OHP Program Rulebook  
Update Information  
for  
November 21, 2011

The Division of Medical Assistance Programs (Division) updated this Rulebook by temporarily revising **OAR 410-141-0070**, Managed Care Fully Capitated Health Plan and Physician Care Organization Pharmaceutical Drug List Requirements. This is due to a prior update that inadvertently created some concerns with respect to how the division will address requests to exclude drugs from the capitation rate that were FDA approved to treat mental health diseases, but were not listed as a class 7 or 11, by First DataBank.

This revision clarifies and assists providers when addressing this issue in the future and must be updated in time for providers to conform to the Division's requirements set forth in this rule.

If you have questions, contact a Provider Services Representative toll-free at 1-800-336-6016 or direct at 503-378-3697.

## **410-141-0010 Prepaid Health Plan Contract Procurement Screening and Selection Procedures**

(1) Basis and scope:

(a) The Oregon Health Authority (Authority) will use screening and selection procedures to procure managed care services pursuant to ORS 414.725. The Authority may award Qualified Managed Care Organizations (MCO) a contract as a prepaid health plan (PHP) for purposes of administering the Oregon Health Plan (OHP);

(b) The OHP is funded with Federal Medicaid funds. The Authority will interpret and apply this rule to satisfy federal procurement and contracting requirements in addition to state requirements applicable to contracts with PHPs. The Authority will seek prior federal approval of PHP contracts;

(c) For purposes of source selection and screening in the procurement of managed care services, the Authority may use:

(A) The Request for Application (RFA) process described in sections (3) through (6) of this rule; or

(B) Any method described in the Department of Justice's (DOJ) Model Rules (chapter 137, division 047) for source selection and procurement process, except for bidding.

(2) In addition to the terms defined in OAR 410-141-0000, the following definitions for screening and selection procedures apply:

(a) Addendum or Addenda -- an addition or deletion to, a material change in, or general interest explanation of an RFA;

(b) Application -- Documents submitted by an MCO that seeks qualification to be awarded a contract. The applicant is the MCO submitting the Application;

(c) Award -- As the context requires, the act or occurrence of the Authority's identification of a qualified MCO with which the Authority will enter into a contract;

(d) Closing -- The date and time announced in an RFA as the deadline for submitting Applications;

(f) Managed care services -- Capitated services provided by a PHP pursuant to ORS 414.725;

(h) Request for Applications (RFA) -- All documents used by the Authority for soliciting Applications for qualification in a specific RFA issued by the Authority, for one or more categories of contracts, one or more Service Areas or such other objective as the Authority may determine is appropriate for solicitation of managed care services.

(3) RFA process:

(a) The Authority will provide public notice of every RFA on its Web site. The RFA will indicate how prospective applicants will be made aware of Addenda by posting notice of the RFA on the electronic system for notifying the public of Authority procurement opportunities, or at the option of the requestor, mailing notice of the availability of the RFA to persons that have expressed interest in Authority procurement of managed care services;

(b) The RFA process begins with a public notice of the RFA, which will be communicated with the electronic notification system used by the Authority to notify the public of procurement opportunities. A public notice of a RFA shall identify the qualification requirements for the category of contract (e.g., Fully Capitated Health Plan FCHP), Dental Care Organization (DCO), etc.), the designated Service Area(s) where managed care services are requested or other objective that the Authority determines appropriate for solicitation of managed care services, and a sample contract;

(c) The Authority will provide notice of any RFA Addenda in a manner intended to foster competition and to make prospective applicants aware of

the Addenda. The RFA will specify how the Authority will provide notice of Addenda;

(d) If the RFA so specifies, potential applicants must submit a letter of intent to the Authority within the time period specified in the RFA. The letter of intent does not commit any potential applicant to apply, however, if required, the Authority will not consider Applications from applicants who do not submit a timely letter of intent;

(e) Submitting the Application – The Authority will only consider Applications that are submitted in the manner described in the RFA. Applicants must:

(A) Identify electronic Application submissions as defined in the RFA. The Authority is not responsible for any failure attributable to the transmission or receipt of electronic or facsimile Applications, including but not limited to receipt of garbled or incomplete documents, delay in transmission or receipt of documents, or security and confidentiality of data;

(B) Submit Applications, when sent by mail, in a sealed envelope that is marked appropriately;

(C) Ensure the Authority receives their Applications at the required delivery point prior to the Closing date, listed in the RFA. The Authority will not accept late Applications.

(f) The Application must be completed as described in the RFA. To avoid duplication and burden, the Authority may permit a current contractor to submit an abbreviated Application that focuses only on additional or different requirements specific to the new contract or the new Service Area or capacity or other Authority objective that is the subject of the RFA;

(g) The Authority will enter into or renew a contract only if it determines that the action would be within the scope of the RFA and consistent with the effective administration of the OHP, including but not limited to:

(A) The capacity of any existing PHP(s) in the Service Area compared to the capacity of an additional PHP for the number of potential enrollees in the Service Area;

(B) The potential opportunity for clients to have a choice of more than one PHP.

(h) Disclosure of Application Contents and Release of Information:

(A) Application information, including the letter of intent, shall not be disclosed to any applicant (or other person) until the completion of the RFA process. The RFA process shall be considered complete when a contract has been awarded. No information will be given to any applicant (or other person) relative to their standing with other applicants during the RFA process;

(B) Application information shall be subject to disclosure upon the award date, with the exception of information that has been clearly identified and labeled "Confidential" under ORS 192.501-192.502, insofar as the Authority determines it meets the requirements for an exemption from disclosure;

(C) Any requestor shall be able to obtain copies of non-exempt information after the RFA process has been completed. The requestor shall be responsible for the time and material expense associated with the request. This fee includes the copying of the document(s) and the staff time (and agency attorney time, if requested by the Authority) associated with performing the task, in accordance with ORS 192.440(3). The Authority may require prepayment of estimated charges before acting on a request:

(i) Protests must be submitted, in writing, to the Authority prior to the protest date specified in the RFA. The protest shall state the reasons for the protest or request and any proposed changes to the RFA provisions, specifications or contract terms and conditions that the prospective applicant believes will remedy the conditions upon which the protest is based. Protests and judicial review of the RFA shall be handled using the process set forth in OAR 137-047-0730;

(j) The Authority is not obligated to enter into a contract with any applicant, and further, has no financial obligation to any applicant.

(4) Application for qualification:

(a) An MCO seeking qualification as a PHP must meet the requirements and provide the assurances specified in the RFA. The Authority determines whether the MCO qualifies based on the Application and any additional information and investigation that the Authority may require;

(b) The Authority determines an MCO is qualified when the MCO meets the requirements of the RFA, including written assurances, satisfactory to the Authority, that the MCO:

(A) Provides or will provide the services described in the contract;

(B) Provides or will provide the health services described in the contract in the manner described in the contract;

(C) Is organized and operated, and will continue to be organized and operated, in the manner required by the contract and described in the Application;

(D) Under arrangements that safeguard the confidentiality of patient information and records, will provide to the Authority, CMS, the Office of Inspector General, the Oregon Secretary of State, and the Oregon Medicaid Fraud Unit of the DOJ, or any of their duly authorized representatives, for the purpose of audit, examination or evaluation to any books, documents, papers, and records of the MCO relating to its operation as a PHP and to any facilities that it operates; and

(E) Will continue to comply with any other assurances it has given the Authority.

(c) The Authority may determine that an MCO is potentially qualified if within a specified period of time the MCO is reasonably susceptible of being made qualified. The Authority is not obligated to determine whether an applicant is potentially qualified if, in its discretion, the Authority determines that sufficient qualified applicants are available to obtain the Authority objectives under the RFA. The Authority determines that an MCO is potentially qualified if:

(A) The Authority finds that the MCO is reasonably susceptible to meeting the operational and solvency requirements of the Application within a specified period of time; and

(B) The MCO enters into discussions with the Authority about areas of qualification that must be met before the MCO is operationally and financially qualified. The Authority will determine the date and required documentation and written assurances required from the MCO;

(C) If the Authority determines that a potentially qualified applicant cannot become a qualified MCO within the time announced in the RFA for contract award, the Authority may:

(i) Offer the contract at a future date when the applicant demonstrates, to the Authority's satisfaction, that the applicant is a qualified MCO within the scope of the advertised RFA; or

(ii) Inform the applicant that it is not qualified for contract award.

(5) Evaluation and determination procedures:

(a) The Authority evaluates an Application for qualification on the basis of information contained in the RFA, the Application and any additional information that the Authority obtains. Evaluation of the Application will be based on the criteria in the RFA;

(b) The Authority will notify each MCO that applies for qualification of its qualification status;

(c) Review of Authority' qualification decisions shall be as set forth in ORS 279B.425;

(d) The Authority may enter into negotiation with qualified or potentially qualified applicants concerning potential capacity and enrollment in relation to other available, or potentially available, capacity and the number of potential enrollees within the Service Area. The Authority may determine that it will limit contract award(s) to fewer than the number of qualified or potentially qualified applicants, to achieve the objectives in the RFA.

(6) Contract award conditions:

(a) The applicant's submission of the Application with the executed Certification of Application is the MCO's Offer to enter into a contract. The Offer is a "Firm Offer," i.e., the Offer shall be held open by the applicant for the Authority' acceptance for the period specified in the RFA. The Authority's award of the contract constitutes acceptance of the Offer and binds the applicant to the contract;

(b) No Contingent Offers. Except to the extent the applicant is authorized to propose certain terms and conditions pursuant to the RFA, an MCO shall not make its Offer contingent upon the Authority's acceptance of any terms or conditions other than those contained in the RFA;

(c) By timely signing and submitting the Application and Certification of Application, the applicant acknowledges that it has read and understands the terms and conditions contained in the RFA and that it accepts and agrees to be bound by the terms and conditions of the RFA;

(d) The Authority may award multiple contracts in accordance with the criteria set forth in the RFA. The Authority may make a single award or limited number of awards rather than multiple awards to all qualified or potentially qualified applicants, in order to meet Authority' needs including but not limited to adequate capacity for the potential enrollees in the Service Area;

(e) An applicant who claims to have been adversely affected or aggrieved by the Authority contract award or intent to award a contract must file a written protest with the Authority issuing office within seven (7) calendar days after receiving the Notice of Award. Protests and judicial review of contract award shall be handled using the procedures set forth in OAR 137-047-9740.

(7) Applicability of DOJ Model Rules: Except where inconsistent with the preceding sections of this rule, Authority will use the following DOJ Model Rules to govern solicitations for Managed Care Services:

## **410-141-0050 MHO Enrollment for Children Receiving Child Welfare Services**

Pursuant to and in the administration of the authority in OAR 410-141-0060, Children, Adults and Families (CAF) or Oregon Youth Authority (OYA) selects Prepaid Health Plans (PHPs) or a Primary Care Manager (PCM) for a child receiving CAF Child Welfare Services or OYA Services, with the exception of children in subsidized adoption and guardianship. This rule implements and further describes how the Oregon Health Authority (Authority) will administer its authority under 410-141-0060 for purposes of making enrollment decisions and 410-141-0080 for purposes of making disenrollment decisions for children receiving CAF Child Welfare Services or OYA Services;

(1) The Authority has determined that, to the maximum extent possible, all children receiving CAF services should be enrolled in Mental Health Organizations (MHOs) at the next available enrollment date following eligibility, redetermination, or upon review by the Authority, unless disenrollment from a MHO is authorized by the Authority in accordance with this section and OAR 410-141-0080:

(a) Notwithstanding OAR 410-141-0060(4)(a) or 410-141-0080(2)(b)(E), children receiving CAF services are not exempt from mandatory enrollment in an MHO on the basis of Third Party Resources (TPR) mental health services coverage;

(b) A decision to use Fee-For-Service (FFS) open card for a child receiving CAF services should be reviewed by the Authority if the child's circumstances change and at the time of redetermination to consider whether the child should be enrolled in a MHO.

(2) When a child receiving CAF services is being transferred from one MHO to another, or for children transferring from FFS to a MHO, the MHO must facilitate coordination of care consistent with OAR 410-141-0160:

(a) MHOs are required to work closely with the Authority to ensure continuous MHO enrollment for children receiving CAF services;

(b) If the Authority determines that disenrollment should occur, the MHO will continue to be responsible for providing Covered Services until the disenrollment date established by the Authority, which shall provide for an adequate transition to the next responsible MHO.

(3) It is not unusual for a child receiving CAF services to experience a change of placement that may be permanent or temporary in nature. Consistent with OAR 410-141-0080(2)(b)(F), the Authority will verify the address change information to determine whether a child receiving CAF services no longer resides in the MHO's Service Area:

(a) A temporary absence as a result of a temporary placement out of the MHO's Service Area does not represent a change of residence if the Authority determines that the child is reasonably likely to return to a placement in the MHO's Service Area at the end of the temporary placement;

(b) Unless a corresponding change in MHO capitation rates is implemented, a child receiving CAF services placed in Behavioral Rehabilitation Services (BRS) settings will be enrolled in the MHO that serves the region in which the BRS setting is located, unless an out of area exception is requested by the MHO and agreed to by the Authority for purposes related to continuity of care.

(4) If the child receiving CAF services is enrolled in a MHO on the same day the child is admitted to psychiatric residential treatment services (PRTS), the MHO shall be responsible for Covered Services during that placement even if the location of the facility is outside of the MHO's Service Area:

(a) The child receiving CAF services is presumed to continue to be enrolled in the MHO with which the child was most recently enrolled. An admission to a PRTS facility shall be deemed a temporary placement for purposes of MHO enrollment. Any address change or Authority system identifier (e.g., C5 status) change associated with the placement in the PRTS facility does not constitute a change of residence for purposes of MHO enrollment and shall not constitute a basis for disenrollment from the MHO, notwithstanding OAR 410-141-0080(2)(b)(F). If the Authority determines that a child was disenrolled for reasons not consistent with these rules, the Authority shall re-enroll the child with the appropriate MHO and assign an enrollment

date that provides for continuous MHO coverage with the appropriate MHO. If the child had been enrolled in a different MHO in error, the Authority will disenroll the child from that MHO and recoup the Capitation Payments;

(b) Immediately upon discharge from Long Term Psychiatric Care and prior to admission to a PRTS, a child receiving CAF services should be enrolled in an MHO. At least two weeks prior to discharge of a child receiving CAF services from Long Term Psychiatric Care (SAIP, SCIP or STS) facility to a PRTS facility, the long term care facility shall consult with the Authority about which MHO will be assigned in order to provide for enrollment in the MHO and shall make every reasonable effort within the laws governing confidentiality to consult with the MHO that will be assigned in order to provide for continuity of care upon discharge from Long Term Psychiatric Care.

(5) Notwithstanding OAR 410-141-0060(6)(d) and (7) and 410-141-0080(2)(b)(H), if a child receiving CAF services is enrolled in a MHO after the first day of an admission to PRTS, the date of enrollment shall be effective the next available enrollment date following discharge from PRTS to the MHO assigned by the Authority:

(a) For purposes of these rules and to assure continuity of care for the child upon discharge, the next available enrollment date shall mean immediately upon discharge;

(b) At least two weeks prior to discharge, the PRTS facility shall consult with the Authority about which MHO will be assigned and shall make every reasonable effort within the laws governing confidentiality to consult with the MHO that will be assigned in order to provide for continuity of care upon discharge.

## **410-141-0060 Oregon Health Plan Managed Care Enrollment Requirements**

(1) Enrollment of an Oregon Health Plan (OHP) client, excluding the Health Plan New/Noncategorical client (HPN) and Children's Health Insurance Program (CHIP) clients in Prepaid Health Plans (PHPs) shall be mandatory unless exempted from enrollment by the Oregon Health Authority (Authority), or unless the OHP client resides in a Service Area where there is inadequate capacity to provide access to Capitated Services for all OHP clients through PHPs or Primary Care Managers (PCMs).

(2) Enrollment of the HPN and CHIP clients in PHPs shall be mandatory unless exempted from enrollment by the Authority under the terms in section (4) of this rule. Selection of PHPs in accordance with this rule is a condition of eligibility for HPN and CHIP clients. If, upon reapplication, HPN or CHIP clients do not select PHPs in accordance with this rule, PHPs will be selected by the Authority. This selection will be based on which PHPs the HPN or CHIP clients were previously enrolled in.

(3) OHP clients, except HPN and CHIP clients shall be enrolled with PHPs or PCMs according to the following criteria:

(a) Areas with sufficient physical health service capacity through a combination of Fully Capitated Health Plans (FCHP), Physician Care Organizations (PCO), and PCMs shall be called mandatory FCHP/PCO/PCM Service Areas. In mandatory FCHP/PCO/PCM Service Areas, an OHP client shall select:

(A) An FCHP or PCO; or

(B) A PCM if exempt from FCHP or PCO enrollment.

(b) Service areas with sufficient physical health service capacity through PCMs alone shall be called mandatory PCM Service Areas. An OHP client shall select a PCM in a mandatory PCM Service Area;

(c) Service Areas without sufficient physical health service capacity through FCHPs, PCOs and PCMs shall be called voluntary FCHP/PCO/PCM Service Areas. In voluntary FCHP/PCO/PCM Service Areas, an OHP client may choose to:

(A) Select any FCHP, PCO or PCM that is open for enrollment; or

(B) Remain in the Medicaid Fee-for-Service (FFS) physical health care delivery system.

(d) Service Areas with sufficient dental care service capacity through Dental Care Organizations (DCOs) shall be called mandatory DCO Service Areas. An OHP client shall select a DCO in a mandatory DCO Service Area;

(e) Service Areas without sufficient dental care service capacity through DCOs shall be called voluntary DCO Service Areas. In voluntary DCO Service Areas, an OHP client may choose to:

(A) Select any DCO open for enrollment; or

(B) Remain in the Medicaid FFS dental care delivery system;

(f) Service Areas with sufficient mental health service capacity through MHOs shall be called mandatory MHO Service Areas. OHP clients will be enrolled in an MHO in a mandatory MHO Service Area;

(g) Service Areas without sufficient mental health service capacity through MHOs shall be called voluntary MHO Service Areas. An OHP client may choose to select an MHO in voluntary MHO Service Areas if the MHO is open for enrollment, or may choose to remain in the Medicaid FFS mental health care delivery system;

(h) When a Service Area changes from mandatory to voluntary, the Division of Medical Assistance Programs (Division) member will remain with their PHP for the remainder of their eligibility period, unless the Division member meets the criteria stated in section (4) of this rule, or as provided by OAR 410-141-0080.

(4) The following are exemptions to mandatory enrollment in PHPs that allow OHP clients, including HPN and CHIP clients, to enroll with a PCM or remain in the Medicaid FFS delivery systems for physical, dental and/or mental health care:

(a) The OHP client is covered under a major medical insurance policy, such as a Medicare supplemental policy, Medicare employer group policy or other third party resource (TPR) which covers the cost

of services to be provided by a PHP, (excluding dental insurance. An OHP client shall be enrolled with a DCO even if they have a dental TPR). The OHP client shall enroll with a PCM if the insurance policy is not a private Health Maintenance Organization (HMO);

(b) Clients who meet all of the criteria listed in section (4)(b)(A) through (C) are exempt from mandatory enrollment:

(A) The OHP client has an established relationship with a Division enrolled Practitioner from whom the client receives ongoing treatment for a covered medical or dental condition, and;

(B) Subject to OAR 410-141-0080(1)(b)(B)(vi)(III), the Division-enrolled practitioner is not a member of the PHP's Participating Provider panel the OHP client would be enrolled in, and;

(C) Loss of continuity of care for the covered medical or dental condition would have a significant negative effect on the health status of the OHP client, as determined by the Authority through medical review, to change Practitioners and receive treatment from the PHP's Participating Provider Panel;

(D) When the Practitioner is a Primary Care Practitioner (PCP) enrolled with the Division as a PCM, the OHP client shall enroll with this Practitioner as a PCM member;

(E) Exemptions from mandatory enrollment in PHPs for this reason may be granted for a period of four months. Extensions may be granted by the Authority upon request, subject to review of unique circumstances. A 12-month exemption may be granted if the reason for the exemption is not likely to change or is due to a chronic or permanent condition or disability;

(c) OHP clients shall be exempted from mandatory enrollment with an FCHP or PCO, if the OHP client became eligible through a hospital hold process and are placed in the Adults/Couples category. The OHP client shall remain FFS for the first six (6) months of eligibility unless a change occurs with their eligibility or the category. At that time, the exemption shall be removed and the OHP client shall be enrolled into an open FCHP or PCO. The exemption shall not affect the mandatory enrollment requirement into a DCO or MHO.

(d) The OHP client is a Native American or Alaska Native with Proof of Indian Heritage and chooses to receive services from an Indian Health Service facility or tribal health clinic;

(e) The OHP client is a child in the legal custody of either the Oregon Youth Authority (OYA) or Children, Adults and Families (CAF) (Child Welfare Services), and the child is expected to be in a substitute care placement for less than 30 calendar days, unless:

(A) There is no FFS access; or

(B) There are continuity of care issues.

(f) The OHP client is in the third trimester of her pregnancy when first determined eligible for OHP, or at redetermination, and she wishes to continue obtaining maternity services from a Practitioner who is not a Participating Provider with an FCHP or PCO in the Service Area:

(A) In order to qualify for such exemption at the time of redetermination, the OHP client must not have been enrolled with an FCHP or PCO during the three months preceding redetermination;

(B) If the Division member moves out of her PHP's Service Area during the third trimester, the Division member may be exempted from enrollment in the new Service Area for continuity of care if the Division member wants to continue obstetric-care with her previous physician, and that physician is within the travel time or distance indicated in 410-141-0220;

(C) If the Practitioner is a PCM, the Division member shall enroll with that Practitioner as a PCM member;

(D) If the Practitioner is not enrolled with the Division as a PCM, then the Division member may remain in the Medicaid FFS delivery system until 60 days after the birth of her child. After the 60-day period, the OHP client must enroll in a FCHP or PCO.

(g) The OHP client has End Stage Renal Disease (ESRD). The OHP client shall not enroll in an FCHP or PCO but shall enroll with a PCM unless exempt for some other reason listed in section (4) of this rule;

(h) The OHP client has been accepted by the Medically Fragile Children's Unit of the Addictions and Mental Health Division (AMH);

(i) An OHP client who is also a Medicare beneficiary and is in a hospice program shall not enroll in an FCHP or PCO that is also a Medicare Advantage plan. The OHP client may enroll in either an FCHP or PCO that does not have a Medicare Advantage plan or with a PCM unless exempt for some other reason listed in section (4) of this rule;

(j) The OHP client is enrolled in Medicare and the only FCHP or PCO in the Service Area is a Medicare Advantage plan. The OHP client may choose not to enroll in an FCHP or PCO;

(k) Other just causes as determined by the Authority through medical review, which include the following factors:

(A) The cause is beyond the control of the OHP client;

(B) The cause is in existence at the time that the OHP client first becomes eligible for OHP;

(C) Enrollment would pose a serious health risk; and

(D) The lack of reasonable alternatives.

(l) A woman eligible for the Breast and Cervical Cancer Medical (BCCM) Program, (refer to BCCM rules established by CAF), shall not enroll in an FCHP, PCO, DCO or MHO. A woman in the BCCM Program shall remain in the Medicaid FFS delivery system.

(5) The primary person in the household group and benefit group as defined in OAR 461-110-0110, 461-110-0210, and 461-110-0720, respectively, shall select PHPs or PCMs on behalf of all OHP clients in the benefit group. PHP or PCM selection shall occur at the time of application for OHP in accordance with section (1) of this rule:

(a) All OHP clients in the benefit group shall enroll in the same PHP for each benefit type (physical, dental or mental health care) unless exempted under the conditions stated in section (4) of this rule. If PCM selection is an option, OHP clients in the benefit group may select different PCMs;

(b) If the OHP client is not able to choose PHPs or PCMs on his or her own, the Representative of the OHP client shall make the selection. The hierarchy used for making enrollment decisions shall be in descending order as defined under Representative:

(A) If the Medicare Advantage Plan Election form (OHP 7208M), described in subsection (5)(d) of this rule, is signed by someone other than the OHP client, the OHP client's Representative must complete and sign the Signature by Mark or State Approved Signature sections of the OHP 7208M.

(B) If the OHP client is a Medicare beneficiary who is capable of making enrollment decisions, the client's Representative shall not have authority to select FCHPs or PCOs that have corresponding Medicare Advantage components.

(c) CAF or OYA shall select PHPs or a PCM for a child receiving CAF (Child Welfare Services) or OYA Services, with the exception of children in subsidized adoptions;

(d) Enrollment in a FCHP or PCO of an OHP client who is receiving Medicare and who resides in a Service Area served by PHPs or PCMs shall be as follows:

(A) If the OHP client, who is Medicare Advantage eligible, selects a FCHP or PCO that has a corresponding Medicare Advantage plan, the OHP client shall complete the 7208M, or other Centers for Medicare and Medicaid Services (CMS) approved Medicare plan election form:

(i) If the FCHP or PCO has not received the form within 10 calendar days after the date of enrollment, the FCHP or PCO shall send a letter to the Division member with a copy sent to SPD branch manager. The letter shall:

(I) Explain the need for the completion of the form;

(II) Inform the Division member that if the form is not received within 30 days, the FCHP or PCO may request disenrollment; and

(III) Instruct the Division member to contact their caseworker for other coverage alternatives.

(ii) The FCHP or PCO shall choose whether to disenroll or maintain enrollment for all the OHP clients from whom they do not receive a form at the end of 30 days, except as otherwise provided in this rule. The FCHP or PCO must notify the PHP Coordinator of the PHP's annual decision to disenroll or maintain enrollment for the OHP clients in writing. This notification must be submitted by January 31 of each year, or another date specified by the Division. If the FCHP or PCO has decided to:

(I) Disenroll the OHP clients and has not received a Division client's form at the end of 30 days, the FCHP or PCO shall request disenrollment. HMU will disenroll the Division member effective the end of the month following the notification.

(II) Maintain enrollment, the FCHP or PCO shall not request disenrollment at the end of 30 days.

(B) If the OHP client is enrolled as a private member of a Medicare Advantage plan, the OHP client may choose to remain enrolled as a private member or to enroll in the FCHP or PCO that corresponds to the Medicare Advantage plan:

(i) If the OHP client chooses to remain as a private member in the Medicare Advantage plan, the OHP client shall remain in the Medicaid FFS delivery system for physical health care services but shall select a DCO and MHO where available;

(ii) If the OHP client chooses to discontinue the Medicare Advantage enrollment and then, within 60 calendar days of disenrollment from the Medicare Advantage plan, chooses the FCHP or PCO that corresponds to the Medicare Advantage plan that was discontinued, the OHP client shall be allowed to enroll in the FCHP or PCO even if the FCHP or PCO is not open for enrollment to other OHP clients;

(iii) A Fully Dual Eligible (FDE) OHP client who has been exempted from enrollment in an MHO shall not be enrolled in a FCHP or PCO that has a corresponding Medicare Advantage plan unless the exemption was done for a Provider who is on the FCHP's or PCO's panel.

(e) MHO enrollment options shall be based on the OHP client's county of residence, the FCHP or PCO selected by the OHP client, and whether the FCHP or PCO selected serves as a MHO:

(A) If the OHP client selects a FCHP or PCO that is not a MHO, then the OHP client shall enroll in the MHO designated as the freestanding MHO for that county;

(B) If the OHP client selects a FCHP or PCO that is a MHO, then the OHP client shall receive OHP mental health benefits through that FCHP or PCO.

(6) If the OHP client resides in a mandatory Service Area and fails to select a DCO, MHO, PCO and/or FCHP or a PCM at the time of application for the OHP, the Division may enroll the OHP client with a DCO, MHO, PCO and/or FCHP or a PCM as follows:

(a) The OHP client shall be assigned to and enrolled with a DCO, MHO, and FCHP, PCO or PCM which meet the following requirements:

(A) Is open for enrollment;

(B) Serves the county in which the OHP client resides;

(C) Has Practitioners located within the Community Standard distance for average travel time for the OHP client.

(b) Assignment shall be made first to a FCHP or PCO and second to a PCM;

(c) The Authority shall send a notice to the OHP client informing the OHP client of the assignments and the right to change assignments within 30 calendar days of enrollment. A change in assignment shall be honored if there is another DCO, MHO, and FCHP, PCO or PCM open for enrollment in the county in which the OHP client resides;

(d) Enrollments resulting from assignments shall be effective the first of the month or week after the Authority enrolls the OHP client and notifies the OHP client of enrollment and the name of the PHP or PCM: If enrollment is initiated by an Authority worker on or before Wednesday, the date of enrollment shall be the following Monday. If

enrollment is initiated by an Authority worker after Wednesday, the date of enrollment shall be one week from the following Monday. Monthly enrollment in a mandatory Service Area where there is only one FCHP, PCO, MHO or DCO shall be initiated by an auto-enrollment program of the Authority effective the first of the month following the month-end cutoff. Monthly enrollment in Service Areas where there is a choice of PHPs, shall be auto-enrolled by computer algorithm.

(7) The provision of Capitated Services to a Division member enrolled with a PHP or a PCM shall begin on the first day of enrollment with the PHP or a PCM except for:

(a) A newborn whose mother was enrolled at the time of birth. The date of enrollment shall be the newborn's date of birth;

(b) Persons, other than newborns, who are hospitalized on the date enrolled. The date of enrollment with a FCHP, PCO or MHO shall be the first possible enrollment date after the date the OHP client is discharged from inpatient hospital services and the date of enrollment with a PCM shall be the first of the month for which Capitation Payment is made;

(c) For Division members who are re-enrolled within 30 calendar days of disenrollment. The date of enrollment shall be the date specified by the Authority that may be retroactive to the date of disenrollment;

(d) Adopted children or children placed in an adoptive placement. The date of enrollment shall be the date specified by the Authority.

(b) Include at least one item in each therapeutic class of over-the-counter medications; and

(c) Be revised periodically to assure compliance with this requirement.

(3) FCHPs and PCOs shall provide their participating providers and their pharmacy subcontractor with:

## **410-141-0080 Managed Care Disenrollment from Prepaid Health Plans**

(1) Division member requests for disenrollment:

(a) All Oregon Health Plan (OHP) Division member-initiated requests for disenrollment from a Prepaid Health Plan (PHP) must be initiated, orally or in writing, by the primary person in the benefit group enrolled with a PHP, where primary person and benefit group are defined in OAR 461-110-0110 and 461-110-0720, respectively. For Division members who are not able to request disenrollment on their own, the request may be initiated by the Division member's Representative;

(b) Primary person or Representative requests for disenrollment shall be honored:

(A) Without cause:

(i) After six months of Division member's enrollment. The effective date of disenrollment shall be the first of the month following the Department's approval of disenrollment;

(ii) Whenever a Division member's eligibility is redetermined by the Department of Human Services (Department) and the primary person requests disenrollment without cause. The effective date of disenrollment shall be the first of the month following the date that the Division member's eligibility is redetermined by the Department;

(B) With cause:

(i) At any time;

(ii) Division members who disenroll from a Medicare Advantage plan shall also be disenrolled from the corresponding Fully Capitated Health Plan (FCHP) or Physician Care Organization (PCO). The effective date of disenrollment shall be the first of the month that the Division member's Medicare Advantage plan disenrollment is effective;

(iii) Division members who are receiving Medicare and who are enrolled in a FCHP or PCO that has a corresponding Medicare Advantage component may disenroll from the FCHP or PCO at any

time if they also request disenrollment from the Medicare Advantage plan. The effective date of disenrollment from the FCHP or PCO shall be the first of the month following the date of request for disenrollment;

(iv) PHP does not, because of moral or religious objections, cover the service the Division member seeks;

(v) The Division member needs related services (for example a cesarean section and a tubal ligation) to be performed at the same time, not all related services are available within the network, and the Division members' Primary Care Provider or another Provider determines that receiving the services separately would subject the Division member to unnecessary risk; or

(vi) Other reasons, including but not limited to, poor quality of care, lack of access to services covered under the contract, or lack of access to Participating Providers experienced in dealing with the Division member's health care needs. Examples of sufficient cause include but are not limited to:

(I) The Division member moves out of the PHP's Service Area;

(II) The Division member is a Native American or Alaskan Native with Proof of Indian Heritage who wishes to obtain primary care services from his or her Indian Health Service facility, tribal health clinic/program or urban clinic and the Fee-For-Service (FFS) delivery system;

(III) Continuity of care that is not in conflict with any section of 410-141-0060 or this rule. Participation in the Oregon Health Plan, including managed care, does not guarantee that any Oregon Health Plan client has a right to continued care or treatment by a specific provider. A request for disenrollment based on continuity of care will be denied if the basis for this request is primarily for the convenience of an Oregon Health Plan client or a provider of a treatment, service or supply, including but not limited to a decision of a provider to participate or decline to participate in a PHP.

(C) If the following conditions are met:

(i) The applicant is in the third trimester of her pregnancy and has just been determined eligible for OHP, or the OHP client has just been re-determined eligible and was not enrolled in a FCHP or PCO within the past 3 months; and

(ii) The new FCHP or PCO the Division member is enrolled with does not contract with the Division member's current OB Provider and the Division member wishes to continue obtaining maternity services from that Non-Participating OB Provider; and

(iii) The request to change FCHPs, PCOs or return to FFS is made prior to the date of delivery.

(c) In addition to the disenrollment constraints listed in (b), above, Division member disenrollment requests are subject to the following requirements:

(A) The Division member shall join another PHP, unless the Division member resides in a Service Area where enrollment is voluntary, or the Division member meets the exemptions to enrollment as stated in 410-141-0060(4);

(B) If the only PHP available in a mandatory Service Area is the PHP from which the Division member wishes to disenroll, the Division member may not disenroll without cause;

(C) The effective date of disenrollment shall be the end of the month in which disenrollment was requested unless retroactive disenrollment is approved by the Division;

(D) If the Department fails to make a disenrollment determination by the first day of the second month following the month in which the Division member files a request for disenrollment, the disenrollment is considered approved.

(2) Prepaid Health Plan requests for disenrollment:

(a) Causes for disenrollment:

(A) The Division may disenroll Division members for cause when requested by the PHP, subject to American with Disabilities Act

requirements. Examples of cause include, but are not limited to the following:

(i) Missed appointments. The number of missed appointments is to be established by the Provider or PHP. The number must be the same as for commercial members or patients. The Provider must document they have attempted to ascertain the reasons for the missed appointments and to assist the Division member in receiving services. This rule does not apply to Medicare members who are enrolled in a FCHP's or PCO's Medicare Advantage plan;

(ii) Division member's behavior is disruptive, unruly, or abusive to the point that his/her continued enrollment in the PHP seriously impairs the PHP's ability to furnish services to either the Division member or other members, subject to the requirements in (2)(a)(B)(vii);

(iii) Division member commits or threatens an act of physical violence directed at a medical Provider or property, the Provider's staff, or other patients, or the PHP's staff to the point that his/her continued enrollment in the PHP seriously impairs the PHP's ability to furnish services to either this particular Division member or other Division members, subject to the requirements in (2)(a)(B)(vii);

(iv) Division member commits fraudulent or illegal acts such as: permitting use of his/her medical ID card by others, altering a prescription, theft or other criminal acts (other than those addressed in (2)(a)(A)(ii) or (iii)) committed in any Provider or PHP's premises. The PHP shall report any illegal acts to law enforcement authorities or to the office for Children, Adults and Families (CAF) Fraud Unit as appropriate;

(v) OHP clients who have been exempted from mandatory enrollment with a FCHP or PCO, due to the OHP client's eligibility through a hospital hold process and placed in the Adults/Couples category as required under 410-141-0060(4)(b)(F);

(vi) Division member fails to pay co-payment(s) for Covered Services as described in OAR 410-120-1230.

(B) Division members shall not be disenrolled solely for the following reasons:

- (i) Because of a physical or mental disability;
- (ii) Because of an adverse change in the Division member's health;
- (iii) Because of the Division member's utilization of services, either excessive or lack thereof;
- (iv) Because the Division member requests a hearing;
- (v) Because the Division member has been diagnosed with End Stage Renal Disease (ESRD);
- (vi) Because the Division member exercises his/her option to make decisions regarding his/her medical care with which the PHP disagrees;
- (vii) Because of uncooperative or disruptive behavior, including but not limited to threats or acts of physical violence, resulting from the Division member's special needs (except when continued enrollment in the PHP seriously impairs the PHP's ability to furnish services to either this Division member or other members).

(C) Requests by the PHP for disenrollment of specific Division members shall be submitted in writing to their PHP Coordinator for approval. The PHP must document the reasons for the request, provide written evidence to support the basis for the request, and document that attempts at intervention were made as described below. The procedures cited below must be followed prior to requesting disenrollment of a Division member:

- (i) There shall be notification from the Provider to the PHP at the time the problem is identified. The notification must describe the problem and allow time for appropriate intervention by the PHP. Such notification shall be documented in the Division member's Clinical Record. The PHP shall conduct Provider education regarding the need for early intervention and the services they can offer the Provider;
- (ii) The PHP shall contact the Division member either verbally or in writing, depending on the severity of the problem, to inform the Division member of the problem that has been identified, and attempt to develop an agreement with the Division member regarding the

issue(s). If contact is verbal, it shall be documented in the Division member's record. The PHP shall inform the Division member that his/her continued behavior may result in disenrollment from the PHP;

(iii) The PHP shall provide individual education, counseling, and/or other interventions with the Division member in a serious effort to resolve the problem;

(iv) The PHP shall contact the Division member's Department caseworker regarding the problem and, if needed, involve the caseworker and other appropriate agencies' caseworkers in the resolution, within the laws governing confidentiality;

(v) If the severity of the problem and intervention warrants, the PHP shall develop a care plan that details how the problem is going to be addressed and/or coordinate a case conference. Involvement of the Provider, caseworker, Division member, family, and other appropriate agencies is encouraged. If necessary, the PHP shall obtain an authorization for release of information from the Division member for the Providers and agencies in order to involve them in the resolution of the problem. If the release is verbal, it must be documented in the Division member's record;

(vi) Any additional information or assessments requested by the Division PHP Coordinator;

(vii) If the Division member's behavior is uncooperative or disruptive, including but not limited to threats or acts of physical violence, as the result of his/her special needs or disability, the PHP must also document each of the following:

(I) A written assessment of the relationship of the behavior to the special needs or disability of the individual and whether the individual's behavior poses a direct threat to the health or safety of others. Direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures. In determining whether a Division member poses a direct threat to the health or safety of others, the PHP must make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or best available objective evidence to ascertain the nature, duration and severity of the risk to

the health or safety of others; the probability that potential injury to others will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk to others;

(II) A PHP-staffed interdisciplinary team review that includes a mental health professional or behavioral specialist or other health care professionals who have the appropriate clinical expertise in treating the Division member's condition to assess the behavior, the behavioral history, and previous history of efforts to manage behavior;

(III) If warranted, a clinical assessment of whether the behavior will respond to reasonable clinical or social interventions;

(IV) Documentation of any accommodations that have been attempted;

(V) Documentation of the PHP's rationale for concluding that the Division member's continued enrollment in the PHP seriously impairs the PHP's ability to furnish services to either this particular Division member or other members.

(viii) If a Primary Care Provider (PCP) terminates the Provider/patient relationship, the PHP shall attempt to locate another PCP on their panel who will accept the Division member as their patient. If needed, the PHP shall obtain an authorization for release of information from the Division member in order to share the information necessary for a new Provider to evaluate if they can treat the Division member. All terminations of Provider/patient relationships shall be according to the PHP's policies and must be consistent with PHP or PCP's policies for commercial members.

(D) Requests will be reviewed according to the following process:

(i) If there is sufficient documentation, the request will be evaluated by the PHP's Coordinator or a team of PHP Coordinators who may request additional information from Ombudsman Services, AMH or other agencies as needed; If the request involves the Division member's mental health condition or behaviors related to substance abuse, the PHP Coordinator should also confer with the OHP Coordinator in AMH;

(ii) If there is not sufficient documentation, the PHP Coordinator will notify the PHP within 2 business days of what additional documentation is required before the request can be considered;

(iii) The PHP Coordinators will review the request and notify the PHP of the decision within ten working days of receipt of sufficient documentation from the PHP. Written decisions, including reasons for denials, will be sent to the PHP within 15 working days from receipt of request and sufficient documentation from the PHP.

(E) If the request is approved the PHP Coordinator must send the Division member a letter within 14 days after the request was approved, with a copy to the PHP, the Division member's Department caseworker and Division's Health Management Unit (HMU). The letter must give the disenrollment date, the reason for disenrollment, and the notice of Division member's right to file a Complaint (as specified in 410-141-0260 through 410-141-0266) and to request an Administrative Hearing. If the Division member requests a hearing, the Division member will continue to be disenrolled until a hearing decision reversing that disenrollment has been sent to the Division member and the PHP:

(i) In cases where the Division member is also enrolled in the FCHP's or PCO's Medicare Advantage plan and the plan has received permission to disenroll the client, the FCHP or PCO will provide proof of the CMS approval to disenroll the client and the date of disenrollment shall be the date approved by CMS;

(ii) The disenrollment date is 30 days after the date of approval, except as provided in subsections (iii) and (iv) of this section:

(I) The PHP Coordinator will determine when enrollment in another PHP or with a PCM is appropriate. If appropriate, the PHP Coordinator will contact the Division member's Department caseworker to arrange enrollment. The Division may require the Division member and/or the benefit group to obtain services from FFS Providers or a PCM until such time as they can be enrolled in another PHP;

(II) When the disenrollment date has been determined, HMU will send a letter to the Division member with a copy to the Division member's

Department caseworker and the PHP. The letter shall inform the Division member of the requirement to be enrolled in another PHP, if applicable.

(iii) If the PHP Coordinator approves a PHP's request for disenrollment because of the Division member's uncooperative or disruptive behavior, including threats or acts of physical violence directed at a medical Provider, the Provider's staff, or other patients, or because the Division member commits fraudulent or illegal acts as stated in 410-141-0080(2)(a), the following additional procedures shall apply:

(I) The Division member shall be disenrolled as of the date of the PHP's request for disenrollment;

(II) All Division members in the Division member's benefit group, as defined in OAR 461-110-0720, may be disenrolled if the PHP requests;

(III) At the time of enrollment into another PHP, the Division shall notify the new PHP that the Division member and/or benefit group were previously disenrolled from another PHP at that PHP's request.

(iv) If a Division member who has been disenrolled for cause is re-enrolled in the PHP, the PHP may request a disenrollment review by the PHP's PHP Coordinator. A Division member may not be disenrolled from the same PHP for a period of more than 12 months. If the Division member is reenrolled after the 12-month period and is again disenrolled for cause, the disenrollment will be reviewed by the Department for further action.

(b) Other reasons for the PHP's requests for disenrollment include the following:

(A) If the Division member is enrolled in the FCHP or MHO on the same day the Division member is admitted to the hospital, the FCHP or MHO shall be responsible for said hospitalization. If the Division member is enrolled after the first day of the inpatient stay, the Division member shall be disenrolled, and the date of enrollment shall be the next available enrollment date following discharge from inpatient hospital services;

(B) The Division member has surgery scheduled at the time their enrollment is effective with the PHP, the Provider is not on the PHP's Provider panel, and the Division member wishes to have the services performed by that Provider;

(C) The Medicare member is enrolled in a Medicare Advantage plan and was receiving Hospice Services at the time of enrollment in the PHP;

(D) The Division member had End Stage Renal Disease at the time of enrollment in the PHP;

(E) Excluding the DCO, the PHP determines that the Division member has a third party insurer. If after contacting The Health Insurance Group, the disenrollment is not effective the following month, the PHP may contact HMU to request disenrollment;

(F) If a PHP has knowledge of a Division member's change of address, the PHP shall notify the Department. The Department will verify the address information and disenroll the Division member from the PHP, if the Division member no longer resides in the PHP's Service Area. Division members shall be disenrolled if out of the PHP's Service Area for more than three (3) months, unless previously arranged with the PHP. The effective date of disenrollment shall be the date specified by the Division and the Division will recoup the balance of that month's Capitation Payment from the PHP;

(G) The Division member is an inmate who is serving time for a criminal offense or confined involuntarily in a State or Federal prison, jail, detention facility, or other penal institution. This does not include Division members on probation, house arrest, living voluntarily in a facility after their case has been adjudicated, infants living with an inmate, or inmates who become inpatients. The PHP is responsible for identifying the Division members and providing sufficient proof of incarceration to HMU for review of the disenrollment request. The Division will approve requests for disenrollment from PHPs for Division members who have been incarcerated for at least fourteen (14) calendar days and are currently incarcerated. FCHPs are responsible for inpatient services only during the time a Division member was an inmate;

(H) The Division member is in a state psychiatric institution.

(3) The Division Initiated disenrollments:

(a) The Division may initiate and disenroll Division members as follows:

(A) If the Division determines that the Division member has sufficient third party resources such that health care and services may be cost effectively provided on a FFS basis, the Division may disenroll the Division member. The effective date of disenrollment shall be the end of the month in which the Division makes such a determination. The Division may specify a retroactive effective date of disenrollment if the Division member's third party coverage is through the PHP, or in other situations agreed to by the PHP and the Division;

(B) If the Division member moves out of the PHP's Service Area(s), the effective date of disenrollment shall be the date specified by the Division and the Division will recoup the balance of that month's Capitation Payment from the PHP;

(C) If the Division member is no longer eligible under the Oregon Health Plan Medicaid Demonstration Project or Children's Health Insurance Program, the effective date of disenrollment shall be the date specified by the Division;

(D) If the Division member dies, the effective date of disenrollment shall be through the date of death;

(E) When a non-Medicare contracting PHP is assumed by another PHP that is a Medicare Advantage plan, Division members with Medicare shall be disenrolled from the existing PHP. The effective date of disenrollment shall be the day prior to the month the new PHP assumes the existing PHP;

(F) If the Division determines that the PHP's Division member has enrolled with their Employer Sponsored Insurance (ESI) through FHIAP the effective date of the disenrollment shall be the Division member's effective date of coverage with FHIAP.

(b) Unless specified otherwise in these rules or in the Division notification of disenrollment to the PHP, all disenrollments are

effective the end of the month after the request for disenrollment is approved by the Division;

(c) The Division shall inform the Division members of the disenrollment decision in writing, including the right to request an Administrative Hearing. OHP clients may request a Division hearing if they dispute a disenrollment decision by the Division;

(d) If the OHP client requests a hearing, the OHP client will continue to be disenrolled until a hearing decision reversing that disenrollment is sent the OHP client.

## **410-141-0120 Managed Care Prepaid Health Plan Provision of Health Care Services**

### Managed Care Prepaid Health Plan (PHP) Provision of Health Care Services

(1) PHPs shall have written policies and procedures that ensure the provision of all medically and dentally appropriate covered services, including urgent care services and emergency services, preventive services and Ancillary services, in those categories of services included in contract or agreements with the Division of Medical Assistance Program (Division) and Addictions and Mental Health Division (AMH). PHPs shall communicate these policies and procedures to providers, regularly monitor providers' compliance with these policies and procedures, and take any corrective action necessary to ensure provider compliance. PHPs shall document all monitoring and corrective action activities:

(a) PHPs shall ensure that all participating providers providing covered services to Division members are credentialed upon initial contract with the PHP and recertified no less frequently than every three years thereafter. The credentialing and recertification process shall include review of any information in the National Practitioners Databank and a determination, based on the requirements of the discipline or profession, that participating providers have current licensure in the state in which they practice, appropriate certification, applicable hospital privileges and appropriate malpractice insurance. This process shall include a review and determination based on the activity and results of a professional quality improvement review. PHPs may elect to contract for or to delegate responsibility for this process. PHPs shall accept both the Oregon Practitioner Credentialing Application and the Oregon Practitioner Recertification Application, both of which were approved by the Advisory Committee on Physician Credentialing Information (ACPI) on September 28, 2004, thereby implementing ORS 442.807. PHPs shall retain responsibility for delegated activities, including oversight of the following processes:

(A) PHPs shall ensure that covered services are provided within the scope of license or certification of the participating provider or facility, and within the scope of the participating provider's contracted

services and that participating providers are appropriately supervised according to their scope of practice;

(B) PHPs shall provide training for PHP staff and participating providers and their staff regarding the delivery of covered services, OHP administrative rules, and the PHP's administrative policies;

(C) PHPs shall maintain records documenting academic credentials, training received, licenses or certifications of staff and facilities used, and reports from the National Practitioner Data Bank and must provide accurate and timely information about license or certification expiration and renewal dates to the Division. PHPs shall not refer Division members to or use Providers who do not have a valid license or certification required by state or federal law. If a PHP knows or has reason to know that a provider's license or certification is expired or not renewed or is subject to licensing or certification sanction, the PHP must immediately notify the Division's Provider Services Unit.

(D) PHPs shall not refer Division members to or use providers who have been terminated from the Oregon Division of Medical Assistance Program (Division) or excluded as Medicare/Medicaid providers by Centers for Medicare and Medicaid Services (CMS) or who are subject to exclusion for any lawful conviction by a court for which the provider could be excluded under 42 CFR 1001.101. PHPs shall not accept billings for services to Division members provided after the date of such provider's exclusion, conviction or termination. The Oregon Health Authority (Authority) has developed disclosure statement forms for individual practitioners and entities. If a PHP wishes to use their own disclosure statement form, they must submit to their PHP Coordinator for Authority approval prior to use. PHPs must obtain information required on the appropriate disclosure form from individual practitioners and entities and must retain the disclosure statements in the PHP credential files. If a PHP knows or has reason to know that a provider has been convicted of a felony or misdemeanor related to a crime, or violation of federal or state laws under Medicare, Medicaid or Title XIX (including a plea of "nolo contendere"), the PHP must immediately notify the Division's Provider Services Unit.

(E) PHPs must obtain and use the Division's Provider enrollment (encounter) number for providers when submitting provider capacity

reports. Only registered National Provider Identifiers (NPIs) and taxonomy codes are to be used for purposes of encounter data submission, prior to submitting encounter data in connection with services by the provider. Effective January 1, 2007, provider number "999999" may no longer be used in encounter data reporting or provider capacity reporting. PHPs must require each qualified provider to have and use a National Provider Identifier as enumerated by the National Plan and Provider Enumeration System (NPPES).

(F) The provider enrollment request (for encounter purposes) and disclosure statement described in paragraphs (D) and (E) require the disclosure of taxpayer identification numbers. The taxpayer identification number will be used for the administration of this program including provider enrollment, internal verification and administrative purposes for the medical assistance program, for administration of tax laws and may be used to confirm whether the individual or entity is subject to exclusion from participation in the medical assistance program. Taxpayer identification number includes Employer Identification Number (EIN), Social Security Number (SSN), Individual Tax Identification Number (ITIN) used to identify the individual or entity on the enrollment request form or disclosure statement. Disclosure of tax identification numbers for these purposes is mandatory. Failure to submit the requested taxpayer identification number(s) may result in denial of enrollment as a provider and denial of a provider number for encounter purposes, or denial of continued enrollment as a provider and deactivation of all provider numbers used by the provider for encounters.

(b) Fully Capitated Health Plans (FCHPs), Physician Care Organizations (PCOs), and Dental Care Organizations (DCOs) shall have written procedures that provide newly enrolled Division members with information about which participating providers are currently not accepting new patients (except for staff models);

(c) FCHPs, PCOs, DCOs and CDOs shall have written procedures that allow and encourage a choice of a PCP or clinic for physical health, and dental health services by each Division member. These procedures shall enable a Division member to choose a participating PCP or clinic (when a choice is available for PCPs or clinics) to provide services within the scope of practice to that Division member;

(d) If the Division member does not choose a PCP within 30 calendar days from the date of enrollment, the FCHP or PCO must ensure the Division member has an ongoing source of primary care appropriate to his or her needs by formally designating a practitioner or entity. FCHPs and PCOs that assign Division members to PCPs or clinics shall document the unsuccessful efforts to elicit the Division member's choice before assigning a Division member to a PCP or clinic. FCHPs and PCOs who assign PCPs before 30 calendar days after enrollment, must notify the Division member of the assignment and allow the Division member 30 calendar days after assignment to change the assigned PCP or clinic.

(2) In order to make advantageous use of the system of public health services available through county health departments and other publicly supported programs and to ensure access to public health services through contract under ORS Chapter 414-153:

(a) Unless cause can be demonstrated to Division's satisfaction why such an agreement is not feasible, FCHPs and PCOs shall execute agreements with publicly funded Providers for payment of point-of-contact services in the following categories:

(A) Immunizations;

(B) Sexually transmitted diseases; and

(C) Other communicable diseases.

(b) Division members may receive the following services from appropriate non-participating Medicaid providers. If the following services are not referred by the FCHP or PCO in accordance with the FCHP's or PCO's referral process (except as provided for under 410-141-0420 Billing and Payment under the Oregon Health Plan (OHP), the Division is responsible for payment of such services:

(A) Family planning services; and

(B) Human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS) prevention services.

(c) FCHPs and PCOs are encouraged to execute agreements with publicly funded providers for authorization of and payment for services in the following categories:

(A) Maternity case management;

(B) Well-child care;

(C) Prenatal care;

(D) School-based clinic services;

(E) Health services for children provided through schools and Head Start programs; and

(F) Screening services to provide early detection of health care problems among low-income women and children, migrant workers and other special population groups.

(d) Recognizing the social value of partnerships between county health departments, other publicly supported programs, and health providers, FCHPs and PCOs are encouraged to involve publicly supported health care and service programs in the development and implementation of managed health care programs through inclusion on advisory and/or planning committees;

(e) FCHPs and PCOs shall report to the Division on their status in executing agreements with publicly funded providers and on the involvement of publicly supported health care and service programs in the development and implementation of their program on an annual basis.

(3) FCHPs and PCOs shall ensure a newly enrolled Division member receives timely, adequate and appropriate health care services necessary to establish and maintain the health of the Division member. An FCHP's liability covers the period between the Division member's enrollment and disenrollment with the FCHP, unless the Division member is hospitalized at the time of disenrollment. In such an event, an FCHP is responsible for the inpatient hospital services until discharge or until the Division member's PCP or designated practitioner determines the care is no longer medically appropriate.

(4) A PCO's liability covers the period between the Division members' enrollment and disenrollment with the PCO, unless the Division member is hospitalized at the time of disenrollment. In such an event, the PCO is not responsible for the inpatient hospital services by definition and the inpatient hospital services will be the responsibility of the Division.

(5) The Division member shall obtain all covered services, either directly or upon referral, from the PHP responsible for the service from the date of enrollment through the date of disenrollment.

(6) FCHPs and PCOs with a Medicare Health Maintenance Organization (HMO) component and MHOs have significant and shared responsibility for capitated services, and shall coordinate benefits for shared Division members to ensure that the Division member receives all medically appropriate services covered under respective capitation payments. If the fully dual eligible Division member is enrolled in a FCHP or PCO with a Medicare HMO component the following apply:

(a) Mental health services covered by Medicare shall be obtained from the FCHP or PCO or upon referral by the FCHP or PCO;

(b) Mental health services that are not covered by the FCHP or PCO that are covered by the MHO shall be obtained from the MHO or upon referral by the MHO.

(7) PHPs shall coordinate services for each Division member who requires services from agencies providing health care services not covered under the capitation payment. The PCP shall arrange, coordinate, and monitor other medical and mental health, and/or dental care for that Division member on an ongoing basis except as provided for in Section (7)(c) of this rule:

(a) PHPs shall establish and maintain working relationships with local or allied agencies, community emergency service agencies, and local providers;

(b) PHPs shall refer Division members to the divisions of the Authority and local and regional allied agencies which may offer services not covered under the capitation payment;

(c) FCHPs and PCOs shall not require Division members to obtain the approval of a PCP in order to gain access to mental health and alcohol and drug assessment and evaluation services. Division members may refer themselves to MHO services.

(b) Regularly monitor participating providers' compliance with these policies and procedures; and

(c) Take any corrective action necessary to ensure participating provider's compliance. PHPs shall document all monitoring and corrective action activities.

(2) PHPs shall have written policies and procedures and monitoring processes to ensure that a practitioner provides a medically or dentally appropriate response as indicated to urgent or emergency calls consisting of the following elements:

(a) Telephone or face-to-face evaluation of the Division member to determine the nature of the situation and the Division member's immediate need for services;

(b) Capacity to conduct the elements of an assessment that is needed to determine the interventions necessary to begin stabilizing the urgent or emergency situation;

(f) Provision for notifying other providers requesting approval to treat Division members of the determination.

(3) PHPs shall ensure the availability of an after-hours call-in system adequate to triage urgent care and emergency calls from Division members. Urgent calls shall be returned appropriate to the Division member's condition but in no event more than 30 minutes after receipt. If information is not adequate to determine if the call is urgent, the call shall be returned within 60 minutes in order to fully assess the nature of the call. If information is adequate to determine the call may be emergent in nature, the call shall be returned immediately.

(4) If a screening examination in an emergency room leads to a clinical determination by the examining physician that an actual emergency medical condition exists under the prudent layperson standard as defined in emergency services, the PHP must pay for all services required to stabilize the patient, except as otherwise provided in (6) of this rule. The PHP may not require prior authorization for emergency services:

(a) The PHP may not retroactively deny a claim for an emergency screening examination because the condition, which appeared to be an emergency medical condition under the prudent layperson standard, turned out to be non-emergency in nature;

(b) The PHP may not limit what constitutes an emergency medical condition based on lists of diagnoses or symptoms;

(c) The PHP may not deny a claim for emergency services merely because the primary care physician (PCP) was not notified, or because the PHP was not billed within 10 calendar days of the service.

(5) When a Division member's primary care provider, designated practitioner or other health plan representative instructs the Division member to seek emergency care, in or out of the network, the PHP is responsible for payment of the screening examination and for other medically appropriate services. Except as otherwise provided in (6) of this rule, the PHP is responsible for payment of post-stabilization care that was:

- (a) Pre-authorized by the PHP;
- (b) Not pre-authorized by the PHP if the PHP (or the on-call provider) failed to respond to a request for pre-authorization within one hour of the request being made, or the PHP or Provider on call could not be contacted; or
- (c) If the PHP and the treating physician cannot reach an agreement concerning the Division member's care and a PHP representative is not available for consultation, the PHP must give the treating physician the opportunity to consult with a PHP physician and the treating physician may continue with care of the patient until a PHP physician is reached or one of the following criteria is met:
  - (A) The participating provider with privileges at the treating hospital assumes responsibilities for the Division member's care;
  - (B) The participating provider assumes responsibility for the Division member's care through transfer;
  - (C) A contractor representative and the treating physician reach an agreement concerning the Division member's care; or
  - (D) The Division member is discharged.
- (6) Physician Care Organization (PCO) responsibility with regard to emergency services, urgent care services, or post stabilization care services is as follows:
  - (a) A PCO is not financially responsible for emergency services, urgent care services, or post stabilization services, to the extent such services are inpatient hospital services. The PCO shall not authorize, cause, induce or otherwise furnish any incentive for emergency services, urgent care services, or post stabilization services to be rendered as inpatient hospital services except to the extent medically appropriate.
  - (b) A PCO is financially responsible for post stabilization services (other than inpatient hospital services) obtained by Division members within or outside the PCO's network under the following circumstances:

(A) Post stabilization services have been authorized by the PCO's authorized representative;

(B) Post stabilization services have not been authorized by the PCO's authorized representative, but are administered to maintain the Division member's stabilized condition within 1 hour of a request to the PCO's authorized representative for approval of further post stabilization services;

(C) Post stabilization services have not been authorized by the PCOs authorized representative, but are administered to maintain, improve, or resolve the Division member's stabilized condition if:

(i) The PCO's authorized representative does not respond to a request for authorization within 1 hour;

(ii) The PCO's authorized representative cannot be contacted; or

(iii) The PCO's authorized representative and the treating physician cannot reach an agreement concerning the Division member's care and the participating provider is not available for consultation. In this situation, the PCO must give the treating physician the opportunity to consult with the participating provider and the treating physician may continue with the care of the Division member until the participating provider is reached or one of the criteria in section (6) of this rule has been met.

(c) The PCO's financial responsibility for non-Inpatient post-stabilization services it has not approved ends when:

(A) The participating provider with privileges at the treating hospital assumes responsibilities for the Division member's care;

(B) The participating provider assumes responsibility for the Division member's care through transfer;

(C) A PCO representative and the treating physician reach an agreement concerning the Division member's care; or

(D) The Division member is discharged.

(7) PHPs shall have methods for tracking inappropriate use of emergency care and shall take action, individual Division member

counseling, to improve appropriate use of urgent and emergency care settings. DCOs and MHOs shall be responsible for taking action to improve appropriate use of urgent and emergency care settings for dental or mental health related care when inappropriate use of emergency care is made known to them through reporting or other mechanisms.

(b) PHPs shall ensure Division members receiving Exceptional Needs Care Coordination (ENCC) services for the aged, blind or disabled who have complex medical needs as described in 410-141-0405, are noted in the appropriate Division member's record. ENCC is a service available through Fully Capitated Health Plans (FCHPs) or Physician Care Organizations (PCOs) that is separate from and in addition to medical case management services;

(c) These procedures must ensure that each Division member has an ongoing source of primary care appropriate to his or her needs and a Practitioner or entity formally designated as primarily responsible for coordinating the health care services furnished to the Division member in accordance with OAR 410-141-0120;

(d) FCHPs and PCOs shall communicate these policies and procedures to providers, regularly monitor providers' compliance with these policies and procedures and take any corrective action necessary to ensure provider compliance. FCHPs and PCOs shall document all monitoring and corrective action activities:

(A) PHPs shall develop and maintain a formal referral system consisting of a network of consultation and referral providers, including applicable alternative care settings, for all services covered by contracts/agreements with the Division and/or Addictions and Mental Health Division (AMH) formerly known as Office of Mental Health and Addictions Services (OMHAS). PHPs shall ensure that access to and quality of care provided in all referral settings is

PHPs shall establish and follow written procedures for participating and non-participating providers in the PHP's referral system. Procedures shall include the maintenance of records within the referral system sufficient to document the flow of referral requests, approvals and denials in the system;

(B) The Division member shall obtain all covered services, either directly or upon referral, from the PHP or Primary Care Manager (PCM) responsible for the service from the date of enrollment through the date of disenrollment, except when the Division member is enrolled in a Medicare Health Maintenance Organization (HMO) or Medicare Advantage FCHP or PCO:

(ii) If the Division member is enrolled in a FCHP or PCO with a Medicare HMO component or Medicare Advantage, then Medicare covered mental health services shall be obtained from the FCHP or PCO or upon referral by the FCHP or PCO, respectively. Mental health services that are not covered by the FCHP or PCO, but are covered by the Mental Health Organization (MHO), shall be obtained from the MHO or upon referral by the MHO.

(C) PHPs shall have written procedures for referrals which ensure adequate prior notice of the referral to referral providers and adequate documentation of the referral in the Division member's clinical record;

(D) PHPs shall designate a staff member who is responsible for the arrangement, coordination and monitoring of the PHP's referral system;

(E) PHPs shall ensure that any staff member responsible for denying or reviewing denials of requests for referral is a health care professional;

Procedures and education shall ensure use of appropriate settings of care;

(H) PHPs shall have written procedures which ensure that an appropriate staff person responds to calls from other providers requesting approval to provide care to Division members who have not been referred to them by the PHP. If the person responding to the call is not a health care professional, the PHP shall have established written protocols that clearly describe when a health care professional needs to respond to the call. These procedures and protocols shall be reviewed by the PHP for appropriateness. The procedures shall address notification of acceptance or denial and entry of information into the PCP's clinical record;

(I) FCHPs and PCOs shall have written policies and procedures to ensure information on all emergency department visits is entered into the Division member's appropriate PCP's clinical record. FCHPs and PCOs shall communicate this policy and procedure to providers, monitor providers' compliance with this policy and procedure, and take corrective action necessary to ensure compliance;

(J) If a Division member is hospitalized in an inpatient or outpatient setting for a covered service, PHPs shall ensure that:

PHPs shall make provisions for a PCP or the facility's "house doctor or dentist" to provide care to Division members who, due to physical, emotional, or medical limitations, cannot be seen in a PCP office.

(3) For Division members living in residential facilities or homes providing ongoing care, FCHPs and PCOs shall provide medications in a manner that is consistent with the appropriate medication dispensing system of the facility, which meets state dispensing laws. FCHPs and PCOs shall provide emergency prescriptions on a 24-hour basis.

(4) For Division members who are discharged to post hospital extended care, the FCHP shall notify the appropriate Department office at the time of admission to the skilled nursing facility (SNF) and begin appropriate discharge planning. The FCHP is not responsible for the post hospital extended care benefit unless the Division member was a member of the FCHP during the hospitalization preceding the nursing facility placement. The FCHP shall notify the nursing facility and the Division member no later than two full working days prior to discharge from post hospital extended care. For Division

members who are discharged to medicare skilled care, the appropriate DHS office shall be notified at the time the FCHP learns of the admission. The FCHP shall initiate appropriate discharge planning at the time of the notification to the Department office.

(5) PHPs shall coordinate the services the PHP furnishes to Division members with the services the Division member receives from any other PHP (FCHP, PCO, Dental Care Organization (DCO) or MHO) in accordance with OAR 410-141-0120 (6). PHPs shall ensure that in the process of coordinating care, each Division member's privacy is protected in accordance with the privacy requirements of 45 CFR parts 160 and 164 subparts A and E to the extent that they are applicable.

(6) When a Division member's care is being transferred from one PHP to another or for OHP clients transferring from fee-for-service to a PHP, the PHP shall make every reasonable effort within the laws governing confidentiality to coordinate transfer of the OHP client into the care of a PHP participating provider.

(7) PHPs shall make attempts to contact targeted Division population(s) by mail, telephone, in person or through the Oregon Health Authority (Authority) within the first three months of enrollment to assess medical, mental health or dental needs, appropriate to the PHP. The PHP shall, after reviewing the assessment, refer the Division member to his/her PCP or other resources as indicated by the assessment. Targeted Division population(s) shall be determined by the PHP and approved by the Division.

(9) MHOs shall ensure that Division members receiving services from extended or long term psychiatric care programs (e.g., secure residential facilities, PASSAGES projects, state hospital) will receive follow-up services as medically appropriate to ensure discharge

within five working days of receiving notification of discharge readiness.

(10) MHOs shall coordinate with community emergency service agencies (e.g., police, courts and juvenile justice, corrections, and the LMHAs and CMHPs) to promote an appropriate response to Division members experiencing a mental health crisis.

(11) MHOs shall use a multi-disciplinary team service planning and case management approach for Division members requiring services from more than one public agency. This approach shall help avoid service duplication and assure timely access to a range and intensity of service options that provide individualized, medically appropriate care in the least restrictive treatment setting (e.g., clinic, home, school, community).

(12) MHOs shall consult with, and provide technical assistance to, FCHPs and PCOs to help assure that mental health conditions of Division members are identified early so that intervention and prevention strategies can begin as soon as possible.

PHPs shall document all monitoring and corrective action activities. PHPs shall not discriminate between Division members and non-Division members as it relates to benefits and covered services to which they are both entitled:

The travel time or distance to PCPs shall not exceed the following, unless otherwise approved by the Division:

(A) In urban areas -- 30 miles, 30 minutes or the community standard, whichever is greater;

(B) In rural areas -- 60 miles, 60 minutes or the community standard, whichever is greater.

(ii) The Division member has been admitted to an institution where he or she is ineligible for covered services from the PHP;

(iii) The Division member's whereabouts are unknown and the post office returns PHP or practitioner's mail directed to him or her indicating no forwarding address;

(A) The PHP may have a possible extension of up to 14 additional calendar days if the Division member or the provider requests the extension; or if the PHP justifies (to the Division upon request) a need for additional information and how the extension is in the Division member's interest;

(B) If the PHP extends the timeframe, in accordance with subsection (A) of this section, it must give the Division member written notice of the reason for the decision to extend the timeframe and inform the Division member of their right to file a grievance if he or she disagrees with that decision. The PHP must issue and carry out its prior authorization determination as expeditiously as the Division member's health condition requires and no later than the date the extension expires:

(d) For prior authorization decisions not reached within the timeframes specified in subsection (c) of this section, (which constitutes a denial and is thus an adverse action), on the date that the timeframes expire;

The Division of Medical Assistance Programs (Division) may have specific definitions for common terms. Please use OAR 410-141-0000, Definitions, in conjunction with this rule.

(1) An individual who is or was a Division member (see definition) at the time of the Notice of Action is entitled to an administrative hearing by the Division if a Prepaid Health Plan (PHP) has denied requested services, payment of a claim, or terminates, discontinues or reduces a course of treatment, or any other “action.”

(a) If the Division member initiates an administrative hearing directly with the Division, the decision in the Notice of Action is the document that will trigger the right to request a state administrative hearing:

(b) If the Division member requests an administrative hearing after receiving a Notice of Appeal Resolution, the decision in the Notice of Appeal Resolution is the document that will trigger the right to request a state administrative hearing:

(c) Client (see definition) administrative hearings are governed by OAR 410-120-1860, 410-120-1865, and this rule.

(2) A written hearing request must be received by the Hearings Unit at the Division not later than the 45th day following the date of the Notice of Action, or if the hearing request was initiated after an appeal, not later than the 45th day following the Notice of Appeal Resolution.

(3) If, at the Division member’s request, the PHP continued or reinstated services while an appeal was pending, the benefits must be continued pending the administrative hearing until one of the following occurs:

(a) The Division member withdraws the request for an administrative hearing;

(b) Ten calendar days pass after the PHP mails the Notice of Appeal Resolution, providing the resolution of the appeal against the Division member, unless the Division member within the 10-day timeframe, has

requested a Division administrative hearing with continuation of benefits until the Division administrative hearing decision is reached;

(c) A final order is issued in a Division administrative hearing adverse to the Division member; or

(d) The time period or service limits of a previously authorized service have been met.

(4) The Division representative (see definition) shall review the administrative hearing request, documentation related to the administrative hearing issue, and computer records to determine whether the claimant or the person for whom the request is being made is or was a Division member at the time the action was taken, and whether the hearing request was timely.

(5) PHPs shall immediately transmit to the Division any administrative hearing request submitted on behalf of a Division member, including a copy of the Division member's Notice of Action and, if applicable, Notice of Appeal Resolution.

(6) If the Division member files a request for an administrative hearing with the Division, the Division will send a copy of the hearing request to the PHP.

(7) PHPs shall review an administrative hearing request, which has not been previously received or reviewed as an appeal, using the PHP's appeal process as follows:

(a) The appeal shall be reviewed immediately and shall be resolved, if possible, within 16 calendar days, pursuant to OAR 410-141-0262;

(b) The PHP's Notice of Appeal Resolution shall be in writing and shall be provided to the Division member.

(8) When an administrative hearing is requested by a Division member, the PHP shall cooperate with providing relevant information required for the hearing process to the Division, as well as the results of the review by the

PHP of the appeal and the administrative hearing request, and any attempts at resolution by the PHP.

(9) Information about Division members used for administrative hearings is handled in confidence consistent with ORS 411.320, 42 CFR 431.300 et seq, the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rules, and other applicable federal and state confidentiality laws and regulations. The Division will safeguard the Division member's right to confidentiality of information used in the administrative hearing as follows:

(a) The Division, the Division member and their representative, the PHP and any practitioner (see definition) whose authorization, treatment, services, items, or request for payment is involved in the administrative hearing have a right to use this information for purposes of resolving the administrative hearing without a signed release from the Division member. The Division may also use this information, pursuant to OAR 410-120-1360(4), for health oversight purposes, and for other purposes authorized or required by law. The information may also be disclosed to the Office of administrative hearings and the Administrative Law Judge assigned to the administrative hearing, and to the Court of Appeals if the Division member seeks judicial review of the final order;

(b) Except as provided in subsection (a), the Division will ask the Division member to authorize a release of information regarding the administrative hearing to other individuals. Before any information related to the administrative hearing is disclosed under this subsection, the Division must have an authorization for release of information documented in the administrative hearing file.

(10) The hearings request (DHS 443), along with the Notice of Appeal Resolution, shall be referred to the Office of Administrative Hearings and the hearing will be scheduled.

(a) The parties to the administrative hearing shall include the PHP, as well as the Division member and his or her representative, or the representative of a deceased Division member's estate;

(c) A final order should be issued or the case otherwise resolved by Division ordinarily within 90 calendar days from the earlier of the following: the date the Division member requested a PHP appeal (not including the number of days the Division member took to subsequently file for a Division administrative hearing) or the date the Division member filed for direct access to a Division administrative hearing. The final order is the final decision of the Division.

(11) If the final resolution of the administrative hearing is adverse to the Division member, that is, if the final order upholds the PHP's action, the PHP may recover the cost of the services furnished to the Division member while the administrative hearing is pending, to the extent that they were furnished solely because of the requirements of this section, and in accordance with the policy set forth in 42 CFR 438.420.

(12) The PHP must promptly correct the action taken up to the limit of the original request or authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the Division member, or Division and/or the PHP decides in the Division member's favor before the hearing even if the Division member has lost eligibility after the date the action was taken:

(a) If the PHP, or a Division hearing decision reverses a decision to deny, limit, or delay services that were not furnished while the administrative hearing was pending, the PHP must authorize or provide the disputed services promptly, and as expeditiously as the Division member's health condition requires;

(b) If the PHP, or the Division hearing decision reverses a decision to deny authorization of services, and the Division member received the disputed services while the administrative hearing was pending, the PHP must pay for the services in accordance with Division policy and regulations in effect when the request for services was made by the Division member.

## **410-141-0420 Managed Care Prepaid Health Plan Billing and Payment under the Oregon Health Plan**

*The Division of Medical Assistance Programs (Division) may have specific definitions for common terms. Please use OAR 410-141-0000, Definitions, in conjunction with this rule.*

(1) Providers must submit all billings for Oregon Health Plan (OHP) clients to Prepaid Health Plans (PHPs) and to the Division within four (4) months and twelve (12) months, respectively, of the date of service, subject to other applicable Division billing rules. Providers must submit billings to PHPs within the four (4) month time frame except in the following cases:

(a) Pregnancy;

(b) Eligibility issues such as retroactive deletions or retroactive enrollments;

(c) Medicare is the primary payer;

(d) Other cases that could have delayed the initial billing to the PHP (which does not include failure of provider to certify the Division member's (see definition) eligibility); or

(e) Third Party Liability (TPL). Pursuant to 42 CFR 36.61, subpart G: Indian Health Services and the amended Public Law 93-638 under the Memorandum of Agreement that Indian Health Service and 638 Tribal Facilities are the payer of last resort and is not considered an alternative liability or TPL.

(2) Providers must be enrolled with the Division to be eligible for Division fee-for-service (FFS) payments. Mental health providers, except Federally Qualified Health Centers (FQHC), must be approved by the Local Mental Health Authority (LMHA) and the Addictions and Mental Health (AMH) Division before enrollment with the Division or to be eligible for PHP payment for services. Providers may be retroactively enrolled, in accordance with OAR 410-120-1260, Provider Enrollment.

(3) Providers, including mental health providers (see definition), must be enrolled with the Division either as a Medicaid provider or an

encounter-only provider prior to submission of encounter data to ensure the servicing provider is not excluded per federal and State standard as defined in OAR 407-120-0300.

(4) Providers shall verify, before rendering services, which Division member is eligible for the Medical Assistance Program on the date of service using the Division tools and optionally the PHP's tools, as applicable and that the service to be rendered is covered under the Oregon Health Plan Benefit Package of covered services. Providers shall also identify the party responsible for covering the intended service and seek pre-authorizations from the appropriate payer before rendering services. Providers shall inform Division members of any charges for non-covered services (see definition) prior to the services being delivered.

(5) Capitated services:

(a) PHPs receive a capitation payment to provide services to Division members. These services are referred to as capitated services;

(b) PHPs are responsible for payment of all capitated services. Such services should be billed directly to the PHP, unless the PHP or the Division specifies otherwise. PHPs may require providers to obtain preauthorization to deliver certain capitated services.

(6) Payment by the PHP to participating providers for capitated services is a matter between the PHP and the participating provider, except as follows:

(a) Pre-authorizations:

(A) PHPs shall have written procedures for processing pre-authorization requests received from any provider. The procedures shall specify time frames for:

(i) Date stamping pre-authorization requests when received;

(ii) Determining within a specific number of days from receipt whether a pre-authorization request is valid or non-valid;

(iii) The specific number of days allowed for follow up on pended preauthorization requests to obtain additional information;

(iv) The specific number of days following receipt of the additional information that a redetermination must be made;

(v) Providing services after office hours and on weekends that require preauthorization;

(vi) Sending notice of the decision with appeal rights to the Division member when the determination is made to deny the requested service as specified in 410-141-0263.

(B) PHPs shall make a determination on at least 95% of valid preauthorization requests, within two working days of receipt of a preauthorization or reauthorization request related to urgent services; alcohol and drug services; and/or care required while in a skilled nursing facility. Preauthorization for prescription drugs must be completed and the pharmacy notified within 24 hours. If a preauthorization for a prescription cannot be completed within the 24 hours, the PHP must provide for the dispensing of at least a 72-hour supply if the medical need for the drug is immediate. PHP shall notify providers of such determination within 2 working days of receipt of the request;

(C) For expedited prior authorization requests in which the provider indicates, or the PHP determines, that following the standard timeframe could seriously jeopardize the Division member's life or health or ability to attain, maintain, or regain maximum function:

(i) The PHP must make an expedited authorization decision and provide notice as expeditiously as the Division member's health condition requires and no later than three working days after receipt of the request for service;

(ii) The PHP may extend the three working days time period by up to 14 calendar days if the Division member requests an extension, or if the PHP justifies to Division a need for additional information and how the extension is in the Division member's interest.

(D) For all other preauthorization requests, PHPs shall notify providers of an approval, a denial or a need for further information within 14 calendar days of receipt of the request. PHPs must make reasonable efforts to obtain the necessary information during that 14-day period. However, the PHP may use an additional 14 days to

obtain follow-up information, if the PHP justifies (to the Division upon request) the need for additional information and how the delay is in the interest of the Division member. The PHP shall make a determination as the Division member's health condition requires, but no later than the expiration of the extension.

(b) Claims payment:

(A) PHPs shall have written procedures for processing claims submitted for payment from any source. The procedures shall specify time frames for:

(i) Date stamping claims when received;

(ii) Determining within a specific number of days from receipt whether a claim is valid or non-valid;

(iii) The specific number of days allowed for follow up of pended claims to obtain additional information;

(iv) The specific number of days following receipt of additional information that a determination must be made; and

(v) Sending notice of the decision with appeal rights to the Division member when the determination is made to deny the claim.

(B) PHPs shall pay or deny at least 90% of valid claims within 45 calendar days of receipt and at least 99% of valid claims within 60 calendar days of receipt. PHPs shall make an initial determination on 99% of all claims submitted within 60 calendar days of receipt;

(C) PHPs shall provide written notification of PHP determinations when such determinations result in a denial of payment for services, for which the Division member may be financially responsible. Such notice shall be provided to the Division member and the treating provider within 14 calendar days of the final determination. The notice to the Division member shall be a Division or AMH approved notice format and shall include information on the PHPs internal appeals process, and the Notice of Hearing Rights (DMAP 3030) shall be attached. The notice to the provider shall include the reason for the denial;

(D) PHPs shall not require providers to delay billing to the PHP;

(E) PHPs shall not require Medicare be billed as the primary insurer for services or items not covered by Medicare, nor require non-Medicare approved providers to bill Medicare;

(F) PHPs shall not deny payment of valid claims when the potential TPR is based only on a diagnosis, and no potential TPR has been documented in the Division member's clinical record;

(G) PHPs shall not delay nor deny payments because a co-payment was not collected at the time of service.

(c) FCHPs, PCOs, and MHOs are responsible for payment of Medicare coinsurances and deductibles up to the Medicare or PHP's allowable for covered services the Division member receives within the PHP, for authorized referral care, and for urgent care services or emergency services the Division member receives from non-participating providers (see definition). FCHPs, PCOs, and MHOs are not responsible for Medicare coinsurances and deductibles for non-urgent or non-emergent care Division members receive from non-participating providers;

(d) FCHPs and PCOs shall pay transportation, meals and lodging costs for the Division member and any required attendant for out-of-state services (as defined in General Rules, chapter 410, division 120) that the FCHP and PCO has arranged and authorized when those services are available within the state, unless otherwise approved by the Division;

(e) PHPs shall be responsible for payment of covered services (see definition) provided by a non-participating provider which was not pre-authorized if the following conditions exist:

(A) It can be verified that the participating provider (see definition) ordered or directed the covered services to be delivered by a non-participating provider; and

(B) The covered service was delivered in good faith without the pre-authorization; and

(C) It was a covered service that would have been pre-authorized with a participating provider if the PHP's referral protocols had been followed;

(D) The PHP shall be responsible for payment to non-participating providers (providers enrolled with the Division that do not have a contract with the PHP) for covered services that are subject to reimbursement from the PHP, the amount specified in OAR 410-120-1295. This rule does not apply to providers that are Type A or Type B hospitals, as they are paid in accordance with ORS 414.727.

(7) Other services:

(a) Division members enrolled with PHPs may receive certain services on a Division FFS basis. Such services are referred to as non-capitated services (see definition);

(b) Certain services must be authorized by the PHP or the Community Mental Health Program (CMHP) for some mental health services, even though such services are then paid by the Division on a Division FFS basis. Before providing services, providers should verify a Division member's eligibility via the web portal or AVR. For some mental health services, providers will need to contact the CMHP directly. In addition, the provider may call the PHP to obtain information about coverage for a particular service or pre-authorization requirements;

(c) Services authorized by the PHP or CMHP are subject to the rules and limitations of the appropriate Division administrative rules and supplemental information, including rates and billing instructions;

(d) Providers shall bill the Division directly for non-capitated services in accordance with billing instructions contained in the Division administrative rules and supplemental information;

(e) The Division shall pay at the Medicaid FFS rate in effect on the date the service is provided subject to the rules and limitations described in the relevant rules, contracts, billing instructions and Division administrative rules and supplemental information;

(f) The Division shall not pay a provider for provision of services for which a PHP has received a capitation payment unless otherwise provided for in OAR 410-141-0120;

(g) When an item or service is included in the rate paid to a medical institution, a residential facility or foster home, provision of that item or service is not the responsibility of the Division, AMH, nor a PHP except as provided for in Division administrative rules and supplemental information (e.g., capitated services that are not included in the nursing facility all-inclusive rate);

(h) FCHPs and PCOs that contract with FQHCs and RHCs shall negotiate a rate of reimbursement that is not less than the level and amount of payment which the FCHP or PCO would make for the same service(s) furnished by a provider, who is not an FQHC nor RHC, consistent with the requirements of BBA 4712(b)(2).

(8) Coverage of services through the Oregon Health Plan Benefit Package of covered services is limited by OAR 410-141-0500, excluded services and limitations for OHP clients.

(c) All PCM managed services are covered services that shall be billed directly to the Division in accordance with billing instructions contained in the Division administrative rules and supplemental information;

(d) The Division shall pay at the Division FFS rate in effect on the date the service is provided subject to the rules and limitations

## **410-141-0440 Prepaid Health Plan Hospital Contract Dispute Resolution**

When there is a failure to reach agreement on a contract between a Fully Capitated Health Plan (FCHP) or a Physician Care Organization (PCO) and a non Type A, Type B, or Critical Access hospital, the two disagreeing parties must engage in non-binding mediation. This requirement to engage in non-binding mediation does not apply to disagreements involving emergency or urgent services as defined in Oregon Health Plan administrative rules. The hospital, FCHP, and the PCO can call for mediation. If the parties agree on a mediator their selection shall stand. If a mediator cannot be mutually agreed on, the State will make the selection from the recommended names forwarded by each party. The cost of mediation will be evenly split between the FCHP or PCO and the hospital.

(1) The mediation will proceed under the following guidelines:

- (a) Access to care for Oregon Health Plan members is of critical importance;
- (b) Any agreement must operate within the capitation rate received by the FCHP or PCO;
- (c) Reimbursement levels must bear some relationship to the cost of the services;
- (d) Consideration shall be given to the efforts of each part to manage the overall utilization of health care resources and control costs;
- (e) A comparison to statewide averages of each party's cost of services, service utilization rates and administrative costs may be considered in reaching a mediation recommendation.
