

Types of Food Packages

Every participant is assigned a food package made up of a combination of milk, foods, and formula that is appropriate for their age, category, and designation.

Standard Food Packages

Standard food packages are the food packages automatically assigned by TWIST for each participant. They contain the maximum amount of foods allowed by federal regulations.

Non-Standard Food Packages

Non-standard food packages are food packages that are slightly changed by the CPA. For example, the CPA might select a template with no eggs or reduce the quantity of milk in a package.

Modified Food Packages

If the CPA cannot find a non-standard template to meet the participant's needs, a "modified" food package can be created by using the "Modify" pop-up on the *Food Package Assignment* screen.

Partial Food Packages

Partial food packages are issued starting on the 20th of the month. They have reduced quantities of food to reflect the partial month of issuance.

Modules on the “Food Package Assignment” Screen

The foods in each food package are grouped together in smaller units called modules. Each module contains a different group of foods.

	FP Start Date	WIC Category	Module A	Qty A	Unit A	Module B	Module C	Qty C	Unit C	Med Doc	Partial	Status
	11/01/2016	C2-5	ML-C-Y	3.00	gal	C

▶	08/01/2016	C2-5	ML-C-Y	3.00	gal	C						

Module A → milk or infant formula module

Module B → food module

Module C → medical formula for women and children module

Foods in each module are selected by using the drop down arrow to select a template. **Templates** are combinations of commonly assigned foods that can be selected from the drop down in each module. Only templates appropriate for the participant are available to choose. During certification, TWIST defaults to the standard templates or to templates previously used by the participant.

A **food package** refers to all of the participant’s foods and formula together. Most participants will receive foods from two different modules. Women and children with special dietary needs may receive foods from all three.
