

**TABLE 10. Term early neonatal deaths<sup>1</sup> by planned attendant and planned place of birth, Oregon occurrences, preliminary 2022 birth cohort**

Planned birth attendant	Total term early neonatal deaths <sup>2</sup>	Planned hospital birth <sup>3</sup>	Planned out-of-hospital birth		
			Total	Intrapartum transfer to hospital <sup>4</sup>	Non-hospital delivery <sup>5</sup>
Total	26	20	5	1	4
MD's and DO's	17	17	–	–	–
Certified nurse midwives	2	2	–	–	–
Licensed direct-entry midwives	3	–	3	–	3
Unlicensed direct-entry midwives	2	–	2	1	1
Naturopathic physicians	–	–	–	–	–
Other	2	1	–	–	–

– Quantity is zero.

<sup>1</sup> Term early neonatal deaths include infant deaths of less than seven days and with gestation of 37 weeks or more.

<sup>2</sup> Totals include one term early neonatal birth resulting in death that occurred en route, was an unplanned home delivery, or was another out-of-hospital birth not otherwise classified.

<sup>3</sup> For planned hospital births, actual attendant type is used.

<sup>4</sup> For planned out-of-hospital births with intrapartum transfer to hospitals, planned attendant type is reported by the parent and not verified.

<sup>5</sup> For planned out-of-hospital births with non-hospital deliveries, the actual attendant type is used.

NOTE: The 2022 birth cohort may include infant deaths that occurred in 2022 or 2023. Data for 2023 are undergoing editing processes and are subject to change.
