| <input type="checkbox"/> County DD Program Managers | <input checked="" type="checkbox"/> Other (please specify): DHS staff and others identified on the SPD, CAF, AMH and DMAP transmittal lists |

Message:

The following information will help answer questions raised by clients about a recent survey sent out.

DMAP is working with several organizations in conducting the Oregon Health Study. The purpose of the study is to find out about the health and health care experiences of those signed up on the OHP Standard reservation list. Results from this study will be used to help leaders in Oregon and across the country improve access to health care in the future.

Specifics about the survey:

- Individuals were randomly selected to participate.
- Individuals were selected from the OHP Standard reservation list who recently signed up.
- Included with the survey was \$5 as a token of appreciation for taking time to fill out the survey.
- Individuals may choose to participate or not.
- If they do decide to participate they also have the option to leave the survey early.
- There will be no affect on an individual's chances to be randomly selected from the OHP Standard reservation list or approved or denied services.
- Individuals who decide to participate will have their information kept confidential.
- At no time will an individual's answers be able to be tracked back to them.

If an individual has concerns or problems about taking part in the study or their rights as a research subject, please have them call 1-877-215-0686.
