medical coverage flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Medical coverage flag field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Medical coverage flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Prescription drug coverage flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Prescription drug coverage flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Prescription drug coverage flag field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Prescription drug coverage flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Subscriber last name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Subscriber last name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Subscriber last name field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Subscriber first name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Subscriber first name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Subscriber first name field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Subscriber middle name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Subscriber middle name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member last name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member last name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member last name field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member first name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member first name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member first name field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member middle name length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member middle name field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The ChemDep Benefit – Inpatient length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The ChemDep Benefit – Inpatient field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The ChemDep Benefit – Inpatient value in the MEDICAL_ELIGIBILITY is not in the list of valid values

Medical Eligibility	The ChemDep Benefit – Day/Night length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The ChemDep Benefit – Day/Night field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The ChemDep Benefit – Day/Night value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The ChemDep Benefit – Ambulatory length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The ChemDep Benefit – Ambulatory field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The ChemDep Benefit – Ambulatory value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Dental benefit length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Dental benefit field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Dental benefit value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Mental Health Benefit - Inpatient length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Mental Health Benefit - Inpatient field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Mental Health Benefit - Inpatient value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Mental Health Benefit – Day/Night length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Mental Health Benefit – Day/Night field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Mental Health Benefit – Day/Night value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Mental Health Benefit - Ambulatory length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Mental Health Benefit - Ambulatory field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Mental Health Benefit - Ambulatory value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Member race length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member race field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member race field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member race value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Member ethnicity length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Member ethnicity field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Member ethnicity field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Member ethnicity value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Primary spoken language length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout

Medical Eligibility	The Primary spoken language field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Primary spoken language field in MEDICAL_ELIGIBILITY cannot be blank
Medical Eligibility	The Primary spoken language value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Oregon HVMH flag length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Oregon HVMH flag field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Oregon HVMH flag value in the MEDICAL_ELIGIBILITY is not in the list of valid values
Medical Eligibility	The Oregon HVMH clinic length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Oregon HVMH clinic field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Oregon HVMH eligibility segment effective date length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Oregon HVMH eligibility segment effective date field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Oregon HVMH eligibility segment termination date length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Oregon HVMH eligibility segment termination date field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The Prepaid amount/ PMPM length in MEDICAL_ELIGIBILITY exceeds the limit defined in the data layout
Medical Eligibility	The Prepaid amount/ PMPM field in MEDICAL_ELIGIBILITY does not match the format type in the data layout
Medical Eligibility	The ID values for this row are used multiple times within the same file. The MEDICAL_ELIGIBILITY data file has duplicates. Check the values for Member ID, Eligibility date, Termination date, Product code
Medical Eligibility	The Member date of birth (ME014) value in the MEDICAL_ELIGIBILITY data file should be the same day or before the Eligibility date (ME004A)
Medical Eligibility	The Member date of birth (ME014) value in the MEDICAL_ELIGIBILITY data file should be within 120 years
Medical Eligibility	The Member date of birth (ME014) value in the MEDICAL_ELIGIBILITY data file cannot be a day in the future
Medical Eligibility	The Eligibility date (ME004A) value in the MEDICAL_ELIGIBILITY data file cannot be a day in the future
Medical Eligibility	The Termination date (ME005A) value in the MEDICAL_ELIGIBILITY data file should be the same day or after the Eligibility date (ME004A)
Medical Eligibility	The Termination date (ME005A) value in the MEDICAL_ELIGIBILITY data file cannot be a day far in the future. If the MEDICAL_ELIGIBILITY record is open ended, please use 99991231 instead
Medical Eligibility	The Subscriber last name (ME101) value in the MEDICAL_ELIGIBILITY data file has to be more than 1 characters
Medical Eligibility	The Subscriber first name (ME102) value in the MEDICAL_ELIGIBILITY data file has to be more than 1 characters
Medical Eligibility	The Member last name (ME104) value in the MEDICAL_ELIGIBILITY data file has to be more than 1 characters
Medical Eligibility	The Member first name (ME105) value in the MEDICAL_ELIGIBILITY data file has to be more than 1 characters

Medical Eligibility	The Subscriber ID value in the MEDICAL_ELIGIBILITY data file does not match to any value in Member ID in the MEDICAL_ELIGIBILITY data file
Medical Provider	The Provider ID length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider ID field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider ID field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider Tax ID length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider Tax ID field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider first name length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider first name field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider middle name or initial length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider middle name or initial field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider last name length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider last name field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider last name field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider specialty length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider specialty field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider specialty value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider second specialty length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider second specialty field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider second specialty value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider third specialty length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider third specialty field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider third specialty value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider street address 1 length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider street address 1 field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider street address 1 field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider street address 2 length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider street address 2 field in MEDICAL_PROVIDER does not match the format type in the data layout

Medical Provider	The Provider city length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider city field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider city field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider state length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider state field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider state field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider ZIP length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider ZIP field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider ZIP field in MEDICAL_PROVIDER cannot be blank
Medical Provider	The Provider DEA number length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider DEA number field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider NPI length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider NPI field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider state license number length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider state license number field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider Medicaid number length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider Medicaid number field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider CMS UPIN length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider CMS UPIN field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider DOB length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider DOB field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is PCP length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is PCP field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is PCP value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is OBGYN length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is OBGYN field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is OBGYN value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Mental Health length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Mental Health field in MEDICAL_PROVIDER does not match the format type in the data layout

Medical Provider	The Provider is Mental Health value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Eye Care Provider length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Eye Care Provider field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Eye Care Provider value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Dentist length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Dentist field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Dentist value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Nephrologist length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Nephrologist field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Nephrologist value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Chem. Dep length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Chem. Dep field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Chem. Dep value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Nurse Practitioner length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Nurse Practitioner field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Nurse Practitioner value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider is Phys Assist length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider is Phys Assist field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider is Phys Assist value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The Provider can prescribe Rx length in MEDICAL_PROVIDER exceeds the limit defined in the data layout
Medical Provider	The Provider can prescribe Rx field in MEDICAL_PROVIDER does not match the format type in the data layout
Medical Provider	The Provider can prescribe Rx value in the MEDICAL_PROVIDER is not in the list of valid values
Medical Provider	The ID values for this row are used multiple times within the same file. The MEDICAL_PROVIDER data file has duplicates. Check the values for Provider ID
Medical Provider	The Provider DOB date (QC011) value in the MEDICAL_PROVIDER data file should be within 120 years
Medical Provider	The Provider DOB date (QC011) value in the MEDICAL_PROVIDER data file can not be a day in the future
Medical Provider	The MEDICAL_PROVIDER should include at least one identifier. Make sure at least one value is provided for either the Provider NPI, TIN, DEA number, or the state license number
Medical Provider	The Provider Specialty field in the MEDICAL_PROVIDER cannot be blank

Pharmacy Claim	The Payer Type length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Payer Type field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Payer Type field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Payer Type value in the PHARMACY_CLAIM is not in the list of valid values
Pharmacy Claim	The Plan-specific contract number length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Plan-specific contract number field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Patient ID length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Patient ID field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Patient ID field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Insurance type/product code length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Insurance type/product code field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Insurance type/product code field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Insurance type/product code value in the PHARMACY_CLAIM is not in the list of valid values
Pharmacy Claim	The Pharmacy NPI length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy NPI field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy alternate identifier length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy alternate identifier field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy Name length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy Name field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy Name field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Pharmacy city length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy city field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy city field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Pharmacy state length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy state field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy state field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Pharmacy Zip length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Pharmacy Zip field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Pharmacy Zip field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Prescribing provider NPI length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Prescribing provider NPI field in PHARMACY_CLAIM does not match the format type in the data layout

Pharmacy Claim	The Prescribing provider NPI field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Prescribing provider DEA length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Prescribing provider DEA field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Claim status length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Claim status field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Claim status field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The NDC length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The NDC field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The NDC field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Date filled length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Date filled field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Date filled field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Payment date length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Payment date field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Quantity dispensed length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Quantity dispensed field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Alternate refill number length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Alternate refill number field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Days supply length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Days supply field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Days supply field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Dispense as written code length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Dispense as written code field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Dispense as written code field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Dispense as written code value in the PHARMACY_CLAIM is not in the list of valid values
Pharmacy Claim	The Calculated refill number length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Calculated refill number field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Calculated refill number field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Compound drug indicator length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Compound drug indicator field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Compound drug indicator field in PHARMACY_CLAIM cannot be blank

Pharmacy Claim	The Claim ID length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Claim ID field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Claim ID field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Payment length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Payment field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Payment field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Charges length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Charges field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Charges field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Ingredient cost/list price length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Ingredient cost/list price field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Dispensing fee paid length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Dispensing fee paid field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Co-pay length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Co-pay field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Co-pay field in PHARMACY_CLAIM cannot be blank
Pharmacy Claim	The Coinsurance length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Coinsurance field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Deductible length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Deductible field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The Patient pay amount length in PHARMACY_CLAIM exceeds the limit defined in the data layout
Pharmacy Claim	The Patient pay amount field in PHARMACY_CLAIM does not match the format type in the data layout
Pharmacy Claim	The ID values for this row are used multiple times within the same file. The PHARMACY_CLAIM data file has duplicates. Check the values for Claim ID, Patient ID, Claim status, Payment date
Pharmacy Claim	The Payment date (PC017) value in the PHARMACY_CLAIM data file should be the same day or after the Date filled (PC032)
Pharmacy Claim	The Payment date (PC017) value in the PHARMACY_CLAIM data file can not be a day in the future
Pharmacy Claim	The Payment date (PC017) value in the PHARMACY_CLAIM data file can only be blank for denied claims
Pharmacy Claim	The Filled date (PC032) value in the PHARMACY_CLAIM data file can not be a day in the future
Pharmacy Claim	The PHARMACY_CLAIM should include at least one identifier. Make sure at least one value is provided for either the Pharmacy NPI, or the Pharmacy alternate identifier
Pharmacy Claim and Medical Eligibility	The Patient ID value in the PHARMACY_CLAIM data file does not match to any value in Member ID in the MEDICAL_ELIGIBILITY data file
