

Children's Behavioral Health in Oregon

Mission: To champion effective and efficient statewide behavioral health services, supports and safety for Oregon's children, young adults and their families, incorporating System of Care principles, developmental science and trauma informed approaches.

OHA Vision:
A healthy Oregon

System of Care Vision:
A future where young people from all backgrounds are healthy, safe, learning and thriving at home and in their communities.

Continuum of Care. Work addresses gaps and quality in the children's behavioral health continuum of care and centers communities that have been disproportionately impacted by health inequities and systemic racism.

Youth and Family Engagement. Work incorporates meaningful youth and family participation centering communities of color, indigenous and Tribal communities, people who identify as LGBTQIA2S+ and other traditionally marginalized populations.

Data. Work centers health equity by making policy and program decisions based on accurate and timely data and by seeking data that can assist in understanding health inequities.

Cross System

Cross System. Work supports and prioritizes cross-system collaboration to improve the behavioral health continuum of care for youth and families.
