

Complications Page FAQ

When a question doesn't apply, it should be left blank.

Follow-up At This Facility?

If a follow-up visit did not occur at your facility, then the following complications questions do not apply and should be left **blank**.

Follow-up At Other Facility?

If a follow-up visit did not occur or it is unknown whether a follow-up visit occurred at another facility, then the following complications questions should be left **blank**.

Complications Checkboxes

If follow-up did occur and there were complication(s), you must indicate the type of complication(s) by selecting the appropriate checkboxes. If there were complications but it is unknown what those complications were, then select the 'Other' checkbox, and type 'Unknown' in the space provided. Remember, if a question doesn't apply, it should be left blank.

The screenshot shows the 'Complications' page in the ITOP Registration Menu. The page is titled 'The State of Oregon - Oregon Health Authority' and 'OVERS SQL 2014 TEST'. The main content area is divided into three sections: 'Follow-up At This Facility', 'Follow-up At Other Facility', and 'Complications At Other Facility'. Each section has a dropdown menu for 'Follow-up At [Facility]' and a dropdown for 'Complication at Follow-up?'. The 'Complications At Other Facility' section has a dropdown for 'Follow-up Visit Facility Type' and a dropdown for 'Complication at Follow-up Visit at Other Facility?'. Below each section are checkboxes for various complications: Hemorrhage, Infection, Uterine Perforation, Cervical Laceration, Retained Products, Death, Failure of First Method, and Other. Three callout boxes provide instructions: 1. 'Follow-Up Complications' and 'Complications at Other Facility?' checkboxes should only be checked if both follow-up and complications occurred and are both marked Yes. 2. When 'Follow-Up at This Facility?' is 'No', then 'Complication at Follow-up?' should be left blank. 3. When 'Follow-Up at Other Facility?' is 'Unknown or No', then 'Complication at Follow-up Visit at Other Facility?' should be blank. At the bottom of the page are buttons for 'Validate Page', 'Next', 'Clear', 'Save', and 'Return'.

'Follow-Up Complications' and 'Complications at Other Facility?' checkboxes should **only** be checked if both follow-up and complications occurred and are both marked **Yes**.

When 'Follow-Up at This Facility?' is 'No', then 'Complication at Follow-up?' should be left **blank**.

When 'Follow-Up at Other Facility?' is 'Unknown or No', then 'Complication at Follow-up Visit at Other Facility?' should be **blank**.
