

The Oregon State Police will be a leader in delivering high-quality services that support and enhance public safety in the 21st Century.

The **mission** of the Oregon State Police is to serve **all** people with a priority of safeguarding life, property, and natural resources by building upon a diverse, professional, and trustworthy workforce.

Our values represent the “moral compass” of our agency. We are committed to living these values every day and embodying them in our daily activities as public safety professionals:

Honor—We will honor our mission entrusted to us by preserving and protecting the public’s safety.

Dedication—We are dedicated to delivering excellent public safety services.

Loyalty—We are loyal to the agency’s public safety mission and citizens we serve.

Compassion—We will serve all people and fulfill our duties with the utmost understanding and empathy.

Integrity—We will act with the highest level of responsibility and accountability in accordance with the public’s interest and trust.

Anonymous Analysis Program

The Program

The **Anonymous Analysis Program** was established to assist parents/guardians who find suspected drugs in the possession of their minor children. Parents/guardians may submit suspected drugs by delivering the item(s) directly to their local OSP Forensic Lab or OSP Office. The item(s) will be tested for the presence of controlled substances and then destroyed. **Testing is free and confidential**, and the results will not be used for enforcement purposes. The findings will be reported verbally to the submitting OSP representative or directly to the parent/guardian who made the request.

Though the status of drug possession has changed in Oregon, OSP remains committed to assisting parents in helping minors make healthy decisions and to get assistance as needed.

WHAT SHOULD YOU DO?

- ◇ Collect suspected drugs using gloves. Package the item in a clear plastic bag when possible.
- ◇ Call your local OSP Lab or office to coordinate a drop off time.

WHAT WILL THE LAB DO?

- ◇ Assign a lab number to the submission that the parent/guardian can reference.
- ◇ Assign the item to an analyst, who will perform the analysis as soon as possible.
- ◇ Release the findings verbally to the parent/guardian or OSP representative and destroy the item.

Examples of Submissions

Pharmaceutical and/or novelty pills

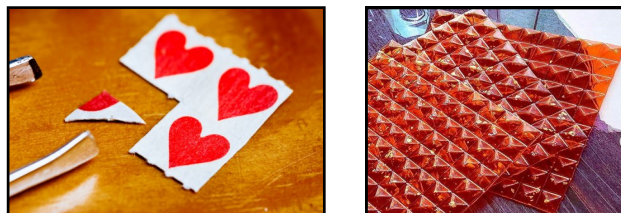

Drug paraphernalia

Powders, crystals, black tar-like substances

Hallucinogenic substances in the form of gel or paper

Additional Information

SAFETY

- ◇ Use caution when handling substances—use gloves whenever possible. **Treat all substances as TOXIC**
- ◇ Pill imprints can be misleading, many are counterfeit and contain dangerous designer drugs

PACKAGING

- ◇ Use a clear plastic bag, when possible
- ◇ Secure zip locks and loose substances to prevent spilling
- ◇ Do not include extraneous items
