Benefit estimates: important tool for retirement planning

Retirement is one of life’s big decisions. An estimate of your PERS retirement benefit can help you determine when to retire.

This article discusses benefit estimates for an OPSRP Pension Program account.

You also have your Individual Account Program (IAP) account that will provide a separate and additional retirement benefit. You can use the IAP Disbursement Forecaster on the PERS website to estimate your IAP payout. At retirement, IAP disbursement is based on the account balance on the date of distribution, not the date you select to retire or withdraw from the IAP.

You may select monthly, quarterly, or annual distributions provided your account balance at the time of your IAP retirement supports the payment minimums. Each distribution must be at least $200.

If you are within two years of retirement eligibility, you can request a written benefit estimate from PERS. Simply complete the form available online and mail it to PERS. Your written benefit estimate is for your OPSRP Pension Program retirement benefit and does not include the IAP.

You can also create your own benefit estimates online for the OPSRP Pension Program using PERS’ Online Member Services (OMS).

This online service is available 24/7 (except for some maintenance times). OMS uses data supplied by you and your employer(s) to create benefit estimates. You can use different retirement dates and other criteria to create a number of estimates. Because OMS uses data supplied by you and your employer(s), some data fields will be pre-populated when you log on to OMS.

You start by entering a retirement date. Your birth date is automatically populated.

You can then decide if you want to name a beneficiary. Naming a beneficiary will lower your monthly retirement benefit. If you elect to name a beneficiary, you also need to provide a year of birth for that person.

On-line member survey: we want your feedback!

Does PERS’ customer service meet your expectations? How can we improve?

Please take a short survey posted on the PERS website in the “What’s News” section.

The survey will be available through the end of August 2016 and is anonymous. We will provide results in a future issue of Perspectives. Thank you in advance for your input.

Your OPSRП retirement benefit is based on your total service credit multiplied by your monthly final average Salary multiplied by a factor set in statute (1.5% for general service members and 1.8% for Police & Fire members). OMS calculates an estimated retirement benefit and displays that information.

- Planning for changing income and expense needs.

Retirement Application Assistance Sessions (RAAS)
These are one-hour, one-on-one appointments with a PERS staff member to review PERS retirement application forms and are for members who have:

1. Decided on a PERS effective retirement date.
2. Have completed the service retirement application and are ready to have it reviewed. You can call and request a retirement application or you can download the form(s).

PERS will:

1. Conduct a comprehensive review of your retirement application, forms, and supporting documents for accuracy and completeness;
2. Notarize your retirement application at no cost; and
3. Explain the retirement application process.

Please note that RAAS are not counseling sessions to assist you in making a decision to retire.

As a courtesy to others, please do not schedule more than one RAAS session. One hour is sufficient time for a comprehensive review of your retirement forms.
