Pathogen: Salmonella _____ E. coli 0157 _____ E. coli _____

IMPORTANT TIPS FOR THE INTERVIEWER:

- 1) SUBQUESTIONS: When asking a question with "subquestions" below, you are not required to list all of the options for the case unless the question explicitly prompts you to do so (e.g., "if yes" or "read all"). You should always offer a few examples if the case is unsure of what you are asking.
- 2) MARKING RESPONSES: Try to capture as many exposures as possible by checking an available box on the questionnaire. If the case gives a response that is not listed as a subquestion, use the space available to the right of the question to write in the response. This information could still be important for the investigation.
- 3) ELIGIBILITY: If a case answers "YES" to any of the eligibility questions below, STOP, drop (your pencil) and reconsider--it may not be worth interviewing this case!

Symptom Onset

INSTRUCTIONS

- 1) Get precise answers for onset date and time - they are crucial for calculating incubation times. Don't let them get away with vague stuff like "morning" or "some time after midnight." Prompt as needed, and keep probing until you get an exact time (midnight is defined as the *end* of the day).
- 2) Ask about exposures **1 to 7 days** before onset of first vomiting or diarrhea (you can use the day-of-the-week guide below to assist you)
For example, if the case first had diarrhea at 2pm on 10/31, ask about exposures between 10/24 and 2pm on 10/30.

Onset of first symptoms _____ Time of first onset _____ am noon _____ pm midnight
Onset of first vomiting or diarrhea _____ Time of first V or D _____ am noon _____ pm midnight

Ask about exposures between these dates: M T W T F S S _____ through M T W T F S S _____

Records

Sometimes we need to collect specific information about brands and purchase dates, to help us identify food items suspected of causing illness. Should that become necessary, I'd like to ask what kinds of records you might have. By the way, you should hang onto any receipts or other records you might have for this time period—just in case.
