 - Keep lines muted when you're not talking

Strategy Prioritization

- Goal: Identify a total of 10-15 strategies at policy, community and individual level
 - Existing strategies
 - New strategies
 - Interventions needed to make progress towards the goals

March meeting

- Apply criteria to ensure strategies affect priority populations. Finalize choices and wording.

Goals and Indicators

Economic Viability

Increase the percentage of Oregonians earning a livable wage by raising public awareness of the correlation between health and economic sufficiency and advocating for evidence-based policies to improve economic sufficiency.

Opportunity Index - Economic Dimension

Childcare cost burden
(Consumer Expenditure Survey, Bureau of Labor Statistics)

Food Insecurity

Increase equitable access to culturally appropriate nutritious food regardless of social or structural barriers (e.g., age, location or employment) by addressing the underlying issues in food availability and stigma associated with food insecurity.

Food Insecurity (USDA's US Food Security Survey)

Physical Environment

All people in Oregon live, work, play in a safe and healthy environment and have equitable access to stable, safe, affordable housing, transportation and other essential infrastructure so that they may live a healthy resilient life.

Housing Burden - % of income spent on rent/mortgage (American Community Survey)

3rd grade reading proficiency (Oregon Department of Education)

Aims for this meeting

- Review list generated from last meetings' discussion
- Look at the criterion one at a time across all chosen strategies:
 - E.g. looking at what we have, are there any that seem politically unfeasible? Or not likely to be resourced?
 - In terms of the relevant to community criterion, please pay particular attention to wording. Would someone outside of your field understand the terms you are using? If you are unsure, consider adding language to make clear.
- Look for overall balance for each subcommittee:
 - Do the strategies match the goals that were put forth? Are there strategies that will make progress on the indicators?
