

Built Environment Efficiency Working Group
Tuesday, December 10, 2019
2:00-4:00pm
550 Capitol Street NE, Salem OR 97301
Willamette Room

2:00 – 2:20 Administrative Planning

- 2020 Plans, Meetings Discussion
 - Attendees determined that the best plan will be for meetings to be called as-needed for specific projects in 2020. There is no need to schedule regular meetings for 2020 at the current time.
- 2019 Close-out

2:20 – 3:50 EO Item 5C Coordination of Data

- January product will be a table summary of: data originators, aggregators, and users, with links if available. No cross-mapping (for now) to demonstrate who uses what data.
- Group discussed and recognized that the data is already “flowing”, as illustrated by number of users and data that is already available (particularly NWPCC)
- Good potential outcome could be to create a summary to inform 2020 BER

3:50 – 4:00 Other

- EO presentations:
 - ETO board in February, presentation planned for Low-Income Affordable Housing work
 - PUC presentation potential in January
