In re: **SUSAN YARBOROUGH NOE**) **Certificate of Compliance**
Name of Out-of-State Attorney) **For Pro Hac Vice Admission**

I, SUSAN YARBOROUGH NOE (print), am an attorney in the State of COLORADO, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: In The Matter Of The Determination Of The Relative Rights Of The Waters Of The Klamath River

Case No.: 277, 279, 280, 281, 282, 284, 285 AND 286 Agency Name: Oregon Water Resources Department

I certify that (check all that apply):

- I am an attorney in good standing in the State of COLORADO, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
 - I am not subject to any pending disciplinary proceedings in any jurisdiction; or
 - I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
- I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 89156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
- I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
- My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
- I agree, as a continuing obligation of *pro hac vice* admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
- I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in this matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will promptly notify the Oregon State Bar.
- I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.

Dated this 7th day of June, 2012.

Re: Certificate of Compliance for *Pro Hac Vice* Admission (renewal)

Dear Mr. French:

Enclosed for your consideration is my Certificate of Compliance for *Pro Hac Vice* Admission to appear in the Klamath Basin Adjudication on behalf of the Klamath Tribes in Cases 277, 279, 280, 281, 282, 284, 285, and 286. My current Certificate of Compliance in these cases expires June 21, 2012.

If you need any additional information regarding my application, please call me at 303-447-8760 or email me at suenoe@gmail.com. To expedite processing I have enclosed a self-addressed, stamped envelope.

Thank you in advance for your consideration.

Sincerely,

Susan Y. Noe
Attorney

Re: Change of Liability Insurance for Certificate of Compliance for *Pro Hac Vice* Admission of Susan Y. Noe in the Klamath Basin Adjudication

Dear Adjudicator French:

In accordance with UTCR 3.170, enclosed is an updated verification of insurance for my Certificate of Compliance for *Pro Hac Vice* Admission to appear in the Klamath Basin Adjudication on behalf of the Klamath Tribes in Cases 277, 279, 280, 281, 282, 284, 285, and 286. The insurance verification form is issued in the name of the Native American Rights Fund for which I am employed as a staff attorney. My current Certificate of Compliance in these cases expires June 11, 2012.

If you need any additional information regarding my application, please call me at 303-447-8760 or email me at suenoe@narf.org.

Sincerely,

Susan Y. Noe
Attorney

In re: **DAVID LYMAN GOVER**

Name of Out-of-State Attorney

) **Certificate of Compliance**
) **For Pro Hac Vice Admission**

I, DAVID LYMAN GOVER (print), am an attorney in the State of COLORADO, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF THE WATERS OF THE KLAMATH RIVER

Case No.: 277, 279-282, 284-286 **Agency Name:** OREGON WATER RESOURCES DEPARTMENT

I certify that (check all that apply):

- I am an attorney in good standing in the State of OKLAHOMA, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
- I am not subject to any pending disciplinary proceedings in any jurisdiction; or
- I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
- I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 891567, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
- I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
- My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
- I agree, as a continuing obligation of *pro hac vice* admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
- I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in this matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will promptly notify the Oregon State Bar.
- I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.

Dated this 28th day of September, 2012.

**Re: Renewal of Certificate of Compliance for Pro Hac Vice Admission
for Klamath Basin Adjudication in Cases 277, 279-282, and 284-286**

Dear Adjudicator French:

Enclosed for your consideration is my Certificate of Compliance for *Pro Hac Vice* Admission to appear in the Klamath Basin Adjudication in cases 277, 279-282, and 284-286 on behalf of the Klamath Tribes.

My current Certificate of Compliance expires October 20, 2011.

The enclosed insurance verification form is issued in the name of the Native American Rights Fund for which I am employed as a staff attorney. If you need additional information regarding my application please call the number listed above or email me at dgover@narf.org. To expedite the process I have enclosed a self-addressed stamped envelope. Thank you for your consideration.

In re: SUSAN YARBOROUGH NOE) Certificate of Compliance
Name of Out-of-State Attorney) For Pro Hac Vice Admission

I, SUSAN YARBOROUGH NOE (print), am an attorney in the State of COLORADO, and I intend to seek pro hac vice admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: In The Matter Of The Determination Of The Relative Rights Of The Waters Of The Klamath River

Case No.: 277, 279, 280, 281, 282, 284, 285 AND 286 Agency Name: Oregon Water Resources Department

I certify that (check all that apply):

- I am an attorney in good standing in the State of COLORADO, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
I am not subject to any pending disciplinary proceedings in any jurisdiction; or
I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 89156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my pro hac vice admission.
My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
I agree, as a continuing obligation of pro hac vice admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
I will provide to the Oregon State Bar a copy of the order admitting me pro hac vice in this matter when such an order is granted. In the event pro hac vice admission is revoked, I will promptly notify the Oregon State Bar.
I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my pro hac vice admission in the matter for every twelve-month period thereafter.

Dated this 15th day of June, 2011.

In re: WALTER R. ECHO-HAWK) Certificate of Compliance
Name of Out-of-State Attorney) For Pro Hac Vice Admission

I, Walter R. Echo-Hawk (print), am an attorney in the State of Oklahoma, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: In The Matter of the Determination of the Relative Water Rights of the Klamath River
Case Nos.: 277, 279, 280, 281, 282, 284, 285, 286 Agency Name Oregon Water Resources Department

I certify that (check all that apply):

I am an attorney in good standing in the State of Oklahoma, as evidenced by the attached good standing certificate issued by the licensing authority in that state.

I am not subject to any pending disciplinary proceedings in any jurisdiction; or

I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.

I intend to associate in the above-referenced proceeding with Carl V. Ullman, OSB No. 89156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.

I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.

My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.

I agree, as a continuing obligation of *pro hac vice* admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.

I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in this matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will promptly notify the Oregon State Bar.

I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.

Re: Certificate of Compliance for Pro Hac Vice Admission

Dear Mr. French:

Enclosed for your consideration is my Certificate of Compliance for Pro Hac Vice Admission to appear in the Klamath Basin Adjudication on behalf of the Klamath Tribes in Cases 277, 279, 280, 281, 282, 284, 285, and 286.

If you need any additional information regarding my application, please call me at (918) 387-2710, or email me at wechohawk@gmail.com. To expedite processing, my co-counsel Mr. David Gover may stop by this week.

I greatly appreciate your consideration and am hopeful that I may obtain permission to appear pro hac vice in time for the May 3 hearing currently scheduled in some of the above cases.

Respectfully,

Walter R. Echo-Hawk

**Re: Renewal of Certificate of Compliance for Pro Hac Vice Admission for
Klamath Basin Adjudication in Cases 277, 279-282, and 284-286**

Dear Adjudicator French:

Enclosed for your consideration is my Certificate of Compliance for *Pro Hac Vice* Admission to appear in the Klamath Basin Adjudication in cases 277, 279-282, and 284-286 on behalf of the Klamath Tribes. There was a bit of confusion on my part as I was informed orally by an OAH assistant that renewal was not required in these cases, thus my current Certificate of Compliance in cases 277, 279-281 expired January 8, 2009, for which I regret my tardiness in renewing my Certificate of Compliance. Additionally, this past October I received approval and entered my appearance in cases 282 and 284-286, which do not expire until October 16, 2009, but I would like to renew that Certificate of Compliance now as well, so that my renewal cycle is the same for all eight cases.

The enclosed insurance verification form is issued in the name of the Native American Rights Fund for which I am employed as a staff attorney. If you need additional information regarding my application please call the number listed above or email me at dgover@narf.org. To expedite the process I have enclosed a self-addressed stamped envelope. Thank you for your consideration.

Sincerely,

David L. Gover

In re: DAVID LYMAN GOVER) Certificate of Compliance
Name of Out-of-State Attorney) For Pro Hac Vice Admission

I, DAVID LYMAN GOVER (print), am an attorney in the State of COLORADO and I intend to seek pro hac vice admission in accordance with ORS 9 241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF THE WATERS OF THE KLAMATH RIVER.

Case No.: 282, 284, 285 & 286

I certify that (check all that apply):

- I am an attorney in good standing in the State of OKLAHOMA, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
I am not subject to any pending disciplinary proceedings in any jurisdiction; or
I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 890156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my pro hac vice admission.
My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
I agree, as a continuing obligation of pro hac vice admission, to notify the trial court promptly of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
I will provide to the Oregon State Bar a copy of the order admitting me pro hac vice in the above-referenced matter when such an order is granted. In the event pro hac vice admission is revoked, I will notify the Oregon State Bar.
I acknowledge that this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my pro hac vice admission in the matter for every twelve-month period thereafter.
Dated this 13th day of October, 2008.

Re: Certificate of Compliance for Pro Hac Vice Admission

Dear Chief Judge Ewing:

Enclosed for your consideration is my Certificate of Compliance for *Pro Hac Vice* Admission to appear in the Klamath Basin Adjudication in cases 282, 284, 285 and 286 on behalf of the Klamath Tribes. This past January I did receive approval and have appeared in cases 277, 279, 280 and 281 in the Klamath Basin Adjudication. The enclosed insurance verification form is issued in the name of the Native American Rights Fund for which I am employed as a staff attorney. If you need additional information regarding my application please call the number listed above or email me at dgover@narf.org. To expedite the process I have enclosed a self-addressed stamped envelope. Thank you for your consideration.

Sincerely,

David L. Gover

In re: DAVID LYMAN GOVER) Certificate of Compliance
Name of Out-of-State Attorney) For Pro Hac Vice Admission

I, DAVID LYMAN GOVER (print), am an attorney in the State of COLORADO and I intend to seek pro hac vice admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF THE WATERS OF THE KLAMATH RIVER.

Case No.: 282, 284, 285 & 286

I certify that (check all that apply):

- I am an attorney in good standing in the State of OKLAHOMA, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
I am not subject to any pending disciplinary proceedings in any jurisdiction; or
I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 890156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my pro hac vice admission.
My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
I agree, as a continuing obligation of pro hac vice admission, to notify the trial court promptly of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
I will provide to the Oregon State Bar a copy of the order admitting me pro hac vice in the above-referenced matter when such an order is granted. In the event pro hac vice admission is revoked, I will notify the Oregon State Bar.
I acknowledge that this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my pro hac vice admission in the matter for every twelve-month period thereafter.

Dated this 13th day of October, 2008.

In re: **DAVID LYMAN GOVER**
Name of Out-of-State Attorney) **Certificate of Compliance**
) **For Pro Hac Vice Admission**

I, DAVID LYMAN GOVER (print), am an attorney in the State of COLORADO, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: In The Matter Of The Determination Of The Relative Rights Of The Waters Of The Klamath River

Case No.: 277, 279, 280 AND 281

I certify that (check all that apply):

- I am an attorney in good standing in the State of OKLAHOMA, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
 - I am not subject to any pending disciplinary proceedings in any jurisdiction; **or**
 - I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
 - I intend to associate in the above-referenced proceeding with CARL V. ULLMAN, OSB No. 89156, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
 - I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
 - My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
 - I agree, as a continuing obligation of *pro hac vice* admission, to notify the trial court promptly of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
 - I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in the above-referenced matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will notify the Oregon State Bar.
 - I acknowledge that this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.
- Dated this 20TH day of DECEMBER, 2007.

CERTIFICATE

STATE OF OKLAHOMA)
)
COUNTY OF OKLAHOMA)

Dan Murdock, being duly sworn, deposes and says:

That he is the General Counsel of the Oklahoma Bar Association, under the Rules Creating and Controlling the Oklahoma Bar Association as adopted and promulgated by the Supreme Court of the State of Oklahoma, and as such has access to the records and files showing the date of admission and the standing of all attorneys admitted to practice by the Supreme Court.

That DAVID LYMAN GOVER, OBA #19107, was admitted to the practice of law by the Supreme Court of Oklahoma on October 02, 2001, and is an active member in good standing of the Oklahoma Bar Association.

Dan Murdock, General Counsel

Subscribed and sworn to before me this 22nd day of October, 2007.

Re: Notice of Withdrawal of *Pro Hac Vice* Appearance

Dear Mr. French:

On September 11, 2001, Water Resources Adjudicator Richard D. Bailey granted my motion for leave to appear *pro hac vice* as counsel for the Klamath Tribes in the Klamath Basin Adjudication. Since that time, I have appeared on behalf of the Klamath Tribes in these proceedings along with my Native American Rights Fund co-counsel, Walter Echo-Hawk, and local counsel Carl Ullman.

Please note that I am terminating my employment with the Native American Rights Fund and withdraw my appearance in the Klamath Basin Adjudication at this time.

Sincerely,

Lorna K. Babby

Re: *Pro Hac Vice* Admission of Out-of-State Attorneys Participating in the Klamath Basin
Adjudication

Dear Justin:

This is to confirm our telephone conversation last month (and our brief follow-up conversation earlier this week) regarding your January 9, 2001 letter to out-of-state counsel in the Klamath Basin Adjudication (KBA). As you will recall, I phoned upon receiving your letter to discuss an apparent misunderstanding with respect to recent amendments to Uniform Trial Court Rule (UTCRC) 3.170, which governs procedures for *pro hac vice* practice in Oregon.¹

Specifically, I disagreed with your determination as to the applicability of the amendments to my and Walter Echo-Hawk's participation in the KBA. I directed your attention to the following language in the Oregon Supreme Court's December 5, 2001 Order adopting the amendments – language which confirms that the new requirements for *pro hac vice* practice are strictly proactive:

- (3) Any out-of-state attorney not admitted to practice law in this state is subject to the new procedures and fee established by these amendments to UTCRC 3.170 as follows:

¹ In your letter, you point out that UTCRC 3.170(5) has been amended to require out-of-state attorneys to reapply each year for *pro hac vice* admission. You then invite out-of-state-counsel in the KBA to contact you or Walter Perry to “discuss the reapplication process” before our current *pro hac vice* orders expire.

RECEIVED

FEB 19 2002

WATER RESOURCES DEPT.
SALEM, OREGON

Letter to Justin Wirth
February 14, 2002
Page 2

- (a) The attorney must comply for any appearance in any action or proceeding where the attorney will first appear on or after January 1, 2002.
- (b) The attorney is not required to comply for any case where the attorney has made any appearance in the case before January 1, 2002, and was in compliance with UTCR 3.170 requirements in effect at the time of his appearance.

Supreme Court Order No. 01-127. I then reminded you that Mr. Echo-Hawk and I both made appearances in the Klamath Basin Adjudication prior to January 1, 2002, in full compliance with the requirements in effect at the time. See attached Motions for and Orders Granting *Pro Hac Vice* Admission.

You stated in response that you had inadvertently overlooked Supreme Court Order No. 01-127, and that in light of the same, it did not appear as though Mr. Echo-Hawk and I would be subject to the new *pro hac vice* requirements in the Klamath Basin Adjudication. In a conversation earlier this week, you confirmed that your initial understanding as to the applicability of the new requirements had been in error.

Please contact me in writing immediately if you have questions or concerns regarding this summary. If I do not hear from you, I will assume that the subject matter has been resolved, and that Mr. Echo-Hawk and I need not apply for readmission.

Sincerely,

Lorna Babby

To Richard Bailey, the Water Resources Adjudicator for the Oregon Department of Water Resources:

This is a motion filed pursuant to Oregon Uniform Trial Court Rule 3.170 respectfully requesting an order granting the *pro hac vice* admission of Walter R. Echo-Hawk and K. Jerome Gottschalk as attorneys for the Klamath Tribes in this proceeding, including related water rights settlement efforts. As grounds, movants submit accompanying affidavits of Walter Echo-Hawk and K. Jerome Gottschalk as required by UTCR 3.170(2) and proposed Order, and state as follows:

1. Walter R. Echo-Hawk and K. Jerome Gottschalk are out-of- state attorneys within the meaning of UTCR 3.170 (1) who have been retained to represent the Klamath Tribes in this proceeding, including related settlement efforts.
2. UTCR 3.170 (1) provides that, "An attorney authorized to practice law before the highest court of record in any state or country ("out-of-state attorney") may appear on behalf of a party in any action, suit, or proceeding pending in this state even though that attorney is not licensed to practice law in this state, if the attorney satisfies of the" requirements set forth in UTCR 3.170(1)(a)-(f). This rule "applies to all judicial and administrative proceedings in this state, and the term "court" shall be construed to include administrative agencies." Id. 3.170(5).
3. As shown in the accompanying affidavits, Walter Echo-Hawk and K. Jerome Gottschalk meet all the requirements set forth in UTCR 3.170(1)(a)-(f).
4. The undersigned Carl Ullman is local counsel within the meaning of UTCR 3.170(1)(c) who: a) is a member in good standing of the Oregon State Bar; b) will associate with Messrs. Echo-Hawk and Gottschalk in this matter; and c) will participate meaningfully in this proceeding and related settlement efforts.
5. UTCR 3.170(4) requires that the undersigned local counsel provide a copy of the order

To Richard Bailey, the Water Resources Adjudicator for the Oregon Department of Water Resources:

Pursuant to Rule 3.170 of the Oregon Uniform Trial Court Rules (UTCRC), the undersigned hereby respectfully moves for an order granting the *pro hac vice* admission of Lorna K. Babby as attorney for the Klamath Tribes in this proceeding, including related water rights settlement efforts. In support of this motion, the undersigned states as follows:

1. Lorna K. Babby is an out-of-state attorney within the meaning of UTCRC 3.170 (1) who has been retained to represent the Klamath Tribes in this proceeding, including related settlement efforts.
2. UTCRC 3.170 (1) provides that “[a]n attorney authorized to practice law before the highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a party in any action, suit, or proceeding pending in [Oregon] even though that attorney is not licensed to practice law in [Oregon],” if the attorney satisfies of the requirements set forth in UTCRC 3.170(1)(a)-(g). This rule “applies to all judicial and administrative proceedings in [Oregon], and the term ‘court’ shall be construed to include administrative agencies.” Id. 3.170(5).
3. As certified in the accompanying affidavit, Lorna K. Babby meets all the requirements set forth in UTCRC 3.170(1)(a)-(g).
4. The undersigned Carl Ullman is local counsel withing the meaning of UTCRC 3.170(1)(c) who: a) is a member in good standing of the Oregon State Bar; b) will associate with Ms. Babby in this matter; and c) will participate meaningfully in this proceeding and related settlement efforts.

Re: **In the Matter of the Determination of the Relative Water Rights to the Waters of the Klamath River, a Tributary of the Pacific Ocean**

Dear Mr. Bailey:

Enclosed please find the original and one copy of the following documents for your consideration and filing in the above proceeding:

1. Motion for *pro hac vice* admission;
2. Affidavit of Lorna K. Babby in support of motion for *pro hac vice* admission; and
3. Proposed order granting motion for *pro hac vice* admission.

As you may recall, a similar motion was filed earlier this year for the *pro hac vice* admission of two colleagues of mine at the Native American Rights Fund, K. Jerome Gottschalk and Walter R. Echo-Hawk. Their motion was filed following consultation with Mr. Walter Perry in the Oregon Department of Justice. On February 27, 2001, you granted leave to Messrs. Gottschalk and Echo-Hawk to appear *pro hac vice* as counsel for the Klamath Tribes in the subject proceeding (see attached order). The enclosed motion conforms in both substance and format to the previous motion.

To Richard Bailey, the Water Resources Adjudicator for the Oregon Department of Water Resources:

Pursuant to Rule 3.170 of the Oregon Uniform Trial Court Rules (UTCR), the undersigned hereby respectfully moves for an order granting the *pro hac vice* admission of Lorna K. Babby as attorney for the Klamath Tribes in this proceeding, including related water rights settlement efforts. In support of this motion, the undersigned states as follows:

1. Lorna K. Babby is an out-of-state attorney within the meaning of UTCR 3.170 (1) who has been retained to represent the Klamath Tribes in this proceeding, including related settlement efforts.
2. UTCR 3.170 (1) provides that “[a]n attorney authorized to practice law before the highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a party in any action, suit, or proceeding pending in [Oregon] even though that attorney is not licensed to practice law in [Oregon],” if the attorney satisfies of the requirements set forth in UTCR 3.170(1)(a)-(g). This rule “applies to all judicial and administrative proceedings in [Oregon], and the term ‘court’ shall be construed to include administrative agencies.” Id. 3.170(5).
3. As certified in the accompanying affidavit, Lorna K. Babby meets all the requirements set forth in UTCR 3.170(1)(a)-(g).
4. The undersigned Carl Ullman is local counsel withing the meaning of UTCR 3.170(1)(c) who: a) is a member in good standing of the Oregon State Bar; b) will associate with Ms. Babby in this matter; and c) will participate meaningfully in this proceeding and related settlement efforts.

ADMISSION**

To Dwight W. French, the Water Resources Adjudicator for the Oregon Department of
Water Resources:

Come now Paul S. Simmons and Robert B. Hoffman of attorneys for Tulelake Irrigation
District, and submit this Motion for *Pro Hac Vice* Admission in the above-referenced
proceeding.

This is a motion filed pursuant to Oregon Uniform Trial Court Rule (“UTCR”) 3.170
respectfully requesting an order granting the *pro hac vice* admission of Robert B. Hoffman as
attorney for Tulelake Irrigation District in this proceeding, including water rights settlement
efforts. As grounds, movants submit accompanying affidavit of Robert B. Hoffman as required
by UTCR 3.170(2), and a proposed Order, and state as follows:

1. Robert B. Hoffman is an out-of-state attorney within the meaning of
UTCR 3.170(1), who has been retained to represent the Tulelake Irrigation District in this
proceeding, including related settlement efforts;
2. UTCR 3.170(1) provides that, “An attorney authorized to practice law before the
highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a
party in any action, suit, or proceeding pending in this state even though that attorney is not

licensed to practice law in this state, if the attorney satisfies all of” the requirements set forth in UTCR 3.170(1)(a)-(f). This rule “applies to all judicial and administrative proceedings in this state, and the term ‘court’ shall be construed to include administrative agencies.”

UTCR 3.170(5);

3. As shown in the accompanying affidavit, Robert B. Hoffman meets all the requirements set forth in UTCR 3.170(1)(a)-(f);

4. The undersigned Paul S. Simmons is local attorney within the meaning of UTCR 3.170(1)(c) who: (i) is a member in good standing of the Oregon State Bar; (ii) will associate with Robert B. Hoffman in this matter; and (iii) will participate meaningfully in this proceeding and related settlement efforts; and

5. UTCR 3.170(4) requires that when an application under this rule is granted, the local attorney will provide a copy of the order granting *pro hac vice* admission to the Oregon Supreme Court and Oregon Bar Association. If this application is granted, the undersigned Paul Simmons will comply with Rule 3.170(4).

6. WHEREFORE, movants respectfully request that the Adjudicator enter an order consistent with the enclosed proposed order granting *pro hac vice* admission for Robert B. Hoffman in this proceeding and related settlement efforts as counsel for the Tulelake Irrigation District.

Respectfully submitted this 28th day of May 2008.

ADMISSION**

To Dwight W. French, the Water Resources Adjudicator for the Oregon Department of
Water Resources:

Come now Paul S. Simmons, Andrew M. Hitchings, Daniel Kelly, Jacqueline L.
McDonald and Cassie N. Aw-yang of attorneys for Tulelake Irrigation District, and submit this
Motion for *Pro Hac Vice* Admission in the above-referenced proceeding.

This is a motion filed pursuant to Oregon Uniform Trial Court Rule (“UTCR”) 3.170
respectfully requesting an order granting the *pro hac vice* admission of Andrew M. Hitchings,
Daniel Kelly, Jacqueline L. McDonald, and Cassie N. Aw-yang as attorneys for Tulelake
Irrigation District in this proceeding, including water rights settlement efforts. As grounds,
movants submit accompanying affidavits of Andrew M. Hitchings, Daniel Kelly, Jacqueline L.
McDonald, and Cassie N. Aw-yang as required by UTCR 3.170(2), and a proposed Order, and
state as follows:

1. Andrew M. Hitchings, Daniel Kelly, Jacqueline L. McDonald, and Cassie N.
Aw-yang are out-of-state attorneys within the meaning of UTCR 3.170(1), who have been
retained to represent the Tulelake Irrigation District in this proceeding, including related
settlement efforts;

RECEIVED

Pursuant to Oregon Uniform Trial Court Rule 3.170, Andrew M. Hitchings, Daniel Kelly, Jacqueline L. McDonald and Cassie N. Aw-yang are hereby granted leave to appear *pro hac vice* as counsel for the Tulelake Irrigation District in this proceeding, including related water settlement efforts.

Ordered this 13th day of December 2006.

Dwight W. French, Water Resources Adjudicator
Oregon Department of Water Resources

BEFORE THE WATER RESOURCES ADJUDICATOR
THE STATE OF OREGON
KLAMATH COUNTY

In the Matter of the Determination of the Relative
Rights of the Waters of the Klamath River, a
Tributary of the Pacific Ocean

**MOTION FOR *PRO HAC VICE*
ADMISSION**

To Dwight W. French, the Water Resources Adjudicator for the Oregon Department of
Water Resources:

Come now Paul S. Simmons, Andrew M. Hitchings, Daniel Kelly, Jacqueline L.
McDonald and Cassie N. Aw-yang of attorneys for Tulelake Irrigation District, and submit this
Motion for *Pro Hac Vice* Admission in the above-referenced proceeding.

This is a motion filed pursuant to Oregon Uniform Trial Court Rule (“UTCR”) 3.170
respectfully requesting an order granting the *pro hac vice* admission of Andrew M. Hitchings,
Daniel Kelly, Jacqueline L. McDonald and Cassie N. Aw-yang as attorneys for Tulelake Irrigation
District in this proceeding, including water rights settlement efforts. As grounds, movants submit
accompanying affidavits of Andrew M. Hitchings, Daniel Kelly, Jacqueline L. McDonald and
Cassie N. Aw-yang as required by UTCR 3.170(2), and a proposed Order, and state as follows:

1. Andrew M. Hitchings, Daniel Kelly, Jacqueline L. McDonald and Cassie N. Aw-yang are out-of-state attorneys within the meaning of UTCR 3.170(1), who have been retained to represent the Tulelake Irrigation District in this proceeding, including related settlement efforts;
2. UTCR 3.170(1) provides that, “An attorney authorized to practice law before the highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a party in any action, suit, or proceeding pending in this state even though that attorney is not licensed to practice law in this state, if the attorney satisfies all of” the requirements set forth in

UTCR 3.170(1)(a)-(f). This rule “applies to all judicial and administrative proceedings in this state, and the term ‘court’ shall be construed to include administrative agencies.” UTCR 3.170(5);

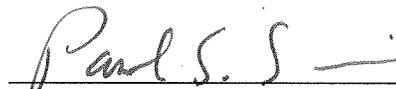

3. As shown in the accompanying affidavits, Andrew M. Hitchings, Daniel Kelly, Jacqueline L. McDonald and Cassie N. Aw-yang meet all the requirements set forth in UTCR 3.170(1)(a)-(f);

4. The undersigned Paul S. Simmons is local attorney within the meaning of UTCR 3.170(1)(c) who: (i) is a member in good standing of the Oregon State Bar; (ii) will associate with Mr. Hitchings, Mr. Kelly, Miss McDonald and Mrs. Aw-yang in this matter; and (iii) will participate meaningfully in this proceeding and related settlement efforts; and

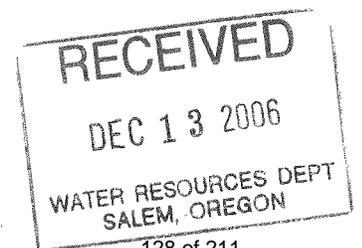

5. UTCR 3.170(4) requires that when an application under this rule is granted, the local attorney will provide a copy of the order granting *pro hac vice* admission to the Oregon Supreme Court and Oregon Bar Association. If this application is granted, the undersigned Paul Simmons will comply with Rule 3.170(4).

WHEREFORE, movants respectfully request that the Adjudicator enter an order consistent with the enclosed proposed order granting *pro hac vice* admission for Mr. Hitchings, Mr. Kelly, Miss McDonald and Mrs. Aw-yang in this proceeding and related settlement efforts as counsel for the Tulelake Irrigation District.

Respectfully submitted this 8th day of December 2006.

ADMISSION**

To Richard Bailey, the Water Resources Adjudicator for the Oregon Department of Water Resources:

Comes now Paul S. Simmons and Jacqueline L. McDonald, of attorneys for Tulelake Irrigation District, and submit this Motion for *Pro Hac Vice* Admission in the above-referenced proceeding.

This is a motion filed pursuant to Oregon Uniform Trial Court Rule (“UTCR”) 3.170 respectfully requesting an order granting the *pro hac vice* admission of Jacqueline L. McDonald as attorney for Tulelake Irrigation District in this proceeding, including water rights settlement efforts. As grounds, movants submit accompanying affidavit of Jacqueline L. McDonald as required by UTCR 3.170(2), and a proposed Order, and state as follows:

1. Jacqueline L. McDonald is an out-of-state attorney within the meaning of UTCR 3.170(1), who has been retained to represent the Tulelake Irrigation District in this proceeding, including related settlement efforts;
2. UTCR 3.170(1) provides that, “An attorney authorized to practice law before the highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a party in any action, suit, or proceeding pending in this state even though that attorney is not licensed to practice law in this state, if the attorney satisfies all of” the requirements set forth in

UTCRC 3.170(1)(a)-(f). This rule “applies to all judicial and administrative proceedings in this state, and the term ‘court’ shall be construed to include administrative agencies.” UTCRC 3.170(5);

3. As shown in the accompanying affidavit, Jacqueline L. McDonald meets all the requirements set forth in UTCRC 3.170(1)(a)-(f);

4. The undersigned Paul S. Simmons is local attorney within the meaning of UTCRC 3.170(1)(c) who: (i) is a member in good standing of the Oregon State Bar; (ii) will associate with Ms. McDonald in this matter; and (iii) will participate meaningfully in this proceeding and related settlement efforts; and

5. UTCRC 3.170(4) requires that when an application under this rule is granted, the local attorney will provide a copy of the order granting *pro hac vice* admission to the Oregon Supreme Court and Oregon Bar Association. If this application is granted, the undersigned Paul Simmons will comply with Rule 3.170(4).

WHEREFORE, movants respectfully request that the Adjudicator enter an order consistent with the enclosed proposed order granting *pro hac vice* admission for Ms. McDonald in this proceeding and related settlement efforts as counsel for the Tulelake Irrigation District.

Respectfully submitted this 15th day of March 2004.

In re: Jacqueline L. McDonald
Name of Out-of-State Attorney

Certificate of Compliance For Pro Hac Vice Admission

I, Jacqueline L. McDonald (print name), am an attorney in the State of California and I intend to seek *pro hac vice* admission in accordance with ORS 9.241 and UTCR 3.170 in the following Oregon court action or proceeding:

In the Matter of the Determination of the Relative Rights of the
Case Name: Waters of the Klamath River, a Tributary of the Pacific Ocean;
Court: Before the Hearing Officer Panel for the State of Oregon
Water Resources Department

I certify that (check all that apply):

- I am an attorney in good standing in the State of California, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
- I am not subject to any pending disciplinary proceedings in any jurisdiction; or
- I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
- I intend to associate in the above-referenced action or proceeding with Paul S. Simmons, OSB No. 97138, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
- I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
- My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
- I agree, as a continuing obligation of *pro hac vice* admission, to notify the trial court promptly of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
- I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in the above-referenced matter when such an order is granted. In the event *pro hac vice* admission is revoked for any reason, I will promptly notify the Oregon State Bar.
- I submit \$250 to the Oregon State Bar as payment of the *pro hac vice* fee established by ORS 9.241 and the rules of the Oregon Supreme Court. I acknowledge that this fee is for a period of twelve months from the date of the Acknowledgment of Receipt issued below, and that an additional fee of \$250 will be required in order for me to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.

Dated this 27th day of January, 2004.

Dear Mr. Bailey:

We request an extension of the Order Granting *Pro Hac Vice* Admission for Andrew M. Hitchings and Daniel Kelly which you signed on December 23, 2002. We certify that all information we provided to you in our initial Motion and Affidavits for *Pro Hac Vice* Admission, signed by us on December 21, 2001, remains true and correct, and that we continue to be bound by all terms and conditions of *pro hac vice* admission as specified in ORS 9.241 and UTCR 3.170.

An original and one copy of a proposed Order Granting *Pro Hac Vice* Admission for Andrew M. Hitchings and Daniel Kelly is enclosed, along with a self-addressed stamped envelope for the return of one signed copy of the Order.

Sincerely,

Andrew M. Hitchings

Dear Mr. Bailey:

This confirms our secretary's telephone conversation with Kimberly Grigsby regarding the process for renewing our *pro hac vice* admission. Ms. Grigsby advised that a letter requesting an extension of the previous Order would be appropriate.

We request an extension of the Order Granting *Pro Hac Vice* Admission for Andrew M. Hitchings and Daniel Kelly which you signed on January 3, 2002. We certify that all information we provided to you in our initial Motion and Affidavits for *Pro Hac Vice* Admission, signed by us on December 21, 2001, remains true and correct, and that we continue to be bound by all terms and conditions of *pro hac vice* admission as specified in ORS 9.241 and UTCR 3.170.

Re: *Pro Hac Vice* - Admission for Out-of-State Attorney Participation in the Klamath Adjudication

Dear Counsel:

Enclosed please find a copy of Uniform Trial Court Rule ("UTCR") 3.170, as amended by the Oregon Supreme Court on January 1, 2002. These amendments to UTCR 3.170 just came to my attention today.

One significant feature of this rule, as amended, is that out-of-state attorneys now must reapply each year for admission *pro hac vice*. UTCR 3.170(5). Please feel free to contact me or Walter Perry a few weeks before your current *pro hac vice* order expires so that we can discuss the reapplication process.

Sincerely,

Justin Wirth
Assistant Attorney General

IT IS HEREBY ORDERED, pursuant to ORS 9.241 as amended by section 1, chapter 223, 2001 Oregon Laws, that:

- (1) UTCR 3.170 is amended as set forth in attachments A and B to this order. Attachment A shows the changes made as set out in legislative amendment format with deletions from the old rule bracketed and in italics and with additions to the old rule shown by underlining and bold. Attachment B shows UTCR 3.170 with all deletions and additions made by this order complete.
- (2) The fee authorized by ORS 9.241(2) is established by the attached amendment in the manner therein described.
- (3) Any out-of-state attorney not admitted to practice law in this state is subject to the new procedures and fee established by these amendments to UTCR 3.170 as follows:
 - (a) The attorney must comply for any appearance in any action or proceeding where the attorney will first appear on or after January 1, 2002.
 - (b) The attorney is not required to comply for any case where the attorney has made any appearance in the case before January 1, 2002, and was in compliance with UTCR 3.170 requirements in effect at the time of the appearance.
- (4) The amendments to UTCR 3.170 and the fee established by this order take effect January 1, 2002, except that the Oregon State Bar or any administrative body of this state is authorized by this order to establish procedures

Amendments to Uniform Trial Court Rules

ATTACHMENT A, Amendments made to UTCR 3.170 by order shown in legislative format with deletions bracketed and in italics and additions in bold and underlined:

UTCR 3.170 ASSOCIATION OF OUT-OF-STATE COUNSEL (PRO HAC VICE)

(1) An attorney authorized to practice law before the highest court of record in any state or country ("out-of-state attorney") may appear on behalf of a party in any action, suit, or proceeding pending in this state **before a court or administrative body** even though that attorney is not licensed to practice law in this state, if the attorney satisfies all of the following requirements:

(a) *[The out-of-state attorney must provide a certificate showing]* **Show** that the attorney is an attorney in good standing in another state or country.

(b) *[The out-of-state attorney must certify]* **Certify** that the attorney is not subject to pending disciplinary proceedings in any other jurisdiction or provide a description of the nature and status of any pending disciplinary proceedings.

(c) *[The out-of-state attorney must associate]* **Associate** with an active member in good standing of the Oregon State Bar ("local attorney") who must participate meaningfully in the matter.

(d) *[The out-of-state attorney must certify]* **Certify** that the attorney will comply with applicable statutes, law, and procedural rules of the state of Oregon; be familiar with and comply with the disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and the Oregon State Bar with respect to acts and omissions occurring during the out-of-state attorney's admission under this rule.

(e) *[An out-of-state attorney]* **If the attorney will engage** in the private practice of law *[must]* in

pendi

this state, provide a certificate of insurance covering the attorney's activities in this state and providing professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan.

(f) [The out-of-state attorney must agree] Agree, as a continuing obligation under this rule, to notify the trial court or administrative body promptly of any changes in the out-of-state attorney's insurance or status.

(g) [The out-of-state attorney must submit proof that any fees provided by law for appearance under this rule have been paid] If application will be for an appearance before a court, pay any fees required by subsection (6) below for appearance under this rule. No fee is required if application will be for an appearance before an administrative body.

(2) The information required by subsection (1) of this rule must be presented as follows:

(a) If application will be for an appearance before a court, to the Oregon State Bar (Bar) in a form established by the Bar. The Bar may accomplish the submission of information by requiring a certificate with attachments or other means administratively convenient to the Bar. Upon receipt of all information necessary under subsection (1) of this section and receipt of the fee required by subsection (6) below, the Bar will acknowledge receipt in a form determined by the Bar. In making the acknowledgment, the Bar may attach copies or comment on any submitted material the Bar finds may be appropriate for a court to consider with an application under this section. The local attorney must then submit the Bar's acknowledgment with any information the Bar

includes to the court by motion signed by the local attorney [accompanied by the affidavit of the out-of-state attorney] requesting the court to grant application under this section. The court may rely on the acknowledgment of the Bar as a basis to conclude that all information required to be submitted and fees required to be paid for granting an application under this section have been submitted and paid. Bar records on materials it receives under this section will be available to a court on request for two years or such longer period as the Bar considers administratively convenient.

(b) If the application is for an appearance before an administrative body, to the administrator of the agency before which the proceeding will occur or that person's designee or to any other appropriate officer, employee or designee of that agency as set forth by procedures or rules established by that agency. Application may be accomplished by an application certificate with attachments or other means administratively convenient to and established by the agency. Agency records on materials the agency or designee receives under this section will be available to the Bar on request for two years or such longer period as the agency considers administratively convenient.

(3) The court or administrative body shall grant the application by order if the application satisfies the requirements of this rule, unless the court or administrative body determines for good cause shown that granting the application would not be in the best interest of the court or administrative body or the parties. At any time and upon good cause shown, the court or administrative body may revoke the out-of-state attorney's permission to appear in the matter.

RECEIVED

JAN 10 2002

WATER RESOURCES DEPT.
SALEM, OREGON

(4) Each time a court or administrative body grants an application under this rule [is granted] or revokes an out-of-state attorney's permission to appear in a matter, the local attorney must provide a [copy of the order] notice to the [Oregon Supreme Court and to the Oregon State] Bar of such occurrence in a manner and within the time determined by the Bar.

(5) This rule applies to all judicial and administrative proceedings in this state and the term "court" shall be construed to include administrative agencies]. When a court or administrative body grants an application for approval to appear under this rule, the authorization allows that individual attorney to appear in all proceedings for a single case that occur within a year after the application is granted. Applications will not be granted for firms. There must be separate application and approval for any of the following: appearance by another out-of-state attorney representing the same or any other party; representation by the same out-of-state attorney in this state on another matter; any appearance that occurs later than that one-year period. The Bar or an administrative body may establish such abbreviated procedures and requirements as Bar or body finds administratively convenient to limit unnecessary submission of duplicate information by an attorney who has already had application granted to appear in one proceeding and is seeking to appear in other proceedings or to renew an application at the end of a current one-year grant for a case.

(6) Except as otherwise provided in this rule, for each application under this rule to appear before a court, the applicant must pay to the Bar a fee of \$ 250 at the time of submission of information under subsection (2) of this section, including when application is sought to renew an application at the end of a current one-year grant for a case. The fee will not be refundable.

(7) Subject to the following, the Bar or any administrative agency acting under this section may use electronic means to accomplish acts required or authorized under this section:

(a) The Bar shall provide acknowledgment under paragraph (2)(a) of this rule for court purposes by electronic means only upon approval of the State Court Administrator.

(b) No administrative agency may provide electronic means of notifying the Bar of a grant of application or revocation under this section without prior approval of the Bar.

(8) An applicant is not required to pay the fee established by subsection (6) of this section if the applicant establishes to the satisfaction of the Bar that the applicant is employed by a government body and will be representing that government body in an official capacity in the proceeding that will be the subject of the application.

ATTACHMENT B, UTCR 3.170 as amended by order
UTCRR 3.170 ASSOCIATION OF OUT-OF-STATE COUN-
SEL (PRO HAC VICE)

(1) An attorney authorized to practice law before the highest court of record in any state or country ("out-of-state attorney") may appear on behalf of a party in any action, suit, or proceeding pending in this state before a court or administrative body even though that attorney is not licensed to practice law in this state, if the attorney satisfies all of the following requirements:

- (a) Show that the attorney is an attorney in good standing in another state or country.
- (b) Certify that the attorney is not subject to pending disciplinary proceedings in any other jurisdiction or provide a description of the nature and status of any pending disciplinary proceedings.
- (c) Associate with an active member in good standing of the Oregon State Bar ("local attorney") who must participate meaningfully in the matter.
- (d) Certify that the attorney will: comply with applicable statutes, law, and procedural rules of the state of Oregon; be familiar with and comply with the disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and the Oregon State Bar with respect to acts and omissions occurring during the out-of-state attorney's admission under this rule.
- (e) If the attorney will engage in the private practice of law in this state, provide a certificate of insurance covering the attorney's activities in this state and providing professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan.
- (f) Agree, as a continuing obligation under this rule, to notify the trial court or administrative body

promptly of any changes in the out-of-state attorney's insurance or status.

(g) If application will be for an appearance before a court, pay any fees required by subsection (6) below for appearance under this rule. No fee is required if application will be for an appearance before an administrative body.

(2) The information required by subsection (1) of this rule must be presented as follows:

(a) If application will be for an appearance before a court, to the Oregon State Bar (Bar) in a form established by the Bar. The Bar may accomplish the submission of information by requiring a certificate with attachments or other means administratively convenient to the Bar. Upon receipt of all information necessary under subsection (1) of this section and receipt of the fee required by subsection (6) below, the Bar will acknowledge receipt in a form determined by the Bar. In making the acknowledgment, the Bar may attach copies or comment on any submitted material the Bar finds may be appropriate for a court to consider with an application under this section. The local attorney must then submit the Bar's acknowledgment with any information the Bar includes to the court by motion signed by the local attorney requesting the court to grant application under this section. The court may rely on the acknowledgment of the Bar as a basis to conclude that all information required to be submitted and fees required to be paid for granting an application under this section have been submitted and paid. Bar records on materials it receives under this section will be available to a court on request for two years or such longer period as the Bar considers administratively convenient.

that person's designee or to any other appropriate officer, employee or designee of that agency as set forth by procedures or rules established by that agency. Application may be accomplished by an application certificate with attachments or other means administratively convenient to and established by the agency. Agency records on materials the agency or designee receives under this section will be available to the Bar on request for two years or such longer period as the agency considers administratively convenient.

(3) The court or administrative body shall grant the application by order if the application satisfies the requirements of this rule, unless the court or administrative body determines for good cause shown that granting the application would not be in the best interest of the court or administrative body or the parties. At any time and upon good cause shown, the court or administrative body may revoke the out-of-state attorney's permission to appear in the matter.

(4) Each time a court or administrative body grants an application under this rule or revokes an out-of-state attorney's permission to appear in a matter, the local attorney must provide a notice to the Bar of such occurrence in a manner and within the time determined by the Bar.

(5) This rule applies to all judicial and administrative proceedings in this state. When a court or administrative body grants an application for approval to appear under this rule, the authorization allows that individual attorney to appear in all proceedings for a single case that occur within a year after the application is granted. Applications will not be granted for firms. There must be separate application and approval for any of the following: appearance by another out-of-state attorney representing the same or any other party; representation by the same out-of-state attorney in this state on another matter; any appearance that occurs later than that one-year period. The Bar or an administrative body may

establish such abbreviated procedures and requirements as Bar or body finds administratively convenient to limit unnecessary submission of duplicate information by an attorney who has already had application granted to appear in one proceeding and is seeking to appear in other proceedings or to renew an application at the end of a current one-year grant for a case.

(6) Except as otherwise provided in this rule, for each application under this rule to appear before a court, the applicant must pay to the Bar a fee of \$ 250 at the time of submission of information under subsection (2) of this section, including when application is sought to renew an application at the end of a current one-year grant for a case. The fee will not be refundable.

(7) Subject to the following, the Bar or any administrative agency acting under this section may use electronic means to accomplish acts required or authorized under this section:

(a) The Bar shall provide acknowledgment under paragraph (2)(a) of this rule for court purposes by electronic means only upon approval of the State Court Administrator.

(b) No administrative agency may provide electronic means of notifying the Bar of a grant of application or revocation under this section without prior approval of the Bar.

(8) An applicant is not required to pay the fee established by subsection (6) of this section if the applicant establishes to the satisfaction of the Bar that the applicant is employed by a government body and will be representing that government body in an official capacity in the proceeding that will be the subject of the application.

Appendix P-2

**BEFORE THE WATER RESOURCES ADJUDICATOR
THE STATE OF OREGON
KLAMATH COUNTY**

In the Matter of the Determination of the Relative
Rights of the Waters of the Klamath River, a
Tributary of the Pacific Ocean

**ORDER GRANTING *PRO HAC*
VICE ADMISSION FOR ANDREW
M. HITCHINGS AND DANIEL
KELLY**

Pursuant to Oregon Uniform Trial Court Rule 3.170, Andrew M. Hitchings and Daniel Kelly are hereby granted leave to appear *pro hac vice* as counsel for the Tulelake Irrigation District in this proceeding, including related water settlement efforts.

Ordered this 3 day of January, 2002.

Richard Bailey, Water Resources Adjudicator
Oregon Department of Water Resources

**BEFORE THE WATER RESOURCES ADJUDICATOR
THE STATE OF OREGON
KLAMATH COUNTY**

In the Matter of the Determination of the Relative
Rights of the Waters of the Klamath River, a
Tributary of the Pacific Ocean

**MOTION FOR *PRO HAC VICE*
ADMISSION**

To Richard Bailey, the Water Resources Adjudicator for the Oregon Department of Water Resources:

Comes now Paul S. Simmons, Andrew M. Hitchings and Daniel Kelly, of attorneys for Tulelake Irrigation District, and submit this Motion for *Pro Hac Vice* Admission in the above-referenced proceeding.

This is a motion filed pursuant to Oregon Uniform Trial Court Rule (“UTCR”) 3.170 respectfully requesting an order granting the *pro hac vice* admission of Andrew M. Hitchings and Daniel Kelly as attorneys for Tulelake Irrigation District in this proceeding, including water rights settlement efforts. As grounds, movants submit accompanying affidavits of Andrew M. Hitchings and Daniel Kelly as required by UTCR 3.170(2), and a proposed Order, and state as follows:

1. Andrew M. Hitchings and Daniel Kelly are out-of-state attorneys within the meaning of UTCR 3.170(1), who have been retained to represent the Tulelake Irrigation District in this proceeding, including related settlement efforts;
2. UTCR 3.170(1) provides that, “An attorney authorized to practice law before the highest court of record in any state or country (‘out-of-state attorney’) may appear on behalf of a party in any action, suit, or proceeding pending in this state even though that attorney is not licensed to practice law in this state, if the attorney satisfies all of” the requirements set forth in

UTCR 3.170(1)(a)-(f). This rule “applies to all judicial and administrative proceedings in this state, and the term ‘court’ shall be construed to include administrative agencies.” UTCR 3.170(5);

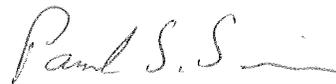

3. As shown in the accompanying affidavits, Andrew M. Hitchings and Daniel Kelly meet all the requirements set forth in UTCR 3.170(1)(a)-(f);

4. The undersigned Paul S. Simmons is local attorney within the meaning of UTCR 3.170(1)(c) who: (i) is a member in good standing of the Oregon State Bar; (ii) will associate with Messrs. Hitchings and Kelly in this matter; and (iii) will participate meaningfully in this proceeding and related settlement efforts; and

5. UTCR 3.170(4) requires that when an application under this rule is granted, the local attorney will provide a copy of the order granting *pro hac vice* admission to the Oregon Supreme Court and Oregon Bar Association. If this application is granted, the undersigned Paul Simmons will comply with Rule 3.170(4).

WHEREFORE, movants respectfully request that the Adjudicator enter an order consistent with the enclosed proposed order granting *pro hac vice* admission for Messrs. Hitchings and Kelly in this proceeding and related settlement efforts as counsel for the Tulelake Irrigation District.

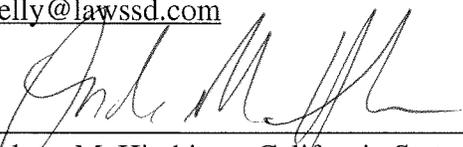

Respectfully submitted this 21st day of December, 2001.

Re: *In the Matter of the Determination of the Relative Water Rights of the Klamath River, a tributary of the Pacific Ocean*

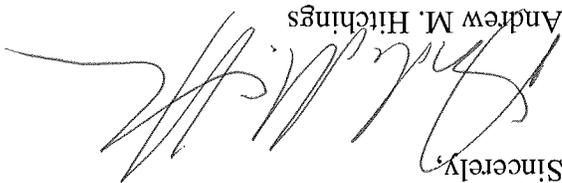

Dear Mr. Bailey:

Enclosed please find an original and one copy of the following documents for your consideration and filing in the above proceeding:

- 1. Motion for *pro hac vice* admission;
- 2. Affidavit of Andrew M. Hitchings; and
- 3. Affidavit of Daniel Kelly; and
- 4. Proposed Order granting *pro hac vice* admission for Andrew M. Hitchings and Daniel Kelly.

I have spoken with Walter Perry of the Oregon Attorney General's Office and he confirmed that you are the appropriate person with whom to file this motion. If the motion is granted, I would appreciate receiving a copy of the signed order in the enclosed self-addressed stamped envelope. If you have any questions, please do not hesitate to contact me or Paul Simmons of my office.

Sincerely,

Andrew M. Hitchings

In re: James Montgomery) **Certificate of Compliance**
Name of Out-of-State Attorney) **For Pro Hac Vice Admission**

I, James Montgomery (print), am an attorney in the State of Colorado, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: Klamath Basin Adjudication

Case No.: 277, 279, 280, 281, 282, 284, 285, 286 Agency Name Oregon Water Resources Department

I certify that (check all that apply):

- I am an attorney in good standing in the State of Colorado, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
 - I am not subject to any pending disciplinary proceedings in any jurisdiction; or
 - I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
 - I intend to associate in the above-referenced proceeding with Melinda Davison, OSB No. 930572, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
 - I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
 - My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
 - I agree, as a continuing obligation of *pro hac vice* admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
 - I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in this matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will promptly notify the Oregon State Bar.
 - I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.
- Dated this 30th day of October, 2008.

In re: James Montgomery) **Certificate of Compliance**
Name of Out-of-State Attorney) **For Pro Hac Vice Admission**

I, James Montgomery (print), am an attorney in the State of Colorado, and I intend to seek *pro hac vice* admission in accordance with ORS 9.241, OAR 137-003-0550 and UTCR 3.170 in the following Office of Administrative Hearings proceeding:

Case Name: Klamath Basin Adjudication
Case No.: 277, 279, 280, 281, 282, 284, 285, 286 **Agency Name** Oregon Water Resources Department

I certify that (check all that apply):

- I am an attorney in good standing in the State of Colorado, as evidenced by the attached good standing certificate issued by the licensing authority in that state.
 - I am not subject to any pending disciplinary proceedings in any jurisdiction; **or**
 - I am subject to pending disciplinary proceedings in another jurisdiction, the nature and status of which are described in an attachment to this certificate.
- I intend to associate in the above-referenced proceeding with Melinda Davison, OSB No. 930572, an active member in good standing of the Oregon State Bar, who will participate meaningfully in the matter.
- I will comply with applicable statutes, laws, and procedural rules of the State of Oregon; be familiar with and comply with disciplinary rules of the Oregon State Bar; and submit to the jurisdiction of the Oregon courts and Oregon State Bar with respect to acts and omissions occurring during my *pro hac vice* admission.
- My private law practice activities in Oregon are covered by professional liability insurance substantially equivalent to the Oregon State Bar Professional Liability Fund plan, as evidenced by the attached certificate of insurance coverage.
- I agree, as a continuing obligation of *pro hac vice* admission, to promptly notify the Agency and the Office of Administrative Hearings of any changes in my insurance coverage, or my admission or disciplinary status in any other jurisdiction.
- I will provide to the Oregon State Bar a copy of the order admitting me *pro hac vice* in this matter when such an order is granted. In the event *pro hac vice* admission is revoked, I will promptly notify the Oregon State Bar.
- I acknowledge this application is for a period of twelve months from the date of the approval and new application must be submitted to continue my *pro hac vice* admission in the matter for every twelve-month period thereafter.
Dated this 30th day of October, 2008.

AFFIDAVIT OF NICCOLE BRENNAN

Niccole Brennan, being duly sworn and deposed, states as follows:

1. This Affidavit is submitted in support of my Motion for *Pro Hac* Vice Admission in this proceeding, including related water rights settlement efforts, pursuant to Oregon Uniform Trial Court Rule 3.170. I hereby certify that I meet all of the requirements of Rule 3.170(1)(a)-(f) as set forth in more detail below.

2. I certify that I am an attorney in good standing licensed to practice law in the State of Colorado. My Colorado State Bar number is 033482.

3. I am authorized to practice law before the following courts: State of Colorado.

4. I certify that I am not subject to any disciplinary proceedings in any jurisdiction.

5. I will associate in this matter with local counsel, Daniel W. Hester, who is an active member in good standing of the Oregon State Bar and who will participate meaningfully in this proceeding and related settlement efforts.

6. I certify that I am familiar with and will comply with the authorities specified in applicable Oregon statutes, law and procedural rules.

7. I certify that I have a current professional liability insurance policy that will apply in this proceeding and said policy will remain in effect during the course of this matter.

8. I agree to a continuing obligation to notify the Adjudicator and Oregon Water Resources Department promptly of any changes to my professional liability insurance or status as an out-of-state attorney.

The foregoing is true of my own personal knowledge.

MOTION FOR *PRO HAC VICE*
ADMISSION

To William D. Young, the Water Resources Adjudicator for the Oregon Department of Water Resources:

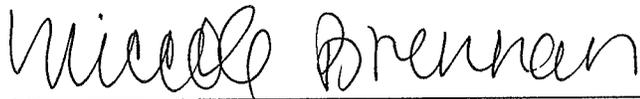

This is a Motion filed pursuant to Oregon Uniform Trial Court Rule 3.170 respectfully requesting an Order granting the *pro hac vice* admission of Nicole Brennan of the Law Firm of Fredericks, Pelcyger & Hester, LLC, as attorney of record for the Klamath Allottee Water Users Association (KAWUA) in this proceeding, and related water rights settlement efforts. As grounds, movants submit the accompanying affidavit of Nicole Brennan and proposed Order, and states as follows:

1. Nicole Brennan is an out-of-state attorney within the meaning of UTCR 3.170(1) whose law firm has been retained to represent the KAWUA and its members in this proceeding, including related settlement efforts, since the early 1990s.
2. As shown in the accompanying affidavit, Nicole Brennan meets all the requirements set forth in UTCR 3.170(1)(a)-(f).
3. The undersigned Daniel W. Hester is local counsel within the meaning of UTCR 3.170(1)(c) who (a) is a member in good standing of the Oregon State Bar; (b) will associate with Nicole Brennan in this matter; and (c) will participate meaningfully in this proceeding and related settlement efforts.
4. Another attorney in our firm, Christopher B. Leahy, has previously been admitted by your office *pro hac vice* in this case.
5. The undersigned local counsel will provide a copy of the Order granting *pro hac vice* admission to the Oregon Bar as required by UTCR 3.170(4).

WHEREFORE, movants respectfully request that the Adjudicator enter an order granting leave for Nicole Brennan to appear *pro hac vice* in this proceeding and related settlement efforts as counsel for the KAWUA and its members.

Respectfully submitted this 18th day of October, 2004.

MEMORANDUM

Via Facsimile: 503-378-6203

To: Ms. Terry Hranac
From: Christopher B. Leahy *CBL/ew*
Date: February 7, 2003
Re: Klamath Basin Adjudication

Attached you will find a Motion for me to appear *Pro Hac Vice* in the Klamath Basin Adjudication proceedings as counsel for the Klamath Allottees Water Users Association (KAWUA) and its members. I apologize for the short notice but have just recently discovered that there is a claim which my firm previously represented with a prehearing conference on Monday the 10th and I believe, after a conversation with Justin Wirth in the Oregon Attorney General's Office, that my participation in the conference would be beneficial to all even though the remaining KAWUA claims have not yet had conference dates set.

Accordingly, any effort you could make to approve my application in time for the 11:00 a.m. PST hearing on Monday would be greatly appreciated. Per his request, I have copied this correspondence and attachments to Justin Wirth.

Thank you.

cc: Justin Wirth (503)378-3802

To Thomas Byler, the Water Resources Adjudicator for the Oregon Department of Water Resources:

This is a motion filed pursuant to Oregon Uniform Trial Court Rule 3.170 respectfully requesting an order granting the *pro hac vice* admission of Christopher B. Leahy of the Law Firm of Fredericks, Pelcyger & Hester, LLC, as attorney of record for the Klamath Allottee Water Users Association (KAWUA) in this proceeding, and related water rights settlement efforts. As grounds, movants submits the accompanying affidavit of Christopher B. Leahy and proposed Order, and states as follows:

1. Christopher B. Leahy is an out-of-state attorney within the meaning of UTCR 3.170(1) whose law firm has been retained to represent the KAWUA and its members in this proceeding, including related settlement efforts, since the early 1990's.
2. As shown in the accompanying affidavit, Christopher B. Leahy meets all the requirements set forth in UTCR 3.170(1)(a)-(f).
3. The undersigned Daniel W. Hester is local counsel within the meaning of UTCR 3.170(1)(c) who (a) is a member in good standing of the Oregon State Bar; (b) will associate with Christopher B. Leahy in this matter; and (c) will participate meaningfully in this proceeding and related settlement efforts.
4. The undersigned local counsel will provide a copy of the order granting *pro hac vice* admission to the Oregon Bar as required by UTCR 3.170(4).

WHEREFORE, movant respectfully requests that the Adjudicator enter an order granting leave for Mr. Christopher B. Leahy to appear *pro hac vice* in this proceeding and related settlement efforts as counsel for the KAWUA and its members.

Respectfully submitted this 7th day of February, 2003.

To: Ms. Terry Hranac
From: Christopher B. Leahy *CBL/ew*
Date: February 7, 2003
Re: Klamath Basin Adjudication

Attached you will find a Motion for me to appear *Pro Hac Vice* in the Klamath Basin Adjudication proceedings as counsel for the Klamath Allottees Water Users Association (KAWUA) and its members. I apologize for the short notice but have just recently discovered that there is a claim which my firm previously represented with a prehearing conference on Monday the 10th and I believe, after a conversation with Justin Wirth in the Oregon Attorney General's Office, that my participation in the conference would be beneficial to all even though the remaining KAWUA claims have not yet had conference dates set.

Accordingly, any effort you could make to approve my application in time for the 11:00 a.m. PST hearing on Monday would be greatly appreciated. Per his request, I have copied this correspondence and attachments to Justin Wirth.

Thank you.

MOTION FOR PRO HAC VICE
ADMISSION

To Thomas Byler, the Water Resources Adjudicator for the Oregon Department of Water Resources:

This is a motion filed pursuant to Oregon Uniform Trial Court Rule 3.170 respectfully requesting an order granting the *pro hac vice* admission of Christopher B. Leahy of the Law Firm of Fredericks, Pelcyger & Hester, LLC, as attorney of record for the Klamath Allottee Water Users Association (KAWUA) in this proceeding, and related water rights settlement efforts. As grounds, movants submits the accompanying affidavit of Christopher B. Leahy and proposed Order, and states as follows:

1. Christopher B. Leahy is an out-of-state attorney within the meaning of UTCR 3.170(1) whose law firm has been retained to represent the KAWUA and its members in this proceeding, including related settlement efforts, since the early 1990's.
2. As shown in the accompanying affidavit, Christopher B. Leahy meets all the requirements set forth in UTCR 3.170(1)(a)-(f).
3. The undersigned Daniel W. Hester is local counsel within the meaning of UTCR 3.170(1)(c) who (a) is a member in good standing of the Oregon State Bar; (b) will associate with Christopher B. Leahy in this matter; and (c) will participate meaningfully in this proceeding and related settlement efforts.
4. The undersigned local counsel will provide a copy of the order granting *pro hac vice* admission to the Oregon Bar as required by UTCR 3.170(4).

WHEREFORE, movant respectfully requests that the Adjudicator enter an order granting leave for Mr. Christopher B. Leahy to appear *pro hac vice* in this proceeding and related settlement efforts as counsel for the KAWUA and its members.

Respectfully submitted this 7th day of February, 2003.

October 27, 2006

Oregon Water Resources Department
Teri Hranac, OWRD
725 Summer Street, N.E., Suite "A"
Salem, Oregon 97301

Dear Ms. Hranac,

This letter is written to notify the Oregon Water Resources Department that the Klamath Water Allottees Association is no longer being represented by our Attorney Chris Leahy, of Fredericks, Pelcyger & Hester LLC law firm, effective as of April 13, 2006. I apologize for the delay in relaying this information to you.

Some of our Allottees may have already contacted you either in writing or verbally and informed you of the address to which they would like any and all future information sent to. If they have not, please know that we are making every attempt to contact each of them and inform them that they must complete this very important step.

Thank you,

RE: Klamath River Adjudication
Indian Allottee Claims

Dear Mr. White:

We have received and reviewed your January 23, 1991 letter and your proposed PIA claim form. In addition, we have taken careful note of your oral comments to Reed Marbut and Steve Sanders.

William Young has asked me to respond to your request for an extension of our February 1, 1991, Klamath River adjudication claim filing deadline. It is our understanding that you have requested an extension to permit your clients to submit portions of their claim information and fee payment after our February 1, 1991 claim deadline without waiving or otherwise jeopardizing their water rights in the Klamath Basin.

We are willing to grant you an extension to the February 1, 1991 Klamath claim filing deadline under the following conditions:

1. February 1, 1991 Base Claim.

For each of your Klamath Indian allottee client claimants you will present the following data to the Oregon Water Resources Department, in Salem, Oregon, on or before February 1, 1991:

- 1.1 Name, address and telephone number of claimant;
- 1.2 The source(s) of water claimed;
- 1.3 Purpose(s) for which the water is used or claimed;
- 1.4 The amount of water used or necessary for each claimed use in acre feet per year;
- 1.5 Date of the initiation of the water right (claimed priority date);

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
January 25, 1991
Page Two

- 1.6 Basis of the water right;
- 1.7 A description of the property ownership of the claimant (this may be by reference to an attached map showing ownership boundaries with section, township and range delineation);
- 1.8 A written statement that the claimant qualifies as a PIA claimant in that the claimant is an enrolled member of the Klamath Tribe and is the owner of property which has been in continuous tribal or tribal member ownership since 1864;
- 1.9 A filing fee in the amount of \$30.00 for each allottee claimant.

2. September 1, 1991 Developed Area Data.

For each of your Klamath Indian allottee client claimants you will present the following data to the Oregon Water Resources Department, in Salem, Oregon, on or before September 1, 1991:

- 2.1 A description of the property of the claimant which is currently under irrigation (this may be by reference to an attached map showing boundaries of the irrigated area);
- 2.2 All current actual point(s) of diversion;
- 2.3 Current category(ies) of water use (i.e. irrigation, domestic, etc.);
- 2.4 Current water flow in cubic feet per second of diverted water;
- 2.5 Current exact volume of water expressed in acre feet per year;
- 2.6 Current annual period of use of water;
- 2.7 Current carrying capacity(ies) of water delivery system from point(s) of diversion; and
- 2.8 A filing fee for all currently developed water right(s) based upon the formula set forth in Section 539.081 of the Oregon Revised Statutes.

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
January 25, 1991
Page Three

3. June 1, 1992 Final PIA Claim.

On or before June 1, 1992, you will present to the Oregon Water Resources Department, in Salem, Oregon, the remainder of all claiming information which is necessary and appropriate to verify the as yet undeveloped "practicably irrigable" acreage claim of each of your Klamath Indian allottee client claimants. Each claim must be accompanied with a filing fee pursuant to the formula set forth in ORS 539.081.

The extension granted herein is predicated upon the premise that each filing deadline is met with timely and accurate data and correct fee submittal. The Department makes no representations as to the validity of the information you will be presenting until we have had a chance to review all submittal documents. In addition, it is the Department's position that, should your clients miss a submittal or fee deadline, or present incomplete or inaccurate data, their claims to the waters of the Klamath River and its tributaries would be at risk during the subsequent Oregon Circuit Court adjudication.

I think you will find the conditions for our extension set forth clear and unambiguous; however, if you have any questions, please give either me or Reed Marbut a call.

Yours very truly,

WATER RESOURCES DEPARTMENT

Page Three

3. June 1, 1992 Final PIA Claim.

On or before June 1, 1992, you will present to the Oregon Water Resources Department, in Salem, Oregon, the remainder of all claiming information which is necessary and appropriate to verify the as yet undeveloped "practicably irrigable" acreage claim of each of your Klamath Indian allottee client claimants. Each claim must be accompanied with a filing fee pursuant to the formula set forth in ORS 539.081.

The extension granted herein is predicated upon the premise that each filing deadline is met with timely and accurate data and correct fee submittal. The Department makes no representations as to the validity of the information you will be presenting until we have had a chance to review all submittal documents. In addition, it is the Department's position that, should your clients miss a submittal or fee deadline, or present incomplete or inaccurate data, their claims to the waters of the Klamath River and its tributaries would be at risk during the subsequent Oregon Circuit Court adjudication.

I think you will find the conditions for our extension set forth clear and unambiguous; however, if you have any questions, please give either me or Reed Marbut a call.

Yours very truly,

WATER RESOURCES DEPARTMENT

Re: Klamath River Adjudication
Indian Allottee Claims

Dear Mr. Young:

I am enclosing for filing with the Water Resources Department a number of claims on behalf of individual Klamath Tribal members who are claiming water rights based upon the United States v. Adair, 723 F.2d 1394 (9th Cir. 1983) decision and the Klamath Treaty of October 14, 1864, 16 Stat. 707. Our firm represents 56 individual Klamath Allottees who are filing water rights claims for 91 different parcels of land within the former Klamath Reservation. Attached to this cover letter is an Index listing the individuals and the claims. Enclosed also is Fredericks, Pelcyger & Hester check No. 11991 in the amount of \$2,730.00 to cover the minimum filing fee for the claims. Pursuant to our meeting and discussions, I understand that the minimum fee of \$30 per claim applies on a per parcel basis. Thus we have taken the total number of non-contiguous parcels (91) and multiplied that figure by \$30 to arrive at the amount of \$2,730.00.

As I mentioned to you at our meeting, and before that in our conference call of December 19, 1990, my clients are paying this minimum filing fee under protest. The water rights being claimed derive directly from the Klamath Treaty of 1864 and are therefore trust or restricted property interests. See, Adair, 723 F.2d at 1407-1419. As such, these property rights are protected from abrogation, alienation, encumbrance, taxation or anything that would cause the loss or diminution of such rights absent express consent from Congress. McClanahan v. Arizona State Tax Commission,

Mr. William H. Young
January 30, 1991
Page 2

411 U.S. 164 (1973); and Menominee Tribe v. United States, 391 U.S. 404 (1968). The court in Adair discussed the possible application of state law and state water law in particular to the Tribe's and the individual Tribal members' reserved water rights. In limiting the application of state law, the court held that Congress intended Section 14 of the Klamath Termination Act, 25 U.S.C. § 564m to be read broadly to protect and preserve the Tribe's and its individual members' reserved water rights. Therefore, it did not accept the State's argument that all Oregon water law would apply to those rights. 723 F.2d at 1416. We believe that the requirement in O.R.S. § 539.081 for payment of fees as a requirement for filing claims should not be applied to the Klamath Allottees' claims to the extent that those claims are found to be based upon the 1864 Treaty since application of that provision of Oregon water law violates the provision in Section 14 of the Klamath Termination Act that "nothing [in the Act] shall abrogate any water rights of the Tribe and its members." 723 F.2d at 1416 (emphasis added). There is no federal statute that I know of authorizing the assessment of such a fee. The effect of the filing fee is to encumber the Klamath claimants' water rights and to threaten such rights with being forfeited by failure to pay the fee. To that extent, the fees are much the same as a tax on trust property which is not permitted by law.

We therefore request that you refund the fees and permit us to file the claims without payment of these minimum fees and any other filing fees under O.R.S. §539.081.

In all other respects, as you can see from our claims, the information being submitted conforms to the agreement that we have reached as memorialized in your letter of January 25, 1991 that responded to my letter of January 23, 1991. Assuming that we will be required to pay fees, we will pay additional fees for developed lands when we make our September 1, 1991 filing. All remaining fees will be paid on or before June 1, 1992, the date our final claims are due.

As I mentioned to Reed Marbut of your office today, one of the partners in our firm, Daniel Hester, is admitted to practice in the State of Oregon. This satisfies the requirement for association with local counsel. However, in addition, we will seek to find Oregon local counsel in Salem.

I trust that these filings meet with your requirements. Please call if you have any questions or need any further

Re: Klamath River Adjudication
September 1, 1991 Filing of the
Klamath Indian Allottees

Dear Mr. Young:

Pursuant to our January 25, 1991 Stipulation, as amended, I am enclosing for filing with the Oregon Water Resources Department the "Developed Area Data" that we have agreed to provide to you on or before September 1, 1991. You will find enclosed with this letter completed, signed and notarized claim forms for 53 "Owners" for 78 parcels of property. We are submitting the amount of \$7,026.76 by separate letter as the filing fee for this second phase of our filing as provided in our Stipulation. The filing of this fee is made subject to the objection and legal authorities cited in our previous filing by letter of January 30, 1991.

You will note that in our February 1, 1991 filing we identified 56 property owners and 91 parcels of property. This reduction in claimants and in the number of parcels claims is due to a variety of factors listed below: parcels having been sold, parcels no longer being claimed by the owners, consolidation of parcels that are actually contiguous, consolidation where the same parcel was being claimed by different claimants, duplication of names, a claim withdrawn because it was located outside the basin, etc.

RECEIVED

SALEM, OREGON

Mr. William H. Young
August 30, 1991
Page 2

The following corrections, additions and deletions to our original Index list dated January 30, 1991 are reflected on the enclosed up-dated list dated August 28, 1991.

Owner No. 02 2 properties are now shown instead of 4. The 2 eliminated properties were sold.

Owner No. 04 Eliminated. Oscar Anderson is the same as O.T. Anderson.

Owner No. 06 2 properties are now shown instead of 1. The original information given to us by the claimant was erroneous.

Owner No. 07 1 property is now shown instead of 3. 1 parcel is being eliminated and will not be claimed. 2 parcels are now being claimed by Aaron Smith. (See Owner No. 43A.)

Owner No. 11 Eliminated - property sold.

Owner No. 14A 1 parcel shown. 1 parcel sold and claim withdrawn.

Owner No. 18 Claim withdrawn - located outside of basin.

Owner No. 21 2 parcels now claimed instead of 4. 1 parcel now claimed solely by Kathleen Hatcher (Owner No. 20). 4 parcels are actually continuous with each other.

Owner No. 25 1 parcel now claimed instead of 2. 1 parcel sold.

Owner No. 26 Claim withdrawn - property sold.

Owner No. 29 2 properties now claimed instead of 1. Owner has identified an additional 1 acre parcel.

Owner No. 31 2 parcels now shown instead of 3. 2 parcels are actually contiguous with each other.

Owner No. 35 1 parcel now shown instead of 2. The parcels are actually contiguous with each other.

Owner No. 36 The 4 parcels claimed under Jerry Parrish are now shown under Owner No. 27 (Ernestine Kirk and Jerry Parrish)

PRELIMINARY

SEP - 3 1991

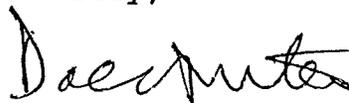

WATER RESOURCES DEPT.
JANUARY, OREGON

Mr. William H. Young
August 30, 1991
Page 3

- Owner No. 40 Please note that we have not included a claim form for this property owner, Raymond Royse. Mr. Royse has indicated to us that he would like to rely upon the filing that he previously made directly with the Department for his base claim and developed land claim. Mr. Royse is still claiming as part of the Association and as one of our clients; and we have therefore included a filing fee on his behalf. We may supplement Mr. Royse's original filing with regard to his PIA claim when we make our June 1, 1992 claim.
- Owner No. 43 1 parcel now claimed instead of 2. 1 parcel is now claimed by owner No. 43A.
- Owner No. 43A Aaron Smith has been added as a claimant for 3 parcels. 2 were previously claimed by Ed Case (Owner No. 7) and 1 was claimed by Veld Smith, et al. (Owner No. 43).
- Owner No. 45 1 parcel now shown. 2 parcels are actually contiguous.
- Owner No. 46 3 parcels now shown instead of 2. The same acreage is claimed, but 2 of the parcels have been deemed to be non-contiguous.

I trust that this filing meets with your approval pursuant to our January 25, 1991 Stipulation. Please let me know if you have any questions or need further information.

Sincerely,

Dale T. White

Re: Klamath Adjudication
September 1, 1991 Developed Area Data Filing
Payment of Filing Fee

Dear Reed:

I am enclosing a check in the amount of \$7,026.76 made payable to the Oregon Water Resources Department which is the partial filing fee under O.R.S. § 539.081 for our "developed lands" pursuant the Stipulation we entered into on January 25, 1991, as amended. Our Developed Area Data claims are being filed under separate cover this date.

I calculated the amount of \$7,026.76 by taking all of the Allottee "Owners" listed on our revised Index (dated 8/26/91) a copy of which is attached (listed Owner #01 through #51) and applying the formula under § 539.081. I took the total number of acres claimed as "developed" for each of the 78 parcels listed and calculated the fee (\$2 for the first 100 acres and \$1 for all acres in excess). I then subtracted the \$30 minimum fee that was made for each of the parcels. For example, this resulted in \$163.40 for Property No. 1 for Owner #01:

97.6 acres claimed as developed
x \$2.00
= \$193.40
minus \$30.00 minimum fee already paid
= \$163.49 developed claim fee paid for
September 1 filing

I did this calculation for each of the 78 parcels and the totals added up to \$7,026.76 as a grand total.

RECEIVED

SEP - 3 1991

WATER RESOURCES ~~Mr.~~ Reed Marbut
SALEM, OREGON August 30, 1991
Page 2

We originally and initially paid the \$30 minimum filing fee for a total of 91 parcels (\$2,730). Since that filing, we have revised our claims due to the various reasons set forth in the letter enclosing our filing. This has resulted in 13 parcels being eliminated. It would seem to me that we should either receive a refund or a credit of \$390. Please let me know how this should be handled.

Also, in my meetings with individual Allottees, I have discovered that several of them have paid filing fees directly to the Oregon Water Resources Department when they filed their claims by themselves. Mr. Dale Walker (Owner # 48) paid \$342; Lawrence and Ann Hall (Owner #16) paid \$179; and Mr. Raymond Royce (Owner #40) paid a total of \$162. (Copies of receipts for these payments are enclosed). Moreover, I have been told that some or all of the Allottees who are located within the Modoc Point Irrigation District have been assessed by the District for filing fees. \$170 only
DF

I would request that these amounts be refunded to these individuals since through our filings of February 1 and this September 1 filing payment of fees has already been taken care of. Please let me know how we should handle this matter. I would prefer it if you would refund the monies directly to these individuals. With respect to the Modoc Point assessments, is there some way that you can determine whether fees have been assessed and how much, per claimant, has been assessed? I'd appreciate it if you would could provide me with this information.

I appreciate your continued assistance on this matter. Please let me know if there is anything else that you might need.

Sincerely,

Dale T. White

RE: Klamath River Adjudication
Indian Allottee Claims

Dear Mr. White:

Enclosed you will find receipt #70864 for \$2,730 that will cover 91 base claim payments.

We received the properly notarized copies of the Form for Robert Garcia and Snake Harrington and they have been filed. This letter also confirms that two of the claims are in areas that are not covered by our state hydrographic maps.

Sincerely,

Dwight French

CERTIFIED MAIL

William H. Young, Director
Oregon Water Resources Department
3850 Portland Road, N.E.
Salem, Oregon 97310

Attention: Reed Marbut, Manager
Adjudication Section

Re: Klamath River Adjudication
September 1, 1991 Filing of the
Klamath Indian Allottees

Dear Mr. Young:

Pursuant to our January 25, 1991 Stipulation, as amended, I am enclosing for filing with the Oregon Water Resources Department the "Developed Area Data" that we have agreed to provide to you on or before September 1, 1991. You will find enclosed with this letter completed, signed and notarized claim forms for 53 "Owners" for 78 parcels of property. We are submitting the amount of \$7,026.76 by separate letter as the filing fee for this second phase of our filing as provided in our Stipulation. The filing of this fee is made subject to the objection and legal authorities cited in our previous filing by letter of January 30, 1991.

You will note that in our February 1, 1991 filing we identified 56 property owners and 91 parcels of property. This reduction in claimants and in the number of parcels claims is due to a variety of factors listed below: parcels having been sold, parcels no longer being claimed by the owners, consolidation of parcels that are actually contiguous, consolidation where the same parcel was being claimed by different claimants, duplication of names, a claim withdrawn because it was located outside the basin, etc.

RECEIVED

SEP - 3 1991

WATER RESOURCES DEPT.
SALEM, OREGON

Mr. William H. Young
August 30, 1991
Page 2

The following corrections, additions and deletions to our original Index list dated January 30, 1991 are reflected on the enclosed up-dated list dated August 28, 1991.

Owner No. 02 2 properties are now shown instead of 4. The 2 eliminated properties were sold.

Owner No. 04 Eliminated. Oscar Anderson is the same as O.T. Anderson.

Owner No. 06 2 properties are now shown instead of 1. The original information given to us by the claimant was erroneous.

Owner No. 07 1 property is now shown instead of 3. 1 parcel is being eliminated and will not be claimed. 2 parcels are now being claimed by Aaron Smith. (See Owner No. 43A.)

Owner No. 11 Eliminated - property sold.

Owner No. 14A 1 parcel shown. 1 parcel sold and claim withdrawn.

Owner No. 18 Claim withdrawn - located outside of basin.

Owner No. 21 2 parcels now claimed instead of 4. 1 parcel now claimed solely by Kathleen Hatcher (Owner No. 20). 4 parcels are actually continuous with each other.

Owner No. 25 1 parcel now claimed instead of 2. 1 parcel sold.

Owner No. 26 Claim withdrawn - property sold.

Owner No. 29 2 properties now claimed instead of 1. Owner has identified an additional 1 acre parcel.

Owner No. 31 2 parcels now shown instead of 3. 2 parcels are actually contiguous with each other.

Owner No. 35 1 parcel now shown instead of 2. The parcels are actually contiguous with each other.

Owner No. 36 The 4 parcels claimed under Jerry Parrish are now shown under Owner No. 27 (Ernestine Kirk and Jerry Parrish)

RECEIVED

SEP - 3 1991

WATER RESOURCES DEPT.
SALEM, OREGON

Mr. William H. Young
August 30, 1991
Page 3

Owner No. 40 Please note that we have not included a claim form for this property owner, Raymond Royse. Mr. Royse has indicated to us that he would like to rely upon the filing that he previously made directly with the Department for his base claim and developed land claim. Mr. Royse is still claiming as part of the Association and as one of our clients; and we have therefore included a filing fee on his behalf. We may supplement Mr. Royse's original filing with regard to his PIA claim when we make our June 1, 1992 claim.

Owner No. 43 1 parcel now claimed instead of 2. 1 parcel is now claimed by owner No. 43A.

Owner No. 43A Aaron Smith has been added as a claimant for 3 parcels. 2 were previously claimed by Ed Case (Owner No. 7) and 1 was claimed by Veld Smith, et al. (Owner No. 43).

Owner No. 45 1 parcel now shown. 2 parcels are actually contiguous.

Owner No. 46 3 parcels now shown instead of 2. The same acreage is claimed, but 2 of the parcels have been deemed to be non-contiguous.

I trust that this filing meets with your approval pursuant to our January 25, 1991 Stipulation. Please let me know if you have any questions or need further information.

Sincerely,

Dale T. White

CONSULTING ENGINEERS

Civil, Environmental, and Water Resources Consultants

September 17, 1991

Mr. Dwight French
Oregon Water Resources Department
3850 Portland Road N.E.
Salem, Oregon 97310

Reply To:

Dear Mr. French:

Enclosed please find a floppy disk containing the information sent to the Water Resources Department on the Developed Area Data Forms prepared by NRCE and Mr. Dale White. There are 2 database files:

- ALLOTTEE.DB Name, address, phone, enrollment number, etc. for each of the Klamath Tribal Allottee claims.

- QUARTERS.DB Descriptions of area and irrigated area for parcels. Breakdown to 40 acre quarter quarter location.

There are also 2 companion files which will not affect anything you do as far as creating reports. The QUARTERS.VAL file is a field range specification that limits acceptable values for certain fields in the database. I can't recall what the ALLOTTEE.PX does, though it may be related to the recent linking of the files, and I thought it couldn't hurt to include it as well.

I hope everything goes smoothly. If you have any questions, or if I can provide anything else, please feel free to contact me.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS

Ed Maurer

RE: Klamath River Adjudication
Indian Allottee Claims

Dear Mr. White:

Enclosed please find receipt #78235 for \$7,026.76.

We are calculating a refund that will include both an overpayment on the developed acreage claim and a refund on 13 initial claims that you have decided not to pursue.

Please don't hesitate to call if there is anything I can help you with.

Sincerely,

Dwight French
Adjudication Section

RE: Allottee Claims, Field Inspection Reports for Ed Mauer

This morning I received a call from Ed Mauer. He is doing some engineering work for the Dale White/Allottee claimants. He had heard that we had some field work data collected from site visits for some of the allottee claimants. I explained what I might have. He wanted the copies of the Field Inspection Reports (F.I.R.'s) that dealt with any of the property covered by their Allottee claimants.

He was going to be at the tribal offices for a Thursday evening meeting and then have a work session (Friday ?) for their developed acreage identification due Sept. 1. He indicated that they were having trouble with capacities of ditches, pump identification/rating, etc. He said that they didn't have any surveying equipment with them when they made their site inspections earlier this year and so their measurements were rough and could thus benefit from any info we had.

Tracy and I first went through the allottee files to get a list of the Notice of Intent names. We then copied the F.I.R.'s and identified them with the allottee claimant file numbers. Not all of the property claimed by the indians had a F.I.R. done since some of their property boundaries have no property developed on them. Unfortunately, since Ed wanted them express mailed out of Salem on Thurs. afternoon, Tracy and I were unable to do a careful and complete search.

Re: Refund of Filing Fees

Dear Mr. Young:

As you know, the U.S. District Court, Oregon has issued its Opinion in U.S. v. State of Oregon, et al., Civil No. 90-1329-FR, September 30, 1991. I direct your attention to pages 31-33 of the Opinion dealing with the payment of filing fees under O.R.S. 539.081 by the Klamath Tribe. (A copy of that portion of the Opinion is attached for your convenience.)

The District Court holds that the State of Oregon may not impose its filing fee upon the Tribe as a condition to the Tribe claiming its 1864 Treaty water rights for hunting, fishing, gathering and other reserved uses including agriculture. The Court's decision is based upon well-established law (Menominee Tribe v. United States, 391 U.S. 404 (1968); and Tulee v. Washington, 315 U.S. 681 (1942)) that rights derived from treaties cannot be abrogated, absent express federal legislation.

Thus far, our clients, the Klamath Allottee Water Users Association have paid to the State Water Resources Department \$9,756.76 in filing fees in the Allottees filings dated January 30, 1991 and August 30, 1991. As stated in the cover letter with our filings, the Allottees are paying these fees under protest. As stated in our January 30 letter:

The water rights being claimed derive directly from the Klamath Treaty of 1864 and are therefore trust or restricted property interests. See, Adair, 723 F.2d at 1407-1419. As such, these property rights are protected from abrogation, alienation, encumbrance,

Mr. William Young
November 1, 1991
Page 2

taxation or anything that would cause the loss or diminution of such rights absent express consent from Congress. McClanahan v. Arizona State Tax Commission, 411 U.S. 164 (1973); and Menominee Tribe v. United States, 391 U.S. 404 (1968). The court in Adair discussed the possible application of state law and state water law in particular to the Tribe's and the individual Tribal members' reserved water rights. In limiting the application of state law, the court held that Congress intended Section 14 of the Klamath Termination Act, 25 U.S.C. § 564m to be read broadly to protect and preserve the Tribe's and its individual members' reserved water rights. Therefore, it did not accept the State's argument that all Oregon water law would apply to those rights. 723 F.2d at 1416. We believe that the requirement in O.R.S. § 539.081 for payment of fees as a requirement for filing claims should not be applied to the Klamath Allottees' claims to the extent that those claims are found to be based upon the 1864 Treaty since application of that provision of Oregon water law violates the provision in Section 14 of the Klamath Termination Act that "nothing [in the Act] shall abrogate any water rights of the Tribe and its members." 723 F.2d at 1416 (emphasis added). There is no federal statute that I know of authorizing the assessment of such a fee. The effect of the filing fee is to encumber the Klamath claimants' water rights and to threaten such rights with being forfeited by failure to pay the fee. To that extent, the fees are much the same as a tax on trust property which is not permitted by law.

January 30, 1991 letter, pp.1-2.

Judge Frye's September 30 ruling provides direct support for our protest. The Allottees' water rights are reserved under the very same 1864 Treaty as the Klamath Tribe's. There is nothing about the Allottee's rights that can distinguish them from the Tribe's rights for purposes of the filing fee.

Since our filing in January, in which we provided legal authority supporting our protest, we have received no decision from

Mr. William Young
November 1, 1991
Page 3

the State on our protest. We would appreciate a response on this matter so that we can either have our funds returned or know the basis upon which you believe that you can validly impose such fees.

Thank you for your assistance. Please call if you have any questions.

Sincerely,

Dale T. White

RE: Klamath Adjudication Indian Allottee Claims

Dear Mr. White,

In 1991 and 1992, you submitted a number of claims to water rights for successors to Klamath Indian Allottees. The Department is now in the process of reviewing these claims for completeness and quantification of uses.

During our ongoing review, we have found that the Allottee claims lack certain information. Enclosed, please find individual letters for each of these claims identifying the needed information. In a few cases, we have been informed that properties were sold. In cases where properties have been sold (claims 234, 264, 274, 275, and 697), we have requested the needed information from the claimant directly, or from their authorized agent; copies of these letters are also enclosed for your reference.

In addition to the claim-specific information requested in the enclosed letters, we have also found that there is some information needed which is general in nature:

1. A list of the claimants that you currently represent. For your reference, attached is a list of the claims you filed. The leftmost column of the list contains claim numbers that have been assigned by the Department (this number is different than previous file numbers that may have been used). The listing also includes the current status of the file, which is based on information you previously supplied. Please use these claim numbers when referring to individual claims.
2. Of those claimants with active claims that you currently represent, please provide updated ownership or address information. (Note: We are already aware of some changes. These are noted on the attached list.)
3. These claims were signed by you as agent for the claimants. In your October 20, 1992 letter, you indicated that copies of the claimants' authorizations of your agency are available upon request. Please send copies of these authorizations for all claims, even if you no longer represent the current owners.
4. A number of claims include "domestic water." Some of these claims specify that this is for lawn and/or garden irrigation; other claims indicate only that it is for irrigation, without specifying what

is being irrigated. Are you using this term to describe irrigation uses that are closely associated with domestic use (i.e. lawns, gardens, landscaping) and that are different than the other irrigation uses claimed *in every case*? Please clarify.

If you are using this term to describe irrigation uses that are closely associated with domestic use (rather than commercial crop or pasture irrigation), then please provide the following for each claim that includes "domestic water."

- ❖ The source, as well as the stream or river into which it flows.
- ❖ The rate of water that is used.
- ❖ The point of diversion location by township, range, section, and quarter-quarter (or government lot, where government lots exist).
- ❖ The location of the place of domestic use by township, range, section, and quarter-quarter (or government lot, where government lots exist).
- ❖ A detailed description of the diversion and delivery system, including the following:
 - ❖ For each pump in the delivery system, describe the following: the type and horsepower of the pump, the lift from the source to the pump, the lift from the pump to the place of use, the size and type of any pipelines, the size and number of sprinkler heads, and the operating pressure.
 - ❖ If the pump discharges into a ditch, or if the diversion is a ditch, provide the top and bottom width and the depth, the material the ditch is constructed of, the slope of the ditch, and the carrying capacity of the ditch.
- ❖ A map prepared by a Certified Water Right Examiner which shows the location of the point of diversion, the location of the home, and the location of any permanent pipelines or other conveyance structures. It should also meet all other mapping requirements.

Because we are reviewing and evaluating these claims in anticipation of Open Inspection this Fall, we ask that you provide this information as soon as possible. However, we realize that the information being requested is extensive. If you need any additional information, we will attempt to assist in any way we can.

If you have any questions, please feel free to call me at 503-378-8455, extension 318, or Gerry Clark at extension 295.

Sincerely,

Mr. Cory C. Engel
Adjudication Specialist

²³⁴ Property has been sold to T.C. & Sue Littlejohn, Trustees; Littlejohn Living Trust, 32110 Modoc Pt. Rd., Chiloquin OR 97624.

²⁴⁷ OWRD has been informed that our address of record is incorrect; we do not have a correct address on file.

²⁶⁴ Property has been sold to James & Valerie Root, 216 Mariposa Terrace, Medford OR 97501.

²⁷⁴ Property has been sold to T.J. Lindbloom & Tim Cummins, dba Conifer Timber, PO Box 298, Roseburg OR 97470.

²⁷⁵ Property has been sold to Elwood Miller Jr. & Rachel Miller, PO Box 274, Chiloquin OR 97624.

⁶⁹⁷ Portion of property (TL 1400) has been sold to Richard W Graham, 475 Kaer Ave., Red Bluff CA 96080.

⁶⁹⁷ Remainder of property (TL 1401) has been sold to Allan & Irene Klus, 4785 Onyx Dr., Klamath Falls OR 97603.

INTEROFFICE MEMORANDUM

Oregon Water Resources Department
Adjudications Section

TO: Reed Marbut
FROM: Dwight French
DATE: January 24, 1992
RE: Allottee Claimant explanations

This report attempts to follow the Klamath Basin Adjudication allottee claiming history from February 1, 1991 to today.

FIRST STEP - FEBRUARY 1, 1991 - BASE CLAIM

Dale White is the attorney that is representing the Klamath Allottee's and works for Fredericks, Pelcyger & Hester, a law firm based in Boulder, Colorado. Mr. White's cover letter that arrived with the first batch of claims at the first step of the claiming process stated that they were submitting 91 claims on behalf of 56 Klamath Allottee's. After counting the claims we determined that there were 56 claimants but just 90 claims. A check was received in the amount of \$2,730 and a receipt was returned to Mr. White. At this point there was an overpayment of \$30.

On March 11, 1991 an additional claim was received from Dale White in behalf of Allen K. Nelson. A check for \$30.00 arrived with the claim and was held but not processed since there had earlier been a \$30 overpayment. The check was returned personally to Dale White during his July 23, 1991 visit to OWRD. This brought the total to 57 claimants and 91 claims. At this point the fee amount was in balance.

This list represents the first 57 allottee claimants and the number of claims filed for each.

SECOND STEP - SEPTEMBER 1, 1991 - DEVELOPED AREA DATA

On September 3, 1991 we received from Dale White 78 developed area data claims. This was a drop from the above listed 91 base claims. Below is an explanation of how the number of claims dropped from 91 to 78 and then rose to 83. (The small bold numbers in the far right column of the list above corresponds to the explanation below.)

1. Owner I-2 (W-02) Two of the four properties were sold.
91 to 89 claims
2. Owner I-4 (W-04) and I-3 (W-03) These two claims are now claimed under I-3. Oscar Anderson is the same as O.T. Anderson.
89 to 89 claims
3. Owner I-7 (W-06) Two properties will now be claimed under Pricilla Bettles instead of one.
89 to 90 claims
4. Owner I-8 (W-07) Dale White's explanation is confusing. Two of these three claims are being switched to Aaron Smith. Mr. White states on page 2 of his August 30 letter that another of the three claims is being eliminated and will not be claimed and thus W-07 now has just one property. I assume no claim is being eliminated since one claim for this owner was submitted under step two of the claiming process.
90 to 88 claims (Two claims will be added back in at explanation 19)
5. Owner I-13 (W-11) This property was sold.
88 to 87 claims
6. Owner I-17 (W-14A) One of the two properties was sold.
87 to 86 claims
7. Owner I-21 (W-18) This claim, in the name of Snake Harrington, was withdrawn after it was determined to be located outside the Klamath Basin Adjudication boundary.
86 to 85 claims
8. Owner I-24 (W-21) Two claims are now being claimed instead of four. One of the eliminated claims was previously claimed also by owner number I-23 (W-20) and is now solely claimed by I-23 (W-20). Two of the original four claims

were found to be contiguous.

85 to 83 claims

9. Owner I-29 (W-25) One of the two properties was sold.

83 to 82 claims

10. Owner I-30 (W-26) This property was sold.

82 to 81 claims

11. Owner I-33 (W-29) One property was added after the claimant identified an additional 1 acre parcel.

81 to 82 claims.

12. Owner I-35 (W-31) Two properties are now shown instead of three after it was found that two of the properties were contiguous with each other.

82 to 81 claims

13. Owner I-40 (W-35) One property is now shown instead of two after it was found that the two properties were contiguous with each other.

81 to 80 claims

14. Owner I-41 (W-36) These four claims are now shown under owner I-31 (W-27). Previously, similar properties were being claimed by both owners.

80 to 76 claims

15. Owner I-44 (W-40) This note is to highlight the fact that the data used for this claim is that data which Mr. Royce filed himself directly with the department. His original claim is with the Klamath Basin regular claims in file area 30-11.

76 to 76 claims

16. Owner I-48 (W-43) One property is now shown instead of two. One claim is now being claimed by Aaron Smith I-58 (W-43A).

76 to 75 claims

17. Owner I-45 (W-49) One property is now shown instead of two after it was found that the two properties were contiguous with each other.

75 to 74 claims

18. Owner I-51 (W-46) Three properties are now shown instead of two after it was found that one of the earlier identified properties should be claimed as two separate properties. The same acreage is claimed.

74 to 75 claims

19. Owner I-58 (W-43A) Arron Smith was added as a claimant for three properties. Two of the properties came from (W-07) and one from (W-43).

75 to 78 claims

The claims for owners #59 (W-33A) and #60 (W-37A) under the names Florence McKee and Mary Nan Reyes were submitted after the deadline for the 2nd step. A single claim in the name of Florence McKee was received from Dale White on November 1, 1991. Four claims in the of Mary Nan Reyes were received on December 27, 1991. Adding these five claims to the 78 listed above brings the total to the current number of 83 claims. With the exception of owners #59 and 60, these developed acreage claims were Properties as of January 23, 1992

Following is the current list of the allottee claimants and the number of properties claimed by each. All of the following claims, except those for owners #59 (W-33A) and #60 (W-37A), were received by our Department on September 3, 1991.

Claims							
83		TOTALS	4911.18	\$	8,660.06	\$	6,170.06

As mentioned earlier, five property claims, noted by here by * and **, were received late. We are reviewing the implications of the late filing.

We have inspected 13 of the 20 properties that had more property claimed as developed then was mapped by our department and found some of the acreage claimed as developed to be non-developed. At this point, no fee re-calculations have been done. I doubt if a refund will be made on acres that were claimed to be developed but eventually denied.

RE: Klamath Allottee Claims

Dear Dale:

This letter is intended to serve as a summary account of our March 16, 1992 claim preparation discuss. Present at the meeting were:

Dale T. White (Attorney for Klamath Allottees)
Woldezion Mesghinna (Klamath Allottee Consulting Engineer)
Steve Sanders (Oregon Assistant Attorney General)
Reed Marbut (OWRD - Adjudication Manager)

In addition, Don Knauer of the OWRD was present to discuss stream flow measurement in the Klamath Basin.

The following subjects were discussed:

1. Current claim schedule: The original "notice" claims were submitted prior to February 1, 1991. The "developed area" claims were submitted on time before September 1, 1991, and the "PIA - future development area" claims are due June 1, 1992.
2. BIA Funding Status: Dale and Wold described the status of the Bureau of Indian Affairs funding. It seems the BIA has approved certain funding, but has not approved complete funding of some of the claim preparation expenses. Dale suggested that a letter from the OWRD setting out the technical requirements associated with a PIA claim could help support their BIA funding solicitation.
3. PIA Claim Standards: Steve and Reed described a few of the categories of technical data necessary to verify a PIA claim. Such data as (1) natural stream flow, (2) soil characteristics, and (3) production economics were discussed.

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
March 17, 1992
Page Two

4. Chain of Title Statement: Dale stated that they intend to submit a title report, prepared by a Klamath County title firm, to satisfy the "chain of title statement" requirement of OAR 690-28-026(3). This statement will verify tribal status of prior owners - from the date of allotment. In addition, Dale has prepared individual "tribal enrollment" statements for each of his allottee clients.
5. Claim maps: Reed stated that we would need more accurate maps submitted with the final "PIA" claim forms. The maps submitted with the "developed area" claims were hard to use due to the types of lines drafted on the maps. Reed and Steve agreed that the OWRD maps could be used as base maps for the claims; however, the use area designations must be more accurately drawn. Acreage designations must be set out in each 40 acre ($\frac{1}{4}$ - $\frac{1}{4}$) parcel. (See OWRD Klamath water use maps.) Lastly, the maps must be prepared and signed by a registered surveyor or engineer.
6. Water Availability Data: Reed agreed that OWRD would provide to Wold all stream flow and other water availability data we can uncover. This will include staff-gauge reading data, well monitoring information, the University of Arizona hydrologic report prepared in 1981, and the Water Supply section of the Oregon Water Resources Board "Klamath Basin Report" prepared in 1971. Reed gave Wold copies of George Robison's report titled "Water Availability of Oregon's Rivers and Stream."
7. Allottee Claim Discrepancies: Don Knauer described discrepancies he found during field inspections of several of the allottee claim properties. Don will provide copies of his inspection report memoranda to Wold.
8. PIA Claim Deadline: Dale and Wold stated that they did not see how they could meet the June 1, 1992 PIA claim deadline with all the necessary claim information. They agreed that a portion of the information and verifying data would be available by June; however, Dale and Wold feel that a significant amount of the information cannot be generated in time to meet the June 1 filing date. Dale and Wold formally requested an extension of the June 1, 1992 PIA claim deadline.

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
March 17, 1992
Page Three

We all agreed that the basic PIA claim requirement is that "the claimant must show that it is technically and economically possible to develop an irrigation system to serve the land", as set forth in OAR 690-28-026(1). However, in order to get some idea of the categories of information that could be presented by June 1, and the categories for which an extension is sought, we reviewed and grouped the factors set out in OAR 690-28-026(1)(a) through (i).

The following is a breakdown of these categories by 690-28-026(1) designation:

1. Information and data that could be available by June 1, 1992 -
 - (c) Slope of the land
 - (d) Elevation above sea level
 - (e) Growing season (degree days)
 - (f) Natural precipitation
 - (g) Crop types that could be grown

2. Information and data for which an extension is sought -
 - (a) Source and availability of water
 - (b) Soils types and classification
 - (h) Description of the proposed irrigation system
 - (i) Estimated costs of developing the irrigation system

Reed and Steve agreed that the soil type and classification information requirements of our claim form would be met if Wold submitted standard SCS data for each claim parcel. In addition, we agreed that the "technically and economically possible" standard would be met if the claimant showed that the PIA proposed irrigation area was, in all pertinent ways, identical to similarly situated adjacent irrigated acreage.

Finally, Reed agreed to present their request to the Director for an extension of the June 1, 1992 PIA claim deadline. I will delay the formal request until Dale, Wold and Steve have approved this summary.

RE: Klamath Allottee Claim Deadlines

Dear Dale:

This letter will confirm our May 1, 1992 telephone discussion in which I informed you that the Director granted your allottee clients' request for a partial claim filing extension.

This extension is specifically described in my discussion summary letter of March 17, 1992. A copy of that letter is attached for your convenience. Pursuant to that summary, your clients will be expected to submit the preliminary PIA claim information by June 1, 1992; however, the types of information and data described in paragraph # 2 on page 3 of the March 17th letter will not be due until November 1, 1992.

Just to be sure there is no misunderstanding, the minimum claim and map format and standards discussed in the March 17th letter have not changed (e.g., more refined maps, correction of claim discrepancies, chain of title documentation, water availability data, etc.). Please have Wold review the March 17th letter carefully as he is putting together the PIA claims and supporting documentation. In addition, I recommend that you and Wold send us sample information from time to time for review. I'm sure we can help simplify and expedite your claim and map preparation.

If you have further questions or comments, please advise.

Sincerely,

A. REED MARBUT, Manager
Adjudication Section

KLAMATH ALLOTTEES WATER CLAIM

Submittal for June 1, 1992

Item 1 -- Slope of the Land

Slope of the land on a parcel-by-parcel basis is shown in the attached Table 1.

Item 2 -- Elevation above Sea-Level

Elevation of the land on a parcel-by-parcel basis is shown in Table 1.

Item 3 -- Growing Season

Growing Season, with computed degree-days for each of the types of crops that could be grown, are listed below:

Type of Crop	Start Date	End Date	Length Days	Growing Degree Days Degrees F
Pasture Grass	05/03	10/18	169	2093
Alfalfa	05/22	09/29	131	1805
Potatoes	06/12	09/16	97	1458
Sugar Beets	04/26	10/09	167	1670
Spring Grains	05/03	09/16	137	1794

Item 4 -- Natural Precipitation

Natural Precipitation, or mean precipitation is approximately 18.4 inches per year, as measured at the Chiloquin, Oregon climatic station.

Item 5 -- Crop Types that could be Grown

The crop types that could be grown in the region include those listed in the above table of growing season. At individual parcels, crop types may be limited based on soil or other local characteristics.

Table 1

RE: Inventory check for information submitted by White for June 1, 1992 revised deadline.

Today I checked the information received from Dale White on May 29, 1992. Along with his cover letter there are 83 two page pieces. Below is a list of the names for which we received information. As expected, there are several names that have more than one property. The number of properties for each allottee is in the far right column.

OWRD#	WHITE#	NAME	PROPERTIES
1	01	Anderson , Herman/Deborah	2
2	02	Anderson , Norman Miller	2
3	03	Anderson , O.T./Oscar	2
5	05	Anderson , Rena	1
6	05A	Bettles , Gordon	1
7	06	Bettles , Priscilla	2
8	07	Case , Edward Lalo/Cassie Lalo	1

RE: Acreage Summary Reports

Dear Ed,

Enclosed are the acreage summary reports for the Sycan, Williamson and Sprague Rivers and their tributaries. Mary Grainey, the computer person that I tapped to prepare these reports added a few notes to the first page.

I have kept copies so we can discuss these figures if that is necessary.

If you still need more computer information concerning permitted rights, I'll need for you to speak with Mary personally. She is much more knowledgeable than I when it comes to computer data searches from W.R.I.S. (Water Rights Information System).

Your receipt #90474 for \$24.50 is enclosed.

Sincerely,

Dwight French

Re: Klamath Allottees Water Claim - Acreage Summary Report Request (0119)

Dear Mr. French:

As we discussed earlier today, I am requesting that you send me acreage summary reports for the following creeks and rivers. All of these lie within the Klamath Basin. Please do not include groundwater rights in the summary reports.

- 1) Williamson River;
- 2) Sprague River;
- 3) Sycan River;
- 4) Wood River;
- 5) Whisky Creek, tributary to Sprague River;
- 6) Snake Creek, tributary to Sycan River.

In addition, and perhaps more importantly, the following points would provide exactly the information I need by giving acreages upstream of U.S.G.S. gauges of interest:

- 7) Williamson River, just downstream of confluence with Sprague River, at approximate river mile 11.
- 8) Williamson River, near Kirk, at approximate river mile 27.
- 9) Williamson River, downstream of Sheep Creek, at approximate river mile 68.
- 10) Sprague River, near Chiloquin, at approximate river mile 5.
- 11) Sprague River, near Beatty, at approximate river mile 75.
- 12) Sycan River, downstream of Snake Creek, at approximate river mile 3.

RE: Copies of requested information

Dear Dale,

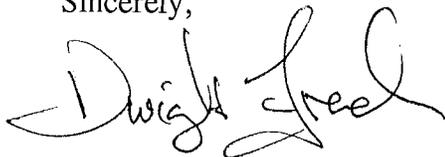

Sorry for the delay in getting you the following:

1. Francis Regular S. & P. of Claim #58
- 2 & 3. Plat Card/water right check for Smith & Hess (I-48 & I-24)
4. Gallagher Claim on database printout
 - " claimed property plat card check
 - " Klamath claim map
 - " copies of Gallagher's overlapping certs. and permits with appropriate maps.

Let me know if there is anything else you need or if there is something in this packet that you need explanation on.

I will be out of the office until July 29, 1992. Until then please feel free to contact Don Knauer if there is anything you need.

Sincerely,

Dwight French

Attention: Reed Marbut
Adjudication Manager

**Re: Klamath Adjudication Statement and Proof of Claims --
Individual Klamath Tribal Members**

Dear Ms. Pagel:

We are enclosing for filing with the Oregon Water Resources Department 78 completed and executed Final Statement and Proof of Claim Forms representing reserved water rights claims for 56 individual members of the Klamath Indian Tribe. Enclosed as well is a check in the amount of \$3,479.64 to cover the filing fee imposed by O.R.S. §539.081.

This filing provides all of the remaining claim information pursuant to a series of Stipulations we have executed with the Oregon Water Resources Department. On February 1, 1991, we provided certain base information identifying the claimants, the source of water claimed, date of initiation of the water right, basis of the right, etc. At that time we paid the minimum filing fee under O.R.S. §539.081. The fee was paid under protest.

On September 30, 1991, we provided additional information concerning the claims. This information identified the property currently under irrigation, all current points of diversion, all

categories of water use, current water flow (in c.f.s.), current exact volume (in acre-feet), current annual period of use of water, etc. We paid a filing fee based upon the number of developed acres pursuant to the formula set out in O.R.S. §539.081. The filing fee was paid under protest.

On June 1, 1992, we provided preliminary information necessary to establish the final portion of our claim, a claim based upon practicably irrigable acres (PIA). This included information on the slope of the Claimants' land, elevation of the land above sea level, growing season (degree days), natural precipitation and the types of crops that could be grown. No filing fee was required for this filing.

Under the most recent Stipulation between the Claimants and the Department, all remaining PIA claim information is to be filed on or before November 2, 1992. This information includes: source and availability of water, soils types and classification, description of the proposed irrigation system and estimated costs of developing the irrigation system. The enclosed "Final Statement and Proof of Claim" for each Claimant includes all of this remaining PIA information. In addition, we have included within the Statements revised and corrected information regarding developed acres based upon our further review of the different parcels.

You will note that each "claim packet" for each claimant includes the following:

1. Statement of Proof of Claim.

For each claim (i.e., parcel) we have prepared a Statement of Proof of Claim which contains:

- (a) a description of the Claimant's parcel;
- (b) the basis for the Claimant's reserved water rights claim;
- (c) proof that Claimant is an enrolled member of the Klamath Tribe;
- (d) a statement that the parcel has not had more than five years of consecutive non-Indian ownership;
- (e) the purpose for which the water rights are being claimed;

(f) reference to a report prepared by a registered engineer for each parcel establishing a claim for practicably irrigable acres (which includes a map, soil information and a legal description of the property); and

(g) the amount of the remaining filing fee under O.R.S. §539.081 for each parcel which is being paid under protest.

The Statement and Proof of Claim is signed by myself as agent and attorney for the individual Klamath members and duly notarized. (I have on file signed consent forms for individual Claimants that you are welcome to examine if that is required.)

2. Enrollment Affidavits.

Attached to each Statement of Proof of Claim is an original, notarized and executed Affidavit from the Klamath Tribal Enrollment Office certifying that each claimant is an enrolled member of the Klamath Tribe. (Note that in some instances a Claimant's non-member spouse is included as a Claimant. This, however, does not effect the 1864 treaty right claim by the enrolled member.) There are six certificates that are not originals (JoDean Anderson Bryant, Oskie Anderson Yasana, Orin Kirk, Rayson C. Tupper, Rachel Tupper and Jerry Parrish.) We will be receiving the originals shortly and will be forwarding them to you as soon as we receive them.

3. Title Chain Reports.

We have also enclosed with each claim a Title Chain Report for each parcel prepared by Klamath County Title Company which lists and briefly describes all conveyances of the parcel since the parcel was allotted. We had forwarded to your office one of the Title Reports for review on August 28, 1992. By letter dated September 16, 1992, the format was approved by your office. However, you requested copies of available Klamath Tribal Rolls to cross-check to determine if persons within the title chain were/are enrolled tribal members. Pursuant to your request, we are enclosing copies of the 1932, 1934 and 1957 Klamath Tribal Rolls which we obtained from the Bureau of Indian Affairs in Portland, Oregon. These are, to our knowledge, the only existing Klamath Tribal Rolls.

As I have mentioned to the Department previously, the Title Claim Reports are the best means available to us to document the continuous Indian title to these 78 parcels under the

circumstances. As you will see from the claims, there are literally thousands of title transactions involved. It is entirely possible that there may be instances where there are "gaps" in a particular title claim. We have simply not had the time or financial resources to explore each title report, conveyance-by-conveyance to determine enrollment in a detailed manner. Pursuant to your request, we have, therefore, provided you with the available Klamath Tribal Rolls. If you have questions or concerns after reviewing the title information, we can respond on a case-by-case basis.

4. Reserved Water Rights Claim Reports Prepared by NRCE.

We are enclosing with each claim a report prepared by Natural Resources Consulting Engineers (NRCE) which establishes a reserved surface water rights claim for each Claimant. The report is the result of an investigation, including an on-site field inspection in many instances, of each parcel by NRCE personnel. Included within the report are claims for stockwater, domestic water and irrigation. The irrigation claims are divided into presently irrigated lands and practicably irrigable future lands. The claims for presently irrigated lands should correspond to the figures provided in our September 1, 1991 "developed lands" filing. In several cases we have revised our figures. The PIA irrigation claims have been established following the criteria set out in O.A.R. §§690-28-010(17), 690-28-026(1) and 690-28-040(2). We have also followed the practice and law developed in other Indian water adjudications. Where available, we have utilized existing SCS soils information. For a handful of parcels there was no existing SCS soils information. In those cases we have utilized a certified soils scientist who has conducted an independent study of the soils. (You should note in connection with the soils information that in some of the soils descriptions there is mention of a "frost-free growing season" which may be shorter than the growing season we have identified for alfalfa. This should not be confused with the alfalfa growing season that we are utilizing.)

A summary of each Claimant's water claim is included within the NRCE report. Also attached, where relevant, are sections of the relevant SCS soils survey and a legal description for each parcel. (In some cases you will note that the legal description may be slightly revised based upon our review of the title chain reports.)

5. Filing Fees.

We are enclosing a check in the amount of \$3,479.64 as payment of the remaining filing fees that are required under O.R.S. §539.081. Attached to this letter is a list of all Claimants showing the filing fees due for Claimant. We are paying this fee under protest for the reasons stated in our previous correspondence on this matter. (See, letter to William H. Young date January 30, 1991.)

Please note, as we have previously discussed, that three claimants Mr. Dale Walker (Owner No. 48), Mr. Lawrence Hall (Owner No. 16), and Mr. Raymond Royse (Owner No. 40) have paid filing fees directly to the Oregon Water Resources Department. In previous correspondence your office has acknowledged these payments and we have discussed the possibility of the Department issuing refund checks to these claimants. Once your office has made a determination that all required filing fees have been paid for these Claimants, it would, in our opinion, be appropriate for such refund checks to be issued directly to the above named claimants. Please let us know if you believe that this is appropriate.

6. Withdrawn Claims/Refunds/Credits/Overpayment.

You will also note that we have withdrawn claims for several allottee parcels. These are:

- Owner No. 13, Property No. 01;
- Owner No. 29, Property No. 02;
- Owner No. 30, Property No. 06; and
- Owner No. 46, Property Nos. 01 and 02.

In the case of Owner No. 13, Property No. 01, the parcel was recently sold. For Owners No. 29 and No. 30, we were unable to substantiate a water rights claim. In the case of Owner No. 46, Properties No. 01 and 02, these properties were lost through a bankruptcy proceeding. In view of these facts we are formally withdrawing these claims. One hundred and twenty dollars (\$120.00) was paid for these claims as minimum filing fees. For Owner No. 29, Property No. 01, a fee was paid of \$989.60. We have deducted this total amount of \$1,114.55 from the total amount due.

In the case of Owner No. 32, Property 01 and Owner No. 34, Property No. 01, we have overpaid \$5.00. We have deducted this amount as well. As you will recall, when we paid our fees for

Ms. Martha Pagel
October 30, 1992
Page 6

developed lands in September of 1991, we overpaid in the amount of \$856.70. We have also deducted this amount from our fees. The result is \$3,479.64 paid as fees, paid under protest.

We trust that the information contained herein and in each of the individual claims satisfies the requirements under the Oregon State statute and regulations applying to Indian reserved water rights claims.

If you have any questions or need any information, please feel free to contact us. Thank you for your assistance.

Sincerely,

Dale T. White

25 The Plaintiff-Intervenors, the Klamath Allottee Water Users
 26 Association (KAWUA), and the Defendants, State of Oregon, Water

1 Resources Department and Martha O. Pagel, its Director, hereby
2 enter into this Stipulation for Settlement which disposes of all
3 remaining claims in the above captioned action, United States,
4 et al v. State of Oregon, et al. (Civil No. 90-1329 FR.)

5
6 **RECITALS**

7 WHEREAS, pursuant to Judgment entered by the Court, all
8 claims have been resolved in this action with the exception of
9 the claims brought by the Plaintiff-Intervenor KAWUA;

10 WHEREAS, the KAWUA's claims have been remanded to this Court
11 for resolution;

12 WHEREAS, the remaining parties, the KAWUA and the Defendant,
13 State of Oregon, Water Resources Department, and Martha O. Pagel,
14 its Director, desire to settle and resolve the dispute concerning
15 payment of filing fees;

16 NOW, THEREFORE, in consideration of the mutual promises and
17 covenants contained herein and other good and valuable
18 consideration, receipt of which is hereby acknowledged, the
19 parties hereby agree as follows:

20 **AGREEMENT**

21 1. The parties agree that Plaintiff-Intervenors KAWUA have
22 paid filing fees to the Defendants pursuant to Or. Rev. Stat.
23 § 539.081 under protest in the aggregate amount of \$13,236.40 for
24 all claims of KAWUA members.

25 2. The parties agree that in settlement of this action and
26 without deciding its merits the Defendants shall refund to the
KAWUA the amount of \$6,056.50, which represents one-half of the

1 total amount paid under protest for claims to land still owned by
2 KAWUA members.

3 3. Upon receipt of the refunded fees of \$6,056.50, the
4 KAWUA will agree to file a motion to dismiss its action with
5 prejudice.

6 4. The parties agree that this settlement agreement does
7 not affect the validity of any of the water rights claims filed
8 by individual members of the KAWUA and that those claims,
9 currently on file with the Oregon Water Resources Department,
10 will be evaluated on the basis of their individual merit. The
11 parties agree, however, that no further filing fees shall be
12 required for all of the claims of members of the KAWUA that are
13 currently on file.

14 5. By their signatures below, each party warrants and
15 represents that the party signing on its behalf has been duly
16 authorized to execute this Agreement and to bind the parties
17 thereto.

18 Respectfully submitted this 5 day of August, 1996.

RE: U.S. v. State of Oregon
(Civil No. 90-1329-FR)

Dear Eric and Steve:

Following our telephone conversation last week, when we discussed responding to the Court's Minute Order of January 25, 1996, I checked on the question of where the refunded filing fees would go if, and when, they are refunded to the Klamath Allottee Water Users. I spoke with the Contracting Officer at the Klamath Tribe (the funds are administered under a P.L. 93-638 Contract with the Klamath Tribe) and he informed me that the funds would be considered "income" under the Tribal BIA Grant and could be used by the Tribe under the 638 Contract for other water-litigation related purposes on behalf of the Allottee group. I have checked the BIA regulations on this and agree with that conclusion. The only restriction on the use of such funds is that they be spent on the Klamath Adjudication for the Klamath Allottees. The funds would not be returned to the BIA or the U.S. Treasury.

Having answered that question, I see no reason why I cannot submit a Report to Judge Frye in response to the Court's Minute Order. I have drafted such a Report and a copy of my proposed report is attached. Please review and let me know if you would like me to turn this into a joint report. I am also sending it to John Lange for the United States Department Of Justice.

Please call if you have any questions.

Sincerely,

Dale T. White

The Court has ordered the Parties to provide notice in writing of proceedings which are required on remand from the Ninth Circuit's decision in this action. Minute Order of January 25, 1996.

Undersigned counsel for the Plaintiff-Intervenors, Klamath Allottee Water Users Association (KAWUA), reports that to his knowledge, the only issues remaining before the Court on remand relate to the KAWUA's claim for a refund of filing fees assessed by the Defendants under Or. Rev. St. §539.081 for the filing of KAWUA members' water rights claims. The Ninth Circuit's decision, United States v.

State of Oregon, 44 F.3d 758, 72-773 (9th Cir. 1994) M. OREGON
dismissed the Allottees' appeal based upon the incomplete
factual record regarding the Allottees' claim for a refund
of filing fees. Specifically, the Court stated:

* * *

[I]t is not clear whether members of
the Association are also members of the
Tribe or are non-Indians who acquired
their land from original Indian
allottees.... Nor does the record show
whether the allottees came to have
title to the allotments in fee as a
result of the General Allotment Act, 25
U.S.C. § 331 et seq., or under the
Klamath Termination Act, 25 U.S.C. §
564 et seq.,... Such distinctions may
be important in the eventual
adjudication of the members' rights.

* * *

44 F.3d at 773.

On remand, the Parties will need to address these, and
perhaps other, factual issues.

Respectfully submitted this ___ day of February, 1996.

Re: Klamath Adjudication Indian Allottee Claims

Dear Corey and Reed:

I am in receipt of your letters dated February 19, 1999 addressed to Mr. Dale White. As at least Reed is already aware, Dale has left our firm and I will continue on as the KAWUA's attorney in the Klamath Basin Adjudication. I assure you we are eager to ensure that the OWRD has all of the information necessary for the allottees' claims to be considered complete prior to Open Inspection this fall. In your letters you stated that you realize the information now being requested is extensive and offered that if we needed any additional information you would assist us in any way you can. To be frank, we would like to take you up on that offer.

The KAWUA's engineers, NRCE, and myself are in the process of finalizing our review of the approximately 80 letters you have sent us. It is our hope to get a letter out to you by early next week that would at a minimum do the following things: (1) identify the areas where we feel we need to have some type of discussion with you to better understand what it is you're looking for; (2) identify the areas where we believe we have already provided the

RECEIVED

MAR 11 1999

WATER RESOURCES DEPT.
SALEM, OREGON

Corey C. Engel
Reed Marbut
March 10, 1999
Page 2

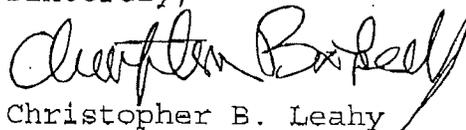

relevant information you are looking for; (3) identify areas where we believe Wold Mesghinna of NRCE, Dale White of my firm, Reed Marbut of OWRD, and perhaps others, had agreed at meetings in the early '90s on what would be necessary to substantiate the allottees' claims (there are a number of items we have identified where we believe there was an agreement with OWRD that that information would not be necessary, or at least not necessary in the form that it is now being requested). It is our hope that our letter will provide you with enough information so that you can adequately prepare for a meeting with Wold Mesghinna and Paul Hamai of NRCE and myself to thoroughly go over your recent requests for more information on the allottee claims. Mr. Mesghinna is out of the country until the 20th of March. Perhaps, if it's not too early for you, and works for Mr. Mesghinna, we could schedule the meeting with you in Salem sometime the week of March 25. This is a self-serving recommendation on my part since I will be in Portland Monday through Wednesday of that week. Of course, I am willing to meet at a date later than that and recognize that since you may not be receiving our letter until sometime mid to late next week you may want some more time prior to the meeting as well.

Finally, I recognize that your letters of February 19 seek a response from us within 30 days (and Mylar or linen maps within 60 days). It is our hope that you will allow us some more time so that we may provide you with the detailed letter mentioned above to help prepare for a meeting that might ultimately define the scope and nature of information that we still need to submit to you, and clarify our understanding of what that is. After discussing your letters with our engineer, I believe that the only way we can adequately respond is if we first have a meeting.

Please give me a call at your earliest convenience to try to set up a date that will be convenient for all of the parties who are necessary for such a meeting and, again, I hope to get a letter or memorandum out to you in the next few days that should help you prepare for the meeting and render it as constructive as possible.

Thank you for your time and consideration. Please do not hesitate to call if you have any questions or comments.

Sincerely,

Christopher B. Leahy

Re: Klamath Adjudication Indian Allottee Claims

Dear Corey and Reed:

I am in receipt of your letters dated February 19, 1999 addressed to Mr. Dale White. As at least Reed is already aware, Dale has left our firm and I will continue on as the KAWUA's attorney in the Klamath Basin Adjudication. I assure you we are eager to ensure that the OWRD has all of the information necessary for the allottees' claims to be considered complete prior to Open Inspection this fall. In your letters you stated that you realize the information now being requested is extensive and offered that if we needed any additional information you would assist us in any way you can. To be frank, we would like to take you up on that offer.

The KAWUA's engineers, NRCE, and myself are in the process of finalizing our review of the approximately 80 letters you have sent us. It is our hope to get a letter out to you by early next week that would at a minimum do the following things: (1) identify the areas where we feel we need to have some type of discussion with you to better understand what it is you're looking for; (2) identify the areas where we believe we have already provided the

Corey C. Engel
Reed Marbut
March 10, 1999
Page 2

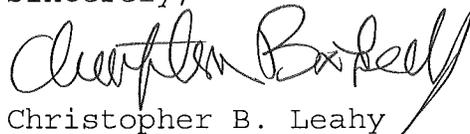

relevant information you are looking for; (3) identify areas where we believe Wold Mesghinna of NRCE, Dale White of my firm, Reed Marbut of OWRD, and perhaps others, had agreed at meetings in the early '90s on what would be necessary to substantiate the allottees' claims (there are a number of items we have identified where we believe there was an agreement with OWRD that that information would not be necessary, or at least not necessary in the form that it is now being requested). It is our hope that our letter will provide you with enough information so that you can adequately prepare for a meeting with Wold Mesghinna and Paul Hamai of NRCE and myself to thoroughly go over your recent requests for more information on the allottee claims. Mr. Mesghinna is out of the country until the 20th of March. Perhaps, if it's not too early for you, and works for Mr. Mesghinna, we could schedule the meeting with you in Salem sometime the week of March 25. This is a self-serving recommendation on my part since I will be in Portland Monday through Wednesday of that week. Of course, I am willing to meet at a date later than that and recognize that since you may not be receiving our letter until sometime mid to late next week you may want some more time prior to the meeting as well.

Finally, I recognize that your letters of February 19 seek a response from us within 30 days (and Mylar or linen maps within 60 days). It is our hope that you will allow us some more time so that we may provide you with the detailed letter mentioned above to help prepare for a meeting that might ultimately define the scope and nature of information that we still need to submit to you, and clarify our understanding of what that is. After discussing your letters with our engineer, I believe that the only way we can adequately respond is if we first have a meeting.

Please give me a call at your earliest convenience to try to set up a date that will be convenient for all of the parties who are necessary for such a meeting and, again, I hope to get a letter or memorandum out to you in the next few days that should help you prepare for the meeting and render it as constructive as possible.

Thank you for your time and consideration. Please do not hesitate to call if you have any questions or comments.

Sincerely,

Christopher B. Leahy

RE: Klamath Adjudication Indian Allottee Claims

Dear Dick:

As promised in my March 10, 1999 letter, here is our initial response to your February 19, 1999 mailings to our office seeking additional information on Klamath Allottee Water Users Association claims. It is our hope that your written requests for more information and this letter will lay the ground work for a meeting in Salem between myself, the KAWUA engineers and OWRD representatives at which we can all develop a better understanding of the status of the KAWUA members' claims and what additional work is necessary to ensure that the claims are complete as possible for Open Inspection and adjudication purposes. We are eager to assist you in this endeavor but believe that a meeting is necessary for us to gain a better understanding of what it is you still need, whether some of the information you request has already been provided and whether OWRD and KAWUA representatives have previously addressed some of the issues raised by your February 19 letters.

Specifically, after a thorough review of your letters our engineers have preliminarily determined that: (a) we have already submitted some of the information you are now requesting; (b) there may be some confusion as to what has or has not been submitted; (c) there may be some confusion about what the OWRD previously agreed would render the allottees' claims complete.

Mr. Dick Bailey
March 16, 1999
Page 2

In this letter I will provide a general summary of how the allottees originally filed their "Statement and Proof of Claim." I will then try to speak to some of the specific points raised in the approximately 80 letters we received. Please understand that it has been over seven years since the claims were put together and submitted. Many of our comments have been developed by going back over documents in files and trying to dust the cobwebs out of the brains of those who were involved at that time. Accordingly, our recollection may not be entirely accurate on some of these issues. It is our hope that a meeting, with both Wold Mesghinna of NRCE and Reed Marbut in attendance (they were involved in the early 90's), will help to clear up any confusion, etc.

The following is a brief summary of the history of the Allottee claims:

- * We filed at least three separate "Statement and Proof of Claim" forms with OWRD prior to the November 1, final filing. These forms contained supplemental information regarding the Allottee claims. We believe that much of the information you are now seeking is contained in these documents. These forms were submitted by Dale White of our firm and should be in your files. Please let us know if you are unable to locate them in your files. The three Statement and Proof of Claim forms are:
 - 1) February 1, 1991- Base claim information including name, address, telephone number, source(s) of water claimed, purpose(s) of claimed water, amount of water necessary for each claimed use, priority date, basis of the water right, location of property by 1/4-1/4 section, and a preliminary map of the property.
 - 2) September 1, 1991- Developed area data including description of property, point of diversion, category of water use, current water flow, current volume of water claimed, period of use, current carrying capacities (pipeline, ditch, pump, motor, irrigation system), and filing fees.
 - 3) June 1, 1992- Preliminary PIA claim information including slope of land, elevation, growing season by crop type,

Mr. Dick Bailey
March 16, 1999
Page 3

natural precipitation, and crop types that could be grown.

* The November 1, 1992 final claims had additional PIA information including source and availability of water, soil types and classification, description of proposed irrigation systems, and estimated costs of developing the irrigation system along with project benefits. Also submitted were "final" maps stamped by Wold Mesghinna (professional engineer) and a summary table of both presently irrigated land and PIA by 1/4-1/4 section. Based on our current understanding of OWRD's February 19 letters, we believe that the three Statement and Proof of Claim forms along with the final claim submittal provide some of the information now being asked for.

Comments On Specific Areas

The following comments and questions refer to OWRD's comments on the point of diversion for livestock watering:

* We are unclear on how to specify the place of use for livestock watering. Is OWRD asking for the specific location of the watering hole or trough?

The following comments and questions refer to OWRD's comments on the point of diversion for existing irrigation:

* We believe we provided just about all of this information in the Statement and Proof of Claim forms. However, we don't think we ever separated out the flow rate for existing irrigation from the flow rate for existing domestic use if they shared the same source. Rather, we listed the claims for each of the uses and gave the capacity of the delivery system. We should talk about whether you need this separation since separating out the flow rates would be somewhat difficult to do, though we may be able to agree on a way to come up with some type of educated guess.

The following comments and questions refer to OWRD's comments on PIA:

* Most of this information is in the Statement of Proof of Claim forms;

* We provided the water claim in acre-feet per year, as an annual water duty. We could also provide the peak flow rate in cubic feet per second if OWRD so desires.

- * What does "type" of pump mean? We provided the horsepower of any required pumps although we did not specify the type of pump. Is this a general type of pump or a specific manufacturer and model? We did specify the pipelines and irrigation system sizes, although we did not identify how many sprinkler heads there are. We need some clarification on what it is you need here and why it is important.
- * We obviously have cost and benefit information for each of the claims. However, it is not in a format that we could readily submit. It would take NRCE some time to put this information in a format suitable for OWRD. It would certainly be easier if we could just present our unit costs and benefits rather than a separate analysis for each claim. For example, we could show how we came up with our per acre benefits for alfalfa and our per foot cost for 4-inch PVC pipeline, etc. These unit costs would apply to many different claims.

The following comments and questions refer to OWRD's comments on the maps:

- * We talked extensively with OWRD about the maps before making our filings and did everything we were asked to do or agreed on at that time;
- * These maps were produced in our pre-CAD (computer aided design) era. Therefore, changes to the maps must be done by hand and would be quite time consuming.
- * What do you have in mind when you ask that the maps "be confirmed by an on-site inspection by NRCE (or a CWRE)"? NRCE personnel visited each of the Allottee parcels in May 1991. However, to our recollection NRCE did not actually perform any surveying work on the property boundaries or areas of existing and future irrigation.
- * We do not have the points of diversion referenced to established survey corners. Do we need to actually locate survey benchmarks or is OWRD just asking that we reference off the nearest Section corner?
- * What is meant by the "location of the place of use with reference to an established survey corner...." The place of use for irrigation is obviously an area of land, not a single point. Our property summary table

already indicates the present irrigation, gross PIA, and net PIA by 1/4-1/4 section.

- * OWRD has requested that our maps show net PIA acres. Our maps show gross PIA acres. However, since we calculated net PIA acres simply by reducing the gross acreage by 5%, one can easily determine the net PIA acres from the maps. Replacing all these numbers by hand would take a very large amount of time.
- * While we do have working maps on which we drew proposed irrigation facilities, these maps are far from being finished products. This would be a huge work load. Why is it important? It is our recollection that this issue was discussed at length in 1991 or 1992 and that we had satisfied all of OWRD's requirements at that time. It would seem unfair to add additional requirements at this point.
- * The scale of all the maps is the same (we are using OWRD base maps). One inch equals 1/4 mile (1,320 feet). Do we really need to put this on each map?
- * The maps are oriented with the Sections and government lots in which north is the top of the page and east is the right hand side of the page, like any topographical map. This is true for all of the maps.
- * We are certain that we agreed we could use the OWRD plats as base maps and that no mention of the material of the maps was made. Do we really have to redo the maps in linen or mylar?
- * Likewise, we are confident that the disclaimer and title issue was not specified at the time of the original filing. How important is this? Can it be accomplished by some type of attachment?

Comments On Specific Claims

- * OWRD claim numbers 236, 246, 247, 696 & 263.

We would like to discuss the OWRD comment identifying the need to provide period of use and growing degree days for Christmas trees.
- * OWRD claim number 267.

Mr. Dick Bailey
March 16, 1999
Page 6

We would like to discuss OWRD comment on need for period of use each year for livestock watering. Period of use is year round.

- * OWRD claim number 276.

We would like to discuss OWRD comment on need for rate of water for each supplemental source.

- * OWRD claim numbers 679, 242 & 250.

The property that is the subject of these claims has been sold by Allottees to non-Indians. Accordingly, these claims are no longer Allottee claims being represented by the KAWUA.

Other comments:

- * In your letters you had a few other claim-specific comments such as questions regarding discrepancies in acreage. To the extent possible, we will investigate each of these on a case by case basis prior to our meeting.
- * I have enclosed a copy of a letter from Reed Marbut to Dale White dated March 17, 1992. This letter summarizes a meeting between Reed, Dale, Wold and Steve Sanders in which they discussed what information would be required to assert the PIA claims, what the mapping requirements were and scheduling issues. I think this letter clearly shows that the format of the claims and maps was discussed prior to our submitting the claims. We should discuss this at our meeting.
- * You have asked for an updated list of the claimants we currently represent. We are interested in that too! We have been working on that for a couple of months and will gladly supply you with such a list as soon as it is complete. We are also in the process of updating ownership, address and other related information for each claimant or claim.
- * We will provide copies of the claimants' authorizations for us to act as their agent.

We understand that Open Inspection will soon be upon us and that we need to ensure that OWRD is content with the completeness of our claims as soon as possible. Accordingly, we respectfully

Mr. Dick Bailey
March 16, 1999
Page 7

request the opportunity to meet with you in the very near future. Also, if there are issues you raised which you think we have overlooked, please bring them to our attention either prior to or at our meeting. Our goal is to get a better understanding, and agreement, on exactly what additional information and work is necessary. We would like to gain that understanding as soon as possible so that any necessary additional work by our engineers can be completed in an expedient fashion.

Thank you for your assistance and professionalism in handling this matter. We understand that we have all taken on an enormous work load with this adjudication and appreciate your continued efforts to make this process go as smoothly as possible. I will contact you sometime next week to try to set up a meeting once I can confirm Wold Mesghinna's availability. We are faxing him in Africa to see if he would be available the week of April 5th, preferably Wednesday or Thursday of that week.

Sincerely,

Christopher B. Leahy

RE: Klamath Allottee Claims

Dear Dale:

This letter is intended to serve as a summary account of our March 16, 1992 claim preparation discuss. Present at the meeting were:

Dale T. White (Attorney for Klamath Allottees)
Woldezion Mesghinna (Klamath Allottee Consulting Engineer)
Steve Sanders (Oregon Assistant Attorney General)
Reed Marbut (OWRD - Adjudication Manager)

In addition, Don Knauer of the OWRD was present to discuss stream flow measurement in the Klamath Basin.

The following subjects were discussed:

1. Current claim schedule: The original "notice" claims were submitted prior to February 1, 1991. The "developed area" claims were submitted on time before September 1, 1991, and the "PIA - future development area" claims are due June 1, 1992.
2. BIA Funding Status: Dale and Wold described the status of the Bureau of Indian Affairs funding. It seems the BIA has approved certain funding, but has not approved complete funding of some of the claim preparation expenses. Dale suggested that a letter from the OWRD setting out the technical requirements associated with a PIA claim could help support their BIA funding solicitation.
3. PIA Claim Standards: Steve and Reed described a few of the categories of technical data necessary to verify a PIA claim. Such data as (1) natural stream flow, (2) soil characteristics, and (3) production economics were discussed.

FAX (503) 378-8130

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
March 17, 1992
Page Two

4. Chain of Title Statement: Dale stated that they intend to submit a title report, prepared by a Klamath County title firm, to satisfy the "chain of title statement" requirement of OAR 690-28-026(3). This statement will verify tribal status of prior owners - from the date of allotment. In addition, Dale has prepared individual "tribal enrollment" statements for each of his allottee clients.
5. Claim maps: Reed stated that we would need more accurate maps submitted with the final "PIA" claim forms. The maps submitted with the "developed area" claims were hard to use due to the types of lines drafted on the maps. Reed and Steve agreed that the OWRD maps could be used as base maps for the claims; however, the use area designations must be more accurately drawn. Acreage designations must be set out in each 40 acre ($\frac{1}{2}$ - $\frac{1}{2}$) parcel. (See OWRD Klamath water use maps.) Lastly, the maps must be prepared and signed by a registered surveyor or engineer.
6. Water Availability Data: Reed agreed that OWRD would provide to Wold all stream flow and other water availability data we can uncover. This will include staff-gauge reading data, well monitoring information, the University of Arizona hydrologic report prepared in 1981, and the Water Supply section of the Oregon Water Resources Board "Klamath Basin Report" prepared in 1971. Reed gave Wold copies of George Robison's report titled "Water Availability of Oregon's Rivers and Stream."
7. Allottee Claim Discrepancies: Don Knauer described discrepancies he found during field inspections of several of the allottee claim properties. Don will provide copies of his inspection report memoranda to Wold.
8. PIA Claim Deadline: Dale and Wold stated that they did not see how they could meet the June 1, 1992 PIA claim deadline with all the necessary claim information. They agreed that a portion of the information and verifying data would be available by June; however, Dale and Wold feel that a significant amount of the information cannot be generated in time to meet the June 1 filing date. Dale and Wold formally requested an extension of the June 1, 1992 PIA claim deadline.

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
March 17, 1992
Page Three

We all agreed that the basic PIA claim requirement is that "the claimant must show that it is technically and economically possible to develop an irrigation system to serve the land", as set forth in OAR 690-28-026(1). However, in order to get some idea of the categories of information that could be presented by June 1, and the categories for which an extension is sought, we reviewed and grouped the factors set out in OAR 690-28-026(1) (a) through (i).

The following is a breakdown of these categories by 690-28-026(1) designation:

1. Information and data that could be available by June 1, 1992 -
 - (c) Slope of the land
 - (d) Elevation above sea level
 - (e) Growing season (degree days)
 - (f) Natural precipitation
 - (g) Crop types that could be grown
2. Information and data for which an extension is sought -
 - (a) Source and availability of water
 - (b) Soils types and classification
 - (h) Description of the proposed irrigation system
 - (i) Estimated costs of developing the irrigation system

Reed and Steve agreed that the soil type and classification information requirements of our claim form would be met if Wold submitted standard SCS data for each claim parcel. In addition, we agreed that the "technically and economically possible" standard would be met if the claimant showed that the PIA proposed irrigation area was, in all pertinent ways, identical to similarly situated adjacent irrigated acreage.

Finally, Reed agreed to present their request to the Director for an extension of the June 1, 1992 PIA claim deadline. I will delay the formal request until Dale, Wold and Steve have approved this summary.

Dale T. White, Esq.
Fredericks, Pelcyger & Hester
March 17, 1992

RE: Klamath Adjudication Indian Allottee Claims

Dear Dick:

As promised in my March 10, 1999 letter, here is our initial response to your February 19, 1999 mailings to our office seeking additional information on Klamath Allottee Water Users Association claims. It is our hope that your written requests for more information and this letter will lay the ground work for a meeting in Salem between myself, the KAWUA engineers and OWRD representatives at which we can all develop a better understanding of the status of the KAWUA members' claims and what additional work is necessary to ensure that the claims are complete as possible for Open Inspection and adjudication purposes. We are eager to assist you in this endeavor but believe that a meeting is necessary for us to gain a better understanding of what it is you still need, whether some of the information you request has already been provided and whether OWRD and KAWUA representatives have previously addressed some of the issues raised by your February 19 letters.

Specifically, after a thorough review of your letters our engineers have preliminarily determined that: (a) we have already submitted some of the information you are now requesting; (b) there may be some confusion as to what has or has not been submitted; (c) there may be some confusion about what the OWRD previously agreed would render the allottees' claims complete.

Mr. Dick Bailey

SALEM, OREGON

In this letter I will provide a general summary of how the allottees originally filed their "Statement and Proof of Claim." I will then try to speak to some of the specific points raised in the approximately 80 letters we received. Please understand that it has been over seven years since the claims were put together and submitted. Many of our comments have been developed by going back over documents in files and trying to dust the cobwebs out of the brains of those who were involved at that time. Accordingly, our recollection may not be entirely accurate on some of these issues. It is our hope that a meeting, with both Wold Mesghinna of NRCE and Reed Marbut in attendance (they were involved in the early 90's), will help to clear up any confusion, etc.

The following is a brief summary of the history of the Allottee claims:

- * We filed at least three separate "Statement and Proof of Claim" forms with OWRD prior to the November 1, final filing. These forms contained supplemental information regarding the Allottee claims. We believe that much of the information you are now seeking is contained in these documents. These forms were submitted by Dale White of our firm and should be in your files. Please let us know if you are unable to locate them in your files. The three Statement and Proof of Claim forms are:
 - 1) February 1, 1991- Base claim information including name, address, telephone number, source(s) of water claimed, purpose(s) of claimed water, amount of water necessary for each claimed use, priority date, basis of the water right, location of property by 1/4-1/4 section, and a preliminary map of the property.
 - 2) September 1, 1991- Developed area data including description of property, point of diversion, category of water use, current water flow, current volume of water claimed, period of use, current carrying capacities (pipeline, ditch, pump, motor, irrigation system), and filing fees.
 - 3) June 1, 1992- Preliminary PIA claim information including slope of land, elevation, growing season by crop type,

Mr. Dick Bailey

 SALEM, OREGON

natural precipitation, and crop types that could be grown.

* The November 1, 1992 final claims had additional PIA information including source and availability of water, soil types and classification, description of proposed irrigation systems, and estimated costs of developing the irrigation system along with project benefits. Also submitted were "final" maps stamped by Wold Mesghinna (professional engineer) and a summary table of both presently irrigated land and PIA by 1/4-1/4 section. Based on our current understanding of OWRD's February 19 letters, we believe that the three Statement and Proof of Claim forms along with the final claim submittal provide some of the information now being asked for.

Comments On Specific Areas

The following comments and questions refer to OWRD's comments on the point of diversion for livestock watering:

- * We are unclear on how to specify the place of use for livestock watering. Is OWRD asking for the specific location of the watering hole or trough?

The following comments and questions refer to OWRD's comments on the point of diversion for existing irrigation:

- * We believe we provided just about all of this information in the Statement and Proof of Claim forms. However, we don't think we ever separated out the flow rate for existing irrigation from the flow rate for existing domestic use if they shared the same source. Rather, we listed the claims for each of the uses and gave the capacity of the delivery system. We should talk about whether you need this separation since separating out the flow rates would be somewhat difficult to do, though we may be able to agree on a way to come up with some type of educated guess.

The following comments and questions refer to OWRD's comments on PIA:

- * Most of this information is in the Statement of Proof of Claim forms;
- * We provided the water claim in acre-feet per year, as an annual water duty. We could also provide the peak flow rate in cubic feet per second if OWRD so desires.

Mr. Dick Bailey
March 16, 1999
Page 4

RECEIVED

MAR 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

- * What does "type" of pump mean? We provided the horsepower of any required pumps although we did not specify the type of pump. Is this a general type of pump or a specific manufacturer and model? We did specify the pipelines and irrigation system sizes, although we did not identify how many sprinkler heads there are. We need some clarification on what it is you need here and why it is important.
- * We obviously have cost and benefit information for each of the claims. However, it is not in a format that we could readily submit. It would take NRCE some time to put this information in a format suitable for OWRD. It would certainly be easier if we could just present our unit costs and benefits rather than a separate analysis for each claim. For example, we could show how we came up with our per acre benefits for alfalfa and our per foot cost for 4-inch PVC pipeline, etc. These unit costs would apply to many different claims.

The following comments and questions refer to OWRD's comments on the maps:

- * We talked extensively with OWRD about the maps before making our filings and did everything we were asked to do or agreed on at that time;
- * These maps were produced in our pre-CAD (computer aided design) era. Therefore, changes to the maps must be done by hand and would be quite time consuming.
- * What do you have in mind when you ask that the maps "be confirmed by an on-site inspection by NRCE (or a CWRE)"? NRCE personnel visited each of the Allottee parcels in May 1991. However, to our recollection NRCE did not actually perform any surveying work on the property boundaries or areas of existing and future irrigation.
- * We do not have the points of diversion referenced to established survey corners. Do we need to actually locate survey benchmarks or is OWRD just asking that we reference off the nearest Section corner?
- * What is meant by the "location of the place of use with reference to an established survey corner...." The place of use for irrigation is obviously an area of land, not a single point. Our property summary table

RECEIVED

Mr. Dick Bailey
March 16, 1999
Page 5

MAR 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

already indicates the present irrigation, gross PIA, and net PIA by 1/4-1/4 section.

- * OWRD has requested that our maps show net PIA acres. Our maps show gross PIA acres. However, since we calculated net PIA acres simply by reducing the gross acreage by 5%, one can easily determine the net PIA acres from the maps. Replacing all these numbers by hand would take a very large amount of time.
- * While we do have working maps on which we drew proposed irrigation facilities, these maps are far from being finished products. This would be a huge work load. Why is it important? It is our recollection that this issue was discussed at length in 1991 or 1992 and that we had satisfied all of OWRD's requirements at that time. It would seem unfair to add additional requirements at this point.
- * The scale of all the maps is the same (we are using OWRD base maps). One inch equals 1/4 mile (1,320 feet). Do we really need to put this on each map?
- * The maps are oriented with the Sections and government lots in which north is the top of the page and east is the right hand side of the page, like any topographical map. This is true for all of the maps.
- * We are certain that we agreed we could use the OWRD plats as base maps and that no mention of the material of the maps was made. Do we really have to redo the maps in linen or mylar?
- * Likewise, we are confident that the disclaimer and title issue was not specified at the time of the original filing. How important is this? Can it be accomplished by some type of attachment?

Comments On Specific Claims

- * OWRD claim numbers 236, 246, 247, 696 & 263.

We would like to discuss the OWRD comment identifying the need to provide period of use and growing degree days for Christmas trees.
- * OWRD claim number 267.

RECEIVED

Mr. Dick Bailey
March 16, 1999
Page 6

MAR 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

We would like to discuss OWRD comment on need for period of use each year for livestock watering. Period of use is year round.

- * OWRD claim number 276.

We would like to discuss OWRD comment on need for rate of water for each supplemental source.

- * OWRD claim numbers 679, 242 & 250.

The property that is the subject of these claims has been sold by Allottees to non-Indians. Accordingly, these claims are no longer Allottee claims being represented by the KAWUA.

Other comments:

- * In your letters you had a few other claim-specific comments such as questions regarding discrepancies in acreage. To the extent possible, we will investigate each of these on a case by case basis prior to our meeting.
- * I have enclosed a copy of a letter from Reed Marbut to Dale White dated March 17, 1992. This letter summarizes a meeting between Reed, Dale, Wold and Steve Sanders in which they discussed what information would be required to assert the PIA claims, what the mapping requirements were and scheduling issues. I think this letter clearly shows that the format of the claims and maps was discussed prior to our submitting the claims. We should discuss this at our meeting.
- * You have asked for an updated list of the claimants we currently represent. We are interested in that too! We have been working on that for a couple of months and will gladly supply you with such a list as soon as it is complete. We are also in the process of updating ownership, address and other related information for each claimant or claim.
- * We will provide copies of the claimants' authorizations for us to act as their agent.

We understand that Open Inspection will soon be upon us and that we need to ensure that OWRD is content with the completeness of our claims as soon as possible. Accordingly, we respectfully

RECEIVED

request the opportunity to meet with you in the very near future. Also, if there are issues you raised which you think we have overlooked, please bring them to our attention either prior to or at our meeting. Our goal is to get a better understanding, and agreement, on exactly what additional information and work is necessary. We would like to gain that understanding as soon as possible so that any necessary additional work by our engineers can be completed in an expedient fashion.

Thank you for your assistance and professionalism in handling this matter. We understand that we have all taken on an enormous work load with this adjudication and appreciate your continued efforts to make this process go as smoothly as possible. I will contact you sometime next week to try to set up a meeting once I can confirm Wold Mesghinna's availability. We are faxing him in Africa to see if he would be available the week of April 5th, preferably Wednesday or Thursday of that week.

Sincerely,

Christopher B. Leahy

RE: Klamath Allottee Claims

Dear Dale:

This letter is intended to serve as a summary account of our March 16, 1992 claim preparation discuss. Present at the meeting were:

- Dale T. White (Attorney for Klamath Allottees)
- Woldezion Mesghinna (Klamath Allottee Consulting Engineer)
- Steve Sanders (Oregon Assistant Attorney General)
- Reed Marbut (OWRD - Adjudication Manager)

In addition, Don Knauer of the OWRD was present to discuss stream flow measurement in the Klamath Basin.

The following subjects were discussed:

1. Current claim schedule: The original "notice" claims were submitted prior to February 1, 1991. The "developed area" claims were submitted on time before September 1, 1991, and the "PIA - future development area" claims are due June 1, 1992.
2. BIA Funding Status: Dale and Wold described the status of the Bureau of Indian Affairs funding. It seems the BIA has approved certain funding, but has not approved complete funding of some of the claim preparation expenses. Dale suggested that a letter from the OWRD setting out the technical requirements associated with a PIA claim could help support their BIA funding solicitation.
3. PIA Claim Standards: Steve and Reed described a few of the categories of technical data necessary to verify a PIA claim. Such data as (1) natural stream flow, (2) soil characteristics, and (3) production economics were discussed.

SALEM, OREGON

4. Chain of Title Statement: Dale stated that they intend to submit a title report, prepared by a Klamath County title firm, to satisfy the "chain of title statement" requirement of OAR 690-28-026(3). This statement will verify tribal status of prior owners - from the date of allotment. In addition, Dale has prepared individual "tribal enrollment" statements for each of his allottee clients.
5. Claim maps: Reed stated that we would need more accurate maps submitted with the final "PIA" claim forms. The maps submitted with the "developed area" claims were hard to use due to the types of lines drafted on the maps. Reed and Steve agreed that the OWRD maps could be used as base maps for the claims; however, the use area designations must be more accurately drawn. Acreage designations must be set out in each 40 acre ($\frac{1}{2}$ - $\frac{1}{2}$) parcel. (See OWRD Klamath water use maps.) Lastly, the maps must be prepared and signed by a registered surveyor or engineer.
6. Water Availability Data: Reed agreed that OWRD would provide to Wold all stream flow and other water availability data we can uncover. This will include staff-gauge reading data, well monitoring information, the University of Arizona hydrologic report prepared in 1981, and the Water Supply section of the Oregon Water Resources Board "Klamath Basin Report" prepared in 1971. Reed gave Wold copies of George Robison's report titled "Water Availability of Oregon's Rivers and Stream."
7. Allottee Claim Discrepancies: Don Knauer described discrepancies he found during field inspections of several of the allottee claim properties. Don will provide copies of his inspection report memoranda to Wold.
8. PIA Claim Deadline: Dale and Wold stated that they did not see how they could meet the June 1, 1992 PIA claim deadline with all the necessary claim information. They agreed that a portion of the information and verifying data would be available by June; however, Dale and Wold feel that a significant amount of the information cannot be generated in time to meet the June 1 filing date. Dale and Wold formally requested an extension of the June 1, 1992 PIA claim deadline.

MAR 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

We all agreed that the basic PIA claim requirement is that "the claimant must show that it is technically and economically possible to develop an irrigation system to serve the land", as set forth in OAR 690-28-026(1). However, in order to get some idea of the categories of information that could be presented by June 1, and the categories for which an extension is sought, we reviewed and grouped the factors set out in OAR 690-28-026(1) (a) through (i).

The following is a breakdown of these categories by 690-28-026(1) designation:

1. Information and data that could be available by June 1, 1992 -
 - (c) Slope of the land
 - (d) Elevation above sea level
 - (e) Growing season (degree days)
 - (f) Natural precipitation
 - (g) Crop types that could be grown

2. Information and data for which an extension is sought -
 - (a) Source and availability of water
 - (b) Soils types and classification
 - (h) Description of the proposed irrigation system
 - (i) Estimated costs of developing the irrigation system

Reed and Steve agreed that the soil type and classification information requirements of our claim form would be met if Wold submitted standard SCS data for each claim parcel. In addition, we agreed that the "technically and economically possible" standard would be met if the claimant showed that the PIA proposed irrigation area was, in all pertinent ways, identical to similarly situated adjacent irrigated acreage.

Finally, Reed agreed to present their request to the Director for an extension of the June 1, 1992 PIA claim deadline. I will delay the formal request until Dale, Wold and Steve have approved this summary.

Gentlemen:

I would like to thank you for taking the time to meet with me last Wednesday in Salem. I am writing this letter to provide a summary of our meeting and to ensure that I understood everything we talked about correctly. To restate our goal, we are working to bring the Klamath Allottee claims into compliance with Oregon statute in as timely a manner as possible. I believe this meeting was a tremendous help in this regard.

Please review the attached meeting summary and provide me with any comments or corrections you might have. We are commencing work immediately with the hope of providing you with a sample revised claim and map within the next few weeks. You may contact me at the numbers and address listed on this letterhead.

Sincerely,

SUMMARY OF MEETING BETWEEN OWRD AND NRCE
SALEM, OREGON
APRIL 21, 1999

Present at the meeting were:

Don Knauer (OWRD)
Dick Bailey (OWRD)
Paul Hamai (NRCE)

NRCE and OWRD concur that there were certain past agreements as to the format and content of the Klamath Allottee claims and that NRCE and Fredericks, Pelcyger & Hester (FPH) complied with these agreements when the claims were originally filed. However, Dick Bailey noted that these past agreements do not adhere entirely to Oregon statute and, therefore, additional information is required for the Allottee claims prior to the anticipated open inspection date of October 4, 1999. This being said, it was agreed upon that the focus of the meeting should be on identifying what information is needed and the simplest manner to provide this information in an attempt to control further time and cost requirements.

The following subjects were discussed by Don Knauer and Paul Hamai:

- 1) For existing uses, OWRD defines "domestic" use as use that occurs within the house. It does not include watering of outdoor gardens or lawns, which would be included in present irrigation. NRCE needs to clarify what is meant when a domestic use is claimed. Also, NRCE must provide rates for all existing use claims (in gpm or cfs) as well as the annual duty (ac-ft/yr). The sum of all the existing rates cannot exceed the existing system capacity as noted on the Developed Area Data Statement and Proof of Claim forms.
- 2) For the existing livestock use claims, NRCE can refer to the OWRD field inspection report, if one exists, to describe the nature of the access to water. In many cases this may simply be access to the river or creek itself. This place of use must then be listed by ¼-¼ Section (i.e., list every ¼-¼ Section where the livestock have access to water). Also, NRCE must provide the rate of water use (in gpm or cfs) as well as the annual duty (ac-ft/yr). This rate can be a theoretical maximum rate, rather than an average rate.
- 3) For existing irrigation claims, NRCE needs to provide rates (in gpm or cfs) as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season.
- 4) For future irrigation claims (PIA), NRCE needs to explain where the information is that OWRD is asking for. This information may be in the Statement and Proof of Claim forms, the final claims form, or the engineering report. NRCE should provide rates (in gpm or cfs)

as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season. Also, the POD needs to be listed for each pump or diversion from the source (by ¼-¼ Section). Need to state that pumps are centrifugal type (or turbine, if applicable). Need to list the PODs with reference to a Section ¼ corner.

- 5) NRCE needs to provide copies of the spreadsheets detailing the on-farm design (sprinkler or surface irrigation), pump design, and economic analysis. NRCE should add a brief narrative for each of these spreadsheets. Also, NRCE should provide the backing economic information (e.g., Enterprise Budget from OSU Extension) that was used in the analysis.
- 6) The claim maps need to show the PODs and the mainlines (or main ditches). NRCE can draw these on the existing maps. The OWRD claim number should be added on the maps beneath the existing Owner and Property numbers. The maps also need to be copied through some process to mylar, although this requirement may change in the future. NRCE (or FPH) needs to write a letter to OWRD explaining the scale, north arrow, and disclaimer for the maps. The POU's do not have to be referenced to a survey corner. The acreage numbers on the maps do not have to be changed to reflect net acreage instead of gross acreage. NRCE should provide a sample map to OWRD for review.
- 7) NRCE (or FPH) needs to write a letter to OWRD explaining that irrigated acreage is presented on the claim maps by ¼-¼ Section rather than Government Lot. This letter should contain the following information:
 - a. That NRCE discussed this issue with Don Knauer;
 - b. That it would be very time consuming and expensive for NRCE to redo the maps;
 - c. That the information being asked for is more or less shown in the maps although not in exactly the same format as OWRD is asking;
 - d. That because the acreage is PIA, there may be some allowance for the map to be slightly different than standard OWRD format.
- 8) For any claims that list a supplemental source, the rate that is claimed for this source needs to be identified. In some cases, this rate would be the same as the primary source (e.g., when the supplemental source would be used to satisfy all the claimed water during periods when the primary source is unavailable). If a supplemental source is claimed for an existing use, this source should occasionally have been used in the past. If the supplemental source has never been used, it should not be claimed for existing uses.
- 9) For those PIA claims that require access to water through another owner's property, NRCE needs to include a cost to acquire the right of way in the economic analysis. This can be accomplished by using a reasonable land cost such as might be available from the County Land Assessor. It is not entirely meaningful to get permission for this right of way at the present time since it is unknown when this access would be required. A letter should be drafted to OWRD explaining this.

- 10) Certain claim specific issues need to be discussed with the property owners.
- 11) For Claim #267 (Owner 40, Property 1), add the period of use for livestock use to the report. The period of use for livestock use was not included in the Developed Area Data sheet for this claim.
- 12) For Claim #276 (Owner 48, Property 1), NRCE needs to check with the property owner on how the supplemental source being claimed has been used in the past. If this source has never been used, it should not be included in the claim for existing uses.
- 13) For Claim #683 (Owner 43A, Property 3), there is a domestic irrigation claim that needs to be clarified. NRCE should verify with the owner how this water is used.
- 14) For Claims #705 and #706 (Owner 37A, Properties 2&3), the claims should state that Upper Klamath Lake is the primary source for future irrigation and that service from the Modoc Point Irrigation District is a supplemental source. The rate claimed for the supplemental source should be the same as the rate claimed for the primary source.
- 15) For Claim #264 (Owner 35, Property 1), this property has not been sold in its entirety. The Allottee still owns ten acres. A revised claim reflecting the reduced acreage needs to be submitted for this property.
- 16) For Claim #274 (Owner 46, Property 3), there is some confusion as to whether or not the Allottee still owns this property. OWRD provided certain deed records that presumably show that this property has been sold. NRCE will review these records and consult with the Allottee to verify ownership.

DICK BAILEY } NRO
 DON KNAPP }
 PAUL HAMAT, NRO

DAVE WHITE CLAIMS

226 - # 292

PAUL'S COMPANY WORKS FOR THE PIA CLAIMANTS WHICH GET THEIR FUNDING FROM THE KUMASH TRIBE.

THE DIVIDED OUR REQUESTS INTO 2 CATEGORIES:

- 1.) GENERAL REQUESTS FOR ALL/MANY CLAIMS
- 2.) CLAIM SPECIFIC COMMENTS

CLARIFIED: NO PIA OR FUTURE USE CLAIM FOR LIVESTOCK AND DOMESTIC USES

PIA IS ONLY PIA

TALKED ABOUT Q's:

ITEM 2.4 ON THEIR CLAIM FORM IS CURRENT WATER USE, GENERALLY WHAT THEY OBSERVED AT THE TIME OF THEIR SITE VISIT

ITEM 2.7 ON THEIR CLAIM FORM IS A MAXIMUM Q BASED ON SYSTEM CAPACITY

∴ TOTAL RATE PER USES WILL NOT EXCEED ITEM 2.7, LIKELY CLOSE TO 2.4, MAYBE SOME WILL BE LESS.

PAUL & I LEFT DICKS OFFICE AND WORKED IN AOS AREA ON THE QUESTIONS & RESPONSES HE HAD.

FOR PIA MAPS: THEY WILL:

ADD DIU POINTS

ADD MAINLINE

BUT NO NEED FOR COMPUTE DETAILS ON MAPS AS LONG AS PIPE INFO IS IN REPORTS/SPREADSHEET.

THEY PREPARED SPREAD SHEETS FOR EACH CLAIM PROPERTY SHOWING MOST/ALL OF DATA REQUESTED.

I SUGGESTED HE DO A MAP & REPORT FOR ONE OF THE CLAIMS - SEND IN A DRAFT - WITH REVIEW - DECIDE IF OKAY - THEN THEY CAN DO ALL CLAIMS.

THEY SUBMITTED ACPE FIGURES BY 1/4/94 EVEN IF THE SECTION WAS LOTTED. HE EXPLAINED IT WOULD REQUIRE A GREAT DEAL OF TIME & MONEY TO CHANGE THIS TO ACCESS BY WTS. I SUGGESTED HE WRITE A LETTER TO MR. EXPLAINING THE PROBLEM.

IN RECORDS TO: #1, SLAVE, DISCLAIMER. HE WILL PREPARE A COVER STATEMENT AND NOT ADD THESE TO EACH MAP.

HE WILL ADD CLAIM # TO EACH MAP.

HE SHOWED ME THE "SPREADSHEETS" THEY RECENTLY PREPARED FOR EACH CLAIM PROPERTY. THEY APPEAR TO HAVE ALL/MOST OF THE DATA REQUESTED - ALAN SUGGESTED WE SUBMIT A COPY WITH CLARIFICATION FOR OUR REVIEW.

RE: Klamath Adjudication Indian Allottee Claims

Dear Dick:

As promised in my March 10, 1999 letter, here is our initial response to your February 19, 1999 mailings to our office seeking additional information on Klamath Allottee Water Users Association claims. It is our hope that your written requests for more information and this letter will lay the ground work for a meeting in Salem between myself, the KAWUA engineers and OWRD representatives at which we can all develop a better understanding of the status of the KAWUA members' claims and what additional work is necessary to ensure that the claims are complete as possible for Open Inspection and adjudication purposes. We are eager to assist you in this endeavor but believe that a meeting is necessary for us to gain a better understanding of what it is you still need, whether some of the information you request has already been provided and whether OWRD and KAWUA representatives have previously addressed some of the issues raised by your February 19 letters.

Specifically, after a thorough review of your letters our engineers have preliminarily determined that: (a) we have already submitted some of the information you are now requesting; (b) there may be some confusion as to what has or has not been submitted; (c) there may be some confusion about what the OWRD previously agreed would render the allottees' claims complete.

RECEIVED

WATER RESOURCES DEPT.
SALEM, OREGON

In this letter I will provide a general summary of how the allottees originally filed their "Statement and Proof of Claim." I will then try to speak to some of the specific points raised in the approximately 80 letters we received. Please understand that it has been over seven years since the claims were put together and submitted. Many of our comments have been developed by going back over documents in files and trying to dust the cobwebs out of the brains of those who were involved at that time. Accordingly, our recollection may not be entirely accurate on some of these issues. It is our hope that a meeting, with both Wold Mesghinna of NRCE and Reed Marbut in attendance (they were involved in the early 90's), will help to clear up any confusion, etc.

The following is a brief summary of the history of the Allottee claims:

- * We filed at least three separate "Statement and Proof of Claim" forms with OWRD prior to the November 1, final filing. These forms contained supplemental information regarding the Allottee claims. We believe that much of the information you are now seeking is contained in these documents. These forms were submitted by Dale White of our firm and should be in your files. Please let us know if you are unable to locate them in your files. The three Statement and Proof of Claim forms are:
 - 1) February 1, 1991- Base claim information including name, address, telephone number, source(s) of water claimed, purpose(s) of claimed water, amount of water necessary for each claimed use, priority date, basis of the water right, location of property by 1/4-1/4 section, and a preliminary map of the property.
 - 2) September 1, 1991- Developed area data including description of property, point of diversion, category of water use, current water flow, current volume of water claimed, period of use, current carrying capacities (pipeline, ditch, pump, motor, irrigation system), and filing fees.
 - 3) June 1, 1992- Preliminary PIA claim information including slope of land, elevation, growing season by crop type,

Mr. Dick Bailey
March 16, 1999

RECEIVED

MAR 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

natural precipitation, and crop types that could be grown.

* The November 1, 1992 final claims had additional PIA information including source and availability of water, soil types and classification, description of proposed irrigation systems, and estimated costs of developing the irrigation system along with project benefits. Also submitted were "final" maps stamped by Wold Mesghinna (professional engineer) and a summary table of both presently irrigated land and PIA by 1/4-1/4 section. Based on our current understanding of OWRD's February 19 letters, we believe that the three Statement and Proof of Claim forms along with the final claim submittal provide some of the information now being asked for.

Comments On Specific Areas

The following comments and questions refer to OWRD's comments on the point of diversion for livestock watering:

* We are unclear on how to specify the place of use for livestock watering. Is OWRD asking for the specific location of the watering hole or trough?

The following comments and questions refer to OWRD's comments on the point of diversion for existing irrigation:

* We believe we provided just about all of this information in the Statement and Proof of Claim forms. However, we don't think we ever separated out the flow rate for existing irrigation from the flow rate for existing domestic use if they shared the same source. Rather, we listed the claims for each of the uses and gave the capacity of the delivery system. We should talk about whether you need this separation since separating out the flow rates would be somewhat difficult to do, though we may be able to agree on a way to come up with some type of educated guess.

The following comments and questions refer to OWRD's comments on PIA:

* Most of this information is in the Statement of Proof of Claim forms;

* We provided the water claim in acre-feet per year, as an annual water duty. We could also provide the peak flow rate in cubic feet per second if OWRD so desires.

RECEIVED

MAR 17 1999

Mr. Dick Bailey
March 16, 1999
Page 4

WATER RESOURCES DEPT.
SALEM, OREGON

- * What does "type" of pump mean? We provided the horsepower of any required pumps although we did not specify the type of pump. Is this a general type of pump or a specific manufacturer and model? We did specify the pipelines and irrigation system sizes, although we did not identify how many sprinkler heads there are. We need some clarification on what it is you need here and why it is important.
- * We obviously have cost and benefit information for each of the claims. However, it is not in a format that we could readily submit. It would take NRCE some time to put this information in a format suitable for OWRD. It would certainly be easier if we could just present our unit costs and benefits rather than a separate analysis for each claim. For example, we could show how we came up with our per acre benefits for alfalfa and our per foot cost for 4-inch PVC pipeline, etc. These unit costs would apply to many different claims.

The following comments and questions refer to OWRD's comments on the maps:

- * We talked extensively with OWRD about the maps before making our filings and did everything we were asked to do or agreed on at that time;
- * These maps were produced in our pre-CAD (computer aided design) era. Therefore, changes to the maps must be done by hand and would be quite time consuming.
- * What do you have in mind when you ask that the maps "be confirmed by an on-site inspection by NRCE (or a CWRE)"? NRCE personnel visited each of the Allottee parcels in May 1991. However, to our recollection NRCE did not actually perform any surveying work on the property boundaries or areas of existing and future irrigation.
- * We do not have the points of diversion referenced to established survey corners. Do we need to actually locate survey benchmarks or is OWRD just asking that we reference off the nearest Section corner?
- * What is meant by the "location of the place of use with reference to an established survey corner...." The place of use for irrigation is obviously an area of land, not a single point. Our property summary table

RECEIVED

Mr. Dick Bailey
 March 16, 1999
 Page 5

MAR 17 1999

WATER RESOURCES DEPT.
 SALEM, OREGON

already indicates the present irrigation, gross PIA, and net PIA by 1/4-1/4 section.

- * OWRD has requested that our maps show net PIA acres. Our maps show gross PIA acres. However, since we calculated net PIA acres simply by reducing the gross acreage by 5%, one can easily determine the net PIA acres from the maps. Replacing all these numbers by hand would take a very large amount of time.
- * While we do have working maps on which we drew proposed irrigation facilities, these maps are far from being finished products. This would be a huge work load. Why is it important? It is our recollection that this issue was discussed at length in 1991 or 1992 and that we had satisfied all of OWRD's requirements at that time. It would seem unfair to add additional requirements at this point.
- * The scale of all the maps is the same (we are using OWRD base maps). One inch equals 1/4 mile (1,320 feet). Do we really need to put this on each map?
- * The maps are oriented with the Sections and government lots in which north is the top of the page and east is the right hand side of the page, like any topographical map. This is true for all of the maps.
- * We are certain that we agreed we could use the OWRD plats as base maps and that no mention of the material of the maps was made. Do we really have to redo the maps in linen or mylar?
- * Likewise, we are confident that the disclaimer and title issue was not specified at the time of the original filing. How important is this? Can it be accomplished by some type of attachment?

Comments On Specific Claims

- * OWRD claim numbers 236, 246, 247, 696 & 263.

We would like to discuss the OWRD comment identifying the need to provide period of use and growing degree days for Christmas trees.
- * OWRD claim number 267.

RECEIVED

MAR 17 1999

Mr. Dick Bailey
March 16, 1999
Page 6

WATER RESOURCES DEPT.
SALEM, OREGON

We would like to discuss OWRD comment on need for period of use each year for livestock watering. Period of use is year round.

- * OWRD claim number 276.

We would like to discuss OWRD comment on need for rate of water for each supplemental source.

- * OWRD claim numbers 679, 242 & 250.

The property that is the subject of these claims has been sold by Allottees to non-Indians. Accordingly, these claims are no longer Allottee claims being represented by the KAWUA.

Other comments:

- * In your letters you had a few other claim-specific comments such as questions regarding discrepancies in acreage. To the extent possible, we will investigate each of these on a case by case basis prior to our meeting.
- * I have enclosed a copy of a letter from Reed Marbut to Dale White dated March 17, 1992. This letter summarizes a meeting between Reed, Dale, Wold and Steve Sanders in which they discussed what information would be required to assert the PIA claims, what the mapping requirements were and scheduling issues. I think this letter clearly shows that the format of the claims and maps was discussed prior to our submitting the claims. We should discuss this at our meeting.
- * You have asked for an updated list of the claimants we currently represent. We are interested in that too! We have been working on that for a couple of months and will gladly supply you with such a list as soon as it is complete. We are also in the process of updating ownership, address and other related information for each claimant or claim.
- * We will provide copies of the claimants' authorizations for us to act as their agent.

We understand that Open Inspection will soon be upon us and that we need to ensure that OWRD is content with the completeness of our claims as soon as possible. Accordingly, we respectfully

RECEIVED

Mr. Dick Bailey
March 16, 1999
Page 7

request the opportunity to meet with you in the very near future. Also, if there are issues you raised which you think we have overlooked, please bring them to our attention either prior to or at our meeting. Our goal is to get a better understanding, and agreement, on exactly what additional information and work is necessary. We would like to gain that understanding as soon as possible so that any necessary additional work by our engineers can be completed in an expedient fashion.

Thank you for your assistance and professionalism in handling this matter. We understand that we have all taken on an enormous work load with this adjudication and appreciate your continued efforts to make this process go as smoothly as possible. I will contact you sometime next week to try to set up a meeting once I can confirm Wold Mesghinna's availability. We are faxing him in Africa to see if he would be available the week of April 5th, preferably Wednesday or Thursday of that week.

Sincerely,

Christopher B. Leahy

RE: Klamath Allottee Claims

Dear Dale:

This letter is intended to serve as a summary account of our March 16, 1992 claim preparation discuss. Present at the meeting were:

- Dale T. White (Attorney for Klamath Allottees)
- Woldezion Mesghinna (Klamath Allottee Consulting Engineer)
- Steve Sanders (Oregon Assistant Attorney General)
- Reed Marbut (OWRD - Adjudication Manager)

In addition, Don Knauer of the OWRD was present to discuss stream flow measurement in the Klamath Basin.

The following subjects were discussed:

1. Current claim schedule: The original "notice" claims were submitted prior to February 1, 1991. The "developed area" claims were submitted on time before September 1, 1991, and the "PIA - future development area" claims are due June 1, 1992.
2. BIA Funding Status: Dale and Wold described the status of the Bureau of Indian Affairs funding. It seems the BIA has approved certain funding, but has not approved complete funding of some of the claim preparation expenses. Dale suggested that a letter from the OWRD setting out the technical requirements associated with a PIA claim could help support their BIA funding solicitation.
3. PIA Claim Standards: Steve and Reed described a few of the categories of technical data necessary to verify a PIA claim. Such data as (1) natural stream flow, (2) soil characteristics, and (3) production economics were discussed.

SALEM, OREGON

4. Chain of Title Statement: Dale stated that they intend to submit a title report, prepared by a Klamath County title firm, to satisfy the "chain of title statement" requirement of OAR 690-28-026(3). This statement will verify tribal status of prior owners - from the date of allotment. In addition, Dale has prepared individual "tribal enrollment" statements for each of his allottee clients.
5. Claim maps: Reed stated that we would need more accurate maps submitted with the final "PIA" claim forms. The maps submitted with the "developed area" claims were hard to use due to the types of lines drafted on the maps. Reed and Steve agreed that the OWRD maps could be used as base maps for the claims; however, the use area designations must be more accurately drawn. Acreage designations must be set out in each 40 acre ($\frac{1}{2}$ - $\frac{1}{2}$) parcel. (See OWRD Klamath water use maps.) Lastly, the maps must be prepared and signed by a registered surveyor or engineer.
6. Water Availability Data: Reed agreed that OWRD would provide to Wold all stream flow and other water availability data we can uncover. This will include staff-gauge reading data, well monitoring information, the University of Arizona hydrologic report prepared in 1981, and the Water Supply section of the Oregon Water Resources Board "Klamath Basin Report" prepared in 1971. Reed gave Wold copies of George Robison's report titled "Water Availability of Oregon's Rivers and Stream."
7. Allottee Claim Discrepancies: Don Knauer described discrepancies he found during field inspections of several of the allottee claim properties. Don will provide copies of his inspection report memoranda to Wold.
8. PIA Claim Deadline: Dale and Wold stated that they did not see how they could meet the June 1, 1992 PIA claim deadline with all the necessary claim information. They agreed that a portion of the information and verifying data would be available by June; however, Dale and Wold feel that a significant amount of the information cannot be generated in time to meet the June 1 filing date. Dale and Wold formally requested an extension of the June 1, 1992 PIA claim deadline.

RESOURCES DEPT.
SALEM OREGON

We all agreed that the basic PIA claim requirement is that "the claimant must show that it is technically and economically possible to develop an irrigation system to serve the land", as set forth in OAR 690-28-026(1). However, in order to get some idea of the categories of information that could be presented by June 1, and the categories for which an extension is sought, we reviewed and grouped the factors set out in OAR 690-28-026(1) (a) through (i).

The following is a breakdown of these categories by 690-28-026(1) designation:

1. Information and data that could be available by June 1, 1992 -
 - (c) Slope of the land
 - (d) Elevation above sea level
 - (e) Growing season (degree days)
 - (f) Natural precipitation
 - (g) Crop types that could be grown

2. Information and data for which an extension is sought -
 - (a) Source and availability of water
 - (b) Soils types and classification
 - (h) Description of the proposed irrigation system
 - (i) Estimated costs of developing the irrigation system

Reed and Steve agreed that the soil type and classification information requirements of our claim form would be met if Wold submitted standard SCS data for each claim parcel. In addition, we agreed that the "technically and economically possible" standard would be met if the claimant showed that the PIA proposed irrigation area was, in all pertinent ways, identical to similarly situated adjacent irrigated acreage.

Finally, Reed agreed to present their request to the Director for an extension of the June 1, 1992 PIA claim deadline. I will delay the formal request until Dale, Wold and Steve have approved this summary.

Gentlemen:

Enclosed please find a sample Klamath Allottee claim and supporting material for your review in the Klamath Basin Adjudication. This information is submitted as an initial step in bringing all the Klamath Allottee claims into compliance with Oregon statute.

Following is a description of each of the items being submitted. There are two categories of information. The first is material specific to the sample claim. It is anticipated that similar information will be submitted for all other Klamath Allottee claims in the near future. The second category is supporting information that applies to nearly all the claims. This information, should it meet with your approval, need only be sent this one time. Since there is quite a bit of information, I have numbered the individual items to correspond with the descriptions below.

Sample Claim

I have selected the first claim on our list as a sample (Owner 1, Property 1, OWRD Claim #226).

- 1) Amended engineering report. This report would supercede the report submitted in November 1992.
- 2) Amended claim map. This map now contains additional information including OWRD claim number, location of points of diversion, layout of header pipes, and a legend. Furthermore, any corrections to the acreage figures will be shown on the amended maps. The final claim maps will be stamped by a registered professional engineer.
- 3) Amended property summary table.
- 4) Supplemental Data information sheet. This sheet provides much of the information requested by OWRD that was not provided with the original claims. This information includes point of diversion for existing uses, place of use for stockwater uses, rate of use for existing domestic, stockwater, and irrigation uses, rate of use for future irrigation, points of diversion for future irrigation, total dynamic head (TDH) for each future pump, and summaries of header pipes and laterals including number of sprinklers.
- 5) Printout of cost calculations for practicably irrigable acreage (PIA).
- 6) Printout of sprinkler design spreadsheet for PIA.
- 7) Printout of pump design spreadsheet for PIA.

Supporting Information

- 8) Letter regarding the claim maps. This letter describes certain information that is common to all the claim maps including map scale, north direction, disclaimer, and use of gross PIA instead of net PIA.
- 9) Written explanation of sprinkler design spreadsheet.
- 10) Written explanation of pump design spreadsheet.
- 11) NRCE internal memorandum describing calculation of benefits from alfalfa production.
- 12) Copy of OSU Extension Service Enterprise Budget for alfalfa establishment in the Klamath Basin area.
- 13) Copy of OSU Extension Service Enterprise Budget for alfalfa production in the Klamath Basin area.
- 14) Memorandum from the economics firm Dornbusch & Company to NRCE regarding the economic analysis of PIA claims for the Klamath Allottees. This memo provides justification of the selected discount rate used in the economic analysis.
- 15) Summaries of unit cost information for pumps, sprinkler systems, and header pipes.
- 16) Copy of the cover of the U.S. Soil Conservation Service soil survey of Klamath County. This soil survey was used to determine the irrigable lands in the PIA analysis.
- 17) Copy of the electric power rate schedule used to determine cost of electricity in the PIA analysis.
- 18) Representative reference for typical OM&R percentages used in the PIA economic analysis.

In keeping with what we have done in the past, it is likely that the final amended claims will be submitted through the law office of Fredericks, Pelcyger & Hester which represents the Klamath Allottees. Therefore, the exact format and language of the enclosed information may change according to certain legal convention. However, this information is being sent at this time primarily to ensure the adequacy of the required technical information for the Allottee claims. Please review the enclosed material and provide me with any comments, corrections, or requests for additional information. We are working diligently to prepare similar information for all the Klamath Allottee claims in as timely a manner as possible.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

AMENDED RESERVED WATER RIGHTS CLAIM

ANDERSON PROPERTY
OWRD Claim No. 226

KLAMATH BASIN ADJUDICATION

June 24, 1999

Prepared by:

NATURAL RESOURCES CONSULTING ENGINEERS, INC.

I. Introduction

This Report is prepared to establish a reserved surface water rights claim for the property owned by Herman/Deborah Anderson. (Owner No. 1, Property No. 1, OWRD Claim No. 226.) Water rights are claimed for irrigation, stock, and domestic use. Stockwater claims are based upon current use. Irrigation claims are based upon current use and on the basis of practicably irrigable acreage (PIA). A prior water rights report for this property has been submitted to the Oregon Water Resources Department dated November 1, 1992. Following receipt of additional information, discussions with OWRD, and further analysis, some revisions to this report have been made. This report supersedes all previous water rights claim reports submitted for this property.

II. Stock Water

The stockwater claim is based upon current use by cattle on the property. There are 36 horses and 100 head of cows. At consumptive use rates of 10 gallons per day per horse and

12 gallons per day per head of cattle, the annual water requirement for stockwater is 1.7 acre-feet. Stock have access to the full length of the river throughout the property. The rate of water required for stockwatering is 1,200 gallons per day.

III. Domestic Water

There is no current domestic use of surface water at this property to be included in this filing.

IV. Irrigation

The irrigation claim for the parcel is based upon both current use and upon practicably irrigable acreage.

A. Current Use

The Herman/Deborah Anderson parcel (Property No. 1) was inspected by NRCE to determine current irrigation. Also, NRCE utilized information provided by the Oregon Water Resources Department. There are 95.2 acres of currently irrigated lands. Water to irrigate these acres is diverted from the Sprague River. Based on the net irrigation requirement for pasture grasses of 15.92 inches per year, and an overall efficiency of 31% (including a 10% leaching application), the annual water duty for current irrigation is 4.3 acre-feet per acre. Therefore, the diversion requirement for this area is 409.3 acre-feet of water per year.

B. Future Use

The claim for lands not currently irrigated is made on the basis of practicably irrigable acreage. Under O.A.R. §690-28-010(17) and §690-28-026(1), this requires establishing that the lands are capable of producing crops under reasonable farming practices for a reasonable number of years to offset the initial investment of farm improvements. (See also, O.A.R. §690-28-040(2).)

NRCE's study considered all of the factors set forth in O.A.R. §690-28-026 as well as other factors. NRCE first examined the natural resources essential to crop production: arable land, water supply, and climate. Once it was demonstrated that these natural resources were sufficient to grow and produce crops, NRCE then designed a conceptual irrigation development plan based on those resources. Investment costs, as well as the costs of operation and maintenance of the proposed irrigation system, were then calculated. Benefits of the irrigation project were then determined for the particular crops that were proposed to be grown. Cost and benefit data were collected from local suppliers and contractors, the Oregon State University Extension Service, and costs from similar projects. Lands in which the benefits are greater than costs are referred to as practicably irrigable lands, and as a result, they are entitled to a reserved water right. On the attached property map, these lands for future irrigation use are identified as practicably irrigable acreage.

1. Land Capability for Irrigation. The U.S. Soil Conservation Service (SCS) has ranked soil types according to their potential for sustained agricultural production. The ranking procedure, referred to as the land capability

classification system, uses Roman numerals I through VIII to describe relative, sustainable, agricultural output. Based on SCS criteria, it is generally determined that lands classified as I through IV are regarded as arable, and V through VIII are non-arable using gravity irrigation methods.

For the Anderson parcel, the SCS soils survey for the Southern Part of Klamath County was utilized. The arable soils for this parcel have been classified as belonging to Soils Group Numbers 14B, 34, and 89 which are in capability Classes IVe, IVw, and IVe, respectively. The total acreage within these soils that is not currently irrigated is termed the gross arable land, and amounts to 158.1 acres for this parcel. See the section of the Klamath County SCS Report attached hereto. These lands are arable and can be farmed with sprinkler irrigation.

2. Source and Availability of Water. The best source of water to irrigate lands on the Anderson parcel is the Sprague River. The annual natural flow volume is estimated at 238,500 acre-feet, which is an average of 329 cfs.
3. Proposed Irrigation System. NRCE designed a proposed sprinkler irrigation system to irrigate the 158.1 acres (gross arable land). Water is pumped from the Sprague River at four different points using three 10 horsepower pumps and one 100 horsepower portable electric pump. Water is then conveyed by pipeline (consisting of a total of 2,640 feet of 4-inch diameter pipe and 4,090

feet of 10 inch diameter pipe) to the sprinkler laterals, which are Hand-line sprinkler systems. In addition, a small bridge is included for access to one field.

A suitable crop for the Anderson parcel is alfalfa. The crop would be irrigated with side-roll sprinklers. The net irrigation requirement for alfalfa is 17.3 inches per year. Assuming an average overall efficiency (including a 10% leaching requirement) of 46 percent, the gross water requirement is 3.1 acre-feet per acre.

The gross acreage is reduced by 5 percent to obtain the net irrigable acreage. This 5 percent is to account for the area occupied by farm roads, ditches, structures, and other facilities. Thus, the net irrigable acreage is 150.2 acres, and the diversion requirement is 465.6 acre-feet per year.

NRCE has calculated the respective benefits and costs of the irrigation system utilizing farm budget data obtained from the Oregon State University Extension Service, Klamath County Extension Office, local sources, and others. The crop return for alfalfa is estimated as five tons per acre, at a price of \$90 per ton. This results in a gross return of \$450 per acre.

The agronomic costs of the system include fixed costs (machinery and equipment) and variable costs (fertilizer, pest control, harvest production, et

cetera). The total agronomic cost per acre for the parcel is \$221. This results in a net benefit of \$229 per acre.

The total cost for developing the proposed irrigation system is \$104 per acre (amortized on a yearly basis), which includes the pump, pipeline, access bridge, and sprinkler system, as well as operation, maintenance, and power costs. The resulting benefit/cost ratio for this parcel is 2.20, indicating that the project is economically feasible, and therefore that the net acreage of 150.2 acres constitutes practicably irrigable acres.

V. Summary of Water Claim

Water Use	Annual Claim (Acre-feet)
Stockwater	1.7
Presently Irrigated Land	409.3
Future Irrigable Acreage	465.6

**STATEMENT AND PROOF OF CLAIM
TO USE OF WATERS OF THE KLAMATH RIVER AND ITS TRIBUTARIES
BY KLAMATH INDIVIDUAL PIA CLAIMANTS**

Supplemental Data*

July 16, 1999

Claimant

Owner No.: 01 Property No.: 01 OWRD File ID: 226

Present Use Claims

Source of Surface Water: Sprague River

Point(s) of Diversion: T 36 S, R 12 E, Section 13, NW 1/4, NE 1/4 1/4.

Diversion System: Ditch (Dirt)

System Capacity: 3.2 cfs Pump Capacity (if applicable): 570 gpm

Stockwater

Duty: 1.7 Ac-ft Rate: 1,200 gpd

POU: NE 1/4 1/4, SW 1/4, Sec. 13 NW 1/4 1/4, NW 1/4, Sec. 13

SE 1/4 1/4, NW 1/4, Sec. 13 NE 1/4 1/4, NE 1/4, Sec. 14

NE 1/4 1/4, NW 1/4, Sec. 13 NW 1/4 1/4, NE 1/4, Sec. 14

SW 1/4 1/4, NW 1/4, Sec. 13 SW 1/4 1/4, NE 1/4, Sec. 14

This statement and proof of claim form is being filed pursuant written correspondence from the Oregon Water Resources Department dated March 1999 and is intended to supplement data previously submitted.

Domestic

Nature of Use: No current domestic use claim

Duty: N/A Rate: N/A

Irrigation

Duty: 409.3 Ac-ft Rate: 1.3 cfs*

*Based on existing pump capacity as specified by OWRD. Rate based on irrigation requirement is 2.4 cfs.

Future Irrigation (PIA)

Source of Surface Water: Sprague River

Duty: 465.6 Ac-ft Rate: 2.7 cfs

Point(s) of Diversion

Mr. Don Knauer
Mr. Dick Bailey
Oregon Water Resources Department
158 12th St. NE
Salem, OR 97310

Gentlemen:

This letter is to provide you with certain information regarding the Klamath Allottee claim maps. These maps were originally submitted in November 1992 along with the final Statement and Proof of claim forms, engineering reports, and property summaries. This letter is being furnished as requested by Mr. Don Knauer during our meeting in Salem on April 21, 1999. It is anticipated that this letter will satisfy certain mapping requirements of OWRD that were noted as being absent from the original claim maps.

The following comments apply to all the Klamath Allottee claim maps:

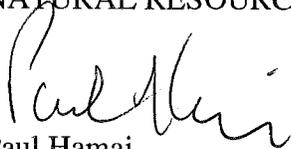

- The scale of all the maps is the same. One inch equals $\frac{1}{4}$ mile (1,320 feet). This is equivalent to 1:15,840 scale.
- The maps are oriented such that when reading the maps in the standard horizontal, left to right convention (landscape), north is the top of the page and east is the right hand side of the page. The legend, Owner and Property numbers, and acreage figures are written to conform with this convention.
- The maps are presented for the purpose of identifying the location of the water right only and are not intended to provide legal dimensions or locations of property ownership lines.
- The claim maps show both present irrigation and *gross* practicably irrigable acreage (PIA) by $\frac{1}{4}$ - $\frac{1}{4}$ Section. However, OWRD has requested that the maps show *net* PIA by *Government Lot*. The claim maps were produced by hand (as opposed to computer aided design) with the acreage numbers done by "cut and paste" and cross hatching done by applying patterned film. To redo these maps would essentially require NRCE to start over, necessitating a tremendous amount of time and budget. The information being sought by OWRD is more or less contained in the existing maps. A Government Lot is typically 20 acres and aligns with either the north or south half of a $\frac{1}{4}$ - $\frac{1}{4}$ Section. Net PIA is determined simply by reducing the gross acreage by 5%. In addition, it should be noted that the Klamath Allottee claims are somewhat unique in that they are not entirely dependent on existing irrigation (i.e., PIA). These issues were discussed with Mr. Don Knauer.

NRCE does intend to make some changes to the maps as discussed during the April 21st meeting. These changes including adding the future points of diversion, showing the main header pipes and ditches, and adding the new OWRD claim numbers.

Please do not hesitate to contact me should you have any questions regarding this letter.

Sincerely,

NATURAL RESOURCES CONSULTING ENGINEERS, INC.

Paul Hamai

**KLAMATH RIVER ADJUDICATION
KLAMATH ALLOTEE PIA CLAIMS**

Explanation of Sprinkler Design Spreadsheet
Prepared by NRCE, Inc.

Soil Layer Characteristics Block

For each field, the soil characteristics are analyzed to determine appropriate sprinkler application rates. Soil information is obtained from the Soil Conservation Service (SCS) Soil Survey of Klamath County, Oregon, Southern Part. For each soil type present in the particular field, the characteristics of the top four feet are presented. These four feet are typically separated into distinct layers of differing properties. The properties of all the layers of all the soils are then combined as an area weighted average to produce the overall properties of the field.

Soil No.: Map symbol assigned to the soil type by SCS.

Area: The area, in acres, of the particular soil type within the field.

Top Dist. from Surf.: Top distance from surface, in.

Bottom Dist. from Surf.: Bottom distance from surface, in.

AWHC: Available water holding capacity as reported by the SCS, in/in.

Perm.: Permeability as reported by the SCS, in/hr.

Layer Thick.: Layer thickness, in.

Sprinkler System Input Block

No. days off/irr. cycle: Number of days off per irrigation cycle. Assumed to be one day.

Input Appl. Efficiency, Ea: On-farm application efficiency. Assumed to be 60%.

Lateral Spacing: Assumed to be 60 feet.

Sprinkler Spacing: Assumed to be 40 feet.

LR: Leaching requirement. Assumed to be 0.1 (10%).

Re: Factor used to account for runoff or evaporation in calculation of application rate.

Hours per irrigation set: Assumed to be either 11 hours or 23 hours based on one or two sets per day, respectively. One hour is allowed to move the laterals.

No. of sets per day: Number of sets per day based on hours per irrigation set.

Calculations Block

WHC: Area weighted water holding capacity, in/ft.

Irrig. Appl.: Net irrigation application. Calculated as the product of MAD, WHC, and soil depth.

Infiltr.: Weighted infiltration rate of the field based on permeabilities of different soil types, in/hr.

Peak ET: Peak daily evapotranspiration rate, in/day. Calculated from the SCS empirical formula:

$$E_d = 0.034 E_m^{1.09} I^{-0.09}$$

where, E_d = peak daily evapotranspiration, in
 E_m = mean monthly evapotranspiration for peak month, in
 I = net irrigation application, in

dx: Maximum depth of irrigation, in. Assumed to be the same as the net irrigation application.

fx: Maximum irrigation interval or cycle, days. Calculated as dx divided by *Peak ET*.

da: Depth of irrigation per irrigation interval, in. Calculated as fx times *Peak ET*.

f: Maximum irrigation interval less the number of days off per interval.

Nm: Number of moves per lateral per irrigation interval. Calculated as f divided by the hours per irrigation set.

Lm: Maximum main line length per lateral, ft. Calculated as Nm times the lateral spacing.

d: Gross application depth. Calculated from the equation:

$$d = \frac{0.9 da}{(1-LR)Ea}$$

where, d = gross application depth, in
 da , LR , and Ea are as described previously

Lateral Design Block (for both wheel-line and hand-line)

Number of laterals determined based on field size.

Number of sets per lateral based on field size and header pipe length.

Design flow rate calculated from the following equation:

$$\frac{\text{number of laterals} * \text{peak ET} * \text{lateral spacing} * \text{lateral length} * 24}{Ea * \text{hours per irrigation set} * \text{number of sets per day} * 2309.85}$$

Total number of sprinkler heads calculated by the lateral length divided by sprinkler spacing.

Flow per sprinkler calculated by design flow rate divided by number of sprinklers.

Application depth calculated from the following equation:

$$\frac{\text{number of sets per lateral} * \text{peak ET}}{Ea * \text{number of sets per day}}$$

Average application rate calculated by application depth divided by hours per irrigation set.

Extra Laterals for Operational Purposes

Laterals are added manually to the design for irregular shaped or remote fields. In these cases it is assumed the landowner would purchase a separate lateral for these areas rather than moving a hand-line or wheel-line system. These laterals do not affect the design flow rate but are included for costs purposes.

**KLAMATH RIVER ADJUDICATION
KLAMATH ALLOTEE PIA CLAIMS**

Explanation of Pump Design and Cost Estimation Spreadsheet
Prepared by NRCE, Inc.

Input Block

Annual NIR: Annual net irrigation requirement for selected crop, in/yr

Conv./Dist. Efficiency: Conveyance/distribution efficiency. The efficiency associated with bringing water from the source to the on-farm system.

Overall System Efficiency: Overall system efficiency is 46%. Calculated as the product of application efficiency and conveyance/distribution efficiency. A leaching requirement of 10% is also included in this so that the equation is:

$$E_s = E_a * E_c * (1 - LR)$$

where, E_s = overall system efficiency
 E_a = application efficiency (60%)
 E_c = conveyance/distribution efficiency (85%)
 LR = leaching requirement (10%)

On-Farm System Discharge: Maximum water rate applied at the field.

Peak Water Use Rate: Peak rate to be delivered through the irrigation system. Calculated as the on-farm system discharge divided by the conveyance/distribution efficiency.

Elev of Water Source: Elevation, in feet, of the surface water source from which water is diverted.

High System Point Elev: Highest delivery point elevation, in feet, of the irrigation system.

Length of Header: Total length of header pipe required to deliver water from the source to the laterals, feet.

Max. Header Length: Length of longest header pipe, feet. This can be different from the total length of header pipe in branching systems. The length of the longest header is required to calculate friction losses for the pumping requirement.

Length of Lateral(s): Total length of all lateral pipes, feet.

Operating Pressure: Design operating pressure of the on-farm system. Assumed to be 45 psi for sprinklers, 0 psi for gravity systems.

Number of Laterals: Number of laterals required for parcel. Determined in SPRINKLER spreadsheet.

Side Roll Fixed Cost: Cost for side roll drive and accessories. Includes mover, valve opener, adapter, elbow, 60' pipe, delivery, and set-up.

5" Side-Roll Cost per Foot: Cost includes 7' diameter wheels, sprinkler heads, levelers, and pipe with couplings.

Hand Move Fixed Cost: Cost includes valve opener, 60' pipe, elbow, and end plug.

5" Hand Move Cost per Foot: Cost includes pipe with couplings.

Computations Block

Min. Header Pipe Dia.: Minimum header pipe diameter calculated based on the assumed maximum velocity and peak water use rate.

Header Pipe Dia. Used: Selected header pipe diameter based on available sizes.

Annual Diversion Req.: Annual diversion requirement calculated from the annual NIR divided by the overall efficiency. Presented in both ac-ft/ac and ac-ft.

Static Head: Difference between the water source elevation and high system point elevation, feet.

Header Pipe Head Loss: Head loss due to friction in the header pipe, feet. Calculated from the Hazen-Williams equation using a C value of 120.

Total Dynamic Head: Total pumping head requirement in feet calculated as the sum of static head, header pipe head loss, and operating pressure.

Electrical Horsepower: Horsepower required to run the pump using an assumed efficiency of 60%.

Pump Size Selected: Based on available pump sizes.

KW input to motor: Conversion of horsepower to kilowatts.

Hours operation/year: Hours of pump operation per year calculated by the annual diversion requirement divided by the peak rate.

Annual Power Use: Calculated kw multiplied by hours of operation per year.

Component Costs Block

All costs are presented in totals and on a per acre basis. See cost information data sheets for unit pump, sprinkler, and header pipe cost.

Energy Cost Computation

See rate schedule from Pacific Power and Light, Klamath Falls, OR.

Based on actual usage: The annual power use multiplied by the unit cost of \$0.0075/kwh.

Minimum Energy Cost

for first five years: \$111.60 per year for the first 10 hp. An additional \$10.80 per hp for all hp above 10 hp. Use this if greater than the cost based on actual usage.

after Year 5: One-half the minimum energy cost for the first five years.

Amortized Energy Cost: The equivalent annual energy cost used in the cost analysis. Presented as a total and on a per acre basis.

MEMORANDUM

To: Files
From: Paul Hamai, NRCE (Klamath Project Manager)
Date: July 15, 1999
Subject: Calculation of Benefits from Alfalfa Production for the Klamath Adjudication

The determination of the benefits from alfalfa irrigation used in the Klamath Allottee PIA analysis is based on the two documents published by Oregon State University (OSU) Extension: 1) *Enterprise Budget, Alfalfa Production, Klamath Basin Area* (EM 8430, May 1990) and 2) *Enterprise Budget, Alfalfa Establishment, Klamath Basin Area* (EM 8461, May 1990). Certain modifications to the analysis presented in these documents are appropriate when applying the economic costs and returns to the Klamath Allottees. These modifications are discussed below. The analysis presented in this memorandum is based on a review of the OSU Extension documents by the economics consulting firm Dornbusch & Company. When a particular cost is not discussed, it can be assumed that the same analysis and dollar figures as presented by OSU Extension is used in the analysis.

The OSU Extension *Alfalfa Production* budget Em 8430 presents a summary of fixed costs on Pages 2 and 3. The following comments apply to this summary.

Gross Income

- Gross Income — Total gross income is \$450 per acre.

Variable Costs

- Irrigate — Both the labor and materials costs listed under this category for the items Water, Electricity, and Repairs are not added because these costs are determined elsewhere by NRCE and included with the fixed costs.

Fixed Costs

- Land Rent — Because the Klamath Allottees own the land they are proposing to irrigate, this cost is not applicable.
- Amortized Establishment Cost — The OSU Extension *Alfalfa Establishment* budget EM 8431 lists a net establishment cost of \$342 per acre. Removing the land rent and irrigation costs as described under the Alfalfa Production costs results in a reduced establishment cost of \$123 per acre. This cost amortized over 6 years at the 4% real rate assumed by NRCE (see the Dornbusch memorandum dated May 22, 1999) instead of the 10% nominal rate assumed by OSU Extension results in an amortized establishment cost of \$23.46 per acre. This figure is used instead of the \$78.45 per acre listed in the production budget.
- Irrigation System - Depreciation and Interest — This cost is determined separately by NRCE for each Allottee and included elsewhere in the overall economic analysis of PIA lands.

- Machinery & Equipment - Depreciation and Interest — This cost is calculated by NRCE in the spreadsheet BENEFITS.WB3. The cost is determined by subtracting the present value of the salvage value for each machine from its current market value, amortizing this difference using the machine remaining life and the assumed discount rate of 4%, and dividing the amortized value by 300 to get the per acre annual cost. The resulting cost is \$47.78.
- Pole Shed - Depreciation & Interest — This cost is included in the estimate of machinery fixed costs and, therefore, is not included as a separate line-item.

The total agronomic fixed and variable costs (not including the irrigation system) is \$221 per acre. Accordingly, the net benefit from alfalfa production used in the Klamath Allottees PIA analysis is $\$450 - \$221 = \$229$ per acre.

BENEFITS.WB3

Enterprise Budget

Alfalfa Establishment, Klamath Basin Area

Tim Cross, Extension economist,
Rodney Todd, Extension agent/Klamath County, and
Herb Vloedman, Market news coordinator,
Oregon State University.

EM 8431, May 1990

This enterprise budget estimates the typical costs and returns of establishing alfalfa in the Klamath Basin area of south central Oregon. It should be used as a guide to estimating costs and returns and is not representative of any particular farm. The major assumptions used in constructing this budget are discussed below. Assistance provided by area producers is greatly appreciated.

Alfalfa establishment takes 1 year. Following the establishment year are 6 years of production. The costs and returns of alfalfa production may be found in *EM 8430, Alfalfa Production, Klamath Basin Area*.

Land and Irrigation

This budget is based on establishment of 300 acres of alfalfa. A land charge of \$75 per acre is included to represent the annual cost of renting land.

Irrigation system costs are based upon a side-roll irrigation system valued at \$300 per acre including pump and well costs. The irrigation system has a 20-year life and no salvage value. Using straight-line depreciation results in a \$15 per acre annual irrigation system depreciation charge. Interest on the average investment is calculated to be 10% of \$150 per acre, or another \$15 per acre. Irrigation repairs are \$2 per acre, including replacement of nozzles and seals as needed.

Labor

Hired labor typically costs approximately \$8.00 per hour including social security, FICA, and other payroll expenses. For this study, all labor is treated as owner/operator labor valued at \$8.00 per hour and therefore assumed to be a noncash cost.

Capital

Opportunity costs of capital are charged at a rate of 12% for current and intermediate capital provided by the owner.

Machinery and Equipment

The machinery complement is sufficient to establish and harvest the 300 acres of alfalfa on the farm in a timely manner. A detailed breakdown of machinery values used in these budgets is shown in table 1. August, 1989 replacement costs are used, assuming

the machinery is half depreciated. Estimated machinery costs are shown in *EM 8430, Alfalfa Production, Klamath Basin Area*.

Operations

Cultural operations are listed in the budget in the order they are performed, beginning in the fall of the year. The land is assumed to be coming out of a grain crop at the beginning of this establishment year. Consult your Extension agent for recommendations on specific practices.

Ground preparation includes rototilling and ripping in the fall, followed by discing, floating, and rototilling in the spring. A pre-plant herbicide is incorporated during the spring rototilling. Next, 12 pounds of seed are applied per acre using a grain drill. During the growing season, 20 acre-inches of water is applied. Two-hundred pounds of sulfur is supplied. Custom fertilizer application costs \$4.00 per acre.

Harvest consists of one and one-half cutting of hay yielding 2 tons. A 14-foot self-propelled swather is used to cut the hay. The hay is raked once prior to baling. A bale-wagon is used to stack the hay at the shed, and a squeeze is then used to load trucks as the hay is sold.

A pickup is driven 15,000 miles annually, and half of these miles are charged to the alfalfa crop. An ATV is used to monitor the crop and irrigation system. General overhead is included to account for bookkeeping expenses, subscriptions, seminars, and other miscellaneous items related to alfalfa establishment.

Establishment Cost

The budget shows that variable cost for alfalfa establishment is \$280.18 per acre, and fixed cost is \$241.45 per acre. Subtracting total cost from gross income of \$180.00 per acre leaves a net establishment cost of \$341.63 per acre. This amount is amortized over 6 years at 10% interest to allocate establishment costs over the life of the alfalfa stand, resulting in an annual establishment cost of \$78.45 per acre.

Enterprise Budget

Alfalfa Production, Klamath Basin Area

Tim Cross, Extension economist,
Rodney Todd, Extension agent/Klamath County, and
Herb Vloedman, Market news coordinator,
Oregon State University.

EM 8430, May 1990

This enterprise budget estimates the typical costs and returns of producing alfalfa in the Klamath Basin area of south central Oregon. It should be used as a guide to estimate costs and returns and is not representative of any particular farm. The major assumptions used in constructing this budget are discussed below. Assistance provided by area producers is greatly appreciated.

The alfalfa production budget includes the amortized cost of establishment shown in *EM 8431, Alfalfa Establishment/Klamath Basin Area*. A 6-year production life is assumed for established alfalfa. The establishment cost is based on \$342 net establishment cost amortized at 10% over 6 years, for an annual charge of \$78.45 per acre.

Land and Irrigation

This budget is based on 300 acres of alfalfa. A hay shed valued at \$30,000 provides storage for 750 tons of hay. A land charge of \$75 per acre is included to represent the annual cost of renting land.

Irrigation system costs are based upon a side-roll irrigation system valued at \$300 per acre including pump and well. The irrigation system has a 20-year life and no salvage value. Using straight-line depreciation results in a \$15 per acre annual irrigation system depreciation charge. Interest on the average investment is calculated to be 10% of \$150 per acre, or another \$15 per acre. Irrigation system repairs are \$2 per acre, including replacement of nozzles and seals as needed.

Labor

Hired labor typically costs approximately \$8.00 per hour including social security, FICA, and other payroll expenses. For this study, all labor is treated as owner/operator labor valued at \$8.00 per hour and therefore assumed to be a noncash cost.

Capital

Opportunity costs of capital are charged at a rate of 12% for current and intermediate capital provided by the owner.

Machinery and Equipment

The machinery complement is sufficient to establish and harvest the 300 acres of alfalfa on the farm in a timely manner. A detailed breakdown of machinery values used in these budgets is shown in table 1. August, 1989 replacement costs are used, assuming the machinery is half depreciated. Estimated machinery costs are shown in table 2.

The hours of annual use for machinery are calculated based on the machinery's field capacity in acres per hour. The annual use values in table 1 represent the hours the machinery is used to maintain and harvest 300 acres. Costs per hour are calculated based on these hours of use.

Operations

Fertilizer is applied in the form of 200 pounds of sulfur every third year. The sulfur is applied by a custom application. Several operations are used to control pests. Rodent control is performed every year. Herbicide is applied every second year to control weeds. Finally, each field is harrowed once per year.

Twenty acre-inches of water are applied throughout the growing season. Harvest consists of 2.5 cuttings, with a typical yield of 5 tons per acre. A self-propelled swather is used to cut the hay, which is then raked. Following baling, a bale wagon is used to collect the bales in the field and stack them at the pole shed. Half of the baled hay is moved into the shed using a hay squeeze. As the hay is shipped, the squeeze is also used to load the trucks.

A pickup is driven 15,000 miles annually, and half of this use is charged to the alfalfa crop. An ATV is also used to monitor the crop and irrigation system. General overhead includes expenses for bookkeeping, subscriptions, seminars, office supplies, etc.

Memo

May 22, 1999

To: NRCE
From: Jason Bass
Dornbusch & Company

Re: Klamath Indian Reservation PIA Analysis – Economics

The Bureau of Reclamation and other Federal agencies, as well as international agencies, such as the World Bank, typically evaluate prospective irrigation projects from the standpoint of a country's overall economy (known as an **economic** analysis), rather than the standpoint of an individual farmer within the project (known as a **financial** analysis).

Any private individual or corporation developing an irrigation project for themselves would tend to use a financial analysis to evaluate project feasibility because they would be concerned only with the profitability of the project to themselves. If an irrigator were able to obtain private financing to develop a project he/she would use a financial analysis to determine whether the project would be profitable.

The economic approach is used by international and federal agencies because they are typically concerned with the efficient allocation of a nation's resources as a whole. The economic analysis calculates the value to a nation's overall economy of the resources used and produced by a project. This form of analysis can thus be employed to ascertain whether or not a particular project would be a good investment for a nation. In general, if a substantial source of financing for a project is likely to be the government then it is appropriate to apply economic analysis methods when assessing feasibility. Depending on the influence of subsidies, the cost of money (interest) and some of the other factors discussed herein, financial and economic analyses may reach similar or disparate conclusions on the feasibility of a project.

As with other Indian Irrigation projects (e.g., NAPI, Ak Chin, Gila River, Yakima etc.), the most likely source of funding for the Klamath Indian Reservation irrigation project proposed in NRCE's the PIA analysis would be the Federal government. Therefore, an economic rather than a financial approach was used to assess the project's feasibility. Moreover, the use of economic instead of financial analysis methods to evaluate a federal irrigation project provides a more stringent test of feasibility. This is due to the Leavitt Act (25 U.S.C. 386a), which effectively allows the United States to defer repayment of monies spent in constructing irrigation projects (what amounts to a subsidy). Since the principal cost of expanding irrigated acreage on the Klamath Reservation will be for the construction of diversions and delivery systems, among other components, a full construction subsidy would virtually guarantee the project's financial feasibility. At the same time, such a subsidy would not have any effect on the project's economic feasibility (as explained below).

The remainder of this memo examines the primary analytical differences between economic and a financial analysis in the treatment of commodity prices, investment subsidies, taxes and, discount rates. Each of these is discussed in turn:

A. Commodity Prices

In a financial analysis of an irrigation project proposal it is appropriate to use the actual prices a grower has to pay or would receive for commodities bought and sold. These prices (including any subsidies) would accurately reflect the anticipated cash flow of the individual grower. The objective of an economic analysis, however, is to price commodities at a level that indicates their value to the economy. Subsidies are payments from the government to the grower without the government receiving any goods or services in return - a type of transfer payment. They do not represent any net gain in value to the overall economy, only a transfer of money. Accordingly, in an economic analysis, subsidies are removed from commodity prices in calculating gross production revenues. Sugar is an example of a price supported by federal policy to a level above the world market price. For sugar, a financial analysis would use the support price - the dollar amount the grower receives for his/her production (subsidy included), while an economic analysis would use the world market price - the additional value to the economy generated by the sugar's production.

In the Klamath Reservation analysis, the commodities selected for the project are un-subsidized and thus the assumptions on commodity prices would be applicable to both a financial and an economic analysis.

B. Investment Costs

As mentioned above, the Leavitt Act allows some Indian Reservation construction loan payments to be deferred indefinitely. A financial analysis would recognize this relief (typically the principal project development costs) and a project could be considered feasible even if it could not cover the costs of its construction loan. In an economic analysis, however, this federal policy does not override the principle that for a project to be feasible, its economic costs have to be addressed. The loan payments represent a cost to the nation (the foregone use of monies in other economic activities) and thus must be fully accounted for in determining the net benefit of the project to the nation's economy.

NRCE's approach in its Klamath Reservation analysis is consistent with this approach.

C. Taxes

Most taxes are those levied to raise revenues for general purposes, rather than payments in exchange for specified goods and services. A use tax is one of the few examples of a tax levied in exchange for goods or services. In the case of use taxes, a government entity levies the tax as a fee for services rendered, such as payments for the use of a public

facility like a park. In this case value is being received (enjoyment of a park) that is directly tied to the payment of the use tax. In an economic analysis, this type of use tax payment would be recognized as a purchase of goods or services and would be counted as a cost or a benefit in the analysis.

Most taxes are levied simply to raise general revenues and are not payments that are directly exchanged for something of value. Income taxes, for example, go into a general fund and do not pay for specific goods or services that the taxpayer only receives if he/she pays taxes. Because taxes are not usually linked to an exchange of goods or services they are excluded from an economic analysis. Such general taxes can be thought of not as a cost of operations but as a redistribution of monies between individuals and the government (no additional cost or benefit to the overall economy, just a redistribution of wealth).

Both kinds of taxes would be included in a financial analysis of an irrigation development because both represent cash outflows that reduce the profits available to an irrigator.

The NRCE analysis appropriately eliminates property taxes not only because most of those taxes are general taxes, but also because the Reservation irrigators would not have to pay such taxes given the federal reservation status of their lands.

D. Discount Rate

A development project is considered to be economically feasible when its benefits are equal to or exceed its costs. A problem in comparing a project's benefits with its costs is that those benefits and costs do not all occur at the same point in time. Most of the construction costs are incurred during the development phase of a project, whereas replacement of equipment occurs periodically throughout a project's life, and operating costs are incurred and economic benefits received during each year a project is in operation.

To relate the projected stream of benefits and costs of a project to each other, it is thus necessary to recognize that money has a "time value". A dollar today has a greater value than a dollar in the future - a reality that is recognized in every loan transaction. To illustrate, if Party A loans \$100 to Party B for ten years, Party A will require Party B to repay something more than \$100 at the end of the ten year period. The additional amount that must be paid reflects the "time value" of the \$100 loan.

To recognize the time value of money, a discount (interest) rate is used to convert the value of future dollars to current dollars. To determine an appropriate discount rate for this task, one must consider each of three factors. First, there is the basic time value of money described above - the base rate. Second, most investments have some degree of risk associated with them. The level of risk may be reflected in a premium being added to the base rate. However, if the investment is considered to be risk-free, or if all risks are accounted for elsewhere in the analysis, then it may not be necessary to add anything to

the base rate for risk. The third factor recognizes inflation of the value of the dollar itself. If the value of the dollar is expected to decline in the future, more future dollars must be used to repay a loan to compensate the lender for the lost value of the dollars loaned. An adjustment for inflation is usually made by adding the expected inflation rate to the base rate. The subsequent discount rate would be considered a "nominal" rate as opposed to a base or "real" rate which would not include an adjustment for risk or inflation.

To determine an appropriate discount rate, it is therefore necessary to determine an appropriate value for risk and inflation to add to the base rate.

1. Risk

An often used, but relatively inaccurate way to account for risk in a feasibility analysis is to add some all-inclusive premium for risk to the base discount rate. Such a premium is usually estimated from historic rates of return for different publicly traded financial instruments such as corporate bonds. The specific rate used depends on the analysts general opinion of the bond or other instrument that carries similar risk for investors as would the project being analyzed.

Such an approach can be very inaccurate and was not used by NRCE to evaluate the Klamath irrigation proposal. Instead, the production risks from uncertainty in water supply, weather, etc. are reflected in the estimates for crop yields, crop prices, cultivation costs, etc. used in the analysis. For example, the yields assumed in the analysis are not the best yields that can be attained, rather, they represent a typical yield for growers in the area based on the climatic, water supply, and land quality conditions of the proposed Reservation development. Similarly, the crop prices used in the analysis are not the highest prices received in any one year but for the most part reflect typical prices recently received for those commodities as presented in Oregon Extension Service's crop budget analyses.

Therefore, the discount rate used in the analyses does not include an additional percentage for project risk. To account for risk in the discount rate would be to double-count and thus overstate its impact.

2. Inflation

Certainly, inflation will cause costs and prices to increase in the future. But a special feature of the relationship between those future costs and prices and the discount rate makes it possible to avoid having to speculate on a specific rate of future dollar inflation.

Whatever future inflation rate is used in estimating future costs and prices, precisely the same inflation rate must be incorporated into the discount rate used in the analysis. Consistency is the rule. If the future rate of inflation is estimated to be, for example, 5%, future costs and prices will be increased annually by 5% and the same 5% rate of inflation needs to be included in the discount rate to calculate the present value of those future

dollars. It turns out that because the same inflation rate is used in estimating future prices/costs as in determining the discount rate, it does not matter what rate of inflation is estimated or assumed.¹ The results of the analysis, that is the benefit/cost ratio, would always be the same. Therefore, one could use any rate of inflation to determine the benefit/cost ratio, including 0%. Even if one recognizes that inflation of the dollar will cause future increases in costs and prices, one can accurately calculate the project's benefit/cost ratio by assuming a zero inflation rate in future costs and prices, as long as one is consistent and similarly assumes a zero inflation rate in the discount rate used. Following general practice in project evaluation this is the approach used in the NRCE project economic analysis.²

3. Appropriate Discount Rate

Therefore, NRCE appropriately evaluated the benefit/cost ratio for the proposed Klamath Reservation development using a discount rate that does not include premiums for risk or for inflation, in other words, a "real" discount rate.

In determining the appropriate real rate, it is important to consider the most probable source of financing for the proposed irrigation project. As stated previously, in the case of the Klamath Reservation, that source would most likely be the Federal government. The "cost" of such funds indicates the appropriate discount rate.

Since it is unlikely that the Federal government would charge interest on the money, and might even provide financing as an outright grant, the actual cash cost of such funds would probably be zero. Consequently, if the approach used by NRCE was a "financial" analysis, and the actual cash flow experienced by the project owner was to be estimated, the use of a zero discount rate and possibly even a zero cost of capital may have been justified. However, because an "economic" analysis was used to assess feasibility, all costs were estimated by the value of resources in their best alternative use and not accounted for simply in terms of cash flow. In an economic analysis, the value of Federal funds are best represented by their opportunity cost, i.e. the cost of the capital which those funds are displacing. Since the sources of Federal monies are debt and taxes, the cost of Federal debt and tax revenues should be used to calculate the appropriate discount rate.

Federal Debt: As the proposed irrigation project on the Reservation represents a long-term project, long-term Federal debt is the most likely source for the debt portion of the funds. The cost of long-term Federal debt is indicated by the price of long-term Federal bonds. Since an inflation-free discount rate is needed, it is necessary to remove the inflation component from the bond rate to determine the inflation-free "real" bond rate (federal bonds are considered a risk free instrument and therefore are

¹ Professor Howe unambiguously makes this point. "Thus we conclude that, in the case of general inflation, it makes no difference whether we use (1) benefits and costs all stated in construction period prices and a discount rate containing no inflationary premium, or (2) benefits and costs in the prices of the period in which each is incurred and a discount factor that fully compensates for the rate of inflation." Howe, p. 81.

² Howe, p. 55; and Gittinger, p. 76.

assumed to have no risk premium reflected in their rate of return). That task has been performed by Ibbotson Associates.³

Ibbotson Associates calculated that from 1926 to 1994, the inflation-free cost of long-term Federal Bonds was 1.7% or 2.1%, depending on whether one uses a geometric mean or an arithmetic mean to calculate the rate. It is also interesting to note that even with the high inflation of the 1970's and early 1980's, the real rate (net of inflation) has held relatively constant over time. Therefore, it is reasonable to assume that the real yield on long-term government bonds will continue to be relatively constant at about 2.0%.

Federal Tax Revenues: The opportunity cost of Federal tax revenues is the return on investment foregone on money paid in taxes. In other words, it is necessary to consider the return that might have been earned by taxpayers on money that was paid to the Federal government in taxes instead of being privately invested. Although there is no information available on the return that might have been earned from the investment foregone by taxpayers, data was obtained on the average return that has been obtained historically by all taxpayers, including all industrial and commercial sectors, households, and institutions.⁴ The average so-called "own-rate" of return for all taxpayers is about 4.8%. According to Barbara Fraumeni, one of the individuals who calculated the rate, "own-rate" is a good proxy for "real rate".⁵

Since investors will choose the best return first and accept lower and lower returns until they are out of investment capital, the average return is clearly higher than the marginal return that would have been earned on money had it not been paid to the government in taxes. Therefore, the opportunity cost of Federal tax revenues is lower than the 4.8% average rate. How much lower is not known, but it is lower. Accordingly, a conservatively high estimate of the rate foregone by all taxpayers is about 4%, though it could very well be much lower.

Therefore, the opportunity cost of the Federal funds is in the range of 2% (based upon the federal long-term bond rate) to 4% (the opportunity cost of Federal tax revenues). Therefore, NRCE's assumption in its Klamath analysis of a 4.00% discount rate is not only reasonable but conservatively high. It should be noted that the real discount rate recently used by the Bonneville Power Association (BPA) to evaluate the economic feasibility of alternative Columbia River operation plans was 3%. According to the BPA Operation Plan EIS, the discount rate used, "specifically excludes an allowance for future

³ Stocks, Bonds, Bills, and Inflation 1995 Yearbook, Market Results for 1926-1994, Ibbotson Associates, Chicago Illinois, 1996.

⁴ Rates of Return by Industrial Sector in the United States, 1948-76, Barbara M. Fraumeni and Dale W. Jorgenson and updated in The Role of Capital in U.S. Economic Growth, 1948-1979; Measurement Issues and Behavior of Productivity Variables, edited by Ali Dogramaci, Klawer Nijhoff Publishing, 1986, Boston, pp. 161-244.

⁵ Own-rate is the rate of return with inflation subtracted from assets, meaning the investment in the denominator and capital gains in the numerator. Inflation is not subtracted from income in the numerator, so if anything the real inflation-free rate might be somewhat lower than the own-rate if inflation were subtracted from income in the numerator. However, Ms. Fraumeni said that most people use, and she recommends using, own-rate as a proxy for the real rate.

inflation and is considered to be an estimate of the real rate of return; i.e., the rate of return on all types of investments after the return has been adjusted to remove the effects of inflation.”⁶

OREGON DIVISION

UPPER KLAMATH RIVER BASIN
IRRIGATION AND AGRICULTURAL DRAINAGE PUMPING SERVICE
(For Users Not on Project Land*)

35

APPLICABILITY

Applicable to single phase or three phase alternating current electric service, at such voltage as the Company may have available at the Customer's premises, for the operation of off-Klamath Project pumping installations using 10 H.P. motors or over for general irrigation purposes and the drainage of agricultural lands.

TERRITORY

Within the territory served in Oregon by the Company in the Upper Klamath River Basin, as shown on Exhibit A, attached.

RATES

10 horsepower motors or over.

Energy Charge:	Per Meter Per Month
All kwhr, per kwhr	0.75¢

RECEIVED
AUG 10 1992
N.R.C.E.
.0075

Minimum Charge:

First five year seasonal minimum charge shall be \$111.60 for the first 10 horsepower and \$10.80 per horsepower for all excess horsepower based upon rated horsepower connected but not less than \$111.60 per season.

After the fifth year of continuous use of the same installation, the minimum charge shall be one-half of the first five-year period.

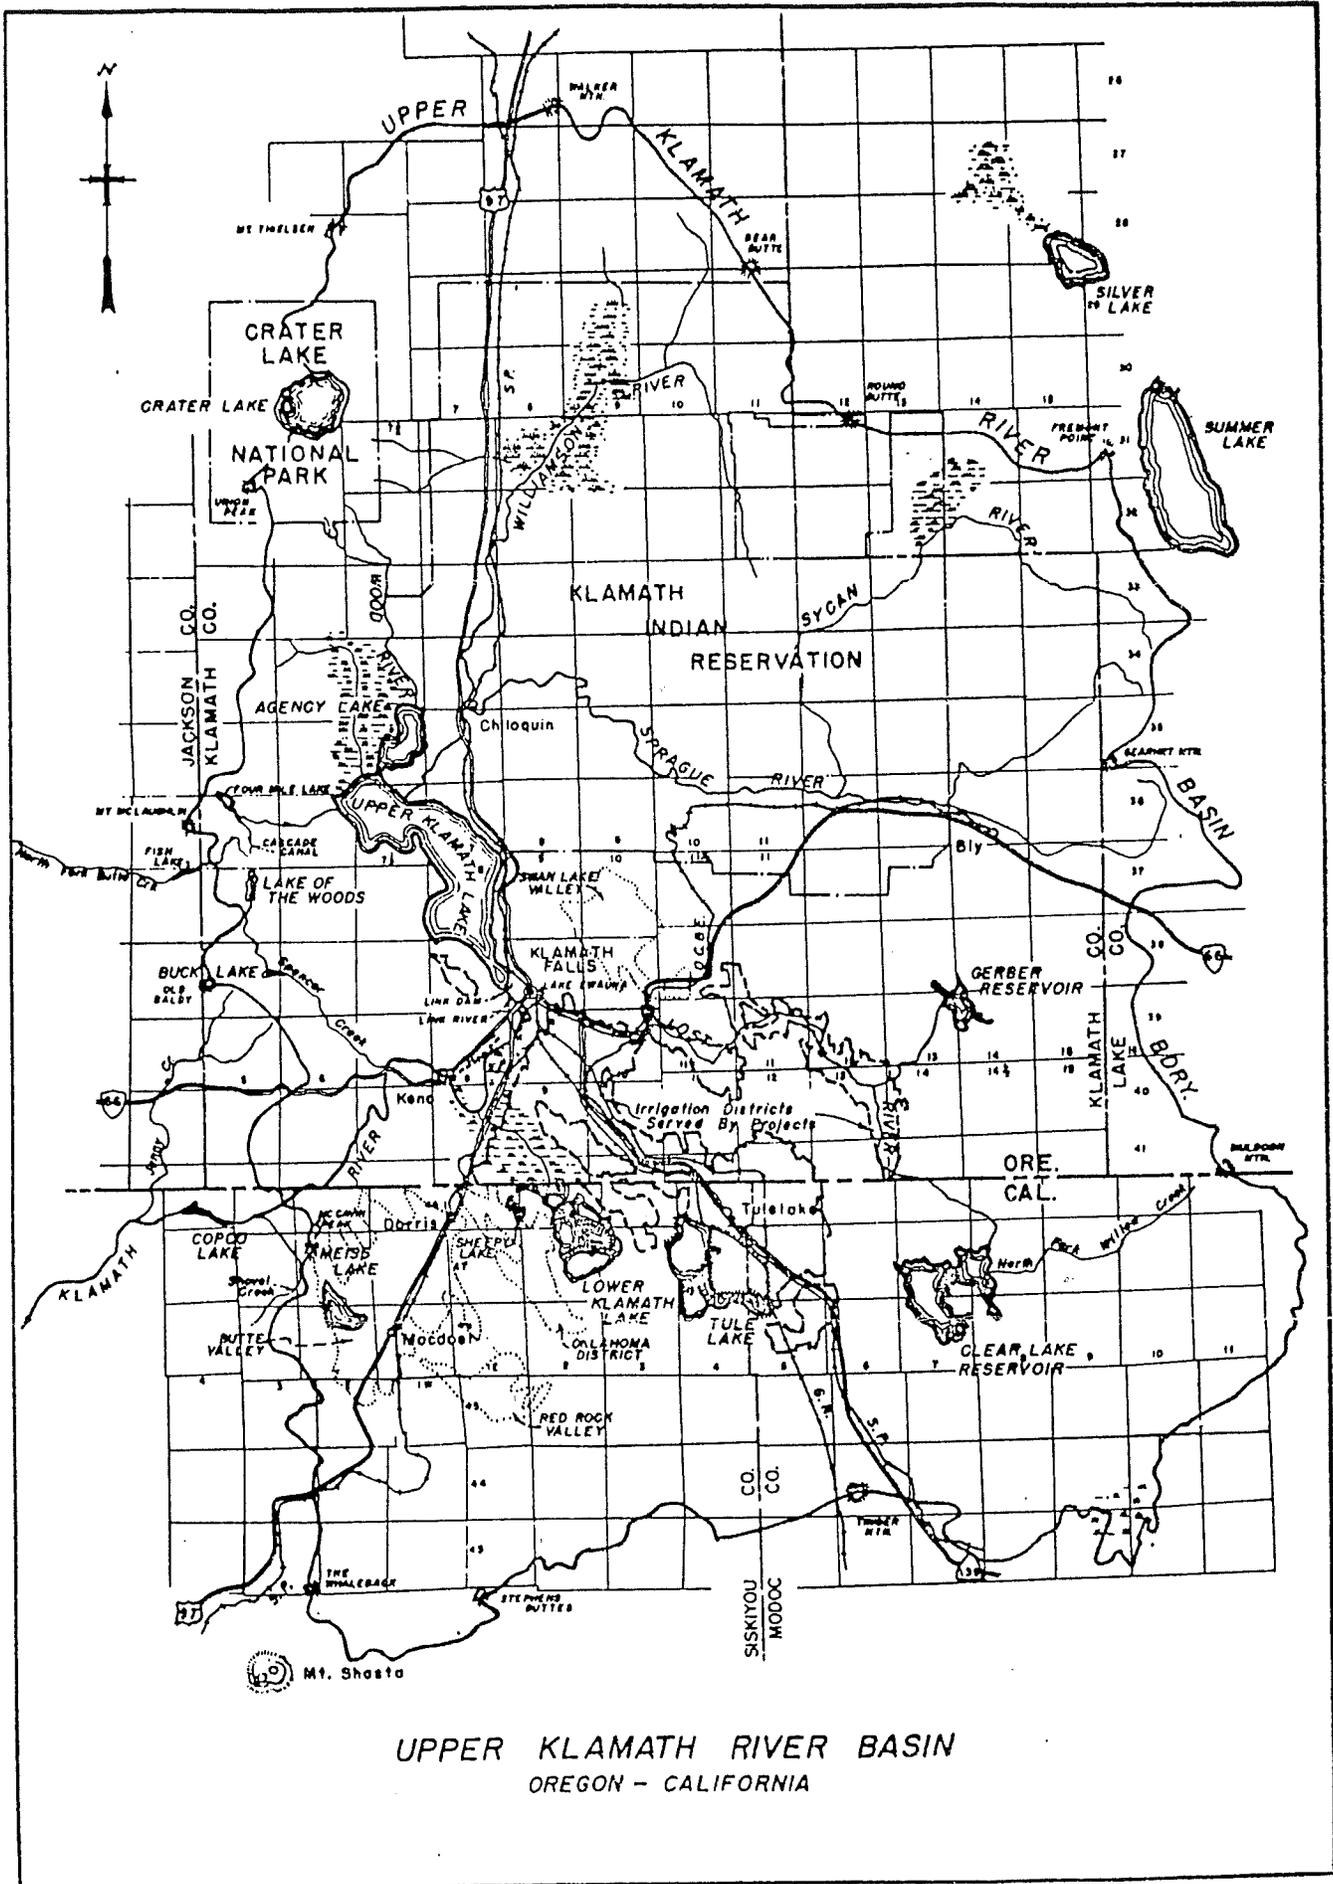

The minimum charges are payable in consecutive monthly installments of one-sixth of the seasonal minimum charges beginning the first month of seasonal operation, until such time as the accumulated charges equal the seasonal minimum charge.

* Project Land -- All land of the United States lying in the Upper Klamath River Basin, and all land in the Upper Klamath River Basin lying within any public district or within the service area of any association which has contracted or may hereafter contract and any land of individuals or corporations in the Upper Klamath River Basin which have contracted or may hereafter contract with the United States, pursuant to the Federal reclamation laws, for water service or for the construction of irrigation, drainage, or other reclamation works.

Issued by

J. C. Boyle

Effective May 1, 1956

Est. cost = $10(11.2)(A)^{1.4} = 16,896,000$ or \$558/A
 where: A = individual area size in acres.

Canal costs:

Then canal costs for areas larger than 10,000 acres.

These are estimated by: (50 year plus life)

Est. cost = $KQ^{0.4}L$

where: K is a constant for conditions as follows:

1. normal canal—no rock excavation, usual structures such as bridge, culverts, etc., K = 18,700
2. for slight rock work (10% excavation) and occasional inverted siphon, K = 20,000
3. for considerable rock work (25-30% excavation) where shallow soils occur or long siphons required, K = 30,000 where:

Q = discharge in cfs

L = canal length in miles

IV. Farm Irrigation Systems. (Pumping included in I above) 1 booster pump service area for the project area. These are based on assumed appropriate delivery pressure supplied under pumping through the pipeline network. Costs include all on-farm items for distribution and land grading.

Item	Added pump lift
A. Gravity systems open ditch siphon tubes \$250/A	(0)
Gravity systems closed distribution, manual operation \$500/A	(20)
Gravity systems automated for operation and shortened rows for frequent irrigations \$1,000/A	(20)
B. Sprinkle systems:	
Handmove \$250/A	(130)
Side-roll, row lines \$300/A	(130)
Center pivot \$325/A	(200)
Solid set, manual control \$800-\$900/A	(130)
automated controls \$1,000-\$1,200/A	(130)
C. Trickle systems:	
Good for orchards, vineyards, hops, and wide spaced crops \$800-\$1,200/A	(70)

V. Drainage Costs. Use for area greater than 3,000 acres:

A. Est. cost = $(0.8)(A)^{1.5}$ for normal conditions

B. Est. cost = $0.5(A)^{1.5}$ with excellent irrigation management

Develop present worth value for determining annual cost capital investment, plus replacement (P.W. value) and minus salvage value (straight line depreciation).

Annual Costs

Cost of Capital Investments

1. Amortization and interest cost = $\frac{(cost) i (i + 1)^n}{(i + 1)^n - 1}$

where: cost = investment cost (present worth)

n = number of years of assessment

i = annual interest rate

2. Energy use for pumping

$kWh = \frac{(1,024) (AF \text{ of water}) (TDH)}{E_{pp}}$

where TDH = total pump life in feet (static lift + irrigation system operating pressure + friction loss)

E_{pp} = pumping plant efficiency in percent/100

Re: Klamath Adjudication - map waiver

Dear Mr. Hamai,

I am sending the memo signed by Dick Bailey which allows for a map waiver in regards to PIA claims you are working on. If you have any questions, please give me a call. The number is 503-378-8455 and my extension is 255.

Sincerely,

Don Knauer
Manager Adjudication and Certificates

WATER RESOURCES DEPARTMENT

INTEROFFICE MEMO

TO: Dick Bailey

FROM: Don Knauer *DK*

SUBJECT: request for map waiver for claims 226 thru 283

August 3, 1999

Dale White, Attorney filed claims for "allottees" in the '90-'91 claim taking period.. These claims include current and PIA types of use. The Departments review found deficiencies in the claim forms and maps. A letter was sent requiring completion and correction. A consultant, NRCE, for the claimants submitted a "draft" of data supplying the required information along with a request for a waiver of one of the mapping requirements.

In their original mapping work NRCE showed the acreage by quarter-quarter section rather than by Government Lot. (This area had been subdivided into allotments of approximately half quarter-quarters.) I recommend NRCE be allowed a map waiver to show the acreage by quarter-quarter section. The actual location of beneficial use and PIA acreage can still be identified. When the PIA development is complete, and a final proof map is prepared, the acreage will be shown by Government Lot.

*Approved.
D. Bailey

RE: Draft report

Dear Mr. Hamai,

Thank you for the opportunity to review the draft report for claim #226. The Departments original request for information and acceptable maps was sent February, 1999. And it was just that, a request for information to meet the statutes and rules. During our discussion here in Salem, we reviewed the request for information and mapping standards. We agreed the best approach was for you to submit a "draft" set of information for our review. I find in addition to the info and maps you have submitted a draft "Amended Reserved Water Right Claim". I do not recall, nor find in my notes where we discussed an amendment to any claims. I have included a copy of a letter by Dick Bailey, Administrator, to Michael Gheleta describing the process for amending a claim.

In regards to the required information and mapping standards, the technical information as shown in the draft will meet the requirements with one possible exception. Your "Property Summary" report identifies the presently irrigated acreage. If more than one diversion point is used, you must show which diversion point delivers to which acreage. This would apply to all existing uses being claimed.

Your letter regarding the claim maps points out our discussion about gross and net acreage. In addition there is the issue of government lot vs. quarter-quarter and I consider your letter a request for a "map waiver" as I wrote to you in my May 6, 1999 letter. I will forward your waiver request to my Supervisor, Dick Bailey with my recommendation to allow your request. You would be allowed to show the acreage by quarter-quarter rather than by government lots.

Finally, I will remind you the maps must be ink on mylar or similar archival type process.

We realize you have already gone to some lengths to provide information for these claims and that it will take some time to prepare new maps and other claim information to our specifications. Therefore, our adjudications staff will continue to work with the current maps. These will be designated as "working copies" so that we can meet our anticipated open inspection date of October 4. ***Our request is that you make every effort to supply the information as soon as possible and the maps no later than October 1, 1999.***

If you have any questions, please feel free to write or call me at (503) 378-3739 extension 255.

Sincerely,

A handwritten signature in black ink, appearing to read "Don Knauer", with a long horizontal flourish extending to the right.

Re: Klamath River Adjudication, PIA claims

Dear Mr. Hamai,

I appreciate your visit to the Departments office to discuss the request made to complete the claims to PIA's. I agree with you, the meeting was a tremendous help in getting this work done.

You write that NRCE and WRD concur that NRCE and Fredericks, Pelcyger and Hester complied with the past agreements in regards to format and content of the claims. I don't agree with your understanding the we came to this concurrence. Dick Bailey did state that past waivers and agreements were no longer being honored by the Department. We are reviewing the claims to insure they meet the statutory and administrative rule requirements, this is no different than what we are doing for all other claims received by the Department.

In regards to the subjects you listed in your letter of April 21, 1999:

- 1) The Department defines "domestic water use" as, "the use of water for human consumption, household purposes, domestic animal consumption that is ancillary to residential use of the property or related accessory uses." If the claims are for domestic use, you must provide your definition if it varies from the Departments.
- 2) Yes, you can refer to the WRD field report for water use information. If there is no WRD report, you'll have to provide the information from some other source.
- 5) Yes, you may provide copies of your spreadsheets detailing the data used supporting the claims. Keep in mind there may be information required not shown on the spreadsheets which you'll have to provide from some other source.
- 7) I view this issue as a request from you to waive the mapping requirement of identifying the use within government lots. You have provided the use within quarter-quarter

sections. I will present this issue to my supervisor for his decision.

- 8) Your claims use the term "secondary" source. We discussed this and I believe the Departments definition is "supplemental" source. I have enclosed a copy of the Departments definition.

In addition, any requirement not covered by our discussion or these letters must be addressed. You can refer to the individual letters for each claim for all of the required data.

Again, I suggest you pick a claim which has a great deal of requirements to meet and send us a "draft" report and map. We can review a draft prior to you spending much time of all of the claims and give you our opinion.

Thanks for your time here in Salem. I look forward to working with you to completion of this process. If you have any questions, please give me a call. The number is 503-378-8455 and my extension is 255.

Sincerely,

Don Knauer
Manager Adjudication and Certificates

c: Chris Leahy

SUMMARY OF MEETING BETWEEN OWRD AND NRCE
SALEM, OREGON
APRIL 21, 1999

Corp's notes

Present at the meeting were:

Don Knauer (OWRD)
Dick Bailey (OWRD)
Paul Hamai (NRCE)

NRCE and OWRD concur that there were certain past agreements as to the format and content of the Klamath Allottee claims and that NRCE and Fredericks, Pelcyger & Hester (FPH) complied with these agreements when the claims were originally filed. However, Dick Bailey noted that these past agreements do not adhere entirely to Oregon statute and, therefore, additional information is required for the Allottee claims prior to the anticipated open inspection date of October 4, 1999. This being said, it was agreed upon that the focus of the meeting should be on identifying what information is needed and the simplest manner to provide this information in an attempt to control further time and cost requirements.

The following subjects were discussed by Don Knauer and Paul Hamai:

- 1) For existing uses, OWRD defines "domestic" use as use that occurs within the house. It does not include watering of outdoor gardens or lawns, which would be included in present irrigation. NRCE needs to clarify what is meant when a domestic use is claimed. Also, NRCE must provide rates for all existing use claims (in gpm or cfs) as well as the annual duty (ac-ft/yr). The sum of all the existing rates cannot exceed the existing system capacity as noted on the Developed Area Data Statement and Proof of Claim forms.
NOT EXPLICITLY
NO, SOME SPECIFICALLY SAY PIA.
WHAT IF NOT ALL USES OCCUR AT ONCE?
- 2) For the existing livestock use claims, NRCE can refer to the OWRD field inspection report, if one exists, to describe the nature of the access to water. In many cases this may simply be access to the river or creek itself. This place of use must then be listed by 1/4-1/4 Section (i.e., list every 1/4-1/4 Section where the livestock have access to water). Also, NRCE must provide the rate of water use (in gpm or cfs) as well as the annual duty (ac-ft/yr). This rate can be a theoretical maximum rate, rather than an average rate.
IF THERE IS NO OWRD INSPECTION REPORT, NRCE MUST PROVIDE SYSTEM INFO.
- 3) For existing irrigation claims, NRCE needs to provide rates (in gpm or cfs) as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season.
- 4) For future irrigation claims (PIA), NRCE needs to explain where the information is that OWRD is asking for. This information may be in the Statement and Proof of Claim forms, the final claims form, or the engineering report. NRCE should provide rates (in gpm or cfs).
WHY? WE ALREADY READ EVERYTHING WHEN LOOKING FOR DEFERENCES?

as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season. Also, the POD needs to be listed for each pump or diversion from the source (by 1/4-1/4 Section). Need to state that pumps are centrifugal type (or turbine, if applicable). Need to list the PODs with reference to a Section 1/4 corner.

- 5) NRCE needs to provide copies of the spreadsheets detailing the on-farm design (sprinkler or surface irrigation), pump design, and economic analysis. NRCE should add a brief narrative for each of these spreadsheets. Also, NRCE should provide the backing economic information (e.g., Enterprise Budget from OSU Extension) that was used in the analysis.

ASSUMING THAT THE SPREADSHEETS PROVIDE ALL NECESSARY INFO.

- 6) The claim maps need to show the PODs and the mainlines (or main ditches). NRCE can draw these on the existing maps. The OWRD claim number should be added on the maps beneath the existing Owner and Property numbers. The maps also need to be copied through some process to mylar, although this requirement may change in the future. NRCE (or FPH) needs to write a letter to OWRD explaining the scale, north arrow, and disclaimer for the maps. The POUs do not have to be referenced to a survey corner. The acreage numbers on the maps do not have to be changed to reflect net acreage instead of gross acreage. NRCE should provide a sample map to OWRD for review.

WHY? WE HAVEN'T BUDGETED ON THESE REQUIREMENTS IN THE PAST.

* SOUND LIKE WAIVERS.

THEY SHOULD EXPLAIN THAT THE MAPS ARE WRONG IN THEIR LETTER, AND THAT

- 7) NRCE (or FPH) needs to write a letter to OWRD explaining that irrigated acreage is 50% should be subtracted. This letter should contain the following information:

50% SHOULD BE SUBTRACTED.

- a. That NRCE discussed this issue with Don Knauer;
- b. That it would be very time consuming and expensive for NRCE to redo the maps;
- c. That the information being asked for (is more or less shown) in the maps although not in exactly the same format as OWRD is asking;
- d. That because the acreage is PIA, there may be some allowance for the map to be slightly different than standard OWRD format.

NO, IN MOST CASES IT HAS BEEN COMPLETELY OBSOLETE.

* WAIVERS

NO DIFFERENCES IN REQUIREMENTS ARE SPECIFIED IN OWS/OAK.

- 8) For any claims that list a supplemental source, the rate that is claimed for this source needs to be identified. In some cases, this rate would be the same as the primary source (e.g., when the supplemental source would be used to satisfy all the claimed water during periods when the primary source is unavailable). If a supplemental source is claimed for an existing use, this source should occasionally have been used in the past. If the supplemental source has never been used, it should not be claimed for existing uses.

ALL SOURCES

THEY DIDN'T CLAIM SUPPLEMENTAL IRRIGATION (GENERALLY)

- 9) For those PIA claims that require access to water through another owner's property, NRCE needs to include a cost to acquire the right of way in the economic analysis. This can be accomplished by using a reasonable land cost such as might be available from the County Land Assessor. It is not entirely meaningful to get permission for this right of way at the present time since it is unknown when this access would be required. A letter should be drafted to OWRD explaining this.

I THINK WE NEED TO RUN THIS ONE BY THE ATTORNEYS. CLAIMANT HAS TO SHOW THAT WATER IS AVAILABLE, AND THE ATTORNEYS HAVE SAID THAT THIS REFERS TO ACCESS. THEREFORE, I THINK CLAIMANT HAS TO SHOW

F:\MAIN\0119\COMM\1999\owrd.ltr
April 23, 1999

Page 2 of 3

THAT WATER IS AVAILABLE (THAT THEY HAVE ACCESS), NOT THAT IT MIGHT BE AVAILABLE SOMEDAY. IT IS NOT A GIVEN THAT INTERVENING LANDOWNERS WILL SELL OR GIVE EASEMENTS AT ANY PRICE.

Appendix P-3

I DO AGREE, HOWEVER, THAT THE ECONOMIC COSTS MUST BE 245¢/907 GALS IN THE FEASIBILITY ANALYSES; THIS IS SOMETHING WE DIDN'T PREVIOUSLY CONSIDER.

- 10) Certain claim specific issues need to be discussed with the property owners.
- 11) For Claim #267 (Owner 40, Property 1), add the period of use for livestock use to the report. The period of use for livestock use was not included in the Developed Area Data sheet for this claim.
- 12) For Claim #276 (Owner 48, Property 1), NRCE needs to check with the property owner on how the supplemental source being claimed has been used in the past. If this source has never been used, it should not be included in the claim for existing uses.
- 13) For Claim #683 (Owner 43A, Property 3), there is a domestic irrigation claim that needs to be clarified. NRCE should verify with the owner how this water is used.
AND WHETHER
- 14) For Claims #705 and #706 (Owner 37A, Properties 2&3), the claims should state that Upper Klamath Lake is the primary source for future irrigation and that service from the Modoc Point Irrigation District is a supplemental source. The rate claimed for the supplemental source should be the same as the rate claimed for the primary source.
- 15) For Claim #264 (Owner 35, Property 1), this property has not been sold in its entirety. The Allottee still owns ten acres. A revised claim reflecting the reduced acreage needs to be submitted for this property.

- 16) For Claim #274 (Owner 46, Property 3), there is some confusion as to whether or not the Allottee still owns this property. OWRD provided certain deed records that presumably show that this property has been sold. NRCE will review these records and consult with the Allottee to verify ownership.

17) THEY SHOULD PROBABLY ALSO CLARIFY WHAT THEY MEAN BY "SUPPLEMENTAL!"
(SUPPLEMENTAL, SECONDARY, OR ALTERNATE?) SEE #8

I AM NOW DEALING WITH THIS CLAIM ; I INTEND TO SEND A LETTER REQUESTING INFORMATION FROM THE INDIAN OWNERS (GERALDO + LOUISE PAGE), SHOULD I NOT?

SEE MY 5/5/99 MEMO TO DELLIC BAILEY REGARDING THIS VERY ISSUE .

SUMMARY OF MEETING BETWEEN OWRD AND NRCE
SALEM, OREGON
APRIL 21, 1999

Present at the meeting were:

Don Knauer (OWRD)
Dick Bailey (OWRD)
Paul Hamai (NRCE)

NRCE and OWRD concur that there were certain past agreements as to the format and content of the Klamath Allottee claims and that NRCE and Fredericks, Pelcyger & Hester (FPH) complied with these agreements when the claims were originally filed. However, Dick Bailey noted that these past agreements do not adhere entirely to Oregon statute and, therefore, additional information is required for the Allottee claims prior to the anticipated open inspection date of October 4, 1999. This being said, it was agreed upon that the focus of the meeting should be on identifying what information is needed and the simplest manner to provide this information in an attempt to control further time and cost requirements.

The following subjects were discussed by Don Knauer and Paul Hamai:

- 1) For existing uses, OWRD defines "domestic" use as use that occurs within the house. It does not include watering of outdoor gardens or lawns, which would be included in present irrigation. NRCE needs to clarify what is meant when a domestic use is claimed. Also, NRCE must provide rates for all existing use claims (in gpm or cfs) as well as the annual duty (ac-ft/yr). The sum of all the existing rates cannot exceed the existing system capacity as noted on the Developed Area Data Statement and Proof of Claim forms. ~~yes~~
not for uses other than IR
- 2) For the existing livestock use claims, NRCE can refer to the OWRD field inspection report, if one exists, to describe the nature of the access to water. In many cases this may simply be access to the river or creek itself. This place of use must then be listed by ¼-¼ Section (i.e., list every ¼-¼ Section where the livestock have access to water). Also, NRCE must provide the rate of water use (in gpm or cfs) as well as the annual duty (ac-ft/yr). This rate can be a theoretical maximum rate, rather than an average rate. *yes*
- 3) For existing irrigation claims, NRCE needs to provide rates (in gpm or cfs) as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season. *less of what system is capable claim should reflect use of.*
- 4) For future irrigation claims (PIA), NRCE needs to explain where the information is that OWRD is asking for. This information may be in the Statement and Proof of Claim forms, the final claims form, or the engineering report. NRCE should provide rates (in gpm or cfs)

as well as the annual duty (ac-ft/yr). This can be the maximum theoretical rate required during the irrigation season. Also, the POD needs to be listed for each pump or diversion from the source (by ¼-¼ Section). Need to state that pumps are centrifugal type (or turbine, if applicable). Need to list the PODs with reference to a Section ¼ corner. *recognized established survey corner*

5) NRCE needs to provide copies of the spreadsheets detailing the on-farm design (sprinkler or surface irrigation), pump design, and economic analysis. NRCE should add a brief narrative for each of these spreadsheets. Also, NRCE should provide the backing economic information (e.g., Enterprise Budget from OSU Extension) that was used in the analysis.

6) The claim maps need to show the PODs and the mainlines (or main ditches). NRCE can draw these on the existing maps. The OWRD claim number should be added on the maps beneath the existing Owner and Property numbers. The maps also need to be copied through some process to mylar, although this requirement may change in the future. NRCE (or FPH) needs to write a letter to OWRD explaining the scale, north arrow, and disclaimer for the maps. The POUs do not have to be referenced to a survey corner. The acreage numbers on the maps do not have to be changed to reflect net acreage instead of gross acreage. NRCE should provide a sample map to OWRD for review. *waiver*

7) NRCE (or FPH) needs to write a letter to OWRD explaining that irrigated acreage is presented on the claim maps by ¼-¼ Section rather than Government Lot. This letter should contain the following information:

- a. That NRCE discussed this issue with Don Knauer;
- b. That it would be very time consuming and expensive for NRCE to redo the maps;
- c. That the information being asked for is more or less shown in the maps although not in exactly the same format as OWRD is asking;
- d. That because the acreage is PIA, there may be some allowance for the map to be slightly different than standard OWRD format.

8) For any claims that list a supplemental source, the rate that is claimed for this source needs to be identified. In some cases, this rate would be the same as the primary source (e.g., when the supplemental source would be used to satisfy all the claimed water during periods when the primary source is unavailable). If a supplemental source is claimed for an existing use, this source should occasionally have been used in the past. If the supplemental source has never been used, it should not be claimed for existing uses. *waiver*

9) For those PIA claims that require access to water through another owner's property, NRCE needs to include a cost to acquire the right of way in the economic analysis. This can be accomplished by using a reasonable land cost such as might be available from the County Land Assessor. It is not entirely meaningful to get permission for this right of way at the present time since it is unknown when this access would be required. A letter should be drafted to OWRD explaining this.

- 10) Certain claim specific issues need to be discussed with the property owners.
- 11) For Claim #267 (Owner 40, Property 1), add the period of use for livestock use to the report. The period of use for livestock use was not included in the Developed Area Data sheet for this claim. *JA*
- 12) For Claim #276 (Owner 48, Property 1), NRCE needs to check with the property owner on how the supplemental source being claimed has been used in the past. If this source has never been used, it should not be included in the claim for existing uses.
- 13) For Claim #683 (Owner 43A, Property 3), there is a domestic irrigation claim that needs to be clarified. NRCE should verify with the owner how this water is used.
- 14) For Claims #705 and #706 (Owner 37A, Properties 2&3), the claims should state that Upper Klamath Lake is the primary source for future irrigation and that service from the Modoc Point Irrigation District is a supplemental source. The rate claimed for the supplemental source should be the same as the rate claimed for the primary source.
- 15) For Claim #264 (Owner 35, Property 1), this property has not been sold in its entirety. The Allottee still owns ten acres. A revised claim reflecting the reduced acreage needs to be submitted for this property.
- 16) For Claim #274 (Owner 46, Property 3), there is some confusion as to whether or not the Allottee still owns this property. OWRD provided certain deed records that presumably show that this property has been sold. NRCE will review these records and consult with the Allottee to verify ownership.

*IN ADDITION ANYTIME THAT WE REQUESTED IN OUR LETTERS
NOT MENTIONED HERE MUST ALSO BE SUBMITTED.*

*ALSO REQUEST A "PART" FROM THE CLAIM FOR THE
REVIEW. - YOU MUST PICK A CLAIM WITH
LOTS OF ISSUES*

WATER RESOURCES DEPT.
SALEM, OREGON

Mr. Allen Foreman
Chairman, Klamath Tribes
P.O. Box 436
Chiloquin, OR 97624

Dear Chairman Foreman:

This letter is to inform you of certain matters regarding the water claims of the Klamath Allottees in the Klamath Basin Adjudication and to request your assistance in support of these water claims. You may already be familiar with the claims of the Klamath Tribes in the Adjudication as well as the Tribes' participation in the Alternative Dispute Resolution (ADR) process currently being administered by the Oregon Water Resources Department (OWRD). However, I would like to focus your attention on the water claims of the individual Klamath Allottees which are distinct from the Tribes' claims.

To introduce ourselves, Natural Resources Consulting Engineers, Inc. (NRCE) is an engineering consulting firm with offices in Berkeley, California and Fort Collins, Colorado. NRCE was hired by the Klamath Allottees Water Users Association (KAWUA) to prepare and submit water claims for each of the individual Allottees in the Klamath Adjudication. NRCE along with the law firm Fredericks, Pelcyger & Hester prepared and filed 85 separate claims on behalf of Klamath Tribal members. The "final" claims were filed with OWRD in November of 1992. Each of these claims required a separate, in-depth study to determine the current and future water requirements for each of the Allottee land parcels.

Although it was our understanding at the time that the Allottee claims were complete, we have since learned that this is not the case. Earlier this year, OWRD notified Fredericks, Pelcyger & Hester that still more information is required to substantiate the Allottee claims (i.e., bring the claims into compliance with Oregon statute). The information being requested is considerable and relates to both present and future water claims. In addition, several of the Allottee parcels have undergone changes in ownership since the 1992 filing, either partially or in full. NRCE is currently working to update all the Allottee claims. The deadline to submit the supplemental information to OWRD is October 1, 1999

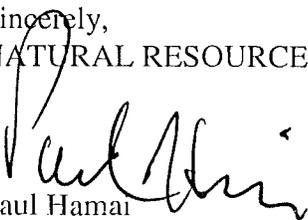

While the technical (and legal) work required to support the Allottee claims in the Klamath Adjudication and ADR process has continued, funding for the KAWUA unfortunately has not. I believe the KAWUA has not received any funding since 1994. This despite the fact that the Klamath Tribes have been very supportive of the Allottees and have requested funding on behalf of the KAWUA for the past several years. Due to the large amount of work still required for the Adjudication as well as the ADR, this situation has become quite serious.

At NRCE, we are now faced with the problem of having to complete a substantial amount of work for the Adjudication without any contract. We have to date expended about \$60,000 without compensation with still a significant amount of work to go. I want to assure you that we are committed to seeing that all required information for the Allottee claims is submitted to OWRD for this phase of the Adjudication. However, beyond that I am afraid that NRCE will be unable to provide any support to the KAWUA without additional funding. This includes any work in the open inspection process such as reviewing and objecting to other water claims, defending the Allottee claims against objections (beyond turning over any previous technical work and data), meetings and presentations, and providing technical support to the KAWUA in the ADR forum. I understand that this might have a detrimental effect not only on the claims of the Klamath Allottees but also on the the Tribes' efforts to settle its claims through the ADR process. I can only say that I wish we were under a different set of circumstances.

Funding matters aside, there are some ways that the Tribes may be able to help us in support of our current work with the Allottees. One of the main difficulties we have been experiencing recently is contacting all of the Allottees. This is due to several reasons, including changes of address, sales of property, and the passing of KAWUA members. We need to contact all the Allottees in order to gather certain information for OWRD that can only be provided by the landowners. It is also very important that for those parcels that have undergone changes in ownership (either due to deaths or sales of land), updated claims be filed with the new owners' names (assuming they are Tribal members). I have attached a list of all KAWUA members to this letter, as well as a list of information that we still need for certain Allottees. I am asking if you could have someone in your office provide us with any of this information that the Tribes might have. Please understand that unless we are able to contact each of the Allottees as soon as possible, the status of their water claims could be in jeopardy.

As we are under a very tight schedule from OWRD, your prompt response is greatly appreciated. You can be assured that NRCE and Fredericks, Pelcyger & Hester will continue to pursue every avenue to secure future funding. I remain hopeful that we will be able to continue our support of the KAWUA. Please feel free to give me a call should you wish to discuss these matters.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

SALEM, OREGON

September 20, 1999

Mr. Don Knauer
Mr. Dick Bailey
Oregon Water Resources Department
158 12th Street NE
Salem, OR 97310

Gentlemen:

I am writing to inform you of the current status of the Klamath Allottees water claims and to summarize my telephone conversation with Dick Bailey on September 17. I would also like to provide some additional information regarding the funding of the Klamath Allottees technical consultants and legal counsel.

The claims of the Klamath Allottees can generally be divided into two categories: existing uses and future uses. Existing use claims are based on information provided by the Allottees, field visits by NRCE in 1991 and 1992, and information provided by OWRD. Future claims are based on the Practicably Irrigable Acreage (PIA) standard.

NRCE has been able to update all of the PIA claims and is in a position to provide OWRD with the supplemental information in support of the PIA claims for all of the Allottees. However, updating the existing use claims has proven more problematic.

I indicated to Dick Bailey during our phone conversation that NRCE has been having some trouble contacting all of the Allottees. This is necessary in order to obtain some of the information on existing use claims that OWRD is requesting. Many of the Allottees have either moved, passed away, or sold all or some of their properties. We are currently working with the Klamath Tribe to update our owner and address database. However, it does not appear likely that we will be able to contact all of the Allottees in time for the October 1 deadline.

Dick Bailey instructed us to go ahead and submit the information in support of the PIA claims for all the Allottees by October 1. We should also submit complete claims for any Allottees we are able to contact for the existing use information. NRCE is to include in its cover letter an explanation that more information is forthcoming once we have been able to contact all the Allottees. Dick Bailey stated that this information would be accepted after the October 1 deadline.

As you will recall, we have already submitted a sample claim for your review back in July. You indicated that all the information submitted with the sample claim is acceptable with the exception that if more than one diversion point is claimed for existing uses, the specific uses served by each diversion point must be specified. NRCE is working to obtain this information from the Allottees.

To be absolutely clear on what NRCE plans to submit, I have prepared the following list of information. Please review this list to ensure that we have not omitted anything. For each claim, NRCE will submit the following:

Information to be Submitted with Each Claim

- 1) Updated engineering report. This report would supercede the report submitted in November 1992.
- 2) Updated claim map. This map will show the OWRD claim number, location of future points of diversion, layout of header pipes for future irrigation, and a legend. The claim maps will be on mylar and will be stamped by a registered professional engineer.
- 3) Updated property summary table.
- 4) Supplemental Data information sheet. This sheet will provide much of the information requested by OWRD that was not provided with the original claims. This information includes point of diversion for existing uses, place of use for stockwater uses, rate of use for existing domestic, stockwater, and irrigation uses, rate of use for future irrigation, points of diversion for future irrigation, total dynamic head (TDH) for each future pump, and summaries of header pipes and laterals including number of sprinklers.
- 5) Printout of cost calculations for practicably irrigable acreage (PIA).
- 6) Printout of sprinkler design spreadsheet for PIA.
- 7) Printout of pump design spreadsheet for PIA.

This list is identical to the list provided in the cover letter with the sample claim dated July 16, 1999. Also submitted with the sample claim was certain supporting information. It is NRCE's understanding that this information need not be submitted again to OWRD as this same information applies to all of the Allottee claims. If you will be requiring this information again, please let me know and I will send it to you right away. A list of the supporting information is shown below.

Supporting Information (already submitted)

- Letter regarding the claim maps. This letter describes certain information that is common to all the claim maps including map scale, north direction, disclaimer, and use of gross PIA instead of net PIA.
- Written explanation of sprinkler design spreadsheet.
- Written explanation of pump design spreadsheet.
- NRCE internal memorandum describing calculation of benefits from alfalfa production.
- Copy of OSU Extension Service Enterprise Budget for alfalfa establishment in the Klamath Basin area.
- Copy of OSU Extension Service Enterprise Budget for alfalfa production in the Klamath Basin area.
- Memorandum from the economics firm Dornbusch & Company to NRCE regarding the economic analysis of PIA claims for the Klamath Allottees. This memo provides justification of the selected discount rate used in the economic analysis.
- Summaries of unit cost information for pumps, sprinkler systems, and header pipes.
- Copy of the cover of the U.S. Soil Conservation Service soil survey of Klamath County. This soil survey was used to determine the irrigable lands in the PIA analysis.
- Copy of the electric power rate schedule used to determine cost of electricity in the PIA analysis.
- Representative reference for typical OM&R percentages used in the PIA economic analysis.

Contrary to what I indicated in the July letter, NRCE would now prefer to submit the supplemental claim information directly to OWRD rather than through the law office of Fredericks, Pelcyger & Hester. If this is not acceptable or you have certain requirements as to the format and/or language of the claims, please let me know. Otherwise I will assume that it is okay for NRCE to submit the claim information directly to OWRD.

Turning to another matter, I wanted to let you know that due to lack of funding, NRCE will be unable to support the Klamath Allottees in the Adjudication, as well as the Alternative Dispute Resolution process, after we submit the updated claim information. This includes any work for the open inspection process. The Klamath Allottees have not received funding for its consultants since 1994 and we simply cannot continue to work without a contract. I am enclosing a copy of a letter to the Chairman of the Klamath Tribes that discusses this matter.

I thank you for your cooperation and assistance in our efforts. If you have further instruction for us or any questions regarding the contents of this letter, please do not hesitate to give me a call.

Sincerely,

KLAMATH ADJUDICATION

CLAIM #

PAGE #

Mr. Don Knauer
Mr. Dick Bailey
Oregon Water Resources Department
158 12th Street NE
Salem, OR 97310

RECEIVED

OCT 01 1999

WATER RESOURCES DEPT.
SALEM, OREGON

Gentlemen:

Enclosed please find the first round of supplemental information in support of the water claims of the Klamath Allottees in the Klamath Basin Adjudication. This information consists of the following:

- 1) Completed claims for certain Allottees, including existing and future uses, if applicable.
- 2) Future use (i.e., PIA) claims for those Allottees not included under Item 1).
- 3) Current address list of all Klamath Allottees.
- 4) List of Allottee claims to be withdrawn due to sale of the land.

The information being submitted for the completed claims is described in my letter to you dated September 20, 1999. For those Allottee claims which only have the PIA information available at this time, we are submitting updated claim maps, updated property summary tables, and printouts of the irrigation design and cost spreadsheets. We will submit the revised engineering reports and supplemental data sheets for these claims in the near future. Please note that the some of the names on the property summary tables might change as we are currently working to update the ownership status of each Allottee parcel. We will send you the new owner names as soon as we receive them.

We have indicated those Allottees with complete claims and those Allottees with only the PIA information available on two separate lists attached to this letter. All the Klamath Allottees should be on one of these two lists except for one exception. It has come to our attention that there is one more Klamath Allottee that we will need to file a claim for. The Allottee is Elwood Miller and he acquired his property from Ramon Unive (OWRD Claim No. 275). Unfortunately, we did not become aware of this situation until today so we were unable to prepare a claim for Mr. Miller at this time. We will be submitting an updated claim for Mr. Miller with all the required information in the near future.

We are currently working to gather the necessary information from the Allottees in order to complete all of the claims. We will provide this information to you as soon as possible. Please keep me informed of any deadlines or scheduling constraints that you might have. We appreciate your understanding and cooperation.

Salem, OR 97310

RECEIVED

OCT 12 1999

**WATER RESOURCES DEPT.
SALEM, OREGON**

Gentlemen:

Enclosed please find the second round of supplemental information in support of the water claims of the Klamath Allottees in the Klamath Basin Adjudication. This information consists of the following:

- 1) Engineering reports and supplemental data sheets to complete the claims for specified Allottees.
- 2) Revised list of Allottees with partial claims.
- 3) Partial claim information for Claim No. 275.
- 4) Revised list of Allottee claims to be withdrawn.
- 5) Corrected supplemental data sheets for specified Allottees.
- 6) Corrected property summaries for specified Allottees.

A list of those Allottees for whom we are submitting completed claim information (i.e., engineering report and supplemental data sheet) is shown on the attached sheet. We have already submitted updated property summaries, irrigation design and cost spreadsheets, and claim maps for these properties.

The revised list of Allottees with partial claims represents those claims that we still need to submit engineering reports and supplemental data sheets for. We are also including partial claim information (i.e., property summary, irrigation design and cost spreadsheet, and claim map) for Claim No. 275. This is the property once owned by Ramon Unive that is now owned by Elwood Miller. I referred to this situation in my letter of October 1, 1999.

The list of Allottee claims to be withdrawn has been revised to include three more claims: OWRD Claim No. 700 (William and Karen Ray), OWRD Claim No. 231, Property 1 (Priscilla Bettles), and Claim No. 283 (Mary Nan Reyes). These properties have been sold. Please note that the same claim number, Claim No. 231, was assigned for two separate properties. We are withdrawing the claim for Property 1 only. The claim for Property 2 is still valid.

We are including changes to information previously submitted for four claims. This information consists of revised property summaries, design and cost spreadsheets, and claim maps for Claim Nos. 676 (Norman Miller Anderson) and 701 (Jennie Sabin). For Claim No. 676, we recently found out that Mr. Anderson has sold all but 2.2 acres of this property. Therefore, we are resubmitting Claim

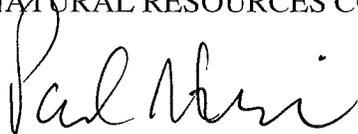

No. 676 based on this reduced acreage. For Claim No. 701, the PIA analysis has been revised due to the fact that Ms. Sabin sold one of her properties on which we had previously designed a storage pond for regulation of flow. This storage pond has now been moved to Ms. Sabin's remaining property, thereby reducing the available irrigable acreage. We are also submitting new property summaries for Claim Nos. 240 and 272 to reflect name changes. The correct names are on the engineering reports and supplemental data sheets. Please replace the old material we sent you for these four claims on October 1 with this new information.

In addition, we are submitting three corrected supplemental data sheets for the following claims: 229, 276, and 277. These new supplemental data sheets, dated October 7, 1999, should replace the ones we submitted with our October 1, 1999 package. The previous supplemental data sheets were incomplete.

Lastly, we have discovered an error on seven of the property summaries that were submitted on October 1, 1999. This is essentially a rounding error in the database that causes certain sums not to match correctly. We have corrected this error and are now submitting revised property summaries for these claims. This applies to Claim Nos. 232, 247, 689, 256, 258, 259, and 274. Please understand that we are dealing with a tremendous amount of information and we are doing our best to minimize these types of oversights. We apologize for any inconvenience this may cause you.

We will be submitting the rest of the Allottee claim information as soon as possible. We appreciate your patience.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

Salem, OR 97310

Gentlemen:

Enclosed please find the third round of supplemental information in support of the water claims of the Klamath Allottees in the Klamath Basin Adjudication. This information consists of the following:

- 1) Engineering reports and supplemental data sheets to complete the claims for specified Allottees.
- 2) Revised list of Allottees with partial claims.
- 3) Revised list of Allottee claims to be withdrawn.
- 4) Corrected supplemental data sheets for six Allottees.

The list of Allottee claims to be withdrawn has been revised to include two more claims: OWRD Claim No. 272 (Gladys Shoulderblade) and OWRD Claim No. 279 (Paul Wilson). These properties are now in non-Indian ownership. Please be aware that Ms. Myona Wilson owns the property for OWRD Claim No. 279 and that she will now be handling her water claim on her own. Ms. Wilson said she will be contacting you directly regarding this matter, if she has not done so already.

In addition, we are submitting six corrected supplemental data sheets for the following claims: 229, 260, 264, 265, 276, and 277. These new supplemental data sheets, dated October 29, 1999, should replace the ones we submitted dated either October 1, 1999 or October 6, 1999. The previous supplemental data sheets had an error in the claim rate for present irrigation. Again, I can only apologize and ask for your understanding.

Sincerely,

NATURAL RESOURCES CONSULTING ENGINEERS, INC.

Dear Phil:

This letter is to inform you of those remaining Allottees that we have been unable to contact or who have not returned the requested information necessary to complete their water claims in the Klamath Basin Adjudication. NRCE has made repeated attempts to gather this information but to date has met with little success.

<u>Allottee</u>	<u>Status</u>
<i>Claim 230</i> Gordon Bettles	NRCE has talked to Mr. Bettles on the telephone. He has stated that he would return his form but has not done so to date.
<i>claim 241</i> Maryetta Gentry (deceased)	NRCE does not have a contact person or telephone number for this property.
<i>claim 246</i> Errol Hatcher	NRCE has talked to Mr. Hatcher on the telephone. Mr. Hatcher indicated he may need some help in person to complete his form.
<i>Claims 255, 690, 691, 692</i> Ernestine Kirk	NRCE has been unable to contact Ms. Kirk.
<i>Claims 257, 692</i> Jess Kirk Jr.	NRCE has been unable to contact Mr. Kirk
<i>claim 261</i> Diritha Crume	NRCE has spoken with Jola Crume, Diritha Crume's daughter. Jola Crume stated she would send the form back but has not done so to date.
<i>claim 275</i> Elwood Miller	NRCE has spoken with Mr. Miller on the telephone and left several messages thereafter. Mr. Miller said he would look at the information.

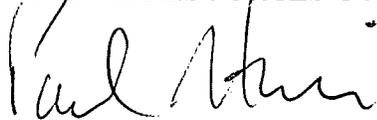

As NRCE is currently working without a contract, we will be unable to continue working on the Klamath Allottee claims indefinitely. **NRCE will cease all work for the KAWUA after December 31, 1999.** Following this date, those Allottees listed above will have to be responsible for their own claims and should correspond

with the Oregon Water Resources Department (OWRD) directly. NRCE will be unable to provide further assistance after December 31 unless a new contract can be procured. This includes any work in the Klamath Basin Adjudication and Alternative Dispute Resolution process.

For those Allottees that do not respond by the deadline, NRCE will send them all of their pertinent claim information so that they might continue the claim process on their own. This information will consist of claim maps, engineering reports, property summaries, and engineering design and cost estimate printouts. In addition, NRCE will inform these Allottees of the information that OWRD is requesting in order for their water claims to be considered complete. Please be aware that we are already considerably past the initial deadline of October 1, 1999 set by OWRD to submit updated claims. OWRD has been more than patient with the KAWUA so far and has not yet indicated to NRCE that updated claims will no longer be accepted. However, I believe it is of utmost urgency that all the Klamath Allottees submit completed claims to OWRD as soon as possible.

If you or the Tribe is able to assist the aforementioned Allottees to contact NRCE or return their forms prior to December 31, 1999, NRCE would be more than happy to process the information and submit the completed claims to OWRD. I would like to emphasize that NRCE is still very interested in continuing to work for the KAWUA in the future and am hopeful that additional funding will be secured. Unfortunately, until this happens we simply cannot commit our services beyond the end of this year. I trust you understand this situation. Please feel free to contact me if you wish to discuss this matter.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

December 29, 1999

Mr. Don Knauer
Mr. Dick Bailey
Oregon Water Resources Department
158 12th Street NE
Salem, OR 97310

Gentlemen:

Enclosed please find the fourth and final round of supplemental information being submitted by NRCE in support of the water claims of the Klamath Allottees in the Klamath Basin Adjudication. This information consists of the following:

- 1) Engineering reports and supplemental data sheets to complete the claims for three Allottees.
- 2) Revised list of Allottees with partial claims.

The list of Allottees with partial claims are those Allottees that NRCE has been unable to contact since OWRD requested the supplemental information. As I indicated earlier, NRCE will no longer be representing the Klamath Allottees, following December 31, 1999. Therefore, NRCE will not be responsible for the claims of the Allottees that we have been unable to contact. Any future correspondence regarding these claims should be directed to the individual property owners.

On behalf of the Klamath Allottees, NRCE sincerely appreciates the patience and cooperation you have shown us in the Klamath Basin Adjudication. I trust that we have been able to update most of the claims to your satisfaction. Should you have any questions regarding the information that NRCE has submitted in the last few months, please do not hesitate to give me a call.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

JAN 04 2000

**WATER RESOURCES DEPT
SALEM, OREGON**

Phil Tupper
President, KAWUA
P.O. Box 1797
Klamath Falls, OR 97601

Dear Phil:

This letter is to inform you that NRCE has submitted our final round of information to the Oregon Water Resources Department (OWRD) on behalf of the Klamath Allottees in the Klamath Basin Adjudication. As I have indicated previously, NRCE will no longer be able to perform any services for the KAWUA following December 31, 1999. This applies to work in support of the Alternative Dispute Resolution process as well as the Klamath Basin Adjudication. While I remain hopeful that funding will be secured in the future, NRCE simply cannot continue its work for the KAWUA without compensation.

There are four remaining Allottees that we have been unable to contact or who have not returned the requested information necessary to complete their water claims in the Klamath Basin Adjudication. These Allottees are listed below:

<u>Allottee</u>	<u>Status</u>
<i>Claims 241</i> Maryetta Gentry (deceased)	NRCE does not have a contact person or telephone number for this property.
<i>Claims 246</i> Errol Hatcher	NRCE has talked to Mr. Hatcher on the telephone. Mr. Hatcher indicated he may need some additional help to complete his form.
<i>Claims 255, 690</i> Ernestine Kirk	NRCE has been unable to contact Ms. Kirk.
<i>691, 692</i> Jess Kirk Jr.	NRCE has been unable to contact Mr. Kirk

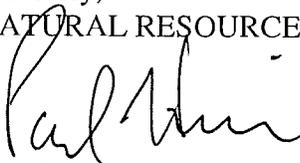

Claims 257, 693
The Allottees listed above will now have to be responsible for their own claims and should correspond with OWRD directly. Enclosed with this letter are copies of all of the pertinent information for these four Allottee water claims. This information consists of claim maps, engineering reports, property summaries, and engineering design and cost estimate printouts. Please forward this information to the respective claimants should you be able to contact them in the future. NRCE will also send directly to Mr. Errol Hatcher all of his claim information. We do not have contact information for the remaining three Allottees.

All of the enclosed claim information has already been submitted to OWRD. This represents the portion of the Allottee water claims that NRCE could complete on its own. Please be aware that an updated engineering report as well as certain other information still need to be submitted to OWRD to finalize these claims. In order to do this, certain information is required of the individual Allottee landowners. NRCE has prepared a summary of the additional information being requested for the benefit of the four Allottees. These Allottees or their representatives should submit this information to OWRD as soon as possible. The initial deadline for submitting this information was October 1, 1999. OWRD has not informed NRCE of any new deadline and it is our understanding that OWRD is still accepting updated claim information as of the date of this letter.

Please note that NRCE has completed an updated water claim for Ms. Ernestine Kirk's Property #4. NRCE was able to do this because this claim consists solely of future irrigation and NRCE did not require any additional information for this property. However, the updated claim was not yet submitted to OWRD because we were hoping to contact Ms. Kirk to obtain her verification. A copy of this updated claim is enclosed. I leave it to you to decide whether or not to submit this claim to OWRD.

I would like to take this opportunity to say that NRCE has appreciated working with yourself and other members of the KAWUA. Hopefully, we will have the opportunity to continue our relationship in the future. In any case, NRCE wishes you and all the Allottees success in the pursuit of your water claims.

Sincerely,
NATURAL RESOURCES CONSULTING ENGINEERS, INC.

Gentlemen:

It has come to my attention that there was an error in my letter to you dated November 19, 1999. This letter accompanied NRCE's third round of supplemental information. In that letter I stated that Claim No. 272 should be withdrawn. However, the correct number is Claim No. 270. The owner of this property is Gladys Shoulderblade. The summary sheet attached to the letter with the heading *List of Klamath Allottee Claims to be Withdrawn* shows the correct claim number.

Please make note of this correction. Claim No. 272 is still a current and valid claim. I apologize for any inconvenience this may have caused you.

Sincerely,

NATURAL RESOURCES CONSULTING ENGINEERS, INC.

**Re: Klamath Allottee Water Users Association Claims filed on behalf of
Klamath Allottees in the Klamath Basin Adjudication**

Dear Dick:

As a result of recent telephone conversations with Mr. Gerry Clark of your staff, I felt it might be helpful for OWRD if I were to write this letter and provide you with copies not only of this letter but the enclosed materials for each of the Klamath Allottee Water User Association (KAWUA) claims filed with OWRD for the Klamath Basin Adjudication (KBA).

First, enclosed please find a list of claimants the KAWUA, Fredericks, Pelcyger & Hester, LLC (FP&H) and Natural Resources Consulting Engineers (NRCE) currently represent.¹ This list represents the KAWUA's engineer's summary of all current KAWUA

¹As you were informed in the December 29, 1999 letter by Paul Hamai at NRCE, NRCE is attempting to cease their work for the KAWUA, effective December 31, 1999, due to lack of funding to pay for NRCE's work. However, as also mentioned in that letter, NRCE remains hopeful that additional funding can be secured in the future and NRCE has continued, where necessary, to provide our office with information needed to support our continued representation of the KAWUA. I should also mention that our firm is in the same position as NRCE—have not been provided with compensation for a number of years and the future financial situation of the Allottees is extremely uncertain. Accordingly, at some point

Mr. Dick Bailey
February 22, 2000
Page 2

water claims, as of February 7, 2000. As you know, a number of the claims originally filed by our firm and NRCE on behalf of the KAWUA have been withdrawn since their original filing, due to deaths, sale of property, etc. In that regard, I have enclosed a copy of a list of KAWUA claims to be withdrawn, also generated by NRCE, dated November 19, 1999.

I understand from my conversations with Gerry Clark at OWRD that the KAWUA's "withdrawn" claims may still be maintained by OWRD as "active" claims. The purpose of NRCE and our office informing you that particular claims are "withdrawn" is to inform you that the KAWUA and its representatives are no longer working on, handling or otherwise representing these claims. Where appropriate or possible we have informed the claimants that they are now responsible for the "withdrawn" claims.

Based on NRCE's records, that means the KAWUA and its representatives are now representing 61 active Allottee claims and have withdrawn 20 claims. It appears that OWRD records, at least as of February 19, 1999, show an additional 10 KAWUA claims which were originally filed but subsequently withdrawn. These claim numbers appear to be: Claim Nos. 237, 245, 254, 677, 678, 681, 686, 687, 703 and 704.

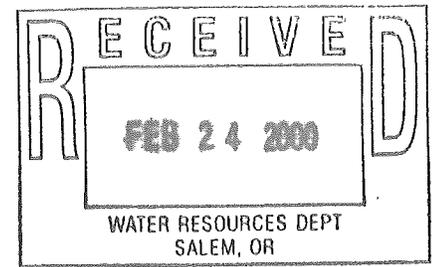

As for the claims that we continue to represent for the KAWUA, it is my understanding that NRCE has updated ownership and address information where appropriate and possible.

Also, please note that the amount of water originally claimed for six of the claims we continue to represent for the KAWUA has been modified. The change in amount claimed is reflected on the enclosed NRCE list of active claims. Appropriate documentation has been previously submitted for these specific claims to adequately modify them.

As you are aware, in response to a February 19, 1999 letter from Mr. Cory Engel at OWRD, the KAWUA's engineers provided a series of submissions to OWRD in the Summer and Fall of 1999 to provide additional information and documentation requested by OWRD, modify the claims referenced above and clarify which claims are to be withdrawn and which claims are to remain active. The dates of these submissions and/or letters includes, but is not

this firm will also have to cease its representation of the Allottees, but for the time being is committed to assisting the Allottees during the open inspection and subsequent contest periods.

Mr. Dick Bailey
February 22, 2000
Page 3

necessarily limited to, July 16, 1999, September 20, 1999, September 30, 1999, October 11, 1999, November 19, 1999 and December 29, 1999.

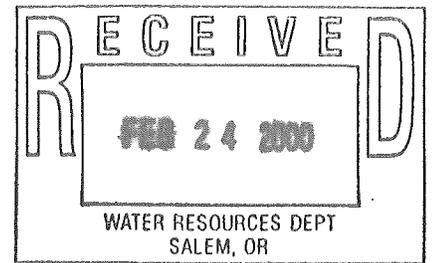

As the KAWUA's professional engineer, NRCE was an appropriate entity to submit this information and documentation and to notify OWRD of the status of claims, including modifications and withdrawals. FP&H was consulted and copied with all of the information provided by NRCE to OWRD to update, supplement, modify and withdraw claims in 1999 and previous years. Again, NRCE was an appropriate entity to submit this information on behalf of the KAWUA as a duly appointed and contracted for representative of the KAWUA members for the specific purpose of developing the Allottee claims and insuring they are as complete and up to date as possible for the adjudication process. To the extent OWRD requires FP&H's confirmation as to the appropriateness and legitimacy of NRCE's actions, including submissions, modifications and withdrawals, on behalf of NRCE's and FP&H's client, the KAWUA, this letter represents such confirmation.

In addition, while you may already have these documents in your files, enclosed you will find copies of a Klamath Tribal Resolution chartering the KAWUA as well as a Resolution of the KAWUA itself reaffirming and ratifying the decision of the KAWUA membership to contract with FP&H for the purpose of providing representation in the KBA proceedings.

In order to assist you in insuring your records are as complete as possible, we have provided you with 91 separate copies of this letter, the two enclosed Resolutions and the lists of active and withdrawn claims for insertion in each of the separate claim files identified on the top of each of the copies of the letters. We have provided copies not only for the 61 active claims identified on the NRCE list enclosed herein, but an additional 30 copies for the 20 additional claims identified as withdrawn by NRCE on the list enclosed within, as well as the remaining 10 on the February 19, 1999 OWRD list referenced above.

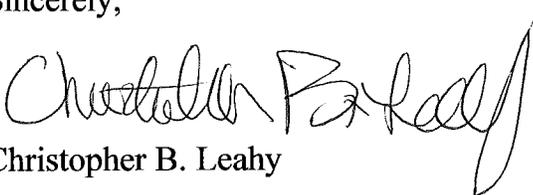

To the extent that your staff has experienced any confusion or uncertainty about any of the claims filed on behalf of the KAWUA over the last decade, I sincerely apologize. As you know from working with Paul Hamai at NRCE, there has been little or no funding to support the Allottees' participation in the Klamath Basin Adjudication and related ADR settlement process for quite some time now. Accordingly, the KAWUA's engineers and legal counsel have essentially been taking this project on pro bono. The lack of funding has made it exceptionally difficult to engage in activities which incur expenses, such as travel, and perhaps in other ways facilitated some of the confusion or inconvenience that members of your staff may have experienced in recent months. Again, to the extent that has occurred

Mr. Dick Bailey
February 22, 2000
Page 4

I sincerely apologize. I do hope, however, that having a quality engineering firm working on this group of Allottee claims has, in addition to ensuring the quality and completeness of the claims, made this process more efficient for OWRD than it might otherwise have been if the claims were each developed and filed individually. I sincerely thank you for all of the assistance you and your staff have provided us to date and look forward to working with OWRD more in the coming months. This is a truly enormous task you have had to undertake and you are to be commended for your significant efforts. Please, if you need any additional information or if I can be of any further assistance regarding the KAWUA's claims in the Klamath Basin Adjudication, do not hesitate to call.

Sincerely,

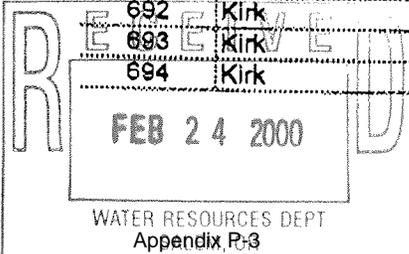

Christopher B. Leahy

RESOLUTION NO. 91-008

RESOLUTION FOR CHARTERING KLAMATH ALLOTTEE WATER ASSOCIATION

- WHEREAS,** The Klamath Tribe was provided Restoration (P.L. 99-398) of federal recognition, rights and privileges on August 27, 1986; and
- WHEREAS,** The General Council of the Klamath membership is the Governing body of the Klamath Tribe, by the authority of the Constitution and Bylaws of the Klamath Tribe (Article V, VI, Section IV e) as approved and/or adopted on April 10, 1982; and
- WHEREAS,** The Klamath Tribal Executive Committee is elected by the General Council to act on its behalf for execution of the day to day business of the Klamath Tribe; and
- WHEREAS,** In 1864, the Klamath Tribe and the United States signed a treaty which reserved to the Tribe and its individual members many rights including hunting, fishing and gathering rights, agricultural rights, and water rights to support those activities; and
- WHEREAS,** The General Council on September 27, 1985, delegated to the Executive Committee the responsibility and authority for managing and protecting Tribal treaty rights; and
- WHEREAS,** The quantification of the Tribe's water rights is a matter of the greatest importance to the Tribe; and
- WHEREAS,** The Tribe is unable to provide legal representation to individual members; and
- WHEREAS,** The individuals have formed an Association to protect their water rights called the Klamath Allottee Water Users Association; and
- WHEREAS,** The Bureau of Indian Affairs has indicated it may provide funding to the Association; and

CONTINUED:
RESOLUTION NO. 91-008

WHEREAS, The Association needs to be chartered by the Tribe to be eligible to receive funding.

NOW, THEREFORE, BE IT RESOLVED that the Klamath Tribe hereby charters and recognizes the Klamath Allottee Water Users Association under its Tribal authority.

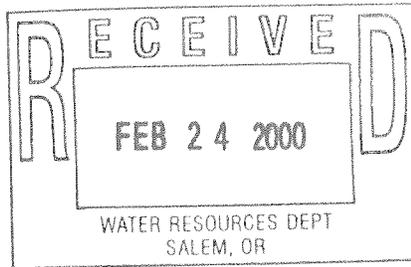

CERTIFICATION

We, the undersigned, as Chairman and Secretary of the Klamath Tribe and Executive Committee, do hereby certify that, at a regularly scheduled Meeting on the 11th day of February, 1991, where a quorum was present, the Committee duly adopted this Resolution by a vote of 7 for, 0 opposed and 0 abstaining.

RESOLUTION OF THE
 KLAMATH ALLOTTEES
 WATER USERS ASSOCIATION

WHEREAS, the Klamath Allottees Water Users Association ("the Association") have this date enacted Bylaws and formed an association to carry out the purposes of the Association;

WHEREAS, the Association has treaty based water rights as confirmed by the court decisions in U.S. v. Adair, 723 F.2d 1394 (9th Cir. 1983);

WHEREAS, the Association and its members do not possess the financial resources to retain and pay for a private attorney to represent their interests in this proceeding;

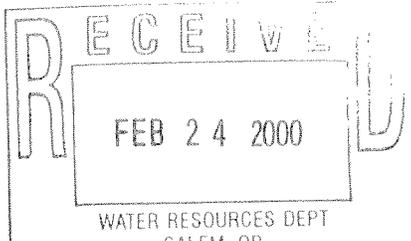

WHEREAS, the Association is in need of an attorney to provide representation to members of the Association in the pending water rights proceedings initiated by the Oregon Department of Water Resources in order to protect their water rights;

WHEREAS, the members of the Association have interviewed several lawyers and law firms for this purposes and have selected the law firm of Fredericks, Pelcyger & Hester to represent them in the pending proceedings;

NOV 6 1990

Oregon Water Resources Department
Teri Hranac, OWRD
725 Summer Street, N.E., Suite "A"
Salem, Oregon 97301

Dear Ms. Hranac,

This letter is written to notify the Oregon Water Resources Department that the Klamath Water Allottees Association is no longer being represented by our Attorney Chris Leahy, of Fredericks, Pelcyger & Hester LLC law firm, effective as of April 13, 2006. I apologize for the delay in relaying this information to you.

Some of our Allottees may have already contacted you either in writing or verbally and informed you of the address to which they would like any and all future information sent to. If they have not, please know that we are making every attempt to contact each of them and inform them that they must complete this very important step.

Thank you,

A handwritten signature in cursive script that reads "Phil Tupper".

interoffice
MEMORANDUM

00000 00004

To: Don Knauer
From: Cory Engel
Subject: non-Indian ownership of PIA acres
Date: February 2, 1999

This is a rewrite of my earlier memo, for reference to counsel as you see fit.

Background: Dale White has indicated in claim 685 (PIA claim for a Klamath Indian) that two parcels were in non-Indian ownership for more than five years. Claimant claims "an 1864 Treaty water right for the present and future agricultural requirements for the parcel and, in the alternative, an 'inchoate right' (see OAR §690-28-010 (10)) based upon the irrigation by" the non-Indian. For the two parcels in question, the claimant is claiming both existing irrigation and PIA.

Question: Should the fact of non-Indian ownership for more than five years be considered in our determinations, and if so, should it result in recommending denial of the portion of the claim that was PIA land owned by a non-Indian for more than five years?

AS IN THE RULES

To: Dick Bailey
From: Don Knauer <Donald.E.KNAUER@wrд.state.or.us>
Subject: Report - USFS meeting in Klamath Falls
Cc:
Bcc:
Attached:

00000 00005

I met with the Winema NF Water Resources staff on July 21, 1999 to discuss the mapping requirements and determine how they could adhere to the requirements. The problem is that their maps do not meet all of the ORS Chapter 539 and OAR Division 14 mapping requirements. Specifically, the paper and ink used, scale, and lack of diversion point data. The problem developed because the USFS was allowed waivers to the standards.

I have resolved all of the issues with the Winema NF Water Resources staff. I did this by making them aware of the requirements and helping them experiment with their computer mapping system to develop an acceptable map. They will prepare a "draft" map for my review followed by the finals. The finals will be on appropriate paper, at the scale of 4" = 1 mile and they will submit all of the diversion point data. For the consumptive use sites they will provide system information.

Winema NF staff will prepare the maps for the Winema, Fremont and Klamath National Forests.

Winema NF staff (and an NRCE representative, a consultant for the Dale White PIA claimants) said that the requests we have made for the maps and data, which recind the waivers, could have easily been met originally. The data was available and their computer drafting system could have, and will, provide the necessary maps. That it would have been easier, less costly and more productive to have met the requirements the first time, if only they had been made aware of them.

Certificate. I certify that the foregoing Final Roll of the members of the Klamath Indian Tribe was prepared from the records of the Klamath Indian Agency, and that it is correct according to my best knowledge and belief; that the Final Roll was made pursuant to the provisions of section 3 of the act of August 13, 1954, Public Law 587.

ELMO MILLER,
Superintendent, Klamath Indian Agency,
Klamath Agency, Oregon.

SEPTEMBER 12, 1957.

I hereby certify that the foregoing roll consisting of 89 pages (in original document) and containing a total of 2,133 names constitutes the final roll of the Klamath Tribe of Indians and is submitted in accordance with section 3 of the act of August 13, 1954, Public Law 587 (68 Stat. 718) as amended by the act of August 14, 1957, Public Law 85-132 (71 Stat. 347). Disposition has been made of all appeals to the Secretary contesting the inclusion or omission of the name of any person on or from the proposed roll as published in the FEDERAL REGISTER on May 13, 1955 (20 F. R. 3269).

MARTIN N. B. HOLM,
Acting Area Director.

STATEMENT OF CONTEST
OF CLAIM AND/OR
PRELIMINARY
EVALUATION OF CLAIM:

CLAIMS OF OTHERS

To Richard Bailey, the Water Resources Adjudicator and to the above-named contestee. Contestant hereby contests the right claimed by the above-named contestee, or the Preliminary Evaluation of the right claimed by the above-named contestee, to the waters of the Klamath River and its tributaries, in the above entitled proceedings, and for statement of contest, said contestant alleges:

1.

That contestant claims an interest in the waters of the said stream, as follows:

000001 00002

*We have water rights
and it should not be taken from us
in Medford*

0005 C S RAM

2.

That the above-named contestee claims a water right in the Klamath Basin Adjudication, as follows:

*I have paid for adjudication water
for 42 years and I
want to continue to have the same
water right*

3.

That the above-named contestant contests the right claimed by the above-named contestee for the following reasons (fill in if you are contesting the right claimed):

*We need water the business for
for water to drink and to care
for our animals*

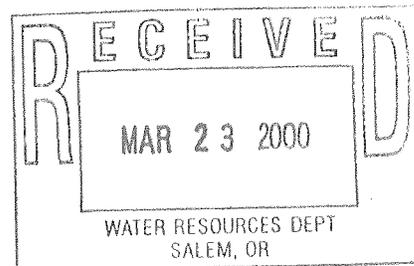

4.

That the above-named contestant contests the Adjudicator's Preliminary Evaluation of the right claimed of the above-named contestee for the following reasons (fill in if you are contesting the Preliminary Evaluation of the right claimed):

please - I demand here:
not lose the right
for water in Medford

5.

Wherefore, contestant demands that a hearing of said contest be had, and testimony taken therein, and that it be determined by the Water Resources Adjudicator in the above-entitled proceeding that the contestee is entitled to have the following water right adjudicated (if none, so state):

6.

Service of notice of hearing, or answers or other papers may be made upon (contestant or contestant's attorney, as the case may be), whose mailing address is:

STATE OF OREGON,)
County of Jackson) ss.

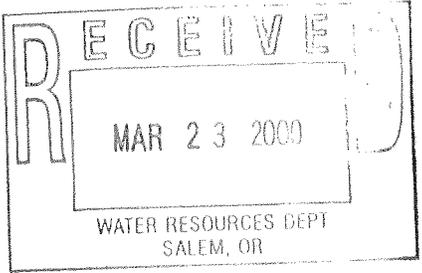

I, _____ being first duly sworn, depose and say:

That I am the contestant (or attorney for the contestant or contestants) in the above entitled statement of contest; that I have read the foregoing statement of contest, and that the same is true, as I verily believe.

WATER RESOURCES DEPT.
SALEM, OREGON

March 14, 2000

Dear District Water User:

For many of you, this is the first communication you may have received from the Oregon Water Resources Department (WRD) regarding the Klamath Basin General Stream Adjudication. For others, it is another notice in a series of notices informing you of impending actions by the Department.

It is possible that you may not be aware of the adjudication process or the effect of decisions that will be made in the adjudication that may affect your water right. However, this information and the decisions you make may affect your right to use water from the Klamath River and its tributaries. This letter and the enclosed attachments are meant to inform you of your rights and assist with decisions you may make.

The Klamath Basin Adjudication is a statutory process designed to determine the water rights for uses of water which began before adoption of the Oregon Water Code in 1909, or for uses of water which were reserved to the federal government or Indian tribes.

Oregon distributes water based upon the doctrine of prior appropriation. This means that those with water rights with older or senior priority dates are more likely to receive water in times of when there is not enough water to meet all demands than those with more recent or junior rights.

Most of the claims for water rights made in the Klamath Adjudication are for priority dates before 1909. This means that if these claims are approved and finally decreed by the court, they will have priority over the use of water that originated and was permitted after 1909. Many of the claims are for a great deal of water and depending upon whether or not they are ultimately decreed, may have a serious impact upon your ability to use water. Therefore, it is important that you become as knowledgeable as possible about the adjudication process and your rights within that process.

At this point a little history may fill in some of the blank spots for you:

The Klamath Adjudication was initiated in the mid-1970's. Through the 1980's the department surveyed water uses in the basin and developed water use maps. In 1990 the first claims were received claiming water use before 1909. Claims were again received in 1997 also claiming water uses prior to 1909 and water uses reserved to the federal government and Indian tribes.

00000100007
After the last set of claims were received, the Department reviewed the claims for both legal and technical sufficiency. The Department published its "Summary and Preliminary Evaluation of Claims" on October 4, 1999. On the same day, the department opened all the claim files to public inspection. These files are located at the department's office in Salem and will continue to be open for public review.

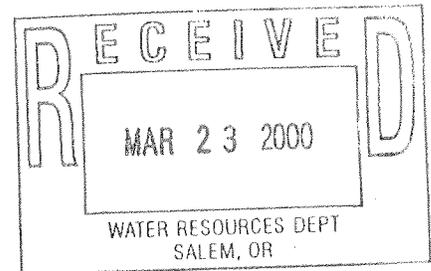

With this letter you have received a notice of your ability to "contest" any claim made in the Klamath Adjudication and/or any of the preliminary evaluations of claims made by the Department. Forms and instructions have been attached for your use, if you so desire. If you hold a valid surface water right; one that is certificated, permitted or decreed in the Klamath Basin, or if you are a claimant in the adjudication, you have a right to file a contest because you are defined as a person having an interest in the waters of the Klamath Basin.

I have attached a list of questions and answers which may assist you as you decide whether or not to file a contest or which may help you with the completion of a contest form. In any case, the adjudication staff at WRD is available to assist you in any way we can. If you have any questions or simply need clarification please do not hesitate to call us at 1-800-624-3199 and ask for the adjudication staff.

Sincerely,

Richard D. Bailey, Adjudicator
Klamath Basin Adjudication

State of Oregon
Water Resources Department

000001 00008

In The Matter of the Adjudication Notice of Opportunity For A Contested
of the Waters of the Klamath Basin Case Hearing Regarding Claims

To: Persons having an interest in the waters of the Klamath Basin

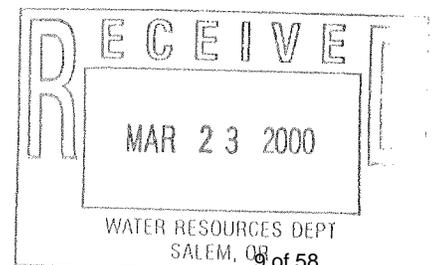

Pursuant to ORS Chapter 539, the Department of Water Resources has initiated an adjudication of certain water rights in the Klamath Basin. The Department of Water Resources has received claims for vested water rights with a priority date before 1909, and for water rights based on federal law. The Water Resources Department has reviewed these claims, and has made an Preliminary Evaluation of these claims.

The claims and the Department's Preliminary Evaluation are available for inspection in the Salem Office of the Water Resources Department at 158 12th Street NE until March 31, 2000.

If you disagree with any claim, or the Water Resources Department's Preliminary Evaluation of any claim, you are entitled to a hearing regarding that claim. If you want a hearing, you must file a statement of contest between April 3, 2000 and May 8, 2000.

A statement of contest must be in substantially in the form set forth in Water Resources Department rules. The statement of contest must state with reasonable certainty the grounds of the contest. A form statement of contest is available from the Water Resources Department.

The request must be mailed, delivered or faxed to the Water Resources Department at 158 12th Street NE Salem OR, 97310. If a statement of contest is not received within this period, your right to a hearing shall be considered waived. Parties to the proceeding shall be limited to claimants or water right holders who file a contest within the contest period (contestants), and claimants whose claims are contested (contestees). There will be no other parties or limited parties. Except as provided in ORS 539.210, no person or entity will be permitted to file a contest or intervene after the end of the contest period.

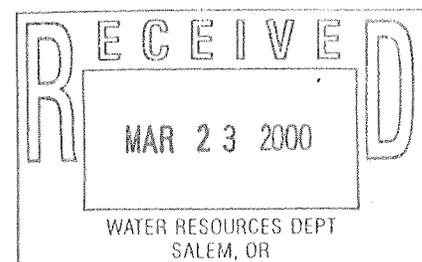

000001 00009

The Water Resources Department is authorized to hold the hearing under ORS 539.100, 539.110 and 539.130. The hearing will be conducted as provided in applicable portions of the water adjudication statutes (ORS Chapter 539); Department of Water Resources rules governing adjudications (OAR Chapter 690 Divisions 28, and 30) the Administrative Procedure Act (ORS Chapter 183); the Attorney General's Uniform Rules (OAR Chapter 137; Division 3).

If you request a hearing, the Department will notify you of the time and place of the hearing. You will have the right to be represented by counsel at the hearing. The Department or the Hearing Officer will give you information on the procedures, right of representation and other rights of parties relating to the conduct of the hearing before commencement of the hearing. A Collaborative Dispute Process is available as an alternative to a contested case hearing in this matter. If you choose to participate in such a process, it will not affect your right to a contested case hearing and the matter is not resolved through the collaborative process, as long as a hearing request is received by the Water Resources Department within the time period stated above.

Richard D. Bailey, Adjudicator
Klamath Basin Adjudication

Notice Date: Mar 2000

00001 00011

Who may file a contest?

A person holding a surface water right within the Klamath Basin or a claimant in the Klamath Basin Adjudication may file a contest.

Should I file a contest?

You may challenge either the factual or legal basis for a claim or the Adjudicator's *Preliminary Evaluation* of a claim. Some specific reasons for contests include: the claim asserts the wrong priority date, quantity of water, or the area of use. ***You must state with reasonable certainty the grounds for your contest or it will not be considered by the Adjudicator.***

Am I required to hire an attorney if I want to submit a Contest?

No. Unless you are a corporation, partnership, unincorporated association or government entity, Oregon law does not require you to be represented by an attorney in this proceeding. However, you have the right to be represented by an attorney if you desire.

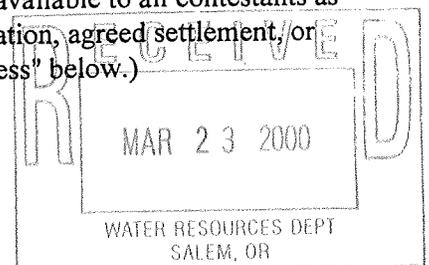

How to File a Contest

- 1. **Complete Statement of Contest** Complete Statement of Contest in proper format as described by the Department's Administrative Rules. A sample form and instructions for a Statement of Contest are attached and are also available on the Department's website at www.wrd.state.or.us.
- 2. **File a Contest** You must file a contest ***between April 3, 2000 and May 8, 2000*** by mailing or delivering the notarized Statement of Contest to:
 Richard Bailey, Adjudicator
 Water Resources Department
 158 12th Street NE
 Salem, OR 97301-4172
 The contest must be received by 5:00 p.m. on May 8, 2000.
- 3. **Serve Claimant** You must send a copy of the Statement of Contest to the claimant, or their attorney, for the claim and/or the *Preliminary Evaluation* you are contesting (the "contestee") by certified or registered mail. ***See the list of claimants's mailing addresses on the Department's website.***
- 4. **Submit Proof** Send copy of US Postal Service Return Receipt signed by contestee or a statement describing that the claimant was served by the contestant.

What happens after I file a contest?

If you file a contest during the Contest Period, you are entitled to a hearing.

The Klamath Basin Alternative Dispute Resolution (ADR) process is available to all contestants as an alternative to a hearing, whereby a contest may be settled by stipulation, agreed settlement, or consent order. (See "What is the Alternative Dispute Resolution Process" below.)

What is the Klamath Basin Adjudication?

The Klamath Basin Adjudication (KBA) is a complex proceeding to determine, quantify and document certain "vested" water rights in the Klamath Basin. The rights to be determined are 1) water uses that began before the Oregon Water Code was enacted on February 24, 1909; 2) federal reserved water rights; and 3) treaty-based rights. The KBA involves a two part process: a recommendation by the Adjudicator, within the Water Resources Department (Department), and a final "decree" issued by a Klamath County Circuit Court judge.

Should I be concerned about the Klamath Basin Adjudication?

If you hold a surface water right in the Klamath Basin -- one that is decreed, certificated, or permitted, or if you have filed a claim in the adjudication -- you have an interest in the water of the Klamath River and its tributaries. Once the "claimed" water rights involved in the KBA process are determined, your ability to use your water right may be affected.

How could the Klamath Basin Adjudication affect my right to use water?

Currently, the Water Resources Department does not regulate the "claimed" water because the quantity, source, priority date, use, etc. have not been determined. Oregon Water Law follows the prior appropriation doctrine, or "first in time, first in right." Therefore, a claim that is determined may have an earlier priority date than your water right. When there is not enough water to meet all water users' demands, the local watermaster may shut off a junior upstream water user to satisfy a senior water user.

How can I determine if there is a claim that may affect my water right?

You may look at the index of the *Summary and Preliminary Evaluation of Claims* for names of claimants. You may also look through the *Preliminary Evaluation* by claim type. Each *Preliminary Evaluation* lists the general location of the claim by township and range and the water source of the claim. You may also visit the Salem office to review claim documents.

How can I gain access to the *Preliminary Evaluation of Claims*?

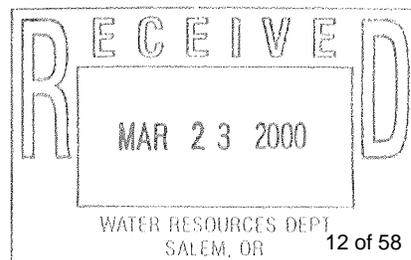

The *Preliminary Evaluation of Claims* is available on CD-ROM and on the Department's website at www.wrd.state.or.us. You can view the *Preliminary Evaluation of Claims* at Department offices and most public libraries in the Klamath Basin. The website also lists additional locations where you may review the *Preliminary Evaluation of Claims*.

How can I gain access to the claims?

While you can view the *Preliminary Evaluation of Claims* online or at local libraries, you must visit the Department's Salem office to review actual claim documents. If you know the claim number, you may call or write and request a copy of claim documents from the adjudication staff. However, there is a copying fee.

What if I disagree with a claim or the *Preliminary Evaluation of a claim*?

Surface water right holders within the Klamath Basin or claimants to the Klamath Basin Adjudication may contest any claim or the Adjudicator's proposed action on a claim (described in the *Preliminary Evaluation* for each claim) by filing a "contest" with the Department. If you file a contest, a hearing may be held.

What happens in a hearing?

The hearing will be conducted by a hearing officer from the state central panel of hearing officers. Hearing officers are not judges, but they generally have extensive experience in administrative law matters and rules that govern this type of hearing.

00001 00012

At the beginning of the hearing, the hearing officer will explain the issues involved in the hearing and the matters that the parties must either prove or disprove. The hearing officer will ensure that the record developed at the hearing shows a full and fair inquiry into the facts necessary for consideration of all the issues.

The hearing officer will not presume that the *Preliminary Evaluation* is correct. To the extent the *Preliminary Evaluation* contains relevant evidence, it will be considered by the hearing officer.

Who will be involved in a hearing?

The parties to the contested case hearing may include the claimant ("contestee") and the "contestant." You have the right to be represented by an attorney at the hearing. If you are a corporation, partnership, unincorporated association or government entity, you *must* be represented by an attorney in this proceeding.

The Water Resources staff may participate in the hearing to assist the hearing officer in developing a full record. The Water Resources Department may be represented by the Attorney General's Office.

Who has the "burden of proof" in a contested case hearing?

The burden of proof in establishing a claim will be on the person or entity whose claim is being contested. However, if the contestant makes an assertion opposing a claim, the contestant must present evidence supporting that assertion.

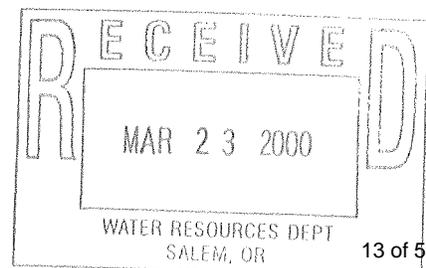

What is the Alternative Dispute Resolution Process?

Parties will be offered an opportunity to settle contests through the Klamath Basin Alternative Dispute Resolution (ADR) process. Because of the size and complexity of the claims filed in the Klamath Basin Adjudication, the Water Resources Department initiated the voluntary ADR process to address adjudication claim issues and other matters related to water allocation and management in the basin. After the contest period closes, the ADR leader will notify all parties that the ADR process is available and will work to schedule any necessary meetings. Use of the ADR process to settle claims is *voluntary*. If a settlement is reached as part of the ADR process, the Adjudicator will incorporate the agreement into his decision, known as the Findings of Fact and Order of Determination.

For more information on the ADR, contact Reed Marbut with the Water Resources Department at (503) 378-8455 Ext 292 or toll free in Oregon at (800) 624-3199 Ext. 292.

What if a contest is not resolved through the ADR process?

If you choose to participate in the ADR process, and the matter is *not* resolved through the ADR process, you will still have a right to a hearing as long as a Statement of Contest is received by the Department within the contest period deadlines.

What happens after the hearing/ADR process?

After the hearing, the hearing officer will issue a *proposed order* including recommended findings of fact and conclusions of law. The parties will have an opportunity to file exceptions to the *proposed order* to the Adjudicator.

00001 00013

The Adjudicator is not bound by the proposed order issued by the hearing officer. The Adjudicator may modify the proposed order issued by the hearing officer when he issues his Findings of Fact and Order of Determination. If the Adjudicator modifies the proposed order issued by the hearing officer in any substantial manner, he must identify and explain these modifications. The Adjudicator may only change a finding of *historical* fact made by the hearing officer, if the Adjudicator determines that the finding of fact is *not* supported by a preponderance of the evidence.

What is the Findings of Fact and Order of Determination?

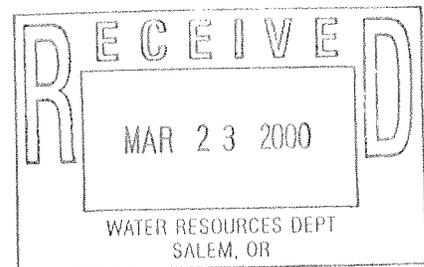

The Adjudicator's decision, called the Findings of Fact and Order of Determination (Order), will determine all the claims and will be filed with the Klamath County Circuit Court. Once the Order is filed with the court, local watermasters will regulate the rights as described in the Adjudicator's Order, including the priority dates, quantities of water, uses of water and periods of use.

What happens after the Adjudicator files his decision with the Klamath County Circuit Court?

Once the Findings of Fact and Order of Determination (Order) has been filed with the Circuit Court, a party to the adjudication may object to any part of the Order. This objection is called an "exception." If exceptions are filed, they will be heard by the Circuit Court.

For the portions of the Order where no exceptions are filed, the Adjudicator's decision, as described in the Order for each claim, will stand. In other words, the judge may only modify that portion of the Order where an exception is filed. If no exceptions are filed, the Circuit Court issues the water right decree based on the Adjudicator's findings and determination.

Following the Klamath County Circuit Court's decision on any exceptions, the Court will enter a final decree of the pre-1909 and federal water rights subject to the Klamath Basin Adjudication.

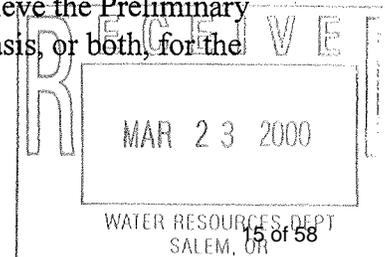

INSTRUCTIONS FOR STATEMENT OF CONTEST FORMS:

00001 00014

**TO CONTEST
CLAIMS OF OTHERS AND/OR THE PRELIMINARY
EVALUATION OF
CLAIMS OF OTHERS**

Important Notice: The Adjudicator will not accept a statement of contest that does not state with reasonable certainty the grounds of the proposed contest, or which is not verified by a contestant or the contestant's attorney.

1. Use the form titled "Statement of Contest of Claim and/or Preliminary Evaluation of Claim: **Claims of Others.**"
2. The person submitting the contest, or on whose behalf the contest is submitted, is the "Contestant." Provide that person's name in the space marked "Contestant" on the left side of the form title.
3. The person whose claim or preliminary evaluation is being contested is the "Contestee." Provide that person's name in the space marked "Contestee" on the left side of the form title. Provide the number of the claim or preliminary evaluation being contested in the space marked on the left side of the form.
4. In the space under paragraph 1, identify the adjudication claim(s) or decreed, certificated and/or permitted water right held by the contestant. Provide sufficient information to allow the contestee and the Adjudicator to identify the contestant's decreed, certificated or permitted water right.
5. In the space under paragraph 2, identify the claim and/or preliminary evaluation of claim you are contesting, by claim number. You may file one statement of contest for a contest of both a claim and the Preliminary Evaluation of that claim. It is also helpful if you provide additional information about the claim, such as the priority date, the source, and the nature of the claimed right.
6. In the space under paragraph 3, state with reasonable certainty the ground(s) for your contest of the claim. Be as specific as you can about why the claim should or should not be recognized.
7. If you believe there is an error in the Preliminary Evaluation of the claim you are contesting, in the space under paragraph 4 state why you believe the Preliminary Evaluation was wrong. You may contest either the factual or legal basis, or both, for the Preliminary Evaluation.

8. In the space under paragraph 5, state the extent of the water right, if any, that you believe should be adjudicated to the contestee in this proceeding.

9. In the space under paragraph 6, provide the name and address of the person to whom you want sent notice of hearing and other papers about the contest proceedings.

00001 00015

10. Your Statement of Contest must be a sworn statement. On the last page of the Statement of Contest Form, have the signature of the contestant or the contestant's attorney verified by a notary public.

11. File the statement of contest with the Adjudicator, at the address shown below, between 8:00 a.m. on April 3, 2000 and 5:00 p.m. on May 8, 2000. The Statement of Contest is "filed" when it is received by the adjudicator, NOT when it is postmarked. Statements of contest received after that time will not be permitted.

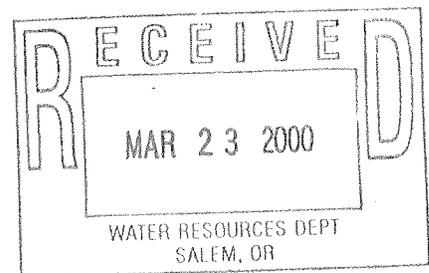

12. When you file the Statement of Contest with the Adjudicator, mail ("serve") the statement of contest by registered mail, return receipt requested, to the contestee or the attorney of the contestee. The law requires that you mail the statement of contest to the name and address stated on the contestee's statement and proof of claim. In some cases, however, the name and address on the statement and proof of claim may no longer be correct. Consequently, we recommend that you also send a copy of the statement and proof of claim, by regular mail, to the name and address shown for the claimant on the Preliminary Evaluation.

As soon as possible after you serve the contestee you must provide proof of service to the Adjudicator at the address set forth below. A signed statement that you mailed a copy of the statement of contest to the contestee in the manner described above is proof of service. At the close of the contest period the Adjudicator will send a list of contests filed to participants in the adjudication.

13. The person you identified in paragraph 6 of your Statement of Contest will be notified, at the address you provided in paragraph 6, when your contest is set for hearing.

For submissions to the Adjudicator, use the following address:

Two Petitions for Intervention were erroneously filed in contest files 9 and 10 during the Klamath Adjudication contest period. These have been filed with general files relating to the Klamath Adjudication contest period.

Contest files 9 and 10 are null; they do not represent contests.

1.

That contestant claims an interest in the waters of the said stream, as follows:

00013 00002

A permit was granted on June 20, 1989 from the Water Resources Department. Permit # 50660 To Access 0.05 cubic ft/seconds. From Corral Creek, a tributary of the Klamath River. Use is for Irrigation and fire protection

2.

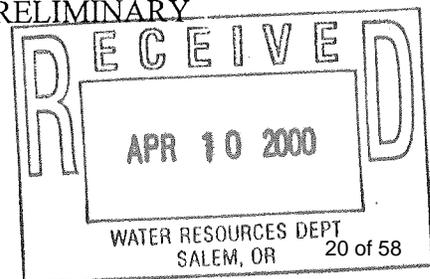

That the above-named contestee claims a water right in the Klamath Basin Adjudication, as follows:

Permit # 50660 issued June 20, 1989.

3.

That the above-named contestant contests the right claimed by the above-named contestee for the following reasons (fill in if you are contesting the right claimed):

We desire to maintain our permit

4.

That the above-named contestant contests the Adjudicator's Preliminary Evaluation of the right claimed of the above-named contestee for the following reasons (fill in if you are contesting the Preliminary Evaluation of the right claimed):

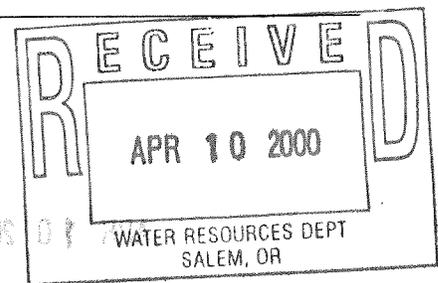

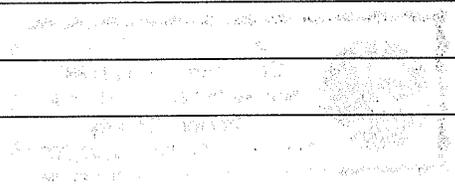

00013 00003

WE WISH TO MAINTAIN OUR PERMIT

5.

Wherefore, contestant demands that a hearing of said contest be had, and testimony taken therein, and that it be determined by the Water Resources Adjudicator in the above-entitled proceeding that the contestee is entitled to have the following water right adjudicated (if none, so state):

WE DESIRE TO RETAIN OUR PERMIT

00013 00004

Service of notice of hearing, or answers or other papers may be made upon (contestant or contestant's attorney, as the case may be), whose mailing address is:

GRESHAM ROSTAMP

GRESHAM M. & RUTH L. ROSKAMP 714-493-9440
DBA ROSKAMP SERVICES
35191 CAMINO CAPISTRANO
CAPISTRANO BEACH, CALIFORNIA 92624

are hereby issued a permit to use the waters from CORRAL CREEK, A TRIBUTARY OF KLAMATH RIVER, AND ROSKAMP RESERVOIR, TO BE CONSTRUCTED UNDER APPLICATION R-69859, Permit R-11103, for IRRIGATION OF 5.0 ACRES AND MAINTAINING ROSKAMP RESERVOIR FOR FIRE PROTECTION. The permit to the use of these waters has been issued under Application 69860 with a date of priority of MARCH 29, 1989 FOR USE OF 0.025 CFS AND MAY 22, 1989 FOR USE OF 0.025 CFS. The permit is limited to not more than 0.05 CUBIC FOOT PER SECOND, BEING 0.025 CFS FROM CORRAL CREEK AND ROSKAMP RESERVOIR FOR IRRIGATION AND 0.025 CFS FROM CORRAL CREEK FOR MAINTAINING 1.5 ACRE- FEET OF STORAGE IN ROSKAMP RESERVOIR FOR FIRE PROTECTION, or its equivalent in case of rotation, measured at the point of diversion.

The points of diversion are located as follows:

- point (1) SE 1/4 SW 1/4, Section 31, T 39 S, R 4 E, WM; 100 FEET NORTH & 2010 FEET EAST FROM NW CORNER, SECTION 6.
point (2) NE 1/4 NW 1/4, Section 6, T 40 S, R 4 E, WM; 1020 FEET SOUTH & 2020 FEET EAST FROM NW CORNER, SECTION 6.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use of water allowed under this permit shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The place of use is as follows:

Table with columns: ACRES, SECTION, TOWNSHIP, RANGE, WM. Row 1: 5.00, NE NW, 6, 40 S, 4 E.

Actual construction work shall begin on or before June 20, 1990 and shall be completed on or before October 1, 1991. Complete application of the water to the use shall be made on or before October 1, 1992.

Application 69860 Water Resources Department Permit 50660

00013 00006

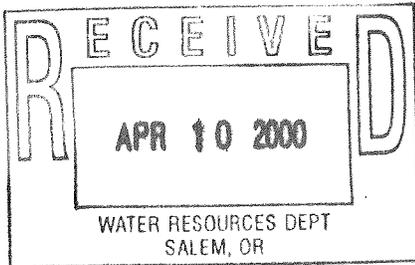

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

The right is subject to minimum flows established by the Water Resources Commission with an effective date prior to this right.

Issued this date, June 20, 1989.

BEFORE THE WATER RESOURCES ADJUDICATOR
OF THE STATE OF OREGON
KLAMATH COUNTY

WATER RESOURCES DEPT.
SALEM, OREGON

In the Matter of the Determination of the relative Rights to the Waters of the Klamath River
A Tributary of the Pacific Ocean.

Clark W. Roeder,

STATEMENT OF CONTEST
OF CLAIM AND/OR
PRELIMINARY
EVALUATION OF CLAIM:

Contestants;

v.s.

United States of America
Bureau of Indian Affairs (BIA) as
Trustee on behalf of the Klamath Tribes,

Contestee.

To Richard Bailey, the Water Resources Adjudicator and to the above-named contestee. Contestant hereby contests the right claimed by the above-named contestee, or the Preliminary Evaluation of the right claimed by the above-named contestee, to the waters of the Klamath River and its tributaries, in the above entitled proceedings, and for statement of contest, said Contestant alleges:

02784 00001

CONTEST PAGE

1.

That contestant claims an interest in the waters of the said stream, as follows:

Irrigation of 160 acres and domestic and stock water from springs and from Annie Creek. This is a Decreed Water right, being part of the Annie Creek Adjudication. The priority date is 1904, with a certificate issued July 10, 1916 and recorded in Volume 2, page 1095.

2.

That the above-named contestee claims a water right in the Klamath Basin

Adjudication as follows:

Physical habitat maintenance, reparation habitat, physical habitat,		reparian habitat	
January	2cfs	July	2cfs
February	2cfs	August	2cfs
March	2cfs	September	2cfs
April	2cfs	October	2cfs
May	2cfs	November	2cfs
June	2cfs	December	2cfs

02784 00002

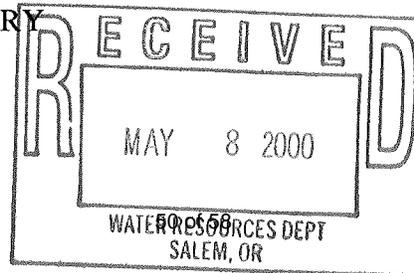

CONTEST PAGE

3.

That the above-named contestant contests the right claimed by the above-named

Contestee for the following reasons (fill in if you are contesting the right claimed):

The Klamath treaty only gives the Klamath Tribe the minimum quantity of water necessary to support the Tribes hunting and fishing rights as they were exercised in 1979 to maintain the livelihood of tribe numbers. The tribe does not have the right to impose a wilderness servitude. Their water rights cannot be greater than the amount of unconsumed water in this portion of the Wood River in 1979. A scientific determination of the water needs of the fish and wildlife in this area has been made and it does not support the amount of water asked for in this claim.

4.

That the above-named contestant contests the Adjudicator's preliminary

Evaluation Of the right claimed of the above-named contestee for the following reasons

(fill in if you are contesting the Preliminary Evaluation of the right claimed):

The amount of unconsumed water of 1979 or the claim, whichever is smaller, should be the maximum water right granted. It should not be granted automatically if that is more water than is needed for fish and wildlife in this portion of the Wood River and it does not support the Preliminary Evaluation. There was no determination of the Tribes use of the fish or wildlife as of 1979 for their livelihood.

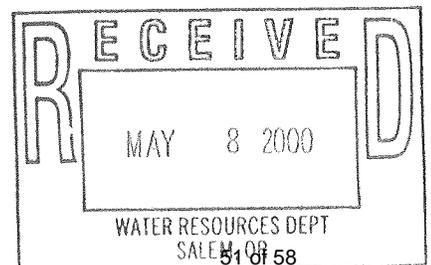

Wherefore, contestant demands that a hearing of said contest be had, and testimony taken therein, and that it be determined by the Water Resources Adjudicator in the above-entitled Proceeding that the contestee is entitled to have the following water right adjudicated (if none, so state)

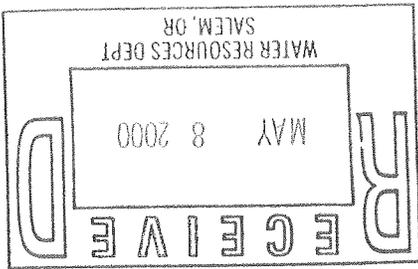

January	2cfs	July	2cfs
February	2cfs	August	2cfs
March	2cfs	September	2cfs
April	2cfs	October	2cfs
May	2cfs	November	2cfs
June	2cfs	December	2cfs
