

<b>CAREAssist will now cover the full cost of prescription drugs filled at any In-Network pharmacy for:</b>	
Insured Clients	When insurance denies payment.
Uninsured Clients	Until the client has active insurance with prescription benefits.

### **Better Prescription Drug Benefits Now Available**

CAREAssist has opened its formulary. A formulary is a list of drugs that are covered by an insurance provider or program. The open formulary will:

- Pay full cost for drugs filled at an In-Network pharmacy. If you are using a non-network pharmacy and your insurance denies coverage for a medication, you must transfer the prescription to one of the In-Network Pharmacies listed on the back of this letter. This includes Kaiser members.
- Pay for any prescription drug that isn't on the CAREAssist Drug Exclusion List. Examples of excluded drugs are over-the-counter medications, herbal supplements and drugs used for cosmetic purposes. For the full Drug Exclusion List visit: [www.healthoregon.org/careassist](http://www.healthoregon.org/careassist).

The open formulary will not:

- Bypass certain insurance requirements, such as prior authorizations and step therapy. However, if insurance requirements are met and coverage is still denied, CAREAssist can pay in full at an In-Network Pharmacy.

**For medications covered by your insurance, there is no change.** For more information call CAREAssist at 971-673-0144 or visit [www.healthoregon.org/careassist](http://www.healthoregon.org/careassist).
