GILLIAM/WASCO/SHERMAN	57.9	46.0	69.0

* This number is suppressed because it is statistically unreliable.

~ Statistically Significant: significantly higher or lower than the statewide rate.

[1] Confidence intervals provide a measure of how much an estimate might vary due to chance. We present 95% confidence intervals, which means that if we conducted this survey over and over, 95% of the confidence intervals calculated would contain the true population value. Wider intervals suggest the estimate is more unreliable and should be interpreted with caution, however it is the best estimate available.

Source: Oregon Behavioral Risk Factors Surveillance System 2014-2017 county combined
NOTE: Age adjustment is based on three age groups: 18-34; 35-54; and 55+, per U.S. Standard Million Population.
