

## Oregon Health Authority ICD-10 Oregon-Specific Equivalence Map

### Disclaimer

The Oregon-Specific Equivalence Map includes ICD-9 codes translated to ICD-10 based on a clinical and policy analysis of each code. It is not intended to be used as an ICD-10 conversion or crosswalk tool.

The Oregon Health Authority (OHA) gives no indemnity as to the correctness of the information or the data given in the Oregon-Specific Equivalence Map and shall not be liable for any loss or damage arising directly or indirectly from use of the data supplied in the Oregon-Specific Equivalence Map.

The information in the Oregon-Specific Equivalence Map has not been vetted by the Centers for Medicare and Medicaid Services (CMS) and should not be considered an official CMS document.

OHA encourages readers to review the specific statutes, regulations and other interpretive materials relating to Oregon Administrative Rule [410-120-1280 – Billing](#).

### View the Oregon-Specific Equivalence Map

[View the Oregon-Specific Equivalence Map in Oregon Data](#). You will need a [current internet browser](#) to use this feature. You can also filter, visualize and export the map in various formats:

- **To filter by ICD-9 or ICD-10 code**, enter the full code (including decimal point) in the “Search this dataset” box.
- **To filter by description**, enter any full word from the code description in the “Search this dataset” box.
- **To search by partial ICD-9 or ICD-10 code** (e.g., A02 instead of A02.21), click on “More Views,” then click on “Search by ICD-10 code” or “Search by ICD-9 code.” In the result “Code starts with” box, enter the first digits of the code.

To save a copy of your filtered dataset, click the **Export** button, then select the format you want to save as. The file will open in a new window for you to save.

Use of Oregon Data is covered by [Oregon Data’s Data Policy, Terms of Use and Moderation Disclaimer](#).
