Regional Conversations Worksheet

This is for you to use to take notes during conversations at your table. You won't be turning this in – it is meant for you to take back to your community to remind yourself about discussions at the Forum.

Regional conversations #1 4:15-4:45

Reflections on collective impact and possibilities for community action

In reflecting on the keynote address, what did you hear that informs your community's commitment and approach to an early childhood focus?

Given what you heard in the keynote about collaboration and partnership, how might you think differently about the work in your community?

Regional conversations #2 6:15-7:15

Deepening collaboration – Opportunities, challenges and next steps

What did you learn in the World Café that was particularly salient, new or meaningful?

Given all you've heard today, what next steps will you take to deepen collaboration and improve early childhood outcomes?
