

# STONE BARN BRANDYWORKS

Stone Barn Brandyworks was founded by husband and wife team Sebastian and Erika Degens. They are committed to local sourcing, in-house production, and championing underserved local fruit such as quince and rhubarb - and to quality, artisan distilling.

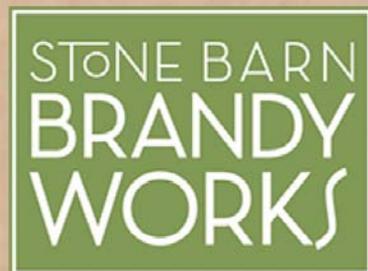

Stone Barn bears the namesake of the renovated stone barn where Sebastian grew up in Cape Cod, Massachusetts.

Stone Barn Brandyworks makes hand-crafted brandies and spirits from Oregon and Pacific Northwest fruits and grains that are both characteristic of their origin and distinctive to their variety, grower or vintner. They work to produce both traditional and uniquely creative products, with a commitment to excellence and a direct connection to our community of customers and suppliers.
