Welcome and Introductions:

Introductions were made.

Mariana reminded the committee that we are working on a short time frame; the Fire Defense Board Chiefs agreed that they wanted the meeting to take place in March, so the draft should be available to them by February 1st. That gives the committee about three solid months to do work on the plan.

Charter Review:

The group reviewed and approved the charter after removing overhead rates from the list of topics.

The goal of the planned changes is to clarify and educate.

The group discussed resource typing. OSFM expects AOC staff, Task Force Leaders, and Fire Defense Board Chiefs to know and understand typing. Some of the issues with ordering this season might be solved by distributing a cheat sheet or creating a resource order so there's documentation of the original request.

The group identified a need to communicate to the fire service how the batting order is established.

Additional Topics:

The group discussed some educational pieces, but no additional items were added to the charter.

Before the Next Meeting:

All committee members should review the Task Force Leader Guidebook.

Mariana and Mariah will draft verbiage to address reimbursement language.

Alan will be prepared to report on typing.

Next meeting: Tuesday, October 29th at OSFM at 1000 hours.
