

**OCEAN SHORE
ALTERATION PERMIT**

Application Approved with Conditions:

Application Denied:

Date: July 7, 2012

Applicant: Karen and Jim Otta

OPRD File Number: BA-680-12

County: Lincoln

Project Location: 9084 S. Coast Highway,
South Beach, OR
Lincoln County Assessor's Map #11S-11W-31 DA, tax lot 400.

OPRD's review included a staff inspection of the site and evaluation of the project against the Ocean Shore Permit Standards, OAR-736-020-0005 through 736-020-0030.

Project Description:

The proposed project involves the repair of an existing riprap structure and construction of an additional 130 feet of riprap revetment. The existing riprap revetment is located at the northwestern corner of the site, at the intersection of Moore Creek and the beach bluff. The overall riprap revetment is 160 feet in length, 13 feet in height above beach level, and will project approximately 19 feet from the bluff face onto the ocean shore,. Plans call for armor rock 2.0 to 6.0 feet in diameter, keyed approximately 4 feet into the bedrock or underlying sand at the toe of the slope, and placed in an interlocking state at a slope of 2H to 1V. The completed revetment will be covered with a 1 foot layer of sand and revegetated with beach grass. The proposed riprap revetment also includes a 6 foot wide riprap rock stairway and 6 foot wide handicap ramp constructed within the revetment footprint.

ORS.390.605 (2) defines the "ocean shore" to mean the land lying between extreme low tide of the Pacific Ocean and the statutory vegetation line as described by ORS 390.770 or the line of established upland shore vegetation, whichever is farther inland. In the location of the proposed project the statutory vegetation line is located farther inland.

The project is proposed to be located

Seaward of the statutory vegetation line

Seaward of the line of established upland shore vegetation

and therefore within OPRD's jurisdiction to make a decision on your application.

Submitted plans: Attached (See Condition 4)

Not Applicable

Based on the evaluation of the above standards, staff inspections of the site, and consideration of public and agency comments, the Oregon Parks and Recreation Department:

Approves your application

Denies your application

For a riprap revetment and resubmitted stairway design.

Conditions:

1. Prior to construction, the Permittee or subsequent owners shall file with the Lincoln County Clerk, a Declaration of Conditions and Restrictions. A form is attached for your use in satisfying this condition. The permittees shall pay any filing and recording costs. Upon recording, certified copies shall be submitted to OPRD as proof of compliance with this permit condition. Failure to provide OPRD with said certified Declarations of Conditions and Restrictions shall nullify this permit and all authorizations contained herein.
2. Prior to construction, the Permittee shall deliver to OPRD, a cash bond, or other security acceptable to OPRD, in the amount of \$16,000.00, to ensure that all required conditions of the permit are met. If the permit conditions are not complied with by the permit expiration date (July 7, 2013) OPRD may undertake action to complete the work without further notice to the Permittee and may deduct any and all costs and expenses of accomplishing such work. Use of the cash bond or other security for such purposes does not preclude OPRD from pursuing any other legal remedies or enforcement action at its disposal to ensure that permit conditions are achieved.
3. Use of equipment or vehicles on the beach requires a separate permit from OPRD. Use of public beach access routes, construction of any roads or other temporary access improvements, and timing of inspections shall be subject to conditions of the Equipment Access Permit. Contact Tony Stein at (541) 265-9871 prior to construction for the necessary permit.
4. The Permittee shall submit a final stairway and ramp design to OPRD that details the width of each structure and the type of materials used for hand railings, prior to any riprap construction work. If required, the Permittee shall also submit an approved building permit for the stairway from the Lincoln County Building Department.
5. No alteration of the bankfull width or stream channel on Moore Creek is permitted. Reconstruction of the existing riprap at the Moore Creek outlet shall use the existing location of the toe of the slope to begin construction. To achieve the desired 2H to 1V slope, the top of the new structure shall be moved south and east on the property. No instream riprap repairs or new construction shall be conducted east of the vegetation line on Moore Creek prior to contacting DSL and receiving any required permits or approvals. The Permittee shall also contact the Oregon Department of Fish and Wildlife (ODFW) prior to any work being conducted on Moore Creek to determine allowed the instream work period. Any large woody debris currently located at the mouth of Moore Creek, shall be placed aside during reconstruction of the existing riprap, and replaced upon completion of the project.
6. The riprap project shall be constructed in accordance with the submitted plans and descriptions, and comply with the location, dimensions of the riprap revetment, and materials specified in the plans and descriptions. Only clean, erosion resistant bsalt rock from an upland source shall be used as riprap. Beach sand removed when constructing the toe of the riprap revetment shall be stored and used to cover to structure upon completion. Any additional sand needed to complete the one-foot covering of the revetment shall be trucked in to the site.
7. The Permittee and shall be responsible for any Lincoln County Department of Public Works permits or approvals used for the transport of heavy equipment and materials across any public access. During construction activities, the beach access may not be blocked and allow for safe emergency or pedestrian travel onto to the ocean shore. Upon completion of the project, any beach access used shall be returned to its pre-existing condition.
8. The project shall be completed prior to July 7, 2013. If it appears that, due to unforeseen circumstances, the project cannot be installed by the expiration date, the Permittee or authorized representative(s), may request a permit extension. A time extension may be granted based on the submission of a revised construction schedule.

9. Upon completion of the project, the beach shall be cleared of all rock debris, or other debris associated with the riprap construction, and the beach shall be returned to its pre-existing condition.
10. The Permittee shall be responsible for obtaining any required permit approvals from the U.S. Army Corps of Engineers, if applicable to this project.
11. The Permittee shall be responsible for maintaining the riprap revetment, stairway and handicap ramp, or removing it, if in the opinion of OPRD, the structures becomes in disrepair, constitute a safety hazard, or in any other way deleterious to ocean shore resources. This includes retrieving and replacing rocks or other materials moved or damaged because of the ocean or any other cause. Failure to maintain the revetment or stairway, where such failure causes a public safety hazard or detriment to ocean shore resources, may cause appropriate legal action to be pursued to ensure compliance with this provision.
12. In no event shall the issuance of the permit be construed as a sale, lease, granting of easement or any form of conveyance of the state recreational area, ocean shore or submerged lands.
13. The Permittee shall comply with the provisions of ORS 390.235 through 390.240, ORS 358.905 through 358.955 and OAR 736-051-0060 through 736-051-0090 as these statutes and rules affect the discovery, excavation, salvage, removal and disposition of archaeological resources and the permitting requirements for these activities as they affect archaeological sites on public and private land. If archeological objects are encountered during the project, all work must stop immediately, and work may not proceed until an archeological permit is issued under ORS 390.235
14. This approval does not affect any obligation the Permittee might have to other persons or agencies, local, state or federal.
15. If the Permittee fails to comply with the conditions provided herein and otherwise imposed by OPRD, OPRD shall exercise its authority under Oregon Revised Statutes 390.661 through 390.676; 390.990 through 390.995; and the provisions of OAR 736-020-0200 to cease any further activity by the Permittee on the ocean shore except as directed by OPRD. In such circumstances OPRD may assess a civil penalty according to the provisions of OAR 736-080-0005 through 736-080-0070.
16. The Permittee shall agree to save and hold harmless the State of Oregon, the Oregon Parks and Recreation Commission, and its members, and all officers, agents and employees of the Oregon Parks and Recreation Department, from any claim, suit or action whatsoever for damages to property, or injury or death to any person or persons due to negligence of permittee(s), their officers, agents or employees, and arising out of the performance of any work or project covered by the granting of a permit.
17. In issuing this permit, OPRD makes no representation regarding the quality or adequacy of the permitted revetment design, materials, construction, or maintenance, except to approve the project's design and materials, as set forth in the permit application, as satisfying the resource protection, scenic, safety, recreation, and public access requirements of ORS Chapter 390 and related regulations.

Jim Morgan, Stewardship Program Manager
Oregon Parks and Recreation Department

Cc: Onno Husing, Lincoln County
