WASHINGTON	6.2	4.9	7.8		100	1838
YAMHILL	6.7	4.0	10.8		20	381

\*\* % based on less than 50 respondents may not accurately reflect behavior of the entire county. Data are not reported for counties with less than 10 respondents.

\*\*\*In 2005, the definition of binge drinking for women changed from 5+ drinks of alcohol to 4+ drinks of alcohol on one occasion. Prior to 2005, the binge drinking definition was 5+ drinks of alcohol on one occasion for both genders. The 2004 binge drinking data, based upon 5+ drinks of alcohol on one occasion for both genders, has been combined with 2005-2007 data, so we can include 2004 data, even though the drinks on one occasion changed for women in

2005.
