Medicare crossover claims delayed

The Division of Medical Assistance Programs (DMAP) is correcting the problem we have identified in processing institutional crossover claims from GHI. The provider types affected are hospitals, hospice, home health and kidney dialysis. We are suspending and saving claim files from GHI and will process them once the technical issues are resolved—possibly as soon as two weeks.

We will notify you when we are again processing Medicare crossover claims.

We regret this delay and appreciate your patience as we work through the crossover process with GHI.

Questions? Contact DMAP Provider Services at
