From: Capitol Dental Care, Inc.  
RE: Yamhill Community Care

CCO 2.0 RFA Review Committee,

Capitol Dental Care, Inc (“Capitol”) has partnered with YCCO to provide dental benefits to OHP members in Yamhill County since 2014. In 2017, YCCO issued a request for proposals for a single dental care organization (DCO) to serve YCCO members. Capitol was chosen as YCCO’s single DCO and has enjoyed working with YCCO to successfully engage OHP members in dental health care.

YCCO has a proven track record as a coordinated care organization building a coordinated and integrated network for physical, behavioral and dental health services. YCCO and Capitol are leaders in integrating dental services into primary care and local mental health clinics as well as placing dental hygienists in local schools. In addition, YCCO has led in areas such as integrating behavioral health services into primary care, integrating primary care into mental health clinics, supporting investments in social determinants of health and peer led services as well as employing community health workers to assist members in navigating the health care delivery system.

Capitol Dental Care supports YCCO’s application for another five-year contract to provide OHP benefits in Yamhill County and looks forward to the continued partnership.

Sincerely,

Mark Shalvarjian  
President

Re: Letter of Support for Yamhill Community Care application in responses to RFA OHA-4690-19 Coordinated Care Organizations 2.0

To the review committee,

Providence Newberg Medical Center would like to express its strong support for YCCO's application to continue its Coordinated Care Organization contract. The area YCCO serves is a rural community with a unique set of needs and health challenges that vary widely across the service area. By being informed by community members and the agencies that serve them, it can continue to improve service delivery, lower the cost of care, and improve health and well-being.

Yamhill Community Care was formed as a grassroots effort from local stakeholders, and those stakeholders continue to be involved in YCCO's work and decision-making processes. YCCO engages multiple sectors through its various committees and workgroups; Providence Newberg Medical Center is one of them. PNMC supports YCCO's application to continue its efforts to improve health within the community and intends to continue its involvement and collaboration on YCCO strategies and community programs.

Our organization looks forward to a continued and strengthened partnership with YCCO in the next phase of the CCO model and affirms that Yamhill Community Care is the best agency to serve OHP health plan members in this area.

Sincerely,

A handwritten signature in black ink that reads "Lori Bergen". The signature is written in a cursive, flowing style.

Lori Bergen  
Chief Executive  
Providence Newberg Medical Center

RE: Yamhill Community Care

CCO 2.0 RFA Review Committee,

Yamhill County Health and Human Services (YCHHS) has a long-standing relationship with Yamhill Community Care (YCCO). YCHHS played a key role in the forming of YCCO, along with a diverse group of community stakeholders, and has been the Behavioral Health Risk Accepting Entity for YCCO since 2015. Additionally, our collaboration includes several projects that connect with our local public health functions.

YCCO has a proven track record as a coordinated care organization. YCCO has led in areas such as integrating behavioral health services into primary care, integrating primary care into mental health clinics, and supporting investments in social determinants of health, as well as employing community health workers to assist members in navigating the health care delivery system.

YCHHS has partnered with YCCO on numerous innovative programs and activities such as the Maternal Medical Home model of care, Community Health Assessment and Improvement Plan, and the Integrated Complex Care Management Program. At the heart of our collaboration is the vision to build wraparound models of care that are person-centered. For example, we opened a 16 unit supportive housing apartment complex for medically fragile members with high behavioral health needs in 2018 with onsite peer support and we are experiencing some great results.

YCHHS fully supports YCCO's application for another five-year contract to provide Oregon Health Plan member benefits in Yamhill County and looks forward to the continued partnership.

Sincerely,

Silas Halloran-Steiner  
Director, Yamhill County Health and Human Services Department

Re: Carta de apoyo para la solicitud de Yamhill Community Care en respuesta a la RFA OHA-4690-19 Organización de Atención Coordinada 2.0

Al comité de revisión,

Quiero expresar mi fuerte apoyo a la solicitud presentada por YCCO para poder continuar con el contrato de Organización de Atención Coordinada. El área donde YCCO presta servicio es una comunidad rural con necesidades y desafíos de salud únicos, que varían ampliamente en el área de servicio. Al recibir información de los miembros y de las agencias que los asisten, YCCO puede continuar mejorando la prestación de servicios, reducir los costos de atención y mejorar la salud y el bienestar.

Yamhill Community Care se formó como parte de un esfuerzo de base de personas locales interesadas. Dichas partes interesadas siguen participando en el trabajo realizado por YCCO y en los procesos de toma de decisiones. YCCO se relaciona con varios sectores a través de los distintos comités y grupos de trabajo, y también involucra a los miembros de la comunidad a la que presta servicios. Como miembro del Consejo Asesor Comunitario, yo doy mi apoyo a la solicitud de YCCO para continuar sus esfuerzos para mejorar la salud dentro de la comunidad.

Espero seguir participando en YCCO y continuar dando mi opinión en la próxima fase del modelo del CCO. Además, creo que Yamhill Community Care es la mejor agencia para brindar servicios a los miembros del plan de salud de OHP en el área.

Atentamente,

Oregon Health Authority  
Office of Contracts and Procurement

Re: Letter of Support for Yamhill Community Care application in responses to RFA OHA-4690-19  
Coordinated Care Organizations 2.0

To the review committee,

As a resident of Yamhill County for over 40 years and having worked for Yamhill County's Health & Human Services program for most of those 40 years, I have come to know firsthand the needs of this community's OHP/Medicaid population. From this perspective, I would like to express my strong support for YCCO's application to continue its Coordinated Care Organization contract. The area YCCO serves is a rural community with a unique set of needs and health challenges that vary widely across the service area. By being informed by community members and the agencies that serve them, it can continue to improve service delivery, lower the cost of care, and improve health and well-being.

Yamhill Community Care was formed as a grassroots effort from local stakeholders, and those stakeholders continue to be involved in YCCO's work and decision-making processes. YCCO engages multiple sectors through its various committees and workgroups; my professional and now my volunteer experiences make me a vested stakeholder in YCCO's success with the OHP population. I support YCCO's application to continue its efforts to improved health within the community and its intent to continue its involvement and collaboration on YCCO strategies and community programs.

I look forward to a continued and strengthened involvement with YCCO in the next phase of the CCO model and affirm that Yamhill Community Care is the best entity available to serve OHP health plan members in this area.

Sincerely,

Paul Kushner

Re: Letter of Support for Yamhill Community Care application in responses to RFA OHA-4690-19 Coordinated Care Organizations 2.0

To the review committee,

Willamette Education Service District would like to express its strong support for YCCO's application to continue its Coordinated Care Organization contract. The area YCCO serves is a rural community with a unique set of needs and health challenges that vary widely across the service area. By being informed by community members and the agencies that serve them, it can continue to improve service delivery, lower the cost of care, and improve health and well-being.

Yamhill Community Care was formed as a grassroots effort from local stakeholders, and those stakeholders continue to be involved in YCCO's work and decision-making processes. YCCO engages multiple sectors through its various committees and workgroups; Willamette Education Service District is one of them. We support YCCO's application to continue its efforts to improve health within the community and intend to continue our involvement and collaboration on YCCO strategies and community programs.

Our organization looks forward to a continued and strengthened partnership with YCCO in the next phase of the CCO model and affirms that Yamhill Community Care is the best agency to serve OHP health plan members in this area.

Sincerely,
