Message:

In the transition to the new Medicaid Management Information System (MMIS), screens for the current (legacy) MMIS will become read-only. The following list explains the timelines.

Important highlights include:

- Starting Tuesday, November 25, staff are no longer able to change managed care enrollment for OHP clients using the ENRC, ENRP or KSEL screens. The ENRH screen will remain available until December 5.
- Most reference screens, such as DIAG and LVL3, are now read-only. There will be no reference file changes until the new MMIS goes live December 9.
- Almost all MMIS screens will become read-only on Friday, November 28. See the attached list for specific read-only dates.
- The MID1 screen will remain available until December 5.
