Those attending all or part of the meeting included:

**Commissioners Present:**
- Davis Moriuchi, Chair
- Jay Graves, Vice-chair
- Jim Brown
- Brad Chalfant
- Robin Risley
- Cal Mukumoto

**Commissioners Absent:**
- Sharon Rudi

**Staff:**
- Tim Wood, Director
- Steve Shipsey, Assistant Attorney General
- Vanessa DeMoe, Commission Assistant
- Chris Havel, Associate Director, Communications & Research
- MG Devereux, Project Manager
- John Potter, Assistant Director, Operations
- Holly Morgan, Executive Assistant
- Lisa Van Laanen, Assistant Director, Administration
- Roger Roper, Assistant Director, Heritage and Community Programs
- Mark Davison, Integrated Services Manager
- Jim Morgan, Stewardship Manager
- Kammie Bunes, Acquisition and Property Management Specialist
- Richard Walkoski, Communications and Research
- Tanya Crane, Budget Manager
- Sabrina Hay, Lead Contracts Coordinator
- Steve Kay, Grants Manager
- Dennis Comfort, Valleys Region Manager
- Scott Nebeker, Technical Services Manager
- Andrea Fogue, Senior Policy Advisor
- Jerry Winegar, Mountain Region Manager
- Greg Cianella, Natural Resource Coordinator

**Visitors:**
- John Hoffnagle, Oregon State Parks Foundation
- Laurence Cotton
- Scott Archer, City of Oregon City
- Stephanie Hallock, Chris Achterman, Pam Wiley – Gail Achterman Legacy
- Menno Kraai, Roger Brandt and Sue Williams, Illinois Valley Community Development Organization
Visitors continued:
Daniel Dalegowski, Cave Junction, City Councilor
Willa Gustavson, Cave Junction, former City Councilor
Kenny Houck – Business Entrepreneurial Center, Cave Junction
Gwyneth Booth
Esther Lev, Executive Director, The Wetlands Conservancy
The Honorable Betsy Johnson
Sam Drevo, Oregon City
Kelly Beamer, Coalition of Oregon Land Trusts
Travis Williams, Willamette Riverkeeper
Stephanie Redman, Oregon Recreation and Parks Association
Thelma Haggenmiller
Terry Scott
Bob Betcone, TPL
Ann Hanus, Oregon Parks Association
Jeroen Kok, Clackamas County Parks & Forest Department
Bruce Barnes, OSPF

Tuesday, January 29th

Work-sessions:
Oregon Parks Association (OPA) – Status of County Park System
Ann Hanus, Jeroen Kok

Change Orders/Contracts
Lisa Van Laanen, Scott Nebeker and Sabrina Hay

Legislative Strategy and State Fair Concept
MG Devereux and Andrea Fogue

Executive Session
The Commission met in Executive Session to discuss acquisition priorities and opportunities, and potential litigation. The Executive Session was held pursuant to ORS 192.660(2)(e) and (h). The Executive Session was closed to the public.

Wednesday, January 30th

Business Meeting: 8:30 a.m.
1. Commission Business (Action)
   a) Approval of Agenda
      The following changes we made to the agenda:
      • Item 9d – heard when parties arrive
      • Item 8a – moved up on the agenda to be heard after Item 6
• Additional Executive Session to be held when the business meeting adjourns

Commissioner Graves moved to approve the January 2013 Commission meeting agenda with changes. Commissioner Brown seconded. The motion passed unanimously, 6-0.

2. Public Comment:

Sam Drevo, Oregon City
Mr. Drevo made public comment highlighting the opportunity for potential development of the Blue Heron site as a benefit for whitewater recreation.

Scott Archer, City of Oregon City
Mr. Archer, City Manager, welcomed the Commission to Oregon City and thanked the department for their support.

Kelly Beamer, Executive Director, Coalition of Oregon Land Trusts (COLT)
Ms. Beamer provided a general introduction and background information to the Commission on COLT.

Travis Williams, Willamette Riverkeeper
Mr. Williams thanked the Commission and the department for their support of the water trail and greenway programs.

Stephanie Redman, Executive Director, Oregon Parks and Recreation Association (ORPA)
Ms. Redman introduced herself to the Commission and gave a brief background on ORPA.

Roger Brandt, Cave Junction
Mr. Brandt spoke in favor of a trail to connect the Illinois River Valley airport to Rough and Ready Forest State Natural Site. He requested this issue be placed on a future Commission agenda for further discussion.

Esther Lev, Executive Director, The Wetlands Conservancy
Ms. Lev provided comment in support of the naming of Beaver Creek State Natural Area and Ona Beach State Park including associated properties to Brian Booth State Park in recognition of Brian Booth’s contribution to the Oregon State Park system and Oregon.

[Chair Moriuchi recognized Commissioner Brown’s service to the Oregon Parks and Recreation department. The January meeting was Commissioner Brown’s last meeting after 8 years of service to the department.]

a) Gail Achterman Legacy – Presentation
Stephanie Hallock, Chris Achterman, Pam Wiley

A presentation was made to the Commission to share Gail Achtermans vision for the Willamette, the efforts of the Achterman Legacy Group to advance that vision, and how those efforts support and complement the work of others in the Willamette Valley.
3. Approval of Commission Meeting Minutes (Action)
   a) November 2012

   Commissioner Chalfant moved to approve the November 2012 Commission meeting minutes. Commissioner Risley seconded. The motion passed unanimously, 6-0.

4. Director’s Update

   a) Salmonberry Trail Update (Banks to Tillamook) (Information)

   Director Wood updated the Commission on recent progress made in the Salmonberry Trail planning efforts. He shared that the next key steps for the partners involved in the project will be hiring of a project manager, creation of a 501(c)(3), an Executive Order and completion of a master plan.

   b) Audit Committee - New Member (Action)

   Director Wood stated that with Commissioner Brown’s departure from the Commission he will also be leaving his seat on the Audit Committee. He shared that Commissioner Mukumoto had volunteered to participate in the Audit Committee.

   Commissioner Risley moved to approve Commissioner Cal Mukumoto as a member of the OPRD Audit Committee. Commissioner Brown seconded. The motion passed unanimously, 6-0.

Annual Employee Recognition Awards
Director Wood announced the results of this year's Employee Recognition Program. He explained that the recipients of this year's recognition were nominated by staff and selected by a panel of staff from across the department. This recognition is provided to deserving individuals for their contributions to our mission, and our workplace.

Directors Award (Individual): Chris Parkins and Christal Florin
Directors Award (Team): Willamette Mission
Distinguished Service: John Allen
Centennial Horizon Customer Service: Brandy Nichols
Centennial Horizon Process Improvement: Claudia Ciobanu
Centennial Horizon All Star: Rocky Houston
Centennial Horizon New Employee: Kami Allen
Centennial Horizon Unsung Hero: Daniel Dowell

5. Consent Calendar (Action)
   a) Approval of Delegated Authority Report
      1. Contracts
      2. Natural Resources

   b) Request Approval for County Opportunity Grant Projects
c) Request Approval for Veterans’ and War Memorial Grant Projects
d) Director’s Expense Report

Commissioner Graves moved to approve the Consent Calendar. Commissioner Brown seconded. The motion passed unanimously, 6-0.

6. Budget
   Tanya Crane, Budget Manager

   a) 2011-13 Budget Update (Information)

   Ms. Crane provided an update on the current biennium. She said that the December 2012 Lottery forecast was released November 20, 2012. It reflects an increase in Lottery Fund revenue for the Department of $7,239. Since the close of session, the Lottery Fund revenue forecast has decreased by $3,924,356. The Department’s budget was built on a Lottery Fund revenue forecast of $84.6 million and the December 2012 forecast is $80.7 million.
   Ms. Crane shared that the Executive Team had reviewed options to adjust the Department’s spending to accommodate the Lottery Fund decline.

   b) 2013-15 Governor's Budget (Information)

   Ms. Crane gave the Commission an update on the Governor’s Balanced Budget, released November 30, 2012. She shared that there were a number of changes to the Agency Request Budget. Ms. Crane provided a summary and briefly discussed the changes.

   Ms. Crane shared that the next step is the legislative process. She said the Department will present the Governor’s budget to the appropriate subcommittee of Ways and Means. Currently the plan calls for three phases – public hearings where the agency familiarizes the committee with what the Department does and other information as requested by the committee (phase 1); discussion of agency budget and major issues (phase 2); work session on budget bill (phase 3).

9d. Designating Brian Booth State Park (Action)
   John Potter, Assistant Director of Operations

   Mr. Potter explained that the Department has been conducting long-term, comprehensive planning for two state park properties in Lincoln County: Beaver Creek State Natural Area and Ona Beach State Park. Due to the use and management links between these properties and their proximity, there is an opportunity to better unify them through naming in a way that would benefit the public and recognize Brian Booth’s contributions to the Oregon State Park system and the state. The entire complex of properties could be officially named Brian Booth State Park to elevate its significance and suitably honor the memory of Brian Booth. A distinct “Beaver Creek Natural Area” and “Ona Beach Recreation Area” would be retained under a broader state park umbrella designation.

   [The full account of Mr. Potter’s remarks is attached at the end of this document.]
Commissioner Chalfant moved for approval to rename Beaver Creek State Natural Area and Ona Beach State Park including associated properties to Brian Booth State Park in recognition of Brian Booth’s contribution to the Oregon State Park system and Oregon. Commissioner Brown seconded. The motion passed unanimously, 6-0.

8a. Illinois River Forks (Possible Action)
Jerry Winegar, Mountain Region Manager

Mr. Winegar provided the Commission with background on the Illinois River Forks State Park property and the previous discussion and actions that have taken place regarding the lease. He shared that as a result from staff recommendation in November 2011, the Oregon Parks and Recreation Department asked the Commission to direct staff to end negotiations renewing the lease and withdraw from the federally-owned property. Mr. Winegar stated that community stakeholders asked the Commission to reconsider the November 2011 decision, and the Commission asked staff to answer several questions to help it decide whether or not to reconsider the action. OPRD staff worked closely with community stakeholders to develop answers to these questions (detailed in a report provided to the Commission). Mr. Winegar briefly explained the three options for Commission consideration:

1. Allow the existing Commission action to stand and withdraw state park property from the federally-owned property.
2. Operate the park at an acceptable level of service in collaboration with the community.
3. Begin action to fully implement the master plan.

Mr. Winegar shared that in working closely with and listening to community stakeholders, staff realized it is possible for Option 2—collaboration—to eventually help protect and improve existing recreation opportunities in an affordable way. This option would involve some initial public investment and a shuffling of local field staff, a move partially offset through cancellation of some maintenance contracts and volunteer labor. He said that in the view of staff, the collaboration option should be afforded the chance to succeed.

Public Comment
Provided by:
Menno Kraai, Roger Brandt and Sue Williams, Illinois Valley Community Development Organization
Daniel Dalegowski, Cave Junction, City Councilor
Willa Gustavson, Cave Junction, former City Councilor
Kenny Houck – Business Entrepreneurial Center, Cave Junction

Public comment provided by the Illinois Valley community (as listed above) regarding development of the Illinois River Forks State Park requested and alternate action by the Commission as follows:
“Adopt Option 2 in the attached report, and direct staff to pursue a minimum 10 year agreement with the Bureau of Land Management and the community nonprofit (the Illinois Valley Community Development Organization) to establish a collaborative process to manage and develop the entire 368 acre Illinois River Forks State Park as a single park that reflects the Centennial Horizon vision.”
The Illinois Valley Community Development Organization and other community members present discussed several issues regarding the development of the park, including:
- Background on the closure
- Relative impacts of closing the accessible riverside park
- Suggested changes to the draft Park Systems Plan
- Contributions to the mission at it relates to Centennial Horizon principles
- Planning and management collaboration
- Potential Non-local visitor spending

Additional public comment was provided to the Commission in written form from local citizens and students from the Cave Junction elementary and middle schools.

The Commission discussed the options presented by staff and by the Illinois Valley community.
Discussion included the need for checkpoints and milestones, the ability to ensure that work is moving as quickly as reasonable and an agreement that the agency and the community will work together as aggressively as possible to work out the plan.

The Commission confirmed that the action being taken was to:
Adopt Option 2, Operate the park at an acceptable level of service in collaboration with the community; and direct staff to pursue any necessary agreements with the Bureau of Land Management and a community nonprofit (the Illinois Valley Community Development Organization) to establish a collaborative trial for long range management of the park; either party having a 6 month notice to opt out.

Commissioner Brown moved to adopt Option 2 with the noted amendments.
Commissioner Chalfant seconded. The motion passed unanimously, 6-0.

7. Rulemaking
Richard Walkoski, Communications and Research

Mr. Walkoski explained that divisions 10 and 15 of the OPRD administrative rules contain the majority of rules governing the operation of park land and visitor behavior on OPRD managed properties. He said that past practice has been to open the rules on a case by case basis, when a serious matter arises. Mr. Walkoski said that this revision process has allowed OPRD to conduct business, but the lack of coordination has sometimes resulted in the rules being opened multiple times in a year which is not efficient and can result in confusion to the public. He explained that the goal is to move to a more structured process for revising divisions 10 and 15, opening them on a biennial basis for clarification of language and the addition of needed rules.

a) Request to go to rulemaking for OAR 736-015 (Information)

Mr. Walkoski stated that while there are no specific revisions that are currently needed in division 15 it is likely that changes made in division 10 may require a similar change in division 15. He explained that in addition to division 10 changes, if the OPRD budget is approved with the fee increase package the new rates will have to be placed in the division 15 rules. Mr. Walkoski said that at the May Commission
meeting it should be clear what if any revisions will be necessary and staff will request permission to open division 15 if needed.

b) Request to go to rulemaking for OAR 736-010 (Action)

Mr. Walkoski said that staff had identified sections of division 10 that need clarification and revision in order to make the rules more effective and understandable by those who use them and those who are governed by them. He stated that staff was requesting the Commission to open OAR 736-010 for rulemaking to clarify the rules and make operations more efficient. The initial proposed revisions were provided to the Commission.

Commissioner Graves moved to approve the request to go to rulemaking for OAR 736-010. Commissioner Brown seconded. The motion passed unanimously, 6-0.

8. Real Property

a) Illinois River Forks (Possible Action)
   This item was heard earlier in the agenda.

b) Kam Wah Chung – Bentley Property (Information)
   Kammie Bunes, Acquisition and Property Management Specialist

   Ms. Bunes stated that the Bentley property is one of five acquisitions identified in the Kam Wah Chung master plan. She shared that the Bentley property is currently under appraisal and the owners indicated an interest in selling. Ms. Bunes said that the 2011-13 biennium acquisition plan allowed for acquisition of the subject property at Kam Wah Chung and an action item to acquire the Bentley property could come before the Commission in May.

c) Ona Beach Pipeline Installation (Information)
   Kammie Bunes, Acquisition and Property Management Specialist

   Ms. Bunes provided background on a potential pipeline project that would run through Ona Beach property. She explained that the pipeline provides water to Newport and currently runs south through an ODOT right-of-way along the highway to Waldport. She added that the pipeline is about 50 years old and explained that a mainline pipe failure at the Beaver Creek bridge crossing would be catastrophic and would result in complete separation between the District’s northern and southern service areas. Ms. Bunes said that as a safety precaution, the District’s 2010 Water Master Plan recommends creating a redundant pathway for water supply between the northern and southern parts of the District. To complete this, the District has requested permission to install a new water transmission mainline through state park property using horizontal directional drilling (HDD) technology.

   Ms. Bunes shared that OPRD staff had discussed the proposal with the District’s engineer. She said that the District’s preferred option would bring the mainline to within 50 feet of the park’s restroom facility; a second option is provided in case sensitive cultural resources preclude locating the line along the preferred route. She explained that either option could lead to a potential future easement request.
Additional cultural resources evaluation will guide a decision on the final option, which may include no action.

9. Planning and Land Use

a) Cottonwood Canyon Update (Information)
   MG Devereux, Projects Manager

   Mr. Devereux provided an update on planning efforts for Cottonwood Canyon State Park. He updated the Commission on land use, park opening, the Experience Center and highlighted major milestones and challenges.

b) Cottonwood Canyon Initial Development, Construction Contract Approval (Action)
   Scott Nebeker, Technical Services Division Manager

   Mr. Nebeker said that the proposed project was construction of a Day Use Park, Maintenance Facility, Trails and Primitive Camp Loops at Cottonwood Canyon State Park. He confirmed that staff was seeking Commission approval for award of a contract to Nutter Corporation in the amount of $2,790,395.22 for base bid and all bid alternates. The design and construction allows for future park expansion to meet the Cottonwood Master Development Plan.

   Commissioner Brown moved to approve the Cottonwood Canyon Initial Development Construction Contract Approval. Commissioner Chalfant seconded. The motion passed unanimously, 6-0.

c) Tryon Creek/McIver Comprehensive Plan (Information)
   Mark Davison, Integrated Services Manager

   Mr. Davison provided an update focusing on the Tryon Management Unit; a separate update will be brought to the commission for the Milo McIver Management Unit. He shared that OPRD is developing the initial planning concepts for the management of resources and providing for recreation experiences at the Tryon Creek Management Unit. Mr. Davison said that staff will be conducting the next round of public meetings in early March. At these meetings, the planning concepts will be presented for public review and comment prior to developing a draft plan ready for commission approval in summer 2013.

d) Designating Brian Booth State Park (Action)
   Item 9d was heard earlier in the agenda.

e) Bates Natural Resource Plan (Information)
   Jim Morgan, Stewardship Manager

   Mr. Morgan provided an update on the Bates State Park Natural Resource Management Plan. He explained that the master plan was adopted in 2009; at that
time there were outstanding natural resource issues that the department had been tasked with addressing in a more comprehensive way. He shared that there were three planning goals that guided the development of the plan:

- Protect and improve habitat in the forest and meadows, and along the creeks, river and Bates Pond;
- Provide for recreation access and use in a manner that is compatible with natural and scenic resource protection and enhancement;
- Interpret the history of the former town, the mill and Bates Pond, and efforts to improve the natural and scenic setting at the park.

Mr. Morgan stated that additional natural resource inventories have been completed since the master plan approval. He shared that the plan summarizes the natural resources assessments and outlines management actions to protect and enhance the plant communities, wildlife habitat, and aquatic resources of Bates State Park.

f) Tobacco Free Executive Order (Information)

John Potter, Assistant Director of Operations

Mr. Potter stated that on August 2, 2012 Governor John Kitzhaber issued Executive Order 12-13: Tobacco Free Properties in order to improve the health, wellness and productivity of employees, clients, volunteers and visitors. He explained that in the Executive Order, the Governor encourages the Commission “to adopt policies by December 31, 2014 that limits or restricts the use of tobacco products at state parks and recreation areas to address wellness issues, and to reduce the risk of forest fires.” Mr. Potter said that an internal working group of park managers and other agency staff had been meeting to provide recommendations to the Commission to address the order. Mr. Potter discussed the recommendations of the group and what the positive considerations and challenges were. He said that the next steps will be to have the executive team finalize its recommendations, create the necessary internal policy documents, and bring a request for rulemaking to the Commission as early as May.

10. Heritage & Community Programs

a) Heritage Programs Report (Information)

Roger Roper, Assistant Director of Heritage and Community Programs

Mr. Roper gave an update on the Arch Cape Cannons and the Tryon Creek State Park’s Historic Cabins. He said that the Arch Cape Cannon Advisory Team is working toward a final decision on where the two restored cannons will be housed when they return to Oregon. Mr. Roper shared that the Arnold Log Home and Guesthouse at Tryon Creek State Park have been vacant since OPRD took full possession of them in 2009. The cabins are located on a 9–acre parcel located along the western edge of Tryon Creek State Park. Mr. Roper said that on December 20, 2012, OPRD staff met on site with members of the Friends of Tryon Creek State Park to tour the buildings and brainstorm about potential uses.

Mr. Roper also briefly discussed the partners working together on the Blue Heron site and efforts by staff to review the grant application process.
11. Reports (Information)
   a) Oregon State Fair Update
   b) Wallowa Dam
   c) Park System Plan – Final Report
   d) Centennial Horizon Project Update
   e) Snowy Plover Management Plan
   f) Economic Analysis – Final Corrected Report

Reports in agenda Item 11 were provided to the Commission as information only. There was no formal presentation or discussion on the reports.

12. Commission Planning Calendar (Information)

   Baker City, Geiser Grand

   May 6 – Travel day
   May 7 – Work Sessions: Forest & Fire Management, Ethics Training
           Tour: Sumpter Dredge, Baker County Parks Presentation – Main Line Trail
   May 8 – Executive Session and Business Meeting

The Commission entered into Executive Session at 2:00 p.m., following the business meeting.
The Commission met in Executive Session to discuss acquisition priorities and opportunities. The Executive Session was held pursuant to ORS 192.660(2)(e). The Executive Session was closed to the public.

After a brief discussion in Executive Session the Commission agreed that the meeting could return to open session to discuss Prioritization of Real Property Transactions for 2013-15 Biennium.

Prioritization of Real Property Transactions for 2013-15 Biennium
Kammi Bunes, Acquisition and Property Management Specialist
Jim Morgan, Stewardship Manager

Ms. Bunes led a discussion with the Commission regarding draft criteria for evaluating potential acquisitions and to seek guidance in finalizing those criteria.

Discussion topics included:
   • Purpose
   • Authority
   • Criteria
   • Policy considerations
   • Current Process
   • Park System Plan
   • Relative Impact Criteria
   • Funding
- Endowment Properties
- Proposed Process
- Draft Criteria

Director Wood stated that the presentation provided by Ms. Bunes will be updated with the edits requested by the Commission and will be included in the reports section of the May 2013 agenda.

Adjournment
Chair Moriuchi made a motion to adjourn the January 2013 meeting at 2:34 p.m. Commissioner Brown seconded. The motion passed unanimously. 6-0
Good morning Chair Moriuchi, Commissioners, Director Wood, and Mrs. Booth; my name is John Potter, the Assistant Director for State Parks.

I am privileged, honored, and humbled today to carry this agenda item for the Director and for staff regarding something that happens only in extraordinary cases. It happens only when an individual has made long-term contributions to the State Park System and has had a significant and historic impact to the state. Today I am asking you to consider a request to combine and permanently associate a great place with a great person.

First, I would like to talk to you about a great place. As you know, we have been conducting long-term comprehensive planning for two state park properties in Lincoln County: Ona Beach State Park and Beaver Creek State Natural Area. These nearly contiguous properties have been planned together and make an ideal whole. Ona Beach has long been popular for the walks on the beach along the ocean shore, for boating, and for fishing. Beaver Creek State Natural Area, a newer acquisition for the state park system, is notable for its high quality wetlands, incredible upland habitat, and its abundant wildlife. Together, people will in the future have an opportunity at this beautiful area to enjoy walks along the many trails, to paddle the creek, to walk along the ocean shore, and to enjoy and appreciate the abundant wildlife in the habitats of this property. We even hope, one day, to build a low-impact campground so that people might enjoy overnight stays as well. All of this great opportunity on 1,200 acres, just 15 minutes south of Newport. It is a special place where protection is ongoing, but already it has attracted significant attention and a great partnership with The Wetlands Conservancy, with the federal government, with other state agencies, and private landowners in the area as well.

A great place, a great person: Brian Booth became the first chairman of the Oregon State Parks and Recreation Commission in 1990. Twenty-three years ago this month, he convened a meeting at Tryon Creek State Park. It was the first meeting of your body. In his words at that meeting, it was the first time that State Parks was under the control of a committee charged solely with setting parks policy and direction, and he expressed the modest hope that by the end of their term, that Oregonians would say that they had made a difference. Mr. Booth served under three governors and took the department through a period of considerable hardship, and a crucible of hard times and funding challenges. He committed thousands of hours to his belief in State Parks and the State of Oregon.

I think that his philosophy, and really the culture of State Parks, is summarized in words he spoke at a talk he gave to the City Club in 1997. I would like to read these to you: “Oregon State Parks have a great reputation for their beauty, safety, and cleanliness. We may be the only part of state government that gets fan mail from all over the world, or at least we did until recently. That is why we are determined not to allow our park system to deteriorate any further. We didn’t want to ruin the reputation that was developed over many years by employees with pride..."
in their work.” So, Mr. Booth’s belief was that we offer a first class operation or not at all. This idea, this dedication, this commitment, of course, eventually led to measure 66 and measure 76, and a permanent, stable public funding stream for the organization. But he didn’t stop there; he was also a founding trustee of the Oregon State Parks Trust, now the State Parks Foundation. He created another avenue, a way to supplement the public funding with private support. This long commitment to maintaining and enhancing the financial health of our organization, of the State Park System, as well as Mr. Booth’s advocacy for many other aspects of what makes it attractive and meaningful to live in the state of Oregon were significant.

There is opportunity today, for you, for Oregonians, to acknowledge that Mr. Booth not only made a difference, but that it was an extraordinary one. So, the action that I am asking you for approval is to rename Ona Beach State Park and Beaver Creek State Natural Area to become Brian Booth State Park, in recognition of Brian Booth’s contributions to the Oregon State Park System and the state.
