## **Summary of Revenue Changes**

HB 2927 appropriates \$4,437,891 General Fund to the Oregon Military Department (OMD) for preparing to establish the current Office of Emergency Management as a separate state agency. The bill also provides \$5,000,000 Other Funds expenditure limitation to the Oregon Military Department for state active duty costs. A special purpose appropriation is established in the Emergency Fund in the amount of \$1,807,561 General Fund, to be allocated to the Department of State Police to prepare the Office of the State Fire Marshal to operate as a separate state agency. Lastly, \$237,161 General Fund is appropriated to the Office of the Governor to support the work of the Oregon Homeland Security Council.

## **Summary of Public Safety Subcommittee Action**

HB 2927 renames the Office of Emergency Management to the Oregon Department of Emergency Management (ODEM) and establishes ODEM as an independent state agency, effective July 1, 2022. The measure also establishes the Local Government Emergency Management Advisory Council to provide advice and recommendations to ODEM regarding ODEM's emergency preparedness and response functions. Additionally, the Oregon Homeland Security Council is transferred from the Office of Emergency Management to the Office of the Governor.

For Oregon Military Department (OMD) to implement the provisions of HB 2927, the Subcommittee recommended a General Fund appropriation of \$4,437,891 and the establishment of 13 permanent, full-time positions (13.00 FTE) in OMD. Included in this budget recommendation is the reduction of \$303,107 Other Funds expenditure limitation from Personal Services and an increase of \$303,107 Other Funds expenditure limitation in Services and Supplies.

In addition to General Fund expenses, the Subcommittee recommended an increase of \$5,000,000 Other Funds expenditure limitation in OMD's Community Support Division for use in the event of State Active Duty mobilizations. The Department currently uses Other Funds expenditure limitation available in the Office of Emergency Management for State Active Duty expenses. The measure stipulates the unexpended balances of amounts authorized to be expended by the OMD for the purposes of the Office of Emergency Management for the 2021-23 biennium are to be transferred to the ODEM beginning July 1, 2022.

House Bill 2927 also renames the Office of the State Fire Marshal to the Oregon Department of the State Fire Marshal (DSFM) and establishes the Task Force on Implementation. The bill establishes DSFM as an independent state agency effective July 1, 2023. The Task Force on Implementation is charged with making recommendations as to whether the Office of the State Fire Marshal should be made an independent state agency, and if not, in which existing state agency the office of the State Fire Marshal should be housed. The Task Force must report its findings and recommendations to an interim committee of the Legislative Assembly by February 1, 2022. The Office of the State Fire Marshal is required to provide staff support for the Task Force, which sunsets on January 2, 2023.

The measure stipulates the unexpended balances of amounts authorized to be expended by the Oregon State Police for the purposes of the State Fire Marshal for the 2023-25 biennium, are to be transferred to OSFM at the beginning of the 2023-25 biennium.

The Subcommittee recommended an appropriation of \$1,807,561 General Fund to the Emergency Board to establish a special purpose appropriation (SPA) for the Department of State Police to prepare the Office of the State Fire Marshal as a separate state agency. If the Task Force on Implementation determines that a new agency is to be established, the SPA includes funding to support the hiring of 19 positions (5.05 FTE) to assist with that transition.

HB 2927 transfers the Oregon Homeland Security Council from OEM to the Office of the Governor, adds members to and modifies the duties of the Council, and directs the Emergency Preparedness Advisory Council to advise and make policy recommendations to the Oregon Homeland Security Council regarding federal emergency support functions.

The Subcommittee recommended a General Fund appropriation of \$237,161 to the Office of the Governor and establishes one permanent full-time position (1.00 FTE) to support the Homeland Security Council and the Emergency Preparedness Advisory Council.

## Summary of Revenue Changes

The General Fund appropriations made in HB 5202 are within resources available as projected in the March 2022 economic and revenue forecast by the Department of Administrative Services Office of Economic Analysis. General Fund resources forecasted for the 2021-23 biennium have increased \$2.6 billion over the level assumed in the 2021-23 legislatively adopted budget, including \$420.1 million from unexpended 2019-21 appropriations reverted to the General Fund.

## Summary of Capital Construction Subcommittee Action

HB 5202 is the omnibus budget reconciliation bill for the 2022 legislative session and implements core components of a statewide budget plan that addresses changes in projected revenues and expenditures since the close of the 2021 session. The Subcommittee approved HB 5202 with amendments to reflect budget adjustments described in the subsequent narrative.

## Statewide Adjustments

### **EMPLOYEE COMPENSATION DISTRIBUTION**

The Subcommittee approved \$199.8 million General Fund in state agencies' budgets for employee compensation increases and pension obligation bond cost adjustments. The General Fund appropriation is expected to cover 100% of statewide cost estimates for compensation and benefit changes agreed to through collective bargaining or other salary agreements; it is almost fully supported by the release of a \$198 million special purpose appropriation to the Emergency Board set aside by the 2021 Legislature for this use. In addition to General Fund monies, the compensation adjustments include \$4.4 million Lottery Funds, \$144.8 million Other Funds, and \$69.6 million Federal Funds.

Section 467 of HB 5202 reflects the changes, as described above, for each agency. These adjustments are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

### **OTHER STATEWIDE ADJUSTMENTS**

Other statewide actions also include budget adjustments in multiple agencies to apply Other Funds balances generated through excess bond proceeds and interest earnings to debt service. Total net debt service savings are \$2.7 million General Fund and \$4.6 million Lottery Funds. New Other Funds expenditure limitations for the Department of Justice (\$52,430) and the Oregon Judicial Department (\$274,570) are established to accommodate the use of fund balances for debt service payments, while existing Other Funds expenditure limitations for a number of other agencies are collectively increased by \$7.7 million.

Sections 71, 78, and 466 of HB 5202 reflect the changes, as described above, for each agency. These adjustments are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

The Subcommittee approved technical adjustments totaling \$6.7 million General Fund for Judicial Branch agencies and \$24.4 million General Fund for Legislative Branch agencies to recognize unexpended General Fund by those agencies from the 2019-21 biennium. Both the Judicial Branch and the Legislative Branch are allowed by statute to retain unexpended General Fund appropriations from the previous biennium.

## Emergency Board

### Emergency Board

As part of the 2021-23 biennium statewide rebalance plan, HB 5202 adjusts the Emergency Board's special purpose appropriations as outlined below; the general purpose emergency fund of \$50 million General Fund is not modified.

- Eliminates the special purpose appropriation for state employee compensation changes of \$198 million and made General Fund appropriations to various state agencies of \$199.8 million for employee compensation changes and related adjustments.
- Eliminates the \$20 million special purpose appropriation for compensation changes driven by collective bargaining costs of workers who are not state employees added it to the Department of Human Services' budget for bargained compensation increases.
- Reduces the \$10 million General Fund special purpose appropriation for family treatment court programs by \$2,065,430; the funding was appropriated to the Oregon Judicial Department, Public Defense Services Commission, and the Department of Human Services.
- Eliminates the \$2.5 million special purpose appropriation for implementation of pretrial release modifications authorized under SB 48 (2021) and appropriated the funding to the Oregon Judicial Department for that purpose.
- Reduces the \$14 million special purpose appropriation made for fire severity resources by \$6,146,267, which corresponds to a General Fund increase for the Department of Forestry in the same amount, to enable the agency to pay severity resource expenses incurred for the 2021 forest fire season. The special purpose appropriation balance of \$7,853,733 remains available for future needs this biennium.
- Eliminates the \$1 million special purpose appropriation for purposes of the Oregon Conservation and Recreation Fund, which helps support a \$5 million General Fund deposit into the Fund.
- Eliminates the \$1,807,561 special purpose appropriation created for preparing the Office of the State Fire Marshal to become a separate state agency on July 1, 2023; the funding was provided to the Office and will support 19 positions (5.50 FTE) in the new agency.
- Eliminates the \$15,859,656 special purpose appropriation for addressing child welfare-related position needs in the Department of Human Services and appropriated the corresponding amount of General Fund to the Department for this purpose.
- Eliminates the \$49 million special purpose appropriation for behavioral health system transformation to support system investments and planned rate increases.
- Reduces the \$20 million special purpose appropriation made for addressing staffing issues at the Oregon State Hospital; \$10.8 million was provided to the Oregon Health Authority to add staff capacity, with the balance of \$9.2 million available for future allocation.

- Reduces, by \$3,228,818, the \$5.1 million special purpose appropriation made for the creation of the Department of Early Learning and Care. This amount was appropriated to the Department of Education to fund 34 positions (12.38 FTE) and other start-up costs associated with the new agency; the balance of \$1,901,447 remains available for allocation later in the biennium.
- Reduces the special purpose appropriation for the natural disaster prevention, preparedness, response, and recovery activities by \$25 million to help pay for drought resiliency and preparedness efforts. This leaves the balance at \$26.3 million for future allocation.
- Increases, by \$45 million, the special purpose appropriation for allocation to the Oregon Health Authority or the Department of Human Services for caseload costs or other budget issues that the agencies are unable to mitigate; the new amount totals \$100 million.
- Establishes a special purpose appropriation in the amount of \$5,125,000 for allocation to the Department of Justice, Division of Child Support, for the Child Support Enforcement Automated System.
- Establishes a special purpose appropriation in the amount of \$19 million to be allocated to the Higher Education Coordinating Commission for an Oregon Tribal Student Grant program.
- Establishes a \$10 million special purpose appropriation to be allocated for establishing a grant program, loan program or lending program for the purpose of providing financial assistance to employers to mitigate the costs associated with compliance with the overtime compensation requirements under section 2 of House Bill 4002 (2022).
- Establishes a special purpose appropriation of \$50 million for allocation to the Department of Forestry for cash flow needs. The funding is for anticipated operational needs of the agency that may be compromised due to the financing of emergency firefighting costs while awaiting reimbursement of those costs from other sources.
- Establishes a \$42.5 million special purpose appropriation for increasing behavioral health provider rates by an average of 30%. The subcommittee approved the following instruction:

**BUDGET NOTE:** The \$42.5 million special purpose appropriation is intended to increase provider payment rates an average of 30% for behavioral health services under the medical assistance program for the purpose of improving access, maintaining provider networks, increasing wages, and retaining workers. Except to the extent delayed while waiting for approval from the Centers for Medicare and Medicaid Services, OHA shall increase fee-for-service payment rate increases effective no later than July 1, 2022, and all other payment rate increases no later than January 1, 2023. OHA shall propose strategies to measure the extent to which coordinated care organizations (CCOs) pass the rate increases through to behavioral health providers and strategies by which CCOs and OHA will measure the impact of the rate increase on behavioral health provider stability and capacity. OHA shall report these proposed strategies, in addition to an update on rate implementation, at the next meeting of the Emergency Board.

In most cases, if remaining special purpose appropriations are not allocated by the Emergency Board before December 1, 2022, any remaining balances become available for the Emergency Board for general purposes or will be available to the 2023 Legislature for any purpose.

## Adjustments to 2021-23 Agency Budgets

### ADMINISTRATION

#### Department of Administrative Services - American Rescue Plan Act (ARPA)

As part of HB Bill 5006 (2021), \$240 million in federal American Rescue Plan Act funds were approved for the Department of Administrative Services (DAS) to distribute in each Senate and House district in the amounts of \$4 million per Senate district and \$2 million per House district, for member-identified projects. After session, a subset of the projects required adjustments to project or descriptions. The Subcommittee approved the following revisions to the 2021 session member ARPA projects:

District	Member	OLD Recipient	Amount	New Recipient
S-20	Kennemer	Oregon City and Canby Area Chambers of Commerce and Business Recovery Centers	700,000	Oregon City Chamber of Commerce
S-25	Gorsek	Multnomah County	2,220,000	Seeding Justice
S-30	Findley	The Jefferson County Faith Based Network	750,000	City of Madras
H-22	Alonso Leon	Alianza Poder	500,000	Capaces Leadership Institute
H-24	Noble	CARES NW and the Family Justice Center	400,000	Family Justice Center
H-37	Prusak	West Linn Small Business Recovery Center	500,000	Lake Oswego Chamber of Commerce
H-46	Pham	City Repair Project	75,000	ROSE Community Development Corporation
H-50	Ruiz	Participatory Budgeting Oregon	200,000	Seeding Justice
H-60	Owens	Baker County	500,000	City of Unity

District	Member	OLD Project Description	Amount	NEW Project Description
S-26	Thomsen	Commercial Hangar at Ken Jernstedt Airfield/Anchor Way Multi-modal Street and Transit Improvement Project	500,000	E. Anchor Way/N. 1st St. Industrial Streets and Transit Center
H-1	Smith, DB	Lincoln School of Early Learning	100,000	Winter Lakes High School Teen Pregnant/Parent Center Modular Building
H-24	Grayber	Small Business Grant Program	750,000	McMinnville Business Recovery and Resiliency Program

In addition to these revisions, the Subcommittee also approved Other Funds expenditure limitation, on a one-time basis, for the following state agencies for Senate and House district member ARPA projects approved in HB 5006 (2021) for state agency programs:

- \$1,000,000 - Oregon Department of Fish and Wildlife - Oregon Conservation and Recreation Fund, Outdoor Recreation Stimulus (H-34)
- \$750,000 - Oregon Department of Human Services - Nonviolent Crisis Intervention Training for Children’s Residential Facilities’ Staff (S-8)
- \$250,000 - Oregon Parks and Recreation Department - Hillsdale to Lake Oswego trail (S-19)
- \$1,250,000 - Department of Justice - Domestic Violence and Sexual Assault (DVSA) Housing Navigator (S-21)
- \$1,000,000 - Oregon State Marine Board - Abandoned and Derelict Boats (S-21)
- \$1,000,000 - Oregon Judicial Department - Modernize OJD electronic access to records (S-22)

The 2022 session budget plan fully allocates the remaining ARPA State Fiscal Recovery Fund and Capital Project Fund balances of \$338.1 million and \$36.8 million, respectively, for the purpose of expenditures and activities to respond to the COVID-19 public health emergency and its economic impact. Specific expenditures covered by ARPA are described under relevant state agency report sections.

**Department of Administrative Services**

The Subcommittee approved two Department of Administrative Services (DAS) requests recommended during the January meeting of the Interim Joint Committee on Ways and Means. The first increased Other Funds expenditure limitation by \$1,669,855 and authorized the establishment of two permanent full-time positions (1.16 FTE) for the Chief Human Resources Office to support the newly independent Oregon Department of Emergency Management (ODEM) and to address increased statewide training costs. The second increased Other Funds expenditure limitation by \$2,127,233 and authorized the establishment of 7 permanent full-time positions (5.46 FTE) and 4 limited duration full-time positions (2.33 FTE), for the Enterprise Goods and Services Division to address the following staffing needs:

- Out-of-State Workforce - \$1,344,816 Other Funds, two limited duration payroll positions (1.00 FTE) and six permanent positions (4.58 FTE), to manage work related to payroll for out of state workers, including registering and filing payroll tax exemptions with each state;

and for the DAS Risk Management to identify and address out-of-state exposures, including managing statewide policies, developing multi-state OSHA compliance, reviewing and updating insurance policies, and managing out-of-state workers compensation claims.

- OregonBuys Project - \$210,724 Other Funds, one limited duration Project Director (PEM F) position (0.75 FTE), to support Phase 2 of the DAS e-procurement modernization project.
- Reestablish the Division Administrator Position - \$421,114 Other Funds, one PEM H position (0.88 FTE), to restore an administrator position to lead the Enterprise Goods and Services Division.
- Temporary Support for New Agencies - \$150,579 Other Funds, one limited duration Procurement and Contract Specialist 3 position (0.58 FTE), to provide procurement services for newly independent state agencies (Emergency Management and State Fire Marshal).

To help provide legislators information on compliance within the Oregon Forward program, which is a state-run purchasing program promoting meaningful job opportunities for adults living with disabilities, the Subcommittee approved the following budget note:

**BUDGET NOTE:** The Oregon Forward program of the Department of Administrative Services will study the compliance of state agencies and local governments of OAR 125-055-0005 through OAR 125-055-0040. The Department shall provide a report to the Legislative Fiscal Office and to the legislative interim committees on Business with recommendations for improved compliance no later than September 30, 2022.

Two technical adjustments were approved to accurately reflect expenditure limitation values for the Office of the State Chief Information Officer and special payments from proceeds of previously issued bonds.

The Subcommittee approved, on a one-time basis, a \$4,000,000 General Fund appropriation and an increase of \$3,400,000 Other Funds expenditure limitation and for Enterprise Asset Management to purchase and operate additional fleet vehicles to accommodate requests from agencies related to staffing increases for the 2021-23 biennium.

A one-time \$3,345,000 General Fund appropriation was approved for the agency's Enterprise Information Services Division to support maintenance and operations of the Enterprise Microsoft 365 system.

The Subcommittee approved \$398,139 Federal Funds expenditure limitation for monies from the American Rescue Plan Act State (ARPA) Fiscal Recovery Funds for the Enterprise Information Services Division to enhance the functionality of the agency's Workday human resource information system to support case management and compliance needs.

In addition, the Subcommittee approved \$26,323,860 Federal Funds expenditure limitation for monies from the American Rescue Plan Act State (ARPA) Fiscal Recovery Funds for the Enterprise Information Services Division to expend on the following enterprise-wide broadband and cybersecurity investments:

- \$7,250,000 to continue the state’s partnership with Link Oregon.
- \$5,393,046 for contracted services to enhance the efficiency of network security operations, support the integrated risk management program, and maintain Security Operations Center infrastructure.
- \$7,230,256 to support the Cyber Security Services (CSS) network security equipment lifecycle replacement plan.
- \$3,085,756 to plan the implementation of Microsoft 365 security tools.
- \$3,364,802 and the establishment of 11 limited duration positions to support planning efforts for the Network and Security Modernization Program.

A one-time General Fund appropriation of \$500,000 was approved for DAS to contract with a third-party organization to assess gender-responsive practices at the Coffee Creek Correctional Facility. The purpose of the assessment is to establish a baseline for a strategic planning process, policy recommendation and improved protection of individuals serving sentences of incarceration at Coffee Creek Correctional Facility. Work on the assessment is anticipated to start by September 1, 2022. DAS and the third-party organization is expected to coordinate with the gender-responsive coordinator in the Governor’s Office and include the coordinator in the assessment process.

The assessment is expected to include a review of: (1) intake; (2) placement; (3) risk assessment; (4) case management; (5) mental, behavioral and physical health services; (6) vocational programs; (7) rehabilitation programs; (8) correctional staff; (9) organizational structure; and (10) reentry and transition programming. The assessment should also include whether there are currently in place adequate protections, policies, procedures, oversight and hiring practices to ensure that individuals serving sentences of incarceration at Coffee Creek Correctional Facility are not subjected to sexual assault or sexual harassment and to determine whether the current responses to sexual assault or sexual harassment are gender-responsive, culturally responsive and trauma-informed.

Several one-time General Fund appropriations were also approved by the Subcommittee for the Department to distribute the following entities for the following purposes:

- \$120,000,000 for distribution to the Portland Public Schools district for the relocation the Harriet Tubman Middle School.
- \$65,000,000 for distribution to the Oregon Worker Relief Fund to provide financial support directly to Oregonians who have lost their jobs but are ineligible for Unemployment Insurance and federal stimulus and safety-net programs due to their immigration status.
- \$100,000 for distribution to the Portland Council Navy League of the United States, USS Oregon (SSN 793) Commissioning Committee to support celebration events related to the commissioning ceremony of the USS Oregon (SSN 793) submarine.
- \$1,000,000 for distribution to Harmony Academy for program capacity, student transportation, and development of a statewide plan for expansion.
- \$10,000,000 for distribution to Metro for trash and sanitation services. Funds are intended to be utilized for trash pick-up, debris clean-up, abandoned vehicle removal, provision of dumpsters and trash bins and related employee/contractor costs associated with voluntary trash collection and mitigation. Funds are not intended to be utilized for activities associated with camp site removal or to backfill city funding.

To support the expansion of access to child care in Oregon, the Subcommittee approved nearly \$100 million General Fund on a one-time basis for a variety of programs that bolster and support the child care sector; \$39.3 million of this amount was appropriated to DAS to distribute to nonprofit agencies as follows:

- \$8.2 million General Fund for NeighborImpact’s *Rebuild Childcare* Plan, which will fund child care program expansions and support new child care programs in central Oregon by funding operating expenses, renovation costs, and training and business development plans for child care providers.
- \$1.2 million General Fund for Euvalcree’s *Rebuild Childcare* Plan, which will fund renovation of the Euvalcree Center in Ontario, Oregon, and will provide training, professional development, and start-up operating costs for an estimated ten new in-home child care providers.
- \$7.9 million General Fund for the United We Heal Training Trust’s *Rebuild Childcare* Plan, which will fund child care provider capital grants of up to \$14,000 for in-home providers and up to \$70,000 for child care centers; equipment grants of up to \$1,000 per provider; an accounting shared services pilot program; training, coaching, and mentorship for new providers; sub-awards for developing new black, indigenous, people of color (BIPOC)-focused child care centers; and administrative and operating costs.
- \$22 million General Fund for Seeding Justice’s Capacity Building Grant Fund. \$19 million is for grants to culturally specific and other child care providers to become licensed, to expand services, or to start new child care centers; \$3 million is for program management costs, including technical assistance for grantees, data collection, evaluation, and reporting.

Please see the Department of Education and the Higher Education Coordinating Commission sections of this report for additional details of this investment to support the expansion of access to child care in Oregon.

Some components of the \$400 million housing package flow through the DAS budget; the Subcommittee approved various one-time General Fund appropriations to DAS to distribute to various entities to support community organizations and activities for the purpose of increasing affordable housing supply, and for supporting shelter and homelessness response efforts in specific communities. These include the following:

- \$15 million for distribution to the Society of St. Vincent de Paul of Lane County to serve as start-up capital for the creation of Community Housing Provider, a not-for-profit entity. Community Housing Provider will produce manufactured housing for low income buyers and rental housing for not-for-profit entities. It’s anticipated the facility could create between 50-60 jobs, significantly reduce wait times for production of housing units, and prioritize delivery for affordable models and for those impacted by wildfires. Funds are expected to enable production of units to begin in 6-12 months.
- \$50 million for distribution to the Oregon Community Foundation (OCF), which will in turn make grants by Dec. 31, 2023, for community supported projects to convert motels and other existing structures to shelters and temporary housing throughout the state, following the model of a 2020-21 grant-making process known as Project Turnkey under which OCF vetted grant applicants and proposed sites. OCF’s administrative costs for administering Project Turnkey will be covered as part of this appropriation. The Oregon Department of Housing and Community Services plans to prioritize Project Turnkey sites within its funding mechanisms for continuing site operations, which will include program monitoring of operational funds.

- \$5 million for distribution to the Hacienda Community Development Corporation to establish a revolving loan fund to serve first-time homebuyers, focusing on homebuyers who are Latino and Black, Indigenous and Persons of Color at 100-120% of area median income; the loan fund will enable Hacienda Community Development Corporation to provide down payment assistance and mortgage insurance to clients that receive housing counseling.
- A combined total of \$25 million to local governments for responses to homelessness. Funds are specifically directed to the following entities: Multnomah County (\$10 million); Washington County (\$750,000); Clackamas County (\$2 million); City of Hillsboro (\$1 million); City of Beaverton (\$750,000); City of Eugene (\$5 million); City of Salem (\$2.5 million); City of Bend (\$1.5 million); and the City of Medford (\$1.5 million). Allowable uses of the funds are:
  - Support for temporary emergency shelters, sanctioned camping, safe parking sites, and navigation centers that are low barrier, that have a maximum capacity of 150 people, that are connected to services, and that are voluntary for all individuals who utilize them. Funding can be used for acquisition renovation and operational costs for facilities that meet these criteria, as well as support for residents.
  - Hygiene services including portable toilets, shower trucks, laundry services, storage, washing stations, hygiene supplies and related services to people experiencing homelessness.
  - Outreach services to connect people to shelter, housing, and services.

Funding may not be used by local governments to backfill existing revenue streams or funds.

- A combined total of \$3 million for trash and sanitation expenses for cities outside the Portland Metro area. Funds are intended to be utilized for trash pick-up, debris clean-up, abandoned vehicle removal, provision of dumpsters and trash bins and related employee/contractor costs associated with voluntary trash collection and mitigation. Funds are not intended to be utilized for activities associated with camp site removal or to backfill city funding. Funds are allocated to the following cities: City of Eugene (\$750,000); City of Salem (\$750,000); City of Bend (\$400,000); City of Medford (\$350,000); City of Springfield (\$250,000); City of Corvallis (\$250,000); City of Albany (\$250,000).

As part of wildfire recovery efforts, the Subcommittee approved various one-time General Fund appropriations to DAS to distribute to the following entities for the following purposes:

- \$85,661 for distribution via the City of Gates to the Gates Rural Fire Protection district to offset the District's revenue losses from the 2020 wildfires.
- \$69,722 for distribution via the City of Stayton to the Stayton Rural Fire Protection District to offset the District's revenue losses from the 2020 wildfires.
- \$2,534,000 for distribution to the City of Phoenix Public Safety Center.
- \$375,000 for distribution to the Eugene Water and Electric Board for the Powder Activated Carbon Water Treatment Improvement Project.

Approval of an additional \$13 million in Article XI-Q Bonds authorized in SB 5701 to address the increasing costs of the North Valley Complex (also known as the Wilsonville building) requires Other Funds expenditure limitation of \$195,000 for cost of issuance for the bonds.

The Subcommittee approved an increase of \$21,307,675 Other Funds expenditure limitation for special payments associated with the disbursement of proceeds from Lottery Bonds approved in SB 5701 to be disbursed to the following grantees:

- \$3,048,464 for distribution to the McKenzie River Discovery Center.
- \$15,210,747 for distribution to the City of Portland Parks and Recreation for the North Portland Aquatic Center.
- \$3,048,464 for distribution to the City of Milton-Freewater for the police and dispatch station.

Various one-time General Fund appropriations to DAS were approved for distribution to the following entities for the following purposes:

- 1) \$5,000,000 for distribution to the Grande Ronde Hospital Foundation for the expansion of the Surgical Center and facilities.
- 2) \$1,300,000 for distribution to the City of Ashland for the Briscoe School Rehabilitation.
- 3) \$2,407,500 for distribution to Marion-Polk Food Share for the AWARE Food Bank.
- 4) \$1,000,000 for distribution to the Farmworker Housing Development Corporation for the Cipriano Ferrell Education Center Renovation.
- 5) \$2,000,000 for distribution to Heart of Oregon Corps Centralized Campus.
- 6) \$6,000,000 for distribution to Eugene Civic Alliance Civic Park.
- 7) \$7,500,000 for distribution to Lane County Fairgrounds Multi-Use Facility.
- 8) \$9,500,000 for distribution to the Central Oregon Intergovernmental Council for the CORE3 (Central OR Ready, Responsive, Resilient) program.
- 9) \$2,000,000 for distribution to the Columbia Gorge Children's Advocacy Center (DBA SafeSpace) for the Child Abuse Assessment Center.
- 10) \$4,000,000 for distribution to the City of Corvallis for Martin Luther King, Jr. (MLK) Park enhancements.
- 11) \$430,000 for distribution to the Prairie City School District #4 for the Bates Building renovation.
- 12) \$113,870 for distribution to the Prairie City Senior Citizens for building renovation.
- 13) \$1,340,213 for distribution to the Kids Club of Harney County to support phase 2 of the Geno's Youth Center.
- 14) \$5,000,000 for distribution to the Oregon Food Bank for the statewide warehouse.
- 15) \$1,926,000 for distribution to the City of Wilsonville for the Transit Center.
- 16) \$36,129 for distribution to the Grant County Senior Citizens Association for the Senior Center flooring and air purification system.
- 17) \$2,000,000 for distribution to the City of Independence to support the 9th Street Lift Station upgrade.
- 18) \$5,450,002 for distribution to the Benton County Crisis Center.
- 19) \$3,300,000 for distribution to the Peace Village to support SquareOne Villages.
- 20) \$165,000 for distribution to the MountianStar Family Relief Nursery to support the La Pine Satellite Location.
- 21) \$5,000,000 for distribution to the Lane County for Emergency Response Functionality.
- 22) \$3,000,000 for distribution to the Health Care Hub of South Deschutes County for the La Pine Community Health Center
- 23) \$2,950,000 for distribution to the Cultivate Initiatives for the Resource Hub and Navigation Center.
- 24) \$1,900,000 for distribution to the City of Salem to support Navigation Center.

- 25) \$1,125,000 for distribution to the Canby Center to support Thriving Together capital improvements.
- 26) \$525,000 for distribution to the City of Monmouth to support the skate Park replacement and recreation Park improvements.
- 27) \$405,000 for distribution to the Wheeler County to support the Glover Hall renovation.
- 28) \$4,590,000 for distribution to the Community Counseling Solutions to support the Northeast Oregon Regional Acute Care Center.
- 29) \$750,000 for distribution to the Newberg School District to support the Old Renne Park improvement.
- 30) \$1,360,000 for distribution to the Harney County Cultural Center for County Fairgrounds.
- 31) \$2,250,000 City of John Day to fund the Grant Union High School roof and the Humbolt Elementary HVAC projects.
- 32) \$350,000 for distribution to the Oasis Village to support transitional housing in Redmond.
- 33) \$3,800,000 for distribution to the City of Aurora for the Aurora Fire District Fire Station.
- 34) \$1,500,000 for distribution to the Salem Housing Authority to support Yaquina Hall.
- 35) \$500,000 for distribution to the Wallowa History Center to support the restoration of the Bear-Sleds Ranger District Compound.

As part of the rural infrastructure package, the Subcommittee approved \$2 million Federal Funds expenditure limitation to distribute American Rescue Plan Act (ARPA) Coronavirus State Fiscal Recovery Fund dollars to the Special Districts Association of Oregon Grant Program.

Other rural infrastructure package components budgeted in DAS include various one-time General Fund appropriations for distribution to the following entities for the following purposes:

- 1) \$1,000,000 for distribution to the Ella Curran Food Bank for food bank expansion.
- 2) \$80,000 for distribution to the Benevolent and Protective Order of Elks Independence, Lodge No. 1950 for veterans' outreach.
- 3) \$310,000 for distribution to the Devils Lake Water Improvement District for invasive aquatic vegetation management.
- 4) \$1,000,000 for distribution to the Lincoln City Parks and Recreation for the Regional Sport and Recreation Complex.
- 5) \$576,000 for distribution to the Port of Bandon for High Dock Administrative Offices.
- 6) \$1,140,000 for distribution to the Port of Newport for seawall repair.
- 7) \$70,000 for distribution to the Synapse Fitness Foundation for Executive Director position costs and training for one year.
- 8) \$2,600,000 for distribution to the City of Lebanon for the Park Accessibility Project.
- 9) \$75,000 for distribution to the Colton Rural Fire District for replacement of a water tender chassis.
- 10) \$900,000 for distribution to the City of Aumsville for the new Public Works Facility.
- 11) \$3,000,000 for distribution to the Strategic Economic Development Corporation of the Mid-Willamette Valley for Newberg Workforce Housing.
- 12) \$5,000,000 for distribution to the City of Roseburg for the Southern Oregon Medical Workforce Center.
- 13) \$3,000,000 for distribution to the City of Medford for the Rogue Credit Union Community Complex.
- 14) \$2,000,000 for distribution to the Crook County Fair for fairgrounds infrastructure.
- 15) \$2,000,000 for distribution to the Malheur County Fair for fairgrounds infrastructure.
- 16) \$2,000,000 for distribution to the Harney County Fair for fairgrounds infrastructure.
- 17) \$2,000,000 for distribution to the Grant County Fair for fairgrounds infrastructure.

- 18) \$2,000,000 for distribution to the Baker County Fair for fairgrounds infrastructure.
- 19) \$2,000,000 for distribution to the Lake County Fair for fairgrounds infrastructure.
- 20) \$900,000 for distribution to the South Wasco County School District #1 for the renovation of the South Wasco County High School track facilities.
- 21) \$1,500,000 for distribution to the Mid-Columbia Community Action Council for the Navigation Center.
- 22) \$1,000,000 for distribution to the Union County Fair for fairgrounds infrastructure.
- 23) \$1,000,000 for distribution to the Umatilla County Fair for fairgrounds infrastructure.
- 24) \$1,000,000 for distribution to the Wheeler County Fair for fairgrounds infrastructure.
- 25) \$1,000,000 for distribution to the Wallowa County Fair for fairgrounds infrastructure.
- 26) \$1,000,000 for distribution to the Morrow County Fair for fairgrounds infrastructure.
- 27) \$1,000,000 for distribution to the Sherman County Fair for fairgrounds infrastructure.
- 28) \$1,000,000 for distribution to the Wasco County Fair for fairgrounds infrastructure.
- 29) \$1,000,000 for distribution to the Gilliam County Fair for fairgrounds infrastructure.
- 30) \$1,500,000 for distribution to the Hermiston School District for the Columbia Basin Apprenticeship Training Center.
- 31) \$500,000 for distribution to the Ukiah School District for teacher housing.
- 32) \$250,000 for distribution to Umatilla County for the Umatilla County Road Digitized Pilot Project.
- 33) \$500,000 for distribution to the City of Heppner for the Community Development Fund.
- 34) \$166,666 for distribution to the City of Antelope for the Community Development Fund.
- 35) \$166,666 for distribution to the City of Spray for the Community Development Fund.
- 36) \$166,666 for distribution to the City of Mitchell for the Community Development Fund.
- 37) \$166,666 for distribution to the City of Fossil for the Community Development Fund.
- 38) \$166,666 for distribution to the City of Grass Valley for the Community Development Fund.
- 39) \$166,666 for distribution to the City of Rufus for the Community Development Fund.
- 40) \$166,666 for distribution to the City of Maupin for the Community Development Fund.
- 41) \$166,666 for distribution to the City of Moro for the Community Development Fund.
- 42) \$166,666 for distribution to the City of Wasco for the Community Development Fund.
- 43) \$166,666 for distribution to the City of Tygh Valley for the Community Development Fund.
- 44) \$166,666 for distribution to the City of Condon for the Community Development Fund.
- 45) \$166,666 for distribution to the City of Arlington for the Community Development Fund.
- 46) \$150,000 for distribution to Lane County for the East Gateway construction
- 47) \$250,000 for distribution to Lane County for Phase 1 construction of the South Lane Health Clinic.
- 48) \$1,500,000 for distribution to the City of Oakridge for renovation of the Willamette Activity Center.
- 49) \$250,000 for distribution to the City of Florence to for the Emergency Fuel Station project.
- 50) \$3,600,000 for distribution to Lane County for the Goodpasture Covered Bridge Rehabilitation project.

The Subcommittee approved \$309,332,010 Federal Funds expenditure limitation for monies from the American Rescue Plan Act (ARPA) State Fiscal Recovery Funds for expenditures and activities to respond to the COVID-19 public health emergency and its economic impact, including replacing state revenues lost as a result of the COVID-19 public health emergency. An additional \$36,795,418 Federal Funds expenditure limitation related to American Rescue Plan Act (ARPA) Capital Projects Funds was added to transfer the monies to the Oregon Business Development Department for deposit in the Broadband Fund for grants to increase broadband internet availability across the state.

The amount of \$10,000,000 General Fund was approved for deposit into the Capital Projects Fund established under ORS 276.005 for state facilities security and capital improvements.

The Subcommittee approved \$82,495,564 Federal Funds expenditure limitation for expenditures supported by CARES Act Coronavirus Relief Fund. Of the total, \$7,779,000 reflects monies provided for COVID-19 pandemic response activities for the Oregon Department of Human Services (ODHS). The remaining \$74,716,564 of the total expenditure limitation increase will be transferred to the Department of Corrections for expenditures and activities to respond to the COVID-19 public health emergency.

#### **Office of the Governor**

The Subcommittee approved \$365,928 General Fund for a Principal Executive Manager G (0.63 FTE) to serve as the corrections ombudsman, which the Governor is required to appoint under ORS 423.400. The current Governor has not appointed anyone to serve as the required corrections ombudsman during their administration. The ombudsman position would provide access to an independent individual with knowledge of the Department of Corrections (DOC) policies and procedures, as well as, the legal and constitutional protections afforded individuals in DOC custody. The duties of the Correction Ombudsman are fully detailed in ORS 423.405 - 423.450.

The Subcommittee approved \$199,106 General Fund for a Principal Executive Manager G (0.42 FTE) to serve as a corrections gender-responsive coordinator. It is expectation that the individual chosen to serve as the coordinator will have adequate training on gender-responsive, culturally responsive and trauma informed correctional practices and appropriate standards, policies and practices for individuals serving sentences of incarceration. The position will assist in the assessment of the Coffee Creek Correctional Facility being conducted by the Department of Administrative Services and ensure that those who are incarcerated or formerly incarcerated are able to participate in this assessment process. Work on the DAS study is anticipated to start by September 1, 2021.

The Subcommittee also approved the transfer of the budget for the Office of Immigrant and Refugee Advancement from the Office of the Governor to the Department of Administrative Services (DHS) in compliance with the anticipated passage of SB 1550. The funding for the office was approved during the 2021 session with the passage of SB 778. The Office of the Governor had yet to hire any positions or incurred any expenses related to setting up the new Office, therefore the full previously authorized funding amount of \$1,376,037 General Fund and all four positions (3.83 FTE) were removed from the budget for the Office of the Governor and transferred to DHS.

**Oregon Liquor and Cannabis Commission**

For the Oregon Liquor and Cannabis Commission (OLCC), the Subcommittee approved an Other Funds expenditure limitation increase of \$504,000 to continue development of the online beer and wine privilege tax reporting system. System changes will enhance user functionality and increase technical support for stakeholders. Other Funds expenditure limitation in the amount of \$210,000 was approved to replace a faulty main sewer line to the agency’s existing headquarters building, which was constructed in 1954. Agency staff will remain in this facility until a new headquarters and warehouse facility is constructed, and the basic health and safety infrastructure must be maintained.

An increase in the amount of bonds authorized for issuance for OLCC projects was approved by the Subcommittee, to reflect cost increases in labor, materials, and the price of suitable, buildable acreage along the I-5 corridor. Costs estimates for a new warehouse and headquarters facility, an automated order fulfillment and conveyor system, and modernization of OLCC’s information systems were developed in 2018. Since that time, the supply of suitable land has decreased, while labor and material shortages along with inflation have resulted in funding shortfalls for the technology and land/warehouse projects in the 2021-23 biennium. The Bond Authorization bill (SB 5701) includes an additional \$5 million in Article XI-Q bonds for the agency’s automated conveyor and order fulfillment system, resulting in the need for additional Other Funds expenditure limitation in the amount of \$30,000 in HB 5202 to cover cost of issuance. A further \$77,917,783 in article XI-Q bonds was approved in the Capital Construction bill for land acquisition and construction of a warehouse/headquarters facility; associated cost of issuance for that bond sale requires additional Other Funds expenditure limitation in HB 5202 of \$792,217. Debt service for the 2021-23 biennium will decrease by \$3,117,526 because the sale of bonds for the projects will be delayed until the spring of 2023. Bonds, debt service and cost of issuance on these projects will be paid with liquor revenue; these bonds do not count toward the state’s bond limit. The following table illustrates the total amount of bonds authorized for each of the projects:

<b>Project Description</b>	<b>2021 Approved Bond Authority</b>	<b>2022 Additional Bond Authority</b>	<b>2021-23 Total</b>
Land Acquisition/Warehouse and Headquarters Facility	\$53,170,000	\$78,710,000	\$131,880,000
Information Technology Systems Modernization	\$27,390,000	\$ -30,000	\$27,360,000
Conveyor and Order Fulfillment System	\$10,175,000	\$5,030,000	\$15,205,000

**Public Employees Retirement System**

The Subcommittee approved \$17.3 million of General Fund, on a time-time basis, for deposit into the Employer Incentive Fund and a supplement increase of \$17.5 million in Other Funds expenditure limitation, on a one-time basis, for expenditure from the Employer Incentive Fund into employer side accounts in order to meet the state matching funds requirement under current law.

The Subcommittee approved \$2.7 million in supplemental Lottery Funds expenditure limitation (sports betting revenue), on a time-time basis, to reconcile with the Department of Administrative Services - Office of Economic Analysis revenue forecast (March 2022). The

combination of General Fund and forecasted Lottery Funds revenue has been estimated to be sufficient to meet state matching funds requirements to resolve the current waitlist and is expected to add a total of \$184 million in side account assets, which includes employer contributions of \$148.1 million and state matching funds totaling \$36.6 million.

### **Oregon Racing Commission**

A \$53,106 Other Funds expenditure limitation increase and one permanent half-time position (0.25 FTE) was approved for the greyhound racing reporting requirements in SB 1504 (2022).

### **Department of Revenue**

A change in the methodology used by the Department of Revenue (DOR) to distribute grant funds to counties associated with lost tax revenue related to the 2020 wildfires was approved. HB 5006 (2021) provided a one-time General Fund appropriation of \$23.2 million for DOR to make grants to counties for the reimbursement of lost tax revenue related to the 2020 wildfires. As directed in the budget report to this bill, DOR made the first distribution of \$4.8 million to counties in December 2021. Rather than having counties come back annually and attest to their loss as directed in the budget report, a one-time disbursement of the remaining \$18.4 million to counties in the same proportion counties received in the first distribution was approved. This approach was approved to maximize use of the funds by providing resources as soon as possible to the impacted counties. The following grants will be provided to counties:

- Clackamas - \$446,166
- Douglas - \$248,458
- Jackson - \$10,803,960
- Klamath - \$871,329
- Lane - \$2,211,940
- Lincoln - \$795,012
- Linn - \$275,824
- Marion - \$2,732,938

A General Fund appropriation of \$326,344 was provided for DOR's Business Division, to administer the Oregon Psilocybin Services Act, which was approved by voters in the 2020 General Election with the passage of Measure 109. The funding supports one permanent full-time Operations and Policy Analyst 3 position (0.50 FTE) and one permanent full-time Administrative Specialist 2 (0.50 FTE) to ensure taxpayer compliance with the Act. The funding also supports Attorney General expenses for legal advice and assistance with appeals or litigation.

One-time General Fund of \$400,000 was approved for the Department of Revenue (DOR) for the Electronic Valuation Information System (ELVIS) technology project. This action provides General Fund to cover the taxable portion of the project and frees up a commensurate amount of bond authorization. As a result of this action, an Other Funds expenditure limitation decrease of \$435,000, which includes \$35,000 for cost of issuance, was included for the decrease in expenditure of Article XI-Q Bond proceeds on the project authorized in SB 5701.

Last year DOR worked with an architect to develop a space plan for the Revenue Building focused on improving the safety and security of taxpayer information and agency operations. The Subcommittee expressed support for the agency's associated funding request, but it was not approved due to wanting some additional details about the project, including the results of a pending seismic assessment. A related budget note was adopted by the Subcommittee:

**BUDGET NOTE:** The Department of Revenue (DOR), in consultation with the Department of Administrative Services (DAS), is directed to report back to the May Emergency Board on a proposal for security upgrades to the Revenue Building in Salem. The report must include an estimate of costs and proposed building upgrades that are solely related to security at the DAS-owned building. The report must also include the results of DAS's seismic assessment on the building and any capital construction projects identified for the building in DAS' six-year major construction budget plan.

### **Secretary of State**

The Subcommittee approved two budget adjustments for the Corporations Division including a \$500,000 Other Funds expenditure limitation increase to accommodate transaction and service fees paid due to the growth in credit card payments. Since the beginning of the COVID-19 public health emergency, the Division has experienced a 26.6% increase in the number of transactions being paid with bank cards. The second budget adjustment is a one-time \$194,248 Other Funds expenditure limitation increase for the establishment of two limited duration Public Service Representative 4 positions (1.25 FTE) to reduce customer wait times and increase service levels at the Corporation Division Call Center. The Subcommittee also approved the establishment of one limited duration Archivist 1 position (0.63 FTE) to increase the rate of old legislative records being preserved by the Archives Division through digitization. One limited duration Archivist position was approved as part of the agency's 2021-23 legislatively adopted budget to begin this work, but as the preservation work got underway the records were more deteriorated than initially estimated.

An Elections Division request for a \$5,300,000 Federal Funds expenditure limitation increase to pay costs associated with the Oregon Centralized Voter Registration (OCVR) system replacement project was also approved. This project is part of a modernization effort involving the state's centralized voter registration and elections management software. After reviewing requests for proposals, and in consultation with an advisory committee that included local elections representatives, a vendor was selected that recently completed similar projects in Arizona and Washington. The requested amount should be sufficient to pay remaining 2021-23 biennial costs. The project will be completed next biennium. The Subcommittee also approved a fund shift of \$327,112 supporting an Operations and Policy Analyst 3 and a Principle Executive Manager D in the Elections Division, which changed position support funding from Help America Vote Act federal funding to the General Fund. This fund shift results in a \$327,112 General Fund increase and a \$327,112 Federal Funds expenditure limitation decrease. The federal Help America Vote Act (HAVA), which passed in 2002, provided limited federal funding to be used by states to defray the cost of required changes to elections systems and processes made by the law. With this shift, all of the state's remaining HAVA funds are now being used to pay the one-time OCVR replacement project costs instead of supporting ongoing position costs.

HB 5006 (2021) appropriated \$2,000,000 General Fund to the Secretary of State for “grants to counties to address county elections offices equipment and technology needs.” At the time of passage, no formal plan for these grants had been developed, so the Elections Division worked with the Oregon Association of County Clerks on the best way to distribute the funds. The new plan requires some changes to the previously stated intended uses and therefore requires legislative approval. As such, the Subcommittee approved a new elections improvement plan that includes \$120,000 grants for each county, along with new postal barcode scanners for a total cost of \$1,160,000; \$370,000 of the previously approved General Fund support would be used by the Secretary of State to procure statewide elections services such as public service announcements, search engine optimization, and statewide ballot tracking, which are cheaper for the state to provide centrally rather than having each county attempt to procure their own equivalent services individually. The remaining \$470,000 would be held back as contingency funds for potential emerging elections needs. Any contingency monies remaining would be distributed equally among counties at the end of the biennium.

The Subcommittee approved an Administrative Services Division \$550,000 Other Funds expenditure limitation increase to replace the agency’s aging server room equipment and HVAC units. Approval was also provided to shift the funding supporting two information technology positions in Administrative Services from Help America Vote Act (HAVA) federal funding to Other Funds from agency administrative charges. States are no longer receiving new federal HAVA funds. This fund shift results in a \$414,248 Other Funds expenditure limitation increase and a \$414,248 Federal Funds expenditure limitation decrease.

### **State Library of Oregon**

After the passage of HB 5017 (2021), the budget bill for the State Library of Oregon, it was discovered that limitation for the agency’s non-assessment Other Funds account and assessment Other Funds account were reversed. The Subcommittee approved a net zero technical adjustment to accurately reflect expenditure limitation values for these two accounts.

## **CONSUMER AND BUSINESS SERVICES**

### **Department of Business and Consumer Services**

The Subcommittee approved a \$244,807 Other Funds expenditure limitation decrease and a corresponding \$244,807 Federal Funds expenditure limitation increase to correct for the funding split of a position in the Building Codes Division. The agency’s request to reclassify 17 positions, increase months on two positions, establish two positions, and abolish two positions within four divisions of the Department of Consumer and Business Services was also approved with a net cost of \$393,532 Other Funds.

The Subcommittee approved a \$2,900,000 Federal Funds expenditure limitation increase and the submission of a federal grant application from the Department to the U.S. Department of Labor for federal Occupational Safety and Health Administration (OSHA). The federal funds provided by the grant will cover COVID-19 related costs that Oregon OSHA is currently paying for with Other Funds, freeing up state funding to pay for Oregon OSHA safety conferences and consultations to underrepresented communities; replacement of lab equipment; public education material for employers; and the continuation of a grant program that provides funds to community organizations for health and safety training.

### **Health Related Licensing Boards**

For the Oregon Board of Medical Imaging, the Subcommittee approved an increase of \$202,000 in Other Funds expenditure limitation and authorized an increase of 0.25 FTE to the agency's existing Investigator 2 position, to address increasing investigatory workload, increased board stipends, and other miscellaneous costs.

### **Bureau of Labor and Industries**

The Subcommittee approved an increase of 0.25 FTE on an Office Specialist 2 position as a technical adjustment to correct for its omission during the preparation of the 2021-23 current service level; costs associated with the higher FTE will be covered with existing limitation.

A net-zero adjustment was approved as a technical adjustment between appropriations in appropriated fund 3400. The Wage Security Fund is reduced by \$1,836,757 and the Operating Fund is increased by \$1,836,757.

A General Fund appropriation of \$2,006,730 was approved for the cost of relocating BOLI's main headquarters from the Portland State Office Building to 2525 SW 1st Ave., Portland. An additional \$684,500 General Fund was approved for BOLI's Civil Rights Division to address age discrimination in the workplace. The funding goes to hire two permanent full-time positions (1.00 FTE) and to provide communications and research support.

The Subcommittee approved a General Fund appropriation of \$173,164 for the Wage and Hour Division's increased wage claim workload. The funding goes to support two permanent full-time bilingual positions (1.00 FTE) for the program. The Division also received authorization for three permanent full-time positions (1.50 FTE) and one reclassification to add enforcement and education capacity to the Division's Prevailing Wage and Administrative Prosecution units. This change has a net-zero Other Funds expenditure impact due from savings related to changes in how prevailing wage rates are set brought on by the passage of SB 493 (2021). The Personal Services cost increase of \$269,493 will be offset by a Services & Supplies decrease in Professional Services.

A General Fund appropriation of \$509,117 and four permanent full-time positions (2.00 FTE) was approved to enforce wage and hour laws required in HB 4002 (2022). The funding and positions will expand BOLI's Protective Investigation and Enforcement (PIE) unit, within the Wage and Hour Division to meet its education and enforcement responsibilities in the agriculture industry.

### **Mental Health Regulatory Agency**

The Mental Health Regulatory Agency provides administrative and regulatory oversight to two licensing boards that oversee mental health professions, the Board of Psychology and the Board of Licensed Professional Counselors and Therapists. Due to legislative interest in gaining a better understanding of licensee demographics and increasing diversity of the mental health workforce, the Legislative Assembly approved \$300,000 General Fund in the agency's 2021-23 legislatively adopted budget for engaging a third party consultant to study the demographics of those individuals licensed by the boards and devise a plan to increase licensee diversity. The agency is to submit a written report on the study and plan to appropriate legislative policy committee(s) no later than December 31, 2022, along with presenting this information in its budget hearings during the 2023 legislative session.

The initial plan was for the agency to evenly split the cost of this study between both licensing boards. However, due to accounting and budget system constraints, the entire \$300,000 General Fund was budgeted in the Board of Licensed Professional Counselors and Therapists; HB 5202 includes a technical budget adjustment to split the amount between both boards.

### **Real Estate Agency**

To help plan for and implement a new online licensing and case management system, the Subcommittee approved the establishment of one full-time limited duration position (0.75 FTE) and an increase of \$151,083 Other Funds expenditure limitation for the Real Estate Agency. The position's responsibilities include working with the Oregon State Chief Information Office on the Stage-Gate information technology project planning process, drafting the business case, establishing benchmarks for the replacement system, and developing a 2023-25 policy package.

### **State Board of Tax Practitioners**

The State Board of Tax Practitioners licenses and oversees Tax Preparers, Tax Consultants, and tax businesses. The Board's revenues are principally derived from annual licensing and business registration fees. Other sources of revenue include civil penalties, exam applications fees, fines, and interest. The Board collects most of its revenue twice annually, between April 15th and June 15th, and August 15th and October 15th.

The number of licensees and examinees for licensure has been steadily declining over the past few years, particularly over the last 21 months during the COVID-19 pandemic. Between February and November 2021, the number of active licensees decreased by 390, or 11.7 percent. Furthermore, the number of individuals who took a licensing exam during 2021 decreased by approximately 23 percent from 2020.

Based on the November 2021 projections, the Board estimates a biennial shortfall of just over \$72,000 in 2021-23. In December 2021, the Interim Joint Committee on Ways and Means recommended approval of the Board's request for fee increases and an expenditure limitation request; the Subcommittee approved these, adding \$72,100 Other Funds expenditure limitation.

## **ECONOMIC AND COMMUNITY DEVELOPMENT**

### **Oregon Business Development Department**

An allocation of \$18,193,388 American Rescue Plan Act State Fiscal Recovery Funds (Other Funds expenditure limitation) was approved for the Oregon Business Development Department (OBDD) for grants to local governments and other authorized organizations in the following amounts, for the following water related infrastructure projects:

- \$160,00 to the City of Garibaldi for a Wastewater Master Plan
- \$201,128 to the City of Garibaldi for Smart Water Meters
- \$7,000,000 to Hyak Tongue Point, LLC for a 1500 Metric Ton Mobile Lift Project
- \$1,150,260 to the City of Reedsport for a Flood reduction resiliency project
- \$1,400,000 to the City of Waldport for Wastewater Treatment Plant Disinfection System Improvements
- \$2,500,000 to the City of Mill City for Sewer Improvements
- \$757,000 to the City of Aumsville for Drinking Water System Improvements
- \$2,250,000 to the City of Lafayette for a Reservoir Project
- \$2,500,000 to the City of Falls City for a Wastewater Treatment Facility
- \$275,000 to the City of Merrill for Water Line Improvements

The Subcommittee approved a \$1.5 million General Fund appropriation to the Oregon Business Development Department to provide a grant to the Historic Rivoli Theater Performing Arts Center Restoration Coalition for work on the Rivoli Theater restoration as a part of a package of investments in rural infrastructure.

A General Fund appropriation of \$2 million was approved for OBDD to provide grants to local governments to aid in the short and long-term efforts to recover from the recent wildfire seasons was approved for inclusion in the measure. The funding is available for a variety of activities that include, but are not limited to human resources, land use planning, infrastructure planning, FEMA recovery applications, building permit application processing, financial and administrative program support, and translation services.

The Subcommittee approved \$6 million General Fund for deposit in the Eastern Oregon Border Economic Development Board Fund along with the establishment of a corresponding \$6 million Other Funds expenditure limitation. This will allow OBDD to transfer these monies to a third-party administrator that is under contract with the Board for the purpose of operating grant and loan programs to enhance and expand workforce development or economic development in the region covered by the board.

A General Fund appropriation of \$835,000 was approved for distribution to the Crescent Sanitary District. This action was coupled with corresponding reductions in the transfer from the Department of Administrative Services, and the Other Funds expenditure limitation for, American Rescue Plan Coronavirus State Fiscal Recovery Fund monies provided to the Oregon Business Development for distribution to the

Crescent Sanitary District. These actions affected a change in the project funding to allow the Sanitary District to use awarded funding to retire debt associated with the underlying project with no change to the total amount of state support provided.

A reallocation of funding was approved for previously approved and budgeted American Rescue Plan Act Coronavirus State Recovery Fund monies. Other Funds expenditure limitation of \$15 million that had been provided to the agency for distribution of ARPA monies to Lincoln County for the Panther Creek Septic and Stormwater project was reduced by \$11 million and a new, corresponding \$11 million Other Funds expenditure limitation was established to allow the Oregon Business Development Department to distribute the monies to the Panther Creek Water District for regional drinking water quality improvements. Additionally, the City of Sandy - Wastewater Treatment Plant project was renamed: City of Sandy - Wastewater System Improvements.

An increase of \$36,795,418 Other Funds expenditure limitation was approved for spending American Rescue Plan Act Capital Projects Funds received by the Oregon Department of Administrative Services and transferred to OBDD for deposit in the Broadband Fund. Fund monies can be used to provide grants or loans through the Oregon Broadband Office, along with covering office administrative costs. Projects eligible for funding those for the planning and development of broadband service infrastructure, digital literacy, digital inclusion, and digital adoption.

The Subcommittee approved a \$600,000 General Fund appropriation and the authorization to establish a limited duration position (0.25 FTE) for OBDD to complete a specified number of market analyses in coordination with Oregon market advocates for the following emerging sectors:

- Organic agriculture and organic products
- Cannabis
- Commercial music including performance, manufacturing, distribution and other sales
- Ocean resources and the blue economy
- Live performance (theater, arts, other live events)

The analyses are intended to include, but not be limited to, identifying and discussing policies and actions that may be taken to increase the competitiveness and support the growth of the sector; analysis of the competitive economic strengths and weaknesses of the sector in Oregon; evaluation of revenues that the State of Oregon derives from the sector; indirect and direct economic impacts; demographic details such as race, wage, and geographic distribution; and, as applicable, recommendations for actions to take in response to changes in federal regulations.

**BUDGET NOTE:** In conjunction with the funding provided to the Oregon Business Development Department to conduct emerging sector statewide market analyses, the Department shall provide a report that includes copies of the specified market analyses and a summary of each to the appropriate legislative committees or interim legislative committees on economic development or recovery no later than March 15, 2023.

A one-time appropriation of \$984,000 General Fund was approved for distribution to the City of St. Helens for financial support required to complete a number of activities related to the fill and redevelopment of a portion of the city's wastewater lagoon connecting the city's downtown riverfront district with the city-owned industrial park. The funded activities include a technical feasibility study, critical infrastructure resiliency assessment, and addressing environmental, public health, and community development considerations.

A one-time appropriation of \$2 million General Fund was made for distribution to the Portland Japanese Garden was approved. The funding supports the construction of the International Japanese Garden Training Center that supports programs, collaborations, and experiential education for youth and adults. This state support represents roughly eight percent of the total project costs.

The Subcommittee approved a one-time appropriation of \$15 million General Fund for distribution to the Oregon International Port of Coos Bay to support the continuation and final completion of the engineering and design work related to the deepening and widening of the Federal Navigation Channel at Coos Bay to support existing businesses and promote new business opportunities.

An increase of \$1.5 million Other Funds expenditure limitation was approved for OBDD to spend monies transferred to the Broadband Fund by the Public Utilities Commission. As required by statute, the Commission approved the transfer of this amount, which was of the lesser of \$5 million, or that amount in excess of the amount designated by the Commission as necessary to ensure basic telephone service, from the Universal Service Fund. Monies will be used for the planning and development of broadband infrastructure.

Several budgetary adjustments were approved for the Department related to the expenditure of funding that was authorized in the prior biennium but was not fully expended before the end of that biennium. No new funding is being allocated. Adjustments to expenditure limitations for Lottery, Other, and Federal Funds are for fund balances carried forward from prior biennia. The General Fund appropriation mirrors that amount that was appropriated in the prior biennium but reverted to the General Fund at the close of the prior biennium prior to being expended. The individual adjustments include:

- An increase of \$283,034 Lottery Funds expenditure limitation in the Infrastructure Program for remaining contractual payments associated with the funding of the Columbia Corridor Drainage Districts Joint Contracting Authority project, Levee Ready Columbia. This action will allow the agency to expend the remaining Lottery Funds balance carried-forward from the prior biennium from the original \$500,000 allocation for this project.
- A General Fund appropriation of \$89,479 was approved to re-establish funding for the completion of financial support to the Confederated Tribes of the Warm Springs Reservation of Oregon for improvements to the Warm Springs Wastewater Treatment Plant, installation of water meters, and improvements to the water distribution system. Total project costs of \$7.8 million were provided in the prior biennium through a \$3.58 million General Fund allocation from the Emergency Board and a \$4.22 million General Fund appropriation in SB 5723 (2020 2nd Special Session) the amount appropriated in this bill represents the unspent portion of those funds.
- Establishment of a \$287,800 Other Funds expenditure limitation for Coronavirus Relief Funds (CRF) to allow the agency to account for expenditures of CRF funds that were not completed in the prior biennium. These expenditures were completed in December of 2021 and

represent residual fund balances from the original \$10 million allocation of CRF monies for the Rural Broadband Capacity Program that was made to the agency through Emergency Board action in June of 2020.

- Establishment of a \$2,940,041 Other Funds expenditure limitation from the Tide Gate Grant and Loan Fund to allow the agency to expend the residual fund balance remaining in the fund from allocations of \$3 million in Lottery Funds that were transferred to the fund in the prior biennium.

Increased expenditure limitation of \$1,680,000 Other Funds was approved for the Arts and Cultural Trust to expend monies provided by the Oregon Community Foundation for two programs; \$1.5 million of the total supports a grant program to provide relief funding to Oregon artists who have experienced financial hardship during the COVID-19 Pandemic due to cancellations of exhibitions, performances, rehearsals or other activities with a stipend, events, teaching opportunities, book signings, or other professional presentation opportunities. The remaining \$180,000 will be distributed to each of the Cultural Trust's 36 County Cultural Coalitions in support of their Cultural Plan, which includes grant awards to cultural nonprofits, artists, and, as applicable, to those populations who have been disproportionately impacted by COVID-19 and for the continued development of programs and services.

The Subcommittee approved \$803,500 Federal Funds expenditure limitation for the Arts Program for funding from the National Endowment for the Arts to support nonprofit arts programs and services including the provision of operating support grants and program administration.

Increased Federal Funds expenditure limitation of \$1 million, and the authorization to establish a limited-duration statewide recovery coordinator position (0.58 FTE) was approved for the Department to expend anticipated grant monies from the U.S. Department of Commerce, Economic Development Administration. The agency will use approximately half of the funding to create an investment map to guide broadband investment strategy and a broadband planning map. The remaining portion will be used for the implementation of findings and recommendations of the COVID-19 Equitable Economic Recovery Plan currently in development by the agency.

Increased expenditure limitation of \$641,475 Lottery Funds and the authorization to establish three permanent, ongoing positions (1.75 FTE) was also approved. These management positions will be established within the Business, Innovation and Trade program and be used in conjunction with organizational adjustments to address program administration capacity, span of control, and program delivery issues.

### **Employment Department**

The Subcommittee approved a \$5,176,629 increase in the Employment Department's Federal Funds expenditure limitation to support a grant award for workforce training and job placement services to Southern Oregonians impacted by the 2020 wildfire season and the COVID-19 pandemic. Seven limited duration positions (5.60 FTE) are authorized, as follows:

- Five Business and Employment Specialist 2 (4.00 FTE);
- One Program Analyst 1 (0.80 FTE); and
- One Program Analyst 2 (0.80 FTE).

## **Housing and Community Services Department**

The budget for the Housing and Community Services Department (HCSD) was increased by \$46,644 General Fund and General Fund Debt Service for bond-related activities was decreased by a corresponding amount, to correct miscategorized budgeted expenditures. The Subcommittee approved non-recurring General Fund for housing investments for the following amounts and purposes:

- \$65 million for preservation and rehabilitation of affordable housing projects. This supplements \$100 million approved for this purpose during the 2021 legislative session, and for which associated Other Funds expenditure limitation and position authority was also approved by the Subcommittee (discussed below).
- \$10 million for land acquisition on which affordable housing will be built, augmenting a 2021 session investment of \$20 million. The funds serve as seed money for revolving low or no interest loans, enabling developers to quickly secure available land for housing projects. The General Fund will be transferred to the Housing Acquisition Fund and spent as Other Funds. Associated Other Funds expenditure limitation was also approved (discussed below).
- \$50 million to address cost increases in HCSD-funded developments that have been impacted by supply chain disruption, labor cost increases, tax credit availability, and require additional support to remain viable. This supplements \$5 million approved for this purpose during the 2001 legislative session, and for which associated Other Funds expenditure limitation was also approved by the Subcommittee. Funds will be transferred to the General Housing Account, to be used as gap financing. An associated Other Funds expenditure limitation increase is referenced below.
- \$35 million for development of smaller scale affordable rental housing. The projects will add an estimated 175 additional units, largely in more rural areas of the state. Associated Other Funds expenditure limitation for these funds was also approved (discussed below).
- \$20 million for manufactured housing park acquisition gap financing to supplement available funding for acquisition of manufactured housing parks that are at risk of sale or closure, to prevent displacement of residents. The funds will be utilized as grants rather than loans, and are estimated to preserve an additional five parks, or approximately 300 affordable homes.
- \$20 million for development of affordable homes for purchase, to be paired with Local Innovation Fast Track (LIFT) bond proceeds, authorized by Article XI-Q of the Oregon Constitution. Ownership constraints and limited funding make LIFT more difficult to utilize for construction of homes for purchase, but the investment may help to incentivize development in rural areas and allow for greater density in urban areas. The Housing and Community Services Department will seek to transfer these funds to the General Housing Account when specific funding criteria are developed -- perhaps early in 2023 -- and will seek Other Funds expenditure limitation at that time.
- \$500,000 for policy development and coordination, along with support for local government planning and response efforts to address homelessness. Funds support the creation of a permanent, full-time policy position (0.58 FTE) within the Housing and Community Services Department to coordinate, analyze, and prioritize homelessness responses between state agencies and local partners, and to support an Interagency Council on Homelessness. Because this is one-time funding, the position will be supported with permanent, ongoing resources in future biennia. In addition to the staff position, resources will support the establishment of the Interagency Council on Homelessness to be managed through the Governor's Office. Approximately \$250,000 of this investment will also be used to support

local contracts with Built for Zero, a collaborative service to help communities establish and implement action plans to reduce and eliminate homelessness.

- \$15 million for homeowner supports. Funds will provide resources to organizations serving homeowners. Funds may be used for operation capacity, technology and software needs, pandemic-related needs and expenses for Home Ownership Centers and non-profits serving low-income homeowners, for Manufactured Homeowner counseling, and to expand outreach, mediation services and marketing associated with manufactured housing Community Dispute Resolution Centers.
- \$80 million for homelessness prevention and response efforts delivered through HCSD programs and community partners. The Department will evaluate the service capacity of its partners to determine the specific amounts for programs and subrecipients. Of the total, \$30 million is anticipated to be directed to homeless prevention efforts, though more resources may shift to homeless prevention if homeless service provider capacity does not materialize. Eligible programs for these efforts include the following:

Homelessness prevention

- The Oregon Eviction Diversion and Prevention Program, providing flexible resources such as rental and other financial assistance, legal services, navigation, mediation;
- The Emergency Housing Assistance Program, providing flexible resources for services such as street outreach, emergency shelter, rapid rehousing, and homelessness prevention; and
- Funding to the Oregon Worker Relief Coalition to provide flexible funds for homelessness assistance and prevention. Funds shall be provided to the Coalition through Seeding Justice through an advance payment.

Homelessness services

- Out of the Cold program for shelter support, street outreach, move in costs and short-term rental assistance, provided through Community Action Agencies and culturally based organizations;
  - Supplanting Emergency Solutions Grants – Coronavirus Relief grants to community-based organizations and Community Action Agencies to ensure programs can operate through next shelter season;
  - Shelter support, including operating funds to properties developed through Project Turnkey;
  - Navigation Center funding for operational support or services for the unhoused;
  - Shelter and outreach to tribes and community-based organizations;
  - Services to runaway and homeless youth provided through the Oregon Department of Human Services; and
  - Shelter plus and other medical respite models, including a pilot with Mid-Willamette Valley Community Action Agency.
- \$966,262 for a grant to Mid-Willamette Valley Community Action Agency (MWVCAA) for shelter services. The grant will allow MWVCAA to seek reimbursement from the Federal Emergency Management Agency (FEMA) for extraordinary shelter costs related to COVID-19 in 2020-21; MWVCAA will return an equivalent amount of funds granted during the previous biennium, seek FEMA reimbursement for an equivalent amount of shelter costs, and apply the new grant to shelter costs in the current biennium.

The Housing and Community Services Department (HCSD) estimates that while 100% of a one-time \$100,000,000 General Fund appropriation included in the 2021-23 legislatively adopted budget for affordable housing preservation is anticipated to be awarded to projects during the 2021-23 biennium, only 10% is anticipated to be spent this biennium. The Subcommittee's approval of an additional General Fund appropriation of \$65 million in preservation funding (referenced above, also anticipated to be fully awarded during the current biennium) for affordable housing preservation and rehabilitation projects, enhances the previous investment. Preservation funds will be transferred to the General Housing Account and expended as Other Funds. A total of \$52.5 million Other Funds expenditure limitation was approved for expected expenditures in 2021-23, with the remaining \$122.5 million associated expected to be sought in the 2023-25 biennium. Two limited duration positions, a Program Analyst 4 (0.58 FTE), and a Loan Specialist 3 (0.58 FTE) were approved to add capacity for project approval and monitoring associated with these new, non-recurring funds.

Other Funds expenditure limitation was approved to facilitate the use of General Fund as seed money for revolving, low or no interest loans in several HCSD programs. Because General Fund cannot be loaned, funds appropriated for land acquisition (\$20,000,000 associated with the legislatively adopted budget and an additional \$10 million approved during the 2022 legislative session) on which affordable housing will be developed, purchases of naturally occurring affordable housing (\$10,000,000), the development of flexible lending products to support home ownership (\$10,000,000), acquisition of manufactured housing parks (\$4,200,000), and manufactured housing decommissioning, disposal and replacement (\$2,800,000) will be transferred to Other Funds. To facilitate the respective programs' anticipated level of lending activities in the remainder of the 2021-23 biennium, Other Funds expenditure limitation was increased by a total of \$47 million for these programs, as follows:

- Land acquisition - \$30,000,000
- Purchases of naturally occurring affordable housing - \$5,000,000
- Flexible lending products - \$5,000,000
- Manufactured housing park acquisition (revolving loan fund) - \$4,200,000
- Manufactured housing decommissioning, disposal, and replacement - \$2,800,000

Additional Other Funds expenditure limitation associated with the General Fund appropriations of \$10 million (2021 Legislative Session) and \$50 million (2022) to address supply chain, labor and inflationary cost increases was approved, in the amount \$35,000,000. Although this gap funding is expected to be fully *committed* in 2021-23, it's expected that only \$35,000,000 in project costs will be expended this biennium.

An increase of \$17.5 million Other Funds expenditure limitation was approved, associated with the above referenced \$35 million General Fund investment for development of affordable homes for purchase, to be paired with LIFT funds. This Other Funds limitation reflects the amount that will be expended on projects in 2021-23, although all \$35 million will be committed/awarded before biennium's end; the remaining \$17.5 million Other Funds is expected to be expended in 2023-25.

The Subcommittee approved an increase in Federal Funds expenditure limitation in the amount of \$1,681,331 for the Housing and Community Services Department to reflect the receipt of a federal grant for housing counseling services. The grant funds support administrative expenses,

program related services including outreach and training, and foreclosure avoidance and financial education services by homeownership centers, with whom the Department contracts for service delivery.

Additional Federal Funds expenditure limitation in the amount of \$39,769,368 was also approved for financial assistance to distressed homeowners under the Homeowner Assistance program funded by a \$90.9 million award to Oregon under the American Rescue Plan Act. This increase supplements the \$32.9 million and 23 positions (19.88 FTE) for the program that was included in the 2021-23 legislatively adopted budget. The balance of the federal award is anticipated to be expended in the 2023-25 biennium. The Congressional purpose of the program is to prevent defaults, foreclosures, and loss of utilities, although Oregon's program will not provide utility assistance. HCSD will open this program in four phases, focusing initial phases on homeowners most at-risk of foreclosure or displacement. Assuming maximum program assistance of \$60,000 to every eligible homeowner, the program could serve 1,200 homeowners.

A Federal Funds expenditure limitation increase in the amount of \$221,389,595 was approved to reflect federal grant funding received for the second round of Emergency Rental Assistance provided through the American Rescue Plan Act. All the federal funding for emergency rental assistance has been paid, obligated, or requested, and the Department will expend this funding by summer, 2022.

The agency received federal grant funds from the Community Development Block Grant Disaster Recovery grant in the amount of \$422,286,000 in November of 2021. Initial program guidance to HCSD became available in February 2022. Funds must be used within six years and are for the purpose of assistance in areas most impacted by the 2020 wildfires, specifically in Clackamas, Douglas, Jackson, Lane, Lincoln and Marion Counties, and a zip code specific to Linn County. The Subcommittee approved Federal Funds expenditure limitation in the amount of \$7,368,864. Ten permanent disaster recovery and resiliency management positions (5.71 FTE) were approved, as follows:

- An assistant manager to augment central services accounting management capacity (0.54 FTE);
- A finance manager to oversee financial operations for the new recovery division (0.46 FTE);
- A Chief Compliance and Contracting Officer to ensure compliance with federal regulations (0.67 FTE);
- A Recovery Officer to lead implementation of all recovery and resilience programs (0.58 FTE);
- A policy development lead, to generate recovery action plans and processes (0.58 FTE);
- A program delivery lead, to oversee and manage the acquisition of modular or manufactured housing units, design resiliency measures, and manage contractors and construction efforts;
- An External Affairs Officer, to manage public and community engagement throughout recovery processes; and
- A Business systems and reporting manager, to oversee the division's system of record tracking and managing applications for assistance.

After grant funds are expended, HCSD will utilize Federal Funds and Other Funds revenue to support these positions on a permanent basis, to maintain its ability to respond to future events.

Thirty nine positions are established as limited duration (19.46 FTE), tied specifically to staffing the planning and program development related to this grant, logistics, policies and procedures, and to add agency capacity in central services (such as accounting and procurement). Policy

analysis, regional liaisons, information systems design, loan servicing, construction inspection and management, procurement and contracting, accounting, and human resources expertise are among the activities for which these positions will be responsible.

## **EDUCATION**

### **Department of Education**

SB 222 (2021) clarified who may conduct vision screenings and appropriated \$1.5 million General Fund to the Department for deposit in the Vision Health Account (ORS 336.212) to reimburse providers of vision screenings and to pay for program costs. The bill inadvertently omitted the corresponding Other Funds expenditure limitation needed for the Department to make expenditures from the account; to correct this oversight, the Subcommittee approved \$1.5 million Other Funds expenditure limitation to reimburse providers and to pay for staffing and other program costs.

To properly account for some of the costs associated with implementing the Department's American Indian/Alaska Native Student Success Plan, \$1,503,000 Other Funds expenditure limitation was reduced in the Grant-in-Aid program and increased in the Operations program, for no net change in Other Funds expenditure limitation department-wide. Similarly, to properly account for some of the costs associated with implementing the Department's African American Black Student Success Plan and Safe and Inclusive Schools Program, \$643,464 Other Funds expenditure limitation was reduced in the Statewide Equity Initiatives program and increased in the Operations program, for no net change in Other Funds expenditure limitation department-wide.

The Subcommittee approved \$5,157,019 Other Funds expenditure limitation on a one-time basis and approved the establishment of ten limited-duration positions (5.80 FTE) to support the design and launch of a comprehensive professional learning system for preschool-through-high school educators, and to increase capacity grants to the ten Regional Educator Networks. The source of one-time funds comes from COVID-19-related underspending in the Educator Advancement Council's grant-in-aid programs during the 2019-21 biennium.

The Department issues over 10,000 grant agreements per biennium with a current procurement staff of ten budgeted positions. Even after prioritizing workload to take into account deadlines for the use of federal funds, cash flow needs of smaller educational services providers, and large-dollar programs that fund multiple programs within school districts, the Department still delays some grant agreements and suspends work on data requests. To address its grant and procurement workload in a more sustainable way, the Subcommittee approved \$1,416,158 General Fund and approved the establishment of eleven positions (6.36 FTE): one Principal Executive Manager D, one Operations and Policy Analyst 2, three Procurement and Contract Specialist 1 positions, three Procurement and Contract Specialist 2 positions, and two Procurement and Contract Specialist 3 positions in the Procurement Services unit; and one Accounting Technician 3 in the Fiscal Grants team.

To alleviate supply chain issues experienced by School Food Authorities in Oregon, the Subcommittee approved \$11 million nonlimited Federal Funds expenditure limitation to receive and spend U.S. Department of Agriculture Supply Chain Assistance funds. These resources will be

distributed on a formula basis to eligible School Food Authorities to address pandemic-related food services challenges including reduced availability of certain foods, unexpected substitution of certain products, and unpredictable increases in food prices.

Oregon Administrative Rules outline the process for apportioning funds for the High School Success program, including those funds remaining in the High School Graduation and College and Career Readiness Fund at the end of a biennium. The Subcommittee approved Other Funds expenditure limitation of \$26,058,151 in order for the Department to apportion this 2019-21 remaining fund balance among all school districts and charter schools in the current biennium.

HB 2166 (2021) created the Early Childhood Suspension and Expulsion Prevention Program and appropriated \$5.8 million General Fund to the Department to create and implement the program. To accommodate the way in which the Department's budget is established in the state accounting system, the appropriation was approved to be split between the Operations program and the Grant-in-Aid program, for no net change to the new program's budget.

The Subcommittee approved \$150 million General Fund for a summer learning program in the summer of 2022. The program will fund the state's share of a set of one-time initiatives to provide academic learning, enrichment activities, and social-emotional and mental health services for students from kindergarten through grade twelve.

- Summer High School Academic grants will fund programs to enable high school students to make up academic credits needed to stay on track for on-time graduation. A total of \$32,857,331 General Fund is available to school districts to provide summer academic programs; this program requires a 25% local match from participating school districts.
- Summer Kindergarten through grade 8 (K-8) Enrichment grants are directed to students in grades kindergarten through 8 for enrichment activities such as dance, art, and outdoor programs; academic learning and readiness supports, such as tutoring or kindergarten transition programs; and social-emotional and mental health services. A total of \$66,857,330 General Fund is available for the state's share of the programs, which require a 25% local match from participating school districts.
- Summer Community Activity grants are funded with a one-time grant of \$50 million General Fund from the Department of Education to the Oregon Association of Education Service Districts. Grants will be awarded on a competitive basis for new and existing summer enrichment activities such as day camps, park programs, and tutoring for kindergarten through grade 12 students.
- For developing and administering the new school-based grants and for administering the Oregon Association of Education Service Districts grant, the Subcommittee approved \$285,339 General Fund and the establishment of two limited-duration positions (1.26 FTE). Administrative responsibilities include developing guidelines and rules, formalizing funding models and application processes, providing technical assistance to school districts and community-based organizations, and grant administration and oversight.

The General Fund appropriation for summer learning programs ends on January 1, 2023. Unspent funds as of that date become available in the General Fund to be legislatively appropriated for other uses.

In January 2022, the Department requested \$5.1 million from the special purpose appropriation to the Emergency Board for the creation of the Department of Early Learning and Care (DELIC), \$650,618 General Fund, and the establishment of 34 positions (12.38 FTE) to continue building the new agency. The Interim Joint Committee on Ways and Means deferred this request to the February 2022 legislative session, during which time more information would be available about changing DELIC's statutory start date from January 1, 2023 to July 1, 2023. Changing the agency's start date to July 1, 2023 reduces the Department's funding request by \$2.6 million General Fund, as certain costs needed for a partial biennium by both the Department and by DELIC will not be incurred. The Subcommittee approved \$3,228,818 General Fund and authorized the establishment of 34 positions (12.38 FTE) to continue development of DELIC. The special purpose appropriation was reduced by this amount; the remainder is \$1,901,447.

In February 2022, the Department requested \$4.3 million General Fund and the establishment of 40 positions (18.58 FTE) to complete the staffing plan for the Department of Early Learning and Care. Subsequent evaluation of the implementation plan revealed five positions that will not be needed until the 2023-25 biennium and three accounting positions that are contingent upon the new agency's acquisition of a payment system needed for grant program accounting and payments. After making those changes to the staffing plan, the Subcommittee approved \$3,609,588 General Fund and 32 positions (15.50 FTE) for the plan, and directed the Department to return to the Emergency Board in September 2022 with an update on the status of the new grants management system and/or an agreement between DELIC and the Department of Education for accounting services. If necessary, the Department can request either the accounting positions or funding for an interagency agreement for accounting services with the funds remaining in the special purpose appropriation for the creation of DELIC.

To support the expansion of access to child care in Oregon, the Subcommittee approved nearly \$100 million General Fund on a one-time basis for a variety of programs that bolster and support the child care sector. The bulk of this funding (\$60.3 million) is appropriated to the Department of Administrative Services for granting to nonprofit agencies and to the Higher Education Coordinating Commission for administering specific programs. Please see the Department of Administrative Services and Higher Education Coordinating Commission sections of this report for a break out of these investments. Other components include \$26.6 million General Fund to increase subsidy rates through the Employment Related Day Care program, which is appropriated in HB 4005, and \$6.8 million General fund to support the creation of the Department of Early Learning and Care is described above.

To develop a statewide education plan for Native Hawaiian and Pacific Islander students, the Subcommittee approved \$237,389 General Fund and authorized the establishment of one Education Specialist 2 position (0.63 FTE) to support the plan's development. The plan will address academic disparities experienced by plan students, disproportionate rates of disciplinary incidents, literacy and numeracy levels of plan students in primary school and will improve educational opportunities and outcomes for plan students. An additional \$5 million General Fund was approved to increase the level of funding in the African American Black Student Success grant program.

The Subcommittee approved \$2 million General Fund to increase provider wages in the Relief Nurseries program. Salaries for Relief Nurseries staff are nearly 20% lower, on average, than staff salaries in other publicly-funded early childhood programs, making recruitment and retention of qualified staff difficult. Wage parity was also addressed for the Healthy Families Oregon program with a \$2 million General Fund appropriation to increase compensation for providers. This increase will begin to address wage levels, pay parity and pay equity issues, and will support recruitment and retention of staff. An additional \$122,830 General Fund will backfill behind the loss of Federal Maternal, Infant, and Early Childhood Home Visiting (MIECHV) funding in Tillamook and Jefferson counties.

### **State School Fund**

The Subcommittee approved a reduction of \$97,592,219 General Fund, an increase of \$60,982,219 Lottery Funds and an increase of \$36,610,000 Other Funds from the Fund for Student Success for the State School Fund. This change reflects the final balance of use of available Lottery Funds across the entire state budget as well as the most recent forecast of the Fund for Student Success related revenues. The 2021-23 State School Fund budget total of \$9.3 billion is not changed.

### **Higher Education Coordinating Commission**

The Subcommittee approved a one-time Other Fund limitation increase of \$1,000,000 to facilitate the pass through of dollars to public university educator preparation programs for the planning, tracking, and reporting on the progress of achieving the state goal that the teacher candidate pool will reflect the linguistic and ethnic diversity of the high school graduating class from which they are recruited. In addition, the Subcommittee approved a one-time Other Fund limitation increase of \$3,812,707 for the Higher Education Coordinating Commission (HECC) to collaborate with the Oregon Department of Education (ODE) and Educator Advancement Council (EAC) to award scholarships to culturally and linguistically diverse teacher candidates as part of the Oregon Teachers Scholars Program (OTSP). These funds were appropriated by the legislature to the Oregon Department of Education and Educator Advancement Council (EAC) in the Statewide Education Initiatives Account for these efforts. Although (HECC) was authorized to enter into an interagency agreement with ODE/EAC to distribute funds for the equity plans and to award the scholarships pertaining to OTSP, expenditure limitation was inadvertently omitted in SB 5528 (2021), the primary budget bill for HECC. This corrects the error.

The Subcommittee also approved that the one-time appropriation of \$212,241 General Fund to the Higher Education Coordinating Commission Public University State Program Unit in SB 5528 (2021) for distribution to PSU Oregon Solutions to support the Willamette Falls Lock Commission may be expended to support the Willamette Falls Lock Authority for the remainder of the 2021-23 biennium.

The Subcommittee approved a one-time appropriation of \$7.5 million General Fund to continue the Strong Start program at the seven public universities for an additional school year. The Strong Start program was designed to mitigate the disruption on students preparing for their post-secondary education during the COVID-19 pandemic. Students from high-poverty or low income communities and schools are significantly less likely to apply for college during this time of uncertainty. With a focus on historically underserved students, Strong Start program elements have included intensive academic supports especially in math and writing, academic advising, note taking skills, time management, early move-in to campus, peer mentoring, tutoring, and financial literacy. As the country begins to exit this pandemic, students graduating from high school

continue to face challenges navigating the path from secondary to postsecondary education. This funding will allow each university to continue individualized programs to meet the specific needs of their students.

The Subcommittee approved a one-time appropriation of \$1 million General Fund for statewide public services to support the Oregon State University Extension Service Oregon Bee Project. Another one-time appropriation of \$700,000 General Fund approved for the public university statewide programs will support expansion of the University of Oregon College of Education's Oregon Child Abuse Prevalence Study.

The Subcommittee approved an appropriation of \$45 million General Fund for the Oregon Health and Science University (OHSU) to support its goal of increasing the number of graduates in key health care professions programs (including nurses, clinical psychologists, physicians, physician assistants, public health leaders, and human nutritionists) by 30% and ensuring that 30% of its learners are from underrepresented populations, by the year 2030. Of the total funding, \$20 million annually will be used to expand capacity for ongoing health care education and pathway programs; the remaining one-time funding of \$25 million will be used to establish the OHSU Opportunity Fund to provide tuition assistance and loan repayment to learners from underrepresented communities. This \$25 million in funding can be distributed by HECC to OHSU at the same rate that OHSU raises corresponding matching funds in gifts, grants and other revenues through philanthropic campaigns.

To support the expansion of access to child care in Oregon, the Subcommittee approved nearly \$100 million General Fund on a one-time basis for a variety of programs that bolster and support the child care sector; \$21 million of this amount was appropriated to the Higher Education Coordinating Commission (HECC) for Portland State University's Oregon Center for Career Development in Child Care to award two annual \$500 recruitment and retention payments to child care providers working in Oregon. Of the \$21 million, \$18.3 million is available to make grants to providers, and \$2.7 million pays for administration and the program's operating costs. Please see the Department of Education and the Department of Administrative Services sections of this report for additional details of this investment to support the expansion of access to childcare in Oregon.

Approval of \$30 million in Article XI-Q Bonds to address the increasing costs of public universities capital improvement and renewal requires Other Funds expenditure limitation of \$185,000 for cost of issuance for the bonds.

The Subcommittee approved various one-time General Fund appropriations to HECC public university statewide programs as follows:

- 1) \$10,142,845 for distribution to the University of Oregon to purchase scientific equipment for Building 2 of the Phil and Penny Knight Campus for Accelerating Scientific impact.
- 2) \$16,500,000 for distribution to Western Oregon University to support the main steam line replacement project.
- 3) \$6,500,000 for distribution to Oregon State University for the Hatfield Housing project.
- 4) \$4,500,000 for distribution to the University of Oregon to support the Oregon Hazards Lab (OHAZ) Wildfire Camera Network.
- 5) \$350,000 for distribution to Oregon State University for the repair and maintenance of research vessel Pacific Storm.

As part of the rural infrastructure package, the Subcommittee approved various one-time General Fund appropriations to the Higher Education Coordinating Commission for the following purposes:

- 1) \$755,000 for distribution to Southwestern Oregon Community College for a new fire training tower.
- 2) \$577,500 for distribution to Linn-Benton Community College for the Takena Hall elevator.
- 3) \$2,500,000 for distribution to Treasure Valley Community College for the Renewable Energy Apprenticeship and Pre-Apprenticeship Programs.
- 4) \$10,000,000 for distribution to Oregon State University for the Innovation District Landfill Project.
- 5) \$1,000,000 for distribution to Eastern Oregon University for Visual and Performing Scholarship.
- 6) \$250,000 for distribution to Oregon State University for the modernization of the Oregon Agricultural Research Center.

Also, as part of the rural infrastructure package, the Subcommittee approved a \$4 million Federal Funds expenditure limitation for monies from the American Rescue Plan Act (ARPA) State Fiscal Recovery Funds for the purpose of transferring to Eastern Oregon University for restoration of the Grand Staircase.

A total of \$17,546,266 million Lottery Funds is available to offset an equal amount of General Fund for the Oregon Opportunity Grant program (OOG). Based on the March 2022 forecast, interest earned on the Education Stability Fund for the current biennium increased \$5,841,164 over the level projected in the June 2021 forecast. Additionally, the Oregon Growth Board approved a distribution from the Oregon Growth Account (OGA) of \$11,705,102 in October 2021. As there is no outstanding debt service for the Oregon Education Fund, this means that interest earnings and OGA distributions are transferred to HECC for the Oregon Opportunity Grant program. This offset leaves the OOG program funded at the same level as the legislatively adopted budget, but with a different funding mix.

## HUMAN SERVICES

### Oregon Health Authority

HB 5202 adjusts the Oregon Health Authority's (OHA) budget for updated caseload forecasts, revenue changes, and other cost variations to rebalance the agency's budget; HB 5202 also includes several program investments. The table below is a high-level summary of these changes:

<b>Oregon Health Authority</b>							
<b>2021-23 Adjustments Approved in HB 5202</b>	<b>General Fund</b>	<b>Lottery Funds</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total</b>	<b>Positions</b>	<b>FTE</b>
Rebalance	(143,756,587)	-	1,062,366,571	741,461,508	1,660,071,492	125	90.84
Behavioral Health Housing	100,000,000	-	-	-	100,000,000	2	1.26
Oregon State Hospital Staffing	10,810,943	-	-	-	10,810,943	228	188.52
Crisis Stabilization program positions	1,771,190	-	62,859	334,345	2,168,394	10	8.92
Home and Community Based Services	-	-	-	30,263,630	30,263,630	10	6.30
Citizen Waived Medical	5,400,000	-	-	8,800,000	14,200,000	-	-
Medicaid Postpartum Coverage	2,400,746	-	-	6,390,858	8,791,604	-	-
Shared Services - Office of Information Services	983,411	-	1,864,747	273,890	3,122,048	10	6.30
Human Resources and other program support	3,814,761	-	348,439	899,123	5,062,323	25	22.56
Residential rate extension	3,000,000	-	-	9,000,000	12,000,000	-	-
Coronavirus Relief Fund carryover	-	-	12,400,000	-	12,400,000	-	-

Healthy Homes Program	5,000,000	-	-	-	5,000,000	-	-
Applied Behavior Analysis rate increase	1,500,000	-	-	2,900,000	4,400,000	-	-
HB 4045 implementation	246,476	-	-	89,898	336,374	2	1.26
<b>Subtotal - Rebalance / Investment Priorities</b>	<b>6,170,940</b>	<b>-</b>	<b>1,077,042,616</b>	<b>800,413,252</b>	<b>1,883,626,808</b>	<b>412</b>	<b>325.96</b>
Statewide Salary Distribution	33,809,729	28,016	11,023,969	9,200,461	54,062,175	-	-
<b>Total OHA HB 5202 Adjustments</b>	<b>39,980,669</b>	<b>28,016</b>	<b>1,088,066,585</b>	<b>809,613,713</b>	<b>1,937,688,983</b>	<b>412</b>	<b>325.96</b>

Most of the budget rebalance adjustments were identified in a report submitted to the January 12, 2022 meeting of the Interim Joint Committee on Ways and Means. Across the agency, these adjustments result in savings of \$143.8 million General Fund, an increase of \$1.1 billion Other Funds, an increase of \$741.5 million Federal Funds, and 125 additional positions (90.84 FTE). These adjustments are summarized below according to topical area.

### OHP Caseload and Revenue

In the Health Systems Division, Oregon Health Plan (OHP) caseload costs of \$16.3 million General Fund (\$125.4 million total funds) are based on changes between the spring 2021 caseload forecast, which was used to build OHA's 2021-23 legislatively adopted budget (LAB), and the fall 2021 caseload forecast. Cumulative General Fund savings of \$122.2 million is recognized from changes in the Medicaid match rate, or Federal Medical Assistance Percentage (FMAP). This includes \$32.2 million in General Fund savings from a decrease in the federal fiscal year 2023 FMAP, as well as \$90 million from an additional three months of the 6.2 percentage point enhanced FMAP due to the continuation of the federal COVID-19 public health emergency.

Changes in forecasted tobacco tax revenue dedicated to OHP is forecasted to be higher by \$37.2 million and community mental health programs by \$0.4 million. These changes are based on the difference between the May 2021 state revenue forecast used to develop OHA's 2021-23 LAB and the March 2022 forecast. The increased Other Funds revenue saves a commensurate amount of General Fund in these programs and is largely driven by revenue collections from the new vaping tax and \$2.00 per pack tax increase on cigarettes coming in above initial projections. This upward adjustment is not expected to be part of a trend, as the long-term tobacco tax forecast continues to show decreasing revenue.

Savings of \$1.6 million General Fund results from changes OHA is making regarding the designation of the Children's Health Insurance Program (CHIP). When CHIP was authorized by Congress in 1998, the Centers for Medicare and Medicaid Services (CMS) allowed states to designate their CHIP services as a separate non-Medicaid program (S-CHIP), which Oregon chose, a Medicaid expansion program (M-CHIP), or a combination of both. OHA has requested CMS approval to switch to the M-CHIP designation effective July 1, 2022. The agency's plan would initially save \$1.6 million General Fund based on the ability to leverage increased federal match under M-CHIP for Indian Health Services (100%) and family planning services (90%), as well as additional drug rebate revenue. Also included is an \$8.6 million Other Funds increase from hospital tax revenue carried over from 2019-21 for Disproportionate Share Hospital payments. The Other Funds revenue matches \$13 million in federal revenue for payment to hospitals serving higher levels of Medicaid and uninsured individuals.

### Behavioral Health Positions

The rebalance establishes an additional 77 positions (51.20 FTE) for behavioral health programs, most of which are funded within OHA's existing budget. This includes 54 positions (36.22 FTE) in the Health Systems Division, Health Policy and Analytics Division, Central Services, and Shared Services to support the requirements of HB 2086 (2021), which established behavioral health metrics and accountability parameters for the state's behavioral health system. The 54 positions are supported from \$8.5 million in existing General Fund approved in OHA's 2021-23 LAB, as well as \$2.2 million Other Funds and \$4 million Federal Funds included in this budget rebalance adjustment.

The positions are in addition to 14 related positions already funded in OHA's budget, which results in 68 positions funded in the agency to support HB 2086 metrics and accountability work. The additional positions and related budget adjustments are approved with the understanding OHA will prioritize its budget to fully fund the ongoing behavioral health information system technology project, known as Compass Modernization, with respect to HB 2086.

Additional positions approved for behavioral health programs include the following:

- 12 positions (7.93 FTE) for Ballot Measure 110 drug treatment and recovery program services to manage contracts, assist the Oversight and Accountability Council, and work on data and information system requirements. These positions are funded from Other Funds revenue available from OHA's 4% administrative allotment within the Drug Treatment and Recovery Services Fund.
- Seven positions (4.41 FTE) for OHA to operationalize the \$130 million investment included in the agency's 2021-23 LAB for increasing the number of licensed behavioral health residential treatment facility beds across the state. These positions are funded with existing resources from this investment's administrative component and will support the request for proposal and contract management process.
- Three positions (1.89 FTE) in the Health Systems Division to work on co-occurring disorder rates (HB 2086), peer delivered services (HB 2980), and psychiatric residential treatment services (PRTS). The positions for co-occurring disorder rates and PRTS are funded within OHA's existing budget; \$191,630 General Fund is included for the peer delivered services position.
- One position (0.75 FTE) in Health Policy and Analytics for administering the new substance use disorder Medicaid waiver approved in spring 2021. This adds to one position approved in the 2021-23 LAB for supporting the waiver.

Given existing strains in the behavioral health system, and considering the increased number of behavioral health positions in the agency, the subcommittee approved the following budget note to ensure unnecessary reporting and other requirements are not being placed on the provider community:

**BUDGET NOTE:** The Oregon Health Authority (OHA) shall continue exploring ways to streamline behavioral health provider reporting requirements and remove those that are unnecessary. The agency shall present on the outcome of this work during the 2023 legislative session, including the identification of existing reporting requirements; the reporting requirements the agency has reduced, eliminated, or otherwise changed to streamline reporting processes; and the reporting requirements the agency plans to maintain and how these reports are being used. OHA shall also review and present similar information and recommendations on the number of behavioral health advisory workgroups, task forces, or similar temporary or permanent bodies that require behavioral health provider and stakeholder involvement. OHA shall include in its recommendations for both the provider reporting requirements and advisory groups any changes to state law that are necessary to remove unnecessary burdens on behavioral health providers.

#### Cover All People Administration

The rebalance includes new positions, recognizes contractual expenditures, and transfers existing funds across OHA programs and the Department of Human Services (DHS) to support the agencies' plan for administering the new Cover All People benefit, which takes effect July 1, 2022. The 2021-23 LAB included \$100 million General Fund for this program but did not fully define administrative expenses. In total, OHA and DHS will use \$16.2 million of the \$100 million for program implementation and administration, which includes \$10 million for community outreach contracts, \$1.9 million and 10 positions (7.50 FTE) for staff in the Community Partnership Outreach Program and Office of Equity and

Inclusion, \$1.2 million and five positions (3.83) for additional programmatic support in the Health Systems Division and Health Policy and Analytics, and \$3.1 million transferred to DHS for 24 enrollment and eligibility positions.

#### Psilocybin Program

For this relatively new program, \$4.1 million in one-time General Fund and 10 positions are included to fund the second year of costs for the Psilocybin Program established by Ballot Measure 109 (2020). This increase is in addition to first year funding of \$2.2 million General Fund and 14 positions in the 2021-23 LAB. Program services take effect January 1, 2023, at which time it will start collecting Other Funds revenue from licensing fees and tax revenue from the sale of psilocybin products.

#### Oregon State Hospital

The rebalance includes seven positions (4.69 FTE), along with a General Fund decrease of \$949,211 and a Federal Funds increase of \$1.6 million in the Oregon State Hospital. The General Fund savings is driven by the transition of the per diem billing model at the Pendleton Cottage to a fee-for-service model, which will leverage more federal match. The hospital will use part of this savings to establish three positions to support the billing and documentation process of this new model. An additional four positions are included for various support functions at the Salem campus. These positions are funded within existing resources by shifting costs from related contractual services. A cost shift of \$1.1 million from Federal Funds to General Fund is also included based on a reduction in the hospital's federal Disproportionate Share Hospital payment allotment, which is determined and funded separately for state psychiatric hospitals than it is for other hospitals.

#### Expenditure Limitation and Technical Adjustments

The budget includes various increases to expenditure limitations, with the following representing the major increases:

- \$982 million Other Funds in the Public Health Division for reimbursement from the Federal Emergency Management Agency transferred to OHA from the Oregon Office of Emergency Management for nurse and other staffing contracts, COVID-19 community support, testing kits, and vaccine distribution costs.
- \$408.5 million Federal Funds in the Public Health Division to support the state's response to the COVID-19 pandemic, including for laboratory costs, vaccine administration and distribution, testing, contact tracing, and isolation services, among other expenses. This funding represents supplemental awards to existing grant programs funded by the Centers for Disease Control and Prevention and was reported to the Interim Joint Committee on Ways and Means in November 2021.
- \$40.9 million Federal Funds for Mental Health and Substance Abuse Prevention and Treatment block grants based on supplemental awards from the American Rescue Plan Act.
- \$37 million Federal Funds to reflect the federal match already leveraged by General Fund in OHA's budget for increasing reimbursement rates for services treating people with behavioral health co-occurring disorders.
- \$27.5 million Other Funds in the Public Employees' Benefit Board and Oregon Educators Benefit Board for various adjustments, including one-time transitional costs related to using one actuarial consultant for both programs instead of two; payment of claims under the new

part-time higher education faculty health insurance program established in SB 551 (2021); costs associated with the benefit system replacement project; and information technology professional services.

- \$500,000 Federal Funds to support the State Marketplace Modernization grant awarded to OHA. The agency requested and received approval to apply for this grant by the Interim Joint Committee on Ways and Means in September 2021.

The rebalance also includes various small adjustments to expenditure limitations and position counts, as well as net-zero transfers across agency programs.

The measure includes several investments and adjustments outside of budget rebalance actions. Most of these represent decisions on proposals OHA presented to the January 2022 meeting of the Interim Joint Committee on Ways and Means, as well as those presented to the Joint Ways and Means Subcommittee on Human Services during the February 2022 legislative session. The information below summarizes these changes.

#### Behavioral Health Housing

To expand the availability of housing and residential treatment beds for people with behavioral health issues, the bill appropriates \$100 million in one-time General Fund in the Health Systems Division for distribution to community mental health programs (CMHP) and related administrative support in OHA. The goals of this funding are to provide an array of supported housing and residential treatment, relieve bottlenecks in the continuum of care, and address health inequities and housing access disparities, among others. The funds will be used to repurpose or build new secure residential treatment facilities, residential treatment homes, and other types of necessary housing; support operational and administrative expenses related to managing housing; provide supportive services; pay for planning, coordination, siting, and purchasing buildings or land; provide subsidies for short-term shelter beds and long-term stable rental assistance; and support outreach and engagement. The distribution of the funds are expected to be made via formula through CMHP contracts and include input from community members. OHA and CMHPs will work together to define accountability measures and reporting requirements to track progress. Supported within the appropriation are two limited duration positions (1.26 FTE), including one Operations and Policy Analyst 4 and one Operations and Policy Analyst 3 position to administer the coordination of this work and provide technical assistance.

#### Oregon State Hospital Staffing

Consistent with instruction provided in a budget note approved for HB 5024 (2021), OHA submitted recommendations for resolving staffing shortfalls at the Oregon State Hospital in November 2021. To advance the initial stage of the plan, the budget includes \$10.8 million General Fund and 228 positions (188.52 FTE). These positions include the conversion of 134 existing non-budgeted limited duration nursing staff positions to permanent full time. The remaining 94 positions include 55 from direct care classifications, including Licensed Practical Nurses, Registered Nurses, Mental Health Therapy Technicians, and Mental Health Therapist 2 positions; two Nurse Managers; 10 Mental Health Security Technicians; and 27 from clinical and other functions at the Salem and Junction City campuses. The positions and funding represent the first stage of hiring the agency presented at the January 12, 2022 meeting of the Interim Joint Committee on Ways and Means and subsequently updated to reflect hiring effective May 1, 2022.

The funding for these positions is available by disappropriating \$10.8 million of the \$20 million related special purpose appropriation to the Emergency Board established in HB 5024 (2021). In light of existing vacancies at the hospital, this investment was approved with the understanding OHA will submit monthly updates to the Legislative Fiscal Office and Department of Administrative Services Chief Financial Office identifying the number of direct care staffing hires, vacancies, overtime usage (including voluntary and mandatory), and contracted direct care staffing levels. The investment is also approved with the understanding the Oregon State Hospital will collect and report information from exit interviews for direct care staff to inform funding requests for subsequent stages of hiring.

#### Crisis Stabilization Services

HB 2417 (2021) required OHA to establish a statewide coordinated crisis services system consistent with the National Suicide Hotline Designation Act of 2020. This bill appropriated \$5 million for the crisis hotline center and \$10 million to distribute to counties to establish and maintain mobile crisis intervention teams. OHA has also received federal grant awards for program planning and to build local crisis center capacity. HB 5202 includes \$1.8 million General Fund (\$2.2 million total funds) and 10 positions (8.92 FTE) for ongoing agency operations will support implementation and oversight of the crisis system envisioned by HB 2417; the development of standards for statewide mobile crisis teams and crisis stabilization centers; development of Medicaid reimbursement opportunities; and business information system and financial management support. The positions and funding are consistent with the agency's corresponding proposal to the January 2022 meeting of Interim Joint Committee on Ways and Means.

#### Citizen Waived Medical/Postpartum Coverage

The budget for Health Systems Division includes \$5.4 million General Fund and \$8.8 million Federal Funds to expand Citizen Waived Medical services, which provides limited emergency care coverage for individuals who meet Medicaid eligibility requirements except for their immigration status. The expanded benefit provides coverage for eligible members' presenting symptoms in an emergency department as opposed to the final diagnoses. This reduces the number of individuals whose claims are denied when they seek treatment in good faith and makes available to them more emergency behavioral health services and cancer treatment. An additional \$2.4 million General Fund and \$6.4 million Federal Funds is included to expand the duration of Medicaid coverage for postpartum services from two months to 12. The expansion of these services became available to states for five years under the American Rescue Plan Act of 2021.

#### Residential Treatment Rates

Increases of \$3 million General Fund and \$9 million Federal Funds are included in the Health Systems Division to extend a one-time 10% rate increase to behavioral health residential treatment providers. This rate increase was first approved in 2019-21 and is retroactive from July 1, 2021 through December 31, 2021.

#### Coronavirus Relief Fund Carryover

In the Health Systems Division, the budget uses \$12.4 million in federal Coronavirus Relief Funds unspent by the agency in 2019-21 to pay for one-time expenses related to the agency's response to the COVID-19 pandemic. These expenses include \$3 million for vaccine incentives and lottery payments, which were announced in summer 2021; \$9 million for incentives; largely hiring and retention bonuses, for the behavioral

health workforce; and \$0.4 million for health equity grants. These funds were transferred to OHA from the Department of Administrative Services and are budgeted as Other Funds.

#### Home and Community Based Services (HCBS)

An additional \$30.3 million Federal Funds and 10 limited duration positions (6.30 FTE) are included to support OHA's spending plan for temporary enhanced federal funds for state Medicaid spending on home and community-based services. The enhanced federal match, which represents a 10% increase, is available under the American Rescue Plan Act (ARPA) for the period April 1, 2021 through March 31, 2022. Since the intent is to advance the service delivery system rather than provide state fiscal relief, ARPA also requires states to use state monies equivalent to the amount of the 10% FMAP increase to fund activities to enhance, expand or strengthen Medicaid home and community-based services. The spending plan funded under this action is consistent with the plan presented by both OHA and the Department of Human Services to the January 2022 meeting of the Interim Joint Committee on Ways and Means.

#### Administrative and Shared Services Positions

The bill includes \$3.8 million General Fund (\$5.1 million total funds) for 25 positions (22.56 FTE) to support multiple administrative and programmatic functions across the agency. The positions include 19 for human resources functions, including 10 for recruitment and retention, seven for classification and compensation reviews, and two for labor relations. The remaining six positions are for expanded work directed by the agency's Chief Financial Officer, a health equity manager and three limited duration positions in Health Policy and Analytics, and one position in the Public Health Division's federally funded Injury and Violence Prevention Program. The three limited duration positions in Health Policy and Analytics are funded with vacancy savings transferred from the Central Services Division and will work on a stopgap data repository for the implementation of HB 3159 (2021).

An additional \$983,411 million General Fund (\$3.1 million total funds) and 10 positions (6.30 FTE) are included for the Office of Information Services, which is a shared administrative service supporting both OHA and the Department of Human Services. The positions are included to address increasing project demands and the need to decrease wait times for projects to start.

#### Other Adjustments

The measure also includes the following additional investments in OHA:

- \$15 million in one-time General Fund for distribution to Seeding Justice for advancing reproductive health equity.
- \$5 million General Fund in the Public Health Division to increase support for the Healthy Homes program established in HB 2842 (2021). This program provides grants to repair and rehabilitate residences for low income households and landlords with low-income tenants.
- \$1.5 million General Fund and \$2.9 million Federal Funds in the Health Systems Division to increase specific applied behavior analysis fee-for-service and coordinated care rates for behavior treatment with protocol and family behavior treatment guidance.

- \$246,476 General Fund and \$89,898 Federal Funds to support two positions (1.26 FTE) in the Health Systems Division and Public Health Division. These positions, both of which are Operations and Policy Analyst 3 positions, will support OHA’s role in implementing the community violence prevention grant program established by HB 4045 (2022).

**Department of Human Services**

HB 5202 adjusts the Oregon Department of Human Services (ODHS) budget for updated caseload forecasts, and other cost variations to rebalance the agency’s budget. The measure also includes several program investments. The following table provides a high-level summary of these changes:

<b>Oregon Department of Human Services</b>						
<b>2021-23 Adjustments Approved in HB 5202</b>	<b>General Fund</b>	<b>Other Funds</b>	<b>Federal Funds</b>	<b>Total</b>	<b>Positions</b>	<b>FTE</b>

### Vocational Rehabilitation Rate Parity

The Subcommittee approved \$3.6 million Other Funds expenditure limitation on an ongoing basis for the Oregon Department of Human Services to increase provider rates for Vocational Rehabilitation (VR) employment services. Effective July 1, 2022, VR rates for employment services will increase to match the Office of Developmental Disabilities Services rates for employment services. The increase will be supported through the 2023-25 biennium using an accumulated balance in the Youth Transitions program. Beginning in 2025-27, General Fund would be needed to cover the ongoing cost. As part of this package, four permanent, full-time Program Analyst 2 positions (2.52 FTE) were authorized to conduct outreach and provide technical assistance to current and prospective employers at a total cost of \$503,528, including \$468,808 for personal services, and \$34,720 for services and supplies. In the current biennium, these costs are covered using repurposed General Fund savings of \$251,768 and existing Federal Funds limitation of \$251,760.

### Non-State Employee Compensation Changes

The Subcommittee approved a \$20 million General Fund appropriation (\$58.2 million total funds) to the Oregon Department of Human Services to support the cost of collective bargaining agreements for non-state workers. This covers a workforce of more than 39,000 adult foster home providers, personal support workers, and home care workers who collectively serve an estimated 31,000 Oregonians monthly. Personal Support Workers care for clients in the Intellectual and Developmental Disabilities program. Home Care Workers serve clients in the Aging and People with Disabilities program. There is a corresponding decrease of \$20 million General Fund to the special purpose appropriation established by HB 5006 (2021) to cover the cost of non-state employee compensation changes.

### Home and Community-Based Services Investments

The Subcommittee approved \$435.6 million Federal Funds expenditure limitation and 95 limited-duration positions at the Oregon Department of Human Services to implement various investments in Medicaid home and community-based services (HCBS) funded by one-time enhanced federal funds authorized in the American Rescue Plan Act. This includes investments in the HCBS program infrastructure, workforce, and consumer and provider benefits. At ODHS, HCBS services are primarily administered by the Intellectual and Developmental Disabilities (I-DD) and Aging and People with Disabilities (APD) programs. This package includes \$251.8 million Federal Funds and 57 limited-duration positions (50.17 FTE) for the I-DD program, and \$183.8 million Federal Funds and 38 limited-duration positions (30.19 FE) for the APD program.

### Employee Incentive Payments

The Subcommittee approved \$1.5 million General Fund (\$11.6 million total funds) for the Oregon Department of Human Services to fund retention incentive payments for direct care workers in nursing facilities, child and adult group homes, and the Stabilization and Crisis Unit. Specifically, these dollars are provided to fund: (1) a one-time \$500 bonus for eligible staff working in group homes and nursing facilities during the period October 8, 2020 through November 15, 2021; and, (2) a temporary pay raise lasting through January 31, 2022 for Stabilization and Crisis Unit (SACU) employees who provide direct resident care. In addition to General Fund dollars, this package includes \$7.8 million in Other Funds expenditure limitation for use of Coronavirus Relief Fund monies to be transferred to DHS from the Oregon Department of Administrative services, and \$2.3 million in Federal Funds expenditure limitation.

### Child Welfare Positions

The Subcommittee approved an increase of \$15.9 million General Fund (\$26.3 million total funds) and 99 permanent positions (87.12 FTE) for the Oregon Department of Human Services to address non-budgeted positions in the Child Welfare program and in other areas of the department that support the Child Welfare program. This includes \$10.9 million General Fund and 59 positions (51.92 FTE) in the Child Welfare program, \$4.4 million General Fund and 34 positions (29.92 FTE) in Central Services, and 0.5 million General Fund and six positions (5.28 FTE) in State Assessment and Enterprise-wide Costs for child-welfare related work. There is a corresponding decrease of \$15.9 million General Fund to the special purpose appropriation established by SB 5529 (2021) to cover the cost of these positions.

### Behavior Rehabilitation Services

The Subcommittee approved a joint request from the Oregon Department of Human Services and the Oregon Youth Authority to repurpose \$7.7 million in General Fund savings (\$12.9 million total funds) resulting from lower than budgeted utilization in the Behavior Rehabilitation Services (BRS) program to support systems of care for children and families, including \$3 million General Fund on a one-time basis for supplemental payments to BRS providers and other contracted community-based providers experiencing COVID outbreaks and quarantines, effective November 1, 2021 through June 31, 2023; and, \$4.7 million General Fund on a one-time basis to reserve bed capacity, effective November 1, 2021 through June 31, 2023.

### Treatment Foster Care Services

The Subcommittee approved a one-time increase of \$250,000 General Fund in the Oregon Department of Human Services budget to support contracts for technical assistance in the development of culturally responsive behavioral health treatment foster care services, a new type of care -- piloted through a funding allocation from the 2019 legislative session -- that leverages Behavior Rehabilitation Services and Community Based Behavioral Health Services through the Oregon Health Authority and Coordinated Care Organizations. This initiative is intended to provide whole-child care for children with psychiatric needs within a familial setting.

### Temporary Assistance to Needy Families

The Subcommittee approved an increase of \$1 million General Fund and \$25.1 million Federal Funds expenditure limitation for the Oregon Department of Human Services' Self-Sufficiency program to implement changes to Temporary Assistance to Needy Families (TANF) eligibility and cash benefits and to expand access to contracted Family Supports and Connections services. The package includes:

- \$63,650 General Fund (\$0.3 million total funds) to increase the TANF resource limit from \$2,500 to \$10,000, allowing families to retain more of their resources and still qualify for cash assistance.
- \$0.9 million General Fund (\$4.5 million total funds) to end full-family disqualifications. This will allow the Self-Sufficiency program to assign 75% of the monthly cash grant to the dependent child in the assistance unit, preserving family income support for the children.
- \$13.8 million Federal Funds expenditure limitation to implement a clothing allowance benefit that will provide TANF participants three \$270 clothing allowances per year -- in the fall, winter, and summer.

- \$7.3 million Federal Funds expenditure limitation to expand access to Family Supports and Connections services focused on child abuse and neglect prevention strategies, such as home visits, parental training, and coping skills, which have been shown to reduce reliance on child welfare services. Of the total, \$7 million is to be used to expand access to these services to more than 4,800 TANF and SNAP families, \$330,000 is to be used to expand the availability of culturally responsive services through the Cultural Enhancement Project, and \$17,700 is to expand Parent Voice, which provides compensation to parents to facilitate their participation in the program design process and support ongoing parental engagement in programming.
- \$177,788 Federal Funds limitation for one permanent full-time Operations and Policy Analyst 3 position (0.63 FTE) to support implementation and ongoing operations of the program. This includes \$147,812 for personal services, and \$29,976 for services and supplies costs.

This package is mostly funded using a one-time accumulated balance of TANF block grant funds the department estimates will be fully expended in the 2025-27 biennium, at which point a larger share of the cost would potentially need to be covered by the General Fund. The timeframe could vary depending on several variables, including, most notably, TANF caseload trends and how long it takes to expand the contracted provider network to meet the funded service levels. During the 2023 legislative session, an informational hearing will be scheduled in the Human Service Subcommittee for the agency to provide an update on implementation of the TANF changes funded in this package.

#### Emergency Food Supply

A one-time increase of \$3 million General Fund was approved to fund the Oregon Food Bank’s emergency food supply stabilization efforts.

#### 2-1-1 Information Service

A one-time increase of \$1 million General Fund was approved to support making the 2-1-1 information service available 24 hours a day, seven days a week. The 2-1-1 information service helps Oregonians identify, navigate, and connect with local resources, including, for example, food, emergency shelter, and utility assistance resources.

#### Family Treatment Courts

The Subcommittee approved \$1.1 million General Fund for the Oregon Department of Human Services to support family treatment courts, including a new program in Clatsop County and an existing program in Columbia county. The package includes \$133,819 for one permanent full-time position (0.50 FTE) to serve on a statewide family treatment court governance committee; \$759,880 to cover ODHS’ legal bills for Department of Justice support; and, \$213,275 to assist families participating in the family treatment courts in Clatsop and Columbia counties.

#### Long Term Care Provider Rates

To address the higher costs of providing long-term care during the public health emergency and to preserve access to care, an increase of \$35.2 million General Fund (\$102.1 million total funds) was approved for the Department to increase Medicaid rates for nursing facilities, home and community based care providers, in-home care agencies, and children’s intensive care private duty nurses. This includes:

- For nursing facility providers, \$13.4 million General Fund one-time (\$37.5 million total funds) to extend the 5% COVID add-on through the end of the 2021-23 biennium. Under current law, this add-on will expire on March 31, 2022.
- For community-based care providers, \$9.7 million General Fund one-time (\$28.8 million total funds) to extend the 5% COVID add-on through the end of the 2021-23 biennium, and \$8.2 million General Fund ongoing (\$24.2 million total funds) to increase the COLA for these providers to 10% for the second year of the biennium. Under current law, the COVID add-on will expire on March 31, 2022, and the COLA is set at 5%.
- For in-home care agencies, \$2.1 million General Fund one-time (\$6.3 million total funds) to extend the 5% COVID add-on through the end of the 2021-23 biennium, and \$1.8 million General Fund ongoing (\$5.3 million total funds) to increase the COLA for these providers to 10% for the second year of the biennium.
- For children’s intensive care private duty nurse providers, \$46,000 General Funds ongoing (\$115,000 total funds) to increase the COLA to 10% for the second year of the biennium. Current law provides for a 5% increase.

Additionally, \$10 million General Fund was approved on a one-time basis to reimburse nursing facilities for the costs of testing employees for COVID-19, as well as \$2.5 million General Fund on a one-time basis to ensure access to essential long-term care services and supports in underserved communities.

Workload/Staffing Impacts of Provider Time Capture and ONE Eligibility Systems Rollout

During the 2022 legislative session, agency stakeholders expressed concerns about workload and staffing impacts related to both the Provider Time Capture and ONE integrated eligibility systems. Since both systems are relatively new, having been implemented in the last year, there have been challenges related to that transition. Other workload demands and staffing shortages are more tied to increases or changes in caseloads primarily due to the pandemic; some policy or legislative changes have driven others. Due to these concerns, the Subcommittee approved the following budget note:

**BUDGET NOTE:** The Oregon Department of Human Services (ODHS) will work with stakeholders to collect information on the impacts of the Provider Time Capture and ONE integrated eligibility systems on workload and staffing for both ODHS and agency partners. The compiled information should be provided as an addendum to the Department staffing proposal required to be prepared and reported on this year under HB 2102 (2021).

During the 2023 legislative session, an informational hearing will be held in the Human Services Subcommittee for ODHS and stakeholders to provide information on workload and staffing issues, along with potential solutions and/or related budget recommendations.

Shared Services - Information Services, Financial Services, and Internal Audits

An increase of \$1.2 million General Fund (\$3.2 million total funds) was approved for the Oregon Department of Human Services’ Shared Services Offices. Specifically, this includes \$0.7 million General Fund (\$1 million total funds) for special payments to cover ODHS’ share of

cost for ten new permanent full-time positions in the Oregon Health Authority budget for the Office of Information Services for information technology project support; \$0.4 million General Fund (\$1.5 million total funds) for six permanent full-time positions (3.78 FTE) in the Office of Financial Services for workload related to reporting, accounts payable, and accounting structures; and, \$0.2 million General Fund (\$0.7 million total funds) for two permanent full-time positions (1.38 FTE) in the Internal Audit Center for workload related to controls and practices in federal funds accounting and monitoring.

#### Office of Resiliency and Emergency Management - Staffing Agency Contracts

The Subcommittee approved a one-time General Fund increase of \$9.2 million for the Oregon Department of Human Services to address pandemic-related staffing shortages experienced by Office of Developmental Disabilities Services' providers serving vulnerable Oregonians. In October 2021, ODHS contracted with several staffing resource agencies to help providers fill gaps in coverage for a 90-day period - through the end of December. The contracts were subsequently extended for a second 90-day period. The funding in this package is intended to cover contract costs for the period October 1, 2021 through March 31, 2022.

As part of HB 5006 (2021), the Legislature approved 9 limited-duration positions (7.50 FTE) for ODHS' Office of Resiliency and Emergency Management to support wildfire recovery and other efforts. The Subcommittee approved making these permanent full-time positions in support of the agency's responsibilities under the state's Comprehensive Emergency Management Plan.

#### Fall 2021 Rebalance

For the Oregon Department of Human Services' first financial rebalance of the 2021-23 biennium, the Subcommittee approved adjustments resulting in a net General Fund savings of \$38.2 million, an Other Funds expenditure limitation increase of \$109.2 million, and a Federal Funds expenditure limitation decrease of \$7 million; and, authorized a total of 71 new positions (45.60 FTE). The adjustments encompass a number of issues affecting the ODHS' budget, including savings or funding gaps due to changes in caseload, cost per case, and the federal medical assistance percentage (FMAP); costs associated with COVID-19; and other program changes arising since the 2021 legislative session. The major ODHS rebalance adjustments include:

- \$64.9 million General Fund decrease due to lower Fall 2021 caseload, compared to Spring 2021.
- \$24.4 million General Fund decrease resulting from an increase in the FMAP rate.
- \$24.9 million General Fund increase for higher costs per case in the Intellectual/Development Disabilities and Child Welfare programs.
- \$8.5 million General Fund increase to cover contracts for additional nursing facility beds to mitigate COVID-19-related hospital bed shortages in Southern Oregon.
- \$9.5 million General Fund increase to reimburse nursing facilities for costs related to testing employees for COVID-19.
- \$3.1 million General Fund increase for 24 positions (14.86 FTE) to implement HB 3352 which expanded health coverage to adults who would be eligible for Medicaid except for their immigration status HB 3352 (2021).

- \$40 million increase in Other Funds expenditure limitation for anticipated wildfire-related FEMA reimbursement.
- \$69.4 million increase in Other Funds expenditure limitation for anticipated COVID-related FEMA reimbursement.
- \$12.3 million increase in Federal Funds expenditure limitation for TANF Pandemic Emergency Assistance Payments.
- \$7.3 million increase in Federal Funds expenditure limitation and three positions (2.33 FTE) in Vocational Rehabilitation to implement the federal Disability Innovation Fund grant.
- \$3.1 million increase in Federal Funds expenditure limitation for 25 permanent positions (16.75 FTE) to serve SNAP navigators.
- \$1.6 million increase in Federal Funds expenditure limitation for 10 limited-duration positions (5.80 FTE) to administer federal grants to enhance and improve adult protective services and support COVID-19 prevention and response activities.

In addition, various budget-neutral technical adjustments were approved related to internal transfers of positions and funding. The agency noted in the rebalance report several potential risks to its budget, including for example, changes in program caseloads and cost per case, the impact of COVID policies on workload and staff resources and general uncertainty regarding the resources required to implement legislative program changes.

Office of Immigrant and Refugee Advancement Transfer

SB 1550 (2022) transfers the Office of Immigrant and Refugee Advancement from the Office of the Governor to the Oregon Department of Human Services, including four positions (3.83 FTE) --which have not been filled since being established--and \$1,376,037 General Fund; these budget adjustments are included in HB 5202.

Long Term Care Ombudsman

The Subcommittee approved an Other Funds expenditure limitation increase of \$258,160 for the Long Term Care Ombudsman to allow the agency to use federal American Recovery Plan Act funds transferred from the Oregon Department of Human Services for COVID-19 response activities. Also approved was \$6,000 Other Funds expenditure limitation to allow the agency to use donations received in support of the Oregon Public Guardian and Conservator program.

**JUDICIAL BRANCH**

Oregon Judicial Department

The Subcommittee approved a \$3.9 million General Fund and authorized the establishment of 40 permanent full-time positions (20.00 FTE) for expansion of the pretrial release program. The department will provide Release Assistance Officers (RAO) in 17 counties that currently do not have pretrial release staffing and augment staffing in two additional counties with established programs (Josephine and Washington).

For the reorganization of the Office of the State Court Administrator, the Subcommittee approved \$2.4 General Fund and authorized the establishment of 15 permanent full-time positions (8.75 FTE) with instructions that the Department work with the Legislative Fiscal Office to align the Department's 2023-25 budget structure with the reorganization.

The Subcommittee approved \$762,623 General Fund and authorized the establishment of three permanent full-time positions (1.50 FTE) for family treatment courts. The Department will convene a statewide family treatment court governance committee, add a new family treatment court in Clatsop County and augment staffing to an existing family treatment court in Columbia County.

To replace aging grand jury recording equipment, the Subcommittee approved \$337,000 General Fund, on a one-time basis. The Subcommittee also approved \$275,752 in Federal Funds expenditure limitation, on a time-time basis, and authorized the establishment of two limited duration (1.00 FTE) to perform work for a U.S. Department of Health and Human Services, Administration of Community Living, Elder Justice Innovation grant. The grant is to conduct a self-assessment of guardianship and conservatorship monitoring practices across circuit courts.

The Subcommittee approved \$113,700 and authorized the establishment of one permanent full-time Law Clerk (0.58 FTE) in the Tax Court to assist with the Corporate Activities Tax caseload.

For the Clackamas County Courthouse replacement project, the Subcommittee approved a supplemental increase of \$95.4 million Other Funds expenditure limitation, on a one-time basis. The request includes \$94.5 million of state matching funds and \$900,000 for costs of issuance of the bonds. The Legislature in 2021 authorized the issuance of \$95.4 million in Article XI-Q general obligation bond (SB 5505, 2021) to funds that state's matching funds commitment. The draft Master Funding Agreement meets the constitutional requirements for the issuance of general obligation bonds and the and statutory requirements under the Oregon Courthouse Capital Construction and Improvement Fund.

The Subcommittee approved a supplemental increase of \$8.9 million Other Funds expenditure limitation, on a one-time basis, for the Crook County Courthouse replacement project. The request includes \$4.4 million of state matching funds, including \$28,295 for bond costs of issuance, and \$4.4 million to meet the local matching funds requirement. Article XI-Q general obligation bond proceeds will be used to fund the state's matching funds commitment (SB 5701). Also approved was \$1.5 million General Fund, on a one-time basis, for a Deschutes County Circuit Court renovation and expansion project and \$2 million General Fund, on a one-time basis, for Columbia County Courthouse life safety and accessibility improvements.

To support a single, coordinated eportal to connect Oregonians with civil legal assistance, the Subcommittee approved \$2.3 million General Fund, on a one-time basis, for distribution to the Oregon State Bar Association for the OregonLaw+Connect information technology project.

The budget changes approved for the Department also include following technical adjustments:

- Re-establishment of a 2019-21 biennium \$2 million General Fund appropriation, on a time-time basis, for planning for the replacement of the Benton County Courthouse.
- Transfer \$250,000 Other Funds expenditure limitation for Article XI-Q general obligation bond cost of issuance associated with the Supreme Court Building Renovation Project from the Capital Construction to the Administration and Central Support Division.
- Transfer 2019-21 General Fund Carryforward savings for the Counsel on Court Procedures (\$51,710) and debt service (\$10,249) to the Administration and Central Support Division.

**Public Defense Services Commission**

For the procurement of indigent defense counsel in Multnomah, Washington, Marion, and Lane counties, the Subcommittee approved \$12.8 million General Fund, on a one-time basis. The appropriation will address the current backlog of unrepresented clients in the four counties and provide increased attorney capacity for the remainder of the biennium, according to PDSC.

The Subcommittee approved \$743,588 General Fund, on a one-time basis, and authorized the establishment of two positions (1.26 FTE) for the re-initiation of the planning phase of the Financial and Case Management information technology project. A budget note was also adopted:

**BUDGET NOTE:** The Public Defense Services Commission is directed to report to the Joint Legislative Committee on Information Management and Technology and the Joint Committee on Ways and Means during the 2023 legislative session on the status of the re-initiation of the planning phase of the Financial/Case Management System (F/CMS) information technology project. The report shall include: a detailed business case, project timeline, and cost estimates. The Commission is to follow the Stage Gate or a similar disciplined process related to information technology projects, including development of key artifacts and independent quality assurance oversight.

Other approved changes are an increase of \$380,436 General Fund, on a one-time basis, and the authorization to establish of one limited duration full-time position (0.50 FTE) to implement SB 578 (2021) and the payment of private counsel, with instruction that the agency work with the Legislative Fiscal Office to establish a new budget structure in the state’s budget system for civil-related activities.

The Subcommittee approved \$259,969 General Fund and authorized the establishment of one permanent full-time position (0.58 FTE) for the Appellate Division, Juvenile Appellate Section, to support caseload growth. Related to family treatment courts, the Subcommittee approved \$195,833 General Fund and authorized the establishment of one permanent full-time position (0.50 FTE) in the Juvenile Division. The position will serve on a statewide family treatment court governance committee.

**Commission on Judicial Fitness and Disability**

The Subcommittee approved \$15,000 of General Fund, on a time-time basis, to resolve an underfunding Other Payroll Expenses for the Commission’s executive director position.

## LEGISLATIVE BRANCH

### Legislative Administration Committee

The Subcommittee approved increasing Other Funds expenditure limitation by \$4,205,000 for the balance of general obligation bond proceeds issued in the prior biennium for the Document Publishing and Management System (DPMS) that will be expended during 2021-23. Other Funds expenditure limitation of \$235,000 was also established for the cost of issuing Article XI-Q bonds authorized in SB 5701 for the third phase of the Capitol Accessibility, Maintenance, and Safety (CAMS) project to further capital improvements to the State Capitol Building, including upgrades to the 1938 building for improved functionality, fire protection systems, seismic retrofits, roof repairs, security upgrades, IT and media modernization, and upgrades to remaining mechanical, electrical, and plumbing equipment not addressed in phases I and II. Bonds are scheduled to be sold in spring 2023, so no additional debt service is due in the 2021-23 biennium. CAMS III has a total estimated cost of \$375 million through the 2023-25 biennium, with a total of \$242,711,000 approved in the Capital Construction bill (SB 5702) through a combination of bond proceeds (\$19,630,000) and General Fund (\$223,081,000) to support 2021-23 expenditures.

A one-time General Fund reduction of \$23,178,950 from unexpended 2019-21 General Fund legislative agency appropriations was approved to partially support the cost of CAMS III. Reductions eliminated General Fund carried forward for the Legislative Assembly, Legislative Fiscal Office, Legislative Policy and Research Office, Legislative Revenue Office, and Commission on Indian Services and reduced Legislative Administration and Legislative Counsel carryforward balances to \$1,077,899 and \$153,036, respectively. The remaining unexpended 2019-21 General Fund in Legislative Administration will support the addition of a permanent full-time Security Manager position (0.54 FTE) totaling \$123,416 and additional security projects and costs of \$500,000 in the 2021-23 biennium. The balance in Legislative Counsel is anticipated to support additional publication services staff overtime costs.

## NATURAL RESOURCES

### Department of Agriculture

The Subcommittee approved a one-time General Fund appropriation of \$180,000 to support the Department's Animal Rescue Entity Program established by SB 883 (2019). This program regulates animal rescue entities through licensure and inspections of facilities and was intended to be a self-funded program. When first established, there was anticipated to be around 515 organizations that would require licensure in Oregon, however ORS 609.415 provides that entities with less than ten animals in their custody are not required to be licensed. To date, only 135 entities are full licensed, while 104 report being under the 10-animal requirement. As a result, the annual fee of \$375 is not sufficient to fund the Natural Resource Specialist 3 (1.00 FTE) position that administers the program. The funding provided is intended to keep the program operational for the remainder of the biennium, and the Department is expected to return to the 2023 legislature with proposals for program sustainability.

Additionally, the Subcommittee approved the establishment of two limited duration positions, a full-time Program Analyst 1 (0.71 FTE) and a half-time District Veterinarian (0.35 FTE) as part of a National Animal Disease Preparedness and Response Program grant received from the U.S. Department of Agriculture. The legislature provided retroactive permission to apply at the November 2021 meeting of the Interim Joint Committee on Ways and Means and the Department received funding in December 2021.

### **Columbia River Gorge Commission**

A General Fund appropriation of \$25,000 was provided for the Columbia River Gorge Commission to cover Oregon's 50 percent share of increased operating costs. The increased costs were a result of increases in Washington's budget related to audit services, central services, wage increases, and employee insurance benefits.

### **State Department of Energy**

The Subcommittee approved a one-time General Fund appropriation of \$5 million for the solar rebate program established in HB 2618 (2019). The \$5 million will be deposited into the Rooftop Solar Incentive Fund for the issuance of rebates and to pay for implementation and administration of the solar rebate program. This is the program's third influx of one-time General Fund, including \$2 million in 2019-21, and \$10 million in HB 5006 (2021). This additional amount available for rebates can be administered within existing resources.

The Subcommittee also approved an adjustment to the General Fund debt service provided to the Department for the Small-Scale Energy Loan Program (SELP). This debt service, totaling \$3.5 million, is due to losses sustained from loans dating back to 2007 and was provided in HB 5006 (2021) to cover bond payments due in April 2022 and 2023. However, the statutory provisions of the SELP program require that any debt service payments must be paid through the Small-Scale Local Energy Project Administration and Bond Sinking Fund established in ORS 470.300. As a result, the General Fund debt service provided in HB 5006 has been eliminated and \$3.5 million of General Fund has been appropriated for deposit into the Sinking Fund. A corresponding Other Funds expenditure limitation has been provided to pay the debt service out of the Fund in 2022 and 2023.

### **Department of Environmental Quality**

As part of an overall statewide investment in climate, the Subcommittee approved two separate one-time General Fund appropriations of \$15 million to be deposited into dedicated funds for programs at the Department of Environmental Quality (DEQ). The first \$15 million was deposited into the Zero-Emission Incentive Fund to provide additional funding for the electric vehicle rebate program known as the Oregon Clean Vehicle Rebate Program. This program was established in HB 2017 (2017) and is funded from privilege tax revenue of approximately \$12 million per year. With increased growth in the electric vehicle sector in recent years, the program is anticipated to be oversubscribed. A corresponding \$15 million of Other Funds expenditure limitation was provided for DEQ to expend the monies in the fund in the form of additional rebates, which can be administered within existing agency resources.

The second \$15 million was deposited into the Medium and Heavy-Duty Electrification Fund, established in HB 4139 (2022) for a grant program supporting medium and heavy-duty zero-emission vehicle charging and fueling infrastructure projects. This one-time funding is intended to

support grants to public or private entities for capital improvements and technical assistance to support the installation of charging infrastructure for zero-emission medium and heavy-duty vehicles. Projects will be awarded through a competitive request for proposal process with priority given to projects located in communities disproportionately impacted by diesel pollution or are connected to proposed or existing transportation corridor projects, and projects that demonstrate available matching funds. A corresponding \$15 million of Other Funds expenditure limitation was provided to expend the monies in the fund. Included in this amount are anticipated costs for administrating the grant program, including the establishment of a limited duration Operations and Policy Analyst 2 position (0.63 FTE). Total administrative costs are estimated to be \$373,329 in the 2021-23 biennium, including potential contracting costs. Depending on the Department's ability to initiate the program, demand for the grants and distribution of available funding, DEQ may need to request carry forward of Other Funds limitation and position authority for this program as part of its 2023-25 budget request.

The Subcommittee provided the following instruction to the Department of Environmental Quality and the Department of Transportation:

**BUDGET NOTE:** The Department of Environmental Quality and the Oregon Department of Transportation are directed to report back to the Joint Committee on Transportation and the appropriate interim budget committee by December 1, 2022, with an analysis of existing incentives available to support the transition to zero emission medium and heavy duty transportation fleets. The agencies are further directed to research incentives offered in other states and to provide recommendations on expanding or creating incentives to support businesses in the transition to zero emission medium and heavy-duty vehicles. This effort should include analyses on incentives for both vehicles and electric charging or other fuel infrastructure.

Additionally, the Subcommittee approved \$517,000 General Fund to support laboratory operations, including \$217,000 for a permanent full-time Principle Executive Manager E position (0.63 FTE) to aid in management and operations of the DEQ Lab. Costs of this position are distributed across all three major program areas of Air Quality, Water Quality, and Land Quality. Of the amount provided, \$300,000 is one-time for the repair or replacement of analytical equipment. The Subcommittee also approved \$484,553 General Fund for information technology costs related to DEQ's use of the State Data Center and increased use of enterprise and backup storage as well as LAN services. These costs are part of assessments paid to the Department of Administrative Services.

Finally, the Subcommittee approved \$56,604 Other Funds expenditure limitation and establishment of a permanent half-time Operations and Policy Analyst 2 position (0.25 FTE) to oversee the Mattress Stewardship Program established by SB 1576 (2022). Funding for the position is expected to come from an annual fee, to be established by rule, paid by stewardship organizations.

#### **State Department of Fish and Wildlife**

As part of a statewide drought resiliency package, the Subcommittee approved \$15.6 million General Fund to the Department of Fish and Wildlife (ODFW). Included in this funding is \$8 million for fish passage barrier removal, \$5 million for deposit into the Oregon Conservation and Recreation Fund established in HB 2829 (2019), and \$2.6 million for activities to improve drought resiliency including river temperature and streamflow monitoring. The Department anticipates utilizing these funds for the procurement of temperature loggers and streamflow gauges, to

conduct coldwater refugia mapping, and to address a backlog of new instream water right applications. To accomplish this work, ODFW will establish seven limited duration positions (3.33 FTE) including two Natural Resource Specialist 3's and a Natural Resource Specialist 2 (0.67 FTE each), and four Biological Science Assistants (0.33 FTE each). Cost of the positions is anticipated to be \$541,116 General Fund. Included in the total is at least \$750,000 of funding to the U.S. Geological Survey (USGS) for placement and maintenance of approximately 25 streamflow gauges, with the possibility for matching funding from USGS that would increase that total to 50.

The General Fund provided for the drought resilience package is one-time, except for the USGS funding and \$50,000 for gauges to be placed in priority basins identified by the Department. With only 16 months remaining, it may be difficult for the Department to accomplish some of the anticipated activities by the end of the biennium, considering that much of this work is related to gathering and analyzing ongoing data. It would not be unexpected for the Department to seek supplementary or ongoing resources as part of the agency's 2023-25 budget request.

Finally, \$6 million of Other Funds expenditure limitation was approved for funds deposited into the Oregon Conservation and Recreation Fund, including the \$5 million mentioned above and \$1 million from American Rescue Plan Act Coronavirus State Fiscal Recovery Fund monies designated in HB 5006 (2021).

#### **Department of Forestry**

The Subcommittee approved an appropriation of \$46,298,469 General Fund to the Oregon Department of Forestry for the payment of emergency fire costs related to the 2021 wildfire season. Of the total amount, \$6,141,267 was provided to address the payment of costs associated with severity resources. A corresponding reduction in the special purpose General Fund appropriation to the Emergency Board for severity resources was also made. The remaining \$40,157,202 is the net estimated direct cost of emergency fire suppression allocated to the General Fund. Additionally, an increase of \$78,218,491 Other Funds expenditure limitation was approved for the processing of payments of expenses incurred during the 2021 fire season that are anticipated to be paid from non-General Fund sources including: federal agency reimbursements, federal emergency fire grant assistance, other agency reimbursements, and private landowner assessments.

#### **Department of Land Conservation and Development**

Other Funds expenditure limitation of \$90,660 was provided for the Department of Land Conservation and Development from the City Economic Development Pilot Program Fund established by HB 2743 (2017). The expenditure limitation had been inadvertently phased out by the Department during the previous budget cycle. Approximately \$36,700 in funds remain in the City Economic Development Pilot Program Fund. The funds were provided by the City of Madras for the pilot program. The funding will be returned to the City of Madras less any costs associated with the Department's report required by section 5 of HB 2743 (2017).

The Subcommittee approved one-time General Fund of \$150,000 for the Department of Land Conservation and Development (DLCD) to expand current work on the Regional Housing Needs Analysis implementation. This investment will allow the agency to support anticipated interim work by legislators and stakeholders around housing and land supply issues; that support may include professional facilitation along with administrative, logistical, and technical services.

### **Land Use Board of Appeals**

A joint report that was due during the 2022 Legislative session between the Land Use Board of Appeals and Department of Administrative Services Enterprise Information Services was deferred until the end of 2022. The report was to provide progress on foundational work for an electronic filing and case management system for the Board, including any funding requirements. The Board stated that it has not had the staff capacity to oversee or initiate this project due to two of the six Board personnel being on extended leave in 2021.

### **Oregon State Marine Board**

To support expenditure of a recent grant award from the National Oceanic and Atmospheric Administration, an increase in Federal Funds expenditure limitation of \$50,000 was approved; this funding will be used to remove and mitigate abandoned and derelict vessels.

### **Department of State Lands**

A one-time General Fund appropriation of \$121,000,000 for the Department of State Lands (DSL) was approved by the Subcommittee. It is intended to satisfy the financial obligations to the Common School Fund related to the Elliot State Forest. The Forest was appraised in 2016 at a value of \$221 million, and \$100 million was paid to the Common School Fund from the proceeds of certificates of participation that were authorized for issuance in 2019. Based on this appraisal, decoupling the Forest from the Common School Fund is estimated to cost \$121 million. Once decoupled, the Elliot State Forest would transfer from DSL oversight to the newly established Elliott State Research Forest Authority as provided in HB 1546 (2022). Satisfying the financial obligations to the Common School is one of the tasks that must be completed prior to that measure becoming operative on January 1, 2024.

A one-time General Fund appropriation of \$1 million was provided to DSL for deposit into the Oregon Ocean Science Fund established under ORS 196.567. The funds are to be spent by the Oregon Ocean Science Trust to further science and monitoring along Oregon's ocean and coastal habitats, which includes nearshore keystone species such as sea otters, kelp and eelgrass habitat, and sequestration of blue carbon. A corresponding Other Funds expenditure limitation increase was provided to DSL for these funds to be spent in the manner described.

### **Water Resources Department**

A technical adjustment was included for the Water Resources Department that disassociated \$435,994 General Fund intended for the payment of limited-duration position costs and other associated administrative expenses of the Water Well Abandonment, Repair and Replacement Fund established by ORS 537.766 from monies that had been intended for deposit in the fund. Although the total amount of General Fund appropriated remains unchanged, this adjustment allows for the payment of these position costs directly instead of through the fund, which does not explicitly provide for this use of the monies in the fund. No additional position authority is provided with this adjustment as the positions were authorized by SB 5561 (chapter 4, Oregon Laws 2021, 2nd Special Session). A corresponding reduction in the Other Funds expenditure limitation that was provided for the payment of costs associated with these positions and associated administrative expenses from the fund was also approved.

### **Oregon Watershed Enhancement Board**

A \$239,000 one-time General Fund appropriation to the Oregon Watershed Enhancement Board (OWEB), the authorization to establish a limited duration position (0.67 FTE), and the extension of an existing position (0.36 FTE) was approved to support the OWEB administration of drought relief programs and funding as provided by chapter 4, Oregon Laws 2021. The appropriated amount includes funding for the direct position costs and position associated services and supplies costs.

The Subcommittee approved a one-time General Fund appropriation of \$5,203,786 to OWEB and the authorization to establish a limited duration position (0.63 FTE), for the purpose of creating a grant program to provide funding for on the ground actions supporting the recovery of natural resource lands impacted by the 2021 wildfire season. These actions include soil stabilization and erosion control, detection and treatment for invasive species, reseeding and replanting, habitat restoration and culvert repair or replacement. \$5 million will be distributed as grants with the remaining funding used to support position and other administrative costs of the program.

A one-time General Fund appropriation of \$10 million for deposit in the Flexible Incentives Account was also provided; a corresponding \$10 million Other Funds expenditure limitation from the account was established along with the authorization to establish a limited duration position (0.63 FTE) and extend the service of a second, existing, limited duration position (0.31 FTE) to support a program providing grants that support the voluntary transfer of water rights to improve legally protected streamflows. This support is supplemental, and additive to the agency's existing water acquisition grant program funded by lottery revenues.

A one-time General Fund appropriation of \$5 million General Fund for deposit in the Oregon Agricultural Heritage Fund was approved along with a corresponding establishment of a \$5 million Other Funds expenditure limitation from the fund and the authorization to establish three limited duration positions (1.57 FTE). The Oregon Agricultural Heritage Fund supports a number of activities including landowner succession planning, financial support for conservation management plans, covenants, and easements, funding for and direct technical assistance leading to those plans, covenants, and easements, administrative costs of the Oregon Agricultural Heritage Commission, and OWEB administrative costs related to working lands conservation programs.

The Subcommittee approved an increase of \$169,937 Lottery Funds expenditure limitation and the establishment of a limited duration, conservation outcomes specialist position (0.63 FTE). This action allows the agency to continue the limited duration position that had been established in the prior biennium but had not previously been continued into the current biennium due to revenue constraints. This position primarily functions to assist in the establishment and maintenance of the structure for monitoring and reporting results and outcomes of investments in watershed restoration.

An increase of \$1 million in the allocation of lottery monies from the Watershed Conservation Operating Fund to the Department of Agriculture via the Oregon Watershed Enhancement Board was approved to support the expenditure of those monies by the Department of Agriculture for grasshopper and cricket suppression efforts as authorized by section 8, chapter 4, Oregon Laws 2021, Second Special Session.

Allocations of Lottery Fund monies deposited in the Watershed Conservation Operating Fund provided to the following agencies, were approved to be increased by the following amounts to support increased expenditures for statewide budget adjustments including compensation changes driven by collective bargaining agreements:

- Department of State Police: \$249,144
- Department of Fish and Wildlife: \$118,337
- Department of Agriculture: \$213,188
- Department of Environmental Quality: \$224,550

## **PUBLIC SAFETY**

### **Department of Corrections**

The Subcommittee approved two budget-neutral fund shifts to utilize remaining fund balances from the Coronavirus Relief Funds (CRF) and American Rescue Plan Act (ARPA) monies provided to the state. Other Funds expenditure limitation of \$74,716,564 for CRF and \$363,582 for ARPA funding is provided, along with a corresponding decrease in General Fund. These federal funds are received by the Department of Administrative Services and passed through to the Department of Corrections for maintaining public safety services during the COVID-19 pandemic.

The Subcommittee approved several technical adjustments that shift costs between programs within DOC, including: \$6 million from central administration to operations for repair and maintenance projects; \$131,200 from operations to correctional services for the library services unit; and \$100,000 from central administration to correctional services for the community partner outreach program.

Finally, a one-time General Fund appropriation of \$51,421 was approved for a limited duration part-time Administrative Specialist 1 position (0.25 FTE) that will serve as a liaison for the Gender-Responsive Coordinator position established in the Governor's Office.

### **Oregon Criminal Justice Commission**

The Subcommittee approved a one-time General Fund appropriation of \$300,000 for the legal services pilot program first established by HB 2631 (2019) and then reestablished by HB 4050 (2022) operating at the Coffee Creek Correctional Facility. The Criminal Justice Commission will administer payments for this program, which is operated by the Oregon Justice Resource Center.

### **Oregon Department of Emergency Management**

The Subcommittee approved the necessary funding for the establishment of the Department of Emergency Management, effective July 1, 2022, outlined in HB 2927 (2021). The new Department will be structured with five major programs, including: Administration, the 9-1-1 Emergency Program, Preparedness and Response, Mitigation and Recovery, and Bond Debt Service.

- Administration program includes \$7,896,756 General Fund and \$484,877 Other Funds and 38 positions (18.83 FTE).
- 9-1-1 program is 100% Other Funds totaling \$68,337,111 and 10 positions (5.36 FTE).
- Preparedness and Response includes several federal grant programs like the Emergency Management Performance Grants, Homeland Security Grants, Regional Catastrophic Preparedness Grants, Geohazards Grants, and the SPIRE Grant program, which is funded by bond funding; \$757,611 General Fund, \$5,673,745 Other Funds, \$37,092,457 Federal Funds and 22 positions (10.82 FTE) make up this program.
- Mitigation and Recovery includes the federal Fire Assistance Grants, Flood Mitigation Assistance Grants, Pre-Disaster Grants, Hazard Mitigation Grants, and this program is also where Public Assistance and Individual Assistance funding would flow through for FEMA disaster-related payments. The program includes \$665,143,048 Federal Funds and 22 positions (11.00 FTE).
- Bond Debt Service consists of \$1,576,705 General Fund related to bonds issued for the SPIRE grant program.

Finally, \$20 million of one-time Other Funds expenditure limitation was provided for the Department to expend monies deposited into the Local Disaster Assistance Loan and Grant Account to be used as match for FEMA Hazard Mitigation Program grants. This will allow the Department to expend the funds beyond June 30, 2023 and maximize the available federal funding from FEMA. The Other Funds expenditure limitation will go in the Mitigation and Recovery program and the Department will likely need to request additional limitation as part of its 2023-25 budget development to expend any unspent funds.

### **Department of Justice**

The Subcommittee approved the following Crime Victim and Survivor Services budget adjustments:

- \$15 million in Other Funds expenditure limitation, on a one-time basis, for community-based violence prevention grants. The revenue source is the American Rescue Plan Act Coronavirus State Fiscal Recovery Fund monies received by the Oregon Department of Administrative Services and transferred to the Department.
- \$11.25 million General Fund, on a one-time basis, for a potential revenue shortfall in the federal Victims of Crime Act grant (VOCA).
- \$10 million General Fund, on a one-time basis, for deposit into the Oregon Domestic and Sexual Violence Services Fund and an increase of \$10 million of Other Funds expenditure limitation for expenditure from the fund, for state-funded grants to domestic and sexual violence service providers throughout the state, including federally recognized tribal governments.
- \$2.8 million General Fund, on a one-time basis, for distribution to Court Appointed Special Advocates.

- \$2 million in the Other Funds expenditure limitation, on a one-time basis, for the Crime Victims and Survivor Services Division, as a special payment for distribution to nonprofit entities to assist survivors of domestic and sexual violence and human trafficking in maintaining or acquiring housing. The revenue source is the Housing and Community Services Department (HCSD) American Rescue Plan Act (ARPA) funding for the agency's Emergency Rental Assistance Program. The \$2 million is to be deposited into the Oregon Domestic and Sexual Violence Services Fund.

For the Legal Tools Replacement information technology project, the Subcommittee approved \$4.6 million in supplemental General Fund, on a one-time basis, and authorized the establishment of 13 limited duration positions (7.29 FTE) and \$5.1 million Other Funds expenditure limitation. The revenue source of the Other Funds is Article XI-Q general obligation bond (SB 5701) that will be issued in the spring of 2023 and fund a portion of project activities for the 2023-25 biennium. The Other Funds amount includes \$105,000 associated with the cost of the bond issuance. Debt service, which will begin in the 2023-25 biennium, is to come from legal billings to state agencies.

To address workload needs driven by state agencies, the Subcommittee approved a supplemental increase of \$2.3 million in the Other Funds expenditure limitation and authorized the establishment of nine permanent full-time positions (4.74 FTE) for the General Counsel Division to address workloads in the Natural Resources, Government Services, and the Tax and Finance Sections. The revenue to support this request is to come from billings to state agencies.

The budget approved by the Subcommittee includes a decrease of \$940,753 in the Other Funds expenditure limitation, an increase of \$1.2 million General Fund, and authorized the establishment of one permanent full-time position (0.58 FTE) for the Criminal Justice Division due to Department's withdrawal from the federal government's High Intensity Drug Trafficking Area (HIDTA) program beginning May 1, 2022. Five existing permanent full-time positions will be fund shifted from Other to General Fund then redeployed the positions into the Analytical and Criminal and Investigative Support Section. The newly authorized position will manage the Investigative Service Center, the Oregon Watch Center, the Titan Fusion Center, and the Oregon Critical Infrastructure Program.

The Subcommittee approved a decrease of \$213,517 General Fund, a decrease of \$37,146 in Other Funds expenditure limitation, and a decrease of \$486,565 in Federal Funds expenditure limitation and the abolishment of 12 permanent full-time positions (12.00 FTE) for the Division of Child Support to fund the procurement of a child support receipting and payment collection service for physically deposited payments.

The Subcommittee requested that the Department of Administrative Services (DAS) unschedule \$300,000 General Fund and \$389,630 Federal Funds for the Division of Child Support that was funded by the Legislature in 2021 (Policy Package #482) to fund the movement of the Child Enforcement Automated System (CSEAS) from a private data center to the DAS State Data Center. The funding may be rescheduled after the division presents a data migration plan to the Emergency Board as part of a request for the release of special purpose appropriation.

Related to family treatment courts, the Subcommittee approved a \$384,668 Other Funds expenditure limitation and authorized the establishment of two permanent full-time positions (1.00 FTE). One position (0.50 FTE) will serve on a statewide family treatment court governance committee and one position will support the Department of Human Services (DHS) in a new family treatment court in Clatsop County (0.25 FTE) and an existing family treatment court in Columbia County (0.25 FTE). Legal billings to DHS will pay program costs.

The Subcommittee approved \$314,528 General Fund and authorized the establishment of one permanent full-time Operation and Policy Analysts 4 (0.58 FTE) for the Commission on Statewide Law Enforcement Standards of Conduct and Discipline (HB 2930 (2021)). The position is to service as the executive director the commission under the Criminal Justice Division.

The following technical budgetary adjustments were also included in the agency's budget adjustments:

- Transfer \$447,784 Other Funds expenditure limitation and one permanent full-time positions (0.88 FTE) for the Fair Housing Enforcement initiative from the General Counsel Division to the Civil Enforcement Division.
- Reduce \$212,656 General Fund for the Defense of Criminal Convictions to reconcile the budget with the Department's 2021-23 close-of-session forecasted caseload.

### **Oregon Military Department**

For the Oregon Military Department (OMD), the Subcommittee approved a technical adjustment of \$269,505 General Fund to shift information technology costs between programs, from the Office of Emergency Management (OEM) to administration. These costs have been budgeted within OEM but need to stay with the Department when OEM becomes an independent agency on July 1, 2022. Additionally, a fund split adjustment was approved for some accounting positions within the Department. Previously these positions had been supported 100% by federal funds but will be split 53% General Fund and 47% Other Funds.

The Subcommittee also approved the repurposing of \$2.7 million of one-time General Fund from SB 5535 (2021) that was received as the anticipated state's share of FEMA-reimbursable cost for urban search and rescue teams deployed during the Labor Day wildfires in 2020. The state share funding is no longer needed as those fires were declared a major disaster, allowing for 100% FEMA reimbursement. The Department will now utilize those funds to complete a 2020 Wildfire After-Action Report, update the State Disaster Recovery Plan, enhance Diversity, Equity, and Inclusion efforts, and acquire a grants management software system. This grant management system will be funded with \$500,000 of the one-time General Fund and \$545,000 of available federal funds, for a total estimated cost of \$1,045,000. OMD estimates the ongoing licensing and maintenance costs to be \$140,000 per year which can be financed within existing resources.

An additional approved use of the one-time General Fund is for potential costs associated with moving the Office of Emergency Management -- to become the Oregon Department of Emergency Management (ODEM) on July 1, 2022 -- to a new location outside of the Anderson Readiness Center where space is insufficient. The new location being considered was previously leased by the Department of Transportation and includes space across two floors for staff offices and the state's Emergency Coordination Center, as well as secure parking onsite. The Department is working with Department of Administrative Services Enterprise Asset Management on the potential transition. If the site is approved, costs are

expected to be \$1,888,600, including renovations, to be completed prior to the end of the biennium. Rental costs for the new facility are anticipated to be \$2.7 million a biennium, which is about \$351,000 more than OEM's current space. ODEM will need to request additional funding as part of its 2023-25 budget development.

Finally, the Subcommittee approved the necessary funding adjustments for the establishment of the Department of Emergency Management. This includes reductions of \$8,654,366 General Fund, \$1,576,705 General Fund debt service, \$74,495,733 Other Funds, \$702,235,504 Federal Funds, and transfer of 92 positions totaling 46.01 FTE. An additional reduction of \$20 million General Fund was approved from one-time funds provided in HB 5006 (2021) as matching funds for FEMA's Hazard Mitigation Program. The funds are eliminated from OMD's budget and then placed for deposit into the Local Disaster Assistance Loan and Grant Account to be used for the same purpose. By placing the funds for deposit, the Oregon Department of Emergency Management will be able to carry forward any unspent funds beyond the 2021-23 biennium, since most project costs will extend beyond June 30, 2023. Funds in the Local Disaster Loan and Grant Account are transferred to ODEM on July 1, 2022.

#### **State Board of Parole and Post-Prison Supervision**

The Subcommittee approved three budget adjustments for the Board to address needs around technology and workload. An increase of \$74,000 General Fund will help the agency find a vendor solution for an electronic records management system and support the cost of moving paper records from between offices; the old storage area is no longer available due to a building closure. The establishment of one full-time permanent Information Systems Specialist 7 (0.50 FTE) at a cost of \$115,971 General Fund was also authorized effective July 2, 2022. Finally, \$537,464 General Fund and two limited duration positions (1.00 FTE) were added to the budget to help cover hearings workload due an increase in juvenile sentence commutations.

#### **Department of State Police**

The Subcommittee approved \$2.6 million General Fund, on a one-time basis, for the Firearms Instant Check System unit within the Department of State Police. These funds are to support 17 limited duration positions that were approved in the 2021 regular session through HB 5028. These positions, totaling 14.96 FTE, were included in the agency's 2021-23 budget to address a backlog of firearm background checks, and were originally intended to be funded with available fund balances from fee revenues within the Criminal Justice Information Services Division.

Additionally, the establishment of a permanent full-time Operations and Policy Analyst 4 position (0.25 FTE) totaling \$112,291 General Fund was approved by the Subcommittee. This nonsworn position will act as the Department's tribal liaison to serve as the point of contact for all tribal governments and indigenous persons within the state. Of the General Fund provided, \$35,000 is a one-time cost for a dedicated vehicle.

Also approved is the repurposing of \$50,000 General Fund originally provided in HB 2928 (2021). That measure provided \$150,000 of one-time funding for the purchase of three public announcement systems for crowd control, however, the Department had \$50,000 remaining after the purchase and will use the funds to obtain respirator masks for the Mobile Response Team.

The Subcommittee approved a one-time Federal Funds expenditure limitation increase of \$3,039,868 for the Department to make purchases under the equitable sharing program through the U.S. Department of Justice. The Department intends to use the available funding to purchase five Mobile Command Post vehicles, three Explosive Unit Response trucks, and to upgrade three of its current Hazardous Duty Robots.

The Subcommittee also approved the following General Fund appropriations related to the Office of the State Fire Marshal:

- \$11,323,221 for one-time 2021 fire costs. This initial cost estimate is from the response to nine Governor-declared conflagrations across Oregon in 2021. Of the nine fires, two are eligible for federal reimbursement from FEMA (\$3.4 million estimated state share) while the other seven are all state responsibility (\$7.9 million).
- \$1,149,500 for the purchase of wildland firefighting equipment (one-time) for the Estacada Rural Fire Protection District.
- \$1,807,561 from the special purpose appropriation to the Emergency Board established in HB 2927 (2021) for the preparation of establishing the Office of the State Fire Marshal as an independent state agency. This appropriation will support 19 positions (5.50 FTE) within the new agency in place for the July 1, 2023 effective date.

### **Department of Public Safety Standards and Training**

The Subcommittee approved an increase of \$232,042 in Federal Funds expenditure limitation for the Assistance to Firefighters Grant Program. A budget note related to police officer training was also approved:

**BUDGET NOTE:** The Department of Public Safety Standards and Training is directed to return to the appropriate interim committees on public safety by December 1, 2022, with a proposal for the delivery of training for police officers concerning the investigation and reporting of cases involving missing or murdered indigenous persons. The proposal should include the method and cost of delivery and the anticipated number of additional training hours that would be required.

### **Oregon Youth Authority**

The Subcommittee approved budget adjustments to support the transfer of two vacant permanent full-time positions between programs, along with associated reclassification, funding, or step changes, to enhance the agency's Diversity, Equity, and Inclusion Office. The two positions, one from facilities programs and one from community programs, are moved to program support to serve as a DEI Strategic Coordinator and a DEI Engagement Specialist. This adjustment has a net zero impact on the overall agency budget.

Additionally, the Subcommittee approved a joint request from the Oregon Department of Human Services and the Oregon Youth Authority for a one-time repurposing of \$7.7 million in General Fund savings (\$12.9 million total funds) resulting from lower than budgeted utilization in the Behavior Rehabilitation Services (BRS) program to support systems of care for children and families. This repurposing of funds includes \$3 million General Fund (\$1,744,916 from OYA) for supplemental payments to BRS providers and other contracted community-based providers experiencing COVID outbreaks and quarantines, effective November 1, 2021 through June 31, 2023; and, \$4.7 million General Fund (\$2,301,350 from OYA) on a one-time basis to reserve bed capacity, effective November 1, 2021 through June 31, 2023. Some available federal funding will also be utilized as part of the \$12.9 million total funds, including \$887,513 from OYA, to support reserving bed capacity.

Finally, HB 5202 establishes a new Other Funds Debt Service appropriation to help correct a legal reference error in HB 5006 (2021).

## **TRANSPORTATION**

### **Department of Aviation**

The Subcommittee approved an increase of \$633,162 Federal Funds expenditure limitation from increases in Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and American Rescue Plan Act (ARPA) federal grant funds for COVID-19 related costs. Other Funds expenditure limitation of \$1,145,989 and three positions (2.01 FTE) was approved to restore capacity in the Operations and Pavement Maintenance divisions back to pre-pandemic levels. The additional funding comes from a favorable revenue forecast on the aviation fuels tax.

Three aviation projects supported by General Fund that are part of the Rural Infrastructure package were also approved by the Subcommittee:

- \$2,598,406 for runway and electrical rehabilitation at the Cape Blanco State Airport
- \$540,388 for distribution to the City of Salem for the Salem Municipal Airport upgrade
- \$750,000 for distribution to Josephine County for a Jet A and Avgas aircraft fueling system at the Illinois Valley Airport

### **Department of Transportation**

The Subcommittee approved an additional \$25 million General Fund for 2021-23 biennial expenses associated with Oregon Department of Transportation (ODOT) debris removal expenses associated with the 2020 wildfire season, augmenting \$14.4 million appropriated in the 2021-23 legislatively adopted budget. This funding supports work that is not eligible to be paid from State Highway Fund costs, including private property debris removal, and FEMA match requirements. Expenditures for cleanup activities have not followed originally anticipated schedules; instead of most payments being made in 2019-2021 as originally anticipated, only \$38.4 million of a total appropriation of \$93.75 million was expended in that biennium.

Also approved was an additional \$3,349,960 General Fund -- and a corresponding decrease in funding from ARPA funds transferred to ODOT from the Department of Administrative Services -- for rehabilitation of the Lake County Railroad, as state funding will be used as non-federal match for a Federal Railroad Administration grant.

General Fund in the amount of \$7,000,000 was added for deposit into a subaccount of the Oregon Transportation Investment Fund, to fund projects that reduce collisions between wildlife and vehicles. The funds will be distributed for a range of wildlife corridor project needs, including but not limited to project feasibility studies, planning, construction, retrofit and maintenance of wildlife road crossing infrastructure, roadkill tracking and studies, animal detection systems, signage, direction fencing, wildlife jump outs, and matching funds requirements for projects. The Department is to consult with the State Department of Fish and Wildlife and may partner with or make distributions to Tribal governments, counties, cities, or other public or private entities for projects. Distributions are to be prioritized for those projects that fill funding

gaps for wildlife road crossings and habitat connectivity that are not otherwise budgeted for or required under other federal or state obligations. A corresponding Other Funds expenditure limitation for this purpose was also approved.

A \$1.5 million non-recurring General Fund appropriation to ODOT was approved for the purpose of remediating damage sustained to North Fork Road in Marion County during the 2020 wildfires. Funding is intended to help replace guard rails, replace signs and gates, ease access limitations; and pay for costs associated with replacing the Elkhorn single lane wood and steel bridge.

An increase in Other Funds expenditure limitation in the amount of \$3,636,767 was approved to provide dedicated resources for the Interstate Bridge replacement project. Per a Memorandum of Intent between ODOT and the Washington State Department of Transportation (WSDOT) and legislative engagement guiding the work of both entities, project costs and staffing are being shared between the two states. The funds support 12 permanent positions (9.42 FTE), attributable to ODOT. These positions are being funded from \$45 million in Federal Highway Administration formula allocations (budgeted as Other Funds) that ODOT has committed to the project. Between 2019 and late 2021, ODOT had been leveraging earlier applicable work from the Columbia River Crossing effort dating from 2005-2013, and staffing the initial phases of the project with existing resources; dedicated resources and attention are now required to begin construction by 2025, per the current project schedule. The following positions are created as permanent, due to the project spanning multiple biennia:

- A dedicated program administrator, responsible for developing and building a project that attains the bi-state design and construction objectives;
- An assistant program administrator, to oversee joint project elements and coordination between Oregon and Washington, to achieve the design elements, construction, and procurement activities necessary to get to completion, pursuant to policy objectives of state policy makers;
- A deputy environmental manager position to navigate compliance with federal, state, and local environmental laws;
- A contracts manager to oversee the development and negotiation of agreements with agencies, vendors, and consultants;
- An executive support specialist to support meetings, summaries, reporting requirements, and serve as a point of contact for customers;
- A community and government relations manager to facilitate outreach, coordinate feedback, and notify staff and policy makers of state and local issues;
- A deputy design manager focused on roadway and interchange engineering;
- A cultural resource coordinator to facilitate cooperation with state historic preservation offices and Native American nations;
- A lead traffic engineer; A finance manager responsible for financial modeling, coordination, and planning;
- A tolling manager, to develop and oversee a tolling plan that aligns with Oregon and Washington policy; and
- A real estate services manager to prepare and manage rights of way negotiation, acquisition, and relocation.

An increase in Other Funds expenditure limitation in the amount of \$5,248,462 was approved for Driver and Motor Vehicle Services, to extend 46 limited duration Transportation Services Representative 1 positions (34.50 FTE) that were due to expire in February 2022. The extension will meet existing and anticipated customer service demands for DMV transactions, including Real ID credentials. The positions are supported by

DMV fee revenue, sufficient to support the request. The Department projects an estimated 814,000 Real ID transactions between January 2022 and June 30, 2022.

Other Funds expenditure limitation was approved to accommodate the expenditure of American Rescue Plan Act funds transferred from the Department of Administrative Services. ODOT will provide grants on a one-time basis to the following entities for the following projects:

- \$3,000,000 to Marion County Public Works Department for Safety Corridor improvements;
- \$2,960,000 to the City of Canby for the extension of Walnut Street;
- \$9,400,000 to Crook County for extension of Combs Flat Road; and
- \$500,000 to the City of Dufur for sidewalk renovation.

## JOINT EMERGENCY BOARD

June 3, 2022

1:00 p.m.

Hearing Room Remote C

### MEMBERS PRESENT:

Sen. Peter Courtney, Co-Chair

Sen. Lynn Findley

Sen. Lew Frederick

Sen. Fred Girod

Sen. Tim Knopp

Sen. James Manning Jr.

Sen. Elizabeth Steiner Hayward

Sen. Kathleen Taylor

Sen. Rob Wagner

Rep. Dan Rayfield, Co-Chair

Rep. Vikki Breese-Iverson

Rep. Julie Fahey

Rep. Paul Holvey

Rep. Susan McLain

Rep. Rob Nosse

Rep. E. Werner Reschke

Rep. Tawna Sanchez

Rep. Greg Smith

Rep. Duane Stark

### MEMBER(S) EXCUSED:

Sen. Bill Hansell

### STAFF PRESENT:

Amanda Beitel, Legislative Fiscal Officer

## Oregon Legislative Emergency Board

Senator Peter Courtney, Co-Chair  
Representative Dan Rayfield, Co-Chair

### Certificate

December 9, 2022

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 291.326(1)(a), (b), (c), (d); ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on December 9, 2022, took the following actions:

**1. Public Defense Services Commission**

Acknowledged receipt of a report on the reorganization of the Public Defense Services Commission.

**2. Public Defense Services Commission**

Acknowledged receipt of a report on a financial update; and authorized the transfer of \$2,000,000 from the General Fund appropriation established for the Public Defense Services Commission by section 1(3), chapter 444, Oregon Laws 2021, Appellate Division, to the General Fund appropriation established for the Public Defense Services Commission by section 1(6), chapter 444, Oregon Laws 2021, Court Mandated Expenses; authorized the transfer of \$5,000,000 from the General Fund appropriation established for the Public Defense Services Commission by section 1(4), chapter 444, Oregon Laws 2021, Trial Criminal Division, to the General Fund appropriation established for the Public Defense Services Commission by section 1(6), chapter 444, Oregon Laws 2021, Court Mandated Expenses; authorized the transfer of \$5,000,000 from the General Fund appropriation established for the Public Defense Services Commission by section 1(5), chapter 444, Oregon Laws 2021, Nonroutine Expenses, to the General Fund appropriation established for the Public Defense Services Commission by section 1(6), chapter 444, Oregon Laws 2021, Court Mandated Expenses; established an Other Funds expenditure limitation for the Public Defense Services Commission, Trial Criminal Division, in the amount of \$4,000,000, for the reimbursement of juvenile contract expenses from federal Title IV-E funding transferred from the Department of Human Services; and transferred \$4,000,000 from the Other Funds expenditure limitation established for the Public Defense Services Commission by section 2(2), chapter 444, Oregon Laws 2021, Juvenile Division, to the newly established expenditure limitation; to align General Fund appropriations and Other Funds expenditure limitations, with no net budget increase, in support of the agency's legislatively approved programs.

**3. Public Defense Services Commission**

Established a General Fund appropriation by allocating \$10,000,000 from the Emergency Fund established by section 1, chapter 669, Oregon Laws 2021, to the Public Defense Services Commission, for the unrepresented defendant/persons crisis, with instructions.

- 4. Higher Education Coordinating Commission**  
Allocated \$975,000 from the Emergency Fund established by section 1, chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Higher Education Coordinating Commission by section 1(3), chapter 660, Oregon Laws 2021, Community College Support Fund for distribution to community colleges and community college service districts and school districts, to disburse to Klamath Community College for the purchase of a water well drilling rig and creation of a well drillers curriculum.
- 5. Higher Education Coordinating Commission**  
Allocated \$800,000 from the Emergency Fund established by section 1, chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Higher Education Coordinating Commission by section 1(6), chapter 660, Oregon Laws 2021, Oregon National Guard tuition assistance, for the Oregon National Guard Tuition Assistance program.
- 6. Teacher Standards and Practices Commission**  
Increased the Other Funds expenditure limitation established for the Teacher Standards and Practices Commission by section 1, chapter 641, Oregon Laws 2021, for general operations, by \$269,072, and authorized the establishment of one limited duration position (0.25 FTE), to develop standards-based leadership practices and a statewide framework for school principal preparation.
- 7. Department of Human Services**  
Increased the Other Funds expenditure limitation established for the Department of Human Services by section 2(3), chapter 606, Oregon Laws 2021, Self-sufficiency programs, by \$9,000,000, and authorized the establishment of one limited duration position (0.42 FTE), to expand homeless youth services.
- 9. Department of Human Services**  
Acknowledged receipt of a report on the Department of Human Services' 2021-23 financial status.
- 10. Department of Human Services**  
Increased the Federal Funds expenditure limitation established for the Department of Human Services by section 3(7), chapter 606, Oregon Laws 2021, Intellectual/developmental disabilities programs, by \$12,122,000, to continue a one-time 5% COVID-19 rate increase until June 30, 2023.
- 11. Oregon Health Authority**  
Acknowledged receipt of a report on the Oregon Health Authority's 2021-23 financial status.
- 12. Oregon Health Authority**  
Allocated \$1,498,030 from the special purpose appropriation made to the Emergency Board by section 267(1), chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Oregon Health Authority by section 1(2), chapter 668, Oregon Laws 2021, Oregon State Hospital, and authorized the establishment of 21

permanent positions (5.25 FTE), to accommodate complex patient care needs at the Oregon State Hospital.

**13. Oregon Health Authority**

Allocated \$4,563,439 from the special purpose appropriation made to the Emergency Board by section 267(1), chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Oregon Health Authority by section 1(2), chapter 668, Oregon Laws 2021, Oregon State Hospital; allocated \$294,082 from the special purpose appropriation made to the Emergency Board by section 267(1), chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Oregon Health Authority by section 1(1), chapter 668, Oregon Laws 2021, Health Systems, Health Policy and Analytics, and Public Health; and authorized the establishment of 59 permanent positions (14.75 FTE); to respond to a federal court ruling that establishes limits on the time patients on Aid and Assist orders can be held in the Oregon State Hospital.

**16. Oregon Health Authority**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Administration, in the amount of \$250,000, for the Transformation Transfer Initiative.

**17. Department of Emergency Management**

Approved, retroactively, the submission of a federal grant application to the U.S. Department of Homeland Security, Cybersecurity and Infrastructure Security Agency, in the amount of \$2,988,945, for a State and Local Cybersecurity Program grant.

**18. Oregon Military Department**

Increased the Federal Funds Capital Construction expenditure limitation established for the Oregon Military Department by the Emergency Board at its September 2022 meeting (Item 30), by \$404,000, for the Rees Training Center Modified Record Fire Range.

**19. Oregon Military Department**

Established a Federal Funds Capital Construction expenditure limitation of \$3,500,000 for the Oregon Military Department, for the Corvallis Armory Service Life Extension project; and established a Federal Funds Capital Construction expenditure limitation of \$900,000 for the Oregon Military Department, for Corvallis Armory Parking Lot improvements.

**20. Department of State Police**

Increased the Federal Funds expenditure limitation established for the Department of State Police by section 3(1), chapter 470, Oregon Laws 2021, Patrol Services, Criminal Investigations and Office of the State Fire Marshal, by \$650,000; and increased the Other Funds expenditure limitation established for the Department of State Police by section 2(1), chapter 470, Oregon Laws 2021, Patrol Services, Criminal Investigations, Gaming Enforcement and Office of the State Fire Marshal, by \$116,305; for the Equitable Sharing Program.

- 22. Department of State Police**  
Allocated \$16,571,294 from the Emergency Fund established by section 1, chapter 669, Oregon Laws 2021, to supplement the appropriation made to the Department of State Police by section 1(1), chapter 470, Oregon Laws 2021, Patrol Services, Criminal Investigations, Gaming Enforcement and Office of the State Fire Marshal, for costs incurred during the 2021 and 2022 fire seasons.
- 23. Oregon Youth Authority**  
Acknowledged receipt of a report on community residential treatment program utilization.
- 24. Department of Public Safety Standards and Training**  
Increased the Other Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 2(1), chapter 381, Oregon Laws 2021, Operations, by \$1,280,000, for two additional Basic Police courses.
- 25. Criminal Justice Commission**  
Increased the Federal Funds expenditure limitation established for the Criminal Justice Commission by section 4, chapter 379, Oregon Laws 2021, by \$909,346; and authorized the establishment of one limited duration position (0.25 FTE); for federal grant awards received for Prison Rape Elimination Act Standards and the Justice Courts Implementation program.
- 26. Criminal Justice Commission**  
Approved the submission of a federal grant application to the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance, in the amount of \$3,127,544, for a State Crisis Intervention Program grant.
- 27. Department of Corrections**  
Acknowledged receipt of a report on overtime usage.
- 29. Department of State Lands**  
Approved, retroactively, the submission of a federal grant application to the National Oceanic and Atmospheric Administration, in the amount of \$300,000, for South Slough Reserve capacity building activities; and increased the Federal Funds expenditure limitation established for the Department of State Lands by section 3(1), chapter 607, Oregon Laws 2021, South Slough National Estuarian Research Reserve operations, by \$100,000, for grant expenditures.
- 30. Department of State Lands**  
Approved, retroactively, the submission of a federal grant application to the National Oceanic and Atmospheric Administration, in the amount of \$3,535,900, for the Wasson Creek watershed ridgetop-to-estuary restoration project.
- 31. Department of State Lands**  
Approved, retroactively, the submission of a federal grant application to the U.S. Environmental Protection Agency, in the amount of \$1,000,000, for brownfields cleanup

to perform remediation of contaminated sediment at the Moore and Wright Islands Natural Area on the Columbia Slough.

**33. Department of Fish and Wildlife**

Approved the submission of a federal grant application to the U.S. Department of Transportation, in the amount of \$51,757,285, for culvert projects to improve fish passage.

**34. Department of Fish and Wildlife**

Increased the Federal Funds expenditure limitation established for the State Department of Fish and Wildlife by section 4(1), chapter 679, Oregon Laws 2021, Fish Division, by \$270,000; and increased the Federal Funds expenditure limitation established for the State Department of Fish and Wildlife by section 4(5), chapter 679, Oregon Laws 2021, Habitat Division, by \$200,000; for expenditure of federal grant awards for wildlife disease detection and response and development of the Private Forest Accord Aquatic Habitat Conservation Plan.

**36. Department of Forestry**

Approved, retroactively, the submission of a federal grant application to the U.S. Forest Service, in the amount of \$6,000,000, to assist at-risk local communities to cover expenses related to natural disasters, including wildfires, from 2019 through 2021.

**37. Department of Forestry**

Approved, retroactively, the submission of a federal grant application to the U.S. Forest Service, in the amount of 17,362,678, for the creation, updating, or project implementation of Community Wildfire Protection Plans.

**38. Department of Forestry**

Acknowledged receipt of a report on the 2022 fire season; and allocated \$5,988,093 from the special purpose appropriation made to the Emergency Board by section 5(1), chapter 605, Oregon Laws 2021, to supplement the appropriation made to the State Department of Forestry by section 1(2), chapter 605, Oregon Laws 2021, Fire protection, for the state's portion of 2022 fire season severity resources cost; allocated \$8,788,683 from the special purpose appropriation made to the Emergency Board by section 167(1), chapter 669, Oregon Laws 2021, to supplement the appropriation made to the State Department of Forestry by section 1(2), chapter 605, Oregon Laws 2021, Fire protection, for the state's portion of net large-fire costs for the 2022 fire season; and increased the Other Funds expenditure limitation established for the State Department of Forestry by section 2(2), chapter 605, Oregon Laws 2021, Fire protection, by \$24,999,724, to enable processing of payments and cost of operations from the 2022 fire season.

**39. Department of Forestry**

Increased the Federal Funds expenditure limitation established for the State Department of Forestry by section 4(5), chapter 605, Oregon Laws 2021, Private forests, by \$810,094, for the expenditure of federal grant awards from the Economic Development Administration for forest restoration byproduct commercialization.

- 40. Department of Energy**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Energy, in the amount of \$5,464,180, for State Energy Program funds made available through the Infrastructure Investment and Jobs Act.
- 41. Department of Land Conservation and Development**  
Approved, retroactively, the submission of a federal grant application to the National Oceanic and Atmospheric Association, in the amount of up to \$450,000, and authorized the establishment of one limited duration position (0.25 FTE), to develop projects that conserve or restore coastal natural habitats and build coastal resiliency.
- 42. Department of Land Conservation and Development**  
Approved, retroactively, the submission of a federal grant application to the National Oceanic and Atmospheric Administration, in the amount of \$2,011,530, for acquisition of property on the Central Coast of Oregon on Cape Foulweather.
- 43. Department of Transportation**  
Approved, retroactively, the submission of a federal grant application to the Federal Highway Administration, in the amount of \$46,630,800, to complete the final portion of the Historic Columbia River Highway State Trail.
- 44. Department of Transportation**  
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Transportation, in the amount of \$487,000, to develop bridge inspection protocols and interfaces using unmanned aerial systems.
- 45. Department of Transportation**  
Approved, retroactively, the submission of a federal grant application to the National Fish and Wildlife Foundation, in the amount of \$515,478, for an America the Beautiful Challenge Grant to design two wildlife corridors across Interstate 5 near the Cascade Siskiyou Monument.
- 46. Department of Consumer and Business Services**  
Acknowledged receipt of a report on workers' compensation premium assessment rates.
- 47. State Library**  
Increased the Other Funds expenditure limitation established for the State Library by section 3, chapter 308, Oregon Laws 2021, by \$335,000, for increased information technology access and rent costs.
- 48. Department of Administrative Services**  
Acknowledged receipt of a report on compensation plan changes.
- 49. Legislative Fiscal Office**  
Transferred unallocated balances in the amount of \$67,856,869 from special purpose appropriations made to the Emergency Board to the Emergency Fund appropriation, per the attached table.

**Special Purpose Appropriation Transfer Detail**

**MISSION OF THE OREGON STATE POLICE**

Founded in 1931, our mission is to serve the State of Oregon with a diverse workforce dedicated to the protection of people, property and natural resources.

**STATUTORY AUTHORITY**

Chapters 131A, 153, 166, 323, 418, and 475, Oregon Revised Statutes, and Oregon Administrative Rules (O.A.R.) 257 – Oregon State Police

Chapters 496 and 506, Oregon Revised Statutes – Fish and Wildlife

Chapters 181A, 137, 161, 419C and 813, Oregon Revised Statutes – Forensic Services

Chapter 146, Oregon Revised Statutes – Medical Examiner

Chapter 461, Oregon Revised Statutes – Gaming (Lottery)

Chapter 463, Oregon Revised Statutes, and O.A.R. Chapter 230 – Oregon Athletic Commission

The below chapters are removed from the OSP budget in 2023-25, per HB 2927 as Office of State Fire Marshal becoming their own agency. Chapters 453, 476, 478, 479, and 480, Oregon Revised Statutes, and O.A.R. Chapter 837 – Office of State Fire Marshal

---

## STRATEGIC AND BUSINESS PLAN

**As OSP enters the 2023-25 biennium, its focus will be to continue to develop the infrastructure, sworn and non-sworn staffing levels, and operational capabilities that enable the Department to fulfill its mission and implement strategic initiatives as directed by the Governor.**

The Department will continue to focus on the following budget principles:

1. Provide specialized, sole-source services that support the police and public safety systems and partners, including our Criminal Justice Information Services, and Forensic services;
2. Develop and maintain strong emergency response capacity, including ability to deploy troopers when and where needed, reliable communication and dispatching infrastructure, and emergency response training and equipment;
3. Advance important statewide initiatives spearheaded by the Governor at the request of local communities and,
4. Promote governmental effectiveness and efficiency by eliminating duplicative services, working in partnership with other agencies, and targeting resource investments where they will cost the least and have the greatest impact.
5. Maintain focus on the Governor's published *Equity Framework*.
6. Develop and maintain policies, procedures and systems to promote and improve standards, transparency and accountability among our sworn ranks in response to new legislation and increased demand from the public for police reform.
7. Develop and maintain programs to support our employees in the areas of health, wellness and resiliency to ensure a strong, healthy and committed work-force.

Most of the policy packages included in this document support more than one of these budget principles. OSP's policy package request includes additional investments in areas of internal infrastructure that will provide for added efficiencies and internal control of the organization and funding for patrol operations to achieve greater capacity for patrol coverage statewide. A more detailed discussion and the specific justifications for each proposed investment can be found in the policy packages that follow.

## 2023-25 Two-Year Plan

The following are the major goals and initiatives of the Oregon State Police.

### Goal 1

The Department will continue to examine internal strategies and initiatives that allow the organization to increase the effectiveness and efficiencies of administration, fiscal management and operations.

#### Objectives/Initiatives

- Provide monthly budget management reports at an agency, division, and section level;
- Enhance the recruitment and retention of a qualified and diverse workforce;
- Continually examine internal areas for streamlining and efficiency;
- Effectively partner with other state agencies and our criminal justice partners to enhance service delivery to the public and reduce operating costs;
- Consider outsourcing services when feasible;
- Develop and implement effective feedback systems that allow the leadership of the Department to evaluate progress on organizational initiatives;
- Continue development of specific program area performance measurement that clearly articulates program outcomes consistent with Oregon Benchmarks, legislative interests and with a focus on equality.

### Goal 2

The Department will develop workable budget and organizational strategies that allow it to meet its current mission *before* enhancing services or beginning new initiatives. The agency's capacity for accountability and internal integrity is a prerequisite to its capacity to accomplish its mission.

#### Objectives/Initiatives

- Direct budget focus toward the restoration of essential infrastructure;
- Develop an IT strategic plan that outlines future needs and goals; and
- Implement a Strategic Facilities Framework Plan to ensure the Department develops physical, structural and financial capacity to ensure adequate facilities and that all employees are working in a safe and secure environment.

**Goal 3**

The Department will increase the involvement of key stakeholders, partners, constituents and members of the legislative assembly in future updates to the agency’s long-range strategic business plan and development of budget policy options.

Objectives/Initiatives

- Regularly exchange information with other criminal justice partners about upcoming challenges, racial justice initiatives and legislation, budget priorities, and strategic direction of the agency and the public safety system; and,
- Meet with legislators during the interim to discuss direction of Department, budget issues, and local public safety issues.

**Goal 4**

Expand capacity across our sworn and non-sworn divisions with an emphasis on programs that support police standards, transparency and accountability and the health wellness and resiliency of our employees to ensure a strong, healthy and committed work-force and enhance public trust.

Objectives/Initiatives

- Work closely with DPSST, Local Public Safety Policy Planning Councils and local public safety stakeholders in improving the efficiencies of our recruitment, training and retention of sworn employees. Work to continue to improve diversity in our workforce through creative, proactive recruitment methods.
- Work closely with DPSST, Local Public Safety Policy Planning Councils and local public safety stakeholders to ensure fair and transparent accountability standards in law enforcement are achieved to preserve the public trust.
- Grow our existing Health, Wellness and Resiliency Unit and Human Resources to provide critical support to our sworn and non-sworn employees who experience and ever-increasing number of critical incidents as part of their official duties.

## 2023-33 Ten-Year Plan

The following areas are the priority focal points for OSP over the next ten years:

- Evaluate and report to key stakeholders the results and progress of short-term initiatives as listed above;
- Continue to be strategic in examining, predicting, and organizing to meet the challenges of the future; and,
- Continue to update and modify the Strategic Business Plan and the Strategic Facilities Framework Plan in coordination with key stakeholders to keep them current and relevant.

### Goal 1

Maintain operational readiness and capability of statewide safety net and essential core services in support of local law enforcement agencies and the greater public safety system.

#### Objectives/Initiatives

- Ensure adequate funding for specialized services and programs; and,
- Ensure proper training and exercise of these functions and units.

The Oregon State Police was originally formed to support and augment local law enforcement. Historically, the Oregon State Police has provided emergency safety net services in the form of specially trained members of our Special Weapons and Tactics (SWAT) Team and our crowd control team (MRT). These specially trained team members respond to situations involving civil unrest, rapid deployments to local emergency situations, large disasters, or sensitive investigation scenes across the state. The personnel that can be deployed for these purposes come from within the various divisions' sworn ranks. For example, the majority of sworn personnel that make up the current SWAT team are regularly assigned to the operational divisions of Patrol, Fish and Wildlife, and Criminal Investigations.

Maintaining the equipment, the training and the operational readiness of these components is necessary and has been challenging due to the history of budget instability over the years. However, these emergency services are a necessary statewide public safety service that requires priority in funding and staffing. In the interest of providing this type of emergency response to State Police Area Commands and local law enforcement partners, the Department of State Police intends to maintain this capability as a priority. Additionally, as local law enforcement experiences their own funding and staffing challenges, OSP has assumed the role of the primary enforcement entity for many parts of the state. Additionally, appropriate consideration and response to the need for enhanced police accountability and transparency will require a greater emphasis on employee training and the development of our workforce.

The stability and service capability of the essential core services that support the greater public safety system in the area of forensics, criminal justice information and medical examiner are also equally important to the agency and the State of Oregon. The Department will continue to focus on ensuring these areas are adequately staffed and funded.

**Goal 2**

Cross reference key performance measure results and re-examine effectiveness of deployment patterns used to implement expanded patrol coverage.

Objectives/Initiatives

- Evaluate the level of expected outcomes associated with the long-term goal of achieving greater patrol operations; and,
- Develop and refresh patrol allocation model for determining optimum patrol levels across the state.

**CRITERIA FOR BUDGET DEVELOPMENT**

Public Safety partners and the people of Oregon require OSP to be available and on point not only to respond to public safety issues, but to address them proactively and equitably. This message is reflected in OSP’s continued focus on providing essential “core” services that:

- Meet customer and key stakeholder needs and requirements;
- Represent unique services not being provided by others;
- Support the greater public safety system;
- Support the Governor’s Equity Framework
- Measure outcomes to ensure programs and services make a difference and add value;
- Are specialized and available statewide; and,
- Provide necessary infrastructure or administrative support to the daily delivery of OSP operational programs that meet these criteria.

Based upon these criteria, the essential “core” services include:

- Programs that deliver safety net services in support of local law enforcement (i.e., SWAT, MRT, Special Investigations and mass emergency deployment);

- Programs that provide specialized statewide services that local law enforcement or other agencies do not provide and yet depend upon to perform their jobs at the local level (i.e., forensics, LEDS, identification services, medical examiner, arson & explosives, polygraph, and major crime investigation/response);
- Programs that target specific high-profile public safety issues that are not otherwise being addressed by other public safety agencies (i.e., Patrol: Criminal Apprehension through Patrol Enforcement (CAPE)/Criminal interdiction, aggressive driving enforcement teams, highway safety corridor saturation teams, crash reconstruction);
- Internal programs and services that provide essential infrastructure that allows the Department to most effectively and efficiently perform its day-to-day operation (i.e., budget & finance, human resource management, IT and recruitment & training); and,
- Services that are funded and provided by specific contract or compact agreement (i.e., lottery/tribal gaming, natural resource enforcement, capitol mall security, etc.).

In addition to maintaining core services that matter to local communities and the people of Oregon, OSP is committed to the following 2023-25 Budget priorities:

1. Develop and maintain strong emergency response capacity, including ability to deploy troopers when and where needed, reliable communication and dispatching infrastructure, and emergency response training and equipment;
2. Advance important statewide initiatives spearheaded by the Governor at the request of local communities, including but not limited to her priority Equity Framework; and,
3. Promote governmental effectiveness and efficiency by eliminating duplicative services, working in partnership with other agencies, and targeting resource investments where they will cost the least and have the greatest impact.

**Budget Uncertainty**

A significant challenge for the Oregon State Police and other criminal justice agencies in Oregon is providing essential and priority public safety services during continued times of fiscal uncertainty. This has especially been challenging for those programs that are funded by the State General Fund. The long-term history of unstable funding for the Department has significantly reshaped the organization and reduced service delivery capabilities of this agency over time. This reality has resulted in negative impact to the greater criminal justice system. The Department has had to continually reduce capital outlay, supplies and services, and hiring due to the instability of funding, while at the same time being asked to take on additional oversight of systems and/or programs that are important to the Governor or legislature. Often these programs require significant infrastructure investment by the Department. An example of one of the programs assigned to the Department is the Oregon School Safety Tip Line which was created, implemented in 2018, and has been managed by the Department.

In the early 1980s, an amendment to the Oregon Constitution resulted in a significant policy change in how the Department was funded. At that time, the primary funding for the Oregon State Police patrol operations shifted to the State General Fund from the Highway Fund. Since then, the Department has sustained remarkable instability in funding, which has resulted in significant reductions in service delivery in several of the statewide programs that are funded from the State General Fund. In response to many years of inadequate and unstable funding levels, the Department has incrementally reorganized its structure, become more decentralized and flatter in management layers, pushed down authority, eliminated positions, closed offices, eliminated/reduced regional field command, consolidated dispatch centers (from 26 to 2) and has worked diligently with our labor organizations to be as efficient as possible. In the 2001-03 biennium, significant reductions in funding for State Police operations resulted in the dramatic layoff of personnel, both sworn troopers and professional staff. These layoffs significantly reduced service delivery across the organization and this history continues to impact recruitment and hiring throughout the organization. It was only in the 2007-09 biennium that the Department began to rebuild the Department’s infrastructure and field strength.

During the 2019-21 biennium, the Department focused on recruitment and training of our sworn troopers with the goal of filling all vacant positions. Unfortunately, starting in March 2020, the State of Oregon was severely impacted financially by the COVID 19 pandemic which required the temporary shutdown and restriction of the economy in Oregon and across the United States. All sources of revenue for the Department were affected and the Department implemented immediate and drastic budget reduction actions, including but not limited to canceling all recruitment and hiring activities for recruit troopers.

**Human Capital Planning**

An aging workforce and retirement of the Baby Boomer Generation will create staffing shortages all across the public safety system. The Oregon State Police, like public safety agencies throughout the United States, is experiencing challenges in this area. The agency’s history of unstable funding and the layoff of personnel in 2003, compounds this issue. In today’s competitive public safety job market, it is important for organizations to be proactive and intentional in recruitment efforts and have the internal capacity to do so.

The training function of the Oregon State Police has been significantly underfunded and nearly eliminated over time. To ensure some level of training occurs, troopers are being assigned training duties in addition to regular policing responsibilities so that minimal training for all troopers can be maintained.

**Meeting Expectations for Service Delivery**

Today, most Department program areas are struggling to meet current demand for services. With projected changes in demographics and increased population in Oregon, the Department expects this challenge to become more severe. Service demand is measured primarily by examining a particular State Police service area and its capability to adequately respond to requests for service. For example, Forensic Services Division capability to address incoming forensic evidence requests or Patrol Division capability to respond to the most urgent calls for service as recorded in the Computer Aided Dispatch (CAD) System.

**Advances in Technology**

In about 2012, the Oregon State Police invested in information technology to modernize and improve the Department's Computer Aided Dispatch (CAD) and Records Management Systems (RMS). That technology investment is approaching end of life and due for a technology replacement/upgrade. The Department is submitting a policy option package for modernization of the technology and equipment. The new systems are referred to by the Department as Core Operational Policing Systems (COPS). In addition, the Department has invested in technology upgrades on equipment located inside patrol vehicles, such as video recording systems and mobile data terminals (commonly referred to as specialized laptops) and increased the number of body worn camera systems utilized by sworn members. The limiting factor for both vehicle and body worn cameras is the continually increasing costs of data storage.

Of the issues listed above, fiscal uncertainty presents the most significant challenges for the Department. The Oregon State Police has been providing public safety services for over 90 years. Since its creation in 1931, this Department has been tasked to provide a variety of statewide public safety services in support of local communities and specific stakeholders. The mission has also expanded significantly during this same time as the Department has anticipated and reacted to the needs of the people of Oregon.

The Oregon State Police continues to examine strategies that will allow the agency to streamline and provide essential services, including a commitment to the states' Diversity, Equity and Inclusion assessment for IT investment and prioritization. As a result of the budget instability, the reductions in traditional services provided by the Oregon State Police will continue to be a reality across communities in Oregon. The Oregon State Police will continually review and refresh our Strategic Business Plan to ensure we're addressing and reacting to these challenges.

Prioritize each program activity for the Agency as a whole

**Document criteria used to prioritize activities:**

- 1) Prevent harm by providing direct law enforcement, resources, and education.
- 2) Support local communities through the provision of specialized, sole-source services that support police and public safety systems and partners, including the Law Enforcement Data System (LEDS), regionalized medical examiner and forensic services, and training and technical assistance from the State Fire Marshal's Office.
- 3) Develop and maintain strong emergency response capacity, including the ability to deploy Troopers when and where needed, reliable communication and dispatching infrastructure, and emergency response training and equipment.
- 4) Promote governmental effectiveness and efficiency by eliminating duplicative services, working in partnership with other agencies, and targeting resource investments where they will cost the least and have the greatest impact.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

Priorities 1 & 2 provide direct service to field operations. Without these functions, Troops could not be deployed where needed and officer and citizen safety would be compromised.  
 Priority 3 & 4--Provides overall agency direction and leadership to all divisions on policy, budget, resource, and operational matters.  
 Priority 5 provides direct service to sworn and professional staff to ensure high quality results in all of the agency's programs.  
 Priority 6 & 7--Provides tools that support all agency functions.  
 Priority 8 & 9--Supports goal of improving internal control processes and continuous improvement. Reduces agency liability.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

1. Prioritize programs that support the agency mission to enhance livability and safety by protecting the people, property and natural resources of the state.
2. Primary focus on transportation safety realized through tactical efforts for crash reduction, increased trooper availability and increased criminal apprehension and/or detection resulting from routine traffic stops.
3. Additional focus on maintaining a strong emergency response capacity to utilize resources in the most efficient manner and provide support to local law enforcement agencies and the citizens of Oregon.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

- 1: ODFW Program funds most core functions of the Fish and Wildlife Division. These funds are used to fund the Special Investigations Unit, the Aircraft Program and a majority of the general Fish and Wildlife Troopers and Sergeants that enforce fish, commercial fish, shellfish, wildlife and environmental and habitat laws that ensure protection of the states natural resources. The Oregon State Police is the primary enforcement agency for fish and wildlife laws.
- 2: Lottery Program funds positions devoted to enforcement of fish and wildlife and habitat protection laws and regulations. Emphasis on the Oregon Plan, Commercial Fishing and general enforcement that protects wild salmonid populations, watersheds and fish and wildlife habitat.
- 3: Administration Program funds positions responsible for the mid and upper level management of the Division and the support staff to insure implementation of all program goals and priorities. The percentage of general funds received are commensurate with the percentage of general law enforcement (patrol and criminal) work that is conducted annually by all sworn members, particularly in rural areas with limited law enforcement resources.
- 4: Federal funds directly supports enforcement programs associated with the Marine fisheries and salmonids along Oregon's coast and inland waterways. These funds also support the acquisition of critical equipment and manpower directed at these resources. The economic stability of coastal communities is tied to healthy and viable commercial fisheries. Federal Cooperative Enforcement Agreements gives Oregon State Police troopers authority to enforce federal fishery laws. No other state and local enforcement agencies have this authority.
- 5: The Marine Board Program supports the enforcement of the Marine Board rules and regulations to promote boater safety. The Oregon State Police is one of many law enforcement agencies that receives funding to perform these enforcement programs.
- 6: The Intergovernmental Agreements Program provides funding for troopers to enforce environmental laws (DEQ), enforcement operations on the Deschutes Scenic River (State Parks), ATV enforcement (State Parks) on public and private lands and enables the Division to augment enforcement efforts by hiring seasonal employees (ODFW Access & Habitat) to conduct selected enforcement during peak periods. Through this program thousands of acres of private land are open to the public that would otherwise be closed to public access. Includes several overtime agreements through State and Federal agencies for targeted enforcement in specific areas.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

Priorities 1 & 2 provide direct service to field operations. Without these functions, Troops could not be deployed where needed and officer and citizen safety would be compromised.  
 Priority 3 & 4—Provides overall agency direction and leadership to all divisions on policy, budget, resource, and operational matters.  
 Priority 5 provides direct service to sworn and professional staff to ensure high quality results in all of the agency's programs.  
 Priority 6 & 7—Provides tools that support all agency functions.  
 Priority 8 & 9—Supports goal of improving internal control processes and continuous improvement. Reduces agency liability.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

1. Prioritized core services programs that support the agency mission and statewide public safety. Services below are only provided by OSP for the entire criminal justice system in Oregon.
  - \* Law Enforcement Data Systems
  - \* ID Services Computerized Criminal History (CCH)
  - \* ID Services Automated Fingerprint/Biometric Identification System (AFIS/ABIS)
2. Fee based programs. These programs are self-supporting and important programs that support the criminal justice systems statewide.
3. Federal grants
  - \* National Instant Check System (NICS) - NICS Act Record Improvement Program (NARIP)
  - \* National Criminal History Improvement Program (NCHIP)

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

1. **Lottery Security Section** - is under contract with the Oregon Lottery to provide security to a funding stream of hundreds of millions of dollars. These dollars are used in education, parks, jobs and other critical programs of the State. To assure the fairness, integrity, security and honesty (FISH) of the games this oversight and security is essential.
2. **Tribal Gaming** - the State has entered into gaming compacts with the nine Gaming Tribes of Oregon. These compacts require the oversight of the State to assure that the terms and agreements within the compacts are met. This oversight is provided through the Oregon State Police. Without this oversight there would be no ability to fulfill obligations under the Compact.
3. **Gaming Vendor Section** - this Section is the front end of protection for the State in Tribal/Lottery Gaming. All vendors that have a major or sensitive impact to this billion dollar industry are investigated prior to the consummation of contract. Without this process the assurance of the FISH would be impossible and the games would be at risk.
4. **Oregon Athletic Commission** - this Commission provides the regulatory frame work for all unarmed combat sports within Oregon. Without this Commission Oregon unarmed combat sports would have no protection over the participants and cities and counties in which they take place. This would be highly dangerous and have the potential for severe litigation to these cities and counties.

**5% and 10% General Fund Reduction Options (ORS 291.216)**

Activity or Program	Describe Reduction	Amount and Fund Type	Rank and Justification
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. IDENTIFY REVENUE SOURCE FOR OF, FF. INCLUDE POSITIONS AND FTE FOR 2023-25 AND 2025-27)	(GF, LF, OF, FF. Identify Revenue Source for OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
<b>5% Reduction Options</b>			
Agency-Wide	Elimination of Inflationary Increase throughout the agency. The impact will reduce all service and supplies, excluding rent and State Government Service Charge.	\$2,467,866 General Fund	1 - Costs to operate the agency will continue to rise and the impact will reduce the services available
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Albany Area Command reducing 20.00 FTE and elimination of related service and supplies. Response times to police calls for service will increase, delaying critical public assistance.	\$6,781,588 General Fund	2 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Madras Worksite reducing 7.00 FTE and elimination of related service and supplies. Response times to police calls for service will increase, delaying critical public assistance. Local, rural law enforcement agencies with strained staffing levels will struggle or be unable to fill OSP's void.	\$1,687,170 General Fund	3 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Enterprise Worksite reducing 7.00 FTE and elimination of related service and supplies. Local, rural law enforcement agencies with strained staffing levels will struggle or be unable to fill OSP's void.	\$1,064,382 General Fund	4 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Gold Beach Worksite reducing 13.00 FTE and elimination of related service and supplies. This would reduce the presence of OSP Troopers in the Enterprise area and response times would greatly increase.	\$2,873,402 General Fund	5 - Costs to operate the agency will continue to rise and the impact will reduce the services available
Agency-Wide	Reduce the Service and Supplies budget across the agency resulting in less efficiency throughout the agency.	\$6,719,580 General Fund	6 - Costs to operate the agency will continue to rise and the impact will reduce the services available
<b>10% Reduction Options (In Addition to the 5% Above)</b>			
Forensics Division	Eliminate 3.00 FTE in the Bend Forensics Lab reducing the capacity for analytical work.	\$901,283 General Fund	7 - Forensic work would be significantly delayed
Forensics Division	Eliminate 3.00 FTE in the Central Point Lab reducing the capacity for analytical work.	\$901,283 General Fund	8 - Forensic work would be significantly delayed
Forensics Division	Eliminate 3.00 FTE in the Pendleton Forensics Lab reducing the capacity for analytical work.	\$901,283 General Fund	9 - Forensic work would be significantly delayed
Forensics Division	Eliminate 17.00 FTE in the Portland Forensics Lab reducing the capacity for analytical work.	\$4,953,621 General Fund	10 - Forensic work would be significantly delayed
Forensics Division and Medical	Eliminate 6.00 FTE in the Springfield Forensics Lab and Medical Examiners Office. This would reduce the capacity for analytical work and reduction of autopsies performed.	\$2,003,745 General Fund	11 - Forensic and Medical Examiners work would be significantly delayed.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Oakridge Worksite reducing 6.00 FTE and elimination of related service and supplies. This would reduce the presence of OSP Troopers in the area and response times would greatly increase.	\$1,653,002 General Fund	12 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Prineville Worksite reducing 9.00 FTE and elimination of related service and supplies. This would reduce the presence of OSP Troopers in the Madras area and response times would greatly increase.	\$2,492,703 General Fund	13 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the The Dalles Worksite reducing 28.00 FTE and elimination of related service and supplies. This would reduce the presence of OSP Troopers in the area and response times would greatly increase.	\$7,497,001 General Fund	14 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
Administration	Eliminate 2.00 FTE. One a Fiscal Analyst in Budget and the other a Program Analyst 2 in Grants.	\$421,340 General Funds	15 - Duties would be assumed by other staff

**5% and 10% Lottery Fund Reduction Options (ORS 291.216)**

Activity or Program	Describe Reduction	Amount and Fund Type	Rank and Justification
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. IDENTIFY REVENUE SOURCE FOR OF, FF. INCLUDE POSITIONS AND FTE FOR 2023-25 AND 2025-27)	(GF, LF, OF, FF. Agency-Wide	Elimination of Inflationary Increase throughout the agency. The impact will reduce all service and supplies, excluding rent and State Government Service Charge.	\$553,518 Federal Funds	1- Costs to operate the agency will continue to rise and the impact will reduce the services available
OSP office reductions affecting Patrol, Fish & Wildlife, and Criminal Division	Close the Gold Beach Worksite reducing 13.00 FTE and elimination of related service and supplies. This would reduce the presence of OSP Troopers in the Enterprise area and response times would greatly increase.	\$297,412 Federal Funds	2 - The closure of the location would drastically reduce or eliminate the presence of OSP troopers.
<b>10% Reduction Options (In Addition to the 5% Above)</b>			
Forensics Division	A reduction in Federal Funds would increase the burden on the General fund to purchase the necessary scientific equipment and supplies required by the Forensic Division.	\$542,771 Federal Funds	3 - reduction in the equipment necessary for forensic functions within the agency.

2023-25 Oregon State Police  
Governor's Budget

Revenues

### 2023-25 Governor's Budget Revenues Percentages

**Agency Total: \$659,947,829**

**REVENUE SUMMARY**

Approximately 30.8% of Oregon State Police's 2023-25 Governor's Budget (GB) is supported through Lottery, Other Fund, and Federal Fund revenue sources. Detailed schedules of revenue sources are provided within the program areas.

**Lottery Funds (Total, \$10,561,965)**

Lottery fund revenue received from Article XV, section 4(8) of the Oregon Constitution (Ballot Measure 76) is allocated to OSP through a transfer from the Oregon Watershed Enhancement Board (OWEB). These funds support 29 Trooper positions providing law enforcement services in the Fish & Wildlife Division. The 2019-21 Legislative Approved Budget decreased due to the effects of the global pandemic (COVID-19) in 2020. The 2023-25 ARB estimate is based on current service level plus inflation.

**Other Funds (Total, \$199,236,607)**

Major sources of other funds revenue received by OSP are to fund the following:

- Law enforcement services through interagency agreements for the Patrol Services, Fish & Wildlife Division, Gaming Enforcement, and Criminal Investigation Division.
- Marijuana Tax Revenue to fund law enforcement services in the Criminal Investigation Division (CID).
- Fees to support the regulatory functions of the Criminal Justice Information Services Division.
- Debt Service and Capital Construction & Facilities for XI-Q Obligation Bonds.
- Fees to provide oversight to regulate, monitor and increase compliance with court mandated Ignition Interlock Device (IID) requirements in DUII cases.

**Federal Funds (Total, \$14,113,696)**

Major sources of Federal funds received by OSP are awarded through the following federal agencies:

- U.S. Department of Justice (USDOJ)
- U.S. Department of Transportation (USDOT)
- U.S. Marshal Service (USMS)
- U.S. Department of Commerce (USDOC)

Federal funds support the following programs/activities:

- Forensic Services Division
  - DNA efficiencies and improvements, backlog processing and sexual assault evidence tracking.
  - Improve the timeliness and quality of forensic science services.
- Fish & Wildlife Division
  - Provide law enforcement for Federal and State fishery regulations on in inland and coastal waters.
- Criminal Investigation Division
  - U.S. Marshal Service to meet requirements for Joint Law Enforcement Taskforces.
- CJIS Division
  - Research and reconcile criminal records to obtain missing or incomplete court disposition information and coordinate mental health disqualification reporting from designated agencies for firearms background check screening.
  - Enhance and maintain implementation of Sex Offender Registration and Notification Act (SORNA) requirements.
  - Short term operations for enforcement of state and Federal statues related to out of compliant Sex Offenders.

The federal grants currently awarded to the agency include the following:

- U.S. Department of Justice:
  - DNA Capacity Enhancement and Backlog Reduction Program Grant
  - Paul Coverdell Forensic Science Improvement Program Grant
  - Support for Adam Walsh Act (AWA) Implementation Program Grant
  - NICS Act Record Improvement Program (NARIP) Grant
- U.S. Department of Transportation:
  - Hazardous Materials Emergency Preparedness (HMEP) Grant
- U.S. Department of Commerce:
  - National Oceanic and Atmospheric Administration (NOAA) joint enforcement agreement
- U.S. Marshal Service:
  - Sex Offender Registration Short Term Operation agreements

**Oregon State Police: Administrative Services Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area: A Thriving Statewide Economy

Program Contact: Deputy Superintendent Jon Harrington, 503-934-0234

**Program Overview**

The Administrative Services Division is comprised of the administrative support functions of the Department, including budget and financial reporting, accounting, payroll, grants management, human resources, information technology, contracting and procurement, and facilities.

**Program Funding Request**

The Administrative Services Division funding request at Governor’s Budget for the 2023-25 Biennium is \$24,888,617(GF), \$6,853,533(OF), and \$519,037(FF). Total funds request for Administrative Services Division is \$32,261,187.

The chart below demonstrates the historic and projected average cost of the Division per person residing in Oregon.

**Program Description**

Administrative Services Division is a diverse program area that provides budget development and oversight, business support, information technology, and human resource services to support the effective and efficient operation of the Department. It includes the Office of Financial Services, Human Resources, Business Services, and Technology Services.

**Program Justification and Link to 10-Year Outcome**

The following are the major goals and initiatives of the State Police Administrative Services Division over the next ten years.

**Goal 1**

The Department will continue to focus on the following internal strategies and initiatives that allow the organization to increase the effectiveness and efficiencies of administration, fiscal management and operations.

- Enhance the recruitment and retention of a qualified workforce;
- Continually examine internal areas for streamlining and efficiency;
- Effectively partner to enhance service delivery to the public and reduce operating costs;
- Consider outsourcing services when feasible;
- Develop and implement effective feedback systems that allow the leadership of the Department to evaluate progress on organizational initiatives;
- Continue development of specific program area performance measurement that clearly articulates program outcomes consistent with Oregon Benchmarks and legislative interests.

**Goal 2**

The Department will continue to develop the following budget and organizational strategies that allow it to meet its current mission *before* enhancing services or beginning new initiatives. The agency’s capacity for accountability and internal integrity is a prerequisite to its capacity to accomplish its mission.

- Direct budget focus toward the restoration of essential infrastructure;
- Implement an IT Security Program that manages and mitigates IT risks, update the IT strategic plan to align with the OSP Strategic Roadmap in order to outline future technology needs; and
- Implement an OSP Facilities Master Plan to ensure that all employees are working in a safe and secure environment.

**Program Performance**

In 2006, the Superintendent’s Office conducted its initial customer satisfactions survey of key stakeholders. The survey asked for the respondents’ satisfaction with the Department in six areas: 1) Overall performance; 2) Accuracy of Work; 3) Accessibility of Information; 4) Expertise of Staff; 5) Helpfulness of Staff; and 6) Timeliness of Service. Based on the results of the 2006 survey, a baseline target of 88 percent of stakeholders rating their satisfaction with the agency as “good” or “excellent” was established. The survey has been conducted every two years since 2006 to gauge areas in need of improvement with respect to service delivery, and the Department reports the results as one of its key performance measures (KPMs). Below is a chart highlighting the results of the survey regarding stakeholders’ overall satisfaction with the Department (the Department has consistently achieved above an 80 percent overall satisfaction rating).

**Enabling Legislation/Program Authorization**

N/A

**Funding Streams**

Administrative Services Division is primarily funded through General Fund and Other Funds, 81% and 18% respectively. The Other Funds within the Administrative Services Division are largely received from law enforcement service contracts, and other funded programs within the agency as part of the agency’s administrative cost allocation plan.

**2023-25 Funding Proposal Compared to 2021-23**

Agency Request Budget for Administrative Services Division requested additional funds for infrastructure needs in Budget, Accounting, Payroll, Human Resources, Procurement, Facilities, and Information Technology by positions that will enable these sections to meet the increasing demands for service internally and externally to the Agency.

Governor’s Budget for Administrative Services Division did not recommend various Policy Option packages that included but were not limited to capital construction, facility maintenance costs, business services staffing, EV stations and long term storage. Police Accountability, IT replacement and Debt service were modified in GB.

## Administrative Services Division Narrative

The Administrative Services Program consists of four sections in support of Department-wide administrative services including the development and implementation of the Department's biennial budget, financial reporting, accounting, payroll, human resources, information technology, contracting and procurement, and facilities.

Information Technology: Provides information technology (IT) services and support, as well as IT security and project management oversight. The IT Division evaluates new technologies aimed at improving efficiency and keeping officers on the road, reducing transit time and providing better, more accurate information that will ultimately improve officer safety. OSP IT is maturing its IT Security Program that builds information security into all aspects of the OSP organization and operations. OSP IT provides project management oversight while partnering with the Enterprise Information Services (EIS) in the State's stage gate oversight process.

Financial Services (Budget, Accounting and Financial Reporting): Financial services include budget development, execution, advising agency management regarding budgetary matters, financial reporting, grant coordination, and accounting services for the agency.

Business services (Contracting and Procurement): Provides contract administration of the Department's more than 400 contracts, procurement procedures, and oversight of over 55 facility lease agreements, including 43 offices state-wide. Business Services also oversees the facility administration of the Central Point office, which the agency assumed ownership of from the Department of Administrative Services (DAS) in July 2017.

Agency Services (Human Resources, Employee Safety, and Payroll): Manages compliance with state and federal labor laws, personnel policy development, classification and compensation issues, collective bargaining agreements, payroll and benefit management, and employee safety.

**Administrative Services Division**

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 100**

**POP Title: Police Accountably and Wellness Support  
Total Request: \$1,496,233 General Funds**

**RECOMMENDED as MODIFIED in GB**

The components to this Policy Option Package are segregated into the following six components.

- A. Superintendent’s Office Executive Assistant – Not Recommended
- B. Chief Data Officer – Not Recommended
- C. Regional Training Coordinators – Not Recommended
- D. Member Assistance Program (peer support team) - **RECOMMENDED as MODIFIED in GB**
- E. Human Resource Staffing – Not Recommended
- F. Payroll Staffing– Not Recommended
- G. Computer Aided Dispatch (CAD), Records Management System (RMS), and e-Citation/e-Crash (Report Beam) – Not Recommended

**Component A – Superintendent’s Office Executive Assistant**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding and position authority to add a full-time permanent Executive Assistant position to the Oregon State Police.

Historically, the Oregon State Police’s Executive Leadership Team (ELT) has worked with only 2 support staff (one Executive Assistant (EA) and one Executive Support Specialist 2 (ESS2)) positions for the Superintendent, Deputy Superintendent, the Field Operations Major, the Police Services Major, the Gaming & Business Services Major, the Public Safety Services Bureau Commander. In September 2016, the Superintendent reclassified the Executive Assistant position to a Public Affairs Specialist 2 (PA2). This was done due to the agency’s need to strengthen its outward-facing reputation through marketing, branding, media relations, and social media. At that time, it was deemed that the EA duties would remain under the PA 2. In December of 2020, the level of work rose to a higher level and the PA 2 was reclassified to a Public Affairs Specialist 3. It is no longer feasible for the PA 3 to continue to assume the EA duties. The Oregon State Police would like to request a permanent, fully funded Executive Assistant position to support the Superintendent and Deputy Superintendent.

The primary purpose of this position would be to support the Superintendent, Deputy Superintendent along with assisting in all of the administrative needs such as scheduling, writing correspondence, doing research, and triaging customer inquiries and complaints about the agency. This position would be the agency wide LEADS Representative, the Government Ethics Officer, and the Governor’s Constituent point of contact to name a few. This policy option package would correct a critical staffing shortage in the support of the Oregon State Police’s Executive Leadership Team.

**How Achieved:**

The Department will realize greater efficiency across the agency. By adding this position back to the Oregon State Police, it would allow for the agency to maintain the highest level of customer support and agency efficacy and also allow our Public Affairs 3 position to focus on the 5-year Strategic Communications Plan.

**Staffing Impact:**

This policy option package is requesting the establishment of 1 new position that will greatly assist the Department with a shortage in staffing to support critical positions that lead the agency.

Position Number	Classification Title	Classification Number	2023-25			2025-27

Positions	1	1
FTE	0.88	1.00

**Component B - Chief Data Officer**

**Purpose:**

The Oregon State Police (OSP) is a multi-dimensional organization, comprised of over 80 public safety programs. These programs operate across the State of Oregon and are interconnected with local, state, regional, and federal organizations. As a result, these programs are supported by a complex network of systems. Because of the critical nature of these systems to the safety and security of the public, the Department identified data governance, open data, and being data driven as key initiatives under its Stewardship and Transparency strategic focus area. These strategic

initiatives of the Department align with the State of Oregon’s open data (ORS 276A.350-374) and data governance initiatives (Statewide Policy #107-004-160). Oregon Revised Statute 276A.350-374 and Statewide Policy #107-004-050 have created several mandates around state agencies’ management, use, and sharing of data. These mandates require state agencies to maintain an inventory, prioritize, classify, and publish their data assets. Furthermore, Statewide Policy #107-004-050 also requires agencies to appoint a “Lead Data Steward” or equivalent (i.e., Chief Data Officer) to lead its data governance program and participate on the Oregon Data Stewards Council on behalf of the agency. Currently, there is no Chief Data Officer position within OSP to develop OSP’s data governance program or lead its strategic data initiatives. As a result, OSP’s data governance practices are performed on an ad hoc basis with each program managing, documenting, tracking, storing, sharing, and reporting data in a different manner (if at all). This approach to data governance makes it difficult for the Department to guarantee the reliability and security of its data, which results in increased risk, and requires greater effort to utilize the Department’s data resources and comply with Oregon law/policy.

**How Achieved:**

To comply with statewide statute and policy, and implement the Department’s data-related strategic initiatives, OSP needs a *Chief Data Officer* (CDO) position. The CDO will be a fulltime position focused on establishing a data governance program, developing agencywide policies, and ensuring the Department’s data stewards are trained in best practices. In addition, the CDO position will be responsible for the deliverables outlined in ORS 276A.350-374 and Statewide Policy #107-004-050 (see the *Quantifying Results* section below for a list of the deliverables). In addition, by employing a CDO a comprehensive, unified approach to managing OSP’s data resources can be developed thereby reducing the issues associated with the current ad hoc data governance practices. By having a unified approach, the Department can begin to mature its data governance program. The benefits of a mature data governance program include better reliability and security of data resources, increased operational efficiencies, enhanced decision-making, and improved transparency of Department operations.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101091	OPERATIONS & POLICY ANALYST 4	MMN X0873 AP	1	0.88	\$243,195	1	1.00	\$277,938
	<b>Total</b>		<b>1</b>	<b>0.88</b>	<b>\$243,195</b>	<b>1</b>	<b>1.00</b>	<b>\$277,938</b>

**Quantifying Results:**

One of the core responsibilities of the CDO position is compliance with ORS 276A.350-374 and Statewide Policy #107-004-050. Specifically, the following ongoing deliverables will be a measure of the success of the CDO:

- Dataset Inventory (due March 1 of every even year).
- Open Data Plan (due June 1 of every even year).
- Data Governance Plan (due December 1 of every even year).
- Data Governance Maturity Assessment (Due December 1 of every even year).
- Data Governance Gap Analysis and Improvement Plan (Due December 1 of every even year).
- Regular participation on Oregon Data Stewards Council.

Revenue Source: General Fund.

POP 100	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	\$243,195	\$277,938
Services & Supplies	\$15,000	\$15,000
<b>Total POP 100 (Chief Data Officer)</b>	<b>\$258,195</b>	<b>\$292,938</b>
Positions	±	±
FTE	0.88	1.00

**Component C - Regional Training Coordinators**

**Purpose:**

The purpose of this Policy Option Package is to request funding and position authority to add two (2) sworn trooper positions during the 2023-2025 biennium. This will allow the agency to dedicate two (2) additional sworn troopers to the Department’s Training Division wherein they will focus on providing enhanced training to current sworn Oregon State Police (OSP) employees around the state to ensure they are meeting not only the annual certification maintenance requirements set forth by the Department of Public Safety and Standards (DPSST), but also the additional training requirements established by the agency which align with current policies, rules, procedures, and case law.

The agencies current authorized strength for sworn positions is set at 766 FTE (as of July 1, 2022). The Training Division is comprised of only six (6) full time Training Coordinators that are responsible for producing lesson plans and curriculum updates, facilitating training, and ensuring program continuity to all sworn employees throughout the state. They are also responsible for creating lesson plans and facilitating training during initial OSP recruit training held at DPSST. This workload is a heavy burden for a small group of individuals, especially with the staffing challenges the Oregon State Police is faced with. All six (6) coordinators are currently assigned to the Salem area which often hinders their ability to travel to other worksites due to the demands placed on them during recruit training. Although the coordinators are supported by part time instructors around the state, this often causes a drain on field resources. Other than the six (6) Coordinators assigned to the Training Division, all Oregon State Police instructors have primary assignments outside of training and their participation can often lead to additional overtime costs and a requirement to backfill their shifts to ensure the Department continues to provide the same level of law enforcement services to Oregon’s communities.

**How Achieved:**

This policy option package proposes to increase OSP authorized sworn trooper strength by two (2). The positions will be filled by more tenured troopers that are already employed by OSP. The two employees who are chosen to fill these positions will create two vacancies in other areas of the department that will need to be backfilled, eventually requiring a need to hire two new recruits to avoid a negative impact to OSP’s current

staffing needs. Recruitment for these positions will be recruited following human resource and collective bargaining agreement guidelines/procedures and are projected for 24 months. Approved equipment and training purchases will follow state procurement rules.

Adding two additional FTE will allow the Training Division to assign one Regional Training Coordinator to each of our three regions (East, Southwest, and Northwest). Having a coordinator/instructor assigned to each region would relieve some of the burden placed on our current instructors and coordinators and help to ensure consistent training, messaging, and tactics are being taught using best practices and industry standards for policing. This improvement will ensure that OSP can build the progressive law enforcement leadership of tomorrow, while meeting the public safety needs of Oregon communities through fair and impartial application of the law.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of the Regional Training Coordinator Program. Services & Supplies and Capital Outlay were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
2579537	OSP TROOPER	SU U7555 AP	1	0.42	\$123,378	1	1.00	\$296,108
2579538	OSP TROOPER	SU U7555 AP	1	0.42	\$123,378	1	1.00	\$296,108
	<b>Total</b>		<b>2</b>	<b>0.84</b>	<b>\$246,756</b>	<b>2</b>	<b>2.00</b>	<b>\$592,216</b>

**Quantifying Results:**

- Reduce training-related travel per diem costs by 33%
- Reduce training-related OT costs by 10%
- Develop regional training schedules
- Reduce out-compliance rate with DPSST
- Conduct Regional In-Service each biennium

**Revenue Source:** General Fund

Positions	2	2
FTE	0.84	2.00

**Component D - Member Assistance Program (peer support team) – RECOMMENDED as MODIFIED in GB**

**Purpose:**

Law enforcement professionals have higher levels of stress and acute stress, greater risk of health problems, and heightened chances of exposure to dangerous situations and injury than people in other professions.<sup>1</sup> In 2013 and 2022, OSP tragically lost two of its sworn members to suicide. OSP has a Health, Wellness and Resiliency Unit currently staffed by three (3) positions serving 1400 employees. This unit is seeking to establish a member assistance program (peer support team). Peer support serves as a powerful resource for police in addressing stress management, mental health concerns, suicide prevention, and overall officer safety and wellness.<sup>2</sup> The long-term goal for the member assistance program is to have around one (1) trained peer to every ten (10) employees. This would be approximately 140 members of the agency who would have an additional role to their current duties.

For this team to be truly successful, a dedicated team of staff members who are fully assigned, concentrating on peer support and supporting the 140-member team is needed. The goal of employee wellness is a part of OSP’s “5-Year Strategic Roadmap” and also is identified in “The Presidents Task Force on 21<sup>st</sup> Century Policing” published in 2015.

The benchmark for OSP’s peer team will be to have 80 new peers assigned and properly trained by August 2024, with a long-term goal of having a team of 140 members. All peer support members who have received training will have peer confidentiality under Oregon Revised Statue (ORS) 181A.835.

<sup>1</sup> Health Disparities in Police Officers: Comparison to the U.S. General Population – International Journal Emergency Mental Health (2011)

<sup>2</sup> Peer Support: Does it Work? The Efficacy of Law Enforcement Peer Support. Digliani, Jack (2018)

**How Achieved:**

The FTE’s requested through this policy package will be recruited following human resource direction and any applicable collective bargaining agreements. Sworn positions will have a projected start date of October 1, 2023. New non-sworn positions will have a projected start date of November 1, 2023. Approved equipment and training purchases will follow state procurement rules.

**Staffing Impact:**

Positions	<b>6</b>	<b>6</b>
FTE	<b>3.50</b>	<b>6.00</b>

**Component E - Human Resources Staffing**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding and position authority to support agency-wide risk management including the development of policies, human resources operations, employee compensation, and benefits management, leave administration, safety and resiliency programs, employee engagement and career development, Recruit Trooper hiring administration, succession planning, and inclusion administration. These programs affect the Agency’s ability to attract, retain, and develop the workforce for today’s standards in law enforcement and for future continuity. Requests Include:

A. **Recruiting Team** – request position authority and General Fund (GF) to support four (5) positions that will reside within the agency’s Human Resources Department, focusing on developing and executing recruiting plans, monitoring goals for recruiting a diverse workforce,

handling the administration of a recruitment process, developing a pool of highly qualified candidates, screening applicants to evaluate if they meet the position requirements and research and recommend new sources for active and passive candidate recruiting to achieve affirmative action goals.

- B. **General Operations Team** – request position authority and General Fund (GF) to support three (3) positions that will reside within the agency’s Human Resources Department, focusing on advising supervisors to manage employee relations and evaluate performance concerns, developing employee policies, and identifying areas of improvement, organizing and implementing programs to train new employees, educate staff about new processes and teach employees about occupational safety and welfare, administering employee wages and benefits, and executing agency-wide initiatives or mandates through events and other forms of communication to achieve desirable outcomes.
- C. **Complex Leave Team** – request position authority and General Fund (GF) to support one (1) position that will reside within the agency’s Human Resources Department, serving as a subject matter expert for the protective leave laws and worker’s compensation programs in alignment and under the general direction of the state-wide and agency-wide policies and procedures to include any provisions in the collective bargaining agreements.
- D. **Workday HRIS Team** – request position authority and General Fund (GF) to support one (1) position that will reside within the agency’s Human Resources Department, focusing on providing HRIS system support for complicated transactions at the agency level, overseeing daily transactions entered into the system for conformity within state-wide and agency-wide policies to include the applicable collective bargaining agreements, collecting necessary data for EEO-1 reporting, generating ad-hoc reports for reports on agency turnover, hiring costs, and evaluate affirmative action goals, advising on system use, and providing on-going training of the HRIS system for agency staff.
- E. **Safety Specialist Team** – request position authority and General Fund (GF) to support one (1) position that will reside with the agency’s Human Resources Department, focusing on providing inspections of the forensic labs across the state for adherence to safety standards in support of lab accreditation and other regulations to include evaluating and recommending revisions of laboratory safety protocols.

Over the last two years with the events that have taken place, the agency understands the importance of earning and retaining the trust of the communities we serve. The agency is committed to continuing to build a workforce more representative and inclusive of all communities that we serve. OSP wants to have a workforce that reflects our demographics in this state, and this is an initiative that requires a concerted effort to improve our recruitment efforts. In evaluating our current resources for recruiting a diverse workforce within Human Resources Department along with the agency’s vacancies, the agency presently has 199 vacancies and three limited duration FTE for recruiting. Those three FTE are responsible for managing all Agency-wide recruitments. The current recruitment workload per month for each of the three limited duration FTE is 35-40 recruitments. In comparison to the statewide enterprise, the approximate average for a recruiter is 15-20 recruitments. OSP is currently double the volume per recruiter and is collectively trending towards having to manage more than 290 recruitments for the calendar year of 2022. The volume of vacancies and number of FTE does not adequately allow for proactive community outreach with other organizations or participation in job fairs affiliated with diversifying a candidate pool with talent, backgrounds, and more inclusive representations of the vast communities we serve in Oregon to achieve a multi-cultural workforce. The additional staffing requested in this policy option package will allow the agency to proactively participate in community outreach programs to seek diverse candidate pools. In hearing the calls from the Oregon communities, we serve to invest in our workforce to deliver cultural change, this request to fund and have the position authority for our recruiting team will provide the public assurances that OSP is committed to moving forward with a multi-cultural and diverse workforce.

As OSP continues to hire and serve communities within Oregon with a full range of law enforcement services, our Human Resources Department will need the required staff to keep pace with the additional Troopers and professionals to provide these services. To support our request for general

funds and position authority, OSP did an analysis of our Human Resources Department in comparison to similar tier-three agencies. The analysis included calculating a ratio of Agency FTE divided by Agency Human Resources (HR) FTE to indicate how many individuals an HR FTE supports for each of the similar tier-three agencies. A lower ratio indicates fewer agency FTE to HR FTE and a higher ratio means more agency FTE to an HR FTE. In our analysis of the similar tier-three agencies which is a total of nine agencies, seven agencies have a lower ratio than OSP with no additional positions and with our request, the analysis indicates six agencies would be lower than OSP. In order to risk mitigate, uphold accountability, advise supervisors and employees of policies or collective bargaining agreements, evaluate performance concerns, develop or revise policies, identify areas of improvement, organize and implement programs to train new employees, educate or continue training on a variety of areas or topics, enhance occupational safety programs to support a resilience workforce, administer employee wages and benefits, and execute agency-wide initiatives or mandates through events and other forms of communication to achieve desirable outcomes the request for additional funding and position authority will be required to keep pace with the growing agency so our Troopers and professional staff can serve our communities in Oregon.

The State of Oregon and its citizens heavily rely on the Oregon State Police to keep their communities safe. The continued expectation for police accountability, officer safety, mental health, wellness, and resiliency comes with the continued expectation of Human Resources supports each member of the agency and to do that the current position ask is what is needed to achieve the citizen’s expectations.

**How Achieved:**

The FTE requested through this policy package will be recruited following human resource and collective bargaining agreement guidelines/procedures. The FTE positions will have a projected start date of July 1, 2023, as these positions are currently filled by incumbents in a limited duration status.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each area of the Human Resources Department. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

**Quantifying Results:**

The State of Oregon and its citizens heavily rely on the Oregon State Police to keep their communities safe. The continued expectation for police accountability, officer safety, mental health, wellness, and resiliency comes with the continued expectation that Human Resources supports each member of the agency and to do that the current position ask is what is needed to achieve the citizen’s expectations.

Positions	11	11
FTE	11.00	11.00

**Component F - Payroll Staffing**

**Purpose:**

The purpose of this request is to request funding to support agency-wide payroll services. This impacts every individual that works for Oregon State Police. These positions will assist in the continuance of credibility, transparency, and customer service to existing and new employees. This program tracks and monitors all funds going out of the agency through payroll processes approx. \$15 million per month, maintains health benefits, coordinates resources for employees, works closely with multiple collective bargaining agreements, monitors and adjusts retirement contributions, and works towards collaborative training on policy and procedure with employees and management for payroll policies and practices.

Payroll Analyst- requests position authority and General Fund (GF) to support two (2) positions that will reside in the Payroll Unit located under Agency Services Team. These positions will provide accurate and timely processing, entry, and tracking of all payroll functions. This includes

garnishments, payroll deductions, retirement benefits, health benefits, and recuperation of agency funds. These positions regularly interact and counsel employees and managers on the application of the labor relation agreements, FLSA laws, scheduling, system oversite, Oregon State Police policy, and procedure, as well as Department of Administrative Services policy and procedures. These positions regularly interact with multiple internal and external stakeholders. The addition of these positions will support the compensation work with the Agency Services department and ensure that all compensation is correct for employees.

Over the last two years, OSP employees have been called upon as essential employees during a pandemic, wildfires with tremendous property damage and loss, as well as social pressures leading to riots and increasing crime. Through all of this, OSP realizes the one area we can control and is most important, is accurate and timely pay for OSP employees that serve the people of the State of Oregon. The OSP Payroll Unit has experienced challenges with retaining staff in our payroll unit. The primary factors to maintaining highly skilled payroll analysts are due to lower wages within government service and the high volume of manual timecard entry compounded with complex collective bargaining language for premium pay for our law enforcement staff, dispatchers, and for the forensic scientist. As OSP has experienced this challenge with maintaining payroll analysts, the state-wide enterprise has also experienced similar challenges with retention. In the recent biennium, the state-wide enterprise has taken measures to address the compensation for payroll analysts. The positions have been recently reclassified into a higher compensation grade which illustrates the necessary technical skills required for the position, acknowledging the increasing responsibilities of a payroll analyst, and the complexity of calculating and managing benefits under state-wide policies and the collective bargaining agreements.

In addition to the efforts to retain payroll analysts across the enterprise, OSP has the additional challenge of maintaining the current workload. OSP manually enters 800 timecards and with collective bargaining agreement revisions for salary adjustments spread across the biennium as a strategy for low-cost implementation, the payroll unit is constantly reconciling wages, back paying for the new salary implementation, adjusting other payroll liabilities, and working well over 40 hours per work to achieve this as a result. Between December 1, 2021, through March 31, 2022, over 1,200 corrections were made for salary implementation or pay equity adjustments. Unlike other state agencies, OSP has not been able to transition to report-based payroll or have specific roles and positions for timekeepers. This is primarily due to the complexity of the collective bargaining agreements with special payroll coding and/or also being 24/7 operations.

In December 2022 the State of Oregon will transition to a new payroll system. Current technology used for payroll applications is outdated and has not been updated since 1986. Payroll Analysts are currently relied upon to monitor the interface between multiple cloud-based systems and a current AS400 system. While the new payroll system will be cloud-based and remove the need for the monitoring of the integration between Workday and OSP, - there will continue to be integration monitoring through PERs and PEBB systems that are not moving to a Workday based application. Due to these application changes, these positions will continuously work on report-based payroll with a shorter deadline timeframe than we currently have.

The granting of the request for funding and position authority will support stability and business continuity across the agency. Additionally, the increase in staff will continue to provide accurate payroll process, transparency, and good financial stewardship of public funds, meet payroll timelines to compensate our workforce and manage benefits to provide the care and support for the dangerous jobs our Troopers and professionals so they continue to serve their communities in their vast public safety services for Oregon.

**How Achieved:**

The FTE requested through this policy package will be recruited following human resource and collective bargaining agreement guidelines/procedures. The FTE positions will have a projected start date of July 1, 2023, as these positions are currently filled by incumbents in a limited duration status.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101051	PAYROLL ANALYST	AO C0214 AP	1	1.00	\$169,435	1	1.00	\$169,435
3101052	PAYROLL ANALYST	AO C0214 AP	1	1.00	\$169,435	1	1.00	\$169,435
	<b>Total</b>		<b>2</b>	<b>2.00</b>	<b>\$338,870</b>	<b>2</b>	<b>2.00</b>	<b>\$338,870</b>

**Quantifying Results:**

It is anticipated that the addition of these staff will:

- Reduce over/underpayments
- Reduce corrective / retroactive actions
- Increase the program’s ability to attract and retain payroll talent
- Reduce overtime costs for the payroll team.

**Revenue Source:** General Fund

**Total Funding Request Summary:**

POP 100	2023-25	2025-27

Positions	2	2
FTE	2.00	2.00

**Component G - Funding for CAD, RMS, and Report Beam systems support****Purpose:**

There are three separate systems identified as OSP's core operational policing systems which support the agency's mission. They are the Computer Aided Dispatch and Mobile First Responder (CAD/MFR), known commonly as CAD; the e-Citation and e-Crash software, known commonly as ReportBeam; and the Records Management System (RMS) and Mobile RMS, known commonly as Niche.

The agency is actively working with Enterprise Information Services-Project Portfolio Performance (EIS-P3) and Department of Administrative Services (DAS) procurement to modernize and ensure continuing support and maintenance services for these systems. EIS-P3 and OSP agreed that these systems would be modernized in phases, first the CAD, then RMS and then e-Citation/e-Crash.

Although initially there was some small grants from ODOT and an agency cash balance used to begin the implementation of these systems, the agency has paid for most of these costs through budget/vacancy savings, which is not sustainable.

This POP outlines the costs associated with modernization and/or continued support and maintenance services for these critical systems.

**CAD** – OSP submitted a POP and business case for the CAD modernization project last biennium (2021-2023). The Business case was approved by EIS-P3, but the POP was not funded. OSP leadership committed to paying for the implementation costs with vacancy savings but would look to another POP (this one for the 2023-2025 biennium) for the ongoing support and maintenance costs for CAD.

Annual support and maintenance cost estimates: \$500,000 per year / \$1,000,000 per biennium.

**RMS** – OSP currently uses Niche RMS and is happy with the vendor and the system. The current contract provides regular modernization and upgrades and full support and maintenance services. The current contract is going to expire in 2023 and OSP is going to engage DAS procurement to extend the contract while other modernization efforts can be planned.

Current annual support and maintenance costs: \$313,000 per year / \$626,000 per biennium.

**eCitation/eCrash** - OSP pays annual services costs for Report Beam. OSP is happy with the current product but the vendor is moving to a new platform. OSP will evaluate the options to modernize this system in conjunction with the RMS modernization planning. Currently the contract is valid until 06/23/2023, with an option to renew.

Current annual support and maintenance cost estimate: \$58,000 per year / \$116,000 per biennium.

**How Achieved:**

Dedicated funding for these core critical systems ensures that the agency can meet our core mission now and as we modernize these systems for future use and support. It also enables the agency to fill positions that have previously been held vacant in order to implement and sustain these systems.

**Staffing Impact:**

This policy option package does not require staffing.

**Quantifying Results:**

Having dedicated funding will allow agency positions that have been held vacant to be filled. Filling sworn vacancies allows the agency to have more resources dedicated to the agency’s core mission.

**Revenue Source:** General Fund.

**Oregon State Police - Agency-wide  
Policy Option Package (POP): 101**

**POP Title: IT Lifecycle Replacement & Support  
Total Request: \$3,971,000 General Funds**

**RECOMMENDED as MODIFIED in GB**

This Policy Option Package (POP) requests funds to replace aging, failing and antiquated equipment and vehicles. This need is occurring as a result of expired warranties, advancement in technology and high vehicle mileage. The components to this Policy Option Package are segregated into the following six components.

- A.* Patrol Services Division Vehicle Replacements – Not Recommended
- B.* All Sworn Taser Replacements – **Recommended in GB**
- C.* All Sworn Ballistic Vest Replacement – **Recommended in GB**
- D.* Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – **Recommended in GB**
- E.* Northern and Southern Communication Center Furniture Replacement – Not Recommended
- F.* Critical IT Support-3 staff and Coban Storage, Evidence Management-3 staff – Not Recommended

**Component A – Patrol Services Division Vehicle Replacements**

**Purpose:**

Each Division accomplishes a 1:1 vehicle/trooper ratio through both “new” and “replacement” vehicle builds. A “new” vehicle build is exactly as it sounds, the car/truck/SUV is brand new as is the specialized police equipment that is installed within the car by Department fleet personnel. These vehicles represent the most expensive build for each division. New builds are most commonly associated with the hiring of new recruits (mainly applies to Patrol Division), the filling of long-term vacancies, new authorized positions, or replacement of a totaled vehicle resulting from an on-duty incident. The second type of build is termed “replacement” and, as the name suggests, this build is for vehicles that have reached their end of lifecycle. The key difference between a “replacement” and a “new” build is that the bulk of the specialized police equipment in the “replacement” build is transferred over from the vehicle that reached the end of its lifecycle. A “replacement” build is approximately two-thirds the cost of a “new” build.

The positive outcomes that resonate across each division for a 1:1 vehicle/trooper ratio include:

- A reduction in response times and highway closure times.
- Less time will be spent by troopers on patrol preparation and termination at the end of their shifts moving equipment in and out of vehicles.
- Troopers will not have to wait for other troopers to return to the office before they can go out on patrol.
- The agency will be able to field more troopers during large scale events.
- Each trooper will be equipped with a mobile platform (mobile office) and less time will be spent in the offices.

- An increase in field time of troopers will serve as a visible deterrent to crime and other hazardous driving behavior that can lead to vehicle crashes.
- Trooper safety is improved because they are more familiar with their assigned vehicle, how it handles, and where critical equipment is located.

In addition, each Division has unique characteristics that justify the funding request:

- **Patrol Division** - Patrol Division contains the largest number of sworn officers in the Department, with 478 authorized positions. When troopers share marked patrol vehicles those vehicles are kept at the patrol offices and are not available for troopers to take home when off duty. Patrol Division does not currently schedule 24 hour/7 days a week patrol coverage at any field office due to staffing levels, so if a call for service comes in when no trooper is scheduled to work, and they do not have a take home car, the trooper must first respond to the office to retrieve a vehicle. This adds significant response time when life safety and highway closure issues are associated with the incident.

**How Achieved:**

**Patrol Division-** Current Patrol Division authorized sworn staffing is 478, with 63 positions presently vacant. In anticipation of hiring to fill to authorized strength, we will need to purchase a minimum of 74 cars for “new” builds. Patrol Division vehicles include both Dodge Chargers and Chevrolet Tahoes. Tahoes are used by Division specialty units such as SWAT, Crash Reconstruction, and K-9. These units require the larger platform due to the amount and type of equipment they carry. A “new” Tahoe build is roughly \$15,000 more than a Charger build due to the higher base cost of the Tahoe and the specialty equipment that is part of the build. This specialty equipment may include a bed slider to ease access to equipment, lock boxes, and accommodations for a K-9. For 2023-25, Patrol Division will have 94 Chargers and 33 Tahoes lifecycle out and require a “replacement” build. The Division orders vehicles on a quarterly basis unless the manufacturer or other circumstances dictate otherwise.

**Staffing Impact:**

This Patrol portion of the policy package does not request new positions; however, if it is not approved it will likely result in holding trooper positions vacant in order to maintain enough funds to purchase required vehicles.

**Quantifying Results:**

This request links to the following Division KPMs:

- Patrol: KPM #1 – reduce fatal crashes on state and interstate highways where OSP has primary responsibility.
- Patrol: KPM #2 – clear 80% of lane blocking crashes within 90 minutes or less.
- Patrol: KPM #3 – increase the detection and apprehension of persons engaged in criminal activity on Oregon’s transportation system.

Each of these KPMs will benefit from maintaining a 1:1 vehicle/trooper ratio.

**Revenue Source:** General Fund

Patrol –94 Charger replacement builds; 33 Tahoe replacement; 74 new Charger builds

**Total Funding Request Summary:**

	2021-23	2023-25
Expenditure Category	GF	GF
Capital Outlay	\$3,066,360	\$0
<b>Total POP 101 Component A</b>	<b>\$3,066,360</b>	<b>\$0</b>

**Component B – All Sworn Taser Replacement - Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current Taser inventory deployed by all sworn divisions within the Department. Taser is discontinuing the sales of the X2, which is the current model in-service for the Department. It will no longer be available for purchase after 12/31/2022.

**How Achieved:**

Tasers are a critical piece of Law Enforcement equipment that provide Troopers with a force option that reduces injuries to suspects and OSP employees. The Department currently purchases and deploys the X2 conducted energy devices with sworn members in all divisions of the organization. The X2, and all Taser devices have a 5-year recommended service life. After the expiration of the service life, Taser will no longer certify, repair or offer expert testimony in relation the operation of the device in a legal proceeding.

Due to the manner in which the Department has purchased Taser devices in the past, the Department has Tasers with 2 years of deployment, 1 year of deployment, and 500 in need of replacement in 2022. The TAP program Taser previously extended to OSP is no longer available, and the new Taser 7 model is sold to departments through a subscription-based service/program.

The department is presented with two options for replacement of the current Taser inventory:

1. Purchase sufficient Taser X2 units to delay the purchase of the X7 until 2025. This would require the purchase of 500 X2 handles at a total cost of \$1,439,700. Due to the X2 being discontinued for purchase in 2023, the department would need to fund this purchase before December 2022. In three years, when the X2 units that have been in service for two years are at the end of their prescribed service life, the department will need to replace them with the X7 or another model not yet released.
2. Transition from the X2 platform to the X7 today. Currently the department is spending \$270,000 annually for Taser’s and related parts and equipment. Axon (Taser parent company) sales representatives met with OSP and supplied a quote for the cost to completely transition to the new X7 platform under the new subscription-based service. The quote included credits for the X2 units with 3 and 4 years of remaining service life. Under the new service model, the annual cost for 825 X7 handles, 960 rechargeable batteries, holsters,

cartridges, docking stations and other materials is \$512, 934. OSP would need another \$242,000 added to the base budget to fund Taser X7 deployment for all staff.

Option 1 is the least viable option as there is not an unencumbered \$1.4 million to use to purchase Tasers. Option 1 would also only delay the transition for 3 years when the next generation of X2 Tasers reach the end of their service life. According to Axon representatives, transition to the X7 today would make the X7 the platform for OSP for 10 years. A transition in three years might result in another forced transition in as few as 5 years. The Department needs to request a Policy Option Package to increase the base general fund budget by \$484,000 per biennium to implement a transition to the Taser X7 in the 23-25 biennium.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

Troopers, like all LE Officers are called to and discover incidents involving violence towards others, violence toward others, individuals suffering extreme emotional disturbance, or who under the influence of an intoxicating substance. When de-escalation tactics are unsuccessful, and specific individuals present the imminent threat of causing injury to themselves, or others, and possess the means an opportunity to do so, LE officers must respond with some level of force in the protection of themselves or others. Tasers provide a force option less likely to cause significant physical injury to the officer or recipient of the force response than many of the other force options available. Studies have shown 99.75% of Taser deployments result in no significant injury to the recipient. A 5-year DOJ study showed that the likelihood of injury suspect dropped 60% when a Taser was used when compared to other force options. PERF studies have also shown a 76% reduction in injuries to LE officers, reducing time loss and worker compensation claims. Taser devices are an essential piece of equipment required for Troopers to perform their assigned duties safely and effectively.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all division.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and Supplies	\$484,000	\$484,000
<b>Total POP 101 Component B</b>	<b>\$484,000</b>	<b>\$484,000</b>

**Component C – All Sworn Ballistic Vest Replacement – Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current body armor and ballistic rifle plates currently in use by the department.

**How Achieved:**

The current ballistic rifle plate system consists of two plates (front and back) in a nylon vest style carrier. The combination plates and carrier weighs about 12 pounds. When used in conjunction with the outer vest carrier, covers essential communication and other tools in situations where access to communication and other tools is critical. It also covers the body worn cameras deployed by uniformed staff whether the user is wearing a conventional Trooper uniform or wearing an external vest carrier. Current ballistic rifle plates are also one size fits all, making them oversized for some wearers.

The current ballistic rifle plates were initially purchased in 2015, and many have exceeded the manufactures warranty period so it is time for the department to begin replacing this equipment. Soft body armor and ballistic rifle plate technology has seen significant advancement. Current ballistic rifle plates weigh less than half the current model (2 pounds or less), are specifically fitted to the individual to include specific fit for women. The plates also come in a package which allows access to all law enforcement tools, communication equipment and body worn cameras. The soft armor panels are also significantly lighter, more flexible, with increased ballistic protection for the wearer.

Updating ballistic rifle plate/soft armor units would require the purchase of 766 units in biennium 2023-25. Looking at a five-year average for vests purchased for new employees the department anticipates purchasing 100 more rifle/plate soft armor packages in biennium 2025-27.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

By purchasing the updated technology in ballistic rifle plates and soft body armor, Troopers will receive an integrated package that will be fit to them and afford them increased ballistic protection while maintaining access to all law enforcement equipment. The reduction of weight, and increase in flexibility, will have significant impacts to Trooper health and wellness, reducing SAIF claims and time loss due to injury.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all divisions.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,934,500	\$242,440
<b>Total POP 101 Component C</b>	<b>\$1,934,500</b>	<b>\$242,440</b>

**Component D – Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – Recommended in GB**

**Purpose:**

**Lifecycle Replacement of OSP Workstations** – request General Fund (GF) to fund the ongoing replacement of old OSP workstations that are at end of warranty and/or out of support. This request would centralize the Lifecycle Replacement (LCR) of OSP Computers and establish it in the ongoing operational funding for the agency. In doing so OSP would be able to replace computers by OSP’s Lifecycle Replacement Schedule.

This is important and would solve the following issues:

- Avoid deferring LCR due to lack of funds / planning for LCR in the OSP business units and avoid a large amount of additional work by allowing LCR work to pile up to the point that the majority of the agency’s computers need replacing in the same year.
- Mitigate the significant security risk incurred by out of support / out of warranty workstations by replacing legacy computers that don’t receive security updates from the manufacture or operating system software.
- Reduce troubleshooting and maintenance time by purchasing a standard model rather than increasing workload and staff efficiency by attempting to support 160 different models of computers.

**How Achieved:**

**Lifecycle Replacement of OSP Workstations** – Building a lifecycle replacement cost into the General Fund budget is critical in ensuring the timely replacement of out of warranty and out of support workstations at OSP.

Going to a six-year Lifecycle Replacement establishes a standardized equipment for improved performance and lowered maintenance across all OSP owned computers. This will ensure that OSP staff will have access to modern computing platforms to support the mission of the Oregon State Police. This will also ensure that device failure is kept at a low rate, and device security and integrity can be maintained at an acceptable level. For example, Windows 11 has minimum hardware requirements, and version levels of CPU capability. Older models reaching the end of their lifecycle will not be able to be upgraded to the latest OS.

This will be accomplished by:

- Centralizing the lifecycle replacement with larger computer purchases of the same model types, e.g., standard laptop, MDT, with a minimum replacement percent completed every year.
- Maintaining computers that will still receive updates from manufacture and operating system software.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

**Lifecycle Replacement of OSP Workstations**

- Reduction in the number of out of warranty / out of support workstations (desktops, laptops and MDTs) at OSP.
- Reduction in the break/fix and replacement Service Desk tickets for of out of warranty / out of support workstations.
- Removal of a 4-to-5-year cycle of replacing a majority of the agency’s workstations all in one year (addressing the IT implementation logistics and financial cost overruns)

**Revenue Source:** General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,552,500	\$1,552,500
<b>Total POP 101 Component D</b>	<b>\$1,552,500</b>	<b>\$1,552,500</b>
<b>Positions</b>		
<b>FTE</b>		

**Component E – Northern and Southern Communication Center Furniture Replacement**

**Purpose:**

The dispatch console furniture in use today by OSP’s public safety dispatch centers; Northern Command Center (NCC) located in Salem & OSP’s Southern Command Center (SCC) located in Central Point is approximately 10 years old and needs to be replaced with more modern and flexible furniture capable of adapting to future needs. Modern dispatch furniture offers more ergonomic options and equipment positioning advantages not available in NCC & SCC’s current furniture configuration.

Further, the current furniture is in disrepair and out of warranty, which means OSP can’t acquire serviceable parts. This has led to the NCC & SCC’s leadership team attempting to troubleshoot and resolve furniture configuration issues on their own and at their own expense.

For these reasons, OSP’s NCC & SCC requests budgetary support and approval for the replacement of 34 dispatch consoles to support the dispatch center and its staff.

Basic market analysis of products offered by one established dispatch console vendor indicates that costs of updated furniture range from \$13,000 - \$18,000 per console.

The NCC currently operates 16 dispatch consoles and 2 supervisor consoles throughout the day. 2 additional consoles would be helpful in training/testing new and prospective employees and supporting dispatch operations.

Total estimated cost for NCC is \$360,000.

The SCC currently operates 10 dispatch consoles and 1 supervisor console throughout the day. SCC is currently part of the Central Point remodel, but it is believed that the consoles are not part of the remodel. It is expected that the remodel plans will allow for an additional 2 – 3 consoles added to the SCC footprint. This will bring the total number of dispatch consoles to 14 for the dispatch and supervisor staff.

Total estimated cost is \$252,000.

The total estimated cost for 34 consoles between NCC & SCC is \$612,000.

**How Achieved:**

NCC has already worked with OSP Procurement to receive a vendor quote for costs. SCC will follow the same process once the Central Point Facility construction project has finalized the layout of the remodeled SCC work area. OSP will then engage the vendor to install the updated workstations in each center.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

NCC and SCC staff will have modern, ergonomically correct and adjustable workstations that are serviceable and supported. This is critical in a 24/7/365 environment where employees often work long hours. Some of the advantages of dispatch specific furniture are:

- Ergonomics, comfort, and movement – Dispatchers sit tethered to a desk by their headset cords for long hours. The ability to ergonomically adjust their workstations throughout the day whether they are standing or sitting adds to their comfort, job satisfaction, and reduces the risk of injury.
- Cable management – This is an often-overlooked point of failure for mission critical systems. With adjustability comes repetitive stress failures for the cables which can then result in a critical system being out of service. Dispatch specific furniture is designed to be utilized 24 hours a day and the cable management is designed to minimize these failure points.

- Warranty – Typical office furniture is built to accommodate 40 hours a week. Dispatch specific workstations are built from the ground up to be used 24 hours a day and withstand over 4 times more wear and tear than regular office furniture. Dispatch furniture typically comes with a 10 or more-year warranty that ensures that the furniture continues functioning as needed for its life cycle.

Revenue Source: General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and supplies	\$612,000	0
<b>Total POP 101 Component E</b>	<b>\$612,000</b>	<b>0</b>

**Component F – Critical IT Support-3 staff and Coban Storage, Evidence Management-3 Staff**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding to fill a gap in funding for critical IT support and staffing needs for the 23-25 Biennium and beyond. We are seeking to permanently fund six (6) positions to support recent technology and IS deployments; a COBAN Video Support Technician (ISS 6), a Facilities Video Support Technician (ISS 6), a LEADS Systems Analyst (ISS 8) and three Evidence Technicians (AS2s). In addition, we are seeking to permanently fund the operational storage needs of our COBAN body worn and in car video. The details of this request are,

2. ***In Car Video (ICV) and Body Worn Camera (BWC) Support & Storage (COBAN)*** – to request General Fund (GF) to fund an ISS-6 position in IT Service Desk to support the ICV and BWC now deployed in the field and to fund the ongoing Cloud storage costs for the video being generated from the deployed ICV and BWC. The COBAN In Car Video system was originally rolled out in 2019, with the subsequent roll out of Body Worn cameras in 2021. As of May 2022, there are now 700 ICV systems and 630 BWCs in operation generating roughly 110 Terabytes (TB) or 87,000 hours of video every year, with a total archive storage now in excess of 300 TBs. The Service Desk receive 110 support calls for COBAN related issues each month, mostly related to image retrieval (software) but also hardware and installation related break/fix work.

This huge growth in the program over the past 2 years, coupled with the fact the vendor, SafeFleet, does not provide Tier 1 – 2 support, means that many support needs are going unmet. After the departure of the last limited-duration COBAN support position, Service Desk tickets for Coban had piled up and were not being addressed. This support of the OSP In Car and Body Cameras is a critical need as the sworn staff and troopers depend on them every day to carry out their duties in support of the agency’s mission. A Service Desk Tier 2 senior technical analyst will be able to support and primarily focus on the daily COBAN video operations and

sustainment, as well as provide better training and support to the rest of the Service Desk staff to improve ticket resolution times, and work with the SafeFleet support on Tier 3 issue escalations.

3. **Facilities (External and Internal) Video Camera Support** – to request General Fund (GF) to fund an ISS-6 position in IT Infrastructure to support the facilities video systems now deployed at four (4) OSP sites, and also to deploy additional standardized video systems to the remaining OSP sites. In addition, this position will coordinate the deployment of video systems for internal needs such as evidence rooms and interview rooms. This position can also provide technical support for various cameras and equipment used by criminal and F&W investigations, and coordinate with the OSP IT Telcom coordinator where wireless connectivity is required.

This position is needed to support the following video needs of OSP stakeholders,

1. OSP Facilities – exterior and interior cameras needed as detailed in CBA (Collative Bargaining Agreement) and for officer and staff safety and security.
2. Crime LABS – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP.
3. Evidence Rooms – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP sites.
4. Interview Rooms – to provide evidence in interviews and to ensure the safety and security for Troopers and Interviewees.
5. Criminal Division – these cameras have a wide range, between undercover cameras to joint cameras available across agencies.
6. Fish and Wildlife – these cameras have a wide range, between movable trail cameras to fixed cameras to provide evidence on poachers and other investigations.

[Problem] OSP’s use of video technology has grown significantly, and OSP IT does not have the resources or expertise to addresses these needs now, and in the future. The OSP administrative and sworn staff depend on these video systems every day to avoid risky situations and life-safety events, to capture and protect the integrity of evidence, and to carry out their duties in support of the agency’s mission. It is simply no longer acceptable to have a need for the video evidence at an OSP site or evidence storage location, and not be able to provide the video because there in no plan to install and maintain these systems. Much of the specific work (installing cameras, pulling cables) can be outsourced. However, this misses the coordination needs between the different contractors, as well as ensuring that the Infrastructure needed to support the video system, as well as ensuring standard, professional grade hardware is specified and used. In addition, the increasing video storage costs need to be budgeted now that the ICV and BWC systems have been deployed.

4. **LEDS 2020 Information System Support** – request General Fund (GF) to fund an ISS-8 Position in IT Infrastructure to support the LEDS 20/20 system on an ongoing basis. The LEDS 20/20 project is a multi-year IT modernization project. LEDS 20/20 supports law enforcement throughout Oregon, with connections to all other states, NCIC, and Interpol. It stores criminal history and records of stolen articles. It is an important, mission critical tool to support both officer and public safety.

Whilst the LEDS 20/20 system is developed and supported by the vendor, DCI, there is a complex support system in place between the vendor, DCS, Nlets and the local Law Enforcement Agencies.

1. When the LEDS 20/20 Project started out, the decision was made to host the system at the State Data Center (now Data Center Services). Since DSC works only with State Agencies, OSP IT must act as the intermediary on all project changes and service

change needs. In addition, OSP IT must respond first to any LEDS 20/20 system outage or impact, and then facilitate engagement of any vendors and third parties in the Incident Response process, and subsequent solution development and applying fixes to the LEDS 20/20 infrastructure.

2. DCI also doesn't interact with any local Law Enforcement agencies (LEDS customers). This has to be done by the LEDS Help Desk and when there are technical challenges, e.g., coordinate secure VPN connections, this must be facilitated by OSP IT.
3. Most recently in Phase 5 of the LEDS Project involving implementation of a Disaster Recovery (DR) solution, the decision was made to host DR site at Nlets in their Arizona facility. This resulted in the need for OSP IT to facilitate between the three parties DCI, DCS, and Nlets around DR implementation, and once in Operations and Sustainment, OSP IT will take the lead in coordinating changes to the DR environment (as changes are made to the Production environment at DCS). In addition, OSP IT will have to apply any patches and changes to the DR infrastructure to keep it in sync with changes to Production.

An ISS-8 for LEDS will be able to provide the coordination IT work and issues between OSP IT and CJIS Division, DCI and the other LEDS system partners, DCS, CSS, Nlets. This will continue beyond the end of the LEDS 20/20 project into the Operations and Sustainment period.

5. **COBAN Video Evidence File Management** – We are seeking to permanently fund three (3) COBAN File Evidence Technicians (AS2s). COBAN video files generated and stored in the Cloud are stored at intervals consistent with their file type and case it is associated with. These files must be reviewed for cases in which the file must be move off of the COBAN Cloud and onto a long-term storage medium. This work is most appropriately accomplished by Evidence Technicians (AS2s) who are familiar with chain of evidence protocols and evidence retention periods.

#### How Achieved:

- A. **In Car Video and Body Worn Camera Support (COBAN)** – This support will be achieved by permanently funding an ISS 6 position as a COBAN Video Support Technician (Service Desk.), and permanently funding the ongoing video storage costs (COBAN Cloud storage.) This position will be critical in monitoring and driving the video data upload/download processes and data flow across the infrastructure architecture, the installation, and operations practices, along with full end-to-end set up and support understanding, and would assist in the creation and maintenance of all the COBAN technical support and user documentation. This would allow the current Service Desk staff to better assist with COBAN customer support with a full understanding and on-site expertise available to help them gain additional knowledge of this new technology.

This position's main duties would be to,

- Support all aspects of the day-to-day COBAN use
- Assist with the new vehicle deployment
- Coordinate change management for upgrades.
- Provide troubleshooting, training, and develop and share operations expectations and best practices to all OSP IT staff
- Study in-depth the IT support model for problems and questions and recommend improvements with input from all stakeholders.
- Create/update/resolve tickets for COBAN service request and calls, as well as coordinate unresolved tickets with Tier 3 support

- If unable to resolve the issue, escalate or route calls for peer review, or engage with Vendor support.

This work cannot be outsourced due to the complex nature of the interoperability and function of the COBAN devices and server communication on the State's Network (Wide-area network). This position needs to coordinate with SafeFleet and all the partners involved in installing the equipment into the vehicles (Fleet), supporting the COBAN infrastructure at all the OSP facilities (DSC and Facilities contractors) as well as coordinating the break/fix and lifecycle replacement of COBAN equipment. This work has been done on an interim basis by the Service Desk manager and project manager. But this is not a long-term solution for creating a robust and supportable COBAN environment.

The ongoing video storage costs have been estimated at \$406,620 per year or \$813,240 per biennium based on current usage and projected growth. The costs also take into account the video retention schedules that have been determined and put into policy. Different types of video have different schedules based was incidents and cases the video is associated with.

- 7 months for "Default" tagged files
- 18 months for "Violation" tagged files
- 5 years for "Criminal" tagged files

**B. Facilities Exterior and Interior Video Camera Support** – This support will be achieved by permanently funding an ISS 6 position as a Facilities Video Support Technician (Infrastructure.) This position will be critical in overseeing, administering, and planning the OSP video systems, which include a complex statewide and cloud infrastructure for video appliances and systems at statewide office sites, in addition to other OSP video technology and needs.

The duties for this position include,

- Responsible for the performance, availability, and security for OSP's video systems.
- Provide CCTV Video Tier 3 support.
- On-going CCTV Video systems training including End User and IT Staff.
- Advise on purchase of new video technology on existing approved price agreement/contracts or solicits through a proposal-based purchase.
- Manage and create implementation plans for new video system deployments and work with multiple video and facility vendors, agency partners, and multiple OSP divisions.
- Ensure that eDiscovery requirements for video systems are met.
- CCTV Video reporting and analytics for retention validation.
- Assist with Critical incident lock-down.
- Evaluates impacts/risks to ensure timely implementation of system upgrades and/or security requirements.
- Plan and design for future video systems and OSP needs.
- Analyze and optimize site network speed/bandwidth for video systems across the State.
- Considers Agency wide ramifications on security and support for video systems.

This work cannot be outsourced due to the complex nature of the interoperability and function of modern digital video capture devices and applications. This position needs to coordinate all the different vendors, partners involved in video system maintenance from the video component suppliers, the facility and network cabling installers, the location of the video management equipment both locally and centrally. This work has been done on an interim basis by the Infrastructure manager and temporary staffing. But this is not a long-term solution for planning, developing standards and creating a robust and supportable environment.

- C. LEDS 2020 Information System Support** – This support will be achieved by permanently funding one (1) ISS 8 position as a LEDS Systems Analyst (Infrastructure team). The LEDS 20/20 system is supported by the Vendor, Diverse Computing Inc. (DCI). Their support and expertise is limited to the application software that was created by DCI. There are operational tasks that still rely on support from OSP's IT staff and to coordinate with DCI, DCS, CSS and Nlets.

At a high level, the operational work this position will be responsible for includes:

- Work with DCS, CSS and Nlets to provide maintenance and troubleshooting to the production LEDS 20/20 environment, including:
  - Incident Response
    - Outage notification and ticket creation with DCS/CSS
    - Outage communication to the business group and PSSB management
    - Outage coordination between DCS/CSS and DCI
  - Routine network changes by the regional agencies that connect to LEDS 20/20, which requires ticket creation with CSS and coordination to complete the work
    - VPN configuration
    - OSP firewall work
    - Coordinating work with Nlets
    - Coordinating work with CSS
    - Whitelist of IP for Production and DR sites for eAgent
  - Actively troubleshoot outages and issues with DCI, DCS/CSS, and regional agencies
  - OS updates to servers at Nlets (DR)
  - Coordinate best dates/times for maintenance, including OS, by DCS/CSS to systems and network, includes consulting with the business group to identify those best dates/times
- Updates to OSP firewalls
- Monitor Prod and DR systems health
- Provide notifications of maintenance by DCS/CSS or Nlets to the business group and DCI
- Work with Nlets regarding system and network changes to ensure Disaster Recovery site viability
- Advice and consultation with the business group regarding future changes and issues
- Periodic coordination and hands on work to verify Disaster Recovery site viability
- Periodic coordination and hands on work to verify production system performance

- Failover and establishment of connections with the Disaster Recovery system in an emergency
- Maintain current documentation of the infrastructure at both the production and Disaster recovery sites
- Document outages, issues and resolutions and maintain a knowledge base to streamline future issue resolutions
- Maintain Web Proxy Server for internet access to both Prod and DR environments
- Maintain Mail Relay Server for DR environment
- Maintain SFTP server for both Prod and DR environments
- User administration – password reset, account creation for LEADS.or.gov
- Coordinate tech refreshes with FBI/NCIC and Nlets
- Annual FBI/NCIC Inventory verification

**D. COBAN Video Evidence File Management** – These Evidence Technician positions will monitor case files being stored by COBAN in the Cloud. Files that are set to be deleted at the term set by COBAN will be assessed as to their need for further extended retention. These files would include those where the case has not been resolved and record retention guidelines require long term retention. Once those cases have been identified the Evidence Technician will transfer those files to a long-term storage medium until such time the file can be purged. This is dependent upon many factors including but not limited to adjudication of the case and the statute of limitations for the related offense.

These positions main duties would be to:

- Review case status of COBAN video files
- Communicate with District Attorney, Courts and Troopers regarding video evidence
- Ensure chain of custody and proper handling of evidence
- Transfer video evidence per retention protocols and case status
- Ensure transferred evidence is properly stored
- Continually monitor transferred evidence files for disposition
- Manage, maintain, and purge digital evidence as needed.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101053	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037
3101054	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037

3101093	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
3101094	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
3101095	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
	<b>Total</b>		<b>6</b>	<b>5.64</b>	<b>\$1,317,993</b>	<b>6</b>	<b>6.00</b>	<b>\$1,383,288</b>

**Quantifying Results:**

**1. In Car Video and Body Worn Camera Support (COBAN)**

- Reduction in outstanding tickets (and the ratio of the number of open tickets to the number of video units in service)
- Reduction in average turnaround time for COBAN ticket resolution
- Measurement and improvement in satisfaction scores for COBAN users

**2. Facilities (Exterior and Interior) Video Camera Support**

- Reduction in backlog of sites without video systems, or with failing video systems
- Measurement and improvement in safety satisfaction scores for staff at OSP facilities
- Measurement and improvement in support satisfaction scores for law enforcement activities and criminal investigations

**3. LEDS 20/20 Information System Support**

- Dedicated and consistent support of public safety mission critical system
- Measurement and improvement in communication and support satisfaction scores of LEDS 20/20 users and stakeholders
- Measurement and improvement in satisfaction scores with regional agencies using LEDS 20/20
- Measurement and sustainment/improvement in LEDS 20/20 availability and uptime related to network and infrastructure.
- Planning and coordination of vendor related improvements, and timely migrations from obsolete hardware and technology.

**4. COBAN Video Evidence File Management**

- A reduction in amount of unnecessary data storage on the COBAN Cloud resulting in cost savings
- Increased oversight of video evidence ensuring proper retention schedules
- Increased efficiency in the transfer process of video evidence
- A reduction in the chance of lost video evidence due to lack of monitoring

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 102**

**POP Title: Springfield Forensic Lab/ME Office/Command Area Capital Construction RECOMMENDED as MODIFIED in GB  
Total Request: \$48,645,007 Total Funds (\$44.1 General Obligation Bonds OF; \$4.5 General Fund Debt Service)**

**Purpose:**

The purpose of this Policy Option Package (POP) continues the XI-Q bonded financing the agency received in the 2021-23 biennium.

**How Achieved:**

Springfield, as an enhanced center of OSP operations, would make use of a strategy that locates Area Command facilities on one site, with Forensic Services Lab and Medical Examiner facilities co-located on another site. The Springfield Forensic lab and Medical Examiner project was designed to achieve the best value for the state by designing this facility to meet the growth needs of the Forensic Services Division for the next twenty years. This will enable the existing Forensic laboratories in Portland and Bend to stay at their existing locations over that same time period, thus achieving a significant cost savings for the state.

The Springfield office does not have sufficient space for current operations. To provide critical functionality to the state’s citizens a larger office is required. This is exemplified by the Forensics Division Springfield lab, with 24 forensic positions, attempting to carry out their work in less than 6,000 square feet of laboratory and office space. This equates to about 250 sq. feet per position, which is significantly below forensic lab standards and allows no room for growth to meet the state’s public safety needs in the future.

This project has been separated into two project locations. The Springfield Forensic Lab and Medical Examiner’s Office will be located in Eugene on Chad Drive. The agency is currently procuring bare land on Chad Drive for this office, actively in negotiation with the property owner to close on this property acquisition. We are planning an approximate 68k sq. foot – two story building on this property. We are estimating a total of \$83m land and property cost given the continual inflation, supply chain and labor market shortages that our country is currently facing. Or original cost estimates on this project was greater than two years old and the economy has changed rapidly since that time.

The original request for the Springfield Forensic Laboratory and Medical Examiner’s Office that was authorized in the 2021-23 biennial budget and needed to be requested in 2023-25 for the October 2023 sale was \$11,320,000. That would have been a total of \$71,982,733 for a project total. We are requesting an additional \$10m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$21,320,000 in project proceeds in the 2023-25 biennium.

The original request for the Springfield Patrol Area Command Office that was authorized in the 2021-23 biennial budget and needed to be requested in the 2023-25 for the October 2023 sale was \$3,600,000. That would be a total of \$33,961,269 for a project total. We are requesting an additional \$15m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$48,961,269 in project proceeds in the 2023-25 biennium.

Central Point Office Expansion, we are requesting an additional \$15m in bond authority to complete all Phases of this office expansion. The original bonding request of \$33.9m was estimated using information from 2020 as well as a design and plan that is not the direction, we are going with this project in reality with the current design build contractor we have contracted with. As well cost of construction has increased over 38%. Cost of materials has also escalated creating another point of price difference.

**Staffing Impact:**

None

**Quantifying Results:**

The investment in these facilities is an important step towards providing public safety services across the state of Oregon.

**Revenue Source:**

General Fund Debt Service and Other Funds (Bond Proceeds)

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 103**

**POP Title: Portland/Ontario/Coos Bay Capital Construction** **NOT RECOMMENDED in GB**  
**Total Request: ~~\$16,589,414 Total Funds (\$15.1 General Obligation Bonds OF; \$1.5 General Fund Debt Service)~~**

**Purpose:**

The purpose of this Policy Option Package (POP) is to acquire land for a Portland, Ontario, and Coos Bay area command centers.

**How Achieved:**

In March 2020, in collaboration with the Department of Administrative Services (DAS) the Oregon State Police (OSP) completed a Strategic Facilities Framework Plan. FFA Architecture & Interiors was contracted to develop a strategic master facility plan for OSP. Phase two of this plan included Portland, Ontario, and Coos Bay land acquisition for area command offices. The plan in future biennia are to start the construction process after the land acquisitions in these areas.

**Staffing Impact:**

None

**Quantifying Results:**

The investment in these facilities is an important step towards providing public safety services across the state of Oregon.

**Revenue Source:**

General Fund Debt Service and Other Funds (Bond Proceeds)

**Oregon State Police - Administrative Services Division  
Policy Option Package (POP): 104**

**POP Title: Springfield Office Moving Costs**  
**Total Request: ~~\$1,000,000~~ General Funds**

**NOT RECOMMENDED in GB**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request the moving costs associated with our new Springfield Area Command, Springfield Forensics Lab, and Springfield Medical Examiner facility.

**How Achieved:**

Currently, OSP is in the development stages for a new facility in the Springfield/Eugene area that will consist of area command, a forensics laboratory, and a medical examiner facility that is estimated to go into operation in 2024. Once the facility is completed, OSP will have costs associated with moving into the new space.

**Staffing Impact:**

None

**Quantifying Results:**

An investment in the Springfield Area Command office, Springfield Forensics laboratory and Medical Examiner office is an important step towards providing public safety services as well as disaster preparedness here in Oregon. It is critical that funding is approved in order to meet the proposed budget goals, as well as meet the schedule and operational requirements that sustain OSP operations.

**Oregon State Police - Administrative Services Division  
Policy Option Package: 105**

**POP Title: Facility Maintenance Central Point**  
**Total Request: ~~\$680,000 General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:**

The purpose of this Policy Option Package (POP) is to improve aging and inadequate infrastructure at Oregon State Police (OSP) Central Point office.

**How Achieved:**

Senate Bill 1067 (2017) required the Governor’s Budget to include an amount for deferred maintenance, which is at least 2% of the current replacement value of state-owned buildings and infrastructure. In addition, ORS 276.229(2) requires state agencies to include the biennial costs associated with maintenance, major repairs or building alterations in their regular budget presentations to the Legislative Assembly. Agencies are required to include in their budget presentations short-term and long-term plans to reduce or eliminate any existing backlog of deferred maintenance. Construction at the Central Point office site is planned to end June 30, 2023.

**Staffing Impact:**

None

**Quantifying Results:**

The investment in the office would address the deferred maintenance needs for the OSP facility.

**Revenue Source:**

**Oregon State Police - Administrative Services Division  
Policy Option Package (POP): 106**

**POP Title: Facility Maintenance Albany & Ontario  
Total Request: ~~\$185,000 General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:** The purpose of this Policy Option Package (POP) is to improve aging and inadequate infrastructure at Oregon State Police (OSP) offices leased from Oregon Department of Transportation (ODOT). OSP is responsible for facilities maintenance in these offices.

**How Achieved:** Senate Bill 1067 (2017) required the Governor’s Budget to include an amount for deferred maintenance, which is at least 2% of the current replacement value of state-owned buildings and infrastructure. In addition, ORS 276.229(2) requires state agencies to include the biennial costs associated with maintenance, major repairs or building alterations in their regular budget presentations to the Legislative Assembly. Agencies are required to include in their budget presentations short-term and long-term plans to reduce or eliminate any existing backlog of deferred maintenance.

The OSP does not own the office and we lease from ODOT. The agency will coordinate with ODOT on repairs and maintenance needed in both office locations.

**Staffing Impact:** None

**Quantifying Results:** The investment in these offices would address the deferred maintenance needs ODOT has identified in the state facility database, iPlan. Albany Office needs HVAC replacement estimated at \$98,000 and the Ontario office needs to replace and paint metal wall cladding estimated at \$87,000.

**Revenue Source:** General Fund

**Oregon State Police - Agency Support Division / Administrative Services Division  
Policy Option Package: 115**

**POP Title: Business Services Staffing**

**NOT RECOMMENDED in GB**

**Total Request: ~~\$1,180,943~~ General Funds**

**Purpose:**

The purpose of this policy option package (POP) is to request limited duration position authority to meet the agency needs to build and maintain fleet vehicles. The POP also requests two (2) permanent positions to manage and monitor capital construction and facility projects around the state.

**How Achieved:**

The agency would like to request funding for three limited duration Emergency Vehicle Technicians, one Facility Maintenance Manager 1, one Project Manager 3, and related service and supplies.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101100	Emergency Vehicle Technician	SC C4415 VP	1	1.00	\$190,641	0	0.00	\$0

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

**Staffing Impact:**

None

**Quantifying Results:**

Not applicable

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component D)	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,217,259	\$1,217,259
<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Quantifying Results:**

Not applicable

**Revenue Source:**

General Fund

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

Oregon State Police - Administrative Services Division  
Policy Option Package (POP): 121

POP Title: **Electric Vehicle Charging Stations**  
Total Request: ~~\$250,000 General Funds~~

**NOT RECOMMENDED in GB**

**Purpose:**

To request funding in support of Executive Order 17-21 and 20-04.

**How Achieved:**

Since 2013, state agencies have been expressly authorized to locate electric vehicle charging stations on agency property for use by the public. Executive Order 17-21 declared state agencies should lead by example by increasing our use of electric vehicles. DAS was also directed in the EO to add electric vehicle charging capacity for employee and public visitor parking lots. Executive Order 20-04 further emphasized this goal by stating all agencies with jurisdiction over the sources of greenhouse gas (GHG) emissions will need to continue and develop and implement programs that reduce emissions to meet the state’s GHG goals. While the Oregon State Police was not specifically named in the order, it is the intention of the State Police to lead by example and incrementally install electric vehicle charging stations at our offices around the state.

The agency would partner with DAS and other private entities to increase the number of electric vehicle charging stations in our employee and public visitor parking lots.

**Staffing Impact:**

None

**Quantifying Results:**

An investment in this area would help the Oregon State Police meet the goals set forth in EO 17-21 and 20-04.

**Revenue Source:**

**Oregon State Police - Patrol Services Division / Administrative Services Division  
Policy Option Package (POP): 123**

**POP Title: Wilsonville Long-Term Evidence Storage  
Total Request: ~~\$4,905,250~~ General Funds**

**NOT RECOMMENDED in GB**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funds to lease a 23,000 square foot long-term evidence storage warehouse that would provide space for the agency’s growing evidence needs, while adequately protecting the integrity of the evidence. The proposed long-term evidence storage warehouse is included in the Department of Administrative Services self support rent table in the statewide 2023-25 Agency Request price list (North Valley Complex Warehouse - \$4,552,901). The warehouse would need to meet standards set forth by the International Association of Property and Evidence (IAPE) and the Commission on Accreditation for Law Enforcement Agencies (CALEA). It also establishes one (1) additional FTE to provide evidence management for the location.

**How Achieved:**

The Oregon State Police maintains 28 evidence lockers at OSP offices throughout Oregon. Several of these lockers are nearing or above capacity, causing the agency to rent additional local storage space to accommodate new evidence. This problem will be exacerbated with time as our Troopers continue to collect evidence to support investigative work, forcing the agency to spend additional dollars to rent needed storage; storage which likely does not meet the security standards we have in place for evidence.

Capacity at these lockers is being hindered by the storage of evidence that has long term or permanent retention requirements. In 2015, our evidence lockers contained roughly 123,000 exhibits, with 34,000 of those having been in storage for over 5 years. Retention over 10 years was 16,000 exhibits, while 14,000 exhibits required permanent retention. Our proposed solution is to lease up to a 20,000 square foot secure warehouse that can be utilized as a long term/permanent evidence storage facility. This warehouse would allow us to transfer all evidence from local lockers that has been in retention for at least five years to this new facility, resulting in increased usable space in our office lockers now and into the future.

The Patrol Services Division employs 14 non-sworn evidence technicians who play a vital role in the support of all divisions within the agency through the acquisition, maintenance, and disposition of all agency evidence. Criminal cases are often won or lost solely on physical evidence; well-maintained evidence lockers are a vital component to the outcome of criminal cases, whether it be the conviction of a dangerous offender or the innocence of someone wrongly accused.

Managing evidence is a critical agency function. Long-term evidence storage requires careful planning and organization; specifically, to preserve the chain of custody and prevent cross-contamination. Advances in DNA and other forensic testing methods have made proper handling of biological evidence absolutely essential. Oregon has passed legislation that dictates how biological evidence shall be stored and implemented stringent retention limits that prevents law enforcement agencies from destroying biological evidence collected in conjunction with certain crimes. Our evidence technician personnel currently maintain 28 separate evidence storage locations throughout the state. The evidence storage lockers are attached to Patrol offices and were not designed to provide long-term evidence storage. None of the agency’s current locations have the

commercial refrigeration or freezer capabilities that are necessary to maintain long-term biological evidence. Some of the locations are not temperature controlled. Most locations do not have drying cabinets or a dedicated space for working with biological or trace evidence. The number of evidence exhibits seized by OSP Troopers has continued to increase. In 2015, the agency housed roughly 123,000 exhibits. The agency currently houses nearly 147,000 exhibits, which is an increase of over 19.5% in the last 2.5 years. This increase is due to the number of major felonies the agency is investigating and the changes in Oregon law that require the agency to apply extended retention periods to certain evidence.

In 2015, the agency was housing over 14,000 homicide exhibits. These exhibits have no statute of limitations and must be retained indefinitely. The agency currently houses nearly 21,000 such exhibits, which is an increase of 47% over the last 2.5 years. A homicide evidence exhibit can range in size from as small as a BB to as large as a car or recreational vehicle.

The agency currently houses 233 sexual assault kits, which have a 60-year retention period. Over the last three years, the agency has collected approximately 40 kits per year: 42 in 2015, 45 in 2016, and 36 in 2017. Given the agency’s evidence statistics, there is reason to believe this number will steadily grow; not decrease. With the 60-year retention period in place, the department is expected to have an additional 400 kits to retain by 2028. These kits must be stored in a dry, temperature-controlled environment.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101105	Administrative Specialist 2	SC C0108 AP	1	0.88	\$152,349	1	1.00	\$174,114
	<b>Total</b>		<b>1</b>	<b>0.88</b>	<b>\$152,349</b>	<b>1</b>	<b>1.00</b>	<b>\$174,114</b>

**Quantifying Results:**

Lease one 23,000 square foot secure evidence storage warehouse (including storage racks, a vertical lift, and a forklift) and establish one evidence technician position to work at the warehouse. An investment in this evidence storage solution will ensure the agency is following the best practices for long-term evidence storage and has adequate room to store biological evidence with extended retention periods. Ultimately, this will lead to fewer cases being dismissed due to damaged, contaminated, or missing evidence.

**Oregon State Police: Patrol Services Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area:

Program Contact: Captain Cord Wood, 971-209-5383

**Program Overview**

The Patrol Services Division (459 sworn, 52 non-sworn) provides uniform police services throughout the state with the primary responsibility for the protection of human life and property through reduction of traffic collisions, enforcement of traffic violations, investigation of criminal complaints, and emergency response to calls for service on state and interstate highways, state parks, rest areas, and state property. The Division also supports local law enforcement efforts by serving as a statewide deployable resource, able to assist and respond to emergency calls for service and natural or man-made disasters.

**Program Funding Request**

The Patrol Services Division funding request at Governor’s Budget for the 2023-25 Biennium is \$196,833,819 (GF), \$17,435,583 (OF), and \$443,190 (FF). Total funds request for Patrol Services Division is \$214,712,592.

**Program Description**

Enforcement programs have been established within the Division that assist in achieving the goals of crash and crime reduction. Primary support programs have also been established to enhance enforcement efforts and maximize the efficiency and effectiveness of the enforcement programs. Together the enforcement and support programs provide services that save lives, prevent injury, detect crime, and protect property. The Division collaborates with the Oregon Department of Transportation Traffic Safety Section through written agreements that outline roles and responsibilities of each agency and meets regularly to plan and strategize ways to improve transportation safety and livability in Oregon. The Division also collaborates with city and county law enforcement agencies through cooperative policing agreements, vehicle pursuit agreements, and deadly physical force agreements that outline roles and responsibilities. The agreements are intended to avoid duplication of services and leverage each other’s resources and skills to deliver quality and timely law enforcement services to the public and criminal justice system.

**Program Justification and Link to 10-Year Outcome**

Research has shown that for every 1 minute a freeway lane is blocked due to an incident, it creates 4 minutes of traffic congestion (source: ODOT Traffic Incident Management). Unintentional Accidents (including motor vehicle crashes) is the 3<sup>rd</sup> leading causes of death in Oregon behind cancer and heart disease. During the 2019-21 biennium, troopers investigated 454 fatal crashes. Another 11,093 injuries were reported as the result of traffic collisions. In 2021, there were 258 fatalities resulting from traffic crashes on state and interstate highways where OSP has primary responsibility. This number was an increase from the 220 fatalities from traffic crashes in 2020. Based on the available data, alcohol, drugs, and speed are significant contributing factors in fatal and serious injury crashes. Drunk and Drug Impaired driving data shows incidents of poly-substances impairment are increasing. Increases in population, the number of licensed drivers, and the number of vehicle miles driven all impact the need for Troopers to be present and patrolling the highways to have positive impacts on public safety outcomes.

Local city police departments and sheriff’s departments rely on the Division to assist with responses to emergency calls for service and with specialized services that troopers provide, which include responses by the Special Weapons and Tactics Team, Mobile Response Team, Crash Reconstruction Specialists, Drug Recognition Experts, and Drug and Explosives Canine handlers.

The goals of the Division are to protect lives, prevent injuries, detect crime, reduce victimization by criminals, and to respond to all types of emergencies where the public is in need of a law enforcement response or intervention. A Trooper’s presence and enforcement activities serve as a deterrent to unlawful behavior, promotes safe driving behaviors and a safe and efficient transportation system. All of these things help support economic opportunity and livable communities for Oregonians. The Division’s enforcement priorities include the “Fatal 5 violations”: impaired driving, speed, occupant safety, lane safety, and distracted driving. Commercial motor vehicle violations and criminal apprehension enforcement are also priorities for the division.

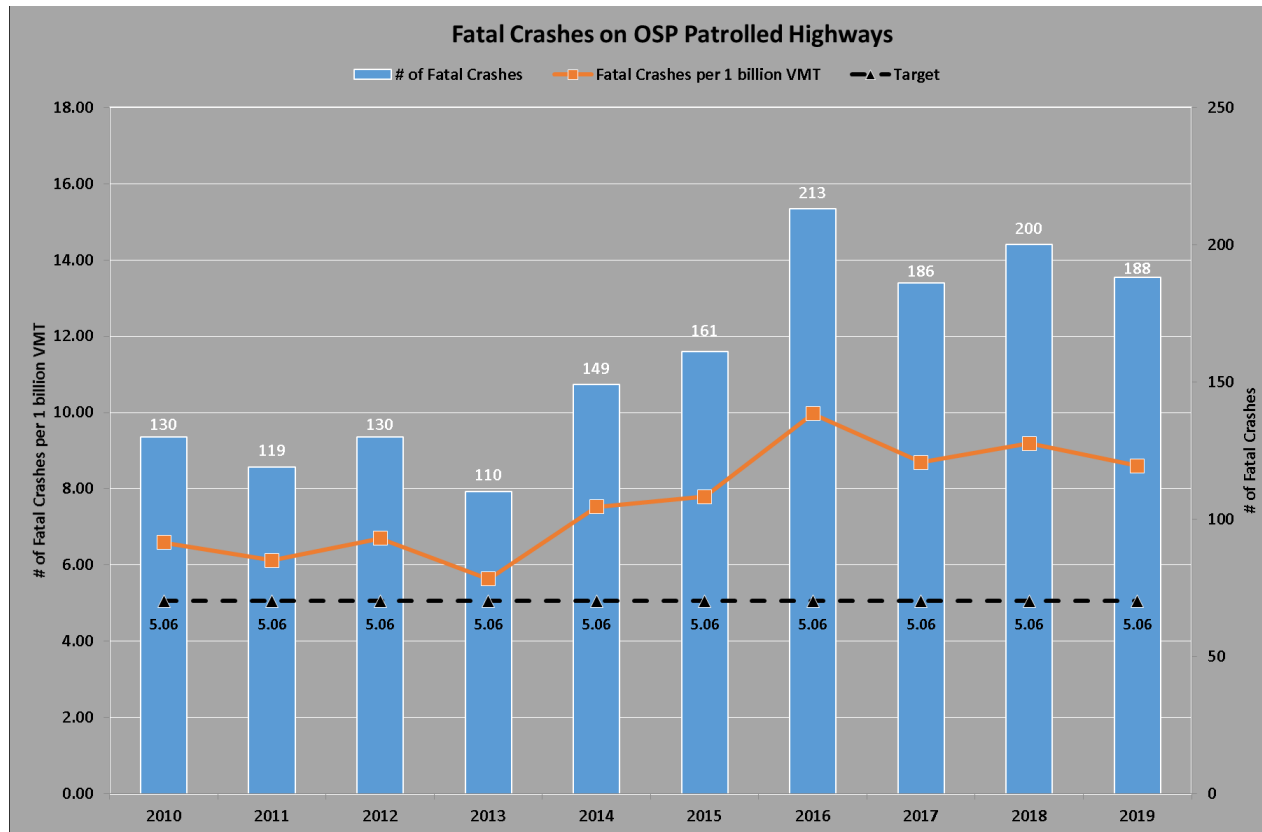

**Program Performance**

The Division works to increase public safety by reducing crashes that cause death and injury. In 2021, there were 258 traffic fatalities on state and interstate highways where OSP has primary responsibility which was a 17% increase over the previous year. To reduce crashes, the Division developed plans focused on changing driving behaviors and partnering with ODOT and other agencies on engineering and education efforts. Other variables affecting the crash rates include the numbers of available Troopers, economic conditions, adverse weather events, number of licensed drivers, and changes in annual vehicle miles traveled. The chart below highlights the trend of number of licensed drivers, population, and the number of authorized Patrol Division sergeants and troopers in the field.

A key performance measure of the Division is to reduce the number of fatal crashes where OSP has primary responsibility compared to vehicle miles traveled (VMT) on Oregon highways. In 2021, Oregon was in the top 25% for the number of fatal crashes per 100 million Vehicle Miles Traveled (VMT). The fatal crash rates for Oregon were twice the rates for peer states of Washington and Utah. To promote safe driving behaviors and reduce risky driving practices known to contribute to fatal crashes, the Division focuses on five enforcement priorities: Speed, Occupant Safety (seatbelts), Lane Safety, Impaired Driving, and Distracted Driving. The Division’s enforcement priorities include which we refer to as the FATAL 5 driving behaviors, represented by the acronym S.O.L.I.D. In 2021, Patrol Division troopers gave 120,308 citations and warnings for speed, seatbelt violations, cell phone use, and other violations related to the FATAL 5.

Also included in the Division’s priorities is to reduce the clearance times of lane blocking crashes on Oregon’s highways. Crashes which block travel lanes often lead to congestion and slow the movement of commerce. The Division has partnered with the Oregon Department of Transportation (ODOT), Fire/Rescue personnel and the Towing industry to reduce the time it takes to clear these crashes. The Department also constantly looks for opportunities to leverage technology to help support Patrol Division resources and increase efficiency. The goal is to clear 80% of lane blocking crashes within 90 minutes, and is intended to improve responder safety, increase crash clearing efficiency, and reduce environmental impacts at crash scenes.

**Enabling Legislation/Program Authorization**

State Police functions, including the Patrol Service Division, are governed by Oregon Revised Statutes 181 (Oregon Laws 2021).

**Funding Streams**

The Division is funded almost entirely with General Fund dollars. Other Funds come into the Division to cover the costs of the law enforcement operations at the Capitol Mall Patrol Office and from Oregon Department of Transportation Traffic Safety Division for increased enforcement that enhances the Division’s ability to prevent traffic crashes, investigate impaired driving, and increase transportation safety.

**2023-25 Funding Proposal Compared to 2021-23**

The 2023-2025 Agency Request Budget for the Patrol Division is requesting additional funds to cover capital replacement costs for vehicles, outdated Taser technology, and for funds to cover aging body armor and ballistic rifle plates.

Additional staffing requests include: Four (4) additional Administrative Specialist 2 positions are requested to support evidence operations. One Administrative Specialist 2 position will be located in Wilsonville (long term evidence storage) and 3 will be assigned regionally to support digital evidence storage of video evidence files in the Coban cloud system. The Division has requested eight (8) additional Trooper positions, One (1) Sergeant Position, and One (1) Operations and Policy Analyst to support state wide FICS investigations. These positions would be responsible for investigating unlawful possession, transfers and purchases of firearms.

Last, requesting funding for One (1) Compliance Specialist position to support the statewide Drug Recognition Expert program and the statewide towing program.

2023-2025 Governor’s Budget for the Patrol Division had a modified recommendation for five (5) FTE for the FICS investigations, IT replacements and police accountability packages. The long-term storage and statewide Drug Recognition Expert program and the statewide towing program were not recommended.

### Patrol Services Division Narrative

The Patrol Services Division provides uniform police services throughout the state with the primary responsibility for the protection of human life and property through crash reduction, criminal investigation, crime reduction, and emergency response to calls on state and interstate highways, state parks, rest areas, and state property. The Division also supports local law enforcement efforts by providing a safety net of police services, including requests for assistance with natural or man-made disasters, and city and county emergency calls for service.

A top Patrol Division priority is to increase public safety by reducing vehicle crashes that cause death and injury. The Division works to accomplish this through a high visibility patrol presence, enforcement of traffic violations, and partnerships with other law enforcement and non-law enforcement agencies. Enforcement efforts are designed to gain voluntary compliance with Oregon laws as well as promote safe driving behaviors. The Division’s enforcement efforts focuses on violations categories shown to contribute to fatal and serious injury vehicle crashes (Fatal 5) such as: impaired driving, speed, occupant safety, distracted driving, and lane usage. Commercial vehicle enforcement, and criminal apprehension or enforcement are also Division priorities, and are commonly accomplished through a focus on Fatal 5 violations. While conducting traffic stops and other contacts, troopers encounter evidence of criminal activity. Troopers frequently discover wanted persons, stolen property, persons involved in illegal narcotics activity, missing persons, human trafficking activities, and matters of homeland security or potential terrorist activity. The agency philosophy is an all threats, all hazards, and all crimes approach at all times of the day and night. Another critical function of the Patrol Services Division is to respond to emergency calls for service, whether responding as the primary agency or to assist another agency. Troopers regularly assist partner agencies with motor vehicle crashes, highway blockages, crimes in progress, and domestic disturbances. Troopers also regularly render aid and assistance to stranded motorists, injured people, water related emergencies, or anyone in need of help on the highways, beaches or state parks.

In addition to routine patrol services, the Division also provides specialized services in support of all Department troopers as well as other city, county and state agencies. These services include programs such as drug and explosives canine, crash reconstruction, drug recognition experts, firearms denial experts, mobile response team, and the special weapons and tactics team (SWAT). When troopers are engaged in providing these specialized services they are unavailable to respond to emergency calls for service or conduct proactive enforcement that reduce vehicle crashes and detect crime. In order to increase the amount of time available to troopers to respond to calls for service, or engage in proactive enforcement, it is critical to have the necessary staffing resources to maintain backfill and maintain acceptable service levels.

**Calls for Service:**

The Division received a yearly average of 169,857 calls for police services between during the 2019-2021 biennium. An additional 27,672 calls for service went unanswered (10.49%). A portion of these calls were referred to another law enforcement agency, but the Division in unable to quantify what portion of those calls were handled by another agency or the outcomes of those referrals as that data is not tracked. The types of calls referred include but are not limited to reported reckless and careless drivers, impaired drivers, requests to locate people or vehicles, suspicious activity, stranded motorists in need of assistance and motor vehicle crashes.

During the 2019-21 biennium, troopers investigated 454 fatal crashes. Another 11,093 injuries were reported as the result of traffic collisions. In 2021, there were 258 fatalities resulting from traffic crashes on state and interstate highways where OSP has primary responsibility. This is a 17% increase over the previous year. Crashes which block travel lanes often lead to congestion and slow the movement of commerce. The Division has partnered with the Oregon Department of Transportation (ODOT), Fire/Rescue personnel and the Towing industry to reduce the clearance times of lane blocking crashes. The goal is to clear 80% of lane blocking crashes within 90 minutes, and is intended to improve responder safety, increase crash clearing efficiency, and reduce environmental impacts at crash scenes.

In 2019, when factoring for vehicle miles travelled (VMT) on Oregon highways, the 188 fatal crashes translates to a crash rate of 8.25 per 1 billion VMT. The goal for the Division’s key performance measure (KPM #1) is to achieve a fatal crash rate 5.06 per 1 billion VMT on these same highways. Coordination with our traffic safety partners and our ability to deter and detect the driving factors that contribute to fatal crashes are instrumental to a successful outcome. The ability to proactively address and focus on violation categories which influence fatal and injury crashes in identified hotspots is also crucial to Division success.

While the number of trooper positions has declined over several decades the number of calls for police services increased, resulting in less unobligated time for a trooper to conduct proactive focused enforcement aimed at reducing these types of crashes. Response times to calls for service, particularly in rural areas, is also of concern as staffing levels drop. Since 1980, Division sworn staffing levels declined, while growth factors directly impacting transportation safety including increases in population, licensed drivers, registered vehicles, and miles traveled on state highways have steadily increased. The numbers of patrol troopers and sergeants has dropped by approximately 243 positions (-38%). Intermittent revenue shortfalls since 1980 have impacted the agency’s ability to fill vacancies. Sworn vacancies may continue to increase due to projected retirements and difficulties in locating quantities of qualified replacement candidates which will ultimately impact the Division’s service delivery capacity.

Current Division authorized trooper strength, is three hundred and thirty-eight (348), a level which does not support 24/7 coverage at any OSP office. A 24/7 patrol coverage insures that troopers will be on duty and available at all hours to respond to driving complaints, emergency calls for service, and serve as a deterrent to poor driving and criminal behavior. In the current public safety environment, an adequate staffing level is a critical issue for troopers as it relates to officer safety. Adequate staffing helps insure that troopers are available to assist other troopers as well as our law enforcement and public safety partners during events such as high-risk stops, crashes and crime scenes, and investigation of suspected criminal activity as a result of a traffic stop.

The major cost drivers to the Division are personnel costs, fuel, equipment, patrol vehicles, vehicle maintenance, and facilities. General Fund instability and across the board cuts have caused the Division to hold positions vacant to mitigate shortfalls. Efficiencies and alternative delivery methods were recognized through the integration of mobile computers in patrol vehicles, electronic citations and crash reporting, and Department enhancements to Computer-Aided Dispatch that support the Department’s comprehensive Records Management System. Each patrol car is equipped with a “mobile office” for the patrol trooper, reducing the reliance on a patrol office and increasing field patrol presence and service to the public.

**Services Provided**

The Division coordinates with public safety and criminal justice partners to identify the role that the Oregon State Police should provide on a local level. Services and responsibilities were identified through a cooperative effort with the Public Safety Policy and Planning Council comprised of state, county, and municipal law enforcement agencies, as well as District Attorneys and the State Department of Justice. Service responsibilities for the Oregon State Police were subsequently put into local agreements and include:

- Primary patrol responsibilities and criminal investigations on all rural state and interstate highways, state parks, state property and highway rest areas;
- Transportation safety on state and interstate highways;
- Specialized service and training on a statewide basis (i.e. Incident Management, Forensics, Hazardous Materials, DUII, Standardized Field Sobriety Test Training, Drug Recognition Experts)
- Major crime team and local task force participation;
- Fish and wildlife enforcement;

Other services by the Oregon State Police that assist, augment, enhance, and support local law enforcement agencies, the criminal justice system and local communities have also been established and solidified through local agreements. The Public Safety Policy and Planning Council and local law enforcement have identified these patrol-based services:

- Collision Reconstruction Team and Crash Investigation Team Participation
- Special Event Enforcement (i.e. State Fair, Oktoberfest, Pendleton Roundup)
- Special Weapons and Tactics Team (SWAT)
- Hostage Negotiation Team
- Mobile Response Team (MRT – Crowd Control)

These services are provided on a statewide basis and are available to all law enforcement agencies in Oregon. Sworn members also serve as a strategic reserve for law enforcement services and can be temporarily deployed across the state to assist local law enforcement with significant incidents. Every year, troopers are deployed to a variety of situations to assist communities that experience incidents like wildfires, school or large workplace shootings, violent public protests and severe flooding or similar public safety emergencies.

The Division has implemented various strategies to provide the best possible services with the personnel available. These strategies include, but are not limited to:

- Targeted enforcement patrols in areas known to have problems with traffic safety and criminal activity;
- Establishment of enforcement priorities to reduce fatal and serious injury crashes and reduce crime;
- Use of grant overtime to enhance capacity to devote enforcement time to those areas with higher crash rates;
- Consolidation of Patrol Offices to pool resources into larger geographical areas;
- Continue to improve technology systems that create efficiencies and sharing of information with other agencies;
- Prioritization of programs and services that yield effective outcomes given the available resources;
- Work with state and local partners such as the Department of Transportation to improve enforcement, education, and engineering strategies that continue to reduce fatal and serious injury crashes.

A State Police presence on the highways promotes a safe and efficient transportation system that supports economic opportunity and community livability for Oregonians. An investment in State Police services will deter crime and promote safe driving behaviors that ultimately will save lives and prevent serious injuries. Investment in Patrol Division services is an investment towards reducing victimization, criminal behavior, and continued effort toward increasing public and transportation safety and support to the criminal justice system.

**Patrol Services Division**

2023-25 Governor's Budget						
Patrol Services	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
BASE BUDGET:	\$ 204,671,511.00	\$ 20,941,457.00	\$ 426,026.00	\$ 226,038,994.00	530.00	529.50

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police - Agency-wide  
Policy Option Package (POP): 101**

**POP Title: IT Lifecycle Replacement & Support  
Total Request: \$3,971,000 General Funds**

**RECOMMENDED as MODIFIED in GB**

This Policy Option Package (POP) requests funds to replace aging, failing and antiquated equipment and vehicles. This need is occurring as a result of expired warranties, advancement in technology and high vehicle mileage. The components to this Policy Option Package are segregated into the following six components.

- A.* Patrol Services Division Vehicle Replacements – Not Recommended
- B.* All Sworn Taser Replacements – **Recommended in GB**
- C.* All Sworn Ballistic Vest Replacement – **Recommended in GB**
- D.* Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – **Recommended in GB**
- E.* Northern and Southern Communication Center Furniture Replacement – Not Recommended
- F.* Critical IT Support-3 staff and Coban Storage, Evidence Management-3 staff – Not Recommended

**Component A – Patrol Services Division Vehicle Replacements**

**Purpose:**

Each Division accomplishes a 1:1 vehicle/trooper ratio through both “new” and “replacement” vehicle builds. A “new” vehicle build is exactly as it sounds, the car/truck/SUV is brand new as is the specialized police equipment that is installed within the car by Department fleet personnel. These vehicles represent the most expensive build for each division. New builds are most commonly associated with the hiring of new recruits (mainly applies to Patrol Division), the filling of long-term vacancies, new authorized positions, or replacement of a totaled vehicle resulting from an on-duty incident. The second type of build is termed “replacement” and, as the name suggests, this build is for vehicles that have reached their end of lifecycle. The key difference between a “replacement” and a “new” build is that the bulk of the specialized police equipment in the “replacement” build is transferred over from the vehicle that reached the end of its lifecycle. A “replacement” build is approximately two-thirds the cost of a “new” build.

The positive outcomes that resonate across each division for a 1:1 vehicle/trooper ratio include:

- A reduction in response times and highway closure times.
- Less time will be spent by troopers on patrol preparation and termination at the end of their shifts moving equipment in and out of vehicles.
- Troopers will not have to wait for other troopers to return to the office before they can go out on patrol.
- The agency will be able to field more troopers during large scale events.
- Each trooper will be equipped with a mobile platform (mobile office) and less time will be spent in the offices.

- An increase in field time of troopers will serve as a visible deterrent to crime and other hazardous driving behavior that can lead to vehicle crashes.
- Trooper safety is improved because they are more familiar with their assigned vehicle, how it handles, and where critical equipment is located.

In addition, each Division has unique characteristics that justify the funding request:

- **Patrol Division** - Patrol Division contains the largest number of sworn officers in the Department, with 478 authorized positions. When troopers share marked patrol vehicles those vehicles are kept at the patrol offices and are not available for troopers to take home when off duty. Patrol Division does not currently schedule 24 hour/7 days a week patrol coverage at any field office due to staffing levels, so if a call for service comes in when no trooper is scheduled to work, and they do not have a take home car, the trooper must first respond to the office to retrieve a vehicle. This adds significant response time when life safety and highway closure issues are associated with the incident.

#### How Achieved:

**Patrol Division-** Current Patrol Division authorized sworn staffing is 478, with 63 positions presently vacant. In anticipation of hiring to fill to authorized strength, we will need to purchase a minimum of 74 cars for “new” builds. Patrol Division vehicles include both Dodge Chargers and Chevrolet Tahoes. Tahoes are used by Division specialty units such as SWAT, Crash Reconstruction, and K-9. These units require the larger platform due to the amount and type of equipment they carry. A “new” Tahoe build is roughly \$15,000 more than a Charger build due to the higher base cost of the Tahoe and the specialty equipment that is part of the build. This specialty equipment may include a bed slider to ease access to equipment, lock boxes, and accommodations for a K-9. For 2023-25, Patrol Division will have 94 Chargers and 33 Tahoes lifecycle out and require a “replacement” build. The Division orders vehicles on a quarterly basis unless the manufacturer or other circumstances dictate otherwise.

#### Staffing Impact:

This Patrol portion of the policy package does not request new positions; however, if it is not approved it will likely result in holding trooper positions vacant in order to maintain enough funds to purchase required vehicles.

#### Quantifying Results:

This request links to the following Division KPMs:

- Patrol: KPM #1 – reduce fatal crashes on state and interstate highways where OSP has primary responsibility.
- Patrol: KPM #2 – clear 80% of lane blocking crashes within 90 minutes or less.
- Patrol: KPM #3 – increase the detection and apprehension of persons engaged in criminal activity on Oregon’s transportation system.

Each of these KPMs will benefit from maintaining a 1:1 vehicle/trooper ratio.

#### Revenue Source: General Fund

Patrol –94 Charger replacement builds; 33 Tahoe replacement; 74 new Charger builds

**Total Funding Request Summary:**

	2021-23	2023-25
Expenditure Category	GF	GF
Capital Outlay	\$3,066,360	\$0
<b>Total POP 101 Component A</b>	<b>\$3,066,360</b>	<b>\$0</b>

**Component B – All Sworn Taser Replacement - Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current Taser inventory deployed by all sworn divisions within the Department. Taser is discontinuing the sales of the X2, which is the current model in-service for the Department. It will no longer be available for purchase after 12/31/2022.

**How Achieved:**

Tasers are a critical piece of Law Enforcement equipment that provide Troopers with a force option that reduces injuries to suspects and OSP employees. The Department currently purchases and deploys the X2 conducted energy devices with sworn members in all divisions of the organization. The X2, and all Taser devices have a 5-year recommended service life. After the expiration of the service life, Taser will no longer certify, repair or offer expert testimony in relation the operation of the device in a legal proceeding.

Due to the manner in which the Department has purchased Taser devices in the past, the Department has Tasers with 2 years of deployment, 1 year of deployment, and 500 in need of replacement in 2022. The TAP program Taser previously extended to OSP is no longer available, and the new Taser 7 model is sold to departments through a subscription-based service/program.

The department is presented with two options for replacement of the current Taser inventory:

1. Purchase sufficient Taser X2 units to delay the purchase of the X7 until 2025. This would require the purchase of 500 X2 handles at a total cost of \$1,439,700. Due to the X2 being discontinued for purchase in 2023, the department would need to fund this purchase before December 2022. In three years, when the X2 units that have been in service for two years are at the end of their prescribed service life, the department will need to replace them with the X7 or another model not yet released.
2. Transition from the X2 platform to the X7 today. Currently the department is spending \$270,000 annually for Taser’s and related parts and equipment. Axon (Taser parent company) sales representatives met with OSP and supplied a quote for the cost to completely transition to the new X7 platform under the new subscription-based service. The quote included credits for the X2 units with 3 and 4 years of remaining service life. Under the new service model, the annual cost for 825 X7 handles, 960 rechargeable batteries, holsters,

cartridges, docking stations and other materials is \$512, 934. OSP would need another \$242,000 added to the base budget to fund Taser X7 deployment for all staff.

Option 1 is the least viable option as there is not an unencumbered \$1.4 million to use to purchase Tasers. Option 1 would also only delay the transition for 3 years when the next generation of X2 Tasers reach the end of their service life. According to Axon representatives, transition to the X7 today would make the X7 the platform for OSP for 10 years. A transition in three years might result in another forced transition in as few as 5 years. The Department needs to request a Policy Option Package to increase the base general fund budget by \$484,000 per biennium to implement a transition to the Taser X7 in the 23-25 biennium.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

Troopers, like all LE Officers are called to and discover incidents involving violence towards others, violence toward others, individuals suffering extreme emotional disturbance, or who under the influence of an intoxicating substance. When de-escalation tactics are unsuccessful, and specific individuals present the imminent threat of causing injury to themselves, or others, and possess the means an opportunity to do so, LE officers must respond with some level of force in the protection of themselves or others. Tasers provide a force option less likely to cause significant physical injury to the officer or recipient of the force response than many of the other force options available. Studies have shown 99.75% of Taser deployments result in no significant injury to the recipient. A 5-year DOJ study showed that the likelihood of injury suspect dropped 60% when a Taser was used when compared to other force options. PERF studies have also shown a 76% reduction in injuries to LE officers, reducing time loss and worker compensation claims. Taser devices are an essential piece of equipment required for Troopers to perform their assigned duties safely and effectively.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all division.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and Supplies	\$484,000	\$484,000
<b>Total POP 101 Component B</b>	<b>\$484,000</b>	<b>\$484,000</b>

**Component C – All Sworn Ballistic Vest Replacement – Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current body armor and ballistic rifle plates currently in use by the department.

**How Achieved:**

The current ballistic rifle plate system consists of two plates (front and back) in a nylon vest style carrier. The combination plates and carrier weighs about 12 pounds. When used in conjunction with the outer vest carrier, covers essential communication and other tools in situations where access to communication and other tools is critical. It also covers the body worn cameras deployed by uniformed staff whether the user is wearing a conventional Trooper uniform or wearing an external vest carrier. Current ballistic rifle plates are also one size fits all, making them oversized for some wearers.

The current ballistic rifle plates were initially purchased in 2015, and many have exceeded the manufactures warranty period so it is time for the department to begin replacing this equipment. Soft body armor and ballistic rifle plate technology has seen significant advancement. Current ballistic rifle plates weigh less than half the current model (2 pounds or less), are specifically fitted to the individual to include specific fit for women. The plates also come in a package which allows access to all law enforcement tools, communication equipment and body worn cameras. The soft armor panels are also significantly lighter, more flexible, with increased ballistic protection for the wearer.

Updating ballistic rifle plate/soft armor units would require the purchase of 766 units in biennium 2023-25. Looking at a five-year average for vests purchased for new employees the department anticipates purchasing 100 more rifle/plate soft armor packages in biennium 2025-27.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

By purchasing the updated technology in ballistic rifle plates and soft body armor, Troopers will receive an integrated package that will be fit to them and afford them increased ballistic protection while maintaining access to all law enforcement equipment. The reduction of weight, and increase in flexibility, will have significant impacts to Trooper health and wellness, reducing SAIF claims and time loss due to injury.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all divisions.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,934,500	\$242,440
<b>Total POP 101 Component C</b>	<b>\$1,934,500</b>	<b>\$242,440</b>

**Component D – Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – Recommended in GB**

**Purpose:**

**Lifecycle Replacement of OSP Workstations** – request General Fund (GF) to fund the ongoing replacement of old OSP workstations that are at end of warranty and/or out of support. This request would centralize the Lifecycle Replacement (LCR) of OSP Computers and establish it in the ongoing operational funding for the agency. In doing so OSP would be able to replace computers by OSP’s Lifecycle Replacement Schedule.

This is important and would solve the following issues:

- Avoid deferring LCR due to lack of funds / planning for LCR in the OSP business units and avoid a large amount of additional work by allowing LCR work to pile up to the point that the majority of the agency’s computers need replacing in the same year.
- Mitigate the significant security risk incurred by out of support / out of warranty workstations by replacing legacy computers that don’t receive security updates from the manufacture or operating system software.
- Reduce troubleshooting and maintenance time by purchasing a standard model rather than increasing workload and staff efficiency by attempting to support 160 different models of computers.

**How Achieved:**

**Lifecycle Replacement of OSP Workstations** – Building a lifecycle replacement cost into the General Fund budget is critical in ensuring the timely replacement of out of warranty and out of support workstations at OSP.

Going to a six-year Lifecycle Replacement establishes a standardized equipment for improved performance and lowered maintenance across all OSP owned computers. This will ensure that OSP staff will have access to modern computing platforms to support the mission of the Oregon State Police. This will also ensure that device failure is kept at a low rate, and device security and integrity can be maintained at an acceptable level. For example, Windows 11 has minimum hardware requirements, and version levels of CPU capability. Older models reaching the end of their lifecycle will not be able to be upgraded to the latest OS.

This will be accomplished by:

- Centralizing the lifecycle replacement with larger computer purchases of the same model types, e.g., standard laptop, MDT, with a minimum replacement percent completed every year.
- Maintaining computers that will still receive updates from manufacture and operating system software.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

**Lifecycle Replacement of OSP Workstations**

- Reduction in the number of out of warranty / out of support workstations (desktops, laptops and MDTs) at OSP.
- Reduction in the break/fix and replacement Service Desk tickets for of out of warranty / out of support workstations.
- Removal of a 4-to-5-year cycle of replacing a majority of the agency’s workstations all in one year (addressing the IT implementation logistics and financial cost overruns)

**Revenue Source:** General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,552,500	\$1,552,500
<b>Total POP 101 Component D</b>	<b>\$1,552,500</b>	<b>\$1,552,500</b>
<b>Positions</b>		
<b>FTE</b>		

**Component E – Northern and Southern Communication Center Furniture Replacement**

**Purpose:**

The dispatch console furniture in use today by OSP’s public safety dispatch centers; Northern Command Center (NCC) located in Salem & OSP’s Southern Command Center (SCC) located in Central Point is approximately 10 years old and needs to be replaced with more modern and flexible furniture capable of adapting to future needs. Modern dispatch furniture offers more ergonomic options and equipment positioning advantages not available in NCC & SCC’s current furniture configuration.

Further, the current furniture is in disrepair and out of warranty, which means OSP can’t acquire serviceable parts. This has led to the NCC & SCC’s leadership team attempting to troubleshoot and resolve furniture configuration issues on their own and at their own expense.

For these reasons, OSP’s NCC & SCC requests budgetary support and approval for the replacement of 34 dispatch consoles to support the dispatch center and its staff.

Basic market analysis of products offered by one established dispatch console vendor indicates that costs of updated furniture range from \$13,000 - \$18,000 per console.

The NCC currently operates 16 dispatch consoles and 2 supervisor consoles throughout the day. 2 additional consoles would be helpful in training/testing new and prospective employees and supporting dispatch operations.

Total estimated cost for NCC is \$360,000.

The SCC currently operates 10 dispatch consoles and 1 supervisor console throughout the day. SCC is currently part of the Central Point remodel, but it is believed that the consoles are not part of the remodel. It is expected that the remodel plans will allow for an additional 2 – 3 consoles added to the SCC footprint. This will bring the total number of dispatch consoles to 14 for the dispatch and supervisor staff.

Total estimated cost is \$252,000.

The total estimated cost for 34 consoles between NCC & SCC is \$612,000.

**How Achieved:**

NCC has already worked with OSP Procurement to receive a vendor quote for costs. SCC will follow the same process once the Central Point Facility construction project has finalized the layout of the remodeled SCC work area. OSP will then engage the vendor to install the updated workstations in each center.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

NCC and SCC staff will have modern, ergonomically correct and adjustable workstations that are serviceable and supported. This is critical in a 24/7/365 environment where employees often work long hours. Some of the advantages of dispatch specific furniture are:

- Ergonomics, comfort, and movement – Dispatchers sit tethered to a desk by their headset cords for long hours. The ability to ergonomically adjust their workstations throughout the day whether they are standing or sitting adds to their comfort, job satisfaction, and reduces the risk of injury.
- Cable management – This is an often-overlooked point of failure for mission critical systems. With adjustability comes repetitive stress failures for the cables which can then result in a critical system being out of service. Dispatch specific furniture is designed to be utilized 24 hours a day and the cable management is designed to minimize these failure points.

- Warranty – Typical office furniture is built to accommodate 40 hours a week. Dispatch specific workstations are built from the ground up to be used 24 hours a day and withstand over 4 times more wear and tear than regular office furniture. Dispatch furniture typically comes with a 10 or more-year warranty that ensures that the furniture continues functioning as needed for its life cycle.

Revenue Source: General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and supplies	\$612,000	0
<b>Total POP 101 Component E</b>	<b>\$612,000</b>	<b>0</b>

**Component F – Critical IT Support-3 staff and Coban Storage, Evidence Management-3 Staff**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding to fill a gap in funding for critical IT support and staffing needs for the 23-25 Biennium and beyond. We are seeking to permanently fund six (6) positions to support recent technology and IS deployments; a COBAN Video Support Technician (ISS 6), a Facilities Video Support Technician (ISS 6), a LEADS Systems Analyst (ISS 8) and three Evidence Technicians (AS2s). In addition, we are seeking to permanently fund the operational storage needs of our COBAN body worn and in car video. The details of this request are,

2. ***In Car Video (ICV) and Body Worn Camera (BWC) Support & Storage (COBAN)*** – to request General Fund (GF) to fund an ISS-6 position in IT Service Desk to support the ICV and BWC now deployed in the field and to fund the ongoing Cloud storage costs for the video being generated from the deployed ICV and BWC. The COBAN In Car Video system was originally rolled out in 2019, with the subsequent roll out of Body Worn cameras in 2021. As of May 2022, there are now 700 ICV systems and 630 BWCs in operation generating roughly 110 Terabytes (TB) or 87,000 hours of video every year, with a total archive storage now in excess of 300 TBs. The Service Desk receive 110 support calls for COBAN related issues each month, mostly related to image retrieval (software) but also hardware and installation related break/fix work.

This huge growth in the program over the past 2 years, coupled with the fact the vendor, SafeFleet, does not provide Tier 1 – 2 support, means that many support needs are going unmet. After the departure of the last limited-duration COBAN support position, Service Desk tickets for Coban had piled up and were not being addressed. This support of the OSP In Car and Body Cameras is a critical need as the sworn staff and troopers depend on them every day to carry out their duties in support of the agency’s mission. A Service Desk Tier 2 senior technical analyst will be able to support and primarily focus on the daily COBAN video operations and

sustainment, as well as provide better training and support to the rest of the Service Desk staff to improve ticket resolution times, and work with the SafeFleet support on Tier 3 issue escalations.

3. **Facilities (External and Internal) Video Camera Support** – to request General Fund (GF) to fund an ISS-6 position in IT Infrastructure to support the facilities video systems now deployed at four (4) OSP sites, and also to deploy additional standardized video systems to the remaining OSP sites. In addition, this position will coordinate the deployment of video systems for internal needs such as evidence rooms and interview rooms. This position can also provide technical support for various cameras and equipment used by criminal and F&W investigations, and coordinate with the OSP IT Telcom coordinator where wireless connectivity is required.

This position is needed to support the following video needs of OSP stakeholders,

1. OSP Facilities – exterior and interior cameras needed as detailed in CBA (Collative Bargaining Agreement) and for officer and staff safety and security.
2. Crime LABS – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP.
3. Evidence Rooms – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP sites.
4. Interview Rooms – to provide evidence in interviews and to ensure the safety and security for Troopers and Interviewees.
5. Criminal Division – these cameras have a wide range, between undercover cameras to joint cameras available across agencies.
6. Fish and Wildlife – these cameras have a wide range, between movable trail cameras to fixed cameras to provide evidence on poachers and other investigations.

[Problem] OSP’s use of video technology has grown significantly, and OSP IT does not have the resources or expertise to addresses these needs now, and in the future. The OSP administrative and sworn staff depend on these video systems every day to avoid risky situations and life-safety events, to capture and protect the integrity of evidence, and to carry out their duties in support of the agency’s mission. It is simply no longer acceptable to have a need for the video evidence at an OSP site or evidence storage location, and not be able to provide the video because there in no plan to install and maintain these systems. Much of the specific work (installing cameras, pulling cables) can be outsourced. However, this misses the coordination needs between the different contractors, as well as ensuring that the Infrastructure needed to support the video system, as well as ensuring standard, professional grade hardware is specified and used. In addition, the increasing video storage costs need to be budgeted now that the ICV and BWC systems have been deployed.

4. **LEDS 2020 Information System Support** – request General Fund (GF) to fund an ISS-8 Position in IT Infrastructure to support the LEDS 20/20 system on an ongoing basis. The LEDS 20/20 project is a multi-year IT modernization project. LEDS 20/20 supports law enforcement throughout Oregon, with connections to all other states, NCIC, and Interpol. It stores criminal history and records of stolen articles. It is an important, mission critical tool to support both officer and public safety.

Whilst the LEDS 20/20 system is developed and supported by the vendor, DCI, there is a complex support system in place between the vendor, DCS, Nlets and the local Law Enforcement Agencies.

1. When the LEDS 20/20 Project started out, the decision was made to host the system at the State Data Center (now Data Center Services). Since DSC works only with State Agencies, OSP IT must act as the intermediary on all project changes and service

change needs. In addition, OSP IT must respond first to any LEDS 20/20 system outage or impact, and then facilitate engagement of any vendors and third parties in the Incident Response process, and subsequent solution development and applying fixes to the LEDS 20/20 infrastructure.

2. DCI also doesn't interact with any local Law Enforcement agencies (LEDS customers). This has to be done by the LEDS Help Desk and when there are technical challenges, e.g., coordinate secure VPN connections, this must be facilitated by OSP IT.
3. Most recently in Phase 5 of the LEDS Project involving implementation of a Disaster Recovery (DR) solution, the decision was made to host DR site at Nlets in their Arizona facility. This resulted in the need for OSP IT to facilitate between the three parties DCI, DCS, and Nlets around DR implementation, and once in Operations and Sustainment, OSP IT will take the lead in coordinating changes to the DR environment (as changes are made to the Production environment at DCS). In addition, OSP IT will have to apply any patches and changes to the DR infrastructure to keep it in sync with changes to Production.

An ISS-8 for LEDS will be able to provide the coordination IT work and issues between OSP IT and CJIS Division, DCI and the other LEDS system partners, DCS, CSS, Nlets. This will continue beyond the end of the LEDS 20/20 project into the Operations and Sustainment period.

5. **COBAN Video Evidence File Management** – We are seeking to permanently fund three (3) COBAN File Evidence Technicians (AS2s). COBAN video files generated and stored in the Cloud are stored at intervals consistent with their file type and case it is associated with. These files must be reviewed for cases in which the file must be move off of the COBAN Cloud and onto a long-term storage medium. This work is most appropriately accomplished by Evidence Technicians (AS2s) who are familiar with chain of evidence protocols and evidence retention periods.

#### How Achieved:

- A. **In Car Video and Body Worn Camera Support (COBAN)** – This support will be achieved by permanently funding an ISS 6 position as a COBAN Video Support Technician (Service Desk.), and permanently funding the ongoing video storage costs (COBAN Cloud storage.) This position will be critical in monitoring and driving the video data upload/download processes and data flow across the infrastructure architecture, the installation, and operations practices, along with full end-to-end set up and support understanding, and would assist in the creation and maintenance of all the COBAN technical support and user documentation. This would allow the current Service Desk staff to better assist with COBAN customer support with a full understanding and on-site expertise available to help them gain additional knowledge of this new technology.

This position's main duties would be to,

- Support all aspects of the day-to-day COBAN use
- Assist with the new vehicle deployment
- Coordinate change management for upgrades.
- Provide troubleshooting, training, and develop and share operations expectations and best practices to all OSP IT staff
- Study in-depth the IT support model for problems and questions and recommend improvements with input from all stakeholders.
- Create/update/resolve tickets for COBAN service request and calls, as well as coordinate unresolved tickets with Tier 3 support

- If unable to resolve the issue, escalate or route calls for peer review, or engage with Vendor support.

This work cannot be outsourced due to the complex nature of the interoperability and function of the COBAN devices and server communication on the State's Network (Wide-area network). This position needs to coordinate with SafeFleet and all the partners involved in installing the equipment into the vehicles (Fleet), supporting the COBAN infrastructure at all the OSP facilities (DSC and Facilities contractors) as well as coordinating the break/fix and lifecycle replacement of COBAN equipment. This work has been done on an interim basis by the Service Desk manager and project manager. But this is not a long-term solution for creating a robust and supportable COBAN environment.

The ongoing video storage costs have been estimated at \$406,620 per year or \$813,240 per biennium based on current usage and projected growth. The costs also take into account the video retention schedules that have been determined and put into policy. Different types of video have different schedules based was incidents and cases the video is associated with.

- 7 months for "Default" tagged files
- 18 months for "Violation" tagged files
- 5 years for "Criminal" tagged files

**B. Facilities Exterior and Interior Video Camera Support** – This support will be achieved by permanently funding an ISS 6 position as a Facilities Video Support Technician (Infrastructure.) This position will be critical in overseeing, administering, and planning the OSP video systems, which include a complex statewide and cloud infrastructure for video appliances and systems at statewide office sites, in addition to other OSP video technology and needs.

The duties for this position include,

- Responsible for the performance, availability, and security for OSP's video systems.
- Provide CCTV Video Tier 3 support.
- On-going CCTV Video systems training including End User and IT Staff.
- Advise on purchase of new video technology on existing approved price agreement/contracts or solicits through a proposal-based purchase.
- Manage and create implementation plans for new video system deployments and work with multiple video and facility vendors, agency partners, and multiple OSP divisions.
- Ensure that eDiscovery requirements for video systems are met.
- CCTV Video reporting and analytics for retention validation.
- Assist with Critical incident lock-down.
- Evaluates impacts/risks to ensure timely implementation of system upgrades and/or security requirements.
- Plan and design for future video systems and OSP needs.
- Analyze and optimize site network speed/bandwidth for video systems across the State.
- Considers Agency wide ramifications on security and support for video systems.

This work cannot be outsourced due to the complex nature of the interoperability and function of modern digital video capture devices and applications. This position needs to coordinate all the different vendors, partners involved in video system maintenance from the video component suppliers, the facility and network cabling installers, the location of the video management equipment both locally and centrally. This work has been done on an interim basis by the Infrastructure manager and temporary staffing. But this is not a long-term solution for planning, developing standards and creating a robust and supportable environment.

- C. LEDS 2020 Information System Support** – This support will be achieved by permanently funding one (1) ISS 8 position as a LEDS Systems Analyst (Infrastructure team). The LEDS 20/20 system is supported by the Vendor, Diverse Computing Inc. (DCI). Their support and expertise is limited to the application software that was created by DCI. There are operational tasks that still rely on support from OSP’s IT staff and to coordinate with DCI, DCS, CSS and Nlets.

At a high level, the operational work this position will be responsible for includes:

- Work with DCS, CSS and Nlets to provide maintenance and troubleshooting to the production LEDS 20/20 environment, including:
  - Incident Response
    - Outage notification and ticket creation with DCS/CSS
    - Outage communication to the business group and PSSB management
    - Outage coordination between DCS/CSS and DCI
  - Routine network changes by the regional agencies that connect to LEDS 20/20, which requires ticket creation with CSS and coordination to complete the work
    - VPN configuration
    - OSP firewall work
    - Coordinating work with Nlets
    - Coordinating work with CSS
    - Whitelist of IP for Production and DR sites for eAgent
  - Actively troubleshoot outages and issues with DCI, DCS/CSS, and regional agencies
  - OS updates to servers at Nlets (DR)
  - Coordinate best dates/times for maintenance, including OS, by DCS/CSS to systems and network, includes consulting with the business group to identify those best dates/times
- Updates to OSP firewalls
- Monitor Prod and DR systems health
- Provide notifications of maintenance by DCS/CSS or Nlets to the business group and DCI
- Work with Nlets regarding system and network changes to ensure Disaster Recovery site viability
- Advice and consultation with the business group regarding future changes and issues
- Periodic coordination and hands on work to verify Disaster Recovery site viability
- Periodic coordination and hands on work to verify production system performance

- Failover and establishment of connections with the Disaster Recovery system in an emergency
- Maintain current documentation of the infrastructure at both the production and Disaster recovery sites
- Document outages, issues and resolutions and maintain a knowledge base to streamline future issue resolutions
- Maintain Web Proxy Server for internet access to both Prod and DR environments
- Maintain Mail Relay Server for DR environment
- Maintain SFTP server for both Prod and DR environments
- User administration – password reset, account creation for LEADS.or.gov
- Coordinate tech refreshes with FBI/NCIC and Nlets
- Annual FBI/NCIC Inventory verification

**D. COBAN Video Evidence File Management** – These Evidence Technician positions will monitor case files being stored by COBAN in the Cloud. Files that are set to be deleted at the term set by COBAN will be assessed as to their need for further extended retention. These files would include those where the case has not been resolved and record retention guidelines require long term retention. Once those cases have been identified the Evidence Technician will transfer those files to a long-term storage medium until such time the file can be purged. This is dependent upon many factors including but not limited to adjudication of the case and the statute of limitations for the related offense.

These positions main duties would be to:

- Review case status of COBAN video files
- Communicate with District Attorney, Courts and Troopers regarding video evidence
- Ensure chain of custody and proper handling of evidence
- Transfer video evidence per retention protocols and case status
- Ensure transferred evidence is properly stored
- Continually monitor transferred evidence files for disposition
- Manage, maintain, and purge digital evidence as needed.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101053	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037
3101054	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037
3101055	Info Systems Spec 8	AO C1488 IP	±	1.00	\$318,872	±	1.00	\$318,872
3101093	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
3101094	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
3101095	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
	<b>Total</b>		<b>6</b>	<b>5.64</b>	<b>\$1,317,993</b>	<b>6</b>	<b>6.00</b>	<b>\$1,383,288</b>

**Quantifying Results:**

**1. In Car Video and Body Worn Camera Support (COBAN)**

- Reduction in outstanding tickets (and the ratio of the number of open tickets to the number of video units in service)
- Reduction in average turnaround time for COBAN ticket resolution
- Measurement and improvement in satisfaction scores for COBAN users

**2. Facilities (Exterior and Interior) Video Camera Support**

- Reduction in backlog of sites without video systems, or with failing video systems
- Measurement and improvement in safety satisfaction scores for staff at OSP facilities
- Measurement and improvement in support satisfaction scores for law enforcement activities and criminal investigations

**3. LEDS 20/20 Information System Support**

- Dedicated and consistent support of public safety mission critical system
- Measurement and improvement in communication and support satisfaction scores of LEDS 20/20 users and stakeholders
- Measurement and improvement in satisfaction scores with regional agencies using LEDS 20/20
- Measurement and sustainment/improvement in LEDS 20/20 availability and uptime related to network and infrastructure.
- Planning and coordination of vendor related improvements, and timely migrations from obsolete hardware and technology.

**4. COBAN Video Evidence File Management**

- A reduction in amount of unnecessary data storage on the COBAN Cloud resulting in cost savings
- Increased oversight of video evidence ensuring proper retention schedules
- Increased efficiency in the transfer process of video evidence
- A reduction in the chance of lost video evidence due to lack of monitoring

Revenue Source: General Fund

**Oregon State Police - Patrol Services Division  
Policy Option Package (POP): 116**

**POP Title: Assist State DRE/Tow Program NOT RECOMMENDED in GB**  
**Total Request: \$186,724 General Funds**

**Purpose:**

This position would share responsibilities in the DRE program and towing program to increase efficiencies and service delivery in the field in both areas.

**How Achieved:**

A number of key indicators demonstrate that substance abuse is rising in the State of Oregon. Currently, Oregon has the 2nd highest rate for substance abuse disorder and is last in the nation for access to treatment. Drug and alcohol fatal and injury crashes continue to increase there will be a greater demand on DREs and accompanying program coordination oversight. One of the greatest challenges facing the DECP is recruiting, DRE response to callouts, retention, and succession mentoring. In 2021, according to DRE callout data nearly 47% of DRE callout requests went unanswered.

With the addition of an assistant state coordinator a greater focus can be given to:

- Increase traffic and community safety partnerships with the focus of enhancing the DRE Program
- Focused recruitment to increase the number of certified DREs
- Conduct data collection and analysis
- Coordinate community education requests (i.e., DITEP and ARIDE)
- Support data led proposals/requests for funding/grant applications
- Compile and publish a quarterly report on Drug Impaired Driving in Oregon

Currently the Tow program can benefit from increased coordination with Patrol Troopers trained in tow business inspections to perform the inspections consistently. The position would take tow related complaints and applications at GHQ (approximately 270 applications submitted per year for the Non-Preference Tow Program) and assign as appropriate. They will assist in the identification of field training needs and develop instruction and deliver to the field; and provide recommendations for any removal, suspension or revocation of any tow business to the Program manager for review and necessary consultation with legal representation. Gather data and provide analytical breakdowns of towing for passenger vehicles, RVs/Motorhomes, and other vehicles for an annual report to Program Manager and Division.

**Staffing Impact:**

Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model. Sworn positions include a vehicle which is included in the Capital Outlay line item.

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101103	Compliance Specialist 2	AO C5247 AP	1	0.88	\$171,724	1	1.00	\$196,256
	<b>Total</b>		<b>1</b>	<b>0.88</b>	<b>\$171,724</b>	<b>1</b>	<b>1.00</b>	<b>\$196,256</b>

**Quantifying Results:**

The Drug Recognition Expert (DRE) Program provides training and support to all Oregon Law Enforcement agencies in the detection and recognition of drug impaired drivers. Additionally, the DRE Program supports Law Enforcement partners statewide by administering blood drug toxicology grant funds for testing DRE collected blood evidence for the presence of controlled substances. With this support through training and toxicology funding come opportunities to collect, analyze and interpret data, refine training, and recruit and deploy DRE resources in a fashion that would enhance public safety. This data analysis could be critical in the development of legislation and public policy. It would also influence the KPM#1 related to reduction of fatal traffic crashes. The addition of this position will also provide data collection and analysis for the statewide tow program to ensure uniformity, equity and compliance in tow company operation done in connection with the department.

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The *volume of financial transactions has increased* over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The *financial services team* is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not *comparable to staffing in other similar agencies*.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938

3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27

Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

**Quantifying Results:**

Not applicable

**Revenue Source:**

Other Funds

<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

**Staffing Impact:**

Services & Supplies	\$1,217,259	\$1,217,259
<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Quantifying Results:**

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Oregon State Police - Patrol Services Division  
Policy Option Package (POP): 122**

**POP Title: FICS Investigators  
Total Request: \$1,200,000 General Funds**

**RECOMMENDED as MODIFIED in GB**

**Purpose:**

Add positions to the Patrol Division responsible for investigating firearms purchase denials for criminal violations.

**How Achieved:**

The purpose of the FICS Program is to ensure timely transfers to eligible purchasers, while keeping firearms out of the hands of individuals legally prohibited from purchasing/possessing them under Oregon or Federal law. FICS also assists in the recovery of stolen firearms when a reported stolen firearm is checked through the system as part of a private party sale, or sale to a dealer. From 2017 through 2021, FICS averaged 1100 denials per year which referred to law enforcement for investigation.

Common circumstances that result in denial and criminal investigation:

- All wanted persons
- Misdemeanor convictions
- Attempted purchase by Convicted Felons
- Individuals on probation
- Illegal alien/renounced US citizen
- Pre-trial for a felony crime
- Mental Health Prohibitions
- Stolen Firearms
- Restraining orders
- Dishonorable discharge from armed forces
- Unlawful use of controlled substance

FICS Troopers are responsible for responding to and investigating the sales and transfers of firearms for the FICS Unit for criminal activity. This would typically include conducting interviews of witnesses, victims, and suspects. Routine activities would also include collection of evidence, recovery of property, applying for search and arrest warrants and building criminal cases for successful prosecution by the responsible District Attorney’s Office. The Trooper must possess the ability to act as liaison between the Oregon State Police, multiple state agencies, Federal law enforcement agencies, firearm retailers, and various business locations throughout Oregon.

The FICS group of investigators would include: 1 Sergeant, 8 Troopers and an OPA 2 to provide administrative support the unit. The Sergeant and OPA 2 will be located in Salem at GHQ. The Trooper positions will be assigned across the state to the following offices:

- Portland
- Salem
- Springfield
- Grants Pass
- Coos Bay
- Ontario
- Klamath Falls
- Bend

**Staffing Impact:**

Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model. Sworn positions include a vehicle which is included in the Capital Outlay line item.

	<b>Total</b>		<b>5</b>	<b>4.40</b>	<b>\$1,109,015</b>	<b>5</b>	<b>5.00</b>	<b>\$1,480,540</b>

**Quantifying Results:**

Currently communities, regions, and states across the country (including Oregon) are experiencing an increase in violent crime. Ensuring firearms are bought and sold only by those individuals legal allowed to purchase or possess them is a public safety priority. Each FICS referral represents an opportunity for law enforcement to investigate, recover stolen firearms, keep firearms from being transferred to ineligible recipients, and enforce Oregon criminal statutes pertaining to firearms possession and sales.

**Oregon State Police - Patrol Services Division / Administrative Services Division  
Policy Option Package (POP): 123**

**POP Title: Wilsonville Long-Term Evidence Storage  
Total Request: ~~\$4,905,250~~ General Funds**

**NOT RECOMMENDED in GB**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funds to lease a 23,000 square foot long-term evidence storage warehouse that would provide space for the agency’s growing evidence needs, while adequately protecting the integrity of the evidence. The proposed long-term evidence storage warehouse is included in the Department of Administrative Services self support rent table in the statewide 2023-25 Agency Request price list (North Valley Complex Warehouse - \$4,552,901). The warehouse would need to meet standards set forth by the International Association of Property and Evidence (IAPE) and the Commission on Accreditation for Law Enforcement Agencies (CALEA). It also establishes one (1) additional FTE to provide evidence management for the location.

**How Achieved:**

The Oregon State Police maintains 28 evidence lockers at OSP offices throughout Oregon. Several of these lockers are nearing or above capacity, causing the agency to rent additional local storage space to accommodate new evidence. This problem will be exacerbated with time as our Troopers continue to collect evidence to support investigative work, forcing the agency to spend additional dollars to rent needed storage; storage which likely does not meet the security standards we have in place for evidence.

Capacity at these lockers is being hindered by the storage of evidence that has long term or permanent retention requirements. In 2015, our evidence lockers contained roughly 123,000 exhibits, with 34,000 of those having been in storage for over 5 years. Retention over 10 years was 16,000 exhibits, while 14,000 exhibits required permanent retention. Our proposed solution is to lease up to a 20,000 square foot secure warehouse that can be utilized as a long term/permanent evidence storage facility. This warehouse would allow us to transfer all evidence from local lockers that has been in retention for at least five years to this new facility, resulting in increased usable space in our office lockers now and into the future.

The Patrol Services Division employs 14 non-sworn evidence technicians who play a vital role in the support of all divisions within the agency through the acquisition, maintenance, and disposition of all agency evidence. Criminal cases are often won or lost solely on physical evidence; well-maintained evidence lockers are a vital component to the outcome of criminal cases, whether it be the conviction of a dangerous offender or the innocence of someone wrongly accused.

Managing evidence is a critical agency function. Long-term evidence storage requires careful planning and organization; specifically, to preserve the chain of custody and prevent cross-contamination. Advances in DNA and other forensic testing methods have made proper handling of biological evidence absolutely essential. Oregon has passed legislation that dictates how biological evidence shall be stored and implemented stringent retention limits that prevents law enforcement agencies from destroying biological evidence collected in conjunction with certain crimes. Our evidence technician personnel currently maintain 28 separate evidence storage locations throughout the state. The evidence storage lockers are attached to Patrol offices and were not designed to provide long-term evidence storage. None of the agency’s current locations have the

commercial refrigeration or freezer capabilities that are necessary to maintain long-term biological evidence. Some of the locations are not temperature controlled. Most locations do not have drying cabinets or a dedicated space for working with biological or trace evidence. The number of evidence exhibits seized by OSP Troopers has continued to increase. In 2015, the agency housed roughly 123,000 exhibits. The agency currently houses nearly 147,000 exhibits, which is an increase of over 19.5% in the last 2.5 years. This increase is due to the number of major felonies the agency is investigating and the changes in Oregon law that require the agency to apply extended retention periods to certain evidence.

In 2015, the agency was housing over 14,000 homicide exhibits. These exhibits have no statute of limitations and must be retained indefinitely. The agency currently houses nearly 21,000 such exhibits, which is an increase of 47% over the last 2.5 years. A homicide evidence exhibit can range in size from as small as a BB to as large as a car or recreational vehicle.

The agency currently houses 233 sexual assault kits, which have a 60-year retention period. Over the last three years, the agency has collected approximately 40 kits per year: 42 in 2015, 45 in 2016, and 36 in 2017. Given the agency’s evidence statistics, there is reason to believe this number will steadily grow; not decrease. With the 60-year retention period in place, the department is expected to have an additional 400 kits to retain by 2028. These kits must be stored in a dry, temperature-controlled environment.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101105	Administrative Specialist 2	SC C0108 AP	1	0.88	\$152,349	1	1.00	\$174,114
	<b>Total</b>		<b>1</b>	<b>0.88</b>	<b>\$152,349</b>	<b>1</b>	<b>1.00</b>	<b>\$174,114</b>

**Quantifying Results:**

Lease one 23,000 square foot secure evidence storage warehouse (including storage racks, a vertical lift, and a forklift) and establish one evidence technician position to work at the warehouse. An investment in this evidence storage solution will ensure the agency is following the best practices for long-term evidence storage and has adequate room to store biological evidence with extended retention periods. Ultimately, this will lead to fewer cases being dismissed due to damaged, contaminated, or missing evidence.

**Oregon State Police: Fish and Wildlife Division**

Primary Outcome Area: Responsible Environmental Stewardship

Secondary Outcome Area: Healthy and Safe Communities

Program Contact: Captain Casey Thomas, 503-841-4614

**Program Overview**

The Fish and Wildlife Division is the second largest sworn Division (130 sworn members, and 2 non-sworn) in the Oregon State Police and provides statewide natural resource protection and rural law enforcement services. The mission of the Division is to enforce and assure compliance with the laws that protect and enhance the long-term health and equitable use of Oregon’s fish and wildlife resources and the habitats upon which they depend. Equally important is service to the public, public safety, and enforcement of all criminal, traffic, boating safety and all-terrain vehicle laws. The Fish and Wildlife Division is the criminal law enforcement arm for Oregon’s other natural resource agencies, supporting the shared mission of protecting and enhancing Oregon’s natural resources and the environment.

**Program Funding Request**

The Fish and Wildlife Division funding request at Governor’s Budget for the 2023-25 Biennium is \$12,295,645(GF), \$10,561,965(LF), \$36,697,910(OF), and \$3,076,371(FF). Total funds request for Fish and Wildlife Division is \$62,631,891.

**Program Description**

The Oregon State Police is statutorily mandated to enforce the fish, wildlife and commercial fishing laws. To accomplish this mandate, the Fish and Wildlife Division provides year-round enforcement, which protects Oregon’s natural resources and environment for the benefit of all Oregonians and visitors. The Division’s mission is accomplished through land, water and air patrols, as well as through public education, outreach efforts and coordination with related natural resource user groups, including those representing the commercial fishing industry, angling and hunting organizations. The major cost drivers to the Division are personnel costs, fuel, and equipment (patrol trucks, boats and aircraft).

The Division’s largest funding partner is the Oregon Department of Fish and Wildlife (ODFW), accounting for 65 of the Division’s 130 sworn full-time positions. Division members meet yearly with ODFW biologists to develop annual Cooperative Enforcement Plans, which focus monthly patrol efforts on prioritized fish and wildlife species of concern. Besides critical enforcement efforts, Division members also work with ODFW on policy issues, regulation development, and public outreach and education programs.

**Program Justification and Link to 10-Year Outcome**

The Fish and Wildlife Division enforces and assures compliance with the laws, rules and regulations which protect and enhance Oregon’s natural resources and environment. Through these enforcement protection efforts the Fish and Wildlife Division also assists other natural resource agencies in accomplishing the goals and objectives of their missions. Protection of natural resources and the environment helps to ensure healthy stocks of fish and wildlife are prevented from becoming endangered or federally listed. Such listings could have detrimental effects on local and statewide economies. The Division’s continued effective enforcement of Oregon’s natural resource laws maintains a healthy environment and prevents environmental degradation and the associated high cost of restoring that environment for every citizen and visitor of Oregon (present and future) to benefit from a healthy environment.

Members of the Fish and Wildlife Division are also fully trained Oregon State Police troopers who enforce all laws in Oregon and are often the first law enforcement personnel to respond to an emergency, particularly in rural parts of Oregon. Division troopers respond to general law complaints, as well as handle all types of traffic related activities including traffic crashes and removing intoxicated drivers from Oregon’s roadways.

**Program Performance**

Table 1 below shows that Oregon’s population is steadily increasing while the Division’s sworn staff has been decreased or stayed stable, with a noticeable uptick in 2019 with the establishment of five new positions through the Anti-Poaching campaign. The Division serves all of Oregon’s population, which in 2021 was approximately 4.2 million people. Comparing population estimates to the Division’s 2021-23 Agency Request Budget equates to a service unit cost of approximately \$13.61 per person.

**Enabling Legislation/Program Authorization**

The Oregon State Police Fish and Wildlife Division is the primary enforcement arm for state natural resource agencies, and functions under statutory and constitutional authority: ORS 181.030 Powers and duties of department and its members; ORS 181.050 Duty to enforce laws and regulations of agencies; ORS 496.610 State police to enforce wildlife laws - payment of expenses from wildlife fund; ORS 506.511 State Police to enforce commercial fishing laws; and Oregon Constitution: Article XV, Sections 4b(3)(f) – Measure 76 Lottery Funds for the enforcement of fish and wildlife and habitat protection laws and regulations.

**Funding Streams**

The Division receives approximately 58% of its funding from Other Fund sources. The majority of the Other Funds comes from ODFW (ORS 496.610 and 508.326), the remaining is received from Oregon State Marine Board (boating safety), Oregon Parks and Recreation Department (all-terrain vehicle enforcement) and other miscellaneous revenue sources. About 16% of the Division’s funding is from Measure 76 Lottery Funds (Article XV, Sections 4b (3) (f), Oregon Constitution) for watershed protection, commercial fish and other fish and wildlife enforcement. Additionally, OSP receives federal funding under a Joint Enforcement Agreement with the National Oceanographic and Atmospheric Administration (NOAA) for the protection of federal fisheries. The Division receives approximately 19% in General Fund for all other public safety and enforcement services.

**2023-25 Funding Proposal Compared to 2021-23**

In Agency Request Budget the Fish and Wildlife Division requested additional positions authority in Federal Fund Policy Option Package 118 - F&W Fish & Wildlife staffing due to an error that occurred during the 2021-23 policy package process where funding was restored to the Fish and Wildlife Division, however position authority did not come with the return of the funding. The division also is requesting the rollover of Other Fund limitation in Policy Option Package 119 – F&W Aircraft and Vessel OF Limitation due to procurement processes this process has taken longer than expected in the current biennium.

Governor’s Budget for the Fish & Wildlife division recommended position authority be restored for Federal funding error in 2021-23. The GB also recommended the Other Fund limitation rollover for Aircraft and Vessel OF Limitation due to procurement processes taken longer than expected in the current biennium.

## Fish and Wildlife Division Narrative

The primary mission of Oregon State Police, Fish and Wildlife Division is to ensure compliance with laws and regulations that protect and enhance the long-term health and equitable utilization of Oregon's fish and wildlife resources and habitats upon which they depend. The primary responsibility of the Fish and Wildlife Division is protection of natural resources by enforcing fish, wildlife and commercial fishing laws. Members of the Fish and Wildlife Division also provide rural law enforcement services by enforcing traffic, criminal, boating, all-terrain vehicle, livestock and environmental protection laws, in addition to responding to emergency situations.

Oregon's environment and natural resources are an essential part of what makes Oregon a special place. Nearly every business in Oregon understands the importance of prosperous wildlife and how a clean environment enhances our economy and our quality of life. The Fish and Wildlife Division contributes a degree of stability to the State's economy by enforcing laws which protect and govern the utilization of Oregon's natural resources. Fishing, hunting, shellfish gathering and wildlife viewing related recreational expenditures) in Oregon provided over 1 billion dollars to the economy in 2020 alone. The commercial fishing industry is also dependent on enforcement to ensure long-term stability of the industry and an economic base to Oregon's coastal communities.

The Oregon State Police has developed an overall strategic plan to guide the agency into the future. The Fish and Wildlife Division is an integral component of the plan and has developed a Division plan that complements it. Each year, the Fish and Wildlife Division enters into a Cooperative Enforcement Planning (CEP) agreement, specifically with the Oregon Department of Fish and Wildlife (ODFW). Through planning and coordination, specific natural resource and other issues and concerns are identified. The Fish and Wildlife Division troopers then develop plans to address issues throughout the year. At the end of a plan, an after action report is written to report on the degree of success of the plan(s).

The Fish and Wildlife Division uses two key performance measures to guide enforcement activities that assist with meeting fish and wildlife biological management goals; (1) Increase interactions/contacts with anglers and hunters in order to educate sportspersons while also deterring and detecting violations of fish and wildlife laws; and (2) Improve detection of illegally harvested fish and wildlife species. Combating illegal harvest of Oregon's fish and wildlife resources is the primary mission of the Fish and Wildlife Division.

The Fish and Wildlife Division also plays an important role in protecting the environment and achieving the goals of the Oregon Plan. Eleven positions are assigned to work enforcement issues relating to the Oregon Plan, which is designed to restore and protect native fish and wildlife, watershed and water quality in Oregon. Fish and Wildlife troopers have been strategically assigned to locations (watersheds) in which their primary duties are the protection and enhancement of Oregon's salmon and healthy streams through enforcement of laws and administrative rules.

With Oregon’s expanding population expecting to utilize a finite, and in some cases, a declining natural resource base, enforcement protection of Oregon’s fish and wildlife resources is critical. Although partnerships with other state and federal natural resource agencies has always been common practice, those partnerships have been enhanced and expanded as resource managers turn to enforcement for assistance in the protection of sensitive, threatened or endangered species and habitats. Increasingly, the Division is called upon to investigate natural resource violations, including fill and removal, water quality and quantity, and forest practices. The Fish and Wildlife Division has evolved into filling the role of a full service natural resource enforcement agency and is the criminal enforcement arm for Oregon’s natural resource agencies.

The Fish and Wildlife Division has strategically stationed 126 sworn Oregon State Police officers who have special training in fish and wildlife enforcement throughout the State of Oregon. These officers could potentially be the only law enforcement available in some of our more rural communities throughout Oregon.

The Fish and Wildlife Division has four aircraft based in strategic locations throughout the state. The primary mission of the aircraft program is to assist with fish and wildlife management and enforcement through aerial flights. When the pilots are not flying enforcement missions they partner with ODFW biologists to provide angling census and wildlife survey flights to assist ODFW staff with meeting their agency mission; or work in the field conducting enforcement patrols by more standard means of transportation.

The Fish and Wildlife Division has five investigators and an investigating sergeant assigned to its Special Investigations Unit, which is responsible for conducting in-depth and complex investigations of individuals or groups in violation of the fish and wildlife laws, guide-outfitter and charter vessel laws, and regulations with specific emphasis on those violators that are flagrantly or illegally commercializing our state’s fish and wildlife resources. The Special Investigations Unit has been very successful in prosecuting several high profile cases including the first racketeering case in the United States involving wildlife offenses as the predicate offense. One of the investigators in the Special Investigation Unit has been assigned to work with the Department of Environmental Quality. As an investigator, this member conducts criminal investigations relating to violations of environmental laws.

The Fish and Wildlife Division also has a Marine Fisheries Team, comprised of seven troopers and one sergeant stationed along the coast of Oregon. The team is responsible for recreational and commercial fishery enforcement in inland and coastal waters and is also the operators and crew of the Division’s large offshore patrol vessel named the “Guardian”. The team focuses on state and federal fishery regulation enforcement and works closely with the National Oceanic and Atmospheric Administration, National Marine Fisheries Service Office of Law Enforcement through a joint enforcement agreement.

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages and used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police - Fish and Wildlife Division  
Policy Option Package (POP): 118**

**POP Titles: Fish and Wildlife staffing  
Total Request: \$177,837 Federal Funds**

**RECOMMENDED in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request authority for one (1) non-sworn FTE for support of Fish and Wildlife Division administration.

**How Achieved:**

Prior to the 2021-23 biennia, the Oregon State Police Fish and Wildlife Division (OSPFWD) was providing federal funding for a non-sworn position located in the Oregon State Police Central Records section. In the 2021-23 LAB, the federal funding was restored to the Fish and Wildlife Division, however position authority did not come with the return of the funding. Position authority approval would achieve this policy option package.

**Staffing Impact:**

This request for position authority would add 1.00 FTE/1 position (Admin) in the National Oceanic and Atmospheric Administration (NOAA) as OSPFWD already has the Federal limitation.

**Oregon State Police - Fish & Wildlife Division  
Policy Option Package (POP): 119**

**POP Title: Aircraft and Guardian OF Limitation  
Total Request: \$2,100,000 Other Funds**

**RECOMMENDED in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request one-time limitation approval to expend Other Funds toward the purchase of a replacement aircraft in Eastern Oregon, Replacement of the aircraft is requested to be of newer make and different configuration than current aircraft stationed in Baker City. This package also requests one-time funding be carried forward from 2021-23 POP#114 to replace the Long-Range Ocean Patrol Vessel, deemed the “Guardian” - due to Covid-19 supply chain issues and backlog in manufacturing not being able to complete in 2021-23.

Aircraft Replacement:

The Oregon State Police Fish and Wildlife Division (OSPFWD) has four aircraft stationed around the state to accomplish missions for wildlife enforcement, wildlife management (in collaboration with the Oregon Department of Fish and Wildlife (ODFW)), and to support other Agency needs as they arise. These aircraft make up the only Aviation Unit within the Oregon State Police, and their primary purpose is to provide statewide aerial support, patrol, surveillance and reconnaissance for all Oregon State Police Divisions and other agencies as needed. The aircraft acts as a force multiplier by quickly and efficiently covering large areas with limited resources while providing a bird’s eye view to gather necessary information.

The current aircraft stationed in Baker City is an ageing 1982 Cessna 185 “tail-dragger”. The airframe is relatively high hours (6000+), and the avionics, while still in wide use, do not offer the situational awareness and overall safety and accuracy of the newer avionics in our other three aircraft. Also, newer aircraft come equipped with an auto-pilot system allowing our pilots to more safely divide their attention between the operation of the aircraft and looking out over the ground during operations. Additionally, tail-wheel aircraft operations come with higher liability and require a highly skilled and confident pilot, with specialized training, for safe operation. Finding or training a competent tail-wheel pilot to fill the Baker City position would be extremely difficult and come with high risk and cost to the Department. Lastly, the Baker City aircraft engine is nearing the end of its manufacturer recommended lifespan and the cost to replace the engine and keep this aircraft in service would be approximately \$70,000 (and take possibly a year to complete with supply chain issues).

A reliable aircraft provides a unique enforcement and wildlife management platform to operate from. Positive outcomes include:

- Prompt and efficient enforcement related coverage of large and remote areas, with limited resources, equaling personnel time/cost savings while lessening miles/hours placed on vehicles, boats and ATV’s.
- Gathering of information that may otherwise be difficult or impossible to obtain without an aerial view.
- Providing the capability to assist in managing large scale natural disasters or other significant events.
- Providing the capability to assist with Search and Rescue operations in remote areas.

- Ability to expeditiously transport personnel and resources over long distances where ground transport may not be prudent or possible.
- Providing 4-6 hour flight times with 500-700 mile range before refueling.
- Providing a quick and efficient mode of data collection for our partners at ODFW to assist in their management of Oregon's fish and wildlife populations.

Seeking a 2006 or newer Cessna 182 aircraft, which is estimated to cost approximately \$700,000. Sale of the current Cessna 185 could provide approximately \$200,000 in additional funding. A total limitation approval of up to \$900,000 would ensure ODFW funds from the sale of the current aircraft would be fully expended first. Additionally, any additional costs, unforeseen expenditures, or rate increases would be covered and not require additional limitation approval.

#### Guardian Vessel Replacement

The 2021-23 Legislative Adopted Budget provided one-time Other Funds expenditure limitation of \$1,200,000 to purchase a replacement for the agency's one long-range ocean-going patrol vessel, known as the "Guardian." The Other Funds revenue for this package is the fund balance from prior asset sales and proceeds from the sale of the existing Guardian Patrol vessel.

Since the beginning of the 2021-2023 biennium the OSPFWD has been working on simultaneous RFP's related to the patrol vessel Guardian. The first RFP is a proposal for a new patrol vessel with similar functionality and size that will replace the current Guardian. The second proposal is to upgrade the existing Guardian hull with new motors, electronics, and additional features. The reason for the two proposals was due to the likely potential of a new patrol vessel exceeding the prior amount allocated for the purchase. As a contingency plan, it was decided to also complete a second RFP for the equipment needed to bring the current Guardian up to date.

The OSPFWD submitted their proposed RFP's to the OSP Procurement Section to finalize them in December 2021. OSP Procurement Section has been working on the finalization of those RFP's with DAS and DOJ and it is anticipated the RFP's will be submitted to Oregon Buys in July 2022 to solicit responses from boat builders.

It is also anticipated by the OSPFWD that due to the current post Covid-19 supply chain issues and backlog in manufacturing the project will continue into the 2023-2025 biennium before the project is completed no matter which direction the division ultimately decides.

#### **How Achieved:**

OSPFWD has already made the decision to "ground" the current aircraft when hours are met; and is planning to shift resources to cover the area until funding is approved. The Division is also planning on a sale of the existing Cessna 185, and would anticipate utilizing proceeds towards the purchase of the new aircraft. If this policy option package were approved, the acquisition process for the new aircraft would begin immediately to ensure purchase was made in the 2023-2025 biennium.

Fish and Wildlife Division would plan to minimize the amount of down time while transitioning from the Guardian to acquisition of the new vessel to alleviate holes in ocean patrol coverage and availability. This can be achieved by time of year (fisheries/ocean condition dependent) and by securing a boat builder prior to sale of the Guardian.

**Staffing Impact:**

None.

**Quantifying Results:**Aircraft Replacement:

This request links to the Interagency Agreement (IA) between the Oregon State Police Fish and Wildlife Division (OSPFWD) and the Oregon Department of Fish and Wildlife (ODFW). The request also links to the Cooperative Enforcement Plan (CEP) between OSPFWD and the ODFW.

- IA – This agreement specifically outlines purpose, responsibility and statement of work. The OSPFWD is required to enforce the wildlife laws defined in ORS, and the law enforcement activities to be carried out under this agreement are paid by ODFW directly to OSP for fish and wildlife enforcement. OSP is required to manage the funds for maximum law enforcement effectiveness.
- CEP – The overall goal of this plan is to ensure the OSPFWD enforcement efforts are directed toward ODFW’s priorities and management goals; and establishes enforcement priorities outlined by members of the OSPFWD and the ODFW. This plan is updated annually across the state between the two agencies.

Guardian Vessel Replacement:

This request links to the Joint Enforcement Agreement (JEA) between the Oregon State Police Fish and Wildlife Division (OSPFWD) and the U.S. Department of Commerce (DOC), NOAA, National Marine Fisheries Service (NMFS), Office of Law Enforcement (OLE). The request also links to the Cooperative Enforcement Plan (CEP) between OSPFWD and the Oregon Department of Fish and Wildlife (ODFW).

- JEA (federal) - This agreement specifically addresses the measurement of performance objectives. The OLE is required to conduct regular OLE division-level inspections and reviews, and periodic on-site performance reviews of the OSPFWD in order to verify and measure the OSPFWD’s reported activities, expenditures, and overall performance.
- CEP (state) – The overall goal of this plan is to ensure compliance with the laws and regulations that protect and enhance the long-term health and equitable utilization of Oregon's fish and wildlife resources and the habitats upon which they depend. The specific purpose of this plan is to establish enforcement priorities outlined by members of the OSPFWD and the ODFW.

**Revenue Source:**

Request Other Fund expenditure limitation to expend up to \$900,000 (approx. \$700k ODFW and \$200k from sale of existing plane) to fund purchase of replacement aircraft and \$1,200,000 (provided in 2021-23 POP114) to be rolled forward to 2023-25 for the completion of Guardian replacement project. Currently, no expenditures have occurred on the Guardian Replacement in 2021-23.

**Oregon State Police: Criminal Investigation Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area:

Program Contact: Captain Ryan Martin 541-510-9243

**Program Overview**

The Criminal Investigation Division (CID) ensures core community safety needs are addressed by promoting cooperative partnerships to deter crime through swift and competent interagency major crime investigations, targeted enforcement of drug trafficking, and the proper collection of physical evidence, investigative support and analysis. CID investigates major crimes across the state in support of local major crime teams and interagency drug teams with specialized services in arson & explosives, counter terrorism, polygraph examinations, and computer forensics. CID assumes a primary and leadership role in the investigation of crimes occurring at state facilities, on state property, or involving multi-jurisdictional venues.

**Program Funding Request**

The Criminal Investigation Division funding request at Governor’s Budget for the 2023-25 Biennium is \$34,686,021(GF), \$18,057,348 (OF), and \$916,038(FF). Total funds request for Criminal Investigation Division is \$53,659,407.

**Program Description**

**Clients and Frequency of Service** – CID provides strategically located services providing 24/7 critical emergency services to citizens and clients across the state through participation or partnership with numerous teams or agencies to include the following.

<ul style="list-style-type: none"> <li>• 27 Interagency Major Crimes Teams (MCTs) Formal Agreements</li> <li>• 9 MCT Informal Agreements</li> <li>• Statewide Multi-Disciplinary Child Abuse Teams (MDTs)</li> <li>• 10 Interagency Drug Teams</li> </ul>	<ul style="list-style-type: none"> <li>• 1 Drug/Fugitive Task Force</li> <li>• 14 Department of Correction (DOC) Facilities</li> <li>• 9 Oregon Youth Authority (OYA) Facilities</li> <li>• 6 Fire Investigations Teams</li> </ul>	<ul style="list-style-type: none"> <li>• 2 Oregon State Hospital (OSH) Facilities (Salem &amp; Junction City)</li> <li>• Statewide coordination with DHS Child Protective Services</li> <li>• Child Fatality Review Team</li> </ul>
---	--	---

**Partners for Success** – CID maintains key partnerships with the following agencies or organizations.

<ul style="list-style-type: none"> <li>• Local Sheriffs and Police Chiefs</li> <li>• FBI Joint Terrorism Task Force</li> <li>• US Marshal’s Fugitive Task Force</li> <li>• Federal Drug Enforcement Admin.</li> <li>• Federal Alcohol Tobacco &amp; Firearms</li> </ul>	<ul style="list-style-type: none"> <li>• Department of Corrections (DOC)</li> <li>• High Intensity Drug Trafficking Area (HIDTA) Program</li> <li>• District Attorneys</li> <li>• Oregon Department of Justice (DOJ)</li> </ul>	<ul style="list-style-type: none"> <li>• NW Regional Computer Forensics Lab</li> <li>• Southern Oregon High Tech Crimes Lab</li> <li>• Deschutes Computer Forensics Lab</li> <li>• Oregon National Guard</li> <li>• Oregon Health Authority</li> </ul>
---	---	--

**Program Justification and Link to 10 Year Outcome**

In support of the vision that Oregonians will be safe where they live, work and play; CID protects the lives and property of citizens through partnerships and coordination with city, county, and federal law enforcement. These, and partnerships with other safety agencies, provide integrated and effective statewide criminal investigative responses. This strategy deters crime by increasing the likelihood and swiftness of punishment through apprehension. The following chart depicts the activities, or outputs, of CID in support of this strategy.

**CID Investigations for 2020-2021**

	<b>EASTERN OREGON</b>	<b>NW OREGON</b>	<b>SW OREGON</b>	<b>Other / Non-Specific</b>	<b>TOTAL</b>
<b>Major Crime Team Invest. (Murder, etc.)</b>	46	87	85	11	229

<b>Computer Forensics Investigations</b>	32	16	40	10	98

**Program Performance**

**Quality of Service – Outputs and Outcomes**

The CID Division has established two key performance measures (KPMs): major crime team callouts, and number of drug trafficking organizations dismantled or disrupted, which both link to the 10-year outcome. These two measures are targeted at apprehending offenders who commit murder and other violent crimes, and drug trafficking organizations.

**KPM-1 – Percent of Major Crime Team (MCT) investigations resolved within Twelve (12) months.**

- Investigative response resulting in the swift apprehension of violent offenders has been shown to serve as a deterrent and mitigate criminal behavior.
- This performance measure is linked to the 10-year outcome by increasing the likelihood and swiftness with which an offender’s violent criminal behavior will be identified, removed from the public, and dealt with by the court system.

**KPM-2 – Number of Drug Trafficking Organizations (DTO) Dismantled/Disrupted. Data for 2020-2021 shows detectives participated in 1735 drug investigations with 54 DTOs (DTO defined as 5 or more people with established command and control structure) dismantled/disrupted.**

- Drug and alcohol abuse are the cause or contributing factor in virtually every safety, social and health concern facing Oregon communities. A 2022 Oregon Department of Corrections report estimates 67.4% of adults in custody have a substance abuse disorder. This demonstrates that a significant amount of criminal activity has a nexus to drugs.

- According to the 2023 Oregon-Idaho HIDTA Threat Assessment, fentanyl trafficking in Oregon increased significantly in 2021. Fentanyl is increasingly found in counterfeit prescription pills that are produced by transnational DTOs. Oregon law enforcement agencies seized approximately 1.5 million fentanyl pills and 11 pounds of powdered fentanyl in 2021. The Oregon Health Authority reported 390 fentanyl related deaths during the first 9 months of 2021, compared to 226 deaths during all of 2020.
- The focus on drug trafficking organizations is linked to the 10 year plan to prevent crime and the root cause: drug (and alcohol) addiction.

**Enabling Legislation/Program Authorization – Statutorily Mandated Programs:**

Homicide Incident Tracking System – ORS 181A.255	M.E. Unidentified Human Remains/Records – ORS 146.174
Unidentified Human Remains – ORS 146.171	Establish & Maintain Missing Persons Clearinghouse – ORS 181A.300-305
	AMBER Alert Plan – ORS 181A.315

**Funding Streams**

The Division is 4.08% General Fund, 94.28% Other Funds, and 1.64% Federal Funds.

**2023-25 Funding Proposal Compared to 2021-23**

In Agency Request for Criminal Division additional staffing requests include: Two (2) research analyst 4 (RA4) positions responsible for assisting OSP sworn personnel conducting criminal investigations involving mobile devices by extracting, examining, and analyzing digital evidence contained within. These positions are essential to healthy and safe communities by providing immediate resources resulting in timely investigations thereby reducing risk of further harm to victims. These positions are intended to assist on cases requiring immediate attention in which delays at regional forensic labs would not provide timely analysis and could propagate further potential of harm to victims.

In the Governor’s Budget for Criminal Division the investigation staffing policy option package was not recommended in its entirety.

## Criminal Investigation Division Narrative

The Criminal Investigation Division (CID) provides investigative services in support of criminal justice agencies statewide. The division conducts specialized investigations of intrastate and multi-jurisdictional crimes related to major crimes, drug trafficking, arson, explosives, and acts of terrorism. The division also provides specialized investigative support with polygraph examiners, digital forensic examiners and crime analysts. The division has investigative jurisdiction over crimes occurring at all state institutions and on state lands and routinely conducts sensitive criminal investigations that involve public officials. The division provides investigative services by assigning resources throughout the state to participate in local major crime teams, multi-disciplinary child sex abuse teams, interagency drug teams, fire and explosive investigative teams.

As part of the CID, the Major Crimes Section (MCS) provides immediate 24/7 investigative response required to support local law enforcement efforts during homicide and other major criminal investigations. Detectives reside in communities throughout Oregon and maintain a strong presence on major crime teams to assist partner agencies when requested. They provide primary statewide response toward multi-jurisdictional child physical and sexual abuse cases. Detectives investigate crimes committed within state correctional institutions, youth authority facilities, and mental health hospitals. In addition, MCS detectives provide investigative support to local law enforcement by conducting public employee misconduct cases. Polygraph examiners who are highly trained and certified, assist local law enforcement in determining the veracity of witness and suspect statements during criminal investigations. The Investigative Support Unit (ISU) provides vital investigative support to agencies involved in criminal investigations. Analysts compile, review, and formulate a chain of events from information developed through field investigations. In addition, CID houses the Missing Children Clearinghouse, the AMBER Alert program and the Unidentified Remains program (ORS 181A.300, 181A.305, 181A.315). Computer Forensic detectives investigate high technology crime by providing forensic evidence processing and by assisting with state-wide investigations of crimes committed or facilitated by the use of computers.

The MCS is a significant partner to the FBI’s Joint Terrorism Task Force (JTTF), providing two detectives to the JTTF full-time to protect Oregon’s citizens from acts of terrorism, both foreign and domestic. The MCS works closely with the TITAN (Terrorism Intelligence Threat Assessment Network) Fusion Center, which is operated by the Oregon Department of Justice and provides an “all crimes” clearing house for federal, state, local and tribal law enforcement agencies. MCS personnel also work closely with federal, state and local agencies by coordinating security for the Strategic National Stockpile assets arriving in Oregon during a public health emergency, such as H1N1 or COVID-19.

The Arson Unit (AU) is committed to the protection of life and property by reducing the crime of arson through effective investigation and enforcement. The AU accomplishes this by working directly, upon request, with law enforcement, the Office of the State Fire Marshal and fire agencies to investigate arsons, fire fatalities and complicated fires involving both structures and wild-lands. Working partners include the Oregon State Fire Marshal’s Office, Sheriff’s Office’s, Oregon Department of Forestry, Bureau of Alcohol Tobacco and Firearms (BATF), Bureau of Land Management, the US Forest Service, and city and county fire and police departments around the state. ORS 476.110 requires the State Police to enforce laws relating to the suppression and punishment of arson and fraudulent insurance claims.

The Explosives Unit (EU) has Hazardous Device Technicians strategically located around the state. The EU members provide an FBI certified render-safe and investigative response to incidents involving suspicious objects or packages, suspected/actual Improvised Explosive Devices (IEDs), incendiary devices, and pyrotechnics, as well as weapons of mass destruction, which include chemical, biological, radiological, and explosive threats. Technicians also provide proper safe transportation and disposal of old military munitions, dynamite and blasting caps, ammunition, and other explosive materials. They work closely with many federal, state and local partners, including the BATF&E, the FBI, the U.S. Department of Homeland Security Federal Protective Service, the Portland Metro Explosives Disposal Unit, the Eugene Police Department Explosive Disposal Unit, the Salem Police Department Bomb Squad, and the US Air Force 142nd Explosive Ordnance Disposal Unit.

The Drug Enforcement Section’s (DES) mission is to aggressively pursue drug trafficking organizations and their co-conspirators responsible for the manufacture, transportation, importation and distribution of illegal controlled substances throughout Oregon and its communities. DES Detectives and supervisors work with local, state, and federal agencies to disrupt and dismantle drug trafficking organizations on a local, interstate and international basis. DES participates on ten (10) Interagency Drug Task Forces and provides supervision on two (2) of those teams. Additionally, DES fields three (3) teams staffed solely by OSP detectives and supervisors. DES detectives are strategically located around the state to maximize our ability to respond to drug enforcement related incidents that correlate with our statewide mission as well as supporting the Patrol Division and individual, local drug task force operations at the community level.

Each DES detective undergoes an additional training curriculum specific to drug enforcement and is provided with specialized equipment to enhance a wide variety of drug enforcement operations. DES detectives typically remain in drug enforcement assignments from three (3) to seven (7) years, with a few staying longer, which provides a stable and tenured presence for participation on federal, county, and local drug task forces. The combination of training, equipment, resources, and experience that DES detectives bring to a local task force is supported by the statewide DES infrastructure. Each DES detective provides a leadership role in the coordination and support of partner law enforcement agencies in drug enforcement efforts throughout the state. Assignment of detectives and supervisors to drug task forces has enabled those task forces to expand and conduct investigations that may not otherwise be possible. In addition to field operations, DES also oversees the methamphetamine precursor chemical tracking program, asset forfeiture processing, and clandestine laboratory response program.

**Criminal Investigation Division**

2023-25 Governor's Budget						
Criminal Investigation	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
BASE BUDGET:	\$ 35,739,861.00	\$ 19,149,547.00	\$ 3,914,109.00	\$ 58,803,517.00	118.00	118.00

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police - Criminal Investigations Division  
Policy Option Package (POP): 117**

**POP Title: Criminal Staffing**  
**Total Request: ~~\$822,948 General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:**

Request funding and position authority for the Criminal Investigations Division to support **Service Delivery Improvement & Adaptability** with mobile device examinations for the Department of State Police (OSP).

**Service Delivery Improvement & Adaptability request includes:**

**Criminal Division Staffing** – Add two (2) non-sworn Research Analyst 4 (RA4) positions to the Criminal Investigations Division (CID) assigned to General Headquarters.

These positions will be responsible for assisting OSP sworn personnel conducting criminal investigations involving mobile devices. The various job tasks include, but are not limited to the following:

- Basic, intermediate and advanced cell phone training and/or certification involving the critical analysis of mobile device hardware, operating systems, software applications and software databases.
- Routine handling of evidence including mobile devices, computer related software, hardware and digital evidence.
- Mobile device safeguarding in preparation for extraction.
- Mobile device pre-examination inventory for memorialization of evidence conditions.
- Use of various software and hardware tools used in the extraction of mobile device memory and file systems.
- Examination and critical analysis of mobile device extracted files and memory.
- Possible link analysis between mobile devices, mobile device operating systems and/or cellular/mobile networks.
- Tool based examination of software applications and software databases.
- Manual parsing and advance analysis of software applications and software databases.
- Review of legal authority and familiarity with search warrants, affidavits and consent forms.
- Review of written police reports, case notes and technical reports associated with criminal investigations.
- Creating reports and work product derived from mobile device extractions.
- Technical support to OSP personnel involving the safeguarding and extraction of mobile devices.
- Presentation of prepared reports in criminal court. Depending on level of training and certifications, the phone analyst may be qualified to provide expert testimony/serve as a subject matter expert for the prosecution.

**How Achieved:****1) Criminal Division Staffing****a) OSP RA4 – Research Analyst**

The investigation of digital evidence, specifically mobile devices (cell phones, tablets, wearable tech), is a specialized and growing field within law enforcement. The proliferation of mobile device technology and its integration into the lives of the public has led to the majority of law enforcement investigations involving a digital evidence component, usually derived from mobile devices. Most of this information is collected without the knowledge of the user and because of this provides an unfiltered view into their day to day lives. The simple interaction between a user and their mobile device can create volumes of information which is pivotal in current investigations and in criminal prosecution. Location and GPS data, text and email messages, financial and health information, images and videos all can be used to help prove the facts of an investigation.

As our society's reliance on mobile device technology increases, so do the efforts to keep that information safe. Tech companies have an obligation to protect the personnel information of their customers. At the same time, law enforcement, under the right circumstances, is legally entitled to that same information tech companies are trying to protect. Based on these circumstances, there will always be competition as tech companies and law enforcement work on opposing sides of the same problem.

Tech companies employ some of the best and brightest computer and software engineers. They spend millions of dollars annually developing software and hardware to keep customer's information private. Also, some mobile device users are tech savvy enough to protect and/or obfuscate their information. Law enforcement has answered by also employing the best and brightest in the field of investigation. These investigators are equipped with cutting edge training, high tech equipment and proven investigative methods.

Historically, OSP has cross-trained detectives in the use of software, hardware and investigative techniques to collect and examine digital evidence. Due to the technological complexity of modern mobile devices (increased memory, default encryption, new apps with unique databases) and ever evolving and challenging legal requirements expressed through current case law, it is becoming more and more complicated and time consuming to perform these examinations. Mobile device complexity has not only impacted the criminal division within OSP, but also investigations within Patrol and Fish and Wildlife.

As mobile devices and the legal requirements surrounding their handling have evolved, so to have the investigators, tools and methodology. In 2021, OSP formally created the Digital Forensics Unit (DFU), which consists of one (1) detective sergeant and three (3) digital detectives. These four have specialized training and equipment to conduct digital forensics investigations. The majority of their time is spent examining and reporting on mobile devices and providing technical assistance to all divisions within OSP.

In addition to the DFU, OSP has fourteen (14) CID and F&W detectives who assist in mobile device extractions and examinations. While adequately trained, mobile device extractions are a collateral duty in addition to their primary and secondary job tasks. It is not uncommon for

the mobile device examination portion of an investigation to take days, weeks or due to encryption, months or years. For the fourteen who do this as a collateral duty, it is time away from conducting case work. Accurate and thorough examinations mean time and additional training. This level of training cannot be completed as a collateral duty. Often times, the successful prosecution of a criminal case is directly tied to the examination and reporting derived from mobile devices. The importance of the training, equipment and time spent conducting these investigations cannot be understated.

Even with OSP’s current resources, the field of mobile device examinations is understaffed and behind the technology curve. Law enforcement agencies across the country continue to see the value in having a subject matter expert in mobile device examinations and expand their capabilities as technology increases. This is particularly important when working high profile and complex cases. The amount of initial training, certification process and continued education ensure the case will be worked efficiently and thoroughly.

To compliment technical knowledge, industry leading tools need to be leveraged. As encryption of mobile devices has become common-place, more sophisticated software, hardware and investigative techniques are needed to decode the data. While some tech companies are focused on keeping customers’ information out of the hands of law enforcement, others have pledged to help uphold decisions made in our courts. Partnering with tech companies and industry experts who support law enforcement is necessary to the continued success of OSP.

Requested positions would be recruited and hired following human resources and collective bargaining agreement guidelines/procedures with an expected start date of January 1, 2024.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of criminal investigations across all sworn divisions within OSP. These positions include specialized hardware, software and training which is included in the Capital Outlay and Services and Supplies line items.

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101107	RESEARCH ANALYST 4	AO C1118 AP	1	.75	206,650	1	1.00	275,534
3101108	RESEARCH ANALYST 4	AO C1118 AP	1	.75	206,649	1	1.00	275,534
	<b>Total</b>		<b>2</b>	<b>1.50</b>	<b>413,299</b>	<b>2</b>	<b>2.00</b>	<b>551,068</b>

**Quantifying Results:**

The addition of two Research Analyst 4 positions will directly support the agency’s KPM #6 – Major Crime Team investigations resolved within 12 months and KPM #7 – Dismantle or disrupt Drug Trafficking Organizations (DTO’s) in HIDTA and non-HIDTA counties.

The timely extraction and examination of mobile devices is increasingly difficult due to default mobile device encryption, current case law and the training requirements for examiners. The majority of criminal investigations, both major crime team and drug enforcement section, rely on the successful examination of mobile devices for evidence. Due to the technical complexities and administrative hurdles associated with the extraction, examination, and dissemination to investigators in the field, crucial evidence has been lost. Which negatively impacts these KPM's.

**Revenue Source:**

General Fund.

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

**Quantifying Results:**

Not applicable

**Revenue Source:**

Other Funds

**Total Funding Request Summary:**

POP 120 (Component C)	2023-25	2025-27
Expenditure Category	OF	OF
Services & Supplies	\$2,500,000	0
Capital Outlay	\$1,688,476	0
<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

**Staffing Impact:**

None

<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Quantifying Results:**

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Oregon State Police: Forensic Services Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area:

Program Contact: Director Brian Medlock, 541-388 6150

**Program Overview**

The Forensic Services Division provides investigative, scientific, and forensic support to law enforcement agencies, criminal defendants and other members of the Oregon criminal justice system. The analysis of evidence assists law enforcement agencies in the investigation of crime scenes and the analysis and assessment of evidence. The Division also provides expert testimony and scientific analysis at trial and, occasionally, assists with post-conviction cases in which defense attorneys or other advocates are requesting additional scientific analysis to support a claim of innocence.

**Program Funding Request**

The Forensic Services Division funding request at Governor’s Budget for the 2023-25 Biennium is \$55,615,301(GF), \$420,496(OF), and \$4,001,932(FF). Total funds for Forensic Services Division are \$60,037,729.

**Program Description**

The Division, operating forensic laboratories in Bend, Central Point, Pendleton, Portland and Springfield, is the only broad-spectrum forensic laboratory system in Oregon. Our laboratories serve a population of over 4 million people spread over an area of approximately 97,000 square miles.

The Division serves a wide variety of criminal justice system partners including the FBI, the United States Attorney for Oregon, 36 District Attorneys offices, 36 Sheriff’s departments, 144 police departments, 36 Oregon State Police offices, 6 FBI Offices and hundreds of criminal defense attorneys. The FSD provides investigative assistance with crime scene investigation and analysis in biology, chemistry, trace, toxicology, DNA, latent prints, and firearms and tool-marks. During the 2019-2021 biennium, the Division received over 56,156 requests for forensic analysis.

**Program Justification and Link to 10-Year Outcome**

Our team provides training in the recognition, collection, submission, and storage of forensic evidence. Results of the Division’s scientific examinations provide information that assists in solving crimes and protecting the safety of the people of Oregon. The Division’s analysis increases the probability of the prompt apprehension and conviction of the guilty and similarly prompt exclusion and protection of the innocent. The Division is also the only resource in Oregon with access to the FBI’s Combined DNA Index System database (CODIS) and the Shoe-prints Image Capture and Retrieval system (SICAR®). Our Latent Print Section also relies on the Automated Biometric Identification System (ABIS) database operated by the Oregon State Police Identification Services Section.

The future of forensic science in Oregon depends on the availability of resources necessary to promote and maintain a strong forensic laboratory system. With adequate funding the FSD will continue to maintain high quality standards and provide strong, well-trained personnel to support all components of the criminal justice system in its search for truth and justice.

The goals listed below are directly related to the strategy of ensuring the safety of Oregonians through support of investigation and crime analysis services. Based on the published recommendation in the National Academy of Science’s report “Strengthening Forensic Science in the United States: A Path Forward”, which included 13 recommendations for best practices in forensics, the Division has set the following 10-year goals:

- ▶ Goal 1: Provide laboratory facilities, equipment, and personnel to optimize efficiencies and ensure high-quality scientific analyses.
- ▶ Goal 2: Maintain laboratory accreditation for all laboratories.
- ▶ Goal 3: Provide analytical results to criminal justice partners in a timely manner.
- ▶ Goal 4: Maintain quality assurance and quality control procedures to ensure the accuracy of forensic analysis.
- ▶ Goal 5: Meet the training and forensic analysis needs of the law enforcement community.

**Program Performance**

Program performance in the Forensic Services Division is expressed in terms of the number of requests completed (investigations aided). Each completed request provides an answer criminal justice partners can use to discern the truth of the matter being investigated. An investigation supported by reliable facts promotes safety by strengthening the prosecution of a case and, occasionally, expediting the release of the innocent. Forensic cases are prioritized based on the risk each individual or case poses to the community. Because of this, violent person-crimes are the highest priority. Below is a table showing the number of requests received and completed by the Division since 2013.

Forensic Request Trends						
Biennium	2013-15	2015-17	2017-19	2019-21	2021-23	2023-25
Requests Completed	56,389	54,460	63,690	<u>58,115</u>	*	*
Requests Received	57,615	58,191	60,877	56,156	*	*
Requests Pending	5,251	8,980	6,170	4,211	*	*

\* The COVID pandemic dramatically impacted the number and type of submissions received during the 2019-2021 biennium. As a result, using the 2019-2021 numbers to forecast future demand would produce unreliable trend lines. We are planning operations and staffing based on a continuation of pre-2020 trends, but will be incorporating new data as it becomes available.

For most of the last two decades the FSD has had insufficient capacity to meet demand for service, with the capacity deficit being reflected in the summaries for the 2013-15, 2015-17, and 2017-21 biennia. In 2019-21, following a COVID-related drop in request volume, the FSD was able to complete more requests than it received for the first time since the 2005-07 biennium. As submissions have increased toward pre-pandemic and pre-Measure 110 levels, the gap has begun to narrow. The following table provides a more granular view of demand vs. capacity and demonstrates the significant impact of the pandemic and Measure 110.

	1/1/19 - 6/30/19	7/1/19 - 12/31/19	1/1/20 - 6/30/20	7/1/20 - 12/31/20	1/1/21 - 6/30/21 (BM110)	7/1/21 - 12/31/21	1/1/22 - 6/30/22
Requests Completed	16,825	14,519	15,453	14,205	13,938	10,506	11,045
Requests Received	16,065	14,999	13,916	14,474	12,767	12,340	11,624
Requests Pending	6,170	6,647	5,110	5,375	4,211	6,042	6,622

In addition to measuring the overall number of completed requests, the Division also monitors our Key Performance Measure (KPM). The Division’s KPM goal is to have 80% of evidentiary submissions completed (reported) within 30 days by the year 2037. To achieve this goal, the Division has made improvements to processes, instrumentation, software, facilities, and training. These improvements have significantly increased processing capacity and speed, but they have been insufficient to overcome the combined influence of long-term staffing shortages, the increasing work volume resulting from

population growth and growing crime volume, and the recent staffing impact of the COVID pandemic. Also, although the passage of Ballot Measure 110 decreased the total number of drug submissions, most of the more complex and time-consuming submissions continue to arrive. Additionally, fentanyl submissions increased from 87 in 2020 to 587 in 2021. Below is a table showing the percentage of requests completed in fewer than 30 days.

Forensic Services Division KPM Goals																
Year	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031	2033	2034	2035	2036	2037
Actual	24%	17**														
Target	*	*	24%	28%	32%	36%	40%	44%	48%	59%	62%	65%	68%	72%	76%	80%

\* Recalculated KPM

\*\*Percentage reported reflects data from January 1, 2022 to June 30, 2022

The COVID pandemic, staff turnover, increasing training requirements, and a trend toward increasing demands from law enforcement have adversely affected the Division’s KPM, but the Division has made considerable improvement in processing speed over time.

**Enabling Legislation/Program Authorization**

The Division provides scientific and technical examinations for all criminal justice agencies as mandated by ORS 137.076, 181.080, 181.085, 813.160, 419C.473, 44.55 and 42 U.S.C. § 14132(b)(3).

**Funding Streams**

The Division is primarily funded through the General Fund. The Division receives a small amount of funding from fees collected when a person arrested for impaired driving refuses the breath test. The Division also receives federal grants and donations that assist with increasing efficiency in operations to reduce back logs (primarily DNA requests).

**Significant Program Changes from 2019-2021**

The Division is continually looking for innovative ways to improve system efficiency without sacrificing the quality of the forensic analysis. Recent efficiency improvements include:

- Consolidation of most of Toxicology into the Portland Metro Laboratory
- Statewide implementation of the High Throughput Property Crime DNA Analysis Program
- Increased utilization of “Y-screening” technology to improve efficiency
- Introduction of new DNA technology and software
- Second QTOF instrument relocated from Springfield to the Portland Laboratory
- Widening implementation of “batch-processing”
- Implementation of electronic notetaking in multiple disciplines

**2023-25 Funding Proposal**

In Agency Request Budget additional funds are being requested via policy option packages to replace the current inventory of intoxilyzers as well as create two (2) positions to handle related Division responsibilities and document production requests, both of which continue to increase.

In Governor's Budget the policy option packages for replacement of inventory of intoxilyzers and forensic division efficiency and document production requests were both not recommended.

## Forensic Services Division Narrative

The mission of the Forensic Services Division (FSD) is to provide timely and accurate scientific, technical, and investigative support to the criminal justice system through evidence collection, forensic analysis, and expert testimony at trial. The FSD meets this mission via five Forensic Laboratories.

The OSP laboratories comprise the only full-service forensic laboratory system in Oregon. Labs are located strategically throughout the state in Portland, Springfield, Central Point, Bend, and Pendleton to optimize service delivery and facilitate convenient access by law enforcement. Some types of forensic work are centralized (e.g. DNA), whereas other types, like crime scene response, may be conducted by all the labs in order to leverage efficiency and scientist expertise, while reducing the cost of providing expert testimony.

### Forensic Labs:

OSP laboratories examine evidence in the disciplines of chemistry, biology, DNA, firearms/toolmarks, trace evidence, toxicology, and latent prints. Scientists also process major crime scenes to collect and preserve evidence, and aid in the analysis and reconstruction of criminal acts. The Forensic Services Division analyzes evidence submitted by all of Oregon's law enforcement agencies. (The Oregon State Police submits less than 10% of the evidence submissions that are sent to the five statewide laboratories for analysis.)

Properly trained and equipped law enforcement personnel collect, preserve, and submit latent print evidence left by suspects at crime scenes to the Division's latent print sections, where it is compared and searched through the Automated Biometric Identification System (ABIS). The ABIS system has the capacity to electronically search and compare against over 30 million convicted offender records in the Western Identification Network (WIN) database.

DNA analysis of biological evidence has become a powerful forensic tool for criminal justice. This analysis can potentially identify dangerous offenders from DNA deposited on physical evidence or left at a crime scene. The DNA Unit manages a statewide database containing profiles of most Oregon felons. This database is also integrated with the FBI CODIS (Combined Offender DNA Index System) database, which allows comparison of biological evidence recovered from scenes across the nation.

The FSD conducted analysis on 50,908 evidentiary submissions during the 2011-2013 biennium; 55,872 evidentiary submissions during the 2013-2015 biennium, 53,733 evidentiary submissions during the 2015-2017 biennium, 63,145 submissions during the 2017-2019 biennium, and 58,115 evidentiary submissions during the 2019-2021 biennium. The reduction in samples during the last biennium is a result of many factors, many related to the pandemic. Internally, we were forced to continue to discourage certain types of submissions as a direct result of insufficient personnel and other resources needed to meet the workload demands. For example, DNA submissions on felony property crimes, including burglary and car theft, were almost eliminated during most of the last two biennia in order to protect the

processing capacity to work on serious person-felonies. Demand for our services is expected to rise with Oregon’s rapidly growing population due to increasing drug use, increasing civil unrest, and the criminal justice system’s increasing reliance on forensic evidence. For example, we observed a 45% increase in Antemortem Blood Alcohol requests and a 41% increase in Cannabis Determination Requests in 2021, as compared to 2020. The rise of fentanyl abuse and the related time complex and time-consuming forensic analysis has also impacted the FSD. In 2021, we analyzed 587 fentanyl exhibits, up from 87 exhibits in 2020.

The FSD uses performance measures to guide operations. The Division’s Key Performance Measure (KPM) is based upon the time between agency submission of evidence and our release of the final analytical report. Our KPM goal is to complete 80% of requests within 30 days. Numerous challenges, including the global pandemic have continued to overwhelm existing resources and affect backlogs. Once accumulated, backlogs have a devastating impact on the KPM, because oldest cases are generally worked first. COVID guidelines also heavily impacted analytical capacity within the FSD. Workflow adjustments that incorporated increased teleworking allowed us to safely and responsibly continue to serve the needs of the justice system, but those modifications did slow down production. This can be seen in the chart below:

Percentage of Requests Completed in 30, 60, 90+ Days

Average turnaround times are shown in the following table. Total turnaround time has continued to decrease since 2017, although there was a slight increase in analyst turnaround time in 2021. Most, if not all of that increase can be attributed to modified COVID workflows. When compared against KPM numbers, these data emphasize the efficiency loss resulting from inadequate capacity, including the cost of “rush” requests, the proportion of which always increases with a growing backlog.

	2017	2018	2019	2020	2021
Total turnaround time - days	123	116	87	79	74
Analyst turnaround time - days	19	15	13	11	14
Days cases are waiting for analysis	104	99	72	65	54

The KPM for the FSD is expected to improve again over the next twelve to eighteen months as a result of the backlog reduction, improvements in DNA and Toxicology, and the completion of protracted training for a large group of new analysts. However, if COVID is managed in a manner that allows full restoration of the economy and human activity levels, the division is certain to be overwhelmed by work volume again. Efficiency alone cannot compensate for population growth and increasing crime volume. Long-term stability and maintenance of the KPM target will require adequate facilities and additional personnel.

The FSD continues to look for efficiency improvements that can be achieved through changes in processes, instrumentation upgrades, software improvements, facility improvements, and greater specialization of forensic scientists. A Lean Six Sigma efficiency project was completed in 2019 which streamlined the biology and DNA administrative and analytical workflow. We have since taken that methodology and applied it to evidence handing processes in the Portland Lab, resulting in similar improvements. We will continue to use Lean Six Sigma concepts to improve workflows in other areas.

The Division is working on a transition to digital workflows and case record scanning for analytical documentation and record management. The new system facilitates peer reviews across the five laboratories, frees up physical space, and provides more efficient archiving capabilities.

The FSD has started to again accept property crime evidence via the streamlined High Throughput Property Crime (HTPC) DNA Program. This allows law enforcement agencies to directly submit property crime evidence to our DNA unit in the Portland Metro

Forensic Laboratory. Evidence is collected via specific swabs that allow for analysis via an automated process that involves cutting edge robotics and high-volume instruments.

The COVID pandemic slightly increased the demand for FSD virtual testimony from our justice system partners. This was embraced by the FSD, as it saves analyst time and travel costs. Additionally, lab directors have continued to work with district attorneys to eliminate the unnecessary testing of evidence on cases that have already been adjudicated. In some cases, this amounts to as much as 20% of the requested testing.

The FSD has also implemented an on-line records management system that gives user agencies remote access to investigative and analytical reports at any time of the day or night. This has resulted in improved and streamlined dissemination of information that saves money and increases justice system efficiency.

**Implied Consent Unit:**

The Forensic Services Division provides breath-alcohol testing (BAT) instruments and training to assist Oregon law enforcement with impaired driving and boating investigations. There are 3 mobile Intoxilyzers in the BAT mobile, and 126 fixed site Intoxilyzers located at law enforcement offices throughout the state. Of the fixed sites, 120 locations have one instrument and three sites (Washington, Lane, and Klamath Co jails) have two instruments. The current inventory of Intoxilyzers are at end-of-life and will be replaced within the next 1-2 biennia via a proposed Policy Option Package.

Intoxilyzer instruments are computerized and linked for remote electronic access by Scientists and Technicians. The Division’s Implied Consent Unit provides expert testimony and is responsible for the approval, certification, and servicing of the instruments. The Unit is also responsible for training and certifying all of Oregon’s law enforcement officers on the proper operation of the instruments. This area of Forensics is heavily litigated in impaired driving trials, so there is considerable demand for testimony by scientists assigned to the Unit.

**Forensics Services Division**

2023-25 Governor's Budget						
Forensics Services	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
BASE BUDGET:	\$ 57,685,556.00	\$ 2,289,941.00	\$ 3,813,703.00	\$ 63,789,200.00	138.00	138.00
ESSENTIAL PACKAGES:						
010 Vacancy/Non-ORPICS Personal Services	\$ (31,223.00)	\$ 3,275.00	\$ 25,687.00	\$ (2,261.00)		
021 Phased - In				\$ -		
022 Phased - Out		\$ (1,884,746.00)		\$ (1,884,746.00)

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

<b>Total Ending Balance</b>	-	-	<b>\$7</b>	-	-	-	<b>\$7</b>

**Oregon State Police - Forensic Services Division  
Policy Option Package (POP): 113**

**POP Title: Division Efficiency and Risk Mitigation**  
**Total Request: ~~\$399,047 General Funds~~ NOT RECOMMENDED in GB**

**Purpose:**

The purpose of this Policy Option Package (POP) is to provide funding and position authority for two new positions within the Forensics Services Division (FSD). These new positions will be used to increase efficiency and productivity, reduce turnaround time, and mitigate risk associated with complex discovery requests. This POP request includes:

***Forensics General Headquarters -***

1. ***Special Operations Manager*** - Add one (1) Forensic Manager 2 position to oversee numerous programs and special projects across the FSD.
2. ***Discovery and Subpoena Specialist*** - Add one (1) Operations and Policy Analyst 2 position to coordinate, complete and track all discovery and public records for the FSD, as well as Develop and implement a more streamlined subpoena management system.

**How Achieved:**

**Special Operations Manager (Manager 2)**

The addition of one Special Operations Manager 2 will right-size Forensic leadership and meet our goal of one Division-level Quality Assurance Manager and one Operations Manager for every 75 employees. At this time, the FSD consists of 143 positions, overseen by one Quality Assurance (QA) Manager (Forensic Administrator 1), one Deputy QA Manager (Forensic Manager 2), one Operations Manager (Forensic Administrator 1) and one work out of class (WOC) Special Operations Manager (Criminalist 4 working as a Manager 3). The current WOC OPS Manager has been in that position for more than two years and has proven to be essential in providing timely work product and assisting with a constant flow of special projects (e.g., working on large procurements, managing recruitment workflow, bringing SAMS Track online, etc.). The WOC OPS manager is currently responsible for:

- Hiring and recruitment
- OPS Manual updates
- Training budget and planning
- Training and travel approvals
- Incident management
- SAMS Track
- OPS Liaison for the Technical Leader group

We intend to continue using a WOC OPS Manager as long as financially feasible, since the role is crucial and we have no other solution to process the work. A survey of forensics employees confirmed improvement in the speed and consistency of OPS team guidance and performance. The WOC manager has also delivered dramatic improvements in the speed and efficiency of our recruitment and procurement processes, so the proof

of concept for this position has occurred over the past two years and we would like to make it permanent. Additionally, creating a permanent Special OPS Manager would allow us to backfill the vacant management role in the Portland Metro Laboratory with a supervisor instead of a WOC scientist, which will return a scientist to benchwork.

**Discovery and Subpoena Specialist (OPA-2)**

The case record created during forensic analysis is subject to production to comply with the criminal justice discovery process and, with increasing frequency, public records requests. The related work volume is extremely large and increasing, but the FSD has no personnel dedicated to performing these functions. Much of this work has been diverted to an Office Specialist 2 who spends upwards of 90% of her time and multiple AS2s, who spend 15%-25% of their work hours managing discovery and public records requests. This takes time away from their primary duties, which include providing administrative support to the Toxicology section and evidence handling. The end result is that evidence transfers are delayed, some tasks are outsourced, and other staff (e.g., scientists, managers, other admin) spend time away from their primary responsibilities to assist.

With over 100 forensic scientists performing analytical requests, the frequency and complexity of the records demands has become a liability for the department. Processing complex discovery and public record requests is vital, and the consequences for errors or failure to meet timelines can disrupt the criminal justice process and result in financial sanctions being levied against the Department. The FSD receives an average of 25 records requests per month that need to be processed, typically on very short deadlines. Although the most complex requests generally involve Division and/or DOJ assistance, all managers spend time answering questions relating to the requests, which can lead to inconsistent responses from the Division. Additionally, whenever there is a need for policy interpretation, the current administrative staff need to reach out to management because of job classification restraints. Recruiting and hiring a Discovery and Subpoena Specialist (OPA-2) will allow for a single, properly trained specialist to coordinate, interpret, complete, and track all types of records requests and ensure that we are providing a prompt, consistent, and accurate response. Ideal candidates would have some level of legal interpretation experience to mitigate the risk of managers, scientists, and office specialists making incorrect legal decisions.

Similarly, the thousands of subpoenas that are issued to the Forensics Services Division employees each year require hundreds of hours of analyst administrative time spent coordinating and communicating with district attorney’s offices, checking E-Court, scheduling, and managing trial conflicts. Relieving scientists of some of this workload will improve their efficiency and productivity. An OPA-2 classification is appropriate for this position because they “evaluate organizational systems for effectiveness, and plan or design improvements in operations. They support agency operations by researching and giving objective information to management on which to base policy and operational decisions. The Operations and Policy Analyst brings into effect change through project management.” A single OPA-2 wouldn’t be able to manage all FSD subpoenas on top of responding to all discovery and public records requests, but they would be instrumental in developing a subpoena management system for the Division and implementing the solution.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101086	Forensic Manager 2	MMS X7304 AP	±	0.75	\$208,452	±	1.00	\$277,938
3101087	Operations and Policy Analyst 2	AO C0871 AP	±	0.75	\$158,595	±	1.00	\$211,462
<b>Total</b>			<b>2</b>	<b>1.50</b>	<b>\$367,046</b>	<b>2</b>	<b>2.00</b>	<b>\$489,400</b>

**Quantifying Results:**

As soon as a Discovery and Subpoena Specialist is hired and trained, we should see an immediate decrease in administrative time spent on discovery and public records requests for all current employees, as tracked via the FSD LIMS system.

Creating a permanent Special Operations Manager position will primarily impact the unit that the WOC manager has vacated. Since that role has been filled by lead workers for the past two years, we would see the equivalent of one (1) FTE scientist back performing analysis when a permanent manager is selected.

**Oregon State Police - Forensic Services Division  
Policy Option Package: 114**

**POP Title: Impaired Driver Intoxilyzer Equipment NOT RECOMMENDED in GB**  
**Total Request: ~~\$3,146,330 Total Funds (\$0.7 General Funds; \$2.4 Other Funds)~~**

**Purpose:**

The Intoxilyzer 8000s currently deployed throughout the state were purchased more than 15 years ago and need to be replaced within the next 2-3 years. Locating parts for repairs is becoming more and more problematic and the instruments only work with specific printers that are no longer being mass produced. We currently maintain 180 instruments, 174 of which were purchased in 2005 with ODOT grant funds.

We have 125 Intoxilyzer 8000s deployed throughout the state at any given time, with the remainder retained for training or as back-ups ready to be quickly swapped out. We are continuously being asked by law enforcement partners to have additional units deployed throughout the state, but that would not allow us to retain enough units in reserve and would also overwhelm the single technician who currently maintains the instruments.

The purpose of this package is to work collaboratively with ODOT to purchase 200 Intoxilyzer 9000 instruments (or equivalent) and have enough in reserve to keep 130-140 deployed at any given time. This package would also provide funding and position authority for an additional scientific technician within the Forensic Science Division (FSD) to handle the increased number of active instruments and more quickly perform on-site repairs.

**How Achieved:**

In partnership with ODOT, OSP would cover a 20% match required by NHTSA for their grants for the cost of new Intoxilyzers, training, and an additional Scientific Technician position. OSP would eventually fully fund the Scientific Technician after the grant period expires, although we are in discussions to possibly extend this to period to five years, reducing our costs even more. There are currently many moving parts to this process, so the specifics contained within this proposal are our best estimate at this point in time.

**Intoxilyzer**

- The estimated purchase cost for each Intoxilyzer 9000 is \$15,000, which puts the total instrument cost at \$3,000,000. This may decrease as we move through the process. If we continue with the same make of instrument, there are financial incentives for returning the current units.
- The first year of repairs should be covered under warranty and then additional repair costs should be offset by the savings in connecting the instruments via ethernet/internet.
  - Currently we spend about \$4-5k per month on legacy land lines and 56k modems to do our monthly assessments.
- A rough estimate on the cost (e.g., hotel and per diem) to train all the current users on the new instruments is approximately \$25,000.
- There will be a need for Administrative Rules task force meetings to update the OAR 257-30 rules to add the new instrument and retire any references to outdated and replaced Intoxilyzers.

- ODOT will evaluate our project application and, if approved, we will have “Dedicated Money Set Aside” for our POP proposal. The new federal fiscal year starts Oct 1, 2022 so we are working to get our proposal to ODOT as soon as possible.

**Scientific Technician**

- An additional Scientific Technician will provide enough capacity to support additional instruments being deployed in the field.
- This position will be especially crucial during the period of transitioning to new instruments. There will be a large amount of work that needs to occur quickly in order to validate and deploy the new instruments, retrain operators, and then decommission old instruments.

Assuming the total cost through the 2025-2027 biennium is \$3,342,993 and that ODOT covers 80%, the expense to OSP would be \$902,993.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101088	Scientific Instrument Technician	AO C4339 AP	1	0.50	90,330	1	1.00	180,663
	<b>Total</b>		<b>1</b>	<b>0.50</b>	<b>90,330</b>	<b>1</b>	<b>1.00</b>	<b>180,663</b>

**Quantifying Results:**

This POP will be successfully completed when the state has fully transitioned from the current Intoxilyzer 8000 instruments to a more modern platform.

**Revenue Source:**

General Fund and Other Funds

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

**Quantifying Results:**

Not applicable

**Revenue Source:**

Other Funds

**Total Funding Request Summary:**

POP 120 (Component C)	2023-25	2025-27
Expenditure Category	OF	OF
Services & Supplies	\$2,500,000	0
Capital Outlay	\$1,688,476	0
<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

**Staffing Impact:**

None

**Quantifying Results:**

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component D)	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,217,259	\$1,217,259
<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Quantifying Results:**

Not applicable

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component E) Expenditure Category	2023-25		2025-27

Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Oregon State Police: State Medical Examiner**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area:

Program Contact: Major Alex Gardner, 503-934-0237

**Executive Summary**

The State Medical Examiner’s Office oversees the statewide death investigation system in Oregon. As the sole source provider of forensic pathology services, the office is responsible for the investigation of all deaths due to homicide, suicide, accident, drug overdose, deaths in state custody, deaths on-the-job, or natural deaths occurring while not under medical care. The results of these 7,818 investigations support the actions of public health and law enforcement statewide.

**Program Funding Request**

The State Medical Examiner’s Office funding request at Governor’s Budget for the 2023-25 Biennium is \$10,761,955(GF) and \$316,141(OF). Total funds request for State Medical Examiner’s Office is \$11,078,096.

**Program Description**

The Medical Examiner Division manages all aspects of the statewide death investigation program in Oregon. Although the Division’s role in the investigation of homicide receives much more attention on popular television shows, the vast majority of the Division’s work of focused on matters related to public health. Only about 5% of the Medical Examiner cases involve potentially criminal matters.

Under the authorization of ORS chapter 146, state and county medical examiners investigate and certify all non-natural deaths including homicides, accidents, suicides, and drug or medication overdoses. Medical examiners are also tasked with investigating on-the-job deaths, apparently natural deaths which are not currently under medical care, and deaths occurring in state custody. The Chief Medical Examiner manages all aspects of the Medical Examiner Division. Seven full-time forensic pathologists, five located in Clackamas, one located in Eugene, and one located in Central Point provide technical assistance and advice to the county medical examiner programs. Forensic pathology services provided by the Medical Examiner Division include performance of post mortem examinations, the collection of samples for drug and alcohol analysis performed by the Oregon State Police Forensic Services Division Toxicology unit, collection of evidence when required, and consultation for various county and state agencies. The Medical Examiner Division does not employ death investigators and does not routinely participate in the day-to-day activities of death investigation. Each Oregon County is responsible for maintaining its own death investigation program, which often relies on part-time investigators with limited forensic training. Due to differing levels of resources dedicated to death investigation between urban and rural counties, equitable distribution of these professional resources is not achieved.

A state forensic pathologist is available at all times to consult or share information or advice with county medical examiners, public health officials, police agencies, and district attorneys. Forensic pathologists also provide expert testimony in court and support the broader health and justice systems by providing death investigation training to physicians, medical students, law students, police officers, emergency medical technicians, and others associated with Oregon’s death investigation system. Physicians from the Medical Examiner Division work closely with public health officials to monitor emerging infectious disease, bioterrorism, and other threats to public health. The forensic pathologists are supported by five administrative assistants, two clerical support staff, two research analysts, one anthropologist, one forensic administrator, one autopsy section manager, and seven autopsy technicians.

Although transient regional and temporal influences can cause fluctuations in workload, the primary workload-driver for the Medical Examiner’s office is Oregon’s dramatic population growth. Staffing has been augmented over the last few years, but the Medical Examiner Division is currently sized and staffed more appropriately for the state population in 1980 (about 2.6 million). Oregon’s population has increased approximately 60% over the intervening forty years. An increase of 1.6 million Oregonians translates directly to workload, as approximately 1% of the state’s population dies annually. As the workload increases, the M.E’s office is forced to triage more aggressively, causing a persistent and increasing departure from nationally recognized best practices. As a result, the decision to perform an autopsy is increasingly driven by law enforcement needs in the context of homicide investigation, an influence which lowers the resources available for death investigations bearing on public health. Families’ requests for autopsies in medical examiner cases are also increasingly declined, often forcing families to pay exorbitant costs for private autopsies. Timely collection and reporting of mortality data related is hampered by the need to focus resources on active cases. An increasing inability to thoroughly investigate deaths will negatively impact families and public health practices in Oregon. Inequitable distribution of these services will disproportionately affect rural and minority populations. The inability to operate within best practice recommendations will also make it difficult to recruit qualified forensic pathologists in the future.

**Program Justification and Link to 10-Year Outcome**

The Medical Examiner Division has a direct link to Safety Strategies 1, 3 and 4 as outlined in the Safety Policy Vision of the 10-Year Plan for Oregon.

**Safety Strategy 1: Increase investment in communities to prevent crime, abuse and neglect and strengthen the swiftness and certainty of punishment in county jails and local supervision of offenders**

The Medical Examiner Division provides death investigation services to every community in Oregon. Our timely investigation of deaths falling under our jurisdiction leads to rapid and accurate detection of drug deaths and homicides. The information the office provides expedites effective investigation and appropriate resolution of some of the most serious crimes, including criminally negligent homicide, manslaughter, and murder. Information regarding drug overdose deaths and, more recently, COVID-related deaths, is critical in tracking public health risks and developing effective solutions to mitigate them. Few COVID-19 deaths have been certified by medical examiners and fewer have undergone autopsy, likely contributing to inconsistencies in how fatalities are documented.

**Safety Strategy 3: Ensure the safety of people in their community**

The Medical Examiner Division works to identify emerging public health threats quickly, so the State can prepare and respond to mitigate community harm. The office has also worked with OHA and other partners to develop Oregon’s mass fatality management strategies. These plans will ensure a prompt, professional and compassionate response to disasters statewide. We’re also continuing to expand partnerships with Oregon counties, and others in, around, and outside of Oregon, so we can work collaboratively during a mass fatality event.

**Safety Strategy 4: Improve citizen access to justice and the ability to exercise their rights**

The Medical Examiner Division brings the medical perspective to death scenes. Our independent opinion on the cause and manner of death is based upon the totality of the evidence available to the investigating pathologist, including the medical evidence gleaned from the scene, family members, medical records, autopsy results, and toxicology. This ensures fairness in court proceedings and protects both defendants and victims. Our reports are available to next of kin and anyone who is criminally or civilly liable for a death. The timeliness of our reports supports swift resolution of criminal and civil cases. Efficient resolution of cases allows for timely estate management, reducing the risk of financial detriment for families.

**Program Performance**

The Medical Examiner Division indirectly serves a population of over 4 million people by providing forensic examinations, toxicology testing and determining identification. Between 2018 and 2019 the Medical Examiner’s Office had 9,708 cases with cause and manner of death determinations involving all of the following:

<ul style="list-style-type: none"> <li>• Homicides</li> <li>• Deaths in state custody</li> </ul>	<ul style="list-style-type: none"> <li>• Suicides</li> <li>• Drug &amp; Medication overdose deaths</li> </ul>	<ul style="list-style-type: none"> <li>• Accidental deaths of all types</li> <li>• Natural deaths not under medical care</li> </ul>	<ul style="list-style-type: none"> <li>• On the job deaths</li> <li>• Suspicious or unusual deaths</li> </ul>
--	---	---	---

The National Association of Medical Examiners (NAME), the leading national professional organization for forensic pathologists, recommends an average autopsy rate of 50% of total medical examiner caseload. As the percentage of cases autopsied declines, the chance of missing an emerging health threat or evidence of subtle injury increases, because a full autopsy is often necessary to confidently determine cause and manner of death.

Unfortunately, persistent staffing shortages and the press of increasing case volume prevent Oregon’s ME system from approaching best practices autopsy rates. The average autopsy rate in the past five years was approximately 17%, less than half the recommended percentage, even though our physicians are carrying workloads that are dramatically larger than national norms.

Oregon Health Statistics documents we are directly involved in determining the cause and manner of death, and signing a death certificate reflecting that information, in 13.4% of approximately 40,000 deaths each year. As our population increases, so will cases requiring our services. Census projection indicates a growth in population of 10% over the next 10 years. With a 2023-2025 biennial budget of \$13,304,801 we would be providing this service for a cost per capita per biennium of approximately \$3.03 per year. This may be the lowest per capita expenditure on death investigation in the United States. Funding for highly performing medical examiners offices that are accredited by the National Association of Medical Examiners is in the range of \$3.50 – \$3.75 per capita.

The information regarding cause and manner of death is used by district attorneys and law enforcement to guide investigations and prosecutions. It is also studied by public health officials to track diseases and serious infections. Most importantly, it is used by families to make life decisions and to understand the death of a loved one. Inefficiencies in the medical examiner system may contribute to delays in death certification which can be particularly harmful to families. The cause and manner of death determination is tracked through a web-based information system, MDI-Log. The office arrives at a specific cause and manner of death in 98% of all cases investigated. Approximately two percent of cases remain undetermined. A full autopsy is critical in cases where the cause of death is not apparent. Between 2018 and 2021, autopsies were performed in approximately 44% of cases that were classified as “undetermined.” National best practice standards recommend that autopsies be performed in 95% of all cases in which the manner of death is undetermined.

The Medical Examiner’s Division investigates and performs autopsies on over 100 homicides every year. Without this service, the arrest and prosecution of dangerous criminals will be hindered. Without the medical examiner’s office, over 1,500 accidental deaths will not be investigated by forensic pathology experts. Deaths related to consumer products, including medications, and human errors will go undetected.

Drug related deaths will not be detected. Law enforcement will be hindered in their efforts to detect and arrest drug dealers and drug offenders. Successful prosecution often requires performance of a full autopsy, but autopsies are performed on approximately one-third of suspected drug related deaths. Suicidal deaths will not be investigated if the medical examiner’s services are cut. They may be misdiagnosed as accidents or homicides by law enforcement. Finally, without the medical examiner’s office, medically unattended deaths will not be investigated. Public health officials will not have critical information regarding emerging infections. Law enforcement may not detect subtle homicides because they may be mistaken for natural deaths.

**Enabling Legislation/Program Authorization**

The Medical Examiner program is mandated by ORS chapter 146 and supports the total population of Oregon as the sole provider of forensic pathology services.

**Funding Streams**

The Medical Examiner is 98% funded by the General Fund and 2% by Other Funds. Other funds are paid by counties occupying and/or using the State Medical Examiner facility. This funding partially supports equipment maintenance and personnel.

**2023-25 Funding Proposal Compared to 2021-23**

In the Agency Request Budget, the State Medical Examiner’s Office requested additional funds for 6 new positions in Policy Option Package #110 – Springfield ME/LAB Staffing and the reclassification of one (1) position.

In the Governor’s Budget, the above listed packages were not recommended for the State Medical Examiner’s Office for human ID program, Locum Tenes Forensic Pathologist and Springfield staffing.

## Office of State Medical Examiner Narrative

The Medical Examiner Division manages all aspects of the statewide death investigation program in Oregon. Under the authorization of ORS chapter 146, state and county medical examiners investigate and certify all non-natural deaths including homicides, accidents, suicides, and drug or medication overdoses. Medical examiners are also tasked with investigating on-the-job deaths, deaths occurring in state custody, and natural deaths which are not under medical care.

Contrary to popular depiction on law-and-order-type television shows, protecting public health is the primary function of the Medical Examiner's Office. Although the office regularly assists law enforcement with homicide investigation, homicide typically accounts for less than 5% of the Medical Examiner cases. The remaining 95% to 96% of the Medical Examiner's cases are unrelated to police work. It is this practice, and the data derived from it that keep us informed about the health of Oregon's population and any emerging threats to it. Nationwide, competent death investigation has been essential to understanding trends related to opioid deaths and researching the pathophysiology of COVID-19. Oregon has struggled to consistently provide medical examiner services in many cases of public health importance. Unfortunately, the workload for a medical examiner's system is primarily a function of the population it serves, as approximately one percent of the population dies each year. When the population soars, as it has in Oregon, the workload soars too. When staffing doesn't keep up with population growth, it forces increasingly aggressive triage, a process which has incrementally deteriorated the efficacy of Oregon's Medical Examiner system by causing significant departures from nationally recommended practice standards and providing insufficient resources to properly serve public health needs. Oregon's forensic pathologists manage caseloads that far exceed nationally recognized limitations. Currently, the majority of the deaths in Oregon that fit medical examiner criteria are not examined by trained forensic pathologists. Oregon's current autopsy rate is less than *one-third* of the recommendation of the National Association of Medical Examiners (NAME).

The Chief Medical Examiner manages the Medical Examiner Division and provides technical assistance and advice to county medical examiner programs with the assistance of five full-time forensic pathologists. Five pathologists are located in Clackamas, one is located in Eugene-Springfield, and one is in Central Point. Pathologists perform post mortem examinations ("autopsies"), and collect samples for alcohol and drug analysis, collect evidence when required, and interpret the results of ancillary studies. Pathologists support county medical examiner programs via consultation, quality improvement projects, and recommendation of best practices. At least one of the forensic pathologists in the division is available at all times to provide advice to county medical examiners, medical-legal death investigators, police, and district attorneys. They also directly answer questions posed by the public. Forensic pathologists also provide expert testimony in court and lecture and train on death investigation to assist physicians, medical-legal death investigators, medical students and residents, law students, police officers, emergency medical technicians, and others associated with the death investigation system.

Members of the Medical Examiner Division work closely with public health officials to monitor emerging infectious disease, bioterrorism and other public health threats including the deaths related to increasing use of methamphetamine and opioids. The forensic pathologists are supported by five administrative assistants, two clerical support staff, two research analysts, one anthropologist, one forensic administrator, one autopsy section manager, and seven autopsy technicians.

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

are minimally resourced. In our experience, this creates additional administrative work for the SMEO, as frequent follow-up is needed to obtain necessary information from county authorities. This aspect of the work necessitates a working knowledge and understanding of ORS 146 and the convoluted nature of the state’s death investigation system, which is best suited to an Administrative Specialist 2 (AS2).

A supervisory manager (Supervisor 1) is needed to provide direct supervision to administrative staff and execute building management tasks. This position will provide management support by overseeing office functions and providing administrative support and supervision to the regional Medical Examiner program. Other essential responsibilities for this position include serving as liaison to county death investigation agencies in the coverage area to communicate recommended investigation and documentation practice established by the Chief Medical Examiner and the Forensic Administrator. These communications would be accomplished by directly interfacing with a variety of external partners, including district attorneys, law enforcement, county death investigators, and the families of deceased.

**Quantifying Results:**

The SMEO is the sole source provider of forensic autopsy services in Oregon. Although the SMEO is not linked directly to any formal performance measure, our work directly supports law enforcement and public health and is tracked through multiple internal metrics. The SMEO has recently upgraded to a web-based information system that has more advanced search capabilities than the previous information system. The SMEO has internal measures that help quantify the performance of the office. These include:

- Arrive at cause and manner of death for 98% or greater for all cases. Cases with an “undetermined” cause and manner of death can be identified and evaluated by searching the database.
- Perform examinations on decedents within 24 hours of report to this office or work with local officials for earliest, convenient time.
- Forensic Pathologist available to families at time of call or within 24 hours of inquiry (with exceptions for vacation, sick leave etc.)
- Overall turnaround time: Time from report of death to death cert
- Overall cases received
- Cases per doctor
- Autopsies completed as a percentage of cases

- County breakdown of cases received

The workload of the Springfield morgue will likewise be monitored utilizing the SMEO’s web based information system. This information is collected and reviewed on a rolling basis throughout the year. It is published in the SMEO’s annual report and presented to the Medical Examiner Advisory Board during its yearly meeting.

**Oregon State Police - Office of State Medical Examiners  
Policy Option Package (POP): 111**

**POP Title: Locum tenens forensics pathologists  
Total Request: ~~\$250,000 General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:**

Death investigation in Oregon is inadequately resourced, both at the state and county levels. Forensic pathology work in the state often occurs at far below nationally recognized best practice standards due to resource restrictions. A confluence of factors during the pandemic (mortality associated with the pandemic itself, the increasing prevalence of drug and alcohol related deaths, increasing rates of violent crime and gun violence, and continued growth of Oregon’s population) have increased ME caseloads significantly from 2019 to 2022. Due to chronic resource limitations, Oregon’s ME system has been poorly positioned to respond to increased caseloads.

In the 2021 legislative session, the Medical Examiner Division received funding to invite forensic pathologists from other states to provide technical assistance to the divisions full time forensic pathologist staff. The program has been well-received as it allows full-time staff to focus on sensitive cases while still providing autopsy services cases that cannot usually be accommodated. These cases typically include family requests for autopsies and cases that may have public health importance.

While this program is intended to be temporary, it should be extended throughout the next biennium as caseloads are likely to continue increasing. The Medical Examiner Division will likely continue to experience challenges when staffing the Springfield laboratory due to the limited applicant pool and the highly competitive nature of forensic pathologist recruitments. Locum tenens providers may be a stop gap solution during the recruitment period.

**How Achieved:**

The Medical Examiner Division’s locum tenens opportunities will be advertised on websites for national professional organizations that host similar advertisements, such as the National Association of Medical Examiners and the American Academy of Forensic Sciences. Planning activities for this program have included the development of a locum tenens contract that can be offered to interested providers. The impact on other agencies and stakeholders will be minimal. Locum tenens providers will be providing technical assistance to the Medical Examiner Division. Communication with county programs, law enforcement, and district attorney’s offices will be handled primarily by full time staff.

**Staffing Impact:**

None

**Quantifying Results:**

The caseload of the locum tenens pathologists will be monitored utilizing the Medical Examiner’s web-based information system. These metrics include the numbers of decedents examined, the types of examinations performed, and the number of death certificates signed and amended by the

providers. Invoices from the locum tenens providers will also be tracked. This information is collected and reviewed on a rolling basis throughout the year. It is published in the SMEO’s annual report and presented to the Medical Examiner Advisory Board during its yearly meeting.

**Oregon State Police - Office of State Medical Examiners  
Policy Option Package (POP): 112**

**POP Title: Human Identification (ID) Program  
Total Request: \$549,600 ~~General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:**

The Oregon State Police is responsible for the identification of decedents through the State Medical Examiner’s Office (SMEO) using an array of techniques including the matching of dental records and fingerprint comparison. Identification of human remains becomes more challenging with the degradation of the body. Advanced human identification techniques such as extracting DNA from bone and investigative genetic genealogy have proven extremely effective in recent years, but this type of analysis is provided by specialized private laboratories at a high cost. The Oregon State Police’s own forensic lab capabilities do not include the ability to analyze skeletal, decomposed and/or contaminated samples, and the SMEO has no budget designated for DNA services on challenging samples which the Oregon State Police forensic lab cannot process. This policy option package would establish a budget to pay for innovative DNA analysis to assist with human identification services.

Traditionally, the SMEO has relied upon DNA services provided at no cost by the University of North Texas Center for Human Identification. In 2020, this laboratory lost federal funding to continue work on unidentified or missing person cases that originate outside of Texas. As a result, the SMEO has suspended virtually all traditional DNA services. In 2019, the SMEO was awarded a grant that allowed utilization of advanced, innovative DNA techniques with the goal of reducing the backlog of unresolved, unidentified human remains cases. These cases spanned decades and were comprised largely of cases that could not be solved with first line identification techniques and traditional DNA testing modalities. This grant-funded program was successful and resulted in the positive identification of 20 individuals and made it possible for these individuals to be reunified with their families. In addition, law enforcement partners were provided with investigative leads on 6 cold cases, with the hope they will be resolved soon.

The SMEO wants to continue this important work. In order to do this, the SMEO needs a reliable and stable source of funding to support a consistent approach to identify unidentified human remains when the traditional front-line techniques are insufficient to establish identity.

**How Achieved:**

The Human Identification section is managed by an Operations and Policy Analyst 4 (OPA4). This position will identify private laboratories that can provide the needed testing modalities. They will work with OSP Procurement to solicit proposals from private vendors with the goal of establishing service contracts. The OPA4 will establish protocols for the use of these services and will determine, on a case-by-case basis, which services are needed for which cases. The projected funding need listed below is based upon the recent cost of similar services incurred in previously identified cases.

**Staffing Impact:**

None

**Quantifying Results:**

There are currently no key performance measures for the Human Identification Program. Actions taken with respect to unidentified human remains cases will be documented in the medical examiner information system. The OPA4 will track invoices for services provided by private laboratories. A yearly summary of the program’s work will be included in the SMEO annual report and reported to the medical examiner advisory board during its annual meeting.

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

**Quantifying Results:**

Capital Outlay	\$1,688,476	0
<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Oregon State Police: Agency Support Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area: A Thriving Statewide Economy

Program Contact: Deputy Superintendent Jon Harrington, 503-934-0234

**Program Overview**

The Agency Support Division is comprised of the executive leadership for the Department and primarily sworn support programs such as dispatch, training, professional standards, central records, and fleet. These are critical support functions of a law enforcement public safety agency.

**Program Funding Request**

The Agency Support Division funding request at Governor’s Budget for the 2023-25 Biennium is \$62,650,238(GF), and \$4,738,627(OF). Total funds request for the Agency Support Division is \$67,388,865.

The chart below demonstrates the historic and projected average cost of the Division per person residing in Oregon.

**Program Description**

The Agency Support Division includes the executive leadership of the Department, which sets the direction and policy of the agency; along with six bureau commanders that oversee the operations of ten divisions. This Division also includes the agency’s internal auditor, which reports directly to the Superintendent.

The programs included in the Agency Support Division primarily support over 700 sworn members of the Department, as well as a 35% share of the State Radio System. The two dispatch command centers, which operate 24/7, are the primary answering point for the general public and law enforcement partners to contact the Oregon State Police in the event of an emergency. These two dispatch centers provide all radio, telephone and data communications support to all OSP functions.

Professional Standards primary focus is on the sworn members of the Department. This section tracks and monitors all complaints of misconduct, investigates criminal allegations of department members, and provides investigative and discipline advice to agency supervisors.

The Training section manages sworn recruitment, provides initial recruit training, and organizes annual mandatory training for all sworn personnel.

The Fleet section is responsible for the maintenance of over 1,000 Department vehicles statewide, outfitting newly purchased vehicles with law enforcement equipment, and removing law enforcement equipment before a vehicle is sent to surplus after it has aged out.

The Central Records section provides records management functions for an average of 31,000 operational incidents per month that are generated by sworn members of the Oregon State Police in the course of their duties. These incidents can result in numerous enforcement actions and require multiple types of record processing.

**Program Justification and Link to 10-Year Outcome**

The programs within the Agency Support Division are considered essential infrastructure for a law enforcement public safety agency. Well-trained and adequately equipped law enforcement is more effective to safely protect the people, property, and natural resources of the state.

**Program Performance**

In 2006, the Superintendent’s Office conducted its initial customer satisfactions survey of key stakeholders. The survey asked for the respondents’ satisfaction with the Department in six areas: 1) Overall performance; 2) Accuracy of Work; 3) Accessibility of Information; 4) Expertise of Staff; 5) Helpfulness of Staff, and 6) Timeliness of Service. Based on the results of the 2006 survey, a baseline target of 88 percent of stakeholders rating their satisfaction with the agency as “good” or “excellent” was established. The survey has been conducted every two years since 2006 to gauge areas in need of improvement with respect to service delivery, and the Department reports the results as one of its key performance measures (KPMs). Below is a chart highlighting the results of the survey regarding stakeholders’ overall satisfaction with the Department (the Department has consistently achieved above an 80 percent overall satisfaction rating).

**Enabling Legislation/Program Authorization**

Chapters 153, 161, 166, 181, 323, 418, 461, and 475, Oregon Revised Statutes, and Oregon Administrative Rules (O.A.R.) 257 – Oregon State Police

**Funding Streams**

The Agency Support Division is primarily funded with General Fund, with approximately \$2.2 million in Other Funds supported by the Departments internal cost allocation for central administrative costs.

**2023-25 Funding Proposal Compared to 2021-23**

Agency Support Division requested additional funds for infrastructure needs in Training; Health, Wellness and Resiliency Unit; Dispatch Centers; Fleet; and Professional Standards by adding positions in various policy options packages that will enable these sections to meet the increasing demands for service internally and externally to the Agency.

In the Governor’s Budget, the Agency Support Division received modified packages for the police accountability and IT replacement. The Command Center package was not recommended.

## Agency Support Narrative

The Agency Support Program consists of six service areas that support the effective and efficient operation of the Department of Oregon State Police (OSP). These areas provide executive leadership, policy direction, legislative coordination, budget oversight, internal audit, dispatch services, and sworn support.

Office of the Superintendent: The Office of the Superintendent comprises the Superintendent and Deputy Superintendent who set direction and policy and six bureau commanders who are responsible for overseeing the operations of ten divisions. The six bureaus of the Department are the following:

- Field Operations Bureau
- Police Services Bureau
- Public Safety Services Bureau
- Gaming & Business Services Bureau
- Forensic Science & Pathology Bureau
- Office of State Fire Marshal

Office of Professional Standards: The Office of Professional Standards includes two major components: risk management and internal investigations. The risk coordinator works with the Department of Administrative Services and the Department of Justice to evaluate policies, interagency agreements, contracts, and reports. The Internal Investigations Unit tracks and monitors all complaints of misconduct, investigates criminal allegations of department members, and provides investigative and discipline advice to agency supervisors.

Training/Recruitment: The Training and Recruitment section manages sworn recruitment activities and sworn applicant processing; provides for recruit initial training and annual mandatory training for sworn personnel; directs activities of Critical Incident Response Team; maintains training records, and works collaboratively with law enforcement partners to provide supervisory training.

Office of Internal Audit: The Office of Internal Audit is comprised of one Internal Auditor who reviews management practices and financial reporting of the Department. This position reports directly to the Office of the Superintendent.

Wireless: The Wireless program includes a pass through payment to the Oregon Department of Transportation representing OSP's 35% share of the State Radio System utilized by OSP.

Fleet: Fleet Services is responsible for procuring, maintaining and tracking over 1,000 vehicles with a replacement value of over \$36 million.

Dispatch Centers: The Department has two dispatch centers, one is located in Salem and the other is located in Central Point. These two centers handle the dispatching services for the entire Department. They operate 24 hours a day, 7 days a week. Functions they perform include answering calls from the public and public safety partners, and they disseminate information quickly to include dispatching troopers to emergencies and routine calls for service. The dispatch centers also handle inquiries of the Criminal Justice Information Services (CJIS), National Crime Information Center (NCIC), Division of Motor Vehicles (DMV), and other databases to provide information to Troopers involved in law enforcement activities in the field. The dispatch centers, work in conjunction with the OSP Criminal Division, when an activation of an AMBER Alert for the state is required.

Central Records Section: Central Records Section (CRS) is located at OSP General Headquarters in Salem. The mission of CRS is to expertly manage criminal justice information and the operational records in accordance with the law. Over 700 sworn members and hundreds of professional staff members generate records in the course of their duties that may be deemed releasable under public records laws. Records are created in electronic form, on paper and in digital media format. CRS serves operations and programs throughout the department by providing centralized records and data management for internal use, for use by department partners, and customers, for access by the public in appropriate circumstances, and through state and federal data sharing. CRS is made up of five units; Legal Compliance, Record Request, Crime Reporting, Law Enforcement Records Management Systems (LERMS), and SafeOregon, the Oregon School Safety Tip Line.

**Agency Support Division**

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 100**

**POP Title: Police Accountably and Wellness Support  
Total Request: \$1,496,233 General Funds**

**RECOMMENDED as MODIFIED in GB**

The components to this Policy Option Package are segregated into the following six components.

- A.** Superintendent’s Office Executive Assistant – Not Recommended
- B.** Chief Data Officer – Not Recommended
- C.** Regional Training Coordinators – Not Recommended
- D.** Member Assistance Program (peer support team) - **RECOMMENDED as MODIFIED in GB**
- E.** Human Resource Staffing – Not Recommended
- F.** Payroll Staffing– Not Recommended
- G.** Computer Aided Dispatch (CAD), Records Management System (RMS), and e-Citation/e-Crash (Report Beam) – Not Recommended

**Component A – Superintendent’s Office Executive Assistant**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding and position authority to add a full-time permanent Executive Assistant position to the Oregon State Police.

Historically, the Oregon State Police’s Executive Leadership Team (ELT) has worked with only 2 support staff (one Executive Assistant (EA) and one Executive Support Specialist 2 (ESS2)) positions for the Superintendent, Deputy Superintendent, the Field Operations Major, the Police Services Major, the Gaming & Business Services Major, the Public Safety Services Bureau Commander. In September 2016, the Superintendent reclassified the Executive Assistant position to a Public Affairs Specialist 2 (PA2). This was done due to the agency’s need to strengthen its outward-facing reputation through marketing, branding, media relations, and social media. At that time, it was deemed that the EA duties would remain under the PA 2. In December of 2020, the level of work rose to a higher level and the PA 2 was reclassified to a Public Affairs Specialist 3. It is no longer feasible for the PA 3 to continue to assume the EA duties. The Oregon State Police would like to request a permanent, fully funded Executive Assistant position to support the Superintendent and Deputy Superintendent.

The primary purpose of this position would be to support the Superintendent, Deputy Superintendent along with assisting in all of the administrative needs such as scheduling, writing correspondence, doing research, and triaging customer inquiries and complaints about the agency. This position would be the agency wide LEADS Representative, the Government Ethics Officer, and the Governor’s Constituent point of contact to name a few. This policy option package would correct a critical staffing shortage in the support of the Oregon State Police’s Executive Leadership Team.

**How Achieved:**

The Department will realize greater efficiency across the agency. By adding this position back to the Oregon State Police, it would allow for the agency to maintain the highest level of customer support and agency efficacy and also allow our Public Affairs 3 position to focus on the 5-year Strategic Communications Plan.

**Staffing Impact:**

This policy option package is requesting the establishment of 1 new position that will greatly assist the Department with a shortage in staffing to support critical positions that lead the agency.

Position Number	Classification Title	Classification Number	2023-25			2025-27

Positions	1	1
FTE	0.88	1.00

**Component B - Chief Data Officer**

**Purpose:**

The Oregon State Police (OSP) is a multi-dimensional organization, comprised of over 80 public safety programs. These programs operate across the State of Oregon and are interconnected with local, state, regional, and federal organizations. As a result, these programs are supported by a complex network of systems. Because of the critical nature of these systems to the safety and security of the public, the Department identified data governance, open data, and being data driven as key initiatives under its Stewardship and Transparency strategic focus area. These strategic

initiatives of the Department align with the State of Oregon’s open data (ORS 276A.350-374) and data governance initiatives (Statewide Policy #107-004-160). Oregon Revised Statute 276A.350-374 and Statewide Policy #107-004-050 have created several mandates around state agencies’ management, use, and sharing of data. These mandates require state agencies to maintain an inventory, prioritize, classify, and publish their data assets. Furthermore, Statewide Policy #107-004-050 also requires agencies to appoint a “Lead Data Steward” or equivalent (i.e., Chief Data Officer) to lead its data governance program and participate on the Oregon Data Stewards Council on behalf of the agency. Currently, there is no Chief Data Officer position within OSP to develop OSP’s data governance program or lead its strategic data initiatives. As a result, OSP’s data governance practices are performed on an ad hoc basis with each program managing, documenting, tracking, storing, sharing, and reporting data in a different manner (if at all). This approach to data governance makes it difficult for the Department to guarantee the reliability and security of its data, which results in increased risk, and requires greater effort to utilize the Department’s data resources and comply with Oregon law/policy.

**How Achieved:**

To comply with statewide statute and policy, and implement the Department’s data-related strategic initiatives, OSP needs a *Chief Data Officer* (CDO) position. The CDO will be a fulltime position focused on establishing a data governance program, developing agencywide policies, and ensuring the Department’s data stewards are trained in best practices. In addition, the CDO position will be responsible for the deliverables outlined in ORS 276A.350-374 and Statewide Policy #107-004-050 (see the *Quantifying Results* section below for a list of the deliverables). In addition, by employing a CDO a comprehensive, unified approach to managing OSP’s data resources can be developed thereby reducing the issues associated with the current ad hoc data governance practices. By having a unified approach, the Department can begin to mature its data governance program. The benefits of a mature data governance program include better reliability and security of data resources, increased operational efficiencies, enhanced decision-making, and improved transparency of Department operations.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101091	OPERATIONS & POLICY ANALYST 4	MMN X0873 AP	1	0.88	\$243,195	1	1.00	\$277,938
	<b>Total</b>		<b>1</b>	<b>0.88</b>	<b>\$243,195</b>	<b>1</b>	<b>1.00</b>	<b>\$277,938</b>

**Quantifying Results:**

One of the core responsibilities of the CDO position is compliance with ORS 276A.350-374 and Statewide Policy #107-004-050. Specifically, the following ongoing deliverables will be a measure of the success of the CDO:

- Dataset Inventory (due March 1 of every even year).
- Open Data Plan (due June 1 of every even year).
- Data Governance Plan (due December 1 of every even year).
- Data Governance Maturity Assessment (Due December 1 of every even year).
- Data Governance Gap Analysis and Improvement Plan (Due December 1 of every even year).
- Regular participation on Oregon Data Stewards Council.

Revenue Source: General Fund.

Services & Supplies	\$15,000	\$15,000
<b>Total POP 100 (Chief Data Officer)</b>	<b>\$258,195</b>	<b>\$292,938</b>
Positions	±	±
FTE	0.88	1.00

**Component C - Regional Training Coordinators**

**Purpose:**

The purpose of this Policy Option Package is to request funding and position authority to add two (2) sworn trooper positions during the 2023-2025 biennium. This will allow the agency to dedicate two (2) additional sworn troopers to the Department’s Training Division wherein they will focus on providing enhanced training to current sworn Oregon State Police (OSP) employees around the state to ensure they are meeting not only the annual certification maintenance requirements set forth by the Department of Public Safety and Standards (DPSST), but also the additional training requirements established by the agency which align with current policies, rules, procedures, and case law.

The agencies current authorized strength for sworn positions is set at 766 FTE (as of July 1, 2022). The Training Division is comprised of only six (6) full time Training Coordinators that are responsible for producing lesson plans and curriculum updates, facilitating training, and ensuring program continuity to all sworn employees throughout the state. They are also responsible for creating lesson plans and facilitating training during initial OSP recruit training held at DPSST. This workload is a heavy burden for a small group of individuals, especially with the staffing challenges the Oregon State Police is faced with. All six (6) coordinators are currently assigned to the Salem area which often hinders their ability to travel to other worksites due to the demands placed on them during recruit training. Although the coordinators are supported by part time instructors around the state, this often causes a drain on field resources. Other than the six (6) Coordinators assigned to the Training Division, all Oregon State Police instructors have primary assignments outside of training and their participation can often lead to additional overtime costs and a requirement to backfill their shifts to ensure the Department continues to provide the same level of law enforcement services to Oregon’s communities.

**How Achieved:**

This policy option package proposes to increase OSP authorized sworn trooper strength by two (2). The positions will be filled by more tenured troopers that are already employed by OSP. The two employees who are chosen to fill these positions will create two vacancies in other areas of the department that will need to be backfilled, eventually requiring a need to hire two new recruits to avoid a negative impact to OSP’s current

staffing needs. Recruitment for these positions will be recruited following human resource and collective bargaining agreement guidelines/procedures and are projected for 24 months. Approved equipment and training purchases will follow state procurement rules.

Adding two additional FTE will allow the Training Division to assign one Regional Training Coordinator to each of our three regions (East, Southwest, and Northwest). Having a coordinator/instructor assigned to each region would relieve some of the burden placed on our current instructors and coordinators and help to ensure consistent training, messaging, and tactics are being taught using best practices and industry standards for policing. This improvement will ensure that OSP can build the progressive law enforcement leadership of tomorrow, while meeting the public safety needs of Oregon communities through fair and impartial application of the law.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of the Regional Training Coordinator Program. Services & Supplies and Capital Outlay were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
2579537	OSP TROOPER	SU U7555 AP	1	0.42	\$123,378	1	1.00	\$296,108
2579538	OSP TROOPER	SU U7555 AP	1	0.42	\$123,378	1	1.00	\$296,108
	<b>Total</b>		<b>2</b>	<b>0.84</b>	<b>\$246,756</b>	<b>2</b>	<b>2.00</b>	<b>\$592,216</b>

**Quantifying Results:**

- Reduce training-related travel per diem costs by 33%
- Reduce training-related OT costs by 10%
- Develop regional training schedules
- Reduce out-compliance rate with DPSST
- Conduct Regional In-Service each biennium

**Component D - Member Assistance Program (peer support team) – RECOMMENDED as MODIFIED in GB**

**Purpose:**

Law enforcement professionals have higher levels of stress and acute stress, greater risk of health problems, and heightened chances of exposure to dangerous situations and injury than people in other professions.<sup>1</sup> In 2013 and 2022, OSP tragically lost two of its sworn members to suicide. OSP has a Health, Wellness and Resiliency Unit currently staffed by three (3) positions serving 1400 employees. This unit is seeking to establish a member assistance program (peer support team). Peer support serves as a powerful resource for police in addressing stress management, mental health concerns, suicide prevention, and overall officer safety and wellness.<sup>2</sup> The long-term goal for the member assistance program is to have around one (1) trained peer to every ten (10) employees. This would be approximately 140 members of the agency who would have an additional role to their current duties.

For this team to be truly successful, a dedicated team of staff members who are fully assigned, concentrating on peer support and supporting the 140-member team is needed. The goal of employee wellness is a part of OSP’s “5-Year Strategic Roadmap” and also is identified in “The Presidents Task Force on 21<sup>st</sup> Century Policing” published in 2015.

The benchmark for OSP’s peer team will be to have 80 new peers assigned and properly trained by August 2024, with a long-term goal of having a team of 140 members. All peer support members who have received training will have peer confidentiality under Oregon Revised Statue (ORS) 181A.835.

<sup>1</sup> Health Disparities in Police Officers: Comparison to the U.S. General Population – International Journal Emergency Mental Health (2011)

<sup>2</sup> Peer Support: Does it Work? The Efficacy of Law Enforcement Peer Support. Digliani, Jack (2018)

**How Achieved:**

The FTE’s requested through this policy package will be recruited following human resource direction and any applicable collective bargaining agreements. Sworn positions will have a projected start date of October 1, 2023. New non-sworn positions will have a projected start date of November 1, 2023. Approved equipment and training purchases will follow state procurement rules.

**Staffing Impact:**

FTE	<b>3.50</b>	<b>6.00</b>

**Component E - Human Resources Staffing**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding and position authority to support agency-wide risk management including the development of policies, human resources operations, employee compensation, and benefits management, leave administration, safety and resiliency programs, employee engagement and career development, Recruit Trooper hiring administration, succession planning, and inclusion administration. These programs affect the Agency’s ability to attract, retain, and develop the workforce for today’s standards in law enforcement and for future continuity. Requests Include:

A. **Recruiting Team** – request position authority and General Fund (GF) to support four (5) positions that will reside within the agency’s Human Resources Department, focusing on developing and executing recruiting plans, monitoring goals for recruiting a diverse workforce,

handling the administration of a recruitment process, developing a pool of highly qualified candidates, screening applicants to evaluate if they meet the position requirements and research and recommend new sources for active and passive candidate recruiting to achieve affirmative action goals.

- B. **General Operations Team** – request position authority and General Fund (GF) to support three (3) positions that will reside within the agency’s Human Resources Department, focusing on advising supervisors to manage employee relations and evaluate performance concerns, developing employee policies, and identifying areas of improvement, organizing and implementing programs to train new employees, educate staff about new processes and teach employees about occupational safety and welfare, administering employee wages and benefits, and executing agency-wide initiatives or mandates through events and other forms of communication to achieve desirable outcomes.
- C. **Complex Leave Team** – request position authority and General Fund (GF) to support one (1) position that will reside within the agency’s Human Resources Department, serving as a subject matter expert for the protective leave laws and worker’s compensation programs in alignment and under the general direction of the state-wide and agency-wide policies and procedures to include any provisions in the collective bargaining agreements.
- D. **Workday HRIS Team** – request position authority and General Fund (GF) to support one (1) position that will reside within the agency’s Human Resources Department, focusing on providing HRIS system support for complicated transactions at the agency level, overseeing daily transactions entered into the system for conformity within state-wide and agency-wide policies to include the applicable collective bargaining agreements, collecting necessary data for EEO-1 reporting, generating ad-hoc reports for reports on agency turnover, hiring costs, and evaluate affirmative action goals, advising on system use, and providing on-going training of the HRIS system for agency staff.
- E. **Safety Specialist Team** – request position authority and General Fund (GF) to support one (1) position that will reside with the agency’s Human Resources Department, focusing on providing inspections of the forensic labs across the state for adherence to safety standards in support of lab accreditation and other regulations to include evaluating and recommending revisions of laboratory safety protocols.

Over the last two years with the events that have taken place, the agency understands the importance of earning and retaining the trust of the communities we serve. The agency is committed to continuing to build a workforce more representative and inclusive of all communities that we serve. OSP wants to have a workforce that reflects our demographics in this state, and this is an initiative that requires a concerted effort to improve our recruitment efforts. In evaluating our current resources for recruiting a diverse workforce within Human Resources Department along with the agency’s vacancies, the agency presently has 199 vacancies and three limited duration FTE for recruiting. Those three FTE are responsible for managing all Agency-wide recruitments. The current recruitment workload per month for each of the three limited duration FTE is 35-40 recruitments. In comparison to the statewide enterprise, the approximate average for a recruiter is 15-20 recruitments. OSP is currently double the volume per recruiter and is collectively trending towards having to manage more than 290 recruitments for the calendar year of 2022. The volume of vacancies and number of FTE does not adequately allow for proactive community outreach with other organizations or participation in job fairs affiliated with diversifying a candidate pool with talent, backgrounds, and more inclusive representations of the vast communities we serve in Oregon to achieve a multi-cultural workforce. The additional staffing requested in this policy option package will allow the agency to proactively participate in community outreach programs to seek diverse candidate pools. In hearing the calls from the Oregon communities, we serve to invest in our workforce to deliver cultural change, this request to fund and have the position authority for our recruiting team will provide the public assurances that OSP is committed to moving forward with a multi-cultural and diverse workforce.

As OSP continues to hire and serve communities within Oregon with a full range of law enforcement services, our Human Resources Department will need the required staff to keep pace with the additional Troopers and professionals to provide these services. To support our request for general

funds and position authority, OSP did an analysis of our Human Resources Department in comparison to similar tier-three agencies. The analysis included calculating a ratio of Agency FTE divided by Agency Human Resources (HR) FTE to indicate how many individuals an HR FTE supports for each of the similar tier-three agencies. A lower ratio indicates fewer agency FTE to HR FTE and a higher ratio means more agency FTE to an HR FTE. In our analysis of the similar tier-three agencies which is a total of nine agencies, seven agencies have a lower ratio than OSP with no additional positions and with our request, the analysis indicates six agencies would be lower than OSP. In order to risk mitigate, uphold accountability, advise supervisors and employees of policies or collective bargaining agreements, evaluate performance concerns, develop or revise policies, identify areas of improvement, organize and implement programs to train new employees, educate or continue training on a variety of areas or topics, enhance occupational safety programs to support a resilience workforce, administer employee wages and benefits, and execute agency-wide initiatives or mandates through events and other forms of communication to achieve desirable outcomes the request for additional funding and position authority will be required to keep pace with the growing agency so our Troopers and professional staff can serve our communities in Oregon.

The State of Oregon and its citizens heavily rely on the Oregon State Police to keep their communities safe. The continued expectation for police accountability, officer safety, mental health, wellness, and resiliency comes with the continued expectation of Human Resources supports each member of the agency and to do that the current position ask is what is needed to achieve the citizen’s expectations.

**How Achieved:**

The FTE requested through this policy package will be recruited following human resource and collective bargaining agreement guidelines/procedures. The FTE positions will have a projected start date of July 1, 2023, as these positions are currently filled by incumbents in a limited duration status.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each area of the Human Resources Department. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27

Positions	11	11
FTE	11.00	11.00

**Component F - Payroll Staffing**

**Purpose:**

The purpose of this request is to request funding to support agency-wide payroll services. This impacts every individual that works for Oregon State Police. These positions will assist in the continuance of credibility, transparency, and customer service to existing and new employees. This program tracks and monitors all funds going out of the agency through payroll processes approx. \$15 million per month, maintains health benefits, coordinates resources for employees, works closely with multiple collective bargaining agreements, monitors and adjusts retirement contributions, and works towards collaborative training on policy and procedure with employees and management for payroll policies and practices.

Payroll Analyst- requests position authority and General Fund (GF) to support two (2) positions that will reside in the Payroll Unit located under Agency Services Team. These positions will provide accurate and timely processing, entry, and tracking of all payroll functions. This includes

garnishments, payroll deductions, retirement benefits, health benefits, and recuperation of agency funds. These positions regularly interact and counsel employees and managers on the application of the labor relation agreements, FLSA laws, scheduling, system oversight, Oregon State Police policy, and procedure, as well as Department of Administrative Services policy and procedures. These positions regularly interact with multiple internal and external stakeholders. The addition of these positions will support the compensation work with the Agency Services department and ensure that all compensation is correct for employees.

Over the last two years, OSP employees have been called upon as essential employees during a pandemic, wildfires with tremendous property damage and loss, as well as social pressures leading to riots and increasing crime. Through all of this, OSP realizes the one area we can control and is most important, is accurate and timely pay for OSP employees that serve the people of the State of Oregon. The OSP Payroll Unit has experienced challenges with retaining staff in our payroll unit. The primary factors to maintaining highly skilled payroll analysts are due to lower wages within government service and the high volume of manual timecard entry compounded with complex collective bargaining language for premium pay for our law enforcement staff, dispatchers, and for the forensic scientist. As OSP has experienced this challenge with maintaining payroll analysts, the state-wide enterprise has also experienced similar challenges with retention. In the recent biennium, the state-wide enterprise has taken measures to address the compensation for payroll analysts. The positions have been recently reclassified into a higher compensation grade which illustrates the necessary technical skills required for the position, acknowledging the increasing responsibilities of a payroll analyst, and the complexity of calculating and managing benefits under state-wide policies and the collective bargaining agreements.

In addition to the efforts to retain payroll analysts across the enterprise, OSP has the additional challenge of maintaining the current workload. OSP manually enters 800 timecards and with collective bargaining agreement revisions for salary adjustments spread across the biennium as a strategy for low-cost implementation, the payroll unit is constantly reconciling wages, back paying for the new salary implementation, adjusting other payroll liabilities, and working well over 40 hours per week to achieve this as a result. Between December 1, 2021, through March 31, 2022, over 1,200 corrections were made for salary implementation or pay equity adjustments. Unlike other state agencies, OSP has not been able to transition to report-based payroll or have specific roles and positions for timekeepers. This is primarily due to the complexity of the collective bargaining agreements with special payroll coding and/or also being 24/7 operations.

In December 2022 the State of Oregon will transition to a new payroll system. Current technology used for payroll applications is outdated and has not been updated since 1986. Payroll Analysts are currently relied upon to monitor the interface between multiple cloud-based systems and a current AS400 system. While the new payroll system will be cloud-based and remove the need for the monitoring of the integration between Workday and OSP, - there will continue to be integration monitoring through PERs and PEBB systems that are not moving to a Workday based application. Due to these application changes, these positions will continuously work on report-based payroll with a shorter deadline timeframe than we currently have.

The granting of the request for funding and position authority will support stability and business continuity across the agency. Additionally, the increase in staff will continue to provide accurate payroll process, transparency, and good financial stewardship of public funds, meet payroll timelines to compensate our workforce and manage benefits to provide the care and support for the dangerous jobs our Troopers and professionals so they continue to serve their communities in their vast public safety services for Oregon.

**How Achieved:**

The FTE requested through this policy package will be recruited following human resource and collective bargaining agreement guidelines/procedures. The FTE positions will have a projected start date of July 1, 2023, as these positions are currently filled by incumbents in a limited duration status.

**Staffing Impact:**

Positions	2	2
FTE	2.00	2.00

**Component G - Funding for CAD, RMS, and Report Beam systems support****Purpose:**

There are three separate systems identified as OSP's core operational policing systems which support the agency's mission. They are the Computer Aided Dispatch and Mobile First Responder (CAD/MFR), known commonly as CAD; the e-Citation and e-Crash software, known commonly as ReportBeam; and the Records Management System (RMS) and Mobile RMS, known commonly as Niche.

The agency is actively working with Enterprise Information Services-Project Portfolio Performance (EIS-P3) and Department of Administrative Services (DAS) procurement to modernize and ensure continuing support and maintenance services for these systems. EIS-P3 and OSP agreed that these systems would be modernized in phases, first the CAD, then RMS and then e-Citation/e-Crash.

Although initially there was some small grants from ODOT and an agency cash balance used to begin the implementation of these systems, the agency has paid for most of these costs through budget/vacancy savings, which is not sustainable.

This POP outlines the costs associated with modernization and/or continued support and maintenance services for these critical systems.

**CAD** – OSP submitted a POP and business case for the CAD modernization project last biennium (2021-2023). The Business case was approved by EIS-P3, but the POP was not funded. OSP leadership committed to paying for the implementation costs with vacancy savings but would look to another POP (this one for the 2023-2025 biennium) for the ongoing support and maintenance costs for CAD.

Annual support and maintenance cost estimates: \$500,000 per year / \$1,000,000 per biennium.

**RMS** – OSP currently uses Niche RMS and is happy with the vendor and the system. The current contract provides regular modernization and upgrades and full support and maintenance services. The current contract is going to expire in 2023 and OSP is going to engage DAS procurement to extend the contract while other modernization efforts can be planned.

Current annual support and maintenance costs: \$313,000 per year / \$626,000 per biennium.

**eCitation/eCrash** - OSP pays annual services costs for Report Beam. OSP is happy with the current product but the vendor is moving to a new platform. OSP will evaluate the options to modernize this system in conjunction with the RMS modernization planning. Currently the contract is valid until 06/23/2023, with an option to renew.

Current annual support and maintenance cost estimate: \$58,000 per year / \$116,000 per biennium.

**How Achieved:**

Dedicated funding for these core critical systems ensures that the agency can meet our core mission now and as we modernize these systems for future use and support. It also enables the agency to fill positions that have previously been held vacant in order to implement and sustain these systems.

**Staffing Impact:**

This policy option package does not require staffing.

**Quantifying Results:**

Having dedicated funding will allow agency positions that have been held vacant to be filled. Filling sworn vacancies allows the agency to have more resources dedicated to the agency’s core mission.

**Revenue Source:** General Fund.

**Total Funding Request Summary:**

**Oregon State Police - Agency-wide  
Policy Option Package (POP): 101**

**POP Title: IT Lifecycle Replacement & Support  
Total Request: \$3,971,000 General Funds**

**RECOMMENDED as MODIFIED in GB**

This Policy Option Package (POP) requests funds to replace aging, failing and antiquated equipment and vehicles. This need is occurring as a result of expired warranties, advancement in technology and high vehicle mileage. The components to this Policy Option Package are segregated into the following six components.

- A.* Patrol Services Division Vehicle Replacements – Not Recommended
- B.* All Sworn Taser Replacements – **Recommended in GB**
- C.* All Sworn Ballistic Vest Replacement – **Recommended in GB**
- D.* Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – **Recommended in GB**
- E.* Northern and Southern Communication Center Furniture Replacement – Not Recommended
- F.* Critical IT Support-3 staff and Coban Storage, Evidence Management-3 staff – Not Recommended

**Component A – Patrol Services Division Vehicle Replacements**

**Purpose:**

Each Division accomplishes a 1:1 vehicle/trooper ratio through both “new” and “replacement” vehicle builds. A “new” vehicle build is exactly as it sounds, the car/truck/SUV is brand new as is the specialized police equipment that is installed within the car by Department fleet personnel. These vehicles represent the most expensive build for each division. New builds are most commonly associated with the hiring of new recruits (mainly applies to Patrol Division), the filling of long-term vacancies, new authorized positions, or replacement of a totaled vehicle resulting from an on-duty incident. The second type of build is termed “replacement” and, as the name suggests, this build is for vehicles that have reached their end of lifecycle. The key difference between a “replacement” and a “new” build is that the bulk of the specialized police equipment in the “replacement” build is transferred over from the vehicle that reached the end of its lifecycle. A “replacement” build is approximately two-thirds the cost of a “new” build.

The positive outcomes that resonate across each division for a 1:1 vehicle/trooper ratio include:

- A reduction in response times and highway closure times.
- Less time will be spent by troopers on patrol preparation and termination at the end of their shifts moving equipment in and out of vehicles.
- Troopers will not have to wait for other troopers to return to the office before they can go out on patrol.
- The agency will be able to field more troopers during large scale events.
- Each trooper will be equipped with a mobile platform (mobile office) and less time will be spent in the offices.

- An increase in field time of troopers will serve as a visible deterrent to crime and other hazardous driving behavior that can lead to vehicle crashes.
- Trooper safety is improved because they are more familiar with their assigned vehicle, how it handles, and where critical equipment is located.

In addition, each Division has unique characteristics that justify the funding request:

- **Patrol Division** - Patrol Division contains the largest number of sworn officers in the Department, with 478 authorized positions. When troopers share marked patrol vehicles those vehicles are kept at the patrol offices and are not available for troopers to take home when off duty. Patrol Division does not currently schedule 24 hour/7 days a week patrol coverage at any field office due to staffing levels, so if a call for service comes in when no trooper is scheduled to work, and they do not have a take home car, the trooper must first respond to the office to retrieve a vehicle. This adds significant response time when life safety and highway closure issues are associated with the incident.

#### How Achieved:

**Patrol Division-** Current Patrol Division authorized sworn staffing is 478, with 63 positions presently vacant. In anticipation of hiring to fill to authorized strength, we will need to purchase a minimum of 74 cars for “new” builds. Patrol Division vehicles include both Dodge Chargers and Chevrolet Tahoes. Tahoes are used by Division specialty units such as SWAT, Crash Reconstruction, and K-9. These units require the larger platform due to the amount and type of equipment they carry. A “new” Tahoe build is roughly \$15,000 more than a Charger build due to the higher base cost of the Tahoe and the specialty equipment that is part of the build. This specialty equipment may include a bed slider to ease access to equipment, lock boxes, and accommodations for a K-9. For 2023-25, Patrol Division will have 94 Chargers and 33 Tahoes lifecycle out and require a “replacement” build. The Division orders vehicles on a quarterly basis unless the manufacturer or other circumstances dictate otherwise.

#### Staffing Impact:

This Patrol portion of the policy package does not request new positions; however, if it is not approved it will likely result in holding trooper positions vacant in order to maintain enough funds to purchase required vehicles.

#### Quantifying Results:

This request links to the following Division KPMs:

- Patrol: KPM #1 – reduce fatal crashes on state and interstate highways where OSP has primary responsibility.
- Patrol: KPM #2 – clear 80% of lane blocking crashes within 90 minutes or less.
- Patrol: KPM #3 – increase the detection and apprehension of persons engaged in criminal activity on Oregon’s transportation system.

Each of these KPMs will benefit from maintaining a 1:1 vehicle/trooper ratio.

#### Revenue Source: General Fund

Patrol –94 Charger replacement builds; 33 Tahoe replacement; 74 new Charger builds

**Total Funding Request Summary:**

	2021-23	2023-25
Expenditure Category	GF	GF
Capital Outlay	\$3,066,360	\$0
<b>Total POP 101 Component A</b>	<b>\$3,066,360</b>	<b>\$0</b>

**Component B – All Sworn Taser Replacement - Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current Taser inventory deployed by all sworn divisions within the Department. Taser is discontinuing the sales of the X2, which is the current model in-service for the Department. It will no longer be available for purchase after 12/31/2022.

**How Achieved:**

Tasers are a critical piece of Law Enforcement equipment that provide Troopers with a force option that reduces injuries to suspects and OSP employees. The Department currently purchases and deploys the X2 conducted energy devices with sworn members in all divisions of the organization. The X2, and all Taser devices have a 5-year recommended service life. After the expiration of the service life, Taser will no longer certify, repair or offer expert testimony in relation the operation of the device in a legal proceeding.

Due to the manner in which the Department has purchased Taser devices in the past, the Department has Tasers with 2 years of deployment, 1 year of deployment, and 500 in need of replacement in 2022. The TAP program Taser previously extended to OSP is no longer available, and the new Taser 7 model is sold to departments through a subscription-based service/program.

The department is presented with two options for replacement of the current Taser inventory:

1. Purchase sufficient Taser X2 units to delay the purchase of the X7 until 2025. This would require the purchase of 500 X2 handles at a total cost of \$1,439,700. Due to the X2 being discontinued for purchase in 2023, the department would need to fund this purchase before December 2022. In three years, when the X2 units that have been in service for two years are at the end of their prescribed service life, the department will need to replace them with the X7 or another model not yet released.
2. Transition from the X2 platform to the X7 today. Currently the department is spending \$270,000 annually for Taser’s and related parts and equipment. Axon (Taser parent company) sales representatives met with OSP and supplied a quote for the cost to completely transition to the new X7 platform under the new subscription-based service. The quote included credits for the X2 units with 3 and 4 years of remaining service life. Under the new service model, the annual cost for 825 X7 handles, 960 rechargeable batteries, holsters,

cartridges, docking stations and other materials is \$512, 934. OSP would need another \$242,000 added to the base budget to fund Taser X7 deployment for all staff.

Option 1 is the least viable option as there is not an unencumbered \$1.4 million to use to purchase Tasers. Option 1 would also only delay the transition for 3 years when the next generation of X2 Tasers reach the end of their service life. According to Axon representatives, transition to the X7 today would make the X7 the platform for OSP for 10 years. A transition in three years might result in another forced transition in as few as 5 years. The Department needs to request a Policy Option Package to increase the base general fund budget by \$484,000 per biennium to implement a transition to the Taser X7 in the 23-25 biennium.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

Troopers, like all LE Officers are called to and discover incidents involving violence towards others, violence toward others, individuals suffering extreme emotional disturbance, or who under the influence of an intoxicating substance. When de-escalation tactics are unsuccessful, and specific individuals present the imminent threat of causing injury to themselves, or others, and possess the means an opportunity to do so, LE officers must respond with some level of force in the protection of themselves or others. Tasers provide a force option less likely to cause significant physical injury to the officer or recipient of the force response than many of the other force options available. Studies have shown 99.75% of Taser deployments result in no significant injury to the recipient. A 5-year DOJ study showed that the likelihood of injury suspect dropped 60% when a Taser was used when compared to other force options. PERF studies have also shown a 76% reduction in injuries to LE officers, reducing time loss and worker compensation claims. Taser devices are an essential piece of equipment required for Troopers to perform their assigned duties safely and effectively.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all division.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and Supplies	\$484,000	\$484,000
<b>Total POP 101 Component B</b>	<b>\$484,000</b>	<b>\$484,000</b>

**Component C – All Sworn Ballistic Vest Replacement – Recommended in GB**

**Purpose:**

The purpose of this policy option package (POP) is to request funds to update and replace the current body armor and ballistic rifle plates currently in use by the department.

**How Achieved:**

The current ballistic rifle plate system consists of two plates (front and back) in a nylon vest style carrier. The combination plates and carrier weighs about 12 pounds. When used in conjunction with the outer vest carrier, covers essential communication and other tools in situations where access to communication and other tools is critical. It also covers the body worn cameras deployed by uniformed staff whether the user is wearing a conventional Trooper uniform or wearing an external vest carrier. Current ballistic rifle plates are also one size fits all, making them oversized for some wearers.

The current ballistic rifle plates were initially purchased in 2015, and many have exceeded the manufactures warranty period so it is time for the department to begin replacing this equipment. Soft body armor and ballistic rifle plate technology has seen significant advancement. Current ballistic rifle plates weigh less than half the current model (2 pounds or less), are specifically fitted to the individual to include specific fit for women. The plates also come in a package which allows access to all law enforcement tools, communication equipment and body worn cameras. The soft armor panels are also significantly lighter, more flexible, with increased ballistic protection for the wearer.

Updating ballistic rifle plate/soft armor units would require the purchase of 766 units in biennium 2023-25. Looking at a five-year average for vests purchased for new employees the department anticipates purchasing 100 more rifle/plate soft armor packages in biennium 2025-27.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

By purchasing the updated technology in ballistic rifle plates and soft body armor, Troopers will receive an integrated package that will be fit to them and afford them increased ballistic protection while maintaining access to all law enforcement equipment. The reduction of weight, and increase in flexibility, will have significant impacts to Trooper health and wellness, reducing SAIF claims and time loss due to injury.

**Revenue Source:**

The additional funds would need to be added to the base department general fund for devices supplied to sworn staff in all divisions.

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,934,500	\$242,440
<b>Total POP 101 Component C</b>	<b>\$1,934,500</b>	<b>\$242,440</b>

**Component D – Lifecycle Replacement Agency-wide Mobile Data Terminal (MDT) and Computer Replacement – Recommended in GB**

**Purpose:**

**Lifecycle Replacement of OSP Workstations** – request General Fund (GF) to fund the ongoing replacement of old OSP workstations that are at end of warranty and/or out of support. This request would centralize the Lifecycle Replacement (LCR) of OSP Computers and establish it in the ongoing operational funding for the agency. In doing so OSP would be able to replace computers by OSP’s Lifecycle Replacement Schedule.

This is important and would solve the following issues:

- Avoid deferring LCR due to lack of funds / planning for LCR in the OSP business units and avoid a large amount of additional work by allowing LCR work to pile up to the point that the majority of the agency’s computers need replacing in the same year.
- Mitigate the significant security risk incurred by out of support / out of warranty workstations by replacing legacy computers that don’t receive security updates from the manufacture or operating system software.
- Reduce troubleshooting and maintenance time by purchasing a standard model rather than increasing workload and staff efficiency by attempting to support 160 different models of computers.

**How Achieved:**

**Lifecycle Replacement of OSP Workstations** – Building a lifecycle replacement cost into the General Fund budget is critical in ensuring the timely replacement of out of warranty and out of support workstations at OSP.

Going to a six-year Lifecycle Replacement establishes a standardized equipment for improved performance and lowered maintenance across all OSP owned computers. This will ensure that OSP staff will have access to modern computing platforms to support the mission of the Oregon State Police. This will also ensure that device failure is kept at a low rate, and device security and integrity can be maintained at an acceptable level. For example, Windows 11 has minimum hardware requirements, and version levels of CPU capability. Older models reaching the end of their lifecycle will not be able to be upgraded to the latest OS.

This will be accomplished by:

- Centralizing the lifecycle replacement with larger computer purchases of the same model types, e.g., standard laptop, MDT, with a minimum replacement percent completed every year.
- Maintaining computers that will still receive updates from manufacture and operating system software.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

**Lifecycle Replacement of OSP Workstations**

- Reduction in the number of out of warranty / out of support workstations (desktops, laptops and MDTs) at OSP.
- Reduction in the break/fix and replacement Service Desk tickets for of out of warranty / out of support workstations.
- Removal of a 4-to-5-year cycle of replacing a majority of the agency’s workstations all in one year (addressing the IT implementation logistics and financial cost overruns)

**Revenue Source:** General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services & Supplies	\$1,552,500	\$1,552,500
<b>Total POP 101 Component D</b>	<b>\$1,552,500</b>	<b>\$1,552,500</b>
<b>Positions</b>		
<b>FTE</b>		

**Component E – Northern and Southern Communication Center Furniture Replacement**

**Purpose:**

The dispatch console furniture in use today by OSP’s public safety dispatch centers; Northern Command Center (NCC) located in Salem & OSP’s Southern Command Center (SCC) located in Central Point is approximately 10 years old and needs to be replaced with more modern and flexible furniture capable of adapting to future needs. Modern dispatch furniture offers more ergonomic options and equipment positioning advantages not available in NCC & SCC’s current furniture configuration.

Further, the current furniture is in disrepair and out of warranty, which means OSP can’t acquire serviceable parts. This has led to the NCC & SCC’s leadership team attempting to troubleshoot and resolve furniture configuration issues on their own and at their own expense.

For these reasons, OSP’s NCC & SCC requests budgetary support and approval for the replacement of 34 dispatch consoles to support the dispatch center and its staff.

Basic market analysis of products offered by one established dispatch console vendor indicates that costs of updated furniture range from \$13,000 - \$18,000 per console.

The NCC currently operates 16 dispatch consoles and 2 supervisor consoles throughout the day. 2 additional consoles would be helpful in training/testing new and prospective employees and supporting dispatch operations.

Total estimated cost for NCC is \$360,000.

The SCC currently operates 10 dispatch consoles and 1 supervisor console throughout the day. SCC is currently part of the Central Point remodel, but it is believed that the consoles are not part of the remodel. It is expected that the remodel plans will allow for an additional 2 – 3 consoles added to the SCC footprint. This will bring the total number of dispatch consoles to 14 for the dispatch and supervisor staff.

Total estimated cost is \$252,000.

The total estimated cost for 34 consoles between NCC & SCC is \$612,000.

**How Achieved:**

NCC has already worked with OSP Procurement to receive a vendor quote for costs. SCC will follow the same process once the Central Point Facility construction project has finalized the layout of the remodeled SCC work area. OSP will then engage the vendor to install the updated workstations in each center.

**Staffing Impact:**

There are no staffing impacts associated with this component of the Policy Option Package.

**Quantifying Results:**

NCC and SCC staff will have modern, ergonomically correct and adjustable workstations that are serviceable and supported. This is critical in a 24/7/365 environment where employees often work long hours. Some of the advantages of dispatch specific furniture are:

- Ergonomics, comfort, and movement – Dispatchers sit tethered to a desk by their headset cords for long hours. The ability to ergonomically adjust their workstations throughout the day whether they are standing or sitting adds to their comfort, job satisfaction, and reduces the risk of injury.
- Cable management – This is an often-overlooked point of failure for mission critical systems. With adjustability comes repetitive stress failures for the cables which can then result in a critical system being out of service. Dispatch specific furniture is designed to be utilized 24 hours a day and the cable management is designed to minimize these failure points.

- Warranty – Typical office furniture is built to accommodate 40 hours a week. Dispatch specific workstations are built from the ground up to be used 24 hours a day and withstand over 4 times more wear and tear than regular office furniture. Dispatch furniture typically comes with a 10 or more-year warranty that ensures that the furniture continues functioning as needed for its life cycle.

Revenue Source: General Fund

**Total Funding Request Summary:**

	2023-25	2025-27
Expenditure Category	GF	GF
Services and supplies	\$612,000	0
<b>Total POP 101 Component E</b>	<b>\$612,000</b>	<b>0</b>

**Component F – Critical IT Support-3 staff and Coban Storage, Evidence Management-3 Staff**

**Purpose:**

The purpose of this Policy Option Package (POP) is to request funding to fill a gap in funding for critical IT support and staffing needs for the 23-25 Biennium and beyond. We are seeking to permanently fund six (6) positions to support recent technology and IS deployments; a COBAN Video Support Technician (ISS 6), a Facilities Video Support Technician (ISS 6), a LEADS Systems Analyst (ISS 8) and three Evidence Technicians (AS2s). In addition, we are seeking to permanently fund the operational storage needs of our COBAN body worn and in car video. The details of this request are,

- In Car Video (ICV) and Body Worn Camera (BWC) Support & Storage (COBAN)*** – to request General Fund (GF) to fund an ISS-6 position in IT Service Desk to support the ICV and BWC now deployed in the field and to fund the ongoing Cloud storage costs for the video being generated from the deployed ICV and BWC. The COBAN In Car Video system was originally rolled out in 2019, with the subsequent roll out of Body Worn cameras in 2021. As of May 2022, there are now 700 ICV systems and 630 BWCs in operation generating roughly 110 Terabytes (TB) or 87,000 hours of video every year, with a total archive storage now in excess of 300 TBs. The Service Desk receive 110 support calls for COBAN related issues each month, mostly related to image retrieval (software) but also hardware and installation related break/fix work.

This huge growth in the program over the past 2 years, coupled with the fact the vendor, SafeFleet, does not provide Tier 1 – 2 support, means that many support needs are going unmet. After the departure of the last limited-duration COBAN support position, Service Desk tickets for Coban had piled up and were not being addressed. This support of the OSP In Car and Body Cameras is a critical need as the sworn staff and troopers depend on them every day to carry out their duties in support of the agency’s mission. A Service Desk Tier 2 senior technical analyst will be able to support and primarily focus on the daily COBAN video operations and

sustainment, as well as provide better training and support to the rest of the Service Desk staff to improve ticket resolution times, and work with the SafeFleet support on Tier 3 issue escalations.

3. **Facilities (External and Internal) Video Camera Support** – to request General Fund (GF) to fund an ISS-6 position in IT Infrastructure to support the facilities video systems now deployed at four (4) OSP sites, and also to deploy additional standardized video systems to the remaining OSP sites. In addition, this position will coordinate the deployment of video systems for internal needs such as evidence rooms and interview rooms. This position can also provide technical support for various cameras and equipment used by criminal and F&W investigations, and coordinate with the OSP IT Telcom coordinator where wireless connectivity is required.

This position is needed to support the following video needs of OSP stakeholders,

1. OSP Facilities – exterior and interior cameras needed as detailed in CBA (Collative Bargaining Agreement) and for officer and staff safety and security.
2. Crime LABS – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP.
3. Evidence Rooms – to ensure the integrity of the chain of evidence at all Evidence Rooms across OSP sites.
4. Interview Rooms – to provide evidence in interviews and to ensure the safety and security for Troopers and Interviewees.
5. Criminal Division – these cameras have a wide range, between undercover cameras to joint cameras available across agencies.
6. Fish and Wildlife – these cameras have a wide range, between movable trail cameras to fixed cameras to provide evidence on poachers and other investigations.

[Problem] OSP’s use of video technology has grown significantly, and OSP IT does not have the resources or expertise to addresses these needs now, and in the future. The OSP administrative and sworn staff depend on these video systems every day to avoid risky situations and life-safety events, to capture and protect the integrity of evidence, and to carry out their duties in support of the agency’s mission. It is simply no longer acceptable to have a need for the video evidence at an OSP site or evidence storage location, and not be able to provide the video because there in no plan to install and maintain these systems. Much of the specific work (installing cameras, pulling cables) can be outsourced. However, this misses the coordination needs between the different contractors, as well as ensuring that the Infrastructure needed to support the video system, as well as ensuring standard, professional grade hardware is specified and used. In addition, the increasing video storage costs need to be budgeted now that the ICV and BWC systems have been deployed.

4. **LEDS 2020 Information System Support** – request General Fund (GF) to fund an ISS-8 Position in IT Infrastructure to support the LEDS 20/20 system on an ongoing basis. The LEDS 20/20 project is a multi-year IT modernization project. LEDS 20/20 supports law enforcement throughout Oregon, with connections to all other states, NCIC, and Interpol. It stores criminal history and records of stolen articles. It is an important, mission critical tool to support both officer and public safety.

Whilst the LEDS 20/20 system is developed and supported by the vendor, DCI, there is a complex support system in place between the vendor, DCS, Nlets and the local Law Enforcement Agencies.

1. When the LEDS 20/20 Project started out, the decision was made to host the system at the State Data Center (now Data Center Services). Since DSC works only with State Agencies, OSP IT must act as the intermediary on all project changes and service

change needs. In addition, OSP IT must respond first to any LEDS 20/20 system outage or impact, and then facilitate engagement of any vendors and third parties in the Incident Response process, and subsequent solution development and applying fixes to the LEDS 20/20 infrastructure.

2. DCI also doesn't interact with any local Law Enforcement agencies (LEDS customers). This has to be done by the LEDS Help Desk and when there are technical challenges, e.g., coordinate secure VPN connections, this must be facilitated by OSP IT.
3. Most recently in Phase 5 of the LEDS Project involving implementation of a Disaster Recovery (DR) solution, the decision was made to host DR site at Nlets in their Arizona facility. This resulted in the need for OSP IT to facilitate between the three parties DCI, DCS, and Nlets around DR implementation, and once in Operations and Sustainment, OSP IT will take the lead in coordinating changes to the DR environment (as changes are made to the Production environment at DCS). In addition, OSP IT will have to apply any patches and changes to the DR infrastructure to keep it in sync with changes to Production.

An ISS-8 for LEDS will be able to provide the coordination IT work and issues between OSP IT and CJIS Division, DCI and the other LEDS system partners, DCS, CSS, Nlets. This will continue beyond the end of the LEDS 20/20 project into the Operations and Sustainment period.

5. **COBAN Video Evidence File Management** – We are seeking to permanently fund three (3) COBAN File Evidence Technicians (AS2s). COBAN video files generated and stored in the Cloud are stored at intervals consistent with their file type and case it is associated with. These files must be reviewed for cases in which the file must be move off of the COBAN Cloud and onto a long-term storage medium. This work is most appropriately accomplished by Evidence Technicians (AS2s) who are familiar with chain of evidence protocols and evidence retention periods.

#### How Achieved:

- A. **In Car Video and Body Worn Camera Support (COBAN)** – This support will be achieved by permanently funding an ISS 6 position as a COBAN Video Support Technician (Service Desk.), and permanently funding the ongoing video storage costs (COBAN Cloud storage.) This position will be critical in monitoring and driving the video data upload/download processes and data flow across the infrastructure architecture, the installation, and operations practices, along with full end-to-end set up and support understanding, and would assist in the creation and maintenance of all the COBAN technical support and user documentation. This would allow the current Service Desk staff to better assist with COBAN customer support with a full understanding and on-site expertise available to help them gain additional knowledge of this new technology.

This position's main duties would be to,

- Support all aspects of the day-to-day COBAN use
- Assist with the new vehicle deployment
- Coordinate change management for upgrades.
- Provide troubleshooting, training, and develop and share operations expectations and best practices to all OSP IT staff
- Study in-depth the IT support model for problems and questions and recommend improvements with input from all stakeholders.
- Create/update/resolve tickets for COBAN service request and calls, as well as coordinate unresolved tickets with Tier 3 support

- If unable to resolve the issue, escalate or route calls for peer review, or engage with Vendor support.

This work cannot be outsourced due to the complex nature of the interoperability and function of the COBAN devices and server communication on the State's Network (Wide-area network). This position needs to coordinate with SafeFleet and all the partners involved in installing the equipment into the vehicles (Fleet), supporting the COBAN infrastructure at all the OSP facilities (DSC and Facilities contractors) as well as coordinating the break/fix and lifecycle replacement of COBAN equipment. This work has been done on an interim basis by the Service Desk manager and project manager. But this is not a long-term solution for creating a robust and supportable COBAN environment.

The ongoing video storage costs have been estimated at \$406,620 per year or \$813,240 per biennium based on current usage and projected growth. The costs also take into account the video retention schedules that have been determined and put into policy. Different types of video have different schedules based was incidents and cases the video is associated with.

- 7 months for "Default" tagged files
- 18 months for "Violation" tagged files
- 5 years for "Criminal" tagged files

**B. Facilities Exterior and Interior Video Camera Support** – This support will be achieved by permanently funding an ISS 6 position as a Facilities Video Support Technician (Infrastructure.) This position will be critical in overseeing, administering, and planning the OSP video systems, which include a complex statewide and cloud infrastructure for video appliances and systems at statewide office sites, in addition to other OSP video technology and needs.

The duties for this position include,

- Responsible for the performance, availability, and security for OSP's video systems.
- Provide CCTV Video Tier 3 support.
- On-going CCTV Video systems training including End User and IT Staff.
- Advise on purchase of new video technology on existing approved price agreement/contracts or solicits through a proposal-based purchase.
- Manage and create implementation plans for new video system deployments and work with multiple video and facility vendors, agency partners, and multiple OSP divisions.
- Ensure that eDiscovery requirements for video systems are met.
- CCTV Video reporting and analytics for retention validation.
- Assist with Critical incident lock-down.
- Evaluates impacts/risks to ensure timely implementation of system upgrades and/or security requirements.
- Plan and design for future video systems and OSP needs.
- Analyze and optimize site network speed/bandwidth for video systems across the State.
- Considers Agency wide ramifications on security and support for video systems.

This work cannot be outsourced due to the complex nature of the interoperability and function of modern digital video capture devices and applications. This position needs to coordinate all the different vendors, partners involved in video system maintenance from the video component suppliers, the facility and network cabling installers, the location of the video management equipment both locally and centrally. This work has been done on an interim basis by the Infrastructure manager and temporary staffing. But this is not a long-term solution for planning, developing standards and creating a robust and supportable environment.

- C. LEDS 2020 Information System Support** – This support will be achieved by permanently funding one (1) ISS 8 position as a LEDS Systems Analyst (Infrastructure team). The LEDS 20/20 system is supported by the Vendor, Diverse Computing Inc. (DCI). Their support and expertise is limited to the application software that was created by DCI. There are operational tasks that still rely on support from OSP’s IT staff and to coordinate with DCI, DCS, CSS and Nlets.

At a high level, the operational work this position will be responsible for includes:

- Work with DCS, CSS and Nlets to provide maintenance and troubleshooting to the production LEDS 20/20 environment, including:
  - Incident Response
    - Outage notification and ticket creation with DCS/CSS
    - Outage communication to the business group and PSSB management
    - Outage coordination between DCS/CSS and DCI
  - Routine network changes by the regional agencies that connect to LEDS 20/20, which requires ticket creation with CSS and coordination to complete the work
    - VPN configuration
    - OSP firewall work
    - Coordinating work with Nlets
    - Coordinating work with CSS
    - Whitelist of IP for Production and DR sites for eAgent
  - Actively troubleshoot outages and issues with DCI, DCS/CSS, and regional agencies
  - OS updates to servers at Nlets (DR)
  - Coordinate best dates/times for maintenance, including OS, by DCS/CSS to systems and network, includes consulting with the business group to identify those best dates/times
- Updates to OSP firewalls
- Monitor Prod and DR systems health
- Provide notifications of maintenance by DCS/CSS or Nlets to the business group and DCI
- Work with Nlets regarding system and network changes to ensure Disaster Recovery site viability
- Advice and consultation with the business group regarding future changes and issues
- Periodic coordination and hands on work to verify Disaster Recovery site viability
- Periodic coordination and hands on work to verify production system performance

- Failover and establishment of connections with the Disaster Recovery system in an emergency
- Maintain current documentation of the infrastructure at both the production and Disaster recovery sites
- Document outages, issues and resolutions and maintain a knowledge base to streamline future issue resolutions
- Maintain Web Proxy Server for internet access to both Prod and DR environments
- Maintain Mail Relay Server for DR environment
- Maintain SFTP server for both Prod and DR environments
- User administration – password reset, account creation for LEADS.or.gov
- Coordinate tech refreshes with FBI/NCIC and Nlets
- Annual FBI/NCIC Inventory verification

**D. COBAN Video Evidence File Management** – These Evidence Technician positions will monitor case files being stored by COBAN in the Cloud. Files that are set to be deleted at the term set by COBAN will be assessed as to their need for further extended retention. These files would include those where the case has not been resolved and record retention guidelines require long term retention. Once those cases have been identified the Evidence Technician will transfer those files to a long-term storage medium until such time the file can be purged. This is dependent upon many factors including but not limited to adjudication of the case and the statute of limitations for the related offense.

These positions main duties would be to:

- Review case status of COBAN video files
- Communicate with District Attorney, Courts and Troopers regarding video evidence
- Ensure chain of custody and proper handling of evidence
- Transfer video evidence per retention protocols and case status
- Ensure transferred evidence is properly stored
- Continually monitor transferred evidence files for disposition
- Manage, maintain, and purge digital evidence as needed.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101053	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037
3101054	Info Systems Spec 6	AO C1486 IP	±	1.00	\$271,037	±	1.00	\$271,037
3101055	Info Systems Spec 8	AO C1488 IP	±	1.00	\$318,872	±	1.00	\$318,872

3101094	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
3101095	Administrative Specialist 2	SC C0108 AP	±	0.88	\$152,349	±	1.00	\$174,114
	<b>Total</b>		<b>6</b>	<b>5.64</b>	<b>\$1,317,993</b>	<b>6</b>	<b>6.00</b>	<b>\$1,383,288</b>

**Quantifying Results:**

**1. In Car Video and Body Worn Camera Support (COBAN)**

- Reduction in outstanding tickets (and the ratio of the number of open tickets to the number of video units in service)
- Reduction in average turnaround time for COBAN ticket resolution
- Measurement and improvement in satisfaction scores for COBAN users

**2. Facilities (Exterior and Interior) Video Camera Support**

- Reduction in backlog of sites without video systems, or with failing video systems
- Measurement and improvement in safety satisfaction scores for staff at OSP facilities
- Measurement and improvement in support satisfaction scores for law enforcement activities and criminal investigations

**3. LEDS 20/20 Information System Support**

- Dedicated and consistent support of public safety mission critical system
- Measurement and improvement in communication and support satisfaction scores of LEDS 20/20 users and stakeholders
- Measurement and improvement in satisfaction scores with regional agencies using LEDS 20/20
- Measurement and sustainment/improvement in LEDS 20/20 availability and uptime related to network and infrastructure.
- Planning and coordination of vendor related improvements, and timely migrations from obsolete hardware and technology.

**4. COBAN Video Evidence File Management**

- A reduction in amount of unnecessary data storage on the COBAN Cloud resulting in cost savings
- Increased oversight of video evidence ensuring proper retention schedules
- Increased efficiency in the transfer process of video evidence
- A reduction in the chance of lost video evidence due to lack of monitoring

**Oregon State Police - Agency Support Division  
Policy Option Package (POP): 107**

**POP Title: Command Center Supervisors  
Total Request: ~~\$966,300~~ General Funds**

**NOT RECOMMENDED in GB**

**Purpose:**

The Oregon State Police Dispatch Command Centers have six (6) dispatch supervisors, per center that assist with the daily operations. These positions are the only OSP supervisors that remain on duty throughout the state during all hours of operation (24X7).

At NCC, the dispatcher supervisors currently work a schedule that consists of three 12-hour shifts and one 4-hour shift in order to make their 40 hours. At SCC, the dispatch supervisors currently work a modified schedule of three 12-hour shifts and one 8-hour shift in order to make 80 hours for two weeks. As it stands, there is no other shift scheduling that will allow for consistent coverage, consecutive days off, and flexibility. The ability to hire and retain dispatch supervisors under these scheduling conditions create several negative impacts. There is little incentive or interest to promote from dispatcher to dispatch supervisor and we often do not have internal interest in the supervisor positions.

The need for a dispatch supervisor within in center to be on duty during all hours, creates a number of impacts with only six (6) personnel to fulfill the mission. Additional negative impacts are:

- Lead workers are used to back fill supervisor positions. This creates additional overtime due to CBA in order to fill the supervisor role & to maintain minimum staffing.
- The loss and/or absence of just one of the dispatch supervisors causes a lack of coverage for a 24/7/365 operation. The impact of this has been felt throughout the pandemic with both centers consistently having supervisors on leave.
  - This requires the Dispatch Director, another supervisor, or a Lead Worker to fill in last minute which is commonly during regularly scheduled day off
  - Last minute coverage commonly causes a weekly overage of hours creating more than a 40-hour work week
- Last minute payroll and/or adjustments causing negative impact to supervisor's, due to implementation of eTime
- Unhealthy transitions from day shift to night shifts multiple times a month and/or week in order to provide coverage
- Current staffing levels require 12 hour shifts for consistent days, off which creates an impact to a good work and home life balance
  - The 12-hour shifts create a negative mental and physical impact
- Leave banks tend to be high and sometimes leave is lost due to inability to utilize it
- BOLI & OSP standards for breaks and lunches are not commonly followed
- Inability to attend training and/or leadership skill building sessions for succession planning
- Inability to assist in high profile incidents and attend debriefing sessions
- Inability to interact with public safety answering point partner agencies
- Retirements and resignations place a high burden on the supervisor team due to the long and challenging training process for external candidates

- Less desirability to promote from Telecommunicator due to shifts required for supervisor coverage, overlapping pay scales, and difficult work / life balance that the current supervisor schedule creates.

The agency has begun a pilot of this concept by implementing this staffing model with limited duration supervisors. The following areas have shown success in the following areas:

- Implementation of ten (10) hour shifts, which are more manageable for home and work life balance
- Ability to complete administrative duties in a timely manner
- Internal interest in promotion into the dispatch supervisor position
- Last minute leave is covered in a more effective method that does not create a burden on the rest of the work group

**How Achieved:**

Establishing four (4) new permanent positions through this policy option package will enable the agency to greatly mitigate the risks and issues raised above. The supervisors schedule is now ten hour shifts with two of the shifts providing flexibility to fill in during a last-minute absence, training, and vacation. Implementation of four (4) ten (10) hour shifts that rotate every 3 months helps provide the twenty-four-hour coverage needed for dispatch services. This schedule also provides overlap of the supervisor’s shifts, so that administrative duties can be completed.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101096	Telecom and Dispatch Supervisor 2	MMS X7806 AP	±	1.00	\$226,575	±	1.00	\$226,575
3101097	Telecom and Dispatch Supervisor 2	MMS X7806 AP	±	1.00	\$226,575	±	1.00	\$226,575
3101098	Telecom and Dispatch Supervisor 2	MMS X7806 AP	±	1.00	\$226,575	±	1.00	\$226,575
3101099	Telecom and Dispatch Supervisor 2	MMS X7806 AP	±	1.00	\$226,575	±	1.00	\$226,575
	<b>Total</b>		<b>4</b>	<b>4.00</b>	<b>\$906,300</b>	<b>4</b>	<b>4.00</b>	<b>\$906,300</b>

**Quantifying Results:**

Implementation of one of the recommendations will likely mitigate many of the listed negative impacts. The additional supervisors will be able to:

- Effectively manage the Workday Payroll transitions
- Ability to provide full coverage for absences, training, & workload
- Ability to schedule ten (10) hour shifts
- Ability to complete assigned tasks within appropriate timelines
- Ability to provide a better 1:1 support system for dispatch keeping in line with the Performance Evaluation and Feedback (TOMP)
- Greater ability to assist with large projects like PDCC, OR Alert, CAD implementation, and complex leave issues

**Oregon State Police - Agency Support Division / Administrative Services Division  
Policy Option Package: 115**

**POP Title: Business Services Staffing** **NOT RECOMMENDED in GB**  
**Total Request: ~~\$1,180,943~~ General Funds**

**Purpose:**

The purpose of this policy option package (POP) is to request limited duration position authority to meet the agency needs to build and maintain fleet vehicles. The POP also requests two (2) permanent positions to manage and monitor capital construction and facility projects around the state.

**How Achieved:**

The agency would like to request funding for three limited duration Emergency Vehicle Technicians, one Facility Maintenance Manager 1, one Project Manager 3, and related service and supplies.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding - Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

Capital Outlay	\$1,688,476	0
<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Revenue Source:**

**Oregon State Police: Criminal Justice Information Services Division**

Primary Outcome Area: Healthy and Safe Communities

Secondary Outcome Area: A Thriving Statewide Economy

Program Contact: Wendy Landers, 503-934-2305

**Program Overview**

The Criminal Justice Information Services (CJIS) Division maintains Oregon’s repository of criminal offender records, law enforcement information, and the infrastructure necessary for immediate and secure access of these confidential records. CJIS programs provide sole-source, critical support to all aspects of public safety allowing for agencies to report, access, investigate and share information regarding criminal activity locally, statewide and nationally for both criminal justice and authorized non-criminal justice purposes.

**Program Funding Request**

The Criminal Justice Information Services Division funding request at Governor’s Budget for the 2023-25 Biennium is \$16,468,688(GF), \$35,336,389(OF), and \$5,157,128 (FF). Total funds request for Criminal Justice Information Services Division is \$56,962,205 (TF).

**Program Description**

CJIS Division programs provide a broad range of 24/7 public safety services and standards regarding criminal justice data requirements. Customers include all Oregon citizens through the support of all state and local law enforcement and criminal justice entities, approximately 1,500 licensed gun dealers, and approximately 130 Non-Criminal Justice agencies for applicant regulatory purposes. The Criminal Justice Information Services Division consists of two main program areas - the Identification Services Section (ISS) and the Law Enforcement Data System (LEDS) Programs Section:

1. ISS maintains Oregon’s criminal offender records comprised of arrest finger, palm print images, arrest “mug shot” photos, court and corrections activity records reported by all law enforcement and criminal justice agencies for the purpose of establishing and maintaining a history of events related to each individual. The Oregon criminal offender file is established only through positive fingerprint identification and is the basis for criminal and applicant background check processing as well as the ability to search forensic crime scene fingerprint and palm print evidence. The Regulatory/Public access program area fee-based services provide sole-source access for name and fingerprint-based criminal background checks of those working with vulnerable citizens such as children, the elderly or disabled; firearm sales background checks to ensure the person taking possession of a firearm is not prohibited by state or federal law; and the general public for purposes such as visa, adoption, employment, obtaining a copy of their own Oregon record, etc.
  
2. LEDS provides the sole statewide criminal justice network and repository for criminal justice information. The Law Enforcement Data System (LEDS) is the control point for the information exchange between similar programs in other states and for information services provided by the FBI and other federal agencies. Data includes: Oregon criminal history files, wanted and missing persons, protective and restraining orders, the link to motor vehicle records, stolen property files. Additionally, CJIS provides user support through policy and outreach; User Training and Audit to ensure compliance with state and federal policy and standards; maintains the Oregon Uniform Crime Reporting program which compiles crime statistics from Oregon Law enforcement agencies and reports to the national level for the FBI’s Crime in the United States report.

**Primary Program Cost Drivers Include:**

- Staff resources: based on the number of users, requests for services and the resources needed to support programs:
  - Training, audit, security, etc.;
  - Customer need and expectation for expanded, enhanced and immediate services;
  - Personnel that are required to perform services such as fingerprint identification functions, user helpdesk support, IT programming and development, necessary system controls, policy and administration of programs, etc.
  
- Infrastructure: hardware, software, disaster recovery, network and connectivity which must be appropriately maintained and periodically upgraded to ensure system reliability/redundancy and data security for all users. Currently the infrastructure is supported through third-party contract and the state data center.

**Program Justification and Link to 10-Year Outcome**

CJIS Division programs directly impact all elements of the Safety Policy Vision and are in line with the nationally recognized best practices of maintaining statewide centralized data systems including: data exchange with national systems; conducting fingerprint-based background checks whenever possible in lieu of name-based checks. Additionally, these systems are used to assist in the identification of missing or deceased persons. The repository biometric identification system is maintained through third-party contract and fully supported by an out of state active redundant backup system. Safety Strategy examples of outcomes that can be anticipated through fully operational CJIS programs:

- **Investment in Communities:** Informed public policy direction can be made for issues such as prison population forecasts and housing concerns; effects of the criminal justice system and/or treatment programs can be looked at to determine patterns of abuse, recidivism rates or a decrease in criminal activity; child placement agencies can reduce putting a child in an unsafe environment with real-time access to information provided through CJIS programs.
- **Implement Social and Justice Reinvestment:** Organizations that provide mentor and tutor services to at-risk children will have access to conduct comprehensive criminal background checks, reducing the safety risks; patrol officers have the ability to focus on critical enforcement activities when timely investigative information is available to them via the Law Enforcement Data System (LEDS).
- **Safety of People:** Uninterrupted law enforcement telecommunications on a 24/7 basis will promote information availability at all times including during emergencies.
- **Citizen Access to Justice/Ability to Exercise their Rights:** Fair and appropriate court determinations and/or sentencing decisions are possible when complete and accurate criminal offender information is available. The justice system is aided with the timely completion of a conviction or arrest “Set Aside” from a person’s Oregon criminal history record. The public’s ability to access one’s own criminal history adds validity to the system.
- **Provide Education, Advocacy and Regulatory Efforts:** Criminal background checks conducted on regulated industries and employees in positions of trust protect Oregonians from potential harm. Accurate criminal offender records aide policy makers in their ability to set effective public policy and direct appropriate funding where necessary.

**Program Performance**

Performance of CJIS programs are measured in several ways. Key metrics that will be used by the program to link outcomes within the 10-year Safety Policy Vision are as follows:

1. Arrest Fingerprint Card Turnaround. Average turnaround time from receipt of a fingerprint card until it is posted onto the CCH file (see chart below). Fingerprints are the foundation of the criminal history file and card turnaround supports record accuracy, completeness and real-time availability to users (*Safety Strategy 1*). 1.3% of arrest cards are submitted manually (on paper). 98.7% are submitted electronically. Electronically submitted cards

are measured in hours, manually submitted (paper) cards are measured in days. In 2021, the average turnaround time for an electronically submitted card was 42 minutes. During that same time period, the average turnaround time for manually submitted card was 2.02 days.

- 2. Message Switch. 1) LEDS System Availability to customers for reliable access to criminal justice information. LEDS system up time for 2021 was 99.959% (FBI Standard is 99.95%). 2) Transaction processing capability. The message switch processed over 259 million user transactions and messages in 2021. Measures 1 & 2 show the return on investment to LEDS infrastructure and the ability to meet customer demands (Safety Strategy

**Enabling Legislation/Program Authorization**

ORS 181A.280 establishes a Law Enforcement Data System; ORS 181A.140 mandates that OSP maintain the state’s fingerprint based criminal history repository. Directives for specific CJISD programs are found in ORS Chapters 137, 166 and 181A. Requirement references for data exchange with federal systems include: FBI Criminal Justice Information Service (CJIS) Security Policy, National Crime Information Center (NCIC) Operating Manual, National Fingerprint File (NFF) Requirements and National Instant Check System (NICS) Point of Contact State Requirements. ORS 163A establishes laws for Sex Offender Registration.

**Funding Streams**

CJIS funding within the Identification Services Section comes primarily from Other Fund revenue generated by eight fee programs, along with a General Fund appropriation to cover the balance of Core Service expenses not fully covered by program fees. The LEDS Programs Section funding is primarily General Fund. CJIS has successfully applied for and received federal fund grants for projects to improve criminal justice systems. However, federal funds specific to criminal justice improvements are vulnerable to shifting priorities and needs that are typically greater than the appropriations, also making them highly competitive among criminal justice entities in partner states.

**2023-25 Funding Proposal Compared to 2021-23**

Agency Request Budget for the Criminal Justice Information Services Division is requesting permanent funding for two existing limited duration positions, reclassifying one position, and continued limited duration funding and authority for 17 positions. These positions are necessary to support ongoing repository operations and program services. We continue our work on our LEDS 20/20 project, this is a multi-year project to modernize all the technical systems used within the CJIS Division. All of the position listed are in support of this mission as well as other specific work noted in each of the below area(s).

**Computerized Criminal History (CCH)** – This position (Reclassify to AS2) partners with outside agencies to access court and law enforcement databases and records. The position interprets, assesses, and makes accurate determinations for criminal history records maintenance which includes entry, modifications, and/or deletion of data in order to assure complete and accurate criminal history information is available through LEDS for easy retrieval.

**Law Enforcement Data Systems (LEDS)** – Permanent position authority for 1 - Business Operations Manager 1, and 1 - Operation and Policy Analyst 3 (For administrative sustainment of the LEDS 20/20 project)

**Firearms Instant Check System (FICS)** – Limited Duration 17 positions currently. Firearms continue to have a backlog due to COVID-19, Social unrest nationally. Our hope with the hiring and help from these limit duration positions we will be able to get our backlogs returned to reasonable numbers.

In the Governor’s Budget, the Criminal Justice Information Services Division package for funding for reclassifying one position and continued limited duration funding and authority for 17 positions was fully recommended. These positions are necessary to support ongoing repository operations and program services. We continue our work on our LEDS 20/20 project, this is a multi-year project to modernize all the technical systems used within the CJIS Division. All the positions listed are in support of this mission as well as other specific work noted in each of the below area(s). The two (2) positions for the LEDS staffing package were not recommended.

**Criminal Justice Information Services Division (CJIS) Narrative**

The Criminal Justice Information Services Division (CJIS) consists of three main program areas - the Identification Services Section (ISS), the Law Enforcement Data System (LEDS) Programs Section and the Sex Offender Registration Program (SOR). CJIS provides sole-source, critical support to all aspects of public safety allowing agencies to report, access, investigate and share information regarding criminal activity locally, statewide and nationally working together to ensure the safety of all citizens. Additionally, access to this data for non-criminal justice applicant purposes is required by law for agencies with the regulatory responsibility to ensure vulnerable citizens they serve are safe within state programs and applicants they employ, license or certify are screened using the very best information available.

**Identification Services Section (ISS):**

CJIS Core Services: Identification Services is responsible for maintaining Oregon’s criminal offender records, comprised of arrest fingerprint and palm print images, arrest photo images, and related crime data reported by all Oregon law enforcement, corrections agencies, courts and District Attorneys for the purpose of establishing and maintaining a history of criminal events related to each individual. The Oregon criminal offender file is established only through positive fingerprint identification and provides the basis for the ability to search forensic crime scene fingerprint and palm print evidence. These mandated repository functions make up the ISS Core Services, which are supported by Other Fund revenue from CJIS fee services as well as a General Fund appropriation to cover the amount not fully covered by program fees.

CJIS Fee Services: Non-criminal justice “Regulatory” and Public Record access programs are fee-based and provide sole-source access for authorized name and fingerprint-based criminal background checks on those working with or around vulnerable citizens such as children, the elderly or disabled; firearms transfer background checks to ensure the person taking possession of a firearm is not prohibited by state or federal law; and the general public for purposes such as visa, adoption, employment, obtaining a copy of their own Oregon record, persons seeking to set aside a conviction through the courts, etc. These program functions make up the ISS Fee Services, which generate other funds for program cost recovery as well as to support the CJIS Core Services necessary to provide these programs.

Civil and applicant checks by authorized regulatory agencies are for employment, licensing and certification and include such positions as teachers, adult care providers, foster parents, realtors, lottery retailers, school bus drivers, nuclear facility security, etc. The number of agencies authorized to request background checks in this category continue to reflect a steady workload. Requests for concealed handgun license background checks and pre-sale screening of firearm transfers historically follow the same workload trend each year. This trend has held steady through dramatic volume increases that began in 2012 as a result of current events both local and nationally.

Helping to ensure the state's citizens and resources are safe and secure, the ISS provides a critical and unique service to all Oregonians through positive fingerprint identification and statewide record keeping of confidential criminal history record information. There are over 1.8 million adult and juvenile criminal offender and authorized applicant records on file within the ISS. A quality fingerprint database and complete criminal history file remains one of the most effective crime fighting tools available. Crime scene finger and palm print evidence that is collected can be searched without the necessity of having a known suspect. A single finger or palm print collected from a crime scene can reveal the owner's identity and provide law enforcement the information needed to further their investigation. There are four main work units within ISS.

The Computerized Criminal History (CCH) Records Unit: The CCH unit is the backbone of the State's repository for all criminal offender record keeping as outlined by Oregon law. Within this unit lies the responsibility to collect and maintain arrest and case outcome activity records as reported by local and state law enforcement and criminal justice agencies, including courts and District Attorneys. These records are made available for use to the criminal justice community through the Computerized Criminal History (CCH) file. ISS customers and partners need criminal offender information immediately so responses must be timely, but above all this information must be accurate. The CCH Records unit works closely with the Federal Bureau of Investigation (FBI) to ensure Oregon's participation in the nationwide exchange of criminal offender record information through the National Fingerprint File (NFF) and the National Crime Information Center (NCIC) is current, accurate and meets quality standards. Partnerships and agreements in this data sharing effort are only possible currently through the use of technology. Specific Oregon laws also make criminal offender information available to non-criminal justice entities and the public on a limited basis. The task of holding this record information confidential while also making it accessible, when appropriate as outlined in law, is an important and complicated responsibility. Accurate and timely record information is critical to many public and private functions and must be carefully handled to ensure both integrity and confidence is maintained.

The Automated Biometric Identification System (ABIS) Unit: The ABIS unit maintains Oregon's fingerprint, palm print, and arrest photo database and computer matching system. This highly technical system allows for rapid searching of millions of fingerprints at one time to subjects being arrested and booked into jails around the state to determine their identity and report back to authorities whom they have in their custody. Hundreds of identifications are made daily for routine bookings and investigations. Deceased, missing persons, and amnesia victim identification services are also available. Oregon's ABIS unit has immediate access to over 30 million fingerprint records within nine western states as well as direct access to the FBI's national fingerprint database. Technology is once again highly depended upon to complete the task of maintaining the state's biometric repository. Database quality is of critical importance to all Oregonians through the services provided by ID Services as well as state and national law enforcement. The ABIS unit maintains the database that allows Forensic Latent Print Experts to search crime scene fingerprint and palm print evidence. Unidentified prints from cases are registered to the ABIS database for future searches against newly added arrest fingerprints, keeping this tool working for law enforcement on a continuing basis to assist in solving crime that could span years.

The Regulatory and Public Access Unit: This unit provides fingerprint identification background checks for regulatory agencies and qualifying private companies to ensure record information is reported for applicants working with the state’s most vulnerable people – children, seniors, the disabled and more. State and national security issues have increased the need and number of agencies reaching out for a means to ensure the persons and property in their care or responsibility will not cause harm or destruction. Several Oregon and federal laws make such backgrounds a priority and requirement for a growing number of purposes. Within the Regulatory unit, fingerprint background checks are performed in support of the Concealed Handgun License program administered by the Sheriff in each county. Public access services include the following examples of use: Requests for another person’s Oregon record and review of one’s own record for purposes such as: Visa and access to foreign countries, adoption, employment, property management, housing, etc.

The Firearms Instant Check System (FICS) Unit: The FICS unit conducts pre-sale screening of firearm sales through requests made by federally licensed firearm dealers and private party sales including transfers at gun shows within the state. Oregon law requires all firearm transfers by licensed dealers in the state go through a screening process to ensure the receiving person can lawfully obtain a firearm in compliance with both state and federal law. Oregon also requires that private parties, with a few exceptions, conduct a background check through the FICS unit prior to transferring a firearm to another person. As a public and officer safety function, criminal history record checks are conducted, and records accessed from throughout the nation to ensure compliance. As a separate function from a firearm transfer background check, stolen gun checks are performed upon request for anyone wishing to check the status of a firearm prior to taking possession, etc. As noted above, firearm transactions increased dramatically in 2012 and have continued at a steady new “normal” rate yearly. Starting in March 2020, at the onset of COVID-19, requests for firearm sales and transfers skyrocketed. Triggered initially by COVID-19 then media coverage of local and nationwide events, firearm transfer requests during one week in March 2020 peaked at a 207% increase over the same period in 2019. The Department anticipates the high volume of firearm sales and transfers will continue during the duration of the pandemic, but will eventually return to normal levels once the nation returns to some semblance of order.

**Law Enforcement Data System (LEDS) Programs Section:**

The LEDS Programs Section is responsible for the policy, user access and responsibilities of Oregon’s only statewide criminal justice network and central repository of criminal justice related information. Program areas of responsibility include Training and Audit for statewide system users to ensure security and compliance with state and federal policy and standards; 24-7 user helpdesk; and Oregon Uniform Crime Reporting (UCR) which compiles standardized criminal offense and arrest statistical information from all Oregon Law enforcement agencies. Crime reporting by agencies is used for regular publication of crime statistics, as a resource for crime and criminal justice research; as well as, consolidating that information for law enforcement investigatory purposes.

The LEDS hardware and software infrastructure make up the state’s repository for CJIS data. This technical side of the state’s responsibility is maintained through a third-party contract in coordination with LEDS Program staff and the OSP Information Technology Division in support of all CJIS Division functions. The repository infrastructure serves as the focal point for the Department’s role as “Criminal Justice Information Services (CJIS) Systems Agency” (CSA) where state and nationwide data exchanges are possible through an interface with FBI’s national programs such as the National Crime Information Center (NCIC) and Next Generation Identification (NGI). Through the LEDS system, OSP provides access to criminal offender records for all law enforcement and criminal justice agencies within Oregon and partner states through these interstate data exchanges. Also required by law, LEDS provides access for the state’s non-criminal justice agencies to obtain Oregon only information per Governor’s Executive Orders and to national fingerprint-based records when authorized by state statute. The central LEDS message switching computer system processes in excess of thirty million messages per month, serving over 25,000 user devices in Oregon and facilitating data exchange activity from agencies throughout the United States, its territories, and Canada. There are four main work units within the CJIS Division’s LEDS Programs area.

The CJIS/LEDS Policy and Program Administration: This program area is responsible to ensure user access and data policy standards are maintained through agency agreements. Standards are established by the FBI CJIS Advisory Policy process.

The LEDS Training Program: The LEDS training program is responsible for providing instruction on the proper entry, access and use of the LEDS, NCIC and Nlets systems and for the certification and re-certification of over 14,000 LEDS users in Oregon. The unit works closely with the CJIS Security Officer to provide instruction on CJIS System Security to ensure data integrity. The unit maintains the LEDS Operating Manual, LEDS Representative reference materials, and LEDS Training Guides which are used by agency LEDS users statewide.

The LEDS Audit Program: The LEDS Audit program conducts quality assurance audits as well as serving as a resource to agencies involved in system misuse investigations. All agencies with direct or indirect access are audited under state and federal requirements for system access, use and dissemination of LEDS and NCIC data on a triennial basis. Roughly 180 agencies are audited each year by both OSP and FBI regarding the accuracy and completeness of their records and the proper use of not only the LEDS and NCIC systems, but also of all associated criminal justice information such as DMV records, Mental Health records and records from other states. The LEDS Audit unit investigates reported allegations of system misuse and works closely with the LEDS Training Unit to identify areas where additional training may be beneficial in order to correct misunderstandings or deficiencies in system use.

The Uniform Crime Reporting (UCR) Program: The UCR unit collects, processes, and publishes Oregon crime and arrest statistics as mandated by statute and provides compiled Oregon data to the FBI national crime statistics program for use in publications regarding crime in the United States. Information is gathered from 161\* law enforcement agencies throughout the state and reviewed to ensure it meets federal reporting requirements and data standards. This information is consolidated and published in quarterly and annual reports for distribution to contributors, other criminal justice agencies and the public. Information compiled and published through the UCR program is used for many purposes, such as public safety benchmarks, funding, public policy, citizens general knowledge and interest of crime in their community, etc. There are currently three areas where reporting by law enforcement agencies is mandated by law. These are:

- *Uniform Crime Reporting (ORS 181A.225):* Reporting of criminal offenses and arrests, in general.
- *Bias Crime Reporting (ORS 181A.225):* Crime committed which is categorized as being motivated by prejudice such as race, religion, etc.
- *Domestic Violence Reporting (ORS 181A.225):* Statistics relating to incidents arising out of domestic disturbances.

CJIS is also responsible to administer the FBI National Data Exchange (N-DEx) program within Oregon and is organized under the UCR program area. Oversight includes Oregon participant access, training, and audit for agency submissions and use of data maintained by the FBI N-DEx program for criminal justice investigatory purposes.

\*In 2019 the number of law enforcement agencies reporting data was 178; Since Covid-19, 17 agencies are either reporting through a partner agency or have stopped reporting due to staffing shortages.

**Sex Offender Registration (SOR) Program:**

The Sex Offender Registration (SOR) Program is responsible for maintaining the state sex offender registry – the information within which is obtained for the purposes of assisting law enforcement agencies in preventing future sex offenses (ORS 163A.045), and to be made available to the public in accordance with statute in the interest of public safety. Information in the registry is made available to law enforcement agencies across the country through entry into the State Police Law Enforcement Data System (LEDS) and the FBI’s National Crime Information Center (NCIC); and to state and local law enforcement through a Law Enforcement Web Portal which can be used to submit updates to the registry and for investigative purposes. The SOR Section maintains information on more than 31,900 offenders who live or work or have lived or worked or attend or attended school in an Oregon community. Approximately 1,200 of those offenders meet criteria for posting to the public-facing website. On average, over the past 10 years, the SOR Section introduces 1,200 new offenders to the registry database annually. Oregon has up to 26 registerable sex crimes (ORS 163A.005). Individuals convicted of those offenses are required to register for life, unless granted relief by the Bureau of Parole and Post-Prison Supervision or unless their original conviction is set aside, vacated, or pardoned.

**Criminal Justice Information Services**

2023-25 Governor's Budget						
Criminal Justice Information Systems (CJIS)	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
BASE BUDGET:	\$ 15,844,585.00	\$ 21,371,665.00	\$ 4,929,861.00	\$ 42,146,111.00	113	113.00

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

**Oregon State Police - Criminal Justice Information Services (CJIS)  
Policy Option Package (POP): 108**

**POP Title: Law Enforcement Data System (LEDS)  
Total Request: \$542,162 ~~General Funds~~**

**NOT RECOMMENDED in GB**

**Purpose:**

The CJIS Division is responsible for maintaining the state’s Criminal Offender Record Repository and infrastructure, Uniform Crime Data Reporting Repository, and Sex Offender Repository through the Law Enforcement Data System (LEDS). Additionally, the system is required to support multiple non-criminal justice regulatory programs authorized to have access for purposes of background check screening for employment, licensing and certification, firearm transfer decisions, etc.

The LEDS system itself is the infrastructure and database backbone for the repository providing critical criminal justice record information that must be available 24/7, 365 days to all law enforcement and criminal justice agencies statewide and throughout the nation in support of public safety.

This request addresses obtaining permanent position authority and funding for 2 limited duration positions within the CJIS Law Enforcement Data System (LEDS) program area.

**LEDS Program Manager.** As one of the division’s key program areas, the Law Enforcement Data System (LEDS) programs serve users statewide and are responsible to ensure compliance by all users of Oregon’s criminal offender repository. Additionally, Oregon programs must adhere to federal requirements for data and system security, reporting standards, data exchange and response timelines, and perform statewide emergency response system duties via a 24/7/365 helpdesk. Program needs were managed through the CJIS Operations PEMD with day-to-day staff issues supported by the CCH Unit Program Manager. This arrangement did not provide the direct program oversight needed for these complicated functions and for the staff performing within this area. On top of day-to-day operations, the LEDS20/20 replacement project began consuming internal staff resources throughout the CJIS Division in a significant way with the nucleus being LEDS programs. A limited duration PEMD was established to serve in the key business lead role for the project as well as take on the direct management of LEDS programs and staff assigned to the unit. At the conclusion of the LEDS20/20 project (slated for late 2024), the state will be on a new platform and receiving hardware and maintenance support from a third-party vendor which will need program support and oversight to maintain the statewide service levels users expect. This position is necessary to maintain the critical services and obligations Oregon has to all repository user agencies statewide and as our systems exchange data nationally. The position must become permanent as the state’s obligation to maintain the infrastructure and services to support critical public safety needs is not sustainable under the current limited duration status. The ability to maintain the necessary job knowledge, state and federal policy awareness and oversight, as well as staff resources at the program manager level are significantly impacted by the position being limited duration. **Request permanent position authority and funding for the current limited duration Business Operations Manager 1 position.**

**LEDS20/20 Operations and Sustainment.** The LEDS20/20 replacement project replaces the states critical infrastructure that supports Oregon’s criminal offender record repository and the message switch that allows Oregon to exchange data and services throughout the state and nationally with partners at the state and federal level. Within the project an Operations and Policy Analyst was established to serve as they key resource for OSP in working with the solution vendor and agency staff, IT resources and their vendor representatives. The duties are highly technical and policy-driven to ensure this complex project successfully moves through its various phases with little to no disruption to critical services necessary for agencies to conduct their administration of criminal justice functions. Upon completion of the project, Oregon’s repository and the entire state will be on a new platform receiving hardware and maintenance support from a third-party vendor. For the first time, this repository will not be maintained by an OSP IT staff. Users will continue to transition to a new OSP interface that will require ongoing training and user support from the administrative and policy perspective. Ongoing interactions will be necessary with the solution vendor for functionality upgrades, modifications and implementation of federal initiatives and programs designed to further enhance criminal justice data exchange as well as non-criminal justice background check improvements. This position is necessary to retain for ongoing support within the entire LEDS programs area as well as to assist with contract oversight of the solution and disaster recovery vendors and policy driven periodic system modifications. **Request permanent position authority and funding for the current limited duration Operations and Policy Analyst 3 position.**

**How Achieved:**

Administrative clean-up of two current General Fund positions. These positions are requested at 24 months due to current incumbents fulfilling these roles in a limited duration capacity. These positions have been reviewed and approved by the Department of Administrative Services Chief Human Resources Office.

The responsibility of this program area is statutorily under the Oregon State Police, however LEDS supports every agency in this state including OSP and is necessary to support public safety through the exchange of criminal offender data nationally.

Examples of critical system access and data sharing obligations to statewide programs and user agencies that are potentially vulnerable to LEDS program position instability: uninterrupted 24-hr access to data and systems to police on the street, dispatch centers; availability for agency entry and access to wanted persons, stolen property, protection order and sex offender registration files; fingerprint-based identifications for jail, in the field custody contacts, deceased or unknown crime victims; real-time reporting of criminal arrests, court dispositions and District Attorney actions; Department of Corrections activity and movements; sex offender registrations and reporting at the federal level; Emergency Response system notifications and coordination; critical system updates, modifications, and federal requirements for technology and data sharing initiatives; statewide data and infrastructure system security; timely and accurate applicant background checks for employment, firearm transfers, concealed handgun licensing; system and user training, audit and support of appropriate use and safeguarding of sensitive and confidential records.

**Staffing Impact:**

Positions are requested at 24 months due to current incumbents fulfilling these roles in a limited duration capacity.

Position Number	Classification Title	Classification Number	2023-25			2025-27

**Oregon State Police - Criminal Justice Information Services (CJIS)  
Policy Option Package (POP): 109**

**POP Title: Firearms Instant Check System (FICS)  
Total Request: \$2,977,957 General Funds**

**RECOMMENDED in GB**

**Purpose:**

The Firearms Instant Check System (FICS) is a program mandated by law to conduct firearm screening background checks for all federally licensed gun dealers as a Point of Contact state to the FBI’s National Instant Check System (NICS). Not only is OSP FICS required to conduct state and federal checks for gun dealer transfers, but Oregon law requires OSP to conduct checks for private party transfers as well.

Firearm transfer background check requests continue to increase steadily over time with a trend of spiking every 4 years. The recent unexpected and ongoing high volume of requests over the last 2 years had rendered the program unable to maintain service levels with existing staff. Additionally, with the state encouraging remote work when possible and a hybrid schedule being integrated into the FICS program, it is anticipated that this will continue to impact overall performance and necessitate additional resources for day-to-day operational purposes.

Approval to hire 17 limited duration positions to address historic request volumes was provided during the 2021 legislative session; however, the positions were not funded. In the 2022 legislative session, funding was allocated for the 17 positions, but only for the 21-23 biennium.

This request is for continued funding for the 17 Limited Duration positions for the 23-25 biennium.

**FICS Business Operations Supervisor 1 (Shift Supervisor) (1FTE).** The FICS program involves a tremendous amount of activity. Shift supervisors are required to: oversee day-to-day operations, scheduling, workload, personnel needs, recruiting, customer contacts and communications, quality assurance, coordination with law enforcement responding to denied transactions, maintain staff records, monitor work processing standards, customer billing, legislative inquiry research, recruiting and hiring, and providing budgetary assistance, etc. Additionally, when staff resources are low and customer service is impacted, supervisors will monitor workload, return calls for staff, and make schedule adjustments at a moment’s notice to maintain sufficient coverage. The unit is required to be open 8am-10pm, 363 days each year and each supervisor is responsible for 14 direct reports as well as covering all staff needs as needed in the event of a supervisor absence.

**Public Service Representative 4 (12 FTE).** A PSR4 in the Firearms Unit is responsible for maintaining a database of FFL dealers with active licenses, verify that dealer-submitted transferee demographics meet requirements of the Federal ATF program and state statute; make determinations of approval or denial by comparing criminal history records to state and federal statutes and rules pertaining to firearms disqualifications; research criminal record entries that are either missing or incomplete to make such determinations through regular contacts with state and federal courts and law enforcement agencies; respond to individuals challenging Unit decisions and provide information as to why the decisions are made.

**Office Specialist 2 (4 FTE).** Completed records help support the Firearms unit function to identify individuals prohibited from possessing or transferring firearms. The OS2 positions interpret, assess, and make accurate determinations for criminal history record maintenance, including submitting documents for entry, modification, and/or deletion of data to assure complete and accurate criminal history information is available through LEDS. These positions research and request dispositions from the municipal, justice, circuit courts, and district attorney’s offices throughout the U.S. and other territories. Provide administrative support with invoice, billing, and payment activity in coordination with OSP Accounting for background check services to gun dealers, customer form purchases, assist with challenge calls and logging of calls from customers to ensure timely responses. All in support of the FICS program as well as the National Instant Check System (NICS).

Volumes so far in 2022 have decreased to pre-pandemic numbers following a period of 2 years where requests soared. The decrease in the past 2 months has allowed the unit to eliminate a never-before-seen backlog of incoming requests and those efforts to focus resources in this area to regain a reasonable turnaround have significantly impacted the remaining key functions within the unit. Volumes over time continue to trend upward with the potential for additional spikes likely to impact all areas of the background check process at any given time. Funding will allow for improving services levels as limited duration positions are hired and trained and equally important, monitor to determine what resources are needed on a permanent basis to maintain service levels as requests begin to level out.

**How Achieved:**

Funding for 17 LD positions for 24 months during the 23-25 biennium to allow the unit to regain service levels as positions are filled, as well as improving the overall turnaround in all areas once new hires are trained and contributing fully. The program will continue to monitor workload volumes, vacancy trends, and assess the actual number of permanent resources needed to sustain operations long-term.

**Staffing Impact:**

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget

**Oregon State Police – Agency-wide  
Policy Option Package (POP): 120**

**POP Title: Position Alignment and ARPA Limitation** **RECOMMENDED as MODIFIED in GB**  
**Total Request: \$2,500,000 Total Funds (\$2.5m Other Funds)**

This package has six components that address various technical issues and aligns position authority to support Department staffing and operational needs.

- A. Reclassifications* – Not Recommended
- B. Fiscal Positions* – Not Recommended
- C. American Rescue Plan Act (ARPA) – Recommended as Modified*
- D. OSFM/ OSP CSL Rent Budget* – Not Recommended
- E. Internal Cost Allocation (ICA) fund shift and OSFM backfill* – Not Recommended
- F. Medical Examiner Board Certification differential costs* – Not Recommended

**Component A – Reclassifications**

**Purpose:**

To realign organizational resources within the Department and to implement position reclassifications as workflow changes within programs and divisions.

**How Achieved:**

The Oregon State Police is working with the Department of Administrative Services Chief Human Resource Office to review and approve the proposed reclassification requests based upon the position descriptions that the department provided.

**Staffing Impact:**

The policy option package impacts 13 positions within the agency. The proposed changes to staffing are detailed below:

- Upward reclassification of one (1) position (3100772) from an Information Systems Specialist 4 to a Project Manager 2
- Upward reclassification of one (1) position (0003410) from a Program Analyst 1 to a Program Analyst 2
- Upward reclassification of one (1) position (0003412) from an Office Specialist 2 to an Administrative Specialist 1
- Upward reclassification of three (3) positions (3100002, 0014605, and 0004702) from a Research Analyst 2 to a Research Analyst 3
- Upward reclassification of one (1) position (3100222) from an Emergency Vehicle Technician to a Business Operations Supervisor 1
- Upward reclassification of one (1) position (3791193) from a Laboratory Technician 2 to an Administrative Specialist 2
- Upward reclassification of one (1) position (3791133) from a Latent Print Examiner to a Forensic Scientist 2
- Upward reclassification of one (1) position (0001503) from an Administrative Specialist 2 to a Program Analyst 2
- Upward reclassification of one (1) position (3791140) from a Latent Print Examiner to a Forensic Scientist 1

- Upward reclassification of one (1) position (3101013) from a Forensic Supervisor 1 to a Forensic Supervisor 2
- Upward reclassification of one (1) position (0013652) from an Office Specialist 1 to an Administrative Specialist 2

**Quantifying Results:**

Not applicable as this is technical in nature.

**Revenue Source:**

General and Other Funds

**Total Funding Request Summary:**

POP 120 (Component A) Expenditure Category	2023-25		2025-27	
	GF	OF	GF	OF
Personal Services	\$70,614	\$9,635	0	0
<b>Total POP 120 (Component A)</b>	<b>\$70,614</b>	<b>\$9,635</b>	<b>0</b>	<b>0</b>
Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component B – Three (3) Fiscal positions**

**Purpose:**

This request is justified for a couple of core reasons:

1. The ***volume of financial transactions has increased*** over time. This includes an increase in accounts payable invoices, SPOTS transactions, grant revenue, travel claims and the overall OSP budget has grown over time.
2. The ***financial services team*** is an inch deep and a mile wide as it relates to operating core business processes. Coupled with the increased workload, the current staffing only allows one individual to manage the variety of work in some of our core financial services programs, such as grant accounting and management, travel, SPOTS and capital assets which presents a large risk to the agency.
3. Oregon State Police’s Financial Services team is not ***comparable to staffing in other similar agencies***.

In the Accounting section OSP is requesting one (1) Accounting Manager 2, and two (2) Accounting Technicians. This request assists Financial Services to not have a single employee responsible for all transactions for a specific function. The Accounts Payable Technicians will assist OSP in keeping up with the increased workload. Receiving additional position authority in the accounting team will reduce risk to the agency, create bench strength that is necessary and level workloads amongst the staff completing core accounting functions.

Additionally, we know that the new Oregon Buys Procurement / Accounts Payable system are going to take additional resources to be managed effectively. Financial Services needs to ensure that there are enough staff to handle this new system transition, as it is going to completely change the way the Accounting operates and partners with Procurement and the various Program areas across the agency. There needs to be staff that focus on the day-to-day operational processing volume, but also have an Accounting Manager 2 to be able to ensure quality assurance oversight and help streamline processes within the Accounting Division.

**How Achieved:**

The Oregon State Police would recruit and hire following human resources and collective bargaining agreement guidelines/procedures. These positions are requested at 24 months due to current incumbents fulfilling these roles in limited duration capacity.

**Staffing Impact:**

The positions outlined below are requested to ensure the success of each program. Services & Supplies and Capital Outlay (if applicable) were applied using the agency’s position pricing model:

Position Number	Classification Title	Classification Number	2023-25			2025-27		
			Pos Count	FTE Count	Pos Budget	Pos Count	FTE Count	Pos Budget
3101060	Accounting Manager 2	MMS X7034 AP	1	1.00	\$277,938	1	1.00	\$277,938
3101061	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
3101062	Accounting Technician	AO C0212 AP	1	1.00	\$157,850	1	1.00	\$157,850
	<b>Total</b>		<b>3</b>	<b>3.00</b>	<b>\$593,638</b>	<b>1</b>	<b>3.00</b>	<b>\$593,638</b>

**Quantifying Results:**

Adding these positions will allow the agency to manage the tremendous volume of financial transactions and cross train staff to mitigate loss of knowledge during staff turnover. A more reasonable workload spread across accounting staff will increase timely payments, reduce errors, and allow staff to proactively work on improving productivity, accountability, and accuracy of the agency’s financial records.

**Revenue Source:**

General Fund

**Total Funding Request Summary:**

POP 120 (Component B)	2023-25	2025-27
Expenditure Category	GF	GF
Personal Services	593,638	593,638
Services & Supplies	\$45,000	\$45,000
<b>Total POP 120 (Component B)</b>	<b>\$638,638</b>	<b>\$638,638</b>
Positions	3	3
FTE	3.00	3.00

**Component C – ARPA Funding – Recommended as Modified in GB**

**Purpose:**

Increase other fund limitation for American Rescue Plan Act (ARPA) funds that were not expended in the 2021-23 biennium. The Oregon State police received one-time ARPA funding passed through to OSP by Department of Administrative Services in the 2021 Session for facilities related projects around the state.

**How Achieved:**

The projects around the state include, but not limited to:

- For the non-bondable costs of the Central Point Office Expansion, the Springfield Forensic Lab and Medical Examiner office construction project, and the Springfield Patrol Area Command construction project,
- For deferred maintenance at the Ontario and Albany Patrol Offices, and
- For safety improvements at various patrol offices statewide

**Staffing Impact:**

None

**Quantifying Results:**

Not applicable

**Revenue Source:**

Other Funds

**Total Funding Request Summary:**

POP 120 (Component C)	2023-25	2025-27
Expenditure Category	OF	OF
Services & Supplies	\$2,500,000	0
Capital Outlay	\$1,688,476	0
<b>Total POP 120 (Component C)</b>	<b>\$2,500,000</b>	<b>0</b>
Positions	0	0
FTE	0.00	0.00

**Component D – OSFM/OSP CSL Rent Budget**

**Purpose:**

Oregon State Fire Marshal will separate from OSP on July 1, 2023 and move into its own facilities on or around that time. OSP and OSFM share facilities around the state and as a result of vacating OSFM staff OSP’s portion of the lease and utilities costs will increase.

**How Achieved:**

Increase Oregon State Police General Fund Budget by \$1,217,259. This is for lease and utilities costs at various sites around the state: \$1,104,256 for facilities rent and taxes; \$45,880 for fuels and utilities, and \$67,123 for facilities maintenance costs.

<b>Total POP 120 (Component D)</b>	<b>\$1,217,259</b>	<b>\$1,217,259</b>

**Component E – ICA fund shifts and OSFM Backfill**

**Purpose:**

With the separation of Office of State Fire Marshal (OSFM) from the Oregon State Police, savings from sharing essential support services staff and resources would not be realized, and both agencies are anticipated to need additional resources beyond that of their existing budget. The bulk of the existing program support, procurement and contracts, human resources, and information technology services remains with OSP and OSFM will need to hire new employees and contract with the Department of Administrative Services.

Under current practice, the Office of State Fire Marshal is budgeted to transfer Other Funds as an internal cost allocation (ICA) to fund a share of essential support staff in the Administrative Services Division.

**How Achieved:**

Fund shift positions from Other Funds to General Fund for the SFM portion of those ICA costs.

**Staffing Impact:**

Not applicable as this is technical in nature.

Positions	0	0	0	0
FTE	0.00	0.00	0.00	0.00

**Component F – Medical Examiner Board Certification Differential Cost**

**Purpose:**

This request for General Fund is to pay for new Board Certification differentials for the State Medical Examiner and Deputy State Medical Examiners. These Board Certification differentials were added after a Department of Administrative Services compensation analysis determined that Oregon needed to offer a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**How Achieved:**

Implementation of the revised DAS Policy number 20.005.11 for Pay Differentials that recognizes special assignments, skills, qualifications, or credentials that add value to the states’ workforce. This newly revised policy, effective January 1, 2022, for the State Medical Examiner (Z7508), who are Board Certified; for the first Board Certification in one specialty, the differential is 7.5% percent of base pay; for two or more Board Certification specialties, the differential is 10% percent of base pay. Effective January 1, 2022, for the Deputy State Medical Examiner(s) (Z7507); the differential is up to a maximum of 7.5% percent of base pay for one or more Board Certifications.

**Staffing Impact:**

There is no staffing impact for this component of the POP.

**Quantifying Results:**

Implementation of these Board Certification differentials will ensure that Oregon offers a more competitive compensation package to retain current staff and attract new applicants from the small nationwide pool of highly trained forensic pathologists.

**Oregon State Police: Gaming Enforcement Division**

Primary Outcome Area: A Thriving Statewide Economy

Secondary Outcome Area: Healthy and Safe Communities

Program Contact: Major Mike Turner

**Program Overview**

The Oregon Department of State Police (OSP) - Gaming Enforcement Division (GED) assures the economic viability of the revenue streams gained from Oregon gaming that directly support key strategies of the Economy and Jobs 10-year Vision. This revenue helps to create sustainable business development and allows for a robust economic environment and long term economic prosperity. Revenue assurance is obtained through a strong regulatory framework designed to protect the fairness, integrity, security, and honesty (F.I.S.H) of Oregon’s gaming. This framework is implemented through individual Sections of the GED focused on specialized disciplines.

**Program Funding Request**

The Gaming Enforcement Division funding at Governor’s Budget for the 2023-25 Biennium is \$540,540 (GF) and \$14,124,007 (OF). Total funds request for the Gaming Enforcement Division is \$14,664,547. The three programs that make up this division are: Lottery Security, Tribal Gaming, and Vendor Investigations.

**Program Description**

The Gaming Enforcement Division has three Sections:

1. **Lottery Security Section (LSS).** Per the Oregon Revised Statutes, the Oregon State Lottery is required to contract with the OSP to provide for the necessary security services. The **Lottery Security Section (LSS)** fulfills this through an Inter-Agency Agreement (IAA). The LSS unit is staffed with 19.92 FTE, both sworn and professional staff, to ensure physical, logistical, and regulatory security related to the lottery's retailer network, its state-operated lottery games and vendors, in accordance with Oregon Revised Statutes and Oregon Administrative Rules.
2. **Tribal Gaming Section (TGS).** The Indian Gaming Regulatory Act (IGRA) sets forth federal policy regarding Indian gaming and provides a statutory basis for the operation of Class III Gaming between the nine federally recognized Tribes in Oregon. The relationship between the State and the Tribes rests on mutual trust and the recognition that each has a duty to protect the public's trust through separate, responsibilities set forth in the Tribal-State Compacts. The Tribal-State Compacts provide the State of Oregon, acting through the Oregon State Police, **Tribal Gaming Section**, with important monitoring and oversight responsibilities to assure the fairness, integrity, security and honesty of the Class III Gaming. The TGS is staffed with 11.79 FTE, both sworn and professional staff.
3. The **Vendor Investigations Section (VIS)** is required through Tribal-State Compacts and the Oregon State Lottery's Inter-Agency Agreement. The section's role is to assure the fairness, integrity, security and honesty of all Tribal Class III gaming and Oregon Lottery games. This section provides due diligence by conducting background investigations and ensuring continual compliance by vendors who wish to conduct business in Oregon, prior to and after executing a contract or an agreement with the Tribes and the Oregon State Lottery. This includes everything from organizational capabilities, financial strength, and product security, to individual background checks. Three FTE of sworn staff maintain oversight of these requirements.

Major cost drivers for this industry continue to be the advancement of technology and the physical growth of the industry. Technology calls for increased expertise training, and for the expansion of duties. The State is constrained by its delivery method for these services through new requirements set forth in the Oregon Constitution, law, and Tribal-State Compacts. However, the OSP-GED continues to make quality improvements and meet these new demands by operational efficiencies.

**Program Justification and Link to 10-Year Outcome**

The revenue and economic benefits derived from the gaming industry, which the OSP-GED protects, directly and indirectly supports strategies: S-2—Be More Effective from the Bottom Up, and S-3—Focus on Oregon's Long-Term Economic Prosperity and Resiliency, including Create a Fertile Economic environment. The impact of the revenue to sub-strategies of the creation of a fertile economic environment for business, supporting entrepreneurship, and highly-skilled individuals, and the support of all levels of education and training are significant to the 10-year outcome for Economy and Jobs. This is evident of the revenue generated by the industry: Since 1985, the Oregon Lottery has infused nearly \$7 billion into all levels of education and nearly \$3 billion into economic development within Oregon.

Additionally, new emerging industries within tribal lands employ a diverse workforce and, within some locales in Oregon, tribal governments through the revenue created by gaming, become the single largest employer and creator of new business. The tribal gaming industry has contributed millions to communities around the State of Oregon. Areas in which communities have benefited from tribal revenue funding include: education (sponsorships, boys and girls clubs), job development, community development – supporting the local fire department (search and rescue programs); county sheriff or police departments; health clinics (housing and development, new teen mothers), and supporting entrepreneurship (small business grants).

The success of the gaming industry in Oregon is dependent on brand integrity. If those who participate in Oregon gaming do not believe the industry is fair they will not play and revenue will be impacted. The protection of Oregon’s gaming integrity assures the above revenue contribution and thereby mitigates potential impact to the Economy and Jobs 10-Year Plan. This protection is accomplished by a regulatory schema assured through Compacts, the constitution, statutes, and rules that are administered by the OSP–GED.

**Program Performance**

As part of The Oregon State Police five-year Strategic Roadmap, OSP’s executive leadership has identified four key areas we must focus on to achieve the Department’s vision and mission: Develop Internal Capabilities, Collaboration, Stewardship and Transparency, and Continuously Improve Service Delivery.

The GED has developed a series of strategic goals based on these four themes. These goals are rolled into the overall all OSP strategic roadmap. These goals are intended to focus on the unique mission of our division and some of our challenges. As a Division, we are working on hiring and training the best employees and continuously improving our service. The goals are clearly articulated with stated performance indicators tied to dates with progress actively monitored and assurance that requirements set forth in law, Compacts and other regulations are successfully maintained.

**Enabling Legislation/Program Authorization**

**Lottery Security Section**, Oregon Constitution – Article XV and Oregon Revised Statute chapter 461

**Tribal Gaming Section**, Indian Gaming Regulatory Act (IGRA) – 100-497, 25 U.S.C. Tribal-State Compacts

**Funding Streams**

The OSP-GED is comprised of the following sections: the Lottery Security Section funded through the Oregon Lottery’s Inter-Agency Agreement (IAA); the Tribal Gaming Section funded through the Oregon Tribes according to the Tribal-State Compacts; the Vendor Investigations Section funded through the Oregon Lottery’s IAA and Oregon Tribal Vendors/Suppliers per Tribal-State Compact.

**2023-21 Funding Proposal Compared to 2021-23**

Standard Inflation factors

## Gaming Enforcement Division Narrative

The purpose of the Gaming Enforcement Division is twofold. One is to assure the “fairness, integrity, security and honesty” of the Oregon Lottery by providing independent and specialized gambling security services to the Oregon State Lottery Commission. The second is to assure the “fairness, integrity, security and honesty” of Class III Gaming by providing the required independent Tribal-State Compact monitoring of the operations of the nine federally recognized tribes of Oregon.

### Lottery Security Section

The mission of the Lottery Security Section is to protect what has become a multi-billion dollar industry in Oregon by assuring all Oregon Lottery gaming activities are conducted with Fairness, Integrity, Security and Honesty (FISH) in accordance with all Statutes, Administrative Rules, and directives.

The Oregon State Police Lottery Security Section assures the Fairness, Integrity, Security and Honesty (FISH) of the Lottery games and retailer network. Assuring criminal activities are not occurring and all aspects of the Lottery remain free of corrupt or criminal enterprises.

This is accomplished by:

- Supporting the Assistant Director for Security in assuring the Fairness, Integrity, Security and Honesty (FISH) in the administration and operations of the Oregon State Lottery.
- Lottery retailer background investigations focusing on identifying true ownership of the business and criminal activities within the business.
- Continued monitoring of Lottery retail network for integrity and criminal activities through undercover criminal operations and regulatory retailer investigations.
- Investigations to determine the validity of problem tickets.
- Criminal investigations involving loss or damage to the Oregon State Lottery.
- Lottery Vendor background investigations.
- Ensuring the safety of players and staff by conducting security of premises inspections/investigations.
- Operations consists of fourteen Detectives spread throughout the state supervised by two Sergeants in Salem, a vendor background investigator and a part time Sergeant overseeing the vender unit. The unit is supported by a Governmental Auditor and supervised by a Lieutenant out of Salem.

**Tribal Gaming Section**

The federal Indian Gaming Regulatory Act (IGRA) provides that Class III gaming activities are lawful on Tribal lands only if such activities are (1) located in a state that permits such gaming for any purpose by any person, organization or entity, (2) authorized by tribal ordinance, and (3) conducted in accordance with a Tribal-State Compact. The oversight by the Oregon State Police - Tribal Gaming Section (OSP-TGS) is independent of the tribes to satisfy the third provision of the Indian Gaming Regulatory Act. Under the obligations found in the current Tribal State Compact agreements, the OSP-TGS is required to protect the integrity of casino gambling in Oregon. Additionally, the OSP-TGS is required to conduct monitoring/oversight of the tribal gaming operations to assure the fairness, integrity, security, honesty and full compliance with the established controls and Compact agreements.

There are nine federally recognized Native American Tribes in Oregon which have negotiated gaming compacts with the State. Of the nine Tribes with gaming compacts, eight currently have gaming operations. The Tribal Gaming industry has experienced significant growth since its inception and continues to generate tens of millions of dollars to the Native American Tribes of Oregon.

During the 2019-2021 biennium Sports Betting was originally introduced by the Oregon Lottery and three Tribal casinos soon followed. There are now four individual Tribal Sports Books being offered at four separate Tribal casinos. These Tribal Sport Books can offer sports wagering through in person sales and in person kiosk sales. One Tribal Sports Book is authorized to offer on-premise mobile sports wagering. However, TGS anticipates all methods of sports wagering to expand to almost all Tribal casinos in the next five years. This will require extensive Tribal compact negotiations and a requirement for the OSP TGS to analyze, develop, and expand necessary controls and processes to ensure the integrity of sports wagering in the Tribal casinos.

During the 2015-17 budget, the OSP-TGS staff was reduced by one non-sworn FTE position, while the gaming industry in Oregon continues to grow the OSP-TGS has felt the effects from the reduction of this position. Currently OSP-TGS is staffed with 5 Governmental Auditors (GAIs) in Oregon. The additional oversight and monitoring functions from the eliminated position have been redistributed to the three GAIs that are assigned to the Salem office. With expansion of gaming technology and introduction of Sports Betting, it is vital to ensure OSP-TGS is staffed adequately to meet the monitoring and oversight requirements as outlined in the Tribal-State Compacts.

**Vendor Investigation Unit**

The Vendor Investigation unit protects fairness, integrity, security, and honesty of Gaming in Oregon. This is accomplished by investigations of all vendors who have an influence on the games or gaming operations before they are allowed to contract with the Oregon Lottery and/or the Gaming Tribes of Oregon. The unit is comprised of one part time Sergeant, three OSP Detectives and assistance by Governmental Auditors for financial analysis and contractual compliance reviews.

**Gaming Services**

2023-25 Governor's Budget						
Gaming Services	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
BASE BUDGET:	\$ 529,055.00	\$ 14,083,390.00		\$ 14,612,445.00	38	37.71

TOTAL POLICY PACKAGES	\$ 1,092.00	\$ 14,234.00	\$ -	\$ 15,326.00	0	0.00
<b>TOTAL BUDGET</b>	<b>\$ 540,540.00</b>	<b>\$ 14,124,007.00</b>	<b>\$ -</b>	<b>\$ 14,664,547.00</b>	<b>38</b>	<b>37.71</b>

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages and used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

2023-25 Oregon State Police  
Governor's Budget

Debt Services Division

**General Obligation Bond Debt Service**

**Purpose:**

This program unit exists to solely to track budget and expenditures for debt services related to General Obligation Bonds.

**Revenue Source:**

General Fund Debt Services

**Basis for 23-25 request:**

Debt Service requirement for existing dept and policy package requests provided by the Department of Administrative Services, Chief Financial Office, Capital Investment Section.

**Debt Services**

2023-25 Governor's Budget						
Debt Service	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

<b>TOTAL BUDGET</b>	<b>\$ 21,294,737.00</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 21,294,737.00</b>	<b>0</b>	<b>0.00</b>

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

Debt Services for Governor’s Budget does not include any essential packages for the 2023-25 biennium.

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 102**

**POP Title: Springfield Forensic Lab/ME Office/Command Area Capital Construction RECOMMENDED as MODIFIED in GB  
Total Request: \$48,645,007 Total Funds (\$44.1 General Obligation Bonds OF; \$4.5 General Fund Debt Service)**

**Purpose:**

The purpose of this Policy Option Package (POP) continues the XI-Q bonded financing the agency received in the 2021-23 biennium.

**How Achieved:**

Springfield, as an enhanced center of OSP operations, would make use of a strategy that locates Area Command facilities on one site, with Forensic Services Lab and Medical Examiner facilities co-located on another site. The Springfield Forensic lab and Medical Examiner project was designed to achieve the best value for the state by designing this facility to meet the growth needs of the Forensic Services Division for the next twenty years. This will enable the existing Forensic laboratories in Portland and Bend to stay at their existing locations over that same time period, thus achieving a significant cost savings for the state.

The Springfield office does not have sufficient space for current operations. To provide critical functionality to the state’s citizens a larger office is required. This is exemplified by the Forensics Division Springfield lab, with 24 forensic positions, attempting to carry out their work in less than 6,000 square feet of laboratory and office space. This equates to about 250 sq. feet per position, which is significantly below forensic lab standards and allows no room for growth to meet the state’s public safety needs in the future.

This project has been separated into two project locations. The Springfield Forensic Lab and Medical Examiner’s Office will be located in Eugene on Chad Drive. The agency is currently procuring bare land on Chad Drive for this office, actively in negotiation with the property owner to close on this property acquisition. We are planning an approximate 68k sq. foot – two story building on this property. We are estimating a total of \$83m land and property cost given the continual inflation, supply chain and labor market shortages that our country is currently facing. Or original cost estimates on this project was greater than two years old and the economy has changed rapidly since that time.

The original request for the Springfield Forensic Laboratory and Medical Examiner’s Office that was authorized in the 2021-23 biennial budget and needed to be requested in 2023-25 for the October 2023 sale was \$11,320,000. That would have been a total of \$71,982,733 for a project total. We are requesting an additional \$10m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$21,320,000 in project proceeds in the 2023-25 biennium.

The original request for the Springfield Patrol Area Command Office that was authorized in the 2021-23 biennial budget and needed to be requested in the 2023-25 for the October 2023 sale was \$3,600,000. That would be a total of \$33,961,269 for a project total. We are requesting an additional \$15m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$48,961,269 in project proceeds in the 2023-25 biennium.

Central Point Office Expansion, we are requesting an additional \$15m in bond authority to complete all Phases of this office expansion. The original bonding request of \$33.9m was estimated using information from 2020 as well as a design and plan that is not the direction, we are going with this project in reality with the current design build contractor we have contracted with. As well cost of construction has increased over 38%. Cost of materials has also escalated creating another point of price difference.

**Staffing Impact:**

None

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 103**

**POP Title: Portland/Ontario/Coos Bay Capital Construction** **NOT RECOMMENDED in GB**  
**Total Request: ~~\$16,589,414 Total Funds (\$15.1 General Obligation Bonds OF; \$1.5 General Fund Debt Service)~~**

**Purpose:**

The purpose of this Policy Option Package (POP) is to acquire land for a Portland, Ontario, and Coos Bay area command centers.

**How Achieved:**

In March 2020, in collaboration with the Department of Administrative Services (DAS) the Oregon State Police (OSP) completed a Strategic Facilities Framework Plan. FFA Architecture & Interiors was contracted to develop a strategic master facility plan for OSP. Phase two of this plan included Portland, Ontario, and Coos Bay land acquisition for area command offices. The plan in future biennia are to start the construction process after the land acquisitions in these areas.

**Staffing Impact:**

None

**Quantifying Results:**

The investment in these facilities is an important step towards providing public safety services across the state of Oregon.

**Revenue Source:**

General Fund Debt Service and Other Funds (Bond Proceeds)

2023-25 Oregon State Police  
Governor's Budget

Office of State Fire Marshal  
(OSFM) Division

## Office of State Fire Marshal Narrative

The Office of State Fire Marshal (OSFM) is responsible to protect people, their property, and the environment from fire and hazardous materials. The OSFM's programs do this through prevention, preparedness, and response activities, all of which are mandated by state statutes or federal regulations.

There are five (5) areas of responsibility within OSFM:

- 1) Leadership
- 2) Fire and Life Safety Education
- 3) Emergency Response Services
- 4) Fire and Life Safety Services
- 5) Regulatory Services

In the 2021 Regular Legislative Session, HB 2927 renames the Office of the State Fire Marshal to the Oregon Department of Fire Marshal (DSFM). The bill establishes DSFM as an independent agency effective, July 1, 2023. The measure states any unexpended balances of amounts authorized to be expended by the Oregon State Police for the purposes of the State Fire Marshal for 23-25, are to be transferred to DSFM at the beginning of the 2023-25 biennium. Oregon State Police removed OSFM from their budget in package 060 and DSFM established their budget with the corresponding package 60.

**Essential Packages**

Essential packages present budget adjustments needed to bring the base budget to Current Service Level, the calculated cost of continuing legislatively approved programs in the 2023-25 biennium.

010 – Vacancy Factor and Non-ORPICS Personal Services

This package includes standard inflation of 4.2 percent on non ORPICS items such overtime, differential, temporary appointments and unemployment assessment, including OPE associated with them. The vacancy factor calculation projects budget changes related to staff turnover and position vacancies during the 2021-23 biennium.

021 & 022 – Phased in/Phased out programs and one-time costs

These packages are used to phase in/out costs resulting from elimination of pilot programs, new programs and expansions of non-mandated caseload programs funded for less than 24 months during prior biennium but require a full 24 months, and other one-time costs that will not be funded in the 2023-25 biennium or remove any excess/empty limitation.

031, 032 and 033 – Inflation and Price List Adjustments

These packages are the basis for the increase for biennial general inflation as well as State Government Service Charges per the on-line price list. The biennial inflation factor for 2023-25 development is 4.2 percent for general inflation, 8.8 percent for Professional Services, and 6.2 percent for medical services.

050 – Fund Shifts

This package is for significant revenue changes in existing programs. The change may have occurred during the 2021-23 biennium or may be expected during the 2023-25 biennium. For example: a legislatively approved budget planned on Other Funds for a program, but Federal Funds are being used instead. These packages should be net-zero in Total Funds cost.

060 – Technical Adjustments

This package is to be used for technical budget adjustments, such as agency reorganizations and expenditure category shifts that do not fit into the standard Essential Packages No. 010 - 050. Use of this package requires prior approval by the CFO analyst and SABRS manager.

070 – Revenue Shortfalls

This package should include only Lottery Funds, Other Funds and Federal Funds expenditure reductions necessary to adjust the current service level to available revenues which are normally budgeted in the base and/or Essential Packages 010-060 (for Federal funds).

090 – Analyst Adjustment

This package reduces 27% of the inflation increase on Services and Supplies and Capital Outlay accounts.

091 – Additional Analyst Adjustment

This package increases vacancy savings to approximately 11 to 12 percent of General Fund supported Package Description salaries and wages.

092 – Statewide AG Adjustment

This package reduces Attorney General rates by 4.62 percent to reflect adjustments in the Package Description Governor’s Budget

093 – Statewide Adjustment DAS Charges

This package represents adjustments to State Government Service Charges and DAS pricelist charges for services made in the Governor’s Budget.

2023-25 Oregon State Police  
Governor's Budget

Facilities and Capital Construction  
Division

## Facilities & Capital Construction Narrative

The Oregon State Police's (OSP) facilities vision and aspiration is to own, operate and maintain appropriate facilities that adequately support our critical public safety mission, ensure our employees are safe, and enable us to best protect the people, property and natural resources of Oregon.

Currently OSP owns one property, Central Point Command (30,867 SF). We also occupy another 44 leased locations around the state (415,749 SF).

As new facility owners since 2017, OSP has prioritized development of that site in Central Point as well as the Springfield/Eugene area patrol and Medical Examiner & Forensic Lab sites. In 2019 OSP began development of a long-term Strategic Facility Master Plan. In 2020 OSP partnered with FFA Architecture & Interiors, Inc. and created a two phased approach, including scalable plans for Area Command and worksite facilities projects into the future. During the 2021 February Legislative session OSP Received General Fund backed Bond (IX-Q) authorization for funding three capital construction projects during the 2021-23 biennium. These three projects are:

- Central Point Command: major remodel of current structure as well as additional build to add square footage. Currently OSP is in contract with a Design Build Contractor and have started the planning, programming and design work for this project.
- Springfield Forensic Lab/Medical Examiner: OSP is currently in negotiation with the property owner of a piece of property in the Springfield/Eugene area to purchase in order to build this new structure.
- Springfield Area Command: OSP is currently in talks with ODOT to negotiate the purchase of the building and property currently leased from ODOT that houses the OSP Springfield ME/Lab and Patrol. The plan is to build a new structure on the 5-acre parcel purchased from ODOT and then demolish the prior building.

Target project completion in 2024 for all three projects. Understanding that there may be some fluctuation of this timeline in the face of material supply shortages, backlogs, labor shortages, real estate shortages, etc. We have also had to contend with severe market inflation and overall economic inflation that has increased the prices of materials and overall construction costs. As a result, the need to ask for additional bond authorization for these projects in the 2023-25 budget process is a necessity.

The agency's key drivers for facility needs includes aging and failing current location structures, staff size increase, and evidence storage. Providing space to house current and future staff are important facility needs that require ongoing updates to the agency's long-term facility plan. The Strategic Master Facility Plan prepared by FFA Architecture and Interiors, Inc. maximizes the life of OSP's current Forensic laboratories in Portland, Bend, Pendleton, and Central Point by positioning a new Springfield lab to absorb the projected growth in service demand over the next twenty years. This plan also addresses the long-term Patrol space needs at those locations.

The Oregon State Police did not seek funding during the 2021-23 biennium for long-term evidence warehouse storage. However, as a part of our current 2023-25 Agency Request budget is a policy option package funding request to pay the lease costs associated with this evidence warehouse storage space located in Wilsonville.

<b>Funding Source/s: Show the distribution of dollars by funding source for the full project cost.</b>	<b>General Funds</b>	<b>Lottery</b>	<b>Other</b>	<b>Federal</b>
	\$48,961,269			

<b>Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected</b>
<p>PLAN &amp; PROJECT: This project will increase the size of the main building, modernize the existing space and add two auxillary buildings. The plan increases the size of the forensic lab, evidence, medical examiner and patrol. It increases the ability to support Southern Oregon needs for autopsies and forensic investigations and improves the evidence storage capacity and chain of custody security.</p> <p>PROBLEM TO SOLVE: In order to provide effective public safety services into the future, investment in this location is needed now. The facility has not been improved or modernized in 23 years. This results in <u>significant deficiencies in resiliency, security, operations and environment</u>. The facility is too small and does not meet current or future growth needs.</p>

<b>Project Scope and Alternates Considered</b>
<p>The current size (23,470 sq ft) and footprint of the building is too small to accommodate the business needs. This project will increase the size of the main building, modernize the existing space and adds a 22,713 sq foot two story addition. The plan increases the size of the forensic lab, evidence, medical examiner and patrol.</p> <p>The option of an entirely new development on the existing site was evaluated against the plan of adding on and remodeling. This project is a best value for OSP as it is less cost and limits or eliminates disruption of services to Southern Oregon.</p>

	\$83,302,733			

**Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected**

PLAN & PROJECT: This is proposed as a build to suit for a Forensic Lab and Medical Examiner facility in the Springfield/Eugene Area.

PROBLEM TO SOLVE: The current space has significant deficiencies in resiliency, security, operations and environment. Current space is appx. 5,629 SF (appx 50% of the useable building space).

There is not enough space for the Lab to layout spaces to properly process evidence in keeping with a state-wide model. The current lab will not support the future growth. The Medical Examiner currently works from home and performs autopsies at a local hospital. This limits the number of autopsies the ME can perform and restricts the autopsies to the immediate area due to hospital requirements. The ME is not able to support the increasing demand from Multnomah County. The recent COVID-19 pandemic highlighted the lack of capacity available in state-wide peak demand situations.

**Project Scope and Alternates Considered**

The main building will be appx. 48,016 SF for the Forensic Lab and 20,625 SF for the Medical Examiner. Estimated lot size is 5 acres, we are in current negotiation on a piece of property off of Chad Drive. Separating Command from the Lab and ME will save money because the Lab and ME do not need to be on the land with easy freeway access.

Lease Vs Buy - Costs show that owning will be a better outcome for OSP because it is ultimately less expensive. For illustration, please see the table (rates are from DAS Leasing and the CostLab's general office cost):

	"Lease" Uniform Rental Rate: \$18.60/sf	"Own" Estimated O&M Expenditures: \$14.74/sf
<b>Costs Included</b>	<ul style="list-style-type: none"> <li>Building maintenance</li> <li>Custodial service</li> <li>Utilities</li> <li>Security</li> <li>Recycling</li> <li>Landscaping</li> <li>Administrative overhead</li> <li>Debt service</li> <li>Recapitalization</li> </ul>	<ul style="list-style-type: none"> <li>Building maintenance</li> <li>Repairs and replacements</li> <li>Custodial service</li> <li>Utilities</li> <li>Security</li> <li>Recycling</li> <li>Landscaping</li> <li>Recapitalization</li> </ul>
<b>Costs Not Included</b>	<ul style="list-style-type: none"> <li>Lessee personnel costs for lease management</li> <li>Specialized operations and maintenance needs (including 24/7 operations)</li> <li>Tenant improvements</li> </ul>	<ul style="list-style-type: none"> <li>Debt service for upfront capital investment</li> <li>Personnel costs for Agency Facilities Management administration</li> </ul>

*Note: In an "own" scenario, the costs for debt service and overhead still exist but they aren't captured by CostLab's industry benchmarks for O&M costs/sf. Since debt service can vary widely based on specific financing details, which are unknown to us at this point, we haven't tried to include those costs in the "own" column.*

OSP is working with DAS Leasing and we will be considering the cost and benefit of a "lease to own" scenario. Advantages include less up front costs and potential for a shorter project timeline. Disadvantages include higher overall costs. We are currently working with DAS Real Estate to acquire the property for this

<b>Funding Source/s: Show the distribution of dollars by funding source for the full project cost.</b>	<b>General Funds</b>	<b>Lottery</b>	<b>Other</b>	<b>Federal</b>
	\$21,539,873			

**Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected**

**PLAN & PROJECT:** This is proposed as a build to suit for an area command facility in the Springfield area. The building will house the Southern Command for Patrol, Fish & Wildlife and Evidence. OSP has entered into negotiations with ODOT regarding the current building an acreage the current Springfield Area Command is housed in. Operation will occur as currently is until the new building is constructed, and then will be demolished.

**PROBLEM TO SOLVE:** The current space has significant deficiencies in resiliency, security, operations and environment. Current space is appx. 4,034 SF (appx 36% of the useable building space).

There is not enough space for Patrol and F&W staff to conduct their work. They currently share a single breakroom table for report writing. There is insufficient restrooms, showers, lockers and no Lactation room. There is insufficient evidence storage and inadequate chain of custody for the transferring of evidence. The interview room does not have secure access, civilians are walked through staff areas to access the room. There is no separation for the sex offender registration meaning the registrants are in the same space as civilians seeking other OSP services.

**Project Scope and Alternates Considered**

The main building will be apprx, 10,776 SF and the warehouse (for equipment, boats, trailers etc) will be apprx 6,400 SF. Estimated lot size is 5 acres. The property will be located near I-5 and built to current essential facility standards. Separating Command from the Lab and ME will save money because the Lab and ME do not need to be on the land with easy freeway access. We are purchasing the existing building and 5 acres the building sits on from ODOT.

Leave Vs Buy - Costs show that owning will be a better outcome for OSP because it is ultimately less expensive. For illustration, please see the table (rates are from DAS Leasing and the CostLab's general office cost

<b>USF</b>	<b>3</b>	Usable Square Feet per BOMA definition for office/administrative uses. Area of a floor occupiable by a tenant where personnel or furniture are normally housed plus building amenity areas that are convertible to occupant area and not required by code or for the operations of a building. If not known, estimate the percentage.
<b>O&amp;M</b>	<b>4</b>	Total Operations and Maintenance Costs for facilities including all maintenance, utilities and janitorial

## Facilities Summary Report

2023-25 Biennium

Agency Name Oregon State Police

Table A: Owned Assets Over \$1M CRV		FY 2022 DATA	
Total Number of Facilities Over \$1M	2		
Current Replacement Value \$ (CRV)	1	\$10,959,296	Source <span style="border: 1px solid black; padding: 2px;">4 FCA</span> Risk or FCA
Total Gross Square Feet (GSF)	30,867		
Office/Administrative Usable Square Feet (USF)	2	15,349	Estimate/Actual <span style="border: 1px solid black; padding: 2px;">5</span> 50% % USF/GSF
Occupants Position Count (PC)	3	102	Office/Admin USF/PC <span style="border: 1px solid black; padding: 2px;">6</span> 150
			or Agency Measure <span style="border: 1px solid black; padding: 2px;">7</span>

Table B: Owned facilities under \$1M CRV	
Number of Facilities Under \$1M	1
CRV	1
Total Gross Square Feet (GSF)	6,000

Table C: Leased Facilities			
Total Rentable SF	8	415,749	
Total 2023-25 Biennial Lease Cost	19,688,020		
Additional 2021-23 Costs for Lease Properties (O&M)	9	\$1,930,909	
Office/Administrative Usable Square Feet (USF)	2	262,692	Estimate/Actual <span style="border: 1px solid black; padding: 2px;">5</span> 63% % USF/GSF
Occupants Position Count (PC)	3	1400	Office/Admin USF/PC <span style="border: 1px solid black; padding: 2px;">6</span> 188

**ALL:** OSP Space includes Evidence storage, emergency response equipment storage, dispatch, medical examiner, forensic labs and auto shops. These areas take a considerable portion of the buildings.

**Central Point:** The Support Building is nearly 100% non USF#.

**Leased:** Used a 65% estimate for USF in lieu of measuring. In facilities with Lab/ME and Evidence areas and at HQ we will be less than 65% USF. Example; HQ at 65% is 77,805 USF but actual is closer to 65,300 due to shop and storage/warehouse.

**Definitions**

<b>CRV</b>	<b>1</b>	Current Replacement Value Reported to Risk Management <i>or Calculated Replacement Value Reported from iPlan Facility Conditions Assessment (FCA)</i>
<b>USF</b>	<b>2</b>	Usable Square Feet per BOMA definition for office/administrative uses. Area of a floor occupiable by a tenant where personnel or furniture are normally housed plus building amenity areas that are convertible to occupant area and not required by code or for the operations of a building. If not known, estimate the percentage.
<b>Occupant Position Count (PC)</b>	<b>3</b>	Total Legislatively Approved Budget (LAB) Position Count within the buildings or leases as applicable.
<b>Source</b>	<b>4</b>	Enter Source of CRV as "Risk" or "FCA"
<b>Estimate/Actual</b>	<b>5</b>	Use actual USF % of USF to GSF, if available. If not known, estimate the percentage.
<b>Office/Administrative USF/PC</b>	<b>6</b>	Divide your USF by your position count. If office/admin space is a less than 10% of your space use, fill in N/A and fill in #7, "Agency Measure".
<b>Agency Measure</b>	<b>7</b>	If not using USF/PC, insert Agency Measure as defined in 107BF02 question #1.
<b>RSF</b>	<b>8</b>	Rentable SF per BOMA definition. The total usable area plus a pro-rated allocation of the floor and building common areas within a building.
<b>O&amp;M</b>	<b>9</b>	Total Operations and Maintenance Costs for facilities including all maintenance, utilities and janitorial

## Facilities Operations and Maintenance and Deferred Maintenance Report

2023-25 Biennium

### Definitions

<b>Facilities Operations and Maintenance Budget</b>	<b>1</b>	The Facilities Operations and Maintenance budget includes costs to operate and maintain facilities and keep them in repair including utilities, janitorial and maintenance costs. Maintenance costs are categorized as external building (roof, siding, windows, etc.); interior systems (electrical, mechanical, interior walls, doors, etc.); roads and ground (groundskeeper, parking lots, sidewalks, etc.) and centrally operated systems (electrical, mechanical, etc.). Agencies with significant facilities may include support staff if directly associated with facilities maintenance activities. Do not include other overhead costs such as accounting, central government charges, etc.
<b>O&amp;M Estimated Fund Split Percentage %</b>	<b>2</b>	Show the fund split by percentage of fund source allocated to facility O&M for your agency
<b>Total Short and Long Term Maintenance and Deferred Maintenance Plan for Facilities Value Over \$1M</b>	<b>3</b>	All Maintenance excluding routine O&M costs. 19-21 and 21-23 auto-populates with 2% of the sum of your agency portfolio's CRV. Written to deliver on SB 1067: SECTION 9. (1) Each biennium, the Governor shall propose as part of the Governor's recommended budget an amount for deferred maintenance and capital improvements on existing state-owned buildings and infrastructure that is equivalent to at least two percent of the current replacement value of the state-owned buildings and infrastructure.
<b>Priority One: Currently Critical</b>	<b>4</b>	From the Budget Instruction: Priority One projects are conditions that require immediate action in order to address code and accessibility violations that affect life safety. Building envelope issues (roof, sides, windows and doors) that pose immediate safety concerns should be included in this category.
<b>Priority Two: Potentially Critical</b>	<b>5</b>	From the Budget Instruction: Priority Two projects are to be undertaken in the near future to maintain the integrity of the facility and accommodate current agency program requirements. Included are systems that are functioning improperly or at limited capacity, and if not addressed, will cause additional system deterioration and added repair costs. Also included are significant building envelope issues (roof, sides, windows and doors) that, if not addressed, will cause additional system deterioration and added repair costs.
<b>Priority Three: Necessary - Not yet Critical</b>	<b>6</b>	From the Budget Instructions: Priority Three projects could be undertaken in the near to mid-term future to maintain the integrity of a building and to address building systems, building components and site work that have reached or exceeded their useful life based on industry standards, but are still functioning in some capacity. These projects may require attention currently to avoid deterioration, potential downtime and consequently higher costs if corrective action is deferred.
<b>Priority Four: Seismic and Natural Hazard Remediation</b>	<b>7</b>	From the Budget Instructions: Priority Four projects improve seismic performance of buildings constructed prior to 1995 building code changes to protect occupants, minimize building damage and speed recovery after a major earthquake. Projects also include those that mitigate significant flood hazards.
<b>Priority Five: Modernization</b>	<b>8</b>	From the Budget Instructions: Priority Five projects are alterations or replacement of facilities solely to implement new or higher standards to accommodate new functions, significantly improve existing functionality as well as replacement of building components that typically last more than 50 years (such as the building structure or foundations). These standards include system and aesthetic upgrades which represent sensible improvements to the existing condition. These projects improve the overall usability and reduce long-term maintenance requirements. Given the significant nature of these projects, the work typically addresses deficiencies that do not conform to current codes, but are 'grandfathered' in their existing condition to the extent feasible.
<b>Facility Condition Index</b>	<b>9</b>	A calculated measure of facility condition relative to its current replacement value (expressed as a percentage)

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 102**

**POP Title: Springfield Forensic Lab/ME Office/Command Area Capital Construction RECOMMENDED as MODIFIED in GB  
Total Request: \$48,645,007 Total Funds (\$44.1 General Obligation Bonds OF; \$4.5 General Fund Debt Service)**

**Purpose:**

The purpose of this Policy Option Package (POP) continues the XI-Q bonded financing the agency received in the 2021-23 biennium.

**How Achieved:**

Springfield, as an enhanced center of OSP operations, would make use of a strategy that locates Area Command facilities on one site, with Forensic Services Lab and Medical Examiner facilities co-located on another site. The Springfield Forensic lab and Medical Examiner project was designed to achieve the best value for the state by designing this facility to meet the growth needs of the Forensic Services Division for the next twenty years. This will enable the existing Forensic laboratories in Portland and Bend to stay at their existing locations over that same time period, thus achieving a significant cost savings for the state.

The Springfield office does not have sufficient space for current operations. To provide critical functionality to the state’s citizens a larger office is required. This is exemplified by the Forensics Division Springfield lab, with 24 forensic positions, attempting to carry out their work in less than 6,000 square feet of laboratory and office space. This equates to about 250 sq. feet per position, which is significantly below forensic lab standards and allows no room for growth to meet the state’s public safety needs in the future.

This project has been separated into two project locations. The Springfield Forensic Lab and Medical Examiner’s Office will be located in Eugene on Chad Drive. The agency is currently procuring bare land on Chad Drive for this office, actively in negotiation with the property owner to close on this property acquisition. We are planning an approximate 68k sq. foot – two story building on this property. We are estimating a total of \$83m land and property cost given the continual inflation, supply chain and labor market shortages that our country is currently facing. Or original cost estimates on this project was greater than two years old and the economy has changed rapidly since that time.

The original request for the Springfield Forensic Laboratory and Medical Examiner’s Office that was authorized in the 2021-23 biennial budget and needed to be requested in 2023-25 for the October 2023 sale was \$11,320,000. That would have been a total of \$71,982,733 for a project total. We are requesting an additional \$10m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$21,320,000 in project proceeds in the 2023-25 biennium.

The original request for the Springfield Patrol Area Command Office that was authorized in the 2021-23 biennial budget and needed to be requested in the 2023-25 for the October 2023 sale was \$3,600,000. That would be a total of \$33,961,269 for a project total. We are requesting an additional \$15m in project proceeds to finish this project within the current economic landscape and the cost of land and construction, which has been in a steady inflationary incline. This project we are requesting a total of \$48,961,269 in project proceeds in the 2023-25 biennium.

Central Point Office Expansion, we are requesting an additional \$15m in bond authority to complete all Phases of this office expansion. The original bonding request of \$33.9m was estimated using information from 2020 as well as a design and plan that is not the direction, we are going with this project in reality with the current design build contractor we have contracted with. As well cost of construction has increased over 38%. Cost of materials has also escalated creating another point of price difference.

**Staffing Impact:**

None

**Quantifying Results:**

The investment in these facilities is an important step towards providing public safety services across the state of Oregon.

**Oregon State Police - Capital Construction  
Policy Option Package (POP): 103**

**POP Title: Portland/Ontario/Coos Bay Capital Construction** **NOT RECOMMENDED in GB**  
**Total Request: ~~\$16,589,414 Total Funds (\$15.1 General Obligation Bonds OF; \$1.5 General Fund Debt Service)~~**

**Purpose:**

The purpose of this Policy Option Package (POP) is to acquire land for a Portland, Ontario, and Coos Bay area command centers.

**How Achieved:**

In March 2020, in collaboration with the Department of Administrative Services (DAS) the Oregon State Police (OSP) completed a Strategic Facilities Framework Plan. FFA Architecture & Interiors was contracted to develop a strategic master facility plan for OSP. Phase two of this plan included Portland, Ontario, and Coos Bay land acquisition for area command offices. The plan in future biennia are to start the construction process after the land acquisitions in these areas.

**Staffing Impact:**

# State Police, Oregon

Annual Performance Progress Report

Reporting Year 2022

Published: 9/29/2022 3:56:31 PM

KPM #	Approved Key Performance Measures (KPMs)
1	Transportation Safety - Enhance transportation safety by reducing fatal crashes on state and interstate highways to fewer than 5.06 per 100,000,000 vehicle miles traveled (VMT) where the Oregon State Police (OSP) have primary responsibility.
2	Traffic Incident Management - Percent of lane blocking crashes cleared within 90 minutes.
3	Ignition Interlock Device Compliance - Increase compliance with the requirement of offenders to install Ignition Interlock Devices to reduce crashes and improve transportation safety on Oregon roadways.
4	Angler and Hunter Contacts - Increase interactions with anglers and hunters.
5	Illegal Harvest - Improve detection of illegally harvested non-commercial fish and wildlife.
6	Crime Reduction - Percent of major crime team call-outs resolved within 12 months from date of call-out.
7	Crime Reduction - Number of Dismantled or Disrupted Drug Trafficking Organizations (DTO's).
8	Forensic Analysis - Percentage of analytical requests completed within 30 days or less.
9	Criminal Justice Information Services (CJIS) Division Turnaround Time - Average turnaround time, from the date of receipt of manual and electronic criminal justice fingerprint cards by the CJIS Division, until the criminal justice data is posted into the Computerized Criminal History (CCH) Files.
10	Property Protection - The percentage of threatened residential and commercial properties saved from destruction by an approaching wildfire after initiation of operations by OSFM mobilized resources.
11	RESIDENTIAL FIRE DEATH RATE: - Number of Oregonians per capita that die in a residential fire.
12	Customer Satisfaction - Percent of customers rating their satisfaction with the agency customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.

Proposal	Proposed Key Performance Measures (KPMs)
Delete	Forensic Analysis - Percentage of analytical requests completed within 30 days or less.
New	Forensic Analysis - Percentage of analytical requests completed within 30 days or less.
Delete	Property Protection - The percentage of threatened residential and commercial properties saved from destruction by an approaching wildfire after initiation of operations by OSFM mobilized resources.
Delete	RESIDENTIAL FIRE DEATH RATE: - Number of Oregonians per capita that die in a residential fire.

Performance Summary	Green	Yellow	Red
	= Target to -5%	= Target -5% to -15%	= Target > -15%
Summary Stats:	33.33%	8.33%	58.33%

KPM #1	Transportation Safety - Enhance transportation safety by reducing fatal crashes on state and interstate highways to fewer than 5.06 per 100,000,000 vehicle miles traveled (VMT) where the Oregon State Police (OSP) have primary responsibility.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = negative result

Report Year	2020	2021	2022	2023	2024
<b>Transportation Safety</b>					
Actual	9.19	8.60	10.30		
Target	5.06	5.06	5.06	5.06	

#### How Are We Doing

The previous metric for this Key Performance Metric (KPM) was to reduce fatal crashes on state and interstate highways where OSP has primary responsibility by 2.5% annually (from 2012 to 2022), reaching a target of 101 fatal crashes by 2022. Due to factors beyond OSP's control, such as licensed number of drivers and vehicle miles travelled, it was unlikely OSP would be able to achieve a purely nominal target.

Instead, OSP changed the metric based on the number of fatal crashes vehicle miles travelled (VMT) on highways segments where Oregon State Police has primary responsibility. In 2015, the fatal crash rate per 1,000,000,000 VMT was 7.79. Between 2010 - 2015, the lowest fatal crash rate per 1,000,000,000 VMT was 5.63 (in 2013). Using an average of 100 fatal crashes per 1,000,000,000 VMT over a six-year period (2010 - 2015), OSP's new target is a fatal crash rate of 5.06 or lower per 1,000,000,000 VMT.

In calendar year 2020 (the most recent validated data from ODOT's Crash Analysis Unit), the fatal crash rate per 1,000,000,000 VMT was 10.30. This is not only higher than the 8.60 fatal crash rate in calendar year 2019, but the highest since 2010. The previous high was 9.97 fatal crashes per 1,000,000,000 VMT in calendar year 2016, when 213 fatal crashes were recorded. Although 2020 had fewer total fatal crashes (201) than in 2016, the VMT was lower in 2020 than in 2016 resulting in a higher fatal crash rate.

#### Factors Affecting Results

Enforcement plans focused on changing driving behaviors in an effort to reduce crashes are developed and implemented. Patrol offices around the state also work with ODOT and other partners on engineering and education efforts aimed at reducing crashes. There are other variables that affect crash rates outside the control of OSP's enforcement, education, engineering and emergency

medical services efforts. Some of these variables include the economy, adverse weather events, number of licensed drivers, and changes in annual vehicle miles travelled.

In 2020, the number of vehicles miles travelled on Oregon's highways dropped to its lowest level (19,506,900,000) since calendar year 2012, due to COVID-19 restrictions. As a result of these restrictions, proactive enforcement efforts were significantly lower. Conversely, during 2020 OSP saw an increase of speeding violation where speeds exceeded 100 mph, in part because of reduced traffic volume and enforcement presence. These excessive speeds were a contributing factor to the number of fatal crashes on Oregon's highways as speed was a leading fatal crash factor.

KPM #2	Traffic Incident Management - Percent of lane blocking crashes cleared within 90 minutes.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Percentage of crashes cleared within 90 minutes on highways where OSP has primary responsibility</b>					
Actual	75%	75%	79%		
Target	80%	80%	80%	80%	

#### How Are We Doing

Prior to the 2021 calendar year, the clearance rate on highways where OSP has primary responsibility has been relatively stable the last three years coming in at 75% (2018 = 75%; 2019 = 75%, 2020 = 75%). However, in 2021 the clearance rate improved to 79% which is the highest rate recorded since calendar year 2010.

More recently, according to data published by ODOT on September 14, 2022, the Department is currently exceeding our goal by 2 percent. Through September 14, 2022, OSP and ODOT combined efforts resulted in 82% of lane blocking crashes being cleared in under 90 minutes, which is continuing the upward trend and exceeding the target of 80%.

#### Factors Affecting Results

Actions to clear travel lanes after a crash can range from being simple, such as when vehicles are still drivable, to the more complex. Factors affecting results can include such things as the availability of first responder resources, complex investigations, the number of vehicles travelling the roadways and infrastructure. OSP, along with its partners in this effort have had a renewed focus on Traffic Incident Management (TIM), particularly on opening travel lanes has helped reduce the overall times lanes are closed. OSP continues to look for ways to reduce lane closures through more effective means of Traffic Incident Management principles.

KPM #3	Ignition Interlock Device Compliance - Increase compliance with the requirement of offenders to install Ignition Interlock Devices to reduce crashes and improve transportation safety on Oregon roadways.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Ignition Interlock Device Compliance</b>					
Actual	19%	23%	21%		
Target	40%	45%	50%	55%	

#### How Are We Doing

The Oregon State Police (OSP) assumed the Ignition Interlock Device (IID) program formally from the Oregon Department of Transportation in July 2019. The most recent available data from the Oregon Driver and Motor Vehicles Division (June 2022) indicate there were 34,047 drivers with an IID Requirement. Conversely, the most recent IID installation data shows there were 7,187 devices installed (August 2022), which translates to a compliance rate of 21.1%.

The Department did not reach our target of a 50% compliance rate. However, the number of drivers with an installed IID device did increase from 6,843 (as of August 2021) to 7,187 (as of August 2022). Although there was an increase in the number of installed IID devices, the number of drivers requiring an IID device also saw a larger increase, resulting in a 21.1% compliance rate.

#### Factors Affecting Results

During 2020-2021, COVID-19 restrictions impacted the ability of OSP members to proactively enforce the requirements of the IID program. Likewise, COVID-19 restrictions also had negative impacts on the ability for some participants to meet their mandated requirements.

Furthermore, existing statutes make enforcement of IID violations extremely difficult. Because of the inability of OSP to enforce IID requirements, voluntary compliance with court-issued mandates is low. The Department has submitted a legislative concept for the 2023 session to allow for more proactive enforcement of IID violations in effort to raise compliance rates. In the meantime, OSP is continuing to conduct service center inspections and will continue working to increase education efforts.

KPM #4	Angler and Hunter Contacts - Increase interactions with anglers and hunters.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Number of Angler and Hunter Contacts</b>					
Actual	84,568	76,647	57,970		
Target	85,000	85,000	85,000	85,000	

**How Are We Doing**

In calendar year 2021, the Fish and Wildlife Division achieved 57,970 angler and hunter contacts, achieving approximately 68% percent of the target level of 85,000 angler and hunter contacts per year. This results in an approximate 24% decrease in contacts when compared to 2020 and is the fewest contacts made since 2013.

**Factors Affecting Results**

The KPM target was nearly reached in 2019 and 2018, achieving a 99% and 98% contact rate respectively. However, with the COVID-19 pandemic still an issue in 2021, it impacted the Division's ability to achieve the target. As was mentioned in last year's report, the Division had a significant amount of vacancies due to a challenging recruiting environment. In addition, the Division has enhanced its reporting system, which will add a new data quality layer to ensure data entry is being captured as expected. This extra data quality layer wasn't implemented in the during the 2021 calendar year and may have contributed to the low numbers.

KPM #5	Illegal Harvest - Improve detection of illegally harvested non-commercial fish and wildlife.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Illegal Harvest</b>					
Actual		1,315	609		
Target		2,000	2,000	2,000	2,000

**How Are We Doing**

In calendar year 2021, Fish and Wildlife Division Troopers detected 609 illegally harvested fish and wildlife species, missing the target by approximately 70%. This is the most percentage points the Division has been below the target of illegal harvest detections. The previous low was in 2020, when the Division missed the target by 34%.

**Factors Affecting Results**

With the COVID-19 pandemic still an issue in 2021, it impacted the Divisions ability to achieve the target. How much of an impact would be hard to quantify given the many variables. However, a large contributing factor to the lack of illegal harvest detections was the Division had a significant number of vacancies due to a challenging recruiting environment. In addition, the Division has enhanced its reporting system, which simplified the reporting process and add a new data quality layer to ensure data entry is being captured as expected. These reporting factors may have contributed to the low numbers seen in 2021.

KPM #6	Crime Reduction - Percent of major crime team call-outs resolved within 12 months from date of call-out.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Percent of major crime team call-outs resolved within 12 months from date of call-out</b>					
Actual	96%	99%	97%		
Target	95%	95%	95%	95%	

**How Are We Doing**

Between January and December of 2020, Major Crime Section detectives responded to 109 major crime team call-outs across the state. Of those, 106 were resolved within 12 months for a resolution rate of 97%.

Every year since 2014, the 93% resolution rate target (established in 2009) had been met or exceeded. For 2018 (reported in 2020), the target was raised to a 95% resolution rate. Fortunately, the Major Crime Section detectives achieved a 96% resolution rate in 2018, which exceeded the new target. The resolution rate for 2019 (reported in 2021) climbed to 99%. For 2020 (reported in 2022), the resolution rate was 97%, once again exceeding the target.

**Factors Affecting Results**

The complex nature of major crime investigations, the availability of resources in relation to the scope of the investigation, and the geographical location of the investigation team may impact the result of this performance measure. Other contributing factors are attrition to our workforce, and an increased role in Oregon’s distressed timber counties. For instance, in June 2012, the Josephine County Sheriff’s Office began referring a large portion of all their criminal investigations.

KPM #7	Crime Reduction - Number of Dismantled or Disrupted Drug Trafficking Organizations (DTO's).
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Number of Drug Trafficking Organizations Dismantled / Disrupted</b>					
Actual	73	29	13		
Target	35	35	45	45	

**How Are We Doing**

The number of Drug Trafficking Organizations (DTOs) the Oregon State Police (OSP) assisted in dismantling or disrupting decreased from 29 in calendar year 2020 (reported in 2021), to 13 in calendar year 2021 (reported in 2022). The target for the number of DTOs dismantled or disrupted was increased from 20 to 25 in calendar year 2018 and was subsequently raised again the following year to 35, which was surpassed significantly when 73 DTOs were dismantled or disrupted. However, the number of dismantled or disrupted DTOs dropped to 29 in 2021, missing the target (35) by 17%. In 2022, the target was increased to 45 while the number of DTOs dismantled or disrupted dropped further to 13, resulting in the new target being missed by 71%.

**Factors Affecting Results**

Task forces vary in their mission and focus to target street-level, mid-level or upper-level drug investigations. Mid to upper-level narcotic investigations, focusing on DTO's, are more complex and longer in duration while street level investigations tend to be direct in nature and short-term. OSP has had a consistent, tenured presence on drug task forces statewide, particularly those larger in size, that have a greater case volume and are focused on higher level illegal drug activity, which take longer to resolve. During 2021, OSP Drug Enforcement Section (DES) detectives were involved in several long-term investigations, reducing their availability to work on other DTO related investigations.

The Drug Enforcement Section (DES) of OSP experienced many challenges during the 2021 calendar year, including a reduction in drug cases. Challenges leading to the decrease in drug seizures include travel and training restrictions due to COVID-19, lower levels of traffic enforcement due to a decrease of traffic volume, and more restrictive case law rulings. Budget uncertainties due Ballot Measure 110 and COVID-19 impacts resulted in 10 DES Detectives being temporarily transferred to Patrol Division in 2020. When the Detectives returned to DES in late 2021, some joined our new marijuana enforcement teams and never returned to the multi-agency teams. Consequently, the Drug Enforcement Section (DES) of OSP now has fewer people on Multi-Agency Task Forces that target DTOs. In addition, priorities have shifted toward enforcing illegal marijuana manufacturing/distribution. Several Criminal Division personnel are assigned to teams focused on illegal marijuana

enforcement efforts instead of multi-agency teams focused on dismantling or disrupting DTOs, thereby reducing our capacity to dismantle or disrupt DTOs. The remaining detectives were reassigned back to their multi-agency teams in late 2021, but their availability to assist with dismantling or disrupting DTOs was limited due to timing.

KPM #8	Forensic Analysis - Percentage of analytical requests completed within 30 days or less.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Percentage of analytical requests completed within 30 days</b>					
Actual	28%	22%	24%		
Target	68%	71%	74%	77%	

#### How Are We Doing

In the 2021 calendar year, the percentage of analytical requests completed in 30 days or less was 24%, which was a small improvement from 2020 (22%). The number of requests that took over 90 days to complete in 2021 was 28%, the same as it was in 2020.

Firearms, Field Investigations, and Biology continued to be the disciplines with the fastest turnaround times in the Division. While they remained the quickest, all three completed smaller percentages of requests in under 30 days at 55%, 49%, and 43% than in 2020 (66%, 63%, and 51%) respectively. However, Drug Chemistry increased from 18% to 27%, DNA increased from 22% to 28% and Toxicology as a whole, increased from 11% to 14%.

#### Factors Affecting Results

The slight improvement in KPM performance during 2021 was not unexpected due to the continuing COVID-19 pandemic, teleworking, and the number of vacancies the Division was holding due the hiring freeze. The fact that a considerable number of scientists were on leave or teleworking resulted in numerous productivity challenges.

Although toxicology production increased by more than 4% and DNA production increased by 9.6% from 2020 to 2021, that was offset by a 14% increase in toxicology submissions and a 9% increase in DNA submissions during that same period. Handling this growing demand requires constant management of our limited resources and balancing the changing needs of our partner agencies. An example of the difficulties to keep pace with increasing demand is evident within our Toxicology metrics. Although ante-mortem increased from 18% to 24% in 2021, post-mortem dropped from 4.5% to 3.8% over the same time period.

KPM #9	Criminal Justice Information Services (CJIS) Division Turnaround Time - Average turnaround time, from the date of receipt of manual and electronic criminal justice fingerprint cards by the CJIS Division, until the criminal justice data is posted into the Computerized Criminal History (CCH) Files.
	Data Collection Period: Jan 01 - Dec 31

Report Year	2020	2021	2022	2023	2024
<b>Manual Fingerprint Cards Average Turnaround (Days)</b>					
Actual	12.60	1.20	2		
Target	4	4	4	4	
<b>a. Electronic Fingerprint Cards Average Turnaround (Hours)</b>					
Actual	2.55	0.38	0.70		
Target	2	2	2	2	

**How Are We Doing**

The Oregon State Police’s ability to meet this performance measure solely depends on staff resources within the Criminal Justice Information Services (CJIS) Division. Livescan technology and automated processing improvements have significantly reduced that dependency and a revised target of 4-days became possible, down from the previous 8-day turnaround at initial implementation of livescan statewide.

For calendar year 2021, the 4-day manual card turnaround target was met and exceeded. The manual card average turnaround time for 2021 was 2.02 days (48.5 hours) and for the year, manual cards represented 1% of the total criminal arrest cards received. Automated submissions, representing 99% of the total criminal arrest cards received, were completed within 0.70 hours (42 minutes). This is an improvement over the 2-hour target for this submission workload.

**Factors Affecting Results**

Staffing levels and agencies’ use of livescan technology have a direct effect on our performance results, as does the availability of our infrastructure systems. All of Oregon’s county jail facilities use livescan technology to submit their arrest fingerprint cards, with a growing number of local police departments also acquiring livescan technology. All agencies using livescan devices submit fingerprints using the automated process. However, there continue to be instances where manually captured prints are necessary due to either an agency not having a livescan machine or circumstances that make a manual print necessary (i.e. nature disaster, power issues, ADA compliance, etc.). Therefore, OSP will continue to maintain some level of accepted manual processing services in order to meet this need.

During this reporting period the Computerized Criminal History (CCH) and Automated Biometric Identification System (ABIS) Units both had significant staffing vacancies. While the ABIS Unit maintained their 24/7 scheduling and availability for the whole of 2021, the CCH Unit was largely working remotely in compliance with Executive Order 20-03, declaring a state of emergency for COVID-19. Additionally, contributing agencies significantly decreased their overall submissions, using cite and release for many months before resuming regular arrest fingerprint-based bookings. This helped CJIS maintain our core services while addressing internal resource issues that had not previously been encountered within the Division.

KPM #10	Property Protection - The percentage of threatened residential and commercial properties saved from destruction by an approaching wildfire after initiation of operations by OSFM mobilized resources.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Percentage of threatened structures saved from approaching wildfires by OSFM mobilizations</b>					
Actual	100%	98.10%	96.60%		
Target	100%	100%	100%	100%	

**How Are We Doing**

In 2021, OSFM responded to nine declared conflagrations. Resources from 121 Oregon fire agencies were mobilized to protect threatened structures during the 2021 fire season at an estimated cost of \$21 million to protect 12,097 structures with an estimated value of more than \$2.5 billion. The success rate of protecting the structures threatened in the nine conflagration zones during 2021 was 96.6 percent. Of the total structures lost in 2021, 97% were lost during the initial phases of the Bootleg Fire, Oregon’s third largest fire in recorded history.

**Factors Affecting Results**

The primary factors affecting the results of this measure are the location of fire, the weather conditions of the area, the speed and effectiveness of the initial fire responses, and the determinations made by the involved county’s Fire Defense Board Chief and local Incident Commander. Ultimately, a variety of factors including the size and rate of advancement of the fire will be the determining factor affecting the need for a conflagration request and therefore the results of this key performance measure. Recent fires in California, Washington, Idaho, and Montana have resulted in catastrophic losses in the number of residences destroyed by the fast-moving wildland fires. The hazards and vulnerabilities faced in these other states are similar to those in Oregon.

The target of saving 100 percent of threatened structures after the initiation of operations by OSFM mobilized resources at the scene of a conflagration is an honorable and lofty goal. There are many variables beyond the control of OSFM when confronting wildland fires. Establishing and achieving results that approach or meet this target requires bold and aggressive actions by the responding resources. This is possible as a result of training, and the implementation of effective planning and tactical operations. However, mitigating the impact of wildland fires in the areas surrounding structures across Oregon is often beyond the control of OSFM.

KPM #11	RESIDENTIAL FIRE DEATH RATE: - Number of Oregonians per capita that die in a residential fire.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = negative result

Report Year	2020	2021	2022	2023	2024
<b>Number of fire fatalities per million (Numbers exclude vehicle, homicides, suicides, and other nonresidential fire deaths)</b>					
Actual	3.30		6.33		
Target	4	4	4.10	4.10	

#### How Are We Doing

The total number of deaths from residential fires in Oregon for 2021 was 27. This is a 59 percent increase from 2020, when the state experienced 17 deaths as a result of residential fires. Perhaps due to the pandemic when many Oregonians spent much of their time at home, deaths resulting from residential fires increased 21% from 2019 to 2020. The number of deaths reported in 2021 is a 93% increase over 2019.

The target for this KPM reflects OSFM's goal to be in the top quartile of states across the nation for this measurement. This is based on data obtained from the most recent state statistics available on the CDC's WISQARS database. The target for next year will be updated to reflect the most recent data, which is from 2020 (4.6 residential fire deaths per million).

#### Factors Affecting Results

Factors influencing the residential death rate from fire vary and can be influenced through social changes, such as pandemic mandates and social vulnerability factors. OSFM works to reduce residential fire deaths through comprehensive fire prevention and life safety programs and services. OSFM education activities reduce risk to individuals by encouraging better safety choices. Education empowers Oregonians to participate in fire prevention and increases the likelihood of surviving a fire at home.

KPM #12 Customer Satisfaction - Percent of customers rating their satisfaction with the agency customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.  
 Data Collection Period: Jan 01 - Dec 31

Report Year	2020	2021	2022	2023	2024
<b>1. Timeliness</b>					
Actual	71%		71%		
Target	90%		90%	90%	
<b>2. Helpfulness</b>					
Actual	100%		88%		
Target	95%		95%	95%	
<b>3. Expertise</b>					
Actual	96%		95%		
Target	100%		100%	100%	
<b>4. Availability of Information</b>					
Actual	85%		70%		
Target	90%		90%	90%	
<b>5. Accuracy</b>					
Actual	94%		90%		
Target	95%		95%	95%	
<b>6. Overall</b>					
Actual	89%		79%		
Target	90%		90%	90%	

In 2006, the Oregon State Police conducted its initial customer satisfaction survey of its key stakeholders in consultation with Portland State University and a private contractor to ensure that survey design and methods were sound. The agency used the 2006 survey results for customer satisfaction to establish a preliminary baseline target of 88 percent (percent that “agree” or “strongly agree” they are satisfied) for each of the six satisfaction categories: Accuracy; Availability of Information; Expertise; Helpfulness; Timeliness; and Overall Satisfaction with the Department.

In 2018, the Legislature adjusted the targets for each of the six satisfaction categories based on historical performance data. The new targets are as follows:

- Accuracy = 95%
- Availability of Information = 90%
- Expertise = 100%
- Helpfulness = 95%
- Timeliness = 90%
- Overall Satisfaction = 90%

The most recent survey results showed the Oregon State Police (OSP) had lower scores in five out of six customer satisfaction categories when compared to 2020 data, and is similar to 2016 data:

- Accuracy (2022 = 90% | 2020 = 94% | 2018 = 95% | 2016 = 86%)
- Availability of Information (2022 = 70% | 2020 = 85% | 2018 = 88% | 2016 = 72%)
- Expertise (2022 = 95% | 2020 = 96% | 2018 = 99% | 2016 = 95%)
- Helpfulness (2022 = 88% | 2020 = 100% | 2018 = 94% | 2016 = 91%)
- Timeliness (2022 = 71% | 2020 = 71% | 2018 = 75% | 2016 = 73%)
- Overall Satisfaction (2022 = 79% | 2020 = 89% | 2018 = 90% | 2016 = 81%)

In only one category (Expertise), was OSP within five percent of the newly established performance targets in 2022. Similarly, if the newly established targets were in effect in 2016, the Department would have been within five percent in only two categories (Expertise and Helpfulness). Conversely, if the original baseline target of 88 percent was used in 2022, the Department would have met or exceeded the target in three out of the six categories (Accuracy, Expertise, and Helpfulness).

#### **Factors Affecting Results**

Evaluation of the respondents’ comments revealed they were satisfied with the work and effort of the Oregon State Police. A reoccurring theme in the comments made by respondents was how dedicated and hard OSP staff worked to deliver quality services. However, respondents frequently commented how they perceived the agency has having too few resources and/or services to adequately meet the public safety sector’s needs. This perception directly led some respondents to indicate they were unsatisfied/concerned with the agency’s capability to deliver the necessary services, especially as Oregon’s population continues to grow. In addition, vacancies; the pandemic; wildfires; social unrest; and supply chain issues since 2020 have strained existing resources and hampered the Department’s ability to deliver quality services.

The agency will continue to strive to hire, train, and equip staff to protect and serve the people of Oregon. In addition, the Department will seek ways to leverage technology and partnerships with other law enforcement partners to enhance the efficiencies and effectiveness of services provided.

## Secretary of State OSP Audit Reports/Responses

### Reports issued by the Secretary of State (SOS) since June 2020

The Secretary of State Audits Division issued the following Audit Report:

- **Oregon State Police:** Additional Data Analytics Could Better Determine Trooper Staffing Needs and Resources Needs  
Report No. 2022-02  
Performance Date: January 2022

**Full Report (33pgs) is in the Addendum of the 2023-25 Agency Request Budget**

**Summary to Audit Report No. 2022-02** Additional Data Analytics Could Better Determine Trooper Staffing Needs and Resources Needs

This audit focused on the division, and sought to determine whether its workforce planning efforts adequately consider public needs, and trooper safety. The division's primary purpose is to serve as a rural patrol, provide uniform police services on Oregon's 7,000 miles of state and interstate highways, and assist police departments and county sheriffs' offices. With 34 field offices and 522 employees across the state, the division's troopers respond to emergency calls for service on state and interstate highways, and are responsible for crash and crime reduction, among other transportation safety issues.

#### **OSP has broader responsibilities than many other state highway patrol agencies.**

OSP was created in 1931. Its mission is to serve all people with a priority of safeguarding life, property, and natural resources by building upon a diverse, professional, and trustworthy workforce. To accomplish this, the agency, among other duties:

- enforces traffic laws on state roadways;
- investigates and solves crime;
- conducts post-mortem examinations and forensic analyses;
- provides background checks and law enforcement data;
- regulates gaming;
- handles hazardous materials and enforces fire codes;
- educates the public on fire safety; and
- enforces fish, wildlife, and natural resource laws.

Policing practices are increasingly in the public eye, and members of the public as well as policymakers are calling for more accountability measures. OSP is working to increase its diversity, equity, and inclusion (DEI) efforts by recruiting and adding a new DEI team. The agency has also added body-worn cameras to all its troopers and review processes for handling any use of force incidents.

The agency is taking steps to improve its recruitment and retention process so its workforce better reflects the demographics of the state. The agency is also analyzing its interactions with the public in an attempt to ensure fair and equitable treatment of all people. OSP's efforts are outlined in its proposed 2021-23 Affirmative Action Plan.

**The Secretary of State’s Audit Division recommendations:**

To improve trooper staffing analyses, promote public safety, and make the best use of budgeted resources, OSP should:

1. Use available time-based data to analyze the Patrol Services Division’s workload and include the results when presenting budget requests to the Legislature.
2. Continue working with the Legislature to appropriately fund administrative support positions and fill vacant trooper positions.
3. Create a standardized methodology and process for conducting workload analyses at the area level, train the appropriate staff to conduct them, and incorporate them into the Patrol Services Division’s scheduling plan.
4. Develop processes to regularly analyze overtime usage for improved efficiency.

While not within the audit’s scope owing to the fluid and evolving nature of police reform and accountability efforts, OSP should account for the changing law enforcement environment within its staffing strategy and methodology including assessing whether all current duties are aligned with the evolving nature of state policing public policy.

**Agency Response on January 11, 2022, to Mr. Kip Memmott, Director, Audits Division**

This letter provides a written response to the Audits Division’s final draft audit report titled “Additional Data Analytics Could Better Determine Trooper Staffing Levels and Resource Needs”. I would like to begin by communicating to you and the audit team the Department’s appreciation of the investment made in the examination of the models and practices utilized by the Patrol Division in determining staffing needs and deployment. The Mission of Oregon State Police is to serve all people with a priority of safeguarding life, property, and natural resources by building upon a diverse, professional, and trustworthy workforce. Our values: Loyalty, Dedication, Compassion, Integrity and Honor, represent the “moral compass” of our agency. Accomplishing this mission is dependent on the deployment of highly trained, competent and professional Troopers across all areas of the state.

After a review of the audit, the Department generally agrees with recommendations made by auditors. We also agree that implementing some of the recommendations will help provide standardized expectations of area commanders and paint a clearer picture of the staffing resources needed to provide the services expected from the department.

Below is our detailed response to each recommendation in the audit.

<b>RECOMMENDATION 1</b>		
Use available time based data to analyze the Patrol Division’s workload and include the results when presenting budget requests to the legislature.		
Agree or Disagree with Recommendation	Target date to complete implementation activities	Name and phone number of specific point of contact for implementation
Generally Agree	2023-2025 Budget cycle	Cord Wood, Captain 503-378-3720

**Narrative for Recommendation 1**

Over the previous two budget cycles, the Department has used two different staffing models discussed in the audit report to illustrate staffing needs. For the 2017-2019 budget cycle, the Department presented information based on a 24-hr coverage staffing model. For the 2019-2021 budget cycle, the Department used a per capita model for staffing, which the Department felt illustrated the stark difference in Oregon State Police staffing when compared to similar law enforcement agencies with parallel responsibilities. Both models illustrated the Department needs additional staffing resources.

The Department generally agrees there is benefit to making better use of available data and will explore alternative data analysis models to examine workloads and staffing needs in Area Commands across the state. An analysis of demand for service indicators does reveal the baseline number of outputs requested in an Area Command. This data can be used to deploy available staff during times of peak demand. However, time based-data, while useful in extrapolating baseline demands for service and peak days/times, is only one element of the information needed to determine staffing needs for legislative budget requests.

A weakness of time-based analysis is the assumption that all calls for service are equal, and require the same resources for every event. Time-based analysis also tends to focus on the number of outputs processed over a defined period, missing the outcomes that are so important to public safety. Time based analysis alone also misses important factors such as show-up rate, proactive enforcement time, patrol area size, and other responsibilities of staff beyond responses to calls for service.

To overcome the shortcomings of time-based analysis, the Department may also consider combining time-based workload, with other qualitative approaches to gain more holistic view of the demands placed on staff and overcome shortcomings of this model of analysis. The Department will work toward refining processes that synthesize quantitative and qualitative data to be presented with budget requests to the legislature.

<b>RECOMMENDATION 2</b>		
Continue working with the Legislature to appropriately fund administrative support positions and fill vacant trooper positions.		
Agree or Disagree with Recommendation	Target date to complete implementation activities	Name and phone number of specific point of contact for implementation
Generally Agree	End of 2023-2025 Budget cycle	Cord Wood, Captain 503-378-3720

**Narrative for Recommendation 2**

The Department agrees with the auditors of the importance of administrative positions, and the role they have in support sworn Trooper positions and the overall function/mission of Patrol Division and Department. Without the services our support staff perform, sworn Troopers could not be responding to emergency and nonemergency calls for service received every day.

The Department continues to refine our processes to recruit and retain our staff. The Department opened a full time/continuous Trooper recruitment process in November 2021. Recently the department has explored new strategies for finding recruits, actively pursuing opportunities to hire the most qualified, diverse and capable workforce possible. At the same time, the Department has shortened the duration of the recruiting process, and opened processes to recruiting certified/trained

police officers to reduce field-training times. The Department is also in the process of launching multiple health and wellness initiatives to help retain current staff and reduce the openings needing filled.

The Department will continue to seek legislative support and continued appropriate funding of the both non-sworn/administrative positions, Trooper positions, and initiatives to retain sworn and nonsworn staff.

<b>RECOMMENDATION 3</b>		
Create a standardized methodology and process for conducting workload analyses at the area level, train the appropriate staff to conduct them, and incorporate them into the Patrol Services Division’s scheduling plan.		
Agree or Disagree with Recommendation	Target date to complete implementation activities	Name and phone number of specific point of contact for implementation
Generally Agree	June 2022	Cord Wood, Captain 503-378-3720

**Narrative for Recommendation 3**

The Department has always maintained the expectation for Area Commanders to consult the available workload data when developing staff deployment schedules. The current direction for Area Commanders is that data will be examined on a quarterly basis, to look for developing trends in crashes and calls for service. While reviewing call for service and workload data has been the expectation, the Department has not developed and implemented a formalized process for documenting this process.

The Department will continue to develop and refine a standardized methodology for Area Commanders for use in assessing workload for the development of Patrol staff schedules. This process will likely include considerations for standardized format, data sets, data access and training for staff. As mentioned in the audit report, a version of a more standardized workload analysis was adopted by some, but not all Area Commands across the state. An improved data dashboard has recently been placed into service to give all supervisors, including Area Commanders, easier access to more data to analyze the workload of their area commands. The Patrol Division will look for more opportunities to refine and further develop a standardized workload analysis and train appropriate staff to complete these analyses in conjunction with the annual shift selection process.

<b>RECOMMENDATION 4</b>		
Develop processes to regularly analyze overtime usage for improved efficiency.		
Agree or Disagree with Recommendation	Target date to complete implementation activities	Name and phone number of specific point of contact for implementation
Generally Agree	July 2023	Cord Wood, Captain 503-378-3720

**Narrative for Recommendation 4**

Currently the Department has a check and balances system in place to minimize the opportunities for abuse of overtime. First, staff are required to obtain the authorization of a supervisor prior to working overtime. Any overtime hours claimed by an employee during a pay period are reviewed and approved by a supervisor as part of the monthly timecard review process. The system is designed to limit opportunities for abuse or misuse of overtime.

The Department recognizes the benefit of regular analysis of overtime use and being transparent stewards of public funding. Examination of the use of overtime dollars could lead to reductions in waste and reveal opportunities to promote efficiencies. Looking at overtime beyond the monetary cost, analysis of overtime use also gives supervisors an opportunity to monitor the stress placed on personnel under their supervision from excessive overtime hours.

Currently, the Department is implementing Workday Enterprise Management system. As the Department continues this implementation and migration toward Workday's e-payroll solutions opportunities for analysis of overtime data input into the system may be revealed. Currently, the target date for implementation of the Workday e-time payroll system is July 2022.

Please contact Captain Cord Wood at 503-378-3720 with any questions.

**Affirmative Action Executive Summary**

In 2016 the Oregon State Police developed a **Strategic Roadmap** containing four key concepts which has guided the agency’s work: Develop Internal Capabilities, Collaboration, Stewardship and Transparency, and Continuously Improve Service Delivery. There were principles related to Diversity, Equity and Inclusion interwoven into this work such as striving to have a diverse workforce that represents Oregon that is healthy and engaged, properly trained and mentored, and collaborating with under-represented community groups as essential to fulfilling our core mission. The agency created an implicit bias training program that was delivered to all employees and increased the level of participation in the Statewide Diversity and Inclusion Conference, growing the number of employee attendees by an average of 30% each year since 2015. The agency then instituted an Inclusion Policy and staffed an Inclusion Team. The Team is comprised of employees who have worked to understand the complexities of building a workforce representative of the gender, ethnic, linguistic and racial diversity of Oregon.

In the 2019 collective bargaining period, the agency provided a method for compensating employees who speak a language other than English to better serve those we encounter with limited English proficiency. The agency recognizes the importance of serving all people, regardless of difference, in a way that respects their dignity. As we continue our work and reflect on learned lessons from prior actions, our goal is to raise the bar on today’s standards of policing.

The agency understands the importance of earning and retaining the trust of communities we serve. The events of 2020 have shown us that our efforts to build a workforce more representative of the gender, ethnic, linguistic and racial diversity of Oregon must continue. This organization wants to have a staff that reflects our demographics in this state, and we recognize this requires a concerted effort to improve our recruitment and training programs. The OSP Training division implemented a recruiting strategy targeting quality and diverse candidates from various communities using strategic advertising and recruitment efforts. In addition to attending in-person events, they utilized an approach of building and maintaining partnerships with the institutions and organizations that could provide long-term contacts with populations they sought to attract to apply. In order to meet these goals in future years, the agency will be participating at the enterprise level to better evaluate if utilizing LinkedIn would improve our ability to reach a diverse pool of candidates. Additionally, the agency submitted Policy Option Packages for consideration in the 2021 legislative session designed to enhance our ability to recruit, retain, promote and provide wellness support for employees.

The data reported is extracted from the Workday HRIS system which houses all data. The total headcount as of 1,329 reflects the number of people employed as of June 30, 2020 for all divisions within the Oregon State Police. The Governor’s Office of Diversity, Equity & Inclusion has provided a deadline of October 12, 2020 for the agency to submit the 2021-2023 Affirmative Action report for review.

Category	# of Employee	Total Headcount	Percentage

# PROPOSED SUPERVISORY SPAN OF CONTROL REPORT

In accordance with the requirements of ORS 291.227, Oregon State Police presents this report to the Joint Ways and Means Committee regarding the agency's Proposed Maximum Supervisory Ratio for the 2021-2023 biennium.

## Supervisory Ratio for the last quarter of 2021-2023 biennium

The agency actual supervisory ratio as of June 30, 2021, is 1: 10.51 (from last Published DAS CHRO Supervisory Ratio)

**The Agency actual supervisory ratio is calculated using the following calculation;**

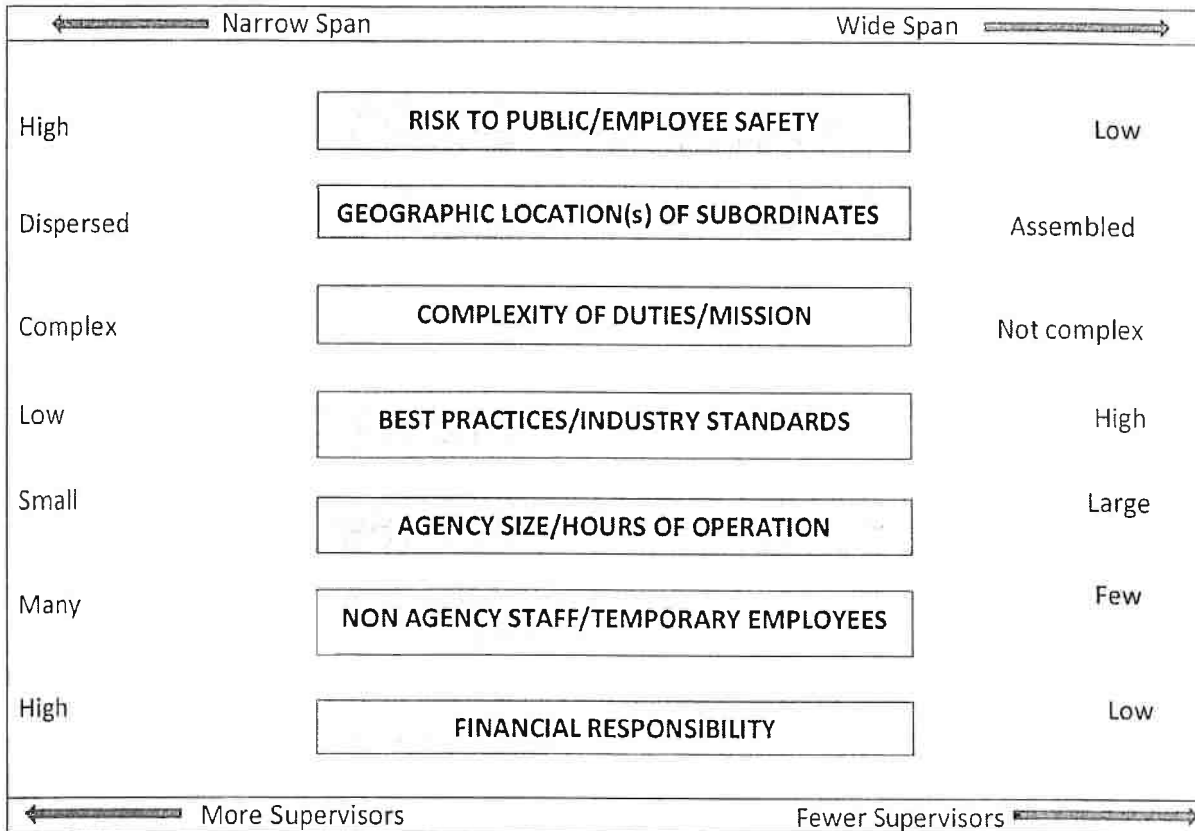

$$\frac{162}{\text{(Total supervisors)}} = \frac{135}{\text{(Employee in a supervisory role)}} + \frac{27}{\text{(Vacancies that if filled would perform a supervisory role)}} - \left( \frac{1}{\text{(Agency head)}} \right)$$

$$\frac{1,522}{\text{(Total non-supervisors)}} = \frac{1,239}{\text{(Employee in a non-supervisory role)}} + \frac{283}{\text{(Vacancies that if filled would perform a non-supervisory role)}}$$

The agency has a current actual supervisory ratio of -

$$1: \frac{9.4}{\text{(Actual span of control)}} = \frac{1,522}{\text{(Total non - Supervisors)}} / \frac{162}{\text{(Total Supervisors)}}$$

When determining an agency maximum supervisory ratio all agencies shall begin of a baseline supervisory ratio of 1:11, and based upon some or all of the following factors may adjust the ratio up or down to fit the needs of the agency.

## Ratio Adjustment Factors

Is safety of the public or of State employees a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

The safety of Oregonians is a major governmental priority and is the impetus for which Oregon State Police operates. The work of the agency presents a high risk to the safety of the public and state employees. OSP's activities are indicative of public safety, and include:

- **Patrol** – provide uniform presence and law enforcement services all across Oregon, with a primary responsibility for crash reduction, crime reduction, and other transportation safety issues; as well as to respond to emergency calls for service on Oregon's state and interstate highways (i.e. Collision Reconstruction Program, Commercial Motor Vehicle Enforcement program, Criminal Apprehension through Patrol Enforcement (CAPE), Ignition Interlock Device (IID) program, Special Weapons and Tactics (SWAT), Traffic Incident Management (TIM), Driving Under the Influence of Intoxicants (DUI) program, etc.)
- **Criminal Investigations** – detectives are located across the state to support field investigative services, local law enforcement with major criminal investigations and are the primary criminal investigative services on state property and at state institutions
- **Sex Offender Registration** – track the registrations of persons convicted of sex crimes who reside, work or attend school in Oregon
- **Forensic Services** – provides scientific, technical and investigative support to the criminal justice system (i.e. DNA analysis, toxicology, trace evidence, crime scene/field investigations, controlled substance analysis, etc.)
- **State Fire Marshal** – protects citizens, their property, and the environment from fire and hazardous materials (i.e. fire & life safety education, regulatory services, emergency response services, fire & life safety services). State Fire Marshal becomes an independent agency effective July 1, 2023.
- **Fish & Wildlife** – ensure compliance with the laws and regulations that protect and enhance the long-term health and equitable use of Oregon's fish and wildlife resources and the habitats upon which they depend
- **Gaming Enforcement** – provide gaming enforcement activities for the Oregon Lottery and regulatory functions for Tribal Gaming as well as provide vendor background investigations
- **Automated Biometric Identification System (ABIS)** – As it relates to safety of the public, the ABIS system is used for electronically searching, retrieving and maintaining fingerprint files for use in processing criminal and applicant fingerprints
- **Firearms Instant Check System (FICS)** – State Police also conducts firearms background checks on persons attempting to purchase a firearm (ORS 166.412) to ensure safety of the public

These Agency functions and programs aim to carry out the mission of the Oregon State Police, which is to serve the State of Oregon with a diverse workforce dedicated to the protection of people, property and natural resources.

Is geographical location of the agency's employees a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

OSP employees work in 43 offices throughout Oregon with locations across the state. Services provided touch on every county in Oregon and span many rural and all major metropolitan areas. The geographic nature of our state, and the core functions of OSP demonstrate that the agency has a large, dispersed work force across the state. This demonstrates the need for a span of control that is manageable given the displacement of the agency's workforce across the state.

Is the complexity of the agency's duties a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

Oregon is ranked 16 in the US News rankings of the "Best States" for quality of life in the United States. The public's safety is a major indicator of quality of life. OSP's mandate is a primary driver affecting quality of life. To ensure that the Agency's mandate is met requires a complex framework of activities. This complexity is further reflected through the duties that the Agency is accountable to perform. To determine Agency complexity, the Agency made a thoughtful exposition of the complexity of its programs and has provided an objective framework to determine reasonableness of the span of control ratio based on the complexity of the agency's duties.

In addition, OSP is more than what many people see as highway patrol. The agency's complexity of duties ranges from all the programs from the State Fire Marshal's Office to Fish & Wildlife compliance, to the vast array of services from: Criminal, Tribal Gaming, Forensic and Medical Examiner services, Sex Offender Registration, Oregon State Athletic Commission and many other complex programs ensuring the safety of Oregonians.

Are there industry best practices and standards that should be a factor when determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

Span of control has been a topic of research and exploration for many industries. The following publication was published specifically related to the Police Services industry. The Police Executive Research Forum (PERF) published an article in their Critical Issues in Policing Series called: *Promoting Excellence in First-Line Supervision: New Approaches to Selection, Training, and Leadership Development (2018)*. Here are some excerpts from the publication. Below are some excerpts from the research publication:

- PERF queried member agencies on their average ratios of officers to sergeant. The numbers ranged from a low of 1:4 to a high of 1:15. The average ratio was approximately 7 officers for each sergeant.
- PERF also asked what members thought the ideal ratio of officers to sergeants would be. Among agencies that responded, the average "ideal" ratio was 6 officers for one sergeant.
- **Administrative work vs. supporting officers in the field:** As the role of sergeants shifts from largely administrative to a more hands-on approach, these numbers take on added importance. Sergeants who supervise large numbers of officers must spend more of their time on administrative tasks (scheduling, timekeeping, and other human resource issues). Sergeants with fewer officers are free to devote more of their time to being in the field and providing direct supervision and guidance to their officers.

- **Technology can help:** If agencies are to be successful in effectively managing the types of incidents that “keep chiefs up at night” — potential use-of-force situations, police pursuits, active shooters, and other critical incidents — they need to ensure that sergeants have time to be in the field. For some agencies, that means increasing their cadre of sergeants. It can also mean implementing new technologies that allow sergeants to complete administrative tasks more efficiently, and to handle paperwork electronically while they are on the street. Several participants at the Critical Issues conference discussed officer-to-sergeant ratios and how the span of control has a significant impact on the performance of first-line supervisors and their ability to fulfill the range of their duties effectively.
- “Sometimes the span of control gets too far out of proportion. I’ve handled six, eight, 10 officers before. With 10, I hardly spent any time on the street. Give me six officers and a I can get my paperwork done but also spend time with the officers. I can mentor them, and my team can perform if I can be there with them. I think if the numbers get too high, you can’t do that.” – Houston Sergeant Charles Corgey
- Question & Answer between Chuck Wexler, Executive Director for PERF and Seattle Lieutenant Shanon Anderson:
  - **Mr. Wexler:** Lieutenant Anderson, are there things that you want to do but can’t do, because you’re spending so much time on documentation?
  - **Lieutenant Anderson:** It depends on span of control. If you have enough sergeants to oversee your officers, and your span of control is reasonable for the workload, your sergeants can be out on the street. Your sergeants and your first-line supervisors are like on-field coaches. They’re your base coaches. They’re the ones telling the officers when they need to run, when they need to slow down, and when they need to take risks now and then. They’re vital to the efforts on the street.
- Question & Answer between Chuck Wexler, Executive Director for PERF and Portland Chief of Police Danielle Outlaw:
  - **Mr. Wexler:** Danielle, you were Deputy Chief in Oakland, which had a consent decree, and now you’re Chief in Portland, which also has a consent decree. What’s your perspective on how these settlement agreements affect sergeants?
  - **Chief Outlaw:** The agreements increase the work sergeants must do. One of the things we did to address this issue is create “administrative sergeant” positions. But that still did not lessen the workload of the sergeants in the field. That’s why I talk about span of control being extremely important, because the sergeants’ workload increases as our expectations for accountability and oversight are getting pushed down to the sergeants. Today, these expectations aren’t just for the command staff, they really stand on the shoulders of the sergeants as well.
- Summary: The Role of Sergeants, as Seen by Chiefs—and by Sergeants
  - **A sergeant’s span of control matters:** How many officers a sergeant supervises has a direct bearing on the sergeant’s job. Sergeants who supervise large numbers of officers tend to have less time available to be out in the field, working directly with their officers and engaging with the community, because they need more time to manage their administrative duties. PERF queried police agencies on their average ratios of officers to sergeants. The numbers ranged from a low of 4:1 to a high of 15:1. The average ratio was approximately seven officers for each sergeant. PERF also asked police officials to suggest an ideal ratio of sergeants to officers. Among agencies that responded, the average ideal ratio was six officers for one sergeant.
- Conclusion: 11 Steps Agencies Can Take to Improve First-Line Supervision
  - **Step 7. Keep officer-to-sergeant ratios down, so sergeants have more time to spend on the street.** Managing their administrative tasks and field supervision duties has always been a difficult balancing act for sergeants. The more officers they supervise, the more time sergeants must spend on administrative tasks, usually in a station house. If agencies are to give sergeants the discretionary time they need to supervise officers in the field, they must strive to limit sergeants’ administrative burdens. Promoting more sergeants or designating some as “administrative sergeants” are two ways to help keep officer-to-sergeant ratios manageable. The appropriate ratio of officers to sergeants can vary, depending on the workload of a particular unit. But as a general matter, PERF asked police officials for an estimate of an ideal average “span of control” ratio, and among agencies that responded, the average “ideal” ratio was six officers for one sergeant.

Is size and hours of operation of the agency a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

The Oregon State Police operates 24/7 with a FTE authority over thirteen hundred. In addition to OSP operating as an agency 24/7, OSP is the primary agency for three emergency support functions:

- ESF 4—Firefighting
- ESF 10—Hazardous Materials
- ESF 16—Law Enforcement

In addition, OSP is a supporting agency for the following emergency support functions:

- ESF 1—Transportation
- ESF 2—Communication
- ESF 9—Search and Rescue
- ESF 10—Hazardous Materials
- ESF 14—Public Information
- ESF 17—Agriculture and Animal Protection

The breadth and scope of these emergency functions demonstrates the complexity of work performed across OSP and the criticality of the work performed. These critical functions provided by the Agency requires the associated staff, equipment and facilities to be ready and prepared, at a moment's notice, in the event an emergency arises. Having supervisory oversight, which includes accountability, during states of emergency is essential to manage through the crises.

There are many specific around the clock operations within State Police, such as: patrol services, dispatch, fire response, fish and wildlife compliance, tribal gaming regulation amongst many more services. The hours of operation for OSP indicate that span of control and accountability is imperative to carry out the mission of the agency.

Are there unique personnel needs of the agency, including the agency's use of volunteers or seasonal or temporary employees, or exercise of supervisory authority by agency supervisory employees over personnel who are not agency employees a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

There are many unique personnel needs across OSP. Below are examples of the unique personnel needs for the agency:

- **Health, wellness and resiliency** – The Oregon State Police has seen an increasing trend in a number of areas concerning employee well-being in the last several years. Increased public scrutiny, stressful working conditions and a lack of resources all contribute to the factors that negatively impact our employee's wellness and resiliency. Working with the victims of violence and trauma changes the worldview of responders and puts individuals and organizations at risk for a range of negative consequences. The agency is taking strides to address these issues by adding additional resources to build a health, wellness and resiliency program which will incorporate an evaluation of offices safety procedures, support programs for our law enforcement, and first responders for traumatic or critical incidents. Education and training for agency leaders to promote a supportive culture within our Agency.

By decreasing our supervisor ration level, the agency will reduce investigation times, ensure quality control and increase public accountability. Addressing and resolving complaints in an efficient manner will return employees to work faster which is beneficial to their mental health and wellbeing.

- **State Fire Marshal** – The Office of the State Fire Marshal responds to wildfires across Oregon, specifically when the Governor calls a conflagration (ORS 476.510 to 476.610). The Office of the State Fire Marshal then coordinates and provides direction to local fire departments and firefighting volunteers to respond accordingly to the conflagration. State Fire Marshal becomes an independent agency effective July 1, 2023.
- **Legislative** – Oregon State Police provides sworn protection for the Governor through hiring temporary employees within the Dignitary Protection Unit.
- **Oregon State Athletic Commission** – OSP recruits qualified medical personnel to serve as Ringside Physicians. OSP requires medical personnel at all regulated events and they must be licensed in Oregon.

Is the financial scope and responsibility of the agency a factor to be considered in determining the agency's maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11

This Oregon State Police budget constitutes a large allocation of state funds and is commensurate to the complexity and critical nature of the Agency's charge.

Oregon State Police's budget is complex and has multiple fund types. For 2021-23 biennium, General Fund totals \$517.7 million. Dedicated Lottery Funds (Ballot Measure 76) partially support the Fish and Wildlife Enforcement Division and account for 1.3% of the budget. Other Funds make up 35.8% of the Department's budget and Federal Funds account for the remaining 1.97%. Other Funds include marijuana tax revenues (15% of tax proceeds); the Fire Insurance Premium Tax, which supports the operations of the State Fire Marshal; and a transfer from the Oregon Department of Fish and Wildlife to support enforcement of fish and wildlife laws. Federal funds come primarily from agreements with and grants from federal agencies.

The complex budget authority that OSP has a high financial responsibility to manage and ensure good use of state funds.

Below is a high-level chart of the agency's budget:

<b>2021-23 Budget Summary</b>	
General Fund	\$ 517,684,229
Other Funds	\$ 196,540,665
OF Cap Construct	\$ 110,205,689
Lottery Funds	\$ 11,317,795
Federal Funds	\$ 16,833,246
GF Debt Service	\$ 2,674,818
Total	\$ 855,256,442

Based upon the described factors above the agency proposes a Maximum Supervisory Ratio of 1:8.

**Unions Requiring Notification:**

- American Federation of State, County and Municipal Employees (AFSCME)
- Oregon State Police Officers' Association (OSPOA)

**Date unions notified:**
