 - (IV) The client has documented stable periodontal status with pocket depths within 1–3 millimeters. If PFM crowns are placed with pocket depths of 4 millimeters and over, documentation shall be maintained in the client's chart of the dentist's findings supporting stability and why the increased pocket depths will not adversely affect expected long-term prognosis;

(A) Pulpal therapy on primary teeth (D3230 and D3240) is covered only for clients under 21 years of age;

(B) For clients through age 20, the client shall have one or more anterior teeth missing or four or more missing posterior teeth per arch with resulting space equivalent to that

loss demonstrating inability to masticate. Third molars are not a consideration when counting missing teeth;

Third molars are not a consideration when counting missing teeth;

(D) The dental practitioner shall note the teeth to be replaced and teeth to be clasped when requesting prior authorization (PA);

(e) Replacement of removable partial or full dentures, when it cannot be made clinically serviceable by a less costly procedure (e.g., relin, rebase, repair, tooth replacement), is limited to the following:

(A) For clients at least 16 years and under 21 years of age, the Division shall replace full or partial dentures once every ten years, only if dentally appropriate. This does not imply that replacement of dentures or partials shall be done once every ten years, but only when dentally appropriate;

(B) For clients 21 years of age and older, the Division may not cover replacement of full dentures but shall cover replacement of partial dentures once every ten (10) years only if dentally appropriate;

(C) The ten year limitations apply to the client regardless of the client's OHP or Dental Care Organization (DCO)/Coordinated Care Organization (CCO) enrollment status at the time the client's last denture or partial was received. For example: A client receives a partial on February 1, 2002, and becomes a FFS OHP client in 2005. The client is not eligible for a replacement partial until February 1, 2012. The client gets a replacement partial on February 3, 2012 while FFS and a year later enrolls in a DCO or CCO. The client would not be eligible for another partial until February 3, 2022, regardless of DCO, CCO, or FFS enrollment;

(D) Replacement of partial dentures with full dentures is payable ten years after the partial denture placement. Exceptions to this limitation may be made in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss. This pertains to, but is not limited to, cancer and periodontal disease resulting from pharmacological, surgical, and medical treatment for aforementioned conditions. Severe periodontal disease due to neglect of daily oral hygiene may not warrant replacement;

 - (ii) The Division limits payment for rebase to once every five years;

(D) The Division may make exceptions to this limitation in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss.
