**RULE SUMMARY**

This rule lists billing codes for which the OHP FFS will not make payment. Codes are included in this rule for three reasons: (1) They are for services that are not covered under any OHP benefit plan; (2) They are codes for which payment is bundled under another billing code; and (3) They are services for which OHP requires a different but equivalent code for payment. For example, the billing codes for cosmetic procedures are included in this rule because they are not covered services. The billing code for surgical trays are also included because payment for trays is bundled under the surgery code.

The changes to this rule are to incorporate changes in the national code sets and changes from HERC. Codes that have been terminated from the national code set are being removed. Codes that HERC newly recommended for non-coverage are being added. Codes that will newly be bundled for payment under our adopted payment methodology are being added. Added codes will not be eligible for payment under the FFS program.

The changes to this rule are needed to incorporate changes in the national code sets and changes from HERC into this rule, which lists the billing codes that OHP does not pay for. The changes include: Removing codes that have been terminated from the national code set, adding codes that HERC newly recommended for non-coverage, and codes that will newly be bundled for payment under the Authority's adopted payment methodology. Added codes will not be eligible for payment under the FFS program.

Need for the Temporary Rule(s)

The Authority finds that failure to act promptly will result in serious prejudice to the public interest, the Authority, and the CCOs. These rules need to be adopted promptly so that the Authority properly adjudicate medical claims. These codes are of particular urgency because they are billing codes that the authority should not pay against. We currently do not have the codes open for payment but we need rule authority to back up our non-payments if our denials are appealed.

### Description indicators:

N = Non-covered Services. These services are not covered under OHP benefits.

B = Bundled Code. Payment for these services is always bundled into payment for other services not specified. When these services are covered, payment for them is subsumed by the payment for the services to which they are incident.

NV = Not valid for claims processing. When covered, the Division uses another code for reporting of, and payment for these services.
