INTRODUCTION

The 2007 Oregon Licensed Facilities Report provides statewide licensing and inspection information for all food service establishments, public pools, public spas and tourist accommodations. Each local public health authority provides their data annually to the Department of Human Services' (DHS) Food, Pool & Lodging Health and Safety Section for this report. Data not submitted is reflected with an asterisk (*). Data that does not apply or is zero, is reflected with a dash (-).

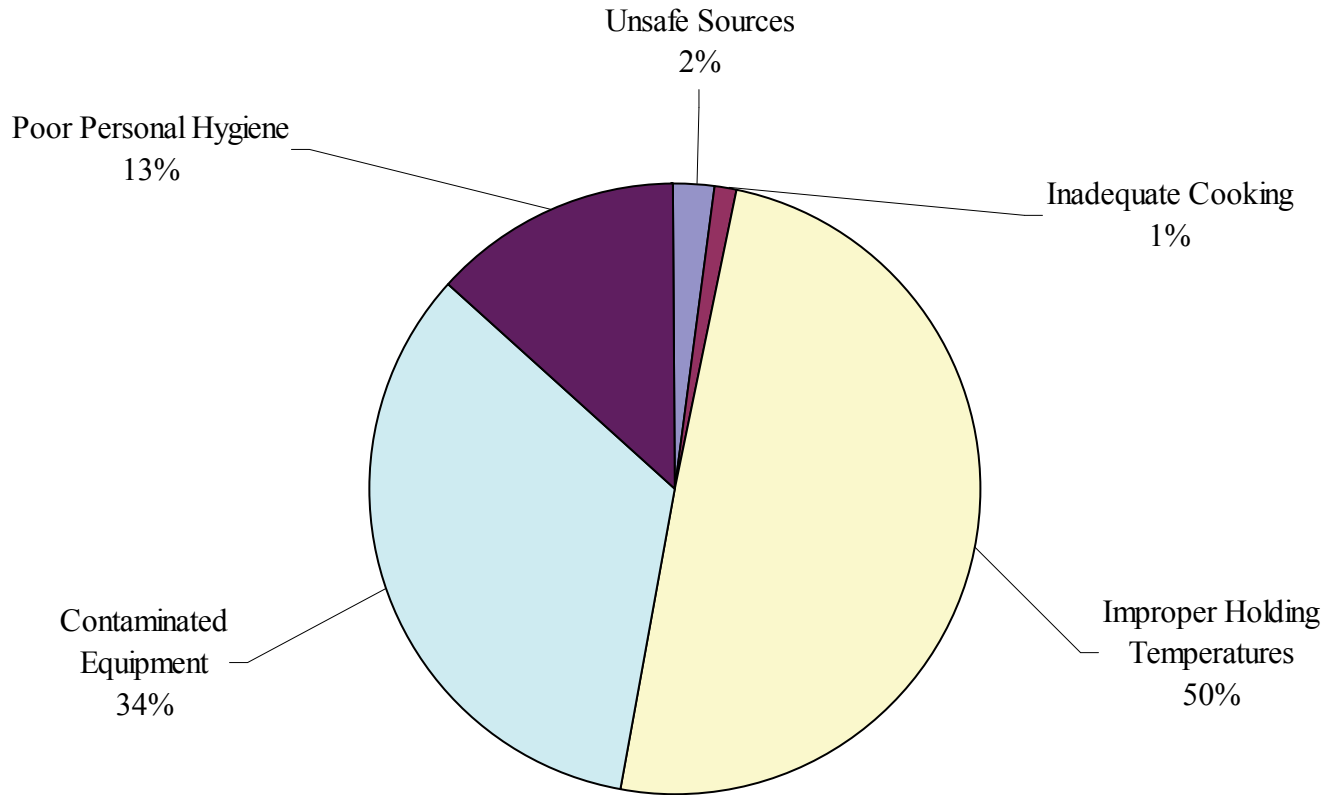

Data regarding standardized county staff and CPO-equivalent certifications is from the DHS database only. Some counties may have taken their pool operator courses from a private contractor.

The raw data in the previous format are included in the annex of this report. It is also available online at: www.healthoregon.org/foodsafety. All graphs included in this report are informational and not designed to draw specific conclusions about the data represented.

If you need this document in an alternate format, call 971-673-0451.

ANNEX A

Foodborne Illness Prevention Program Triennial Review Results 2007

This year, we reviewed 11 counties (Coos, Curry, Deschutes, Hood River, Josephine, Lane, Malheur, Tillamook, Washington, Wheeler and Yamhill,) and accompanied 21 inspectors during their routine food service inspections. If county staff are state-standardized, they are not required to complete the field part of the review, since the standardization process is so rigorous.

Program Review Summary:

Category	In Compliance
Licensing and Fees	98%
Inspection Standards	84%
Staffing and Training	96%
Food Handler Training	100%
Record Keeping and Reporting	100%
Epidemiology and Accident Investigation and Reporting	100%
Enforcement Procedures	100%
Minimum Standards, Program Review and Penalties	97%

Areas that still need improvement statewide are:

Inspection Standards:

- Inspection rates for **all** licensed facilities should be 100%
- Problem and correction statements for violations noted on restaurant inspection reports must be clear and distinct
- OAR references for violations must be included on all hand-written inspection reports
- If a critical violation has been corrected, it must be clearly stated on the inspection report or a recheck inspection must be conducted
- Light meter must be provided for each office

Minimum Standards:

- All field staff must comply with minimum requirements of the Field Review protocol

Field Review Summary:
