Oregon Performance Plan #52 (a)

Performance Plan Section: Criminal Justice

Performance Plan Term: OHA will work to decrease the number of individuals with serious and persistent mental illness who are arrested or admitted to jail based on a mental health reason, by engaging in the following strategies:

- OHA will continue to report the number of individuals with SPMI receiving jail diversion services and the number of reported diversions. OHA will require, under new contracts with entities providing jail diversion services, that contract providers report the number of diversions pre- and post-arrest. OHA will include this requirement in all RFPs for any new jail diversion programs.

Definition: "Jail Diversion Services" are community-based services that are designed to keep individuals with behavioral health issues out of the criminal justice system and, instead, supported by other community based services, such as mental health services, substance abuse services, employment services, and housing. Jail diversion services are intended to minimize contact with law enforcement, avoid jail time, and/or reduce jail time. These services are intended to result in the reduction of the number of individuals with mental illness in the criminal justice system or Oregon State Hospital. (Oregon Performance Plan)

Data Source: Quarterly Reports

Description of Data:

- **Metrics:**
  o Number of individuals receiving Jail Diversion services.

  o Number of reported diversions.
    ▪ Number of the reported diversions Pre and Post arrest.

- **Numerator:** N/A

- **Denominator:** N/A

- **Other / Description of Data Points:** N/A

Data issues/caveats that affect performance outcomes: N/A
