- AMEND:**
- SUSPEND:**

Statutory Authority:
689.205

Other Authority:

Statutes Implemented:
ORS 689.305, 689.681, 2016 OL Ch. 100

RULE SUMMARY

This rule incorporates new statutory language put forth by 2016 House Bill 4124, which is intended to improve access to naloxone.

2016 HB 4124 permits pharmacists to prescribe and distribute unit-of-use packages of naloxone to individuals who conduct or complete Oregon Health Authority (OHA) approved training. This new legislation builds on the original 2013 legislation (ORS 689.681) that allows a trainer to possess and distribute naloxone to trainees, and allows trainees to possess and administer naloxone to an individual experiencing an opiate overdose.

The rule gives the purpose; specifies the qualifications of participating pharmacists and mandatory counseling; and outlines the delivery of care expectations for the pharmacist and pharmacy, including documentation and recordkeeping.

855
Administrative Rules Chapter Number

Permits pharmacists to prescribe packages of naloxone to prevent opioid overdose.

Rule Caption (Not more than 15 words that reasonably identifies the subject matter of the agency's intended action.)

In the Matter of:

Permits pharmacists to prescribe packages of naloxone to prevent opioid overdose.

Statutory Authority:

689.205

Other Authority:

Statutes Implemented:

ORS 689.305, 689.681, 2016 OL Ch. 100

Need for the Temporary Rule(s):

Naloxone can be used in emergency situations to reduce the harm & risks associated with opioid overdose. Allowing trained individuals to obtain naloxone will reduce fatalities from opioid overdoses. According to a 2015 report by OHA, unintentional opioid overdose is one of the leading causes of injury mortality in Oregon, with 226 deaths in 2013.

Documents Relied Upon, and where they are available:

2016 HB 4124, ORS 689.681,
<https://public.health.oregon.gov/ProviderPartnerResources/EMSTraumaSystems/Documents/naloxone-training-protocol.pdf>

Justification of Temporary Rule(s):

Passing these rules will have an immediate effect increasing the access to naloxone & providing resources available to prevent death from opioid overdose.
