OHA Healthy Homes Grant Program

Mission: HHGP's mission to improve housing conditions and health outcomes for those impacted by environmental justice factors, including People of color, low-income, and American Indian and Alaska Native communities.

Vision: HHGP seeks to become a central resource for healthy homes repair across the state to help eliminate health disparities of low-income Oregonians.

Values: HHGP is committed to centering equity, racial justice, diversity, and cultural responsiveness in its delivery, while acknowledging that there are institutional, systemic, and structural barriers that perpetuate inequity and have silenced the voices of communities over time.

Intended Impacts: HHGP aims to improve health outcomes for residents who live in repaired and rehabilitated housing; preserve affordability and availability of existing housing stock by addressing deferred property maintenance issues; and help low-income homeowners avoid displacement in the face of short-term crises through access to home repair funds.
