

MULTNOMAH COUNTY LEPC  
Meeting Minutes  
Friday June 14, 2013  
Portland Fire & Rescue Training Center – Portland, OR

Members Present: Recorded by sign-in sheet

Ryan, a Hazmat Technician with EPA, started the meeting off with a Mercury Training presentation covering typical sources of Mercury contamination, routes of entry into the body, types of instruments used for exposure monitoring and measuring gross contamination levels, and situations to which EPA responds for clean up action.

Brian Bailey called the meeting officially to order at 9:45 am (Arrived late).

Members present approved meeting minutes from March 15, 2012

Sub-Committee Updates:

- Executive – LEPC finances, & members needed to refill sub-committee positions
- Planning – establishing role of Planning within new template model
- Training – no news to report
- Outreach – Funding has been secured to keep the website up for 2 more years. This was a generous donation by Koppers Inc. Big thanks to Jason for making this happen.

Terry Wolfe provided an update from the Fire Marshal's Office:

- The Emergency Plan template has been finalized
- Emphasis on member awareness of the importance for accurate 304 Release Reporting and incorporating neighboring LEPC contact information into emergency plans
- HMEP Grants were submitted on time
- Sue Otjen is assembling SERC level representatives
- Some Oregon counties are actively requesting to start their LEPC's
- LEPC Conference was conducted in May

Meeting Adjourned at 10:30
