Introductions were made.
Minutes from March were approved.

PowerPoint:

The group reviewed and approved the changes to the PowerPoint.

Training Requirements:

In 2011 the group decided not to list all of the requirements, as it's up to the authority having jurisdiction to ensure their personnel are trained appropriately. Wildland requirements were left in, because that is the most common response. There have been a few questions as to whether there are additional structural requirements. Les suggested adding some soft verbiage around the fact that all resources are expected to be trained in the capacity in which they are responding.

Handouts:

The group reviewed the handouts for the Fire Defense Board Meeting. Based on the apparatus graph, the 2014 committee will review Types 4, 5, and 7.

Mariah will adjust the volunteer graph so all positions are in order.

Committee Business:

Anyone interested in chairing the 2014 committee should contact Mariana.

Timing of Fire Defense Board Meetings:

The timing of the meeting continues to be an issue, so Mariana has included time for the discussion on the agenda. It will take a minimum of three weeks from final approval to have hard copies of the Mob Plan available.
