This does not include USFDA-approved tobacco products or other therapy products marked and sold solely for the approved purpose.

Violation of this policy will lead to appropriate disciplinary action up to and including expulsion for students. When considering disciplinary action for a student with disabilities, the school must follow the requirements of Board policy JGDA/JGEA - Discipline of Students with Disabilities, including those involving functional behavioral assessment, change of placement, manifestation determination and an interim alternative educational setting. Student Searches**

The Oregon School for the Deaf (OSD) seeks to ensure a learning environment which protects the health, safety and welfare of students and staff. To assist the OSD in attaining these goals, school officials may, subject to the requirements below, search a student's person and property, including property assigned by the school for the student's use. Such searches may be conducted at any time on school property or when the student is under the jurisdiction of the school at school-sponsored activities.

All student searches conducted by the school shall be subject to the following requirements:

1. The school official shall have individualized, "reasonable suspicion" based upon specific and articulated facts to believe that the student personally poses or is in possession of some item that poses an immediate risk or serious harm to the student, school officials and/or others at the school;
2. The search shall be "reasonable in scope." That is, the measures used are reasonably related to the objectives of the search, the unique features of the official's responsibilities, and the area(s) which could contain the item(s) sought and not excessively intrusive in light of the age, sex, maturity of the student and nature of the infraction.

Routine inspections of school property assigned to students may be conducted at any time.

Use of drug-detection dogs and metal detectors, or similar detection devices, may be used only on the express authorization of the Director.

Student Searches**

1. Definitions

- a. “Reasonable suspicion” is based upon specific and articulated facts to believe that the student personally poses, or is in possession of some item that poses a risk of immediate and serious harm to the student, school officials and/or others at the school. The official’s knowledge may be based upon relevant past experience of the official, observation by the official and/or credible information from another person.
 - (1) “Past experience” may provide the school official with information relevant to the violation as well as information which enables the official to evaluate the credibility of information from another person.
 - (2) “Credible information from another person” may include information which the school official reasonably believes to be true provided by another school employee, a student, a law enforcement or other government official or some other person.
- b. “Reasonable in scope” means that the manner and extent of the search are reasonably related to the objectives of the search, the unique features of the official’s responsibilities, and limited to the particular student or students most likely to be involved in the infraction and the area(s) which could contain the item(s) sought, and not excessively intrusive in light of the student’s age, sex, maturity and the nature of the infraction.

2. Routine Inspection of School Property Assigned to Students

- a. Lockers, desks and other storage areas provided by the school and assigned to a particular student(s) are the property of the school, remain in the possession of the school and are under the control of the principal. Students have no expectation of privacy regarding these items/areas.
- b. Students may use school-owned storage areas for the limited purpose of temporarily keeping items needed for attendance and participation in school instructional and activity programs only. No other purpose is permitted.
- c. Students shall be provided notification that school-owned storage areas assigned to students are subject to routine inspection without prior notice for the following reasons:
 - (1) Ensure that no item which is prohibited on school premises is present;
 - (2) Ensure maintenance of proper sanitation;
 - (3) Ensure mechanical condition and safety;
 - (4) Reclaim overdue library books, texts or other instructional materials, property or equipment belonging to the school.

3. Voluntary Consent

When a school official has the requisite justification to search either a particular school-owned storage area assigned to a student or the clothing or the personal property of a student, the official has the option of making a search or asking the student to voluntarily provide the item(s) sought. Before making a search, the official should ordinarily ask for the student's voluntary consent by requesting the student to empty the contents of the storage area, clothing or personal property. If the student refuses consent for his/her personal property, the official may elect to contact the student's parents to obtain consent for the search of personal property.

4. Search Procedures

- a. With the requisite justification, a school official may search an individual student, a school-owned storage area assigned to a student or the personal property of a student. Personal property of a student includes, but is not limited to, wallets, purses, lunch boxes/sacks, book bag, backpack or other containers used to carry belongings.
- b. All searches of a student or a student's personal property shall be based on the required reasonable suspicion/risk of immediate and serious harm and shall be reasonable in scope. A "strip search," requiring a student to remove clothing down to the student's underwear or including underwear is prohibited by the school.
- c. Searches will generally be conducted by an administrator or by other school personnel only as authorized by the Director. In certain circumstances an administrator may be assisted by a law enforcement official(s).
- d. The student will generally be permitted to be present during a search of a school-owned storage area assigned to the student or during a search of the student's personal property. The student's presence is not required, however.
- e. Search of a student's clothing will be limited to the student's "outer clothing" only. "Outer clothing" means the student's coat, jacket or other such outerwear garments worn by a student. A search of the clothing may include the search of a container inside the clothing, provided that the container is of a size and shape to hold the object of the search.
- f. Searches of a student's outer clothing will be conducted by a school official of the same sex as the student.
- g. Where the object of the search may be felt by a "pat down" of clothing or personal property, the school official may first pat the clothing or property in an attempt to locate the object before searching inside the clothing or property.
- h. Searches will be conducted in privacy, out of the view of other students, staff and others and in the presence of an adult witness of the same sex as the student.
- i. Any item removed from the student as a result of the above procedures which is not evidence of a violation of a law, school policy, administrative regulation or school rule may be returned to the student, as appropriate.

5. Other Searches¹

- a. Student vehicles may be parked on school property on the condition that the student and his/her parent(s) allow the vehicle and its contents, upon reasonable suspicion/risk of immediate serious harm, to be examined.

If a student or parent(s) refuses to allow access to a vehicle when requested under the circumstances described above, the student's privilege of bringing a vehicle onto school property will be terminated for the remainder of the school year. Law enforcement officials may be notified.

- b. Metal detectors, including walk-through and hand-held devices, may be used when the Director determines that there is a need for such detectors based upon reasonable information of a history of:
 - (1) Weapons or dangerous objects found at school, on school property, at a school function or in the vicinity of the school; or
 - (2) Incidents of violence involving weapons at a school, on school property, at a school function or in the vicinity of the school.

Upon positive detection, a student will be asked to voluntarily remove the metal item. If the student refuses consent, the student will be held (will not be allowed further entrance into the building) and any personal property will be seized and secured while the parent(s) and law enforcement officials are summoned.

- c. Drug-detection dogs may be used when the Director determines that there is a need for use of such dogs based upon reasonable information of a history of:
 - (1) Drugs and/or drug paraphernalia use/possession at school, on school property, at a school function or in the vicinity of the school; or
 - (2) Incidents of violence or health emergencies involving drugs and/or drug paraphernalia at a school, on school property, at a school function or in the vicinity of the school.

After such need has been determined, drug-detection dogs may be used to sniff out contraband in school-owned storage areas or in student vehicles parked on school property upon reasonable suspicion to believe that contraband is in the area or vehicle.

Drug-detection dogs will not be used for general or "dragnet" searches.

- d. Body fluid searches of students for the presence of alcohol or drugs are prohibited by the school unless specifically authorized by the Director as part of its athlete drug-testing program.
- e. The school may deploy breathalyzer devices at extracurricular events and activities. Students may be subject to testing procedures as a prerequisite to attending the event/activity. If a

¹Consult with legal counsel prior to implementing procedures in this section, modifying as appropriate to meet local needs.

student refuses testing, he/she will be detained and parents may be contacted to come and take the student home.

6. Discipline

- a. Possession or use of unauthorized, illegal, unhealthy or unsafe materials will result in the following:
 - (1) Seizure of the material:
 - (a) Property, the possession of which is a violation of law, school policy, administrative regulation or school rule will be returned to the parent or, if also a violation of law, turned over to law enforcement officials or destroyed by the school as deemed appropriate by the principal;
 - (b) Stolen property will be returned to its rightful owner;
 - (c) Unclaimed property may be disposed of in accordance with school policy DN - Disposal of School Property.
 - (2) Discipline up to and including expulsion and notification given to law enforcement officials as appropriate or as otherwise required by law or school policy.

7. Documentation

- a. Administrators shall document all searches.
- b. Documentation shall consist of the following:
 - (1) Name, age and sex of student;
 - (2) Date, time and location of search;
 - (3) Justification for search and nature of the reasonable suspicion/risk of immediate and serious harm;
 - (4) Description of the object(s) of the search;
 - (5) Type/Scope of search (areas/items searched);
 - (6) Results of search, prohibited material(s) found, disposition of the material(s) seized and discipline imposed;
 - (7) Name of the witness to the search;
 - (8) Name of the school official conducting the search;
 - (9) Contacts with law enforcement and name/position of the contact(s).
- c. Documentation will be maintained as a part of the student's education records and retained in accordance with applicable Oregon Administrative Rules governing records' retention.

8. Notice

Notice of the school's policy and this administrative regulation will be provided to staff, students and their parent(s) annually, through staff and student/parent handbooks.

9. Cooperation with Law Enforcement Officials

a. Administrators will meet with law enforcement officials y to review:

- (1) Official contact protocols;
- (2) Applicable school policies and administrative regulations;
- (3) Circumstances in which the school will generally be requesting local law enforcement involvement in student searches and suspected crimes;

Use of Restraint and Seclusion

The Oregon School for the Deaf (OSD) is dedicated to the development and application of best practices within the school's public educational/behavioral programs. It is the intent of the school to establish a policy that defines the circumstances that must exist and the requirements that must be met prior to, during and after the use of physical restraint and/or seclusion as an intervention with students.

Definitions

1. "Physical restraint" means the restriction of a student's movement by one or more persons holding the student or applying physical pressure upon the student. "Physical restraint" does not include touching or holding a student without the use of force for the purpose of directing the student or assisting the student in completing a task or activity. The definition of "physical restraint" does not include the use of mechanical, chemical or prone restraint of a student as these methods are prohibited by Oregon law.
2. "Seclusion" means the involuntary confinement of a student alone in a room from which the student is physically prevented from leaving.

Seclusion does not include the removal of a student for a short period of time to provide the student with an opportunity to regain self-control, in a setting from which the student is not physically prevented from leaving.

3. "Serious bodily injury" means any significant impairment of the physical condition of a person, as determined by qualified medical personnel, whether self-inflicted or inflicted by someone else.
4. "Mechanical restraint" means a device used to restrict the movement of a student or the movement or normal function of a portion of the body of a student.

Mechanical restraint does not include:

- a. A protective or stabilizing device ordered by a licensed physician; or
 - b. A vehicle safety restraint when used as intended during the transport of a student in a moving vehicle.
5. "Chemical restraint" means a drug or medication that is used on a student to control behavior or restrict freedom of movement that has not been prescribed by a licensed health professional or other qualified health care professional acting under the professional's scope of practice.
 6. "Prone restraint" means a restraint in which a student is held face down on the floor.

The use of physical restraint and/or seclusion is only permitted as a part of a behavioral support plan when other less restrictive interventions would not be effective and the student's behavior poses a threat of imminent, serious physical harm to the student or others.

Except in the case of an emergency, only staff current in the required training in accordance with the school-designated physical restraint and seclusion training program will implement physical restraint or seclusion with a student. In an emergency, physical restraint and/or seclusion may also be used by a school administrator, teacher or other school employee as necessary when the student's behavior imposes a reasonable threat of imminent, serious bodily injury to the student or to others. The use of physical restraint or seclusion under these circumstances is only allowed so long as the student's behavior poses a threat of imminent, serious physical harm to themselves or to others. Any student being restrained or secluded within the school whether in an emergency or as a part of a plan shall be constantly monitored by staff for the duration of the intervention. Any room used for seclusion of a student must meet the standards as outlined in OAR 581-021-0568.

The school shall utilize the MANDT program of physical restraints and seclusion for use in the school. The use and method of any restraint with a deaf student shall be considered carefully as not to infringe on their means of communication, specifically their visual access and their use of hands for signing. As required by state regulation, the selected program shall include: behavioral support, prevention, de-escalation and crisis response techniques. Any program selected by the school must be in compliance with state and federal law with respect to the use of restraint and/or seclusion.

An annual review of the use of physical restraint and seclusion during the preceding school year shall be completed and submitted to the Superintendent of Public Instruction to ensure compliance with school policies and procedures.

The results of the annual review shall be documented and shall include at a minimum:

1. The total number of incidents of physical restraint;
2. The total number of incidents of seclusion;
3. The total number of seclusions in a locked room;
4. The total number of students placed in physical restraint;
5. The total number of students placed in seclusion;
6. The total number of incidents that resulted in injuries or death to students or personnel as a result of the use of physical restraint or seclusion;
7. The total number of students placed in physical restraint and/or seclusion more than 10 times in a school year and an explanation of what steps have been taken by the school to decrease the use of physical restraint and seclusion for each student;
8. The total number of physical restraint and seclusion incidents carried out by untrained individuals;

9. The demographic characteristics of all students upon whom physical restraint and/or seclusion was imposed;
10. The total number of rooms available for use by the school for seclusion of a student and a description of the dimensions and design of the rooms.

This report shall be made available to the Assistant Superintendent of Student Services for the Oregon Department of Education and to the public at the school's main office and on the school's website.

At least once each school year the public shall be notified as to how to access the report.

The school shall investigate all complaints regarding the use of restraint and/or seclusion practices according to the procedures outlined in Board policy KL and KL-AR - Public Complaints.

The Director shall develop administrative regulations to carry out the requirements set forth in this policy and to meet any additional requirements established by law related to the use, reporting and written documentation of the use of physical restraint or seclusion by school personnel.

Use of Restraint and Seclusion

General Guidelines

1. Parents will be provided verbal or electronic notification by the school staff following the use of physical restraint or seclusion by the end of the day on which the incident occurred.
2. Parents will be provided written documentation of the incident within 24 hours that provides:
 - a. A description of the physical restraint and/or seclusion;
 - b. The date of the physical restraint or seclusion;
 - c. The time the physical restraint or seclusion began and ended, and the location;
 - d. A description of the student's activity that prompted the use of physical restraint or seclusion;
 - e. The efforts used to de-escalate the situation and the alternatives to physical restraint or seclusion that were attempted;
 - f. The names of personnel of the public education program who administered the physical restraint or seclusion;
 - g. A description of the training status of the personnel who administered the physical restraint or seclusion, including any information that may need to be provided to the parent or guardian; and
 - h. Timely notification of a debriefing meeting to be held and of the parent's or guardian's right to attend the meeting.
3. If the physical restraint or seclusion was administered by a person without training the school will provide that information along with the reason why a person without training administered the physical restraint or seclusion.
4. An administrator will be notified as soon as practicable whenever physical restraint and/or seclusion has been used.
5. If physical restraint or seclusion continues for more than 30 minutes the student must be provided with adequate access to bathroom and water every 30 minutes. If physical restraint or seclusion continues for more than 30 minutes, every 15 minutes after the first 30 minutes an administrator for the public education program must provide written authorization for the continuation of the physical restraint or seclusion, including providing documentation for the reason the physical restraint or seclusion must be continued. Whenever physical restraint or seclusion extends beyond 30 minutes, personnel of the school will immediately attempt to verbally or electronically notify a parent.
6. A school Physical Restraint and/or Seclusion Incident Report must be completed and copies provided to those attending the debriefing meeting for review and comment.

7. A documented debriefing meeting must be held within two school days after the use of physical restraint or seclusion; staff members involved in the intervention must be included in the meeting. The debriefing team shall include an administrator. Written notes shall be taken and a copy of the written notes shall be provided to the parent or guardian of the student.

The completed Physical Restraint and/or Seclusion Incident Report Form shall include the following:

1. Name of the student;
2. Name of staff member(s) administering the physical restraint or seclusion;
3. Date of the physical restraint or seclusion and the time the physical restraint or seclusion began and ended;
4. Location of the physical restraint or seclusion;
5. A description of the physical restraint or seclusion;
6. A description of the student's activity immediately preceding the behavior that prompted the use of physical restraint or seclusion;
7. A description of the behavior that prompted the use of physical restraint or seclusion;
8. Efforts to de-escalate the situation and alternatives to physical restraint or seclusion that were attempted;
9. Information documenting parent contact and notification; and
10. A summary of the debriefing meeting held.

Physical restraint and/or seclusion as a part of a behavioral support plan in the student's Individual Education Program (IEP) or Section 504 plan.

1. Parent participation in the plan is required.
2. The IEP team that develops the behavioral support plan shall include knowledgeable and trained personnel, including a behavioral specialist and a school representative who is familiar with the physical restraint training practices adopted by the school.
3. Prior to the implementation of any behavioral support plan that includes physical restraint and/or seclusion a functional behavioral assessment must be completed. The assessment plan must include an individual threshold for reviewing the plan.
4. When a behavior support plan includes physical restraint or seclusion the parents will be provided a copy of the school Use of Restraint and Seclusion policy at the time the plan is developed.

Use of physical restraint and/or seclusion in an emergency by school administrator, staff or volunteer to maintain order or prevent a student from harming his/herself, other students or school staff.

Use of physical restraint and/or seclusion under these circumstances with a student who does not have physical restraint and/or seclusion as a part of their IEP or Section 504 plan is subject to all of the requirements established by this administrative regulation with the exception of those specific to plans developed in an IEP or 504 plan.

Suspension**

The Oregon School for the Deaf (OSD) authorizes student suspension for one or more of the following reasons:

1. Willful violation of school policies, administrative regulations or school rules;
2. Willful conduct which materially and substantially disrupts the rights of others to an education;
3. Willful conduct which endangers the student, other students or staff members;
4. Willful conduct which damages or injures school property.

Students and parents are given notice of possible discipline actions resulting from student misconduct that may result in suspension in the *Student/Parent Handbook* or code of conduct and made available by the school.

Each suspension will include a statement of the reasons for suspension, the length of the suspension and a plan for readmission and may include a plan for the student to make up school work. No suspension shall extend beyond 10 school days. The school may require a student to attend school during nonschool hours as an alternative to suspension. Every reasonable and prompt effort must be made to notify the parents of suspended students.

In emergency situations that are a result of risk to health and safety, the school may postpone the suspension notice process above until the emergency condition has passed.

Students who are suspended may not attend after-school activities and athletic events, be present on school property without a parent or participate in activities directed or sponsored by the school.

Suspensions may be appealed to the Assistant Superintendent of Student Services for the Oregon Department of Education.

Discipline of Students with Disabilities**

When considering student disciplinary procedures that may result in removal of the student, the school follows all special education procedures and ensures the parent and the student are afforded the procedural safeguards of the Individuals with Disabilities Education Act (IDEA) if:

1. The student is receiving individualized education program (IEP) services; or
2. The student has not yet been identified as a student with a disability but the school had knowledge that the student had a disability and needed special education.

For a violation of a code of conduct, the school may remove a student with a disability from a current educational placement to an appropriate interim alternative educational setting, another setting, or suspension, for up to 10 school days in a school year to the same extent, and with the same notice, as for students without disabilities, if the removals do not constitute a pattern. The school may remove a student with disabilities for additional periods of up to 10 days if the removals do not constitute a pattern. The determination regarding whether a series of removals constitutes a pattern is subject to review in an expedited due process hearing.

Disciplinary removal of a student with a disability constitutes a change in the student's educational placement when the removal is for more than 10 consecutive school days, or the removal is for more than 10 cumulative school days and constitutes a pattern of removals. When considering whether to order a disciplinary change of placement the school may consider any unique circumstances on a case-by-case basis. Any decision to initiate a disciplinary change in placement requires a determination of whether the conduct leading to the disciplinary removal was caused by, or was substantially related to, the student's disability or was a direct result of the school's failure to implement the student's IEP.

For a violation involving drugs, weapons or the infliction of serious bodily injury, the school may remove a student with a disability from the student's current educational placement to an appropriate interim alternative educational setting for the same amount of time that a student without a disability would be subject to discipline, but for not more than 45 school days in a school year without regard to whether the behavior is a manifestation of the student's disability. This removal is considered a change in placement.

The school will provide educational services to a student who is suspended or expelled for more than 10 school days in a school year. These services may be provided in a different location or interim alternative educational setting as determined by the IEP and placement teams.

Individuals with Disabilities Education Act (IDEA, 20 U.S.C. § 1415 (k)) (2006).

Assistance to States for the Education of Children with Disabilities, 34 CFR § 300.507 and § 300.508(a)-(c); §§ 300.510 - 300.514; §§ 300.530 - 300.536.

Discipline of Students with Disabilities**

1. Definition

- a. The school applies the following definitions when considering disciplinary action:
 - (1) “Behavioral intervention plan” means an individualized plan, including positive interventions, designed to assist a student to decrease inappropriate behavior and increase or teach an alternative appropriate behavior.
 - (2) “Current educational placement” means the type of educational placement of the student as described in the student’s “annual determination of placement” document at the time of the disciplinary removal. It does not mean the specific location or school but the types of placement on the continuum of placement options.
 - (3) “Disciplinary removal” means suspension, expulsion or other removal from school for disciplinary reasons, including removals pending completion of a risk assessment. It does not include:
 - (a) Removals by other agencies;
 - (b) Removals for public health reasons (e.g. head lice, immunizations, communicable diseases, etc.);
 - (c) In-school suspensions if the student continues to have access to the general curriculum and to special education and related services as described in the student’s individualized education program (IEP), and continues to participate with nondisabled students to the extent they would in their current placement; or
 - (d) Bus suspensions, unless the student’s IEP includes transportation as a related service, the school makes no alternative transportation arrangements for the student, and the student does not attend school as a result of the bus suspension.
- b. “Functional behavioral assessment” means an individualized assessment of the student that results in a team hypothesis about the function of a student’s behavior and, as appropriate, recommendations for a behavior intervention plan.
- c. “Suspension” means any disciplinary removal other than expulsion.

2. Disciplinary Change of Placement

- a. Disciplinary removal of a student with a disability constitutes a change in the student’s educational placement when:
 - (1) The removal is for more than 10 consecutive school days; or
 - (2) The removal is for more than 10 cumulative school days and constitutes a pattern of removals.

- b. The school may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary change in placement.

3. Manifestation Determination

- a. Within 10 days of any decision to initiate a disciplinary change in placement of a student with a disability, the school convenes a manifestation determination meeting.
- b. The school follows all required special education procedures for determining whether a student's conduct that led to a disciplinary removal from school was caused by, or had a substantial relationship to, the student's disability or was a direct result of the school's failure to implement the student's IEP.

4. Disciplinary Removals for up to 10 School Days

- a. The school may remove students with disabilities from their current educational placement, to an appropriate interim alternative educational setting, another setting, or suspension, for up to 10 school days in a school year to the same extent, and with the same notice, for violation of a code of conduct as for students without disabilities. These removals are not considered a change in placement.
- b. During disciplinary removals for up to 10 school days:
 - (1) The school is not required to provide access to special education and the general curriculum unless students without disabilities are provided access during this time.
 - (2) The school is not required to determine whether the student's behavior resulting in the disciplinary removal is a manifestation of the student's disability.
 - (3) The school counts days of suspension for the purposes of procedural safeguards as follows:
 - (a) Suspensions of a half day or less will be counted as a half day; and
 - (b) Suspensions of more than a half day will be counted as a whole day;
 - (c) If a student moves from another school in Oregon, any days of suspension from the former school apply, unless the school does not have knowledge of previous suspensions.

5. Disciplinary Removals of More than 10 Cumulative School Days and Pattern of Removal

- a. The school may remove students with disabilities from their current educational placement to an appropriate interim alternative educational setting, another setting or suspension for additional periods of up to 10 days in a school year to the same extent, and with the same notice as for students without disabilities, if the removals do not constitute a pattern. These removals do not constitute a change in placement.
- b. In determining whether removals of additional periods of up to 10 school days constitute a pattern of removals, school personnel will consider, on a case by case basis:
 - (1) Whether the behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals; and

- (2) Additional factors such as the length of each removal, the total number of days of removal, and the proximity of removals to one another.
- c. During removals of additional periods of up to 10 school days in a school year that do not constitute a pattern, the school will provide services that are necessary to enable the student to:
 - (1) Continue to participate in the general education curriculum;
 - (2) Progress toward achieving the goals in the student’s IEP; and
 - (3) The services and location for delivery of services in this section will be determined by school personnel, in consultation with at least one of the student’s teachers, or by the student’s IEP team.
- d. The determination regarding whether a series of removal constitutes a pattern is subject to review in an expedited due process hearing.

6. Removal to an Interim Alternative Educational Setting for Not More Than 45 Days by the School under Special Education Circumstances

- a. The school may remove a student with a disability from the student’s current educational placement to an appropriate interim alternative educational setting for the same amount of time that a student without a disability would be subject to discipline, but for not more than 45 school days in a school year for a drug or weapon violation, or for infliction of serious bodily injury, without regard to whether the behavior is manifestation of the student’s disability. This removal is considered a change in placement. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order such a removal.
- b. For the purpose of determining a drug or weapon violation or serious bodily injury, the school will apply the following definitions:
 - (1) “Drug” means illegal drug or controlled substance but does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or otherwise legally possessed. It does not include alcohol or tobacco.
 - (2) “Drug violation” means the use, possession, sale or solicitation of drugs at school or a school function.
 - (3) “Infliction of serious bodily injury” means serious bodily injury caused by a student to another person while at school, on school premises or at a school function under the jurisdiction of ODE or a school.
 - (4) “Serious bodily injury” means bodily injury, which involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
 - (5) “Weapon” means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that it does not include a pocket knife with a blade of less than 2 ½ inches in length.
 - (6) “Weapon violation” means carrying a weapon to school or to a school function or acquiring a weapon at school.

- c. On the date that the school decides to remove a student to an interim alternative educational placement because of a drug or weapon violation or for serious bodily injury, the school notifies that parent(s) of the decision and gives the parent(s) a *Procedural Safeguards Notice*.
- d. Within 10 school days of any decision to remove the student to an interim alternative educational placement because of a drug or weapon violation or for serious bodily injury, the school:
 - (1) Convenes a meeting to determine whether the behavior is a manifestation of the student's disability; and
 - (2) Conducts, as appropriate, a functional behavior assessment, and develops a behavior intervention plan based on the functional behavior assessment that is designed to address the behavior so it does not recur.

7. Removal to an Interim Alternative Educational Setting for Not More than 45 Days by Administrative Law Judge for Injurious Behavior

- a. The school may request an expedited due process hearing to obtain an administrative law judge's order to remove a student to an interim alternative educational setting for not more than 45 school days if the student is exhibiting injurious behavior. For the purpose of this request, "injurious behavior" is defined as behavior that is substantially likely to result in injury to the student or to others.
- b. The interim alternative educational setting must meet the requirements of the "Interim Alternative Educational Setting" section.

8. Interim Alternative Educational Setting

When a student with a disability is placed in an interim alternative educational setting, the setting:

- a. Is determined by the student's IEP; and
- b. Enables the student to:
 - (1) Continue to participate in the general curriculum, although in another setting;
 - (2) Progress toward achieving the goals in the student's IEP; and
 - (3) Receive services and modifications designed to address the misconduct that led to placement in the interim alternative educational setting and to prevent the misconduct from recurring.

9. Placement Pending Appeal

If a parent disagrees with the manifestation determination or any decision about placement related to the disciplinary removal and requests a due process hearing, the student will remain in the interim alternative educational setting pending the decision of the administrative law judge, or until the end of the disciplinary removal, whichever is shorter, unless the parent and school agree to another placement pending the hearing.

10. **Conduct and Outcome of a Manifestation Determination**

- a. Within 10 school days of any decision to change the placement of a student with a disability for disciplinary reasons, the school convenes a manifestation determination meeting.
- b. The team that determines whether a student's behavior that led to a disciplinary removal from school was caused by, or had a substantial relationship to the student's disability or was a direct result of the school's failure to implement the student's IEP, includes the parent(s), school representatives and other relevant members of the IEP team, as determined by the parent and school.
 - (1) The team reviews all relevant student information, including the student's IEP, teacher observations and information provided by the parent.
 - (2) The team concludes that the conduct in question is a manifestation of the student's disability if it determines the behavior was caused by, or had a substantial relationship to, the child's disability, or if it was the direct result of the school's failure to implement the IEP.
- c. If the team determines that the school did not implement the student's IEP or identifies other deficiencies in the student's IEP or placement, the school corrects the identified deficiencies immediately.
- d. Regardless of whether the behavior was a manifestation of the student's disability, the school may remove the student to an interim alternative educational setting for weapons or drug violations or for infliction of serious bodily injury for up to 45 days.
- e. When behavior is a manifestation of disability.

If the team concludes that the behavior was a manifestation of the student's disability:

- (1) The school will not proceed with a disciplinary removal for more than 10 days.
- (2) The school conducts a functional behavioral assessment and develops a behavior plan to address the behavior that led to the disciplinary action. If the school has already conducted a functional behavioral assessment or if the student already has a behavior intervention plan regarding that behavior, the school reviews, modifies as necessary and implements the plan to address the behavior.
- (3) The school may review and revise the student's IEP and placement through normal IEP and placement processes.
- (4) The school may enter into an agreement with the parent to change the student's placement as part of the modification of the behavioral intervention plan.
- (5) If the school believes that maintaining the current placement of the child is substantially likely to result in injury to the student or to others, the school may appeal the decision of the manifestation determination team by requesting an expedited due process hearing. An administrative law judge who concludes that maintaining the current educational placement is substantially likely to result in injury to the student or to others may order a change in placement to an interim alternative educational setting for no more than 45 days.

- f. When behavior is not a manifestation of disability.

If the IEP team determines that the student's behavior is not a manifestation of the student's disability the school may proceed with disciplinary removals, in the same manner and for the same duration, as would be applied to students without disabilities. If the school takes such action, applicable to all students, the school:

- (1) Notifies the parent(s) of the decision to remove the student on the date that decision is made and gives the parents a *Procedural Safeguards Notice*;
- (2) Give the parent(s) prior written notice of any proposed change in placement;
- (3) Provides services to the student in an interim alternative educational setting that is determined by the IEP team; and
- (4) Provides, as appropriate, a functional behavioral assessment, develops appropriate behavioral interventions to address the behavior and implements those interventions.

11. **Protections for Students not yet Eligible for Special Education**

- a. The school will follow all special education disciplinary procedures for a student who has not yet been identified as a student with a disability if the school had knowledge that the student had a disability and needed special education.
- b. The school is presumed to have such knowledge if, before the behavior that precipitated the disciplinary action occurred:
 - (1) The student's parent(s) expressed a concern in writing to supervisory or administrative school personnel, or to a teacher of the student, that the student is in need of special education and related services;
 - (2) The student's parent(s) requested a special education evaluation of the student; or
 - (3) The student's teacher or other school personnel expressed specific concerns about a pattern of behavior demonstrated by the student directly to the school's special education director or other school supervisory personnel.
- c. The school is not presumed to have knowledge of a disability if:
 - (1) The parent has not allowed an evaluation of the student or has refused the initial provision of special education services to the student; or
 - (2) The student has been evaluated and found not eligible for special education services.
- d. If the school did not have knowledge before taking disciplinary action against the student, the school may take the same disciplinary actions as applied to students without disabilities who engaged in comparable behaviors. However:
 - (1) If a special education evaluation is requested, or if the school initiates a special education evaluation, the evaluation will be conducted in an expedited manner.
 - (2) Until the evaluation is completed, the student may remain in the educational placement determined by school personnel, which may include suspension, expulsion or placement in alternative education.

- (3) Upon completion of the evaluation, if the student is determined to be a student with a disability, the school will conduct an IEP meeting to develop an IEP and determine placement and will provide special education and related services in accordance with the IEP.
- (4) The school will apply the IDEA discipline protections beginning on the date of the eligibility determination.

Expulsion**

An administrator, after reviewing available information, may recommend to the Director that a student be expelled. Expulsion of a student shall not extend beyond one calendar year.

No student may be expelled without a hearing unless the student's parents, or the student if 18 years of age, waive the right to a hearing, either in writing or by failure to appear at a scheduled hearing. By waiving the right to a hearing, the student and parent agree to abide by the findings of a hearings officer.

When an expulsion hearing is not waived, the following procedure is required:

1. Notice will be given to the student and the parent by personal service¹ or by certified mail at least five days prior to the scheduled hearing. Notice shall include:
 - a. The specific charge or charges;
 - b. The conduct constituting the alleged violation, including the nature of the evidence of the violation and reason for expulsion;
 - c. A recommendation for expulsion;
 - d. The student's right to a hearing;
 - e. When and where the hearing will take place; and
 - f. The right to representation.
2. The Director or designee will act as the hearings officer. The school may contract with an individual who is not employed by the school to serve as the hearings officer. The hearings officer will conduct the hearing and will not be associated with the initial actions of the building administrators;
3. In case the parent or student has difficulty understanding the English language or has other serious communication disabilities, the school will provide a translator;
4. The hearings officer or the student may make a record of the hearing;
5. The student shall be permitted to have representation present at the hearing to advise and to present arguments. The representation may be an attorney and/or parent. The school's attorney may be present;
6. The student shall be afforded the right to present his/her version of the events underlying the expulsion recommendation and to introduce evidence by testimony, writings or other exhibits;

¹The person serving the notice shall file a return of service. (OAR 581-021-0070)

7. The student shall be permitted to be present and to hear the evidence presented by the school;
8. The hearings officer will determine the facts of each case on the evidence presented at the hearing. Evidence may include the relevant past history and student education records. The hearings officer's decision is final. However, a decision of the hearings officer may be appealed by the parent or the student if age 18 or over to the Assistant Superintendent of Student Services for the Oregon Department of Education (ODE) for review. The hearings officer will provide to the Assistant Superintendent, findings of fact as to whether the student has committed the alleged conduct and the recommended decision. This will include the hearings officer's decision on disciplinary action, if any, including the duration of any expulsion. Alternative Education Programs Following Expulsion**

The Oregon School for the Deaf (OSD) is an alternative education placement program. Therefore, if the student is expelled from OSD, the resident district is responsible for meeting the alternative education program legal requirement.

Prior to a student leaving school or a student's expulsion, unless the expulsion is for a weapons policy violation, the resident district will propose in writing to the student or student's parent appropriate, accessible educational alternatives as determined by the resident district. Such alternative education program(s) will consist of instruction or instruction combined with counseling.

The proposal of potential alternative education programs will be hand-delivered or sent by certified mail by the resident district to assure that the parent receives it prior to the time of an actual expulsion or leaving school.

Appropriate accessible alternative education programs may be either public or private (nonsectarian). Programs may be provided by the school as a separate school, evening classes or tutorial instruction. Homebound instruction could be considered an appropriate alternative.

The resident district shall pay the actual cost of the district-proposed alternative education program or an amount equal to 80 percent of the district's estimated current year's average per student net operating expenditure, whichever is less. The district shall provide or pay for transportation.

If a parent receives an exemption on a semi-annual basis to withdraw a student age 16 or 17, the district has no obligation to pay for an alternative education program.

If a student is not successful in the alternative education program selected or the alternative education programs offered are not accepted by the student and/or parent, there is no obligation to propose or fund other alternatives.

In accordance with the requirements of the No Child Left Behind Act of 2001, the school recognizes its responsibility to notify parents in advance of any nonemergency, invasive physical examination¹ or screening that is required as condition of attendance; administered and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students.

Notification will be provided at least annually at the beginning of the school year or when enrolling students for the first time in school and will include the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

Communicable Diseases

The school shall provide reasonable protection for students against the risk of exposure to communicable disease. The school will follow the Oregon Department of Education and the state and local health authorities' rules and regulations pertaining to communicable diseases.

Protection from communicable disease generally shall be through immunization, exclusion or other measures provided for in Oregon Revised Statutes and rules of the county health department. 5. More stringent rules for exclusion from school may be adopted by the local health department or by the school through Board-adopted policy;
6. A disease may not be considered to be a school restrictable disease unless it is listed in section 3. above, in accordance with OAR 333-019-0010 (5), it has been designated to be a school restrictable disease through Board policy or the local health administrator determines that it presents a significant public health risk in the school setting;

²Designated staff may note incident by symbol in medication log and attach detailed documentation as necessary.

A school administrator, school nurse, teacher or other school employee are not liable in a criminal action or for civil damages, when in good faith administers autoinjectable epinephrine to a student or other individual with a severe allergy, who is unable to self administer the medication, as per state law.

A school and the members of a school board are not liable in a criminal action or for civil damages when a student or individual is unable to self-administer medication, when any person in good faith administers autoinjectable epinephrine to a student or individual, as per state law.

Prescription Medication**

The school recognizes that the administration of prescription medication to students and/or student self-medication may be necessary when the failure to take such medication during school hours would prevent the student from attending school, and recognizes a need to ensure the health and well-being of students who require regular doses or injections of medication as a result of experiencing a severe allergic reaction or have a need to manage hypoglycemia, asthma or diabetes. When a licensed health care professional is not immediately available, a designated trained staff member may administer to a student, epinephrine, glucagon or other medications as prescribed and allowed by Oregon law.

When directed by a physician or other licensed health care professional, students in grades K-12 will be allowed to self-administer prescription medication, including medication for asthma or severe allergy as defined by state law, and subject to age-appropriate guidelines.

A written treatment plan for a student who self administers medication will be developed and signed by a physician¹ or other Oregon licensed health care professional and kept on file. A written request and permission form signed by a parent or guardian is required and will be kept on file. If the student is deemed to have violated school policy or medical protocol by the school, the school may revoke the permission given to a student to self-administer medication.

A request for the school to administer prescription medication to a student shall include the written permission of the parent or guardian and shall be accompanied by written instruction from a physician, physician assistant or nurse practitioner. A prescription label prepared by a pharmacist will be deemed sufficient to meet the requirements for a physician's order.

The school reserves the right to reject a request to administer or allow self administration of a medication when such medication is not necessary for the student to remain in school.

A premeasured dose of epinephrine may be administered by designated, trained school staff to any student or other individual on school premises who the personnel believe, in good faith, is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

A process shall be established by which, upon parent written request, a backup prescribed autoinjectable epinephrine is kept at a reasonable, secured location in the student's classroom as provided by state law.

¹Added to Oregon Revised Statute 678.010 to -678.410: A registered nurse who is employed by a public or private school may accept an order from a physician licensed to practice medicine or osteopathy in another state or territory of the U.S. if the order is related to the care or treatment of a student who has been enrolled at the school for not more than 90 days (House Bill 3149 (2015)). This is to allow time for new students to find an Oregon licensed physician.

Training shall be provided to designated staff as required by law in accordance with approved protocols as established by the Oregon Health Authority. Staff designated to receive training shall also receive bloodborne pathogens training. A current first-aid and CPR card will also be required.

Prescription medication will be handled, stored, monitored, disposed of and records maintained in accordance with established school regulations governing administering noninjectable or injectable, or prescription or nonprescription medicines to students including procedures for the disposal of sharps and glass.

The Director will ensure student health management plans are developed as required by training protocols, maintained on file and pertinent health information is provided to school staff as appropriate.

Such plans will include provisions for administering medication and/or responding to emergency situations while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in before- or after-school care programs on school-owned property and in transit to or from school or school-sponsored activities.

This policy and administrative regulation shall not prohibit, in any way, the administration of recognized first aid to students by school employees in accordance with established state law, school policy and procedures.

Reporting Requirements Regarding Sexual Conduct with Students

Sexual conduct by school employees as defined by Oregon law will not be tolerated. All school employees are subject to this policy.

“Sexual conduct” as defined by Oregon law is any verbal or physical or other conduct by a school employee that is sexual in nature; directed toward a kindergarten through grade 12 student; unreasonably interferes with a student’s educational performance; and creates an intimidating, hostile or offensive educational environment. The definition for sexual conduct does not include behavior that would be considered child abuse as outlined by Oregon law and school policy JHFE and JHFE-AR - Reporting of Suspected Abuse of a Child.

Any school employee who has reasonable cause to believe that another school employee or volunteer has engaged in sexual conduct with a student must immediately notify the Director.

When the school receives a report of suspected sexual conduct by a school employee, the school may decide to place the employee on paid administrative leave or in a position that does not involve direct, unsupervised contact with students while conducting an investigation. An investigation is a detailed inquiry into the factual allegations of a report of suspected sexual conduct that is based on interviews with the complainant, witnesses, the school employee or student who is the subject of the report. If the subject of the report is a school employee, the investigation must meet any negotiated standards of an employment contract or agreement.

If, following the investigation, the report is substantiated, the school will inform the employee that the report has been substantiated and provide information regarding the appeal process. The employee may appeal the school’s decision through the appeal process provided by the state’s collective bargaining agreement. A substantiated report is one that: a) an educational provider has reasonable cause to believe is founded based on the available evidence after conducting an investigation; and b) involves conduct that the educational provider determines is sufficiently serious to be documented in the employee’s personnel file.

If the employee decides not to appeal the determination or if the determination is sustained after an appeal, a record of the substantiated report will be placed in the employee’s personnel file. The employee will be notified that this information may be disclosed to a potential employer.

The school will post in each school building the name and contact information of the person designated to receive sexual conduct reports, as well as the procedures the Director will follow upon receipt of a report. In the event that the designated person is the suspected perpetrator, the Assistant Superintendent of Student Services for the Oregon Department of Education (ODE) shall receive the report. When the Director takes action on the report, the person who initiated the report must be notified.

The initiation of a report in good faith about suspected sexual conduct may not adversely affect any terms or conditions of employment or the work environment of the complainant. If a student initiates a report of suspected sexual conduct by a school employee in good faith, the student will not be disciplined by the ODE or any school employee.

The school will provide annual training to school employees, parents and students regarding the prevention and identification of sexual conduct. The school will provide to employees at the time of hire a description of conduct that may constitute sexual conduct and a description of records subject to disclosure if a sexual conduct report is substantiated.

Educational providers shall follow hiring and reporting procedures as outlined in ORS 339.374 for all school employees.

Education Records/Records of Students with Disabilities**

Education records are those records maintained by the school that are directly related to a student.

The primary reason for the keeping and maintaining of education records for students is to help the individual student in his/her educational development by providing pertinent information for the student, his/her teachers and his/her parents. These records also serve as an important source of information to assist students in seeking productive employment and/or post-high school education.

The school shall maintain confidential education records of students in a manner that conforms with state and federal laws and regulations.

Information recorded on official education records should be carefully selected, accurate, verifiable and should have a direct and significant bearing upon the student's educational development.

The school annually notifies parents or adult students that it forwards educational records requested by an educational agency or institution in which the student seeks to enroll or receive services, including special education evaluation services.

The school may impose certain restrictions and/or penalties until fees, fines or damages are paid. Records requested by another school to determine a student's appropriate placement may not be withheld. Students or parents will receive written notice at least 10 days in advance of any restrictions and/or penalties to be imposed until the debt is paid. The notice will include the reason the student owes money to the school, an itemization of the fees, fines or damages owed and the right of parents to request a hearing. The school may pursue fees, fines or damages through a private collection agency or other method available to the school. The school may waive fees, fines and charges if the student or parents cannot pay, the payment of the debt could impact the health and safety of the student or if the cost of collection would be more than the total collected or there are mitigating circumstances, as determined by the Director.

The school shall comply with a request from parents or an adult student to inspect and review records without unnecessary delay. The school provides to parents of a student with a disability or to an adult student with a disability the opportunity at any reasonable time to examine all of the records of the school pertaining to the student's identification, evaluation, educational placement and free appropriate public education. The school provides parents or an adult student, on request, a list of the types and locations of education records collected, maintained and used by the school.

The school annually notifies parents of all students, including adult students, currently in attendance that they have to right to:

1. Inspect and review the student's records;

2. Request the amendment of the student’s educational records to ensure that they are not inaccurate, misleading or otherwise in violation of the student’s privacy or other rights;
3. Consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the student educational record rules authorize disclosure without consent. (See school policy JOB – Personally Identifiable Information);
4. File with the U.S. Department of Education a complaint concerning alleged failures by the school to comply with the requirements of the Family Educational Rights and Privacy Act; and
5. Obtain a copy of the school’s education records policy.

Regarding records to be released to school officials within the agency, the school’s notice includes criteria for determining legitimate educational interest and the criteria for determining which school officials have legitimate educational interests. School officials may also include a volunteer or contractor who performs an institutional service on behalf of the school.

The school annually notifies parents and adult students of what it considers to be directory information and the disclosure of such. (See school policy JOA – Directory Information).

The school shall give full rights to education records to either parent, unless the school has been provided legal evidence that specifically revokes these rights. Once the student reaches age 18 those rights transfer to the student.

A copy of this policy and administrative regulation shall be made available upon request to parents and students 18 years of age or older or emancipated and the general public.

Education Records/Records of Students with Disabilities Management

1. Student Education Record

Student education records are those records that are directly related to a student and maintained by the school, or by a party acting for the school; however, this does not include the following:

- a. Records of instructional, supervisory and administrative personnel and educational personnel ancillary to those persons that are kept in the sole possession of the maker of the record, used only as a personal memory aid, and are not accessible or revealed to any other person except a temporary substitute for the maker of the record;
- b. Records of the law enforcement unit of the school subject to the provisions of Oregon Administrative Rule (OAR) 581-021-0225;
- c. Records relating to an individual who is employed by the school, that are made and maintained in the normal course of business, that relate exclusively to the individual in that individual's capacity as an employee and that are not available for use for any other purpose. Records relating to an individual in attendance at the school who is employed as a result of his/her status as a student, are education records and are not excepted under this section;
- d. Records on a student who is 18 years of age or older, or is attending an institution of postsecondary education, that are:
 - (1) Made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting in his/her professional capacity or assisting in a paraprofessional capacity;
 - (2) Made, maintained or used only in connection with treatment of the student; and
 - (3) Disclosed only to individuals providing the treatment. For purposes of this definition, "treatment" does not include remedial educational activities or activities that are part of the program of instruction at the school.
- e. Records that only contain information relating to activities in which an individual engaged after he/she is no longer a student at the school;
- f. Medical or nursing records which are made or maintained separately and solely by a licensed health-care professional who is not employed by the school, and which are not used for education purposes or planning.

The school shall keep and maintain a permanent record on each student which includes the:

- a. Name and address of educational agency or institution;
- b. Full legal name of the student;
- c. Student birth date and place of birth;
- d. Names of parents;

- e. Date of entry in school;
- f. Name of the school previously attended;
- g. Courses of study and marks received;
- h. Data documenting a student's progress toward achievement of state standards and must include a student's Oregon State Assessment results;
- i. Credits earned;
- j. Attendance;
- k. Date of withdrawal from school; and
- l. Such additional information as the school may prescribe.

The school may also request the social security number of the student and will include the social security number on the permanent record only if the eligible student or parent complies with the request. The request shall include notification to the eligible student or the student's parent(s) that the provision of the social security number is voluntary and notification of the purpose for which the social security number will be used.

The school shall retain permanent records in a minimum one-hour fire-safe place in the school, or keep a duplicate copy of the permanent records in a safe depository in another school location.

2. Confidentiality of Student Records

- a. The school shall keep confidential any record maintained on a student in accordance with OAR 581-021-0220 through 581-021-0430.
- b. Each school shall protect the confidentiality of personally identifiable information at collection, storage, disclosure and destruction stages.
- c. Each school shall identify one official to assume responsibility for ensuring the confidentiality of any personally identifiable information.
- d. All persons collecting or using personally identifiable information shall receive training or instruction on state policies and procedures.

3. Rights of Parents and Eligible Students

The school shall annually notify parents and eligible students through the school student/parent handbook or any other means that are reasonably likely to inform the parents or eligible students of their rights. This notification shall state that the parent(s) or eligible student has a right to:

- a. Inspect and review the student's education records;
- b. Request the amendment of the student's education records to ensure that they are not inaccurate, misleading or otherwise in violation of the student's privacy or other rights;
- c. Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the applicable state or federal law authorizes disclosure without consent;
- d. Pursuant to OAR 581-021-0410, file with the Family Policy Compliance Office, United States Department of Education a complaint under 34 C.F.R. § 99.64 concerning alleged failures by the school to comply with the requirements of federal law; and
- e. Obtain a copy of the school policy with regard to student education records.

The notification shall also inform parents or eligible students that the school forwards education records requested under OAR 581-021-0255. The notification shall also indicate where copies of the school policy are located and how copies may be obtained.

If the eligible student or the student's parent(s) has a primary or home language other than English, or has a disability, the school shall provide effective notice.

These rights shall be given to either parent unless the school has been provided with specific written evidence that there is a court order, state statute or legally binding document relating to such matters as divorce, separation or custody that specifically revokes these rights.

When a student becomes an eligible student, which is defined as a student who has reached 18 years of age or is attending only an institution of postsecondary education and is not enrolled in a secondary school, the rights accorded to, and the consent required of, the parents transfer from the parents to the student. Nothing prevents the school from giving students rights in addition to those given to parents.

4. Parent's or Eligible Student's Right to Inspect and Review

The school shall permit an eligible student or student's parent(s) or a representative of a parent or eligible student, if authorized in writing by the eligible student or student's parent(s), to inspect and review the education records of the student, unless the education records of a student contain information on more than one student. In that case the eligible student or student's parent(s) may inspect, review or be informed of only the specific information about the student.

The school shall comply with a request for access to records:

- a. Within a reasonable period of time and without unnecessary delay;
- b. For children with disabilities before any meeting regarding an individualized education program (IEP), or any due process hearing, or any resolution session related to a due process hearing;
- c. In no case more than 45 days after it has received the request.

The school shall respond to reasonable requests for explanations and interpretations of the student's education record.

The parent(s) or eligible student shall comply with the following procedure to inspect and review a student's education record:

- a. Provide a written, dated request to inspect a student's education record; and
- b. State the specific reason for requesting the inspection.

The written request will be permanently added to the student's education record.

The school shall not destroy any education record if there is an outstanding request to inspect and review the education record.

While the school is not required to give an eligible student or student's parent(s) access to treatment records under the definition of "education records" in OAR 581-021-0220(6)(b)(D), the eligible student or student's parent(s) may, at his/her expense, have those records reviewed by a physician or other appropriate professional of his/her choice.

If an eligible student or student's parent(s) so requests, the school shall give the eligible student or student's parent(s) a copy of the student's education record. The school may recover a fee for providing a copy of the record, but only for the actual costs of reproducing the record unless the imposition of a fee effectively prevents a parent or eligible student from exercising the right to inspect and review the student's educational records. The school may not charge a fee to search for or to retrieve the education records of a student.

The school shall not provide the eligible student or student's parent(s) with a copy of test protocols, test questions and answers and other documents described in Oregon Revised Statutes (ORS) 192.501(4) unless authorized by federal law.

The school will maintain a list of the types and locations of education records maintained by the school and the titles and addresses of officials responsible for the records.

Student education records will be maintained at the school building at which the student is in attendance except for special education records which may be located at another designated location within the school. The administrator/principal or his/her designee shall be the person responsible for maintaining and releasing the education records.

5. Release of Personally Identifiable Information

Personally identifiable information shall not be released without prior written consent of the eligible student or student's parent(s) except in the following cases:

- a. The disclosure is to other school officials, including teachers, within the school who have a legitimate educational interest.

As used in this section, "legitimate educational interest" means a school official employed by the school as an administrator, supervisor, instructor or staff support member; a person serving on a school board who needs to review an educational record in order to fulfill his or her professional responsibilities, as delineated by their job description, contract or conditions of employment. Contractors, consultants, volunteers or other parties to whom an agency or institution has outsourced institutional services or functions may be considered a school official provided that party performs an institutional service or function for which the school would otherwise use employees, is under the direct control of the school with respect to the use and maintenance of education records, and is subject to school policies concerning the redisclosure of personally identifiable information.

The school shall maintain, for public inspection, a listing of the names and positions of individuals within the school who have access to personally identifiable information with respect to students with disabilities.

- b. The disclosure is to officials of another school within the school;
- c. The disclosure is to authorized representatives of:

The U.S. Comptroller General, U.S. Attorney General, U.S. Secretary of Education or state and local education authorities or the Oregon Secretary of State Audits Division in connection with an audit or evaluation of federal or state-supported education programs, or the enforcement of or compliance with federal or state-supported education programs, or the enforcement of or compliance with federal or state regulations.

- d. The disclosure is in connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to:
 - (1) Determine eligibility for the aid;
 - (2) Determine the amount of the aid;
 - (3) Determine the conditions for the aid; or
 - (4) Enforce the terms and condition of the aid.

As used in this section “financial aid” means any payment of funds provided to an individual that is conditioned on the individual’s attendance at an educational agency or institution.

- e. The disclosure is to organizations conducting studies for, or on behalf of, the school to:
 - (1) Develop, validate or administer predictive tests;
 - (2) Administer student aid programs; or
 - (3) Improve instruction.

The school may disclose information under this section only if disclosure is to an official listed in paragraph (c) above and who enters into a written agreement with the school that:

- (1) Specifies the purpose, scope and duration of the study and the information to be disclosed;
- (2) Limits the organization to using the personally identifiable information only for the purpose of the study;
- (3) The study is conducted in a manner that does not permit personal identification of parents or students by individuals other than representatives of the organization; and
- (4) The information is destroyed when no longer needed for the purposes for which the study was conducted.

For purposes of this section, the term “organization” includes, but is not limited to, federal, state and local agencies, and independent organizations.

- f. The school may disclose information under this section only if the disclosure is to an official listed in paragraph (c) above who is conducting an audit related to the enforcement of or compliance with federal or state legal requirements and who enters into a written agreement with the school that:
 - (1) Designates the individual or entity as an authorized representative;

- (2) Specifies the personally identifiable information being disclosed;
 - (3) Specifies the personally identifiable information being disclosed in the furtherance of an audit, evaluation or enforcement or compliance activity of the federal or state-supported education programs;
 - (4) Describes the activity with sufficient specificity to make clear it falls within the audit or evaluation exception; this must include a description of how the personally identifiable information will be used;
 - (5) Requires information to be destroyed when no longer needed for the purpose for which the study was conducted;
 - (6) Identifies the time period in which the personally identifiable information must be destroyed; and
 - (7) Establishes policies and procedures which are consistent with Family Education Rights and Privacy Act (FERPA) and other federal and state confidentiality and privacy provisions to insure the protection of the personally identifiable information from further disclosure and unauthorized use.
- g. The disclosure is to accrediting organizations to carry out their accrediting functions;
 - h. The disclosure is to comply with a judicial order or lawfully issued subpoena. The school may disclose information under this section only if the school makes a reasonable effort to notify the eligible student or student's parent(s) of the order or subpoena in advance of compliance, unless an order or subpoena of a federal court or agency prohibits notification to the parent(s) or student;
 - i. The disclosure is to comply with a judicial order or lawfully issued subpoena when the parent is a party to a court proceeding involving child abuse and neglect or dependency matters;
 - j. The disclosure is to the parent(s) of a dependent student, as defined in Section 152 of the Internal Revenue Code of 1986;
 - k. The disclosure is in connection with a health or safety emergency. The school shall disclose personally identifiable information from an education record to law enforcement, child protective services and health care professionals, and other appropriate parties in connection with a health and safety emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals. If the school determines that there is an articulable and significant threat, the school will document the information available at that time of determination and the rationale basis for the determination for the disclosure of the information from the educational records.

In making a determination whether a disclosure may be made under the health or safety emergency, the school may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. As used in this section a "health or safety emergency" includes, but is not limited to, law enforcement efforts to locate a child who may be a victim of kidnap, abduction or custodial interference and law enforcement or child protective services efforts to respond to a report of child abuse or neglect pursuant to applicable state law, or other such reasons that the school may in good faith determine a health or safety emergency;

- l. The disclosure is information the school has designated as "directory information" (See **Board School** policy JOA – Directory Information);
- m. The disclosure is to the parent(s) of a student who is not an eligible student or to an eligible student;

- n. The disclosure is to officials of another school, school system, institution of postsecondary education, an education service district (ESD), state regional program or other educational agency that has requested the records and in which the student seeks or intends to enroll or is enrolled or in which the student receives services. The term “receives services” includes, but is not limited to, an evaluation or reevaluation for purposes of determining whether a student has a disability;
- o. The disclosure is to the Board or ODE during an executive session pursuant to ORS 332.061.

The school will use reasonable methods to identify and authenticate the identity of the parents, students, school officials, and any other parties to whom the school discloses personally identifiable information from educational records;

- p. The disclosure is to a caseworker or other representative, who has the right to access the student’s case plan, of a state or local child welfare agency or tribal organization that are legally responsible for the care and protection of the student, provided the personally identifiable information will not be disclosed unless allowed by law.

6. Record-Keeping Requirements

The school shall maintain a record of each request for access to and each disclosure of personally identifiable information from the education records of each student. Exceptions to the record-keeping requirements shall include the parent, eligible student, school official or his/her assistant responsible for custody of the records and parties authorized by state and federal law for auditing purposes. The school shall maintain the record with the education records of the student as long as the records are maintained. For each request or disclosure the record must include:

- a. The party or parties who have requested or received personally identifiable information from the education records; and
- b. The legitimate interests the parties had in requesting or obtaining the information.

The following parties may inspect the record of request for access and disclosure to a student’s personally identifiable information:

- a. The parent(s) or eligible student;
- b. The school official or his/her assistants who are responsible for the custody of the records;
- c. Those parties authorized by state or federal law for purposes of auditing the record-keeping procedures of the school.

7. Request for Amendment of Student’s Education Record

If an eligible student or student’s parent(s) believes the education records relating to the student contain information that is inaccurate, misleading or in violation of the student’s rights of privacy or other rights, he/she may ask the building level principal where the record is maintained to amend the record.

The principal shall decide, after consulting with the necessary staff, whether to amend the record as requested within a reasonable time after the request to amend has been made.

The request to amend the student's education record shall become a permanent part of the student's education record.

If the principal decides not to amend the record as requested, the eligible student or the student's parent(s) shall be informed of the decision and of his/her right to appeal the decision by requesting a hearing.

8. Hearing Rights of Parents or Eligible Students

If the building level principal decides not to amend the education record of a student as requested by the eligible student or the student's parent(s), the eligible student or student's parent(s) may request a formal hearing for the purpose of challenging information in the education record as inaccurate, misleading or in violation of the privacy or other rights of the student. The school shall appoint a hearings officer to conduct the formal hearing requested by the eligible student or student's parent. The hearing may be conducted by any individual, including an official of the school, who does not have a direct interest in the outcome of the hearing. The hearings officer will establish a date, time and location for the hearing, and give the student's parent or eligible student notice of date, time and location reasonably in advance of the hearing. The hearing will be held within 10 working days of receiving the written or verbal request for the hearing.

The hearings officer will convene and preside over a hearing panel consisting of:

- a. The principal or his/her designee;
- b. A member chosen by the eligible student or student's parent(s); and
- c. A disinterested, qualified third party appointed by the director.

The parent or eligible student may, at his/her own expense, be assisted or represented by one or more individuals of his/her own choice, including an attorney. The hearing shall be private. Persons other than the student, parent, witnesses and counsel shall not be admitted. The hearings officer shall preside over the panel. The panel will hear evidence from the school staff and the eligible student or student's parent(s) to determine the point(s) of disagreement concerning the records. Confidential conversations between a licensed employee or school counselor and a student shall not be part of the records hearing procedure. The eligible student or student's parent(s) has the right to insert written comments or explanations into the record regarding the disputed material. Such inserts shall remain in the education record as long as the education record or contested portion is maintained and exists. The panel shall make a determination after hearing the evidence and make its recommendation in writing within 10 working days following the close of the hearing. The panel will make a determination based solely on the evidence presented at the hearing and will include a summary of the evidence and the reason for the decision. The findings of the panel shall be rendered in writing not more than 10 working days following the close of the hearing and submitted to all parties.

If, as a result of the hearing, the panel decides that the information in the education record is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it shall inform the eligible student or the student's parent(s) of the right to place a statement in the record

commenting on the contested information in the record or stating why he/she disagrees with the decision of the panel. If a statement is placed in an education record, the school will ensure that the statement:

- a. Is maintained as part of the student's records as long as the record or contested portion is maintained by the school; and
- b. Is disclosed by the school to any party to whom the student's records or the contested portion are disclosed.

If, as a result of the hearing, the panel decides that the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it shall:

- a. Amend the record accordingly; and
- b. Inform the eligible student or the student's parent(s) of the amendment in writing.

9. Duties and Responsibilities When Requesting Education Records

The school shall, within 10 days of a student seeking initial enrollment in or services from the school, notify the public or private school, ESD, institution, agency or detention facility or youth care center in which the student was formerly enrolled, and shall request the student's education records.

10. Duties and Responsibilities When Transferring Education Records

The school shall transfer originals of all requested student education records, including any ESD records, relating to the particular student to the new educational agency when a request to transfer the education records is made to the school. The transfer shall be made no later than 10 days after receipt of the request. For students in substitute care programs, the transfer must take place within five days of a request. Readable copies of the following documents shall be retained:

- a. The student's permanent records, for one year;
- b. Such special education records as are necessary to document compliance with state and federal audits, for five years after the end of the school year in which the original was created. In the case of records documenting speech pathology and physical therapy services, until the student reaches age 21 or 5 years after last seen, whichever is longer.

Note: Education records shall not be withheld for student fees, fines and charges if requested in circumstances described in ORS 326.575 and applicable rules of the State Board of Education or such records are requested for use in the appropriate placement of a student.

Disclosure Statement

Required for use in collecting personally identifiable information related to social security numbers.

On any form that requests the social security number (SSN), the following statement shall appear just above the space for the SSN:

“Providing your social security number (SSN) is voluntary. If you provide it, the school will use your SSN for record-keeping, research, and reporting purposes only. The school will not use your SSN to make any decision directly affecting you or any other person. Your SSN will not be given to the general public. If you choose not to provide your SSN, you will not be denied any rights as a student. Please read the statement on the back of this form that describes how your SSN will be used. Providing your SSN means that you consent to the use of your SSN in the manner described.”

On the back of the same form, or attached to it, the following statement shall appear:

“OAR 581-021-0250 (1)(j) authorizes schools to ask you to provide your social security number (SSN). The SSN will be used by the school for reporting, research and record keeping. Your SSN will also be provided to the Oregon Department of Education. The Oregon Department of Education gathers information about students and programs to meet state and federal statistical reporting requirements. It also helps schools and the state research, plan and develop educational programs. This information supports the evaluation of educational programs and student success in the workplace.”

The school and Oregon Department of Education may also match your SSN with records from other agencies as follows:

The Oregon Department of Education uses information gathered from the Oregon Employment Division to learn about education, training and job market trends. The information is also used for planning, research and program improvement.

State and private universities, colleges, community colleges and vocational schools use the information to find out how many students go on with their education and their level of success.

Other state agencies use the information to help state and local agencies plan educational and training services to help Oregon citizens get the best jobs available.

Your SSN will be used only for statistical purposes as listed above. State and federal law protects the privacy of your records.

Directory Information**

Directory information means those items of personally identifiable information contained in a student education record which is not generally considered harmful or an invasion of privacy if released. The following categories are designated as directory information. The following directory information may be released to the public through appropriate procedures:

1. Student's name;
2. Student's home town;
3. Student's photograph;
4. Participation in officially recognized sports and activities;
5. Awards received.

Public Notice

The school will give annual public notice to parents of students in attendance and students 18 years of age or emancipated. The notice shall identify the types of information considered to be directory information, the school's option to release such information and the requirement that the school must, by law, release secondary students' names, addresses and telephone numbers to military recruiters and/or institutions of higher education, unless parents or eligible students request the school withhold this information. Such notice will be given prior to release of directory information.

Exclusions

Exclusions from any or all directory categories named as directory information or release of information to military recruiters and/or institutions of higher education must be submitted in writing to the principal by the parent, student 18 years of age or emancipated student within 15 days of annual public notice. A parent or student 18 years of age or an emancipated student, may not opt out of directory information to prevent the school from disclosing or requiring a student to disclose their name or from requiring a student to disclose a student ID card or badge that exhibits information that has been properly designated directory information by the school in this policy.

Directory information shall be released only with administrative direction.

Directory information considered by the school to be detrimental will not be released.

Information will not be given over the telephone except in health and safety emergencies.

At no point will a student's Social Security Number or student identification number be considered directory information.

The following symbol is used on some policies:

** As used in this policy, the term parent includes legal guardian or person in a parental relationship. The status and duties of a legal guardian are defined in ORS 125.005 (4) and 125.300 - 125.325. The determination of whether an individual is acting in a parental relationship, for purposes of determining residency, depends on the evaluation of the factors listed in ORS 419B.373. The determination for other purposes depends on evaluation of those factors and a power of attorney executed pursuant to ORS 109.056. For special education students, parent also includes a surrogate parent, an adult student to whom rights have transferred and foster parent as defined in OAR 581-015-2000.

Parental Rights**

The school recognizes the importance of promoting parental input in decision making related to their student's health and general well-being; in determining school and student needs for educational services; and in program development and school operations. To assist the school in this effort, and in accordance with the No Child Left Behind Act of 2001 (NCLBA), the school affirms the right of parents, upon request, to inspect:

1. A survey created by a third party before the survey is administered or distributed by the school to a student, including any school survey containing "covered survey items"¹ as defined by NCLBA;
2. Any instructional material used by the school as part of the educational curriculum for the student;
3. Any instrument used in the collection of personal information from students for the purpose of marketing or for selling that information or otherwise providing that information to others for that purpose.

As provided by law, parents of school students will also, upon request, be permitted to excuse their student from "covered activities"² as defined by NCLBA. The rights provided to parents under this policy, transfer to the student when the student turns 18 years old, or is an emancipated minor under applicable state law.

The Director will ensure that activities requiring parental notification are provided as required by law and that reasonable notice of the adoption or continued use of this policy is provided to parents of students enrolled in school schools. The input of parents will be encouraged in the development, adoption and any subsequent revision of this policy.

¹Covered survey items under NCLBA include one or more of the following items: political affiliations or beliefs of the student or the student's family; mental and psychological problems of the student or the student's family; sex behavior or attitudes; illegal, antisocial, self-incriminating or demeaning behavior; critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers; religious practices, affiliations or beliefs of the student or the student's parent; and income, other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program.

²Covered activities requiring notification under NCLBA include activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information or otherwise providing that information to others for that purpose; the administration of any survey containing one or more of covered survey items; and any nonemergency, invasive physical examination or screening that is required as a condition of attendance and administered and scheduled by the school in advance. See the administrative regulation for additional definitions.

The Director shall develop administrative regulations to implement this policy, including provisions as may be necessary to ensure appropriate notification to parents of their rights under federal law and school procedures to request review of covered materials, excuse a student from participating in covered activities and protect student privacy in the event of administration or distribution of a survey to a student.

Parental Rights**

The following definitions and procedures will be used to implement the parental rights requirements of the No Child Left Behind Act (NCLBA):

Definitions

1. “Survey,” as defined by federal law and as used in school policy and this regulation, includes an evaluation. It does not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act;
2. “Covered survey items” means one or more of the following items: political affiliations or beliefs of the student or the student’s family; mental and psychological problems of the student or the student’s family; sex behavior or attitudes; illegal, antisocial, self-incriminating or demeaning behavior; critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers; religious practices, affiliations or beliefs of the student or the student’s parent; and income, other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program;
3. “Covered activities” requiring notification under NCLBA means those activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information or otherwise providing that information to others for that purpose; the administration of any survey containing one or more covered survey items; and any nonemergency, invasive physical examination or screening that is required as a condition of attendance, administered and scheduled by the school in advance and not necessary to protect the immediate health and safety of the student, or of other students. This provision does not apply to physical examinations or screenings that are permitted or required by law, including physical examinations or screenings permitted without parental notification;
4. “Third parties” include, but are not limited to, school volunteers, parents, school visitors, service contractors or others engaged in school business, such as employees of businesses or organizations participating in cooperative work programs with the school and others not directly subject to school control;
5. “Instructional material” means instructional content that is provided to a student, regardless of its format, including printed or representational materials, audiovisual materials and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments;

6. “Personal information” means individually identifiable information including a student or parent’s first and last name; a home or other physical address (including street name and the name of the city or town); telephone number; or a social security identification number;
7. “Invasive physical examination” means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion or injection into the body. It does not include a hearing, vision or scoliosis screening and does not apply to any physical examination or screening that is permitted or required by an applicable state law, including physical examinations or screenings that are permitted without parental notification.

Requests to Inspect Materials

Parents may inspect surveys, instructional materials or instruments used to collect personal student information for marketing purposes before such items are administered or distributed by a school to a student as follows:

1. Requests may be directed to the school office by phone or in person;
2. Requests must be received by the school no later than five working days following receipt of notification by the school of its intent to administer or distribute such items;
3. Materials may be reviewed at the school office or mailed by the school;
4. Requests to mail materials must be accompanied by a self-addressed, stamped envelope.

Requests to Excuse Student from Covered Activities

A parent may request that his/her student be excused from participation in any of the following covered activities:

1. The collection, disclosure or use of personal information collected from students for the purpose of marketing or selling that information to others;
2. Any school or third party survey;
3. The administration of nonemergency, invasive physical examinations or screenings.

All such requests must be:

1. Directed to the principal in writing;
2. Received by the school no later than five working days following receipt of notification by the school of its intent to administer or distribute such items.

Student Privacy

The school recognizes its responsibility to protect student privacy in the event of administration or distribution of a survey to a student containing one or more covered survey items.

A student's personal information that may be collected as a result of such surveys will be released only with prior, written parental permission. The school will use reasonable methods to identify and authenticate the identity of the parents, students, school officials, and any other parties to whom the school discloses personally identifiable information from educational records.

Notification

Each principal shall be responsible for ensuring appropriate notification to parents of their rights under federal law, school policy and this regulation. Accordingly, notification will:

1. Be made at least annually at the beginning of the school year or at other times during the school year when enrolling students for the first time in school;
2. Include the specific or approximate dates during the school year when covered activities are scheduled or expected to be scheduled.

Public Records**

“Public record” means any information that:

1. Is prepared, owned, used or retained by the school;
2. Is related to an activity, transaction or function of the school; and
3. Is necessary to satisfy the fiscal, legal, administrative or historical policies, requirements or needs of the school.

Public record does not include messages on voice mail or on other telephone message storage and retrieval systems or spoken communication that is not recorded.

School advisory board meetings and records will be matters of public information subject to such restrictions as are set by federal law or regulation, by state statute or by pertinent court rulings.

The school advisory board’s official minutes, its written policies and its financial records will be available at the Director’s office for inspection by any citizen desiring to examine them during hours when the Director’s office is open. All such information will be made available to individuals with disabilities in any appropriate format upon request and with appropriate advanced notice. Auxiliary aids and services available to ensure equally effective communications to qualified persons with disabilities may include large print, Braille, audio recordings, readers, assistance in locating materials or other equally effective accommodations.

The school supports the right of the people to know about programs and services of their school and will make every effort to disseminate information. Each principal is authorized to use all means available to keep parents and others of his/her particular school’s community informed about the school’s program and activities.

No records will be released for inspection by the public or any unauthorized persons – either by the Director or any other person designated as custodian for school records – if such disclosure would be contrary to the public interest, as described in state law.

If a copy of a record is requested, the school will provide a single certified copy. If a request to inspect a record is made and the public record is maintained in a machine readable or electronic form, the custodian shall provide the record in the form requested, if available. If not available in the form requested, it will be provided in the form the public record is maintained. If a person who is a party to a civil judicial proceeding to which the school is a party or who has filed notice under ORS 30.275 (5)(a), asks to inspect or to receive a copy of a public record that the person knows relates to the proceeding or notice, the individual must submit the request in writing to the designated custodian of school records and at the same time to the school’s attorney.

Employee and volunteer addresses, electronic mail addresses (other than school electronic mail addresses assigned by the school to school employees), social security numbers, dates of birth and telephone numbers contained in personnel records maintained by the school are exempt from public disclosure pursuant to ORS 192.445 and ORS 192.502 (3). Such information may be released only upon the written request of the employee or volunteer or as otherwise provided by law. This exemption does not apply to a substitute teacher, as defined in ORS 342.815, when requested by a professional education association of which the substitute teacher may be a member. School electronic mail addresses assigned by the school to school employees are not exempt. Additionally, the school will not disclose the identification badge or card of an employee without the employee's written consent if the badge or card contains the employee's photograph and the badge or card was prepared solely for internal use by the school to identify school employees.

A duplicate of the photograph used on the badge or card shall not be disclosed.

Upon receipt of a request, the school will respond as soon as practicable and without unreasonable delay. The response must acknowledge the receipt of the request and one of the following:

1. A statement that the school does not possess, or is not the custodian of, the public record;
2. Copies of all requested public records for which the school does not claim an exemption from disclosure under ORS 192.410 to 192.505;
3. A statement that the school is the custodian of at least some of the requested public records, an estimate of the time the school requires before the public records may be inspected or copies of the records will be provided and an estimate of the fees that the requester must pay as a condition of receiving the public records;
4. A statement that the school is the custodian of at least some of the requested public records and that an estimate of the time and fees for disclosure of the public records will be provided by the school within a reasonable time;
5. A statement that the school is uncertain whether the school possesses the public record and that the school will search for the record and make an appropriate response as soon as practicable;
6. A statement that state or federal law prohibits the school from acknowledging whether the record exists or that acknowledging whether the record exists would result in the loss of federal benefits or other sanction. A statement under this paragraph must include a citation to the state or federal law relied upon by the school.

The school may request additional information or clarification from the requester for the purpose of expediting the school's response to the request.

The school reserves the right to establish a fee schedule which will reasonably reimburse the school for the actual cost of making copies of public records for the public. There will be no additional charge for auxiliary aids and services provided for qualified persons with disabilities.

Requests for copies of documents shall be in writing and will be presented to the Director's office.

The school shall retain and maintain its public records in accordance with OAR 166, Division 400.

Facility and Campus Usage

The Oregon School for the Deaf (OSD) is a state operated program administered by the Oregon Department of Education (ODE). While the primary mission for the facility is to educate children who are Deaf or hard of hearing, during periods of non-use, the buildings and areas are available for compatible usage.

It is the policy of the school that OSD facilities and areas shall be made available, under capable and responsible supervision, for community activities of an educational, recreational, social, cultural or civic nature, so long as such use does not interfere with the school's program and costs associated with usage, cleaning and wear and tear are covered.

Facility and Campus Usage

The Oregon School for the Deaf (OSD) classifies groups into four categories for the purpose of prioritizing facility usage, and for determination of facility cost. The four categories are as follows:

1. Groups that are directly associated with the OSD or the Oregon Department of Education (ODE). Examples include, but are not limited to, OSD parent groups, alumni associations, Oregon Association of the Deaf (OAD), Mid-Valley Athletic Association of the Deaf (MVAAD) and Oregon Association of the Deaf Services Center (OADSC).
2. Groups associated with other agencies of the state of Oregon.
3. Public education agencies and nonprofit organizations that serve individuals with disabilities (e.g., Salem-Keizer School District, Willamette ESD).
4. Groups associated with youth and civic organizations (e.g., Boy/Cub Scouts, Girl Scouts, 4-H, Little League teams, YMCA).

For groups 1 through 3, only officially sponsored activities qualify. Activities involving individuals from these groups that are “unofficial” place them in group 4.

When conflicting requests are made for the same facility, priority is given in the same order as the groups are numbered. Once a facility is reserved, any change in usage occurs only with the concurrence of all parties or by the decision of the Director.

If there is any history of problems occurring with reservations at OSD the group will not be able to reserve at OSD. If payment is not made promptly within two weeks of use, that group will only be permitted to reserve with pre-payment.

Facility Reservation Process

To reserve a facility or area at OSD an individual or group needs to:

1. Complete an Application for Facility Usage form. This form delineates the individual/group who plans to use the facility, the facility/area desired, the date and time of the usage and any special needs that may apply to the facility usage.
2. Submit the completed Application for Facility Usage form to the OSD Receptionist.
3. The OSD Receptionist determines if the desired room/location is available. For requests to use the Peck or Hokanson gym, the pool or any athletic fields, the Receptionist will contact the Athletic Director to obtain approval for usage.

4. If the facility is unavailable, the receptionist communicates this to the individual making the request. If the facility is available the form is forwarded to the Director for confirmation of status, fees to be charged, event supervisor determination, and final approval.
5. Approved requests are communicated to:
 - a. The person/group making the request.
 - b. The event supervisor (if different from requesting individual).
 - c. The Supervisor of Maintenance.
6. The Receptionist logs the facility usage on a master calendar as a means of tracking all use of the OSD campus by outside groups and works with the cashier to monitor payment of facility use fees.

Fees

The fees for usage of the OSD facilities include rental of the space desired and normally anticipated costs for personnel needed to provide for set-up and clean-up. The chart below identifies hourly fees or event charges by facility.

User Group Category	Peck Gym	Pool	Hokanson Gym	Clerc Conference Room	McKnight Cafeteria	Athletic Fields: Football Baseball	Carpenter House**
1	\$10/hour	\$15/hour	\$5/hour	\$0	\$0	\$0	\$20 per person per night
2	\$20/hour	\$30/hour	\$10/hour	\$0	\$20/hour	\$15/hour	\$30 per person per night
3	\$30/hour	\$40/hour	\$20/hour	\$15/hour	\$25/hour	\$20/hour	\$50 per person per night
4	\$40/hour	\$50/hour	\$30/hour	\$20/hour	\$40/hour	\$30/hour	Not Available

If additional personnel are required for special set-up/clean-up, supervision of the event, preparation or serving of food, or other special services, OSD will charge actual costs for staff who provide the services in addition to the posted hourly rates. For the purpose of estimating these additional personnel costs, approximate hourly rates are as follows:

Other Associated Fees as established by the Director.

Applicants who anticipate the need for additional personnel will need to work directly with an OSD staff member to plan the event.

** Parents of prospective and regular students who come to visit campus may stay up to two nights per year at no cost.

Meals

Groups may request to purchase lunch during day meetings. The cost of a ticket is \$3 per person. Meals must be ordered at least two weeks in advance of the meeting. Cancellations must be received at OSD at least 48 hours prior to the meeting day or the group will be charged for the meals.

Supervision

All events on the OSD campus will have a designated supervisor. While this supervisor will generally be the individual who reserves the facility, based upon the nature of the event, the OSD Director may elect to assign an OSD employee to this role. In the event that this occurs, the cost of the supervisor will be added to the rental cost. OSD facilities may only be used when there is an OSD staff member on campus.

General Guidelines

1. The Director has final approval of all facility usage.
2. All users of school property must comply with all federal, state and municipal equal opportunity laws and regulations prohibiting discrimination.
3. The use of school facilities and areas for partisan, political or sectarian purposes may be granted with the specific approval of the Director or his/her designee. Such endorsement does not imply the endorsement or sponsorship by the Director or the school. Such activities would fall in Category 4.
4. The event supervisor (designated person responsible for the outside group) will be in attendance at all times during the usage of the facility and is responsible to carefully monitor behavior, use of property and assurance the areas are cleaned and restored to previous condition when done using them.
5. The event supervisor will have available a roster of all participants.
6. The possession or use of alcoholic beverages or illegal drugs in any form including nicotine or nicotine delivering devices, chemicals or devices that produce the physical effect of nicotine substances or any other tobacco substitute (e.g., e-cigarettes) is prohibited at all times and in any location or building on campus and may result in a call to law enforcement. This does not include FDA-approved nicotine replacement therapy products used for the purpose of cessation.
7. Issuance of keys to other than school personnel will not be permitted.
8. Equipment and furniture, including pianos, shall be used and moved only with the approval of the Director.
9. The maximum number of people permitted in any school facility shall be restricted to its seating capacity as indicated by the appropriate Fire Marshall.
10. The school reserves the right to require security personnel, at the expense of the user, at any event the Director deems necessary.

11. The Director or his/her designated supervisor has the right to stop any activity at any time if, in his/her judgment, there are flagrant violations of school policies and rules or federal, state or municipal laws or if the activity is deemed to be hazardous to people, buildings or equipment.

Billing/Payment Process

Payment for facility use will be made to the OSD cashier at the time the reservation is confirmed.

Facility Damages

If damages result from the use of the facility, the event supervisor must report the damage to the maintenance staff on duty. The Maintenance Supervisor will assess the damage and write an incident report, to include repair costs for materials and labor. The incident report will then be sent to the Director. These costs (above and beyond normal wear and tear) will be billed, the organization and any event participants will not be able to use the facilities until costs are paid. Serious damage will result in a complete loss of facility use.

Special Requirements

1. Gym

Gym shoes are required for participants involved in active sports or games.

2. Pool

All participants must shower prior to entering pool area.

- a. Applicant is responsible for providing a lifeguard for their event. A copy of the lifeguard's certification is required with the Application for Facility Usage.
- b. No one is allowed to be in the pool area unless a certified lifeguard is present on the pool deck.
- c. All participants must provide their own towels.
- d. A final check of the area must be made to ensure water, lights are turned off; the area is clean and all doors are locked.

OSD facilities are unavailable for rental during the month of August each year to accommodate annual maintenance. Outside groups may not use facilities in areas students are utilizing nearby locations.

Public Conduct on School Property

No person on school property or any school grounds, including parking lots, shall:

1. Haze, harass, intimidate, bully or menace another, or engage in behavior deemed by the school to endanger the safety of students, employees, self or others;
2. Use or engage in abusive verbal or physical conduct that interferes with the performance of students, event officials or sponsors of approved activities;

This does not include USFDA-approved tobacco products or other therapy products marked and sold solely for the approved purpose.

Violation of this policy will lead to appropriate disciplinary action up to and including expulsion for students. When considering disciplinary action for a student with disabilities, the school must follow the requirements of school policy JGDA/JGEA - Discipline of Students with Disabilities, including those involving functional behavioral assessment, change of placement, manifestation determination and an interim alternative educational setting. Community or school service may be required. A referral to law enforcement may be made. Parents will be notified of all violations involving their student and subsequent action taken by the school. Information about cessation support and/or tobacco education programs and how students can access these programs will be provided. At the discretion of the principal, attendance and completion of such programs, or successful completion of a behavior modification plan, may be allowed as a substitute for, or as part of student discipline.

Violation of this policy by nonstudents may result in the individuals removal from school property. The school reserves the right to restrict access to school property by individuals who are repeat offenders.

Materials Distribution**

Requests by individuals or groups to distribute pamphlets, booklets, flyers, brochures and other similar materials to students for classroom use or to take home shall be submitted to the school administration. Materials and the proposed method of distribution shall be subject to review.

Materials shall be reviewed based on legitimate educational concerns. Such concerns include: the material is or may be defamatory; the material is inappropriate based on the age, grade level and/or maturity of the reading audience; the material is poorly written, inadequately researched, biased or prejudiced; the material contains information that is not factual; the material is not free of racial, ethnic, religious or sexual bias; or the material contains advertising that violates public school laws, rules and/or policy, is deemed inappropriate for students or that the public might reasonably perceive to bear the sanction or approval of the school.

The Director or designee shall determine distribution procedures. Such procedures may include:

1. Distribution to each student before or after class if materials are not directly related to the instructional goals;
2. Notification to students or parents of the availability of the materials in a specified location if this procedure is deemed less disruptive to the educational process; or

Visitors to School Facilities**

The school believes that a better understanding of its educational program and improved relationship between the school and community can be developed through school and classroom visitations of parents and patrons. Such visitations should be encouraged, arranged and permitted within considerations of the requirements of the educational program, the orderly administration of the school, school grounds and classrooms and the safety and welfare of students.

The school is responsible for the schools' supervision and administration. To ensure that school work is not disrupted and that visitors are properly directed to the areas in which they are interested, all visitors to school facilities must report to the school office upon entering school property.

1. Teachers' work must not be impeded by interruption of visitors or by unreasonable demands on their time.
2. Visitors must not contact individual students except as authorized by the principal and/or teachers.
3. When in the interest of orderly educational programs and the safety of students it is determined by the principal that some specific visitor or visitors shall not be permitted to enter the school facilities, the principal shall do the following:
 - a. Advise the person that he/she is refused admission and give that person an explanation for the refusal;
 - b. If possible and appropriate, attempt to arrange alternative visitation of school facilities.
4. A visitor with permission to visit may be directed to leave when any teacher or administrator reasonably believes the visitor has engaged in physical violence, loud or disruptive speech or behavior, violation of a posted school rule or illegal conduct.

A visitor may also be directed to leave by the staff member administratively in charge of the building if the visit would be disruptive to the educational program or school order; would impede the work of teachers through visitor's interruptions or unreasonable demands on teacher time; or if the visitors' course of conduct would conflict with school policies, school or building regulations or would violate the law.

5. A direction to leave revokes any permission to visit or license to enter. Whenever possible, the direction should be given in writing or followed by written notice which identifies the issuer and gives a brief statement of the reason for the direction to leave. The principal's office should be notified of any direction to leave and given a copy of any written notice.

6. Those who insist on remaining despite a principal's request to leave and who thereby create a disruption of the carrying on of school business are subject to citizen's arrest and a report made to the Oregon State Police. Failure to leave will render a visitor liable for criminal trespass pursuant to Oregon Revised Statutes.
7. Any visitor who believes that he/she has had a visit unfairly limited, may request a meeting with the Director. The latter shall meet promptly with the visitor, investigate the dispute and render a written decision. The Director's decision is final.
8. Any visitor who commits a violent act or threatens to commit a violent act toward a student or staff member while on school grounds, at a school-sponsored event or on the way to and from school, shall be reported immediately to the principal and Director. The Director shall immediately contact any student involved.

Public Complaints

Members of the public and students are encouraged to make their concerns known to the Oregon School for the Deaf (OSD) and to give the OSD an opportunity to review those concerns and respond to them.

Complaints about instructional materials, staff members or alleged violation of state standards should be dealt with first at the local school. Persons having complaints should approach the principal and, if possible, resolve the problems at this level.

Complaints about school policy or administrative regulations should be referred directly to the Director.

Complaints against the principal may be filed with the Director. Complaints against the Director should be referred to the Assistant Superintendent of Student Services for the Oregon Department of Education (ODE).

If the person(s) having a complaint fails to resolve the concern with the principal or the Director, the person may request that the matter be referred to the Assistant Superintendent for ODE.

The Director shall develop administrative regulations designed to encourage the timely resolution of public complaints while providing a system of review which will allow both the complainant and other affected parties an opportunity to be heard.

If a complaint alleges a violation of state standards and is not resolved at the local level, then the school will supply the complainant with appropriate information in order to file a direct appeal to the State Superintendent of Public Instruction as outlined in Oregon Administrative Rule (OAR) 581-022-1940.

The administrator shall evaluate the evidence and render a decision within five working days after receiving the complaint.

The Director: Step Three

If such a discussion with the administrator does not resolve the complaint, within 10 working days of the meeting with the administrator the complainant, if he/she wishes to pursue the action, shall file a signed, written complaint with the Director clearly stating the nature of the complaint and a suggested remedy. (A form is available, but is not required.)

The Director shall investigate the complaint, confer with the complainant and the parties involved and prepare a written report of his/her findings and his/her conclusion and provide the written report to the complainant within 10 working days after receiving the written complaint.

The Assistant Superintendent of Student Services for ODE: Step Four

The Assistant Superintendent may hold a hearing to review the findings and conclusion of the Director, to hear the complainant and hear and evaluate such other evidence as it deems appropriate. Generally all parties involved, including the school administration, will be asked to attend such meeting for the purposes of presenting additional facts, making further explanations and clarifying the issues.

The complainant shall be informed of the decision from the assistant superintendent within 20 working days from the hearing of the appeal. The decision of the Assistant Superintendent of Student Services will be final.

The complaint procedure set out above will not be longer than 90 days from the filing date of the original complaint with the administrator.

Complaints against an administrator may be filed with the Director. Complaints against the Director should be referred to the assistant superintendent of student services for ODE.

Interviews/Investigations of Students

7. If the administrator has been unable to contact the parent(s) then the administrator shall make a reasonable attempt to notify the parent(s) as soon as possible after the interview.
8. All such interviews shall be conducted in privacy, out of the view of staff, students and others.
9. An administrator shall be present at all times during the interview unless the student's parent(s) is present and asks the administrator not to participate or the school official is otherwise prohibited from being present by law.
10. The administrator shall maintain a written record of all such interviews conducted.

Questioning of a Student Suspected of a Crime, Arrest or Taking a Student into Custody

Law enforcement officials have the primary responsibility for notifying the parent(s) in such instances.
4. Any investigation of abuse of a child will be directed by the Oregon Department of Human Services, Community Human Services, or law enforcement officials as required by law. The administrator or designee will request documentation from the investigating official demonstrating that the official has a warrant, a court order, exigent circumstances or parental consent to conduct the interview. If the investigating official does not have this documentation, the administrator may deny the official's request to interview the student on school property. The administrator or designee may be present at the interview of the student at the discretion of the investigating official. When the subject matter of the interview or investigation involves abuse of a child, administrators and school employees shall not notify the parent.

Administrator-Initiated Requests

On occasion, principals may need, or be required to seek law enforcement assistance. Any student violation of the school's weapons policy shall be reported to the appropriate law enforcement agency. Abuse of a child also requires immediate referral to the Oregon Department of Human Services, Community Human Services, or law enforcement officials.
