### **Welcome and Introductions:**

Introductions were made. The group reviewed and approved the minutes from the previous meeting.

### **Review of Proposed Language:**

Mariah went over the two changes made since the last meeting; both were approved by the group.

### **Review of TFL Guidebook:**

Alan has made all of the suggested changes to the Task Force Leader Guidebook. The only outstanding change is the addition of a specific section addressing the need to immediately report injuries and accidents.

### **Typing Discussion:**

The group reviewed Alan's recommended rates for aerial apparatus. The group agreed with the rates with the exception of Type 3; they suggested the Type 3 rate be \$125. There will be further discussion at the next meeting.

The group discussed water tender typing. Many areas and departments don't have water tenders with a capacity of less than 3000 gallons; these are considered supply tenders by NWCG, and the tenders currently listed in the Mob Plan are tactical tenders. Alan is expecting NIMS to suggest the change to the two types within a month, and will let the committee know when it's available for public comment. The group will further discuss this issue at the next meeting.

### Training Plan for 2014:

Alan is working on a Task Force Leader Training packet; more to come at the next meeting.

**Other Business:**

The group discussed whether or not a Crew Boss was required on a tender. Currently OSFM does not list what positions are required on each apparatus. They agreed that discussion should be tabled until a later date.

**Before the Next Meeting:**

Alan will make add language to the TFL Guidebook about accident/injury reporting.

Alan will keep the group updated about any developments in typing.

Mariah will send a doodle to determine the date of the next meeting.

**Next meeting: to be determined; Chief Carriger offered Stayton as a location**
