

Spring Oregon Certified School Dental Sealant Programs Updates May 4, 2023

End of School Year Data Reporting
Infection Prevention and Control
Retention Process Recommendations

Housekeeping

- This webinar will be recorded and posted on our certification website www.healthoregon.org/sealantcert
- Please mute the audio on your connected device.
- Please ask questions through the chat box. We will review your questions throughout the webinar.

End of Year Survey Key Points

- Each program will receive an individualized link to the end-of-year reporting survey.
- Survey due no later than July 15th 2023
- Each survey will have 3 sections:
 - Retention rates
 - Number of schools served
 - Reason data not submitted/school not served
 - Schools include all those requested by the program for which OHA has not received a readable data submission
 - Will be broken down by county

IPC Updates

- Masks (respiratory protection) are required for direct services
 - Sealants and screenings
 - Must be changed between patients receiving sealants
 - Source control (not required) may leave the mask on the entire day unless it becomes contaminated
- Eye Protection snug fitting face shield or goggles
- Gowns- must be changed after sealants

IPC Updates

- AGPs and
 - Carpeted areas- use tarps or plastic
 - Must use modified or appropriate compressor or air purifier for the area
 - 4-handed technique

Certification Program Updates

- Summer clinical training will be individual or grouped pre-recorded modules
- Updated Rules (~ Fall 2023)
- Continued discussion on retention
