MEETING CHAT:

10:21:20 From RAC, Amanda Astor - AOL :

I think you could do this with an endorsement or letter of recommendation.

10:42:52 From RAC, Amanda Astor - AOL :

What about OSU extension and ODF workshops?

10:43:36 From RAC- Chris Adlam_OSU :

OSU Extension has been supporting the Rogue Valley PBA and that would be a great way for people to get experience!

10:45:03 From RAC, Amanda Astor - AOL :

That is awesome Chris! With the feds, maybe something like TREC could be an opportunity to expand as well? Not sure...

10:45:49 From RAC- Chris Adlam_OSU :

TREC relies exclusively on NWCG... not sure how to get non-NWCG CBM trainees involved?

10:46:08 From RAC- Chris Adlam_OSU :

But that would be great to explore. Maybe there's a precedent in other states.

10:46:23 From RAC - Amanda Rau (OPFC) :

TREC does not have to be NWCG, it just is as we know it due to TNC's requirements.

10:46:37 From RAC - Amanda Rau (OPFC) :

We could do something "TRECish" that is CBM focused.

10:46:42 From RAC, Amanda Astor - AOL :

That is true... we would need to coordinate with R6 on opportunities.

Certified Burn Manager Rulemaking Advisory Committee Meeting Summary for October 20, 2021

10:47:02 From RAC - Amanda Rau (OPFC) :

If we partner with USFS we do need to meet NWCG.

10:47:48 From RAC- Chris Adlam_OSU :

An updated database of opportunities to get burn experience would be great, could include PBAs, TREX, other workshops....

10:48:06 From RAC - Amanda Rau (OPFC) :

What I am saying is that we could do live fire training on private and other lands where NWCG would not be required.

10:48:46 From RAC- Chris Adlam_OSU :

Yes, I think that's more realistic than federal lands out of the gate...

10:49:40 From RAC, Amanda Astor - AOL : Agreed, but I think it would be awesome to coordinate with them in the future :) They need plenty of help with their burning needs!

10:53:25 From RAC -Rick Allen (OFIC Starker Forests) :

Tough Crowd

11:21:56 From RAC- Katie Sauerbrey (TNC) :

One idea also, based on the violation, could be to require them to burn with another CBM as a trainee
