Oregon's Integrated Water Resources Strategy
January 29, 2010 Briefer

Meet the Agency Advisory Group

The Governor's Office and 15 state agencies are assisting with the development of Oregon's Integrated Water Resources Strategy. This Agency Advisory Group includes a mix of senior natural resource and economic development experts whose goal is to ensure a balance of technical considerations at each stage of the process. The group will provide much of the outreach, narrative, data, and analysis needed to develop an integrated strategy.
