

State Working Group on Zero Emission Vehicles to Meet May 17

The Zero Emission Vehicle Interagency Working Group (ZEVIWG) is a collaboration of State of Oregon agencies focused on implementing the directives of [Governor's Executive Order No. 17-21](#), tackling cost, infrastructure, and information gaps in order to help accelerate the transition to electric vehicles.

The public is invited to a meeting the ZEVIWG will hold in Portland on Friday, May 17 to share updates on Oregon's progress on the Executive Order directives and to seek public feedback. In particular, the ZEVIWG encourages comments and feedback on identifying and addressing the barriers to equitable, widespread adoption of electric vehicles in Oregon.

Meeting details are below, and an agenda is available on the [Oregon Department of Energy's website](#). If you are unable to attend the meeting in person, please submit comments to evan.m.elias@oregon.gov.

ZEVIWG Public Meeting

Friday, May 17, 2019 | 10:30 a.m. to noon
Portland State Office Building
Conference Room 1A
800 NE Oregon Street
Portland, OR 97232
