2024 Achievement in Community Engagement Award

Applications accepted through May 20, 2024

Each year, Oregon's Community Involvement Advisory Committee reviews applications for the Achievement in Community Engagement or ACE Awards. Local governments, special districts, and community organizations are all welcome to apply.

In establishing Oregon's land use planning program, the Oregon legislature recognized that effective community engagement is key to the successful implementation of community planning. It is no accident that the statewide planning goal with top billing, Goal 1, requires local agencies to meaningfully engage community members in the land use planning process. Under Goal 1, governmental agencies are required to:

- **Provide for widespread community engagement in all phases of the planning process,**
- **Provide for two-way communication between members of the public and decision-makers as plans are prepared, assuring that responses to public inquiries and input are provided;**
- **Make technical information available and understandable.**

The ACE Award recognizes land use planning projects that support and expand our ideas of what it means to pursue "best practices" in community engagement. "Land use planning projects" are projects with outcomes that guide the future actions or development of a community. It presents a vision for the future, with long-range goals and objectives that affect use of the land, the built environment, and local government.

Note: In Survey Monkey, respondents are unable to save and return to this application. Unfortunately, applications that are not submitted upon completion will be lost. If you plan to apply, we recommend you review the [pdf question guide](#) before completing the online survey.

Project Description

The CIAC considers projects of all sizes in ACE Award applications. Their evaluation process takes into consideration jurisdiction size and the creative use of resources when reviewing applications.

Answers to questions must stand on their own, for purposes of evaluation. However, applicants may feel free to add links to project documents, web pages, online surveys, or other materials at any point. Linked support materials add important context and help us create a robust body of tools for local governments throughout Oregon.

16. Please describe the area affected by this project.

17. Where is your project in the planning cycle?

2024 Achievement in Community Engagement Award

Community Engagement

Community engagement is foundational to successful publicly funded plans and projects. By gathering and using information from multiple points of view, agencies can ensure that plans reflect their community's varied needs and concerns. Engaging community members in a meaningful way as decisions are made is key, rather than simply conducting participation activities because they are required. A great community engagement program gives participants assurance that they will be heard, and gives elected leaders confidence that decisions will be balanced and positioned for the public good.

19. What are the community engagement objectives for this plan or project?

20. How did decision-makers use or consider this information in the decision-making process? (if applicable)

21. What tools did you use for communication and community engagement?

Refer to *Putting the People in Planning* for descriptions of the tools below.

- Project website
