

Oregon Agricultural Water Quality 2019 Compliance Program Report

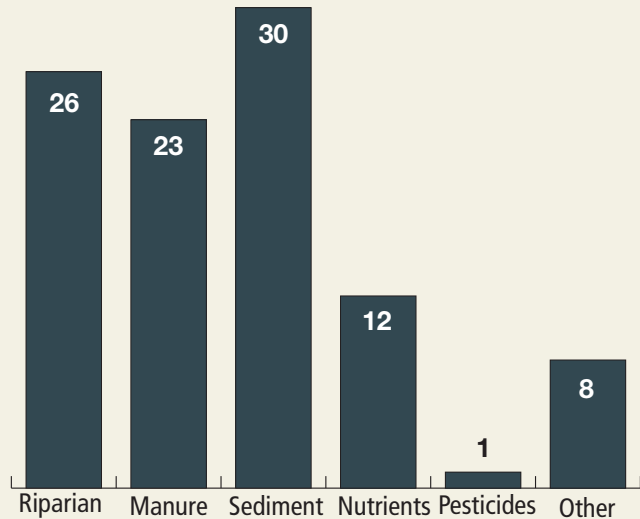

The purpose of the Agricultural Water Quality Program is to prevent and control water pollution from agricultural activities and to help achieve water quality standards. The Oregon Department of Agriculture (ODA) conducts investigations to determine compliance with agricultural water quality regulations.

65 Compliance Cases Investigated

Types of Issues

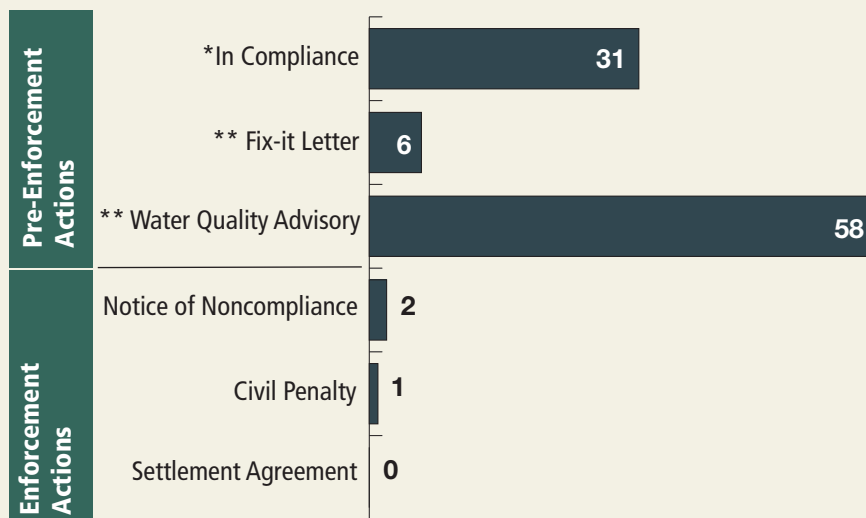

Note: Cases often have multiple issues investigated.

Compliance Actions Issued

From 1998 through 2019, ODA issued 1,342 compliance actions.

2019 Compliance Actions

Pre-Enforcement Actions	2019	1998-2019
*In Compliance (initiated in 2004)	31	468
** Water Quality Advisory	58	507
** Fix-it Letter (initiated in 2012)	6	64
**Letter of Warning (discontinued in 2017)	—	250

Enforcement Actions	2019	1998-2019
Notice of Noncompliance	2	37
Civil Penalty	1	13
Settlement Agreement	0	3

* Property was in compliance with water quality regulations at the time of the site visit.
 ** Pre-enforcement notification indicating conditions on property may not be consistent with water quality regulations.

ODA's 111 site inspections resulted in 98 compliance actions. These totals include new cases and follow-up investigations for all open cases.

Oregon Agricultural Water Quality 2019 Compliance Program Report

From the beginning of the Agricultural Water Quality Program in 1998 through 2019, ODA has initiated a total of 1,118 compliance investigations on agricultural lands. ODA has worked in 34 Strategic Implementation Areas (SIAs) since the program's inception in 2014. The number of SIA cases initiated in 2014, 2016, and 2017 are more than in 2018 and 2019 because of changes in the SIA process. In 2014, 2016, and 2017 an investigation was initiated on all properties of concern for tracking purposes; many of these properties did not result in an on-site investigation after additional information was obtained. Starting in 2018, ODA only initiated investigations for properties that required an on site investigation.

Compliance Investigations Initiated Per Year

Management Area

Cases

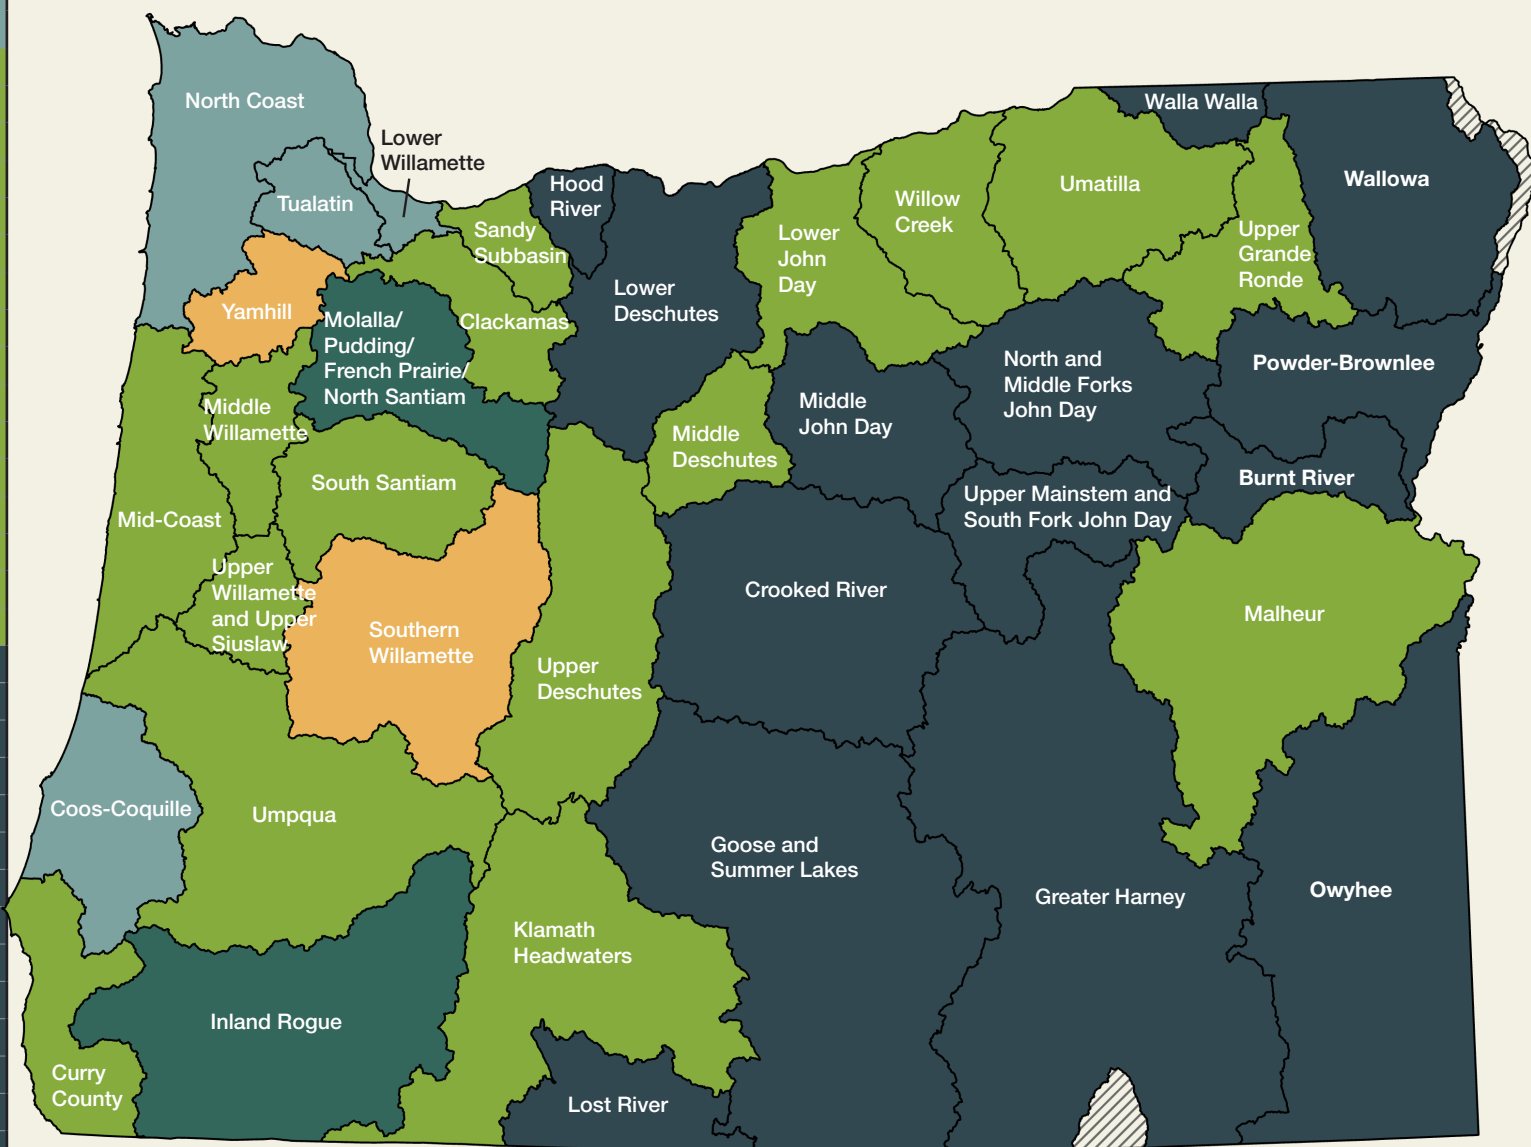

Inland Rogue	10
Molalla/Pudding/French Prairie/ North Santiam	10
Yamhill	6
