- Early Syphilis
- Gonorrhea
- Chlamydia
STD Rates in Males without HIV

Male rates of STDs among males not diagnosed with HIV, Oregon 2006–2015

- Early Syphilis
- Gonorrhea
- Chlamydia
Objectives

- Offer Partner Services as described in partner services section for the diagnosed STI and NEW HIV infection
- Focus case interview on bacterial STI where pre-existing HIV infection
- If already HIV-positive, check comorbid tab in Orpheus to ensure they are in HIV care
  - In care = evidence of a CD4 or viral load count in last year
- In case of previous HIV +, attempt to get client to disclose HIV status
- Work contacts/partners as exposures for both the STI and HIV infections
