RULE SUMMARY

The current OHP Standard benefit package is eliminated effective 1/1/14. Those clients receiving this benefit package will be eligible under a new Medicaid eligibility expansion under the Affordable Care Act. The OHA will offer a single benefit package for full benefit Medicaid eligibles, pending approval by the Centers for Medicare and Medicaid services (CMS).

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing the negative economic impact of the rule on business.

Fiscal and Economic Impact: **None**

Statement of Cost of Compliance:

1. Impact on state agencies, units of local government and the public (ORS 183.335(2)(b)(E)):

Amending this rule will have no fiscal impact on the Authority, other state agencies, local government, clients, the public, or businesses, including small businesses.

2. Cost of compliance effect on small business (ORS 183.336):

- a. Estimate the number of small businesses and types of business and industries with small businesses subject to the rule:

The Division has approximately 63,000 enrolled providers. These enrolled providers range from large hospital affiliates, national Durable Medical Equipment or Pharmacy chains to individually owned physician offices. The Division's fee-for-services providers serve approximately 10% of the total OHP population. The Division does not have available information to estimate the percentage of these medical practices that are small businesses, but it is likely that there is a significant number of them.

- b. Projected reporting, recordkeeping and other administrative activities required for compliance, including costs of professional services:

Amending this rule will not add additional reporting, record keeping or other administrative activities.

- c. Equipment, supplies, labor and increased administration required for compliance:

Amending this rule will not impose any new equipment, supplies, labor and increased administration requirements on small or large businesses.

How were small businesses involved in the development of this rule? Because the proposed rule(s) implements a change to the Federal Medicaid law, small business providers were not used in this case. Authority staff and/or key stakeholders were consulted in the development of this proposed rule change.

Administrative Rule Advisory Committee consulted?: No, Because the proposed rule(s) implements a change to the federal Medicaid law, a formal rule advisory committee was not used in this case. Authority staff and/or key stakeholders were consulted in the development of this proposed rule change.

If not, why?:
