

How to Check your Internet Speed

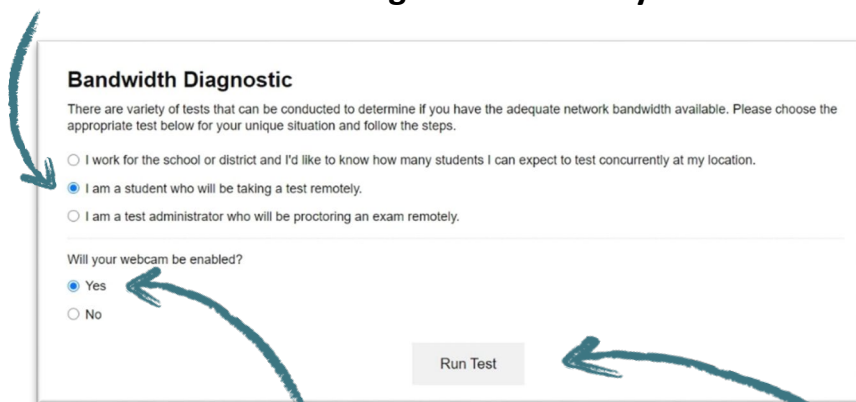

Before the day of the test, you should make sure your internet speed is fast enough for your child to take a test at home following the instructions below. The recommended speed is 200 kilobits per second.

If your internet connection is lost while your child is taking a test, your child's responses to the test questions will be saved and your child will be able to resume the test once they reconnect to the internet and sign in again. If this happens during a test, let your child's teacher know.

Follow these steps to check your internet speed:

1. Open Chrome or Firefox and go to:
[Check my Speed](#) or https://bit.ly/check_my_speed

2. Select "I am a student who will be taking a test remotely."

Bandwidth Diagnostic

There are variety of tests that can be conducted to determine if you have the adequate network bandwidth available. Please choose the appropriate test below for your unique situation and follow the steps.

I work for the school or district and I'd like to know how many students I can expect to test concurrently at my location.

I am a student who will be taking a test remotely.

I am a test administrator who will be proctoring an exam remotely.

Will your webcam be enabled?

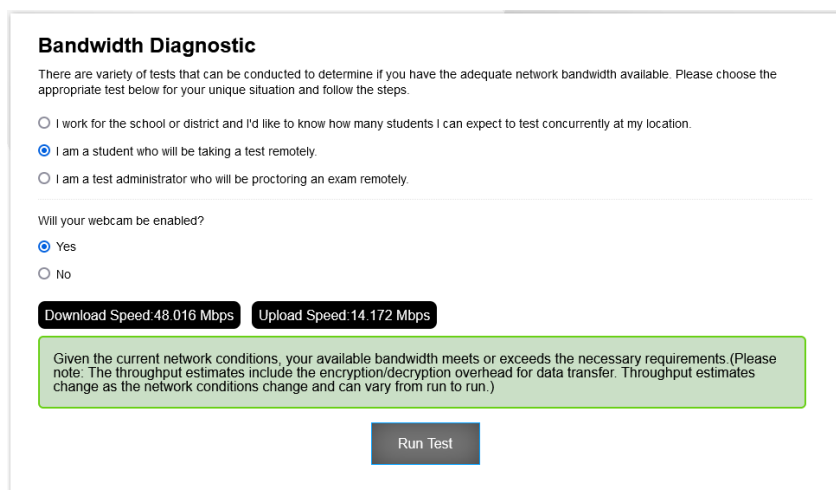

Yes

No

Run Test

3. Select if you will be using your webcam during remote testing.

4. Click Run Test

No

Download Speed: 48.016 Mbps Upload Speed: 14.172 Mbps

Given the current network conditions, your available bandwidth meets or exceeds the necessary requirements. (Please note: The throughput estimates include the encryption/decryption overhead for data transfer. Throughput estimates change as the network conditions change and can vary from run to run.)

Run Test

5. The test will tell you if your speed is fast enough.
